2026 SUMMARY
ANNUAL REPORT

TABLE OF CONTENTS

Forward-Looking Statements

This annual report includes forward-looking statements relating to our business. These forward-looking statements, or other statements made by us, are made based on our expectations and beliefs concerning future events impacting us and are subject to uncertainties and factors, which are difficult to predict and, in many instances, are beyond our control. As a result, our actual results could differ materially from those expressed in or implied by any such forward-looking statements. These uncertainties and factors include, but are not limited to, those detailed in our filings with the Securities and Exchange Commission, including the risk factors set forth in our Form 10-K for the year ended May 31, 2026, as the same may be updated from time to time. We do not undertake any obligation to publicly update or revise any forward-looking statements to reflect future events, information or circumstances that arise after the date hereof.

Euclid Chemical products help repair and extend the life of concrete structures.

CEO LETTER

TO OUR SHAREHOLDERS, ASSOCIATES AND CUSTOMERS

Fiscal 2026 was another year that demonstrated the strength, resilience and adaptability of RPM.

We continued to operate in a VUCA world defined by volatility, uncertainty, complexity and ambiguity. Inflationary pressures, tariff uncertainty, and geopolitical instability have all created challenges worldwide. Yet, as we've done throughout our history, we remained focused on what we could control: serving our customers, supporting our associates, driving operational excellence and creating long-term value.

This year's theme—*By Building a Better World, We Create Value for All*—captures our mission. Every day, our associates solve challenges that matter. They restore aging schools and hospitals, protect critical infrastructure, improve building performance, and create products that people rely on at home, at work and in their communities. As we do this work well, we create value for everyone; our customers get better solutions, our associates build meaningful careers, and our shareholders see sustainable returns.

RPM's diversified portfolio, combined with its repair-and-restoration focus, continued to provide stability in a volatile economic environment. Our businesses serve essential needs that don't disappear during economic uncertainty: roofs still need waterproofing, drywall still needs to be patched, and facilities still need maintenance.

Our operational discipline helped us navigate this environment more effectively than ever. Through procurement initiatives, Lean manufacturing, Green Belt programs, center-led operations and greater connectivity across our businesses, we have continued to strengthen efficiency, resilience and competitiveness. Beyond reducing costs, these improvements allow us to better serve our customers and create value for all.

CONTINUED ON PAGE 2

CEO LETTER CONTINUED FROM PAGE 1

Fiscal 2026 was also an important step in RPM's evolution toward becoming a more collaborative organization. Following our transition to a three-group operating structure, we continued aligning our businesses around shared capabilities, stronger cooperation and greater opportunities for growth. This structure accelerates our focus on a comprehensive systems-selling approach, particularly within our Construction Products Group and Performance Coatings Group, where customers increasingly seek integrated solutions rather than individual products.

Growth remains a key component of our long-term strategy. During this past year, we strengthened our portfolio through strategic acquisitions such as Kalzip, LiteForm, PAVA, Ready Seal and ThruBeam. These businesses expand our systems-selling capabilities and geographic reach. We also continued organic growth investments, such as our new plant in India, to support increasing demand in emerging markets, expanded capacity in several businesses and accelerated product innovation.

Honoring Distinguished Board Service

In October 2026, we will recognize the retirement of two highly respected members of RPM's board of directors: William Summers, Jr. and Bruce Carbonari.

Bill and Bruce have each contributed more than 20 years of dedicated service to RPM. Throughout their tenure, they have provided invaluable leadership, strategic guidance and governance oversight during a period of significant growth and transformation for our organization. During this period, RPM's annual sales increased from $1.9 billion to $7.9 billion—a gain of over 300%—while the quarterly dividend paid to our shareholders grew by more than 330%. Over the same timeframe, RPM's market capitalization expanded from approximately $2 billion to $14 billion, creating significant value for shareholders. Their experience, insight and commitment to our values have helped strengthen RPM and position us for long-term success.

On behalf of RPM's board of directors, leadership team and associates around the world, we extend our sincere gratitude to Bill and Bruce for their many contributions and lasting impact on RPM.

William Summers, Jr.

Bruce Carbonari

In addition, we continued to strengthen our leadership team. Dave Dennsteadt was recently promoted to President & Chief Operating Officer of RPM, Greg Michael was named President of our Performance Coatings Group, and Don Harmeyer was appointed President of our Consumer Group. At the Board level, we welcomed Thomas Gentile, Chairman, Chief Executive Officer & President of Hexcel Corporation, as a Director. These leadership transitions reflect the depth of talent within RPM and position us well for the future while preserving the entrepreneurial culture that has defined our company for generations.

Underlying all of this are the values that guide RPM: Transparency, Trust and Respect. These principles shape how we operate, how we make decisions and how we engage with our stakeholders. They are the foundation of our culture and a key reason RPM continues to thrive through changing conditions.

None of this would be possible without the dedication of our associates, the trust of our customers and the confidence of our shareholders. Thank you for your continued support.

Frank C. Sullivan
Chair and Chief Executive Officer
RPM International Inc.

August 25, 2026

FY26 PERFORMANCE

Since the company's founding in 1947, RPM has grown to become a $7.9 billion multinational leader in specialty coatings, sealants, building materials and related services that are trusted by consumers and professionals. The company operates 120 manufacturing facilities in five regions across the globe. RPM maintains a strong track record of industry-leading returns, with fiscal 2026 marking the 52nd consecutive year of increasing cash dividends paid to our shareholders. This achievement places RPM in an elite category of less than 0.5% of all publicly traded U.S. companies.[1] Additionally, through our **Building a Better World** program, we are ensuring sustainability is integrated into the development, manufacturing and functionality of our products, how we care for our people and how we operate our business.

OUR THREE-GROUP STRUCTURE

RPM's three-group structure is designed to increase connectivity across businesses, drive synergies, and strengthen operational alignment across our global portfolio while maintaining the entrepreneurial approach to customers through leading brands.

CONSTRUCTION PRODUCTS GROUP

NET SALES: $3.1 billion

Creating and driving the market by solving unique, high-value problems for the construction, restoration and maintenance of the building envelope, air handling and infrastructure

PERFORMANCE COATINGS GROUP

NET SALES: $2.1 billion

Protecting, enhancing and extending the life of industrial, commercial and infrastructure surfaces

CONSUMER GROUP

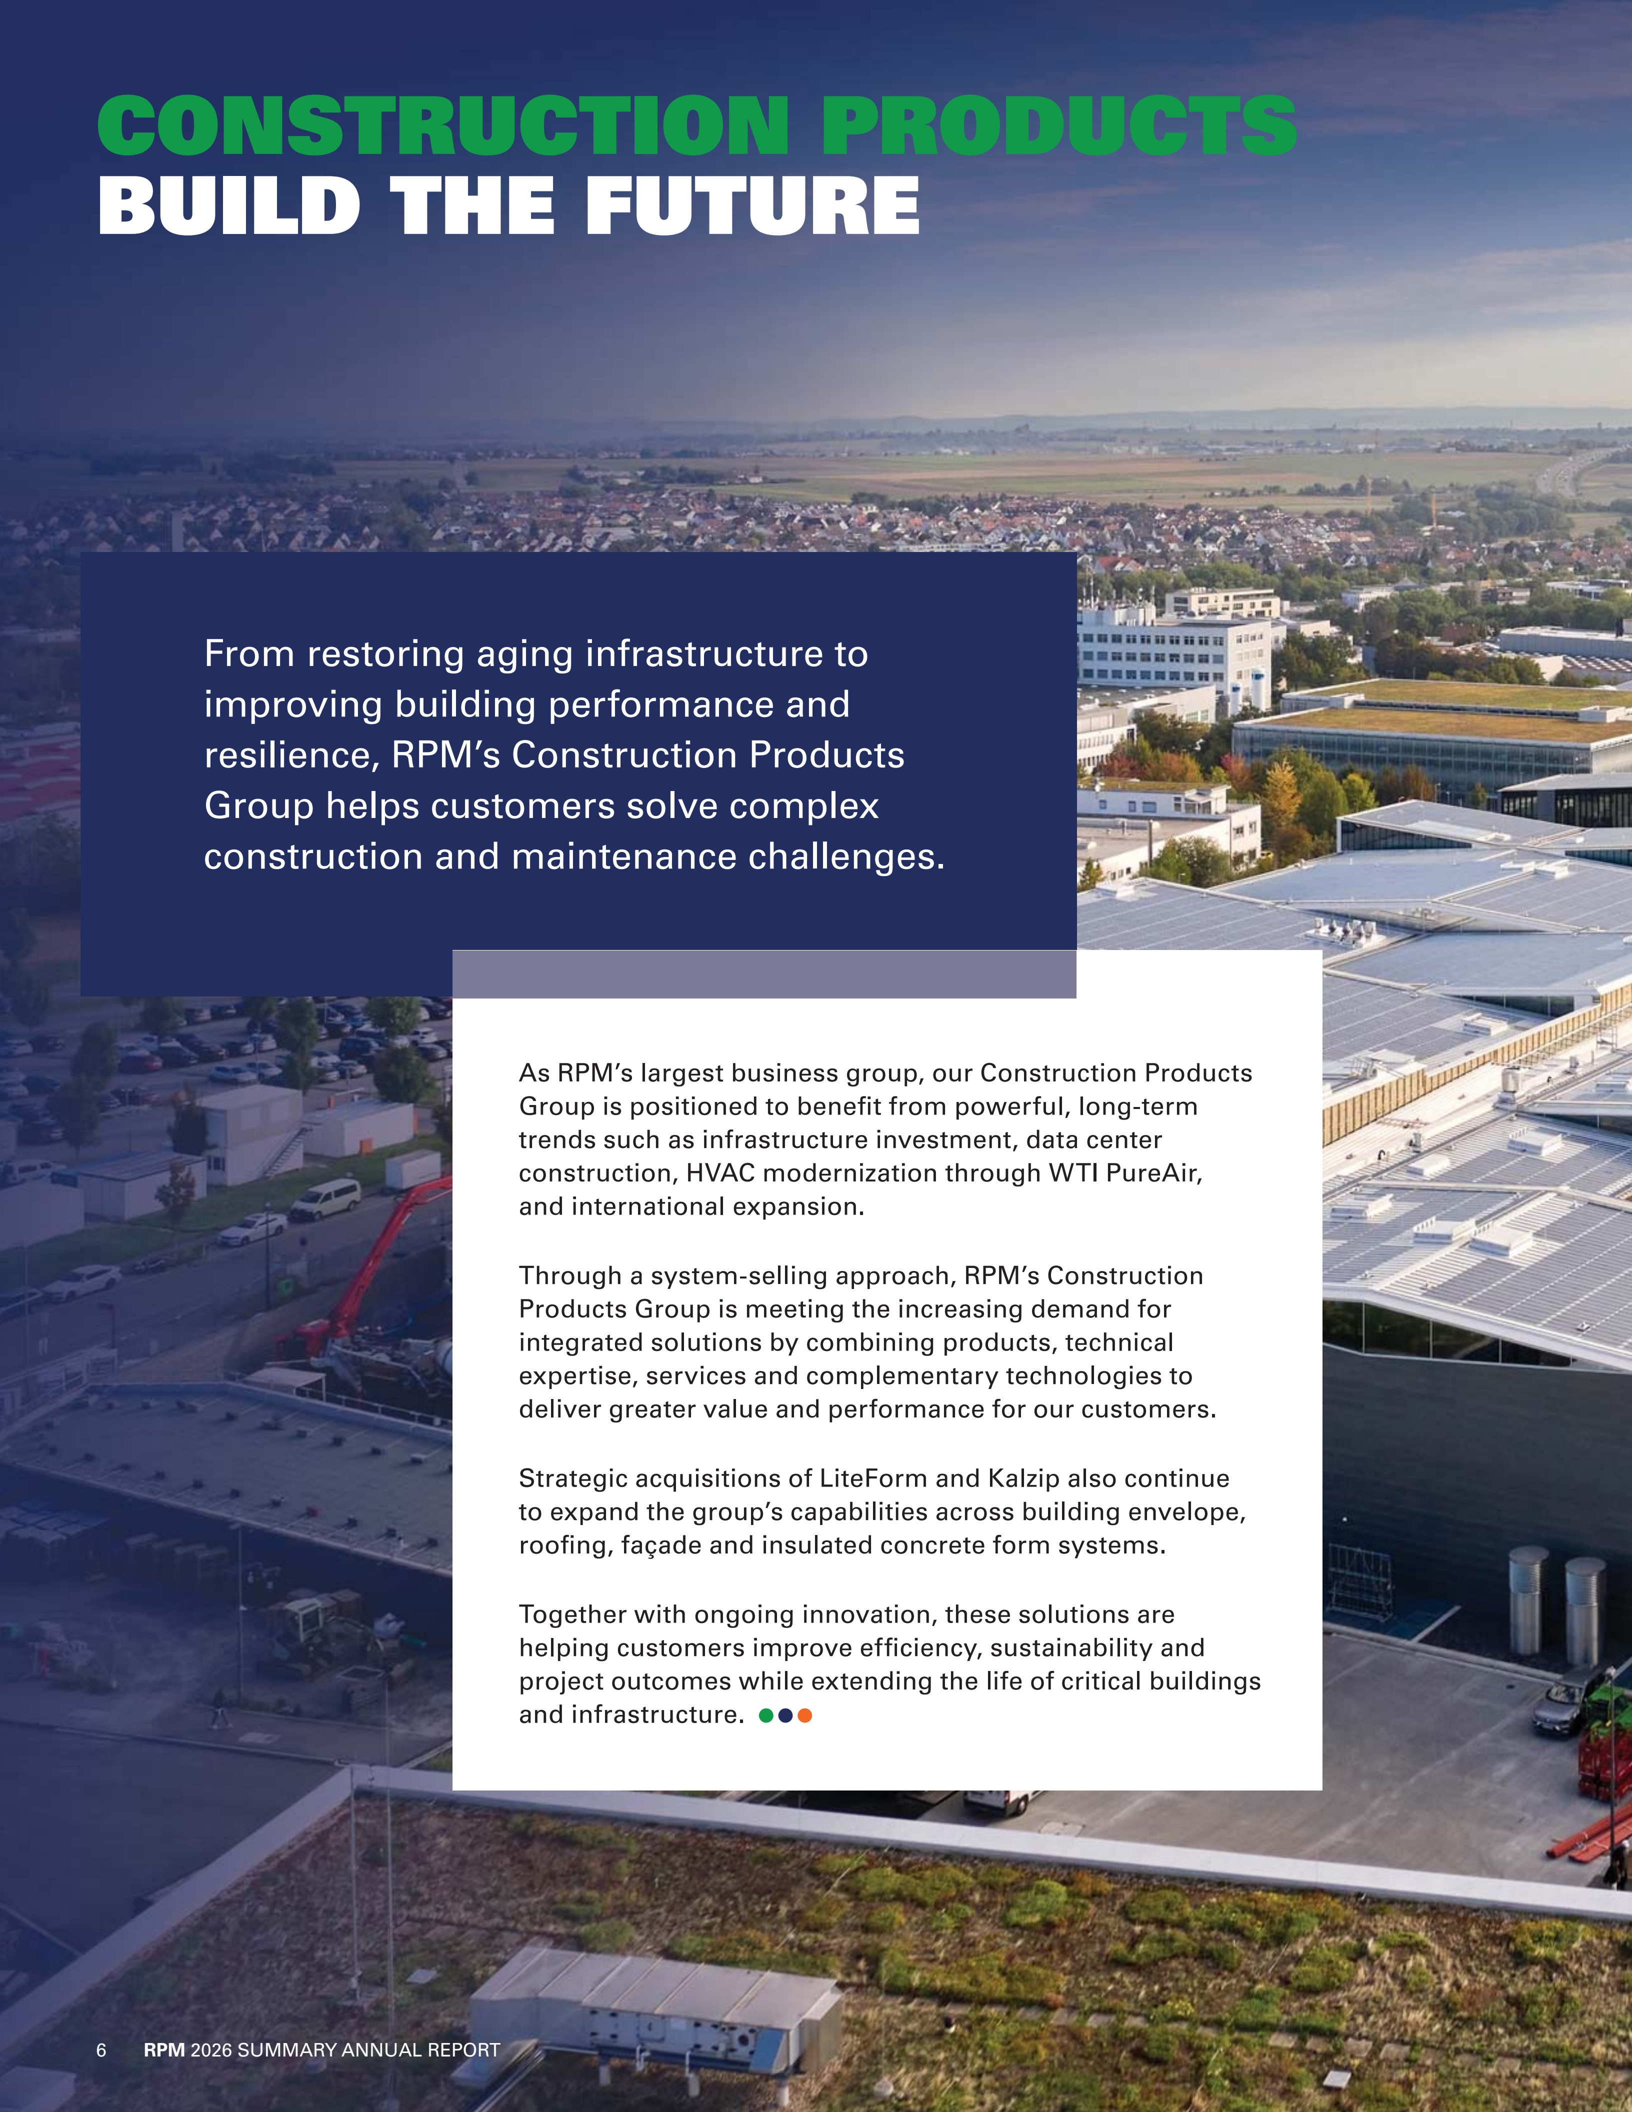
NET SALES: $2.7 billion

Building trusted brands and providing innovative solutions to protect, enhance, maintain and build residential and commercial assets

WHAT WE DO

Formulate Products, Systems & Solutions

RPM helps build a better world by formulating products, systems and solutions that protect, beautify, repair and enhance the performance and longevity of structures, buildings and objects.



CONSTRUCTION PRODUCTS BUILD THE FUTURE

From restoring aging infrastructure to improving building performance and resilience, RPM's Construction Products Group helps customers solve complex construction and maintenance challenges.

As RPM's largest business group, our Construction Products Group is positioned to benefit from powerful, long-term trends such as infrastructure investment, data center construction, HVAC modernization through WTI PureAir, and international expansion.

Through a system-selling approach, RPM's Construction Products Group is meeting the increasing demand for integrated solutions by combining products, technical expertise, services and complementary technologies to deliver greater value and performance for our customers.

Strategic acquisitions of LiteForm and Kalzip also continue to expand the group's capabilities across building envelope, roofing, façade and insulated concrete form systems.

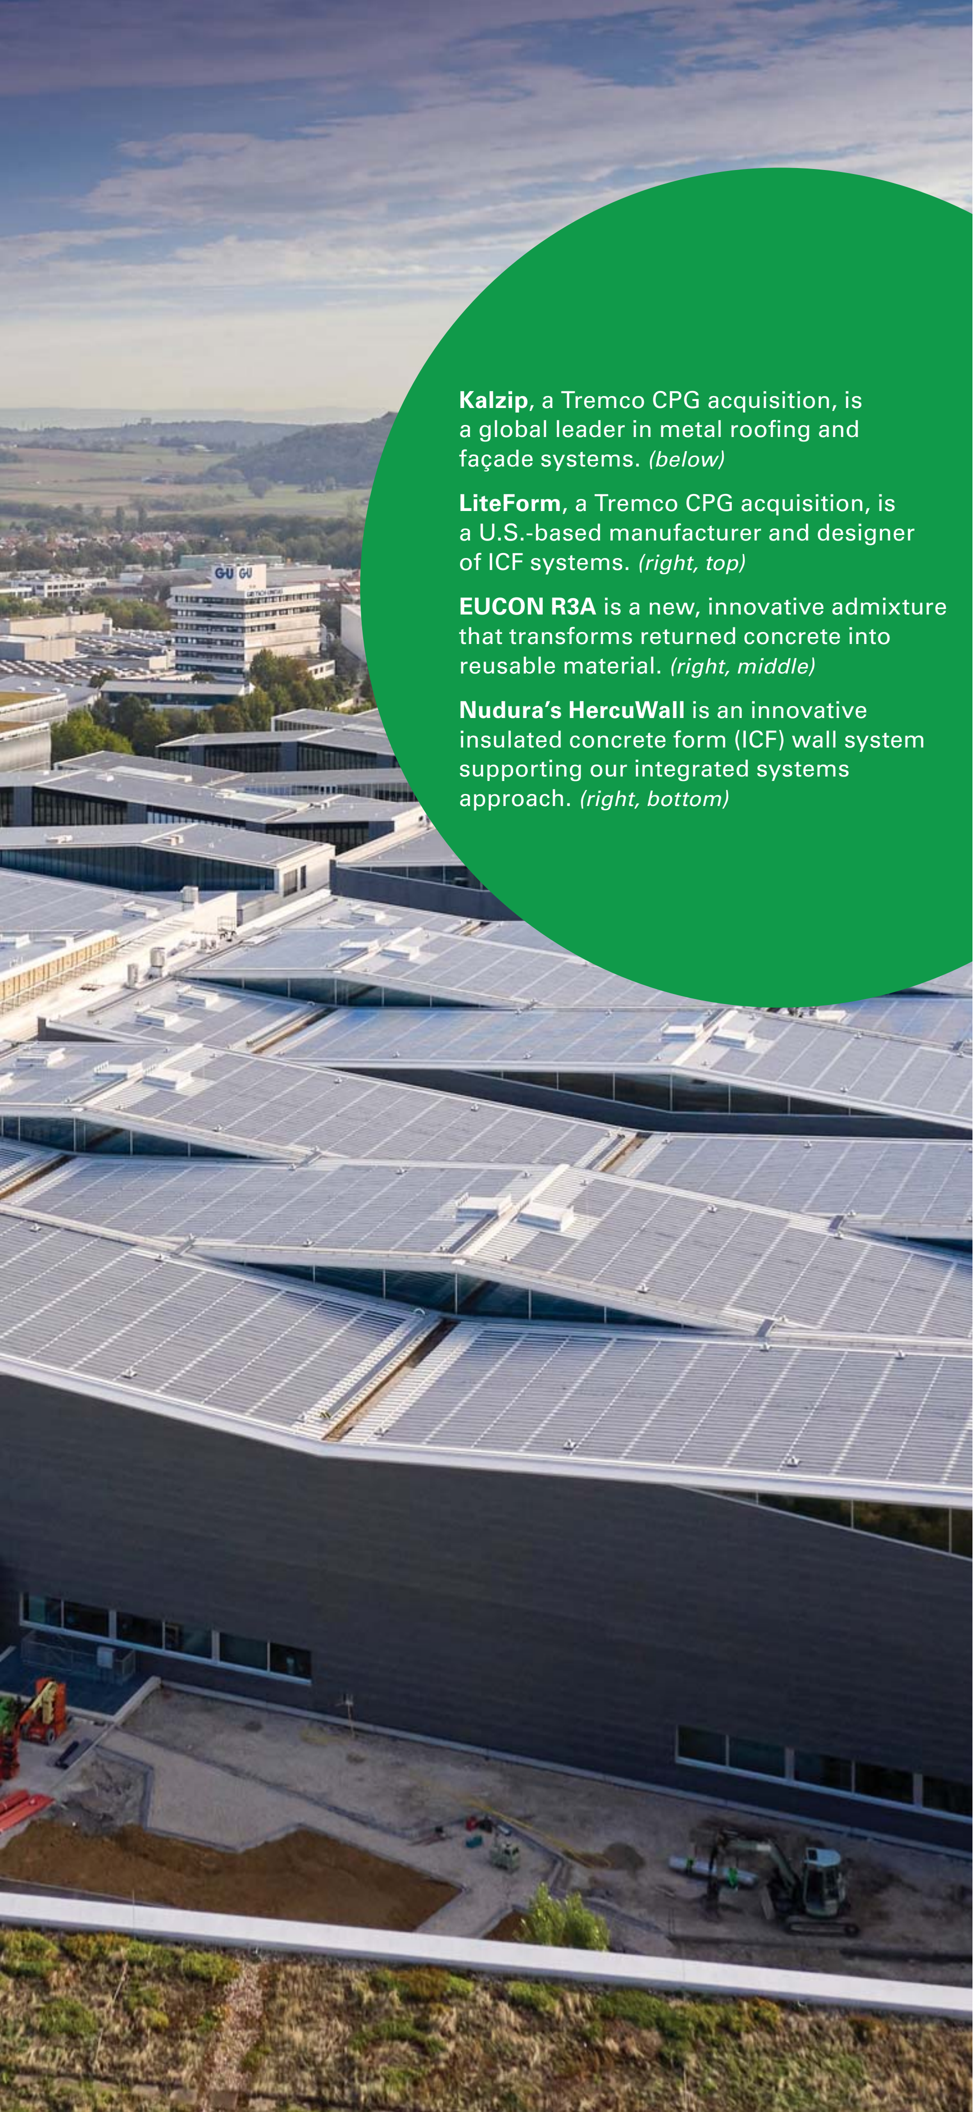
Together with ongoing innovation, these solutions are helping customers improve efficiency, sustainability and project outcomes while extending the life of critical buildings and infrastructure.

Kalzip, a Tremco CPG acquisition, is a global leader in metal roofing and façade systems. *(below)*

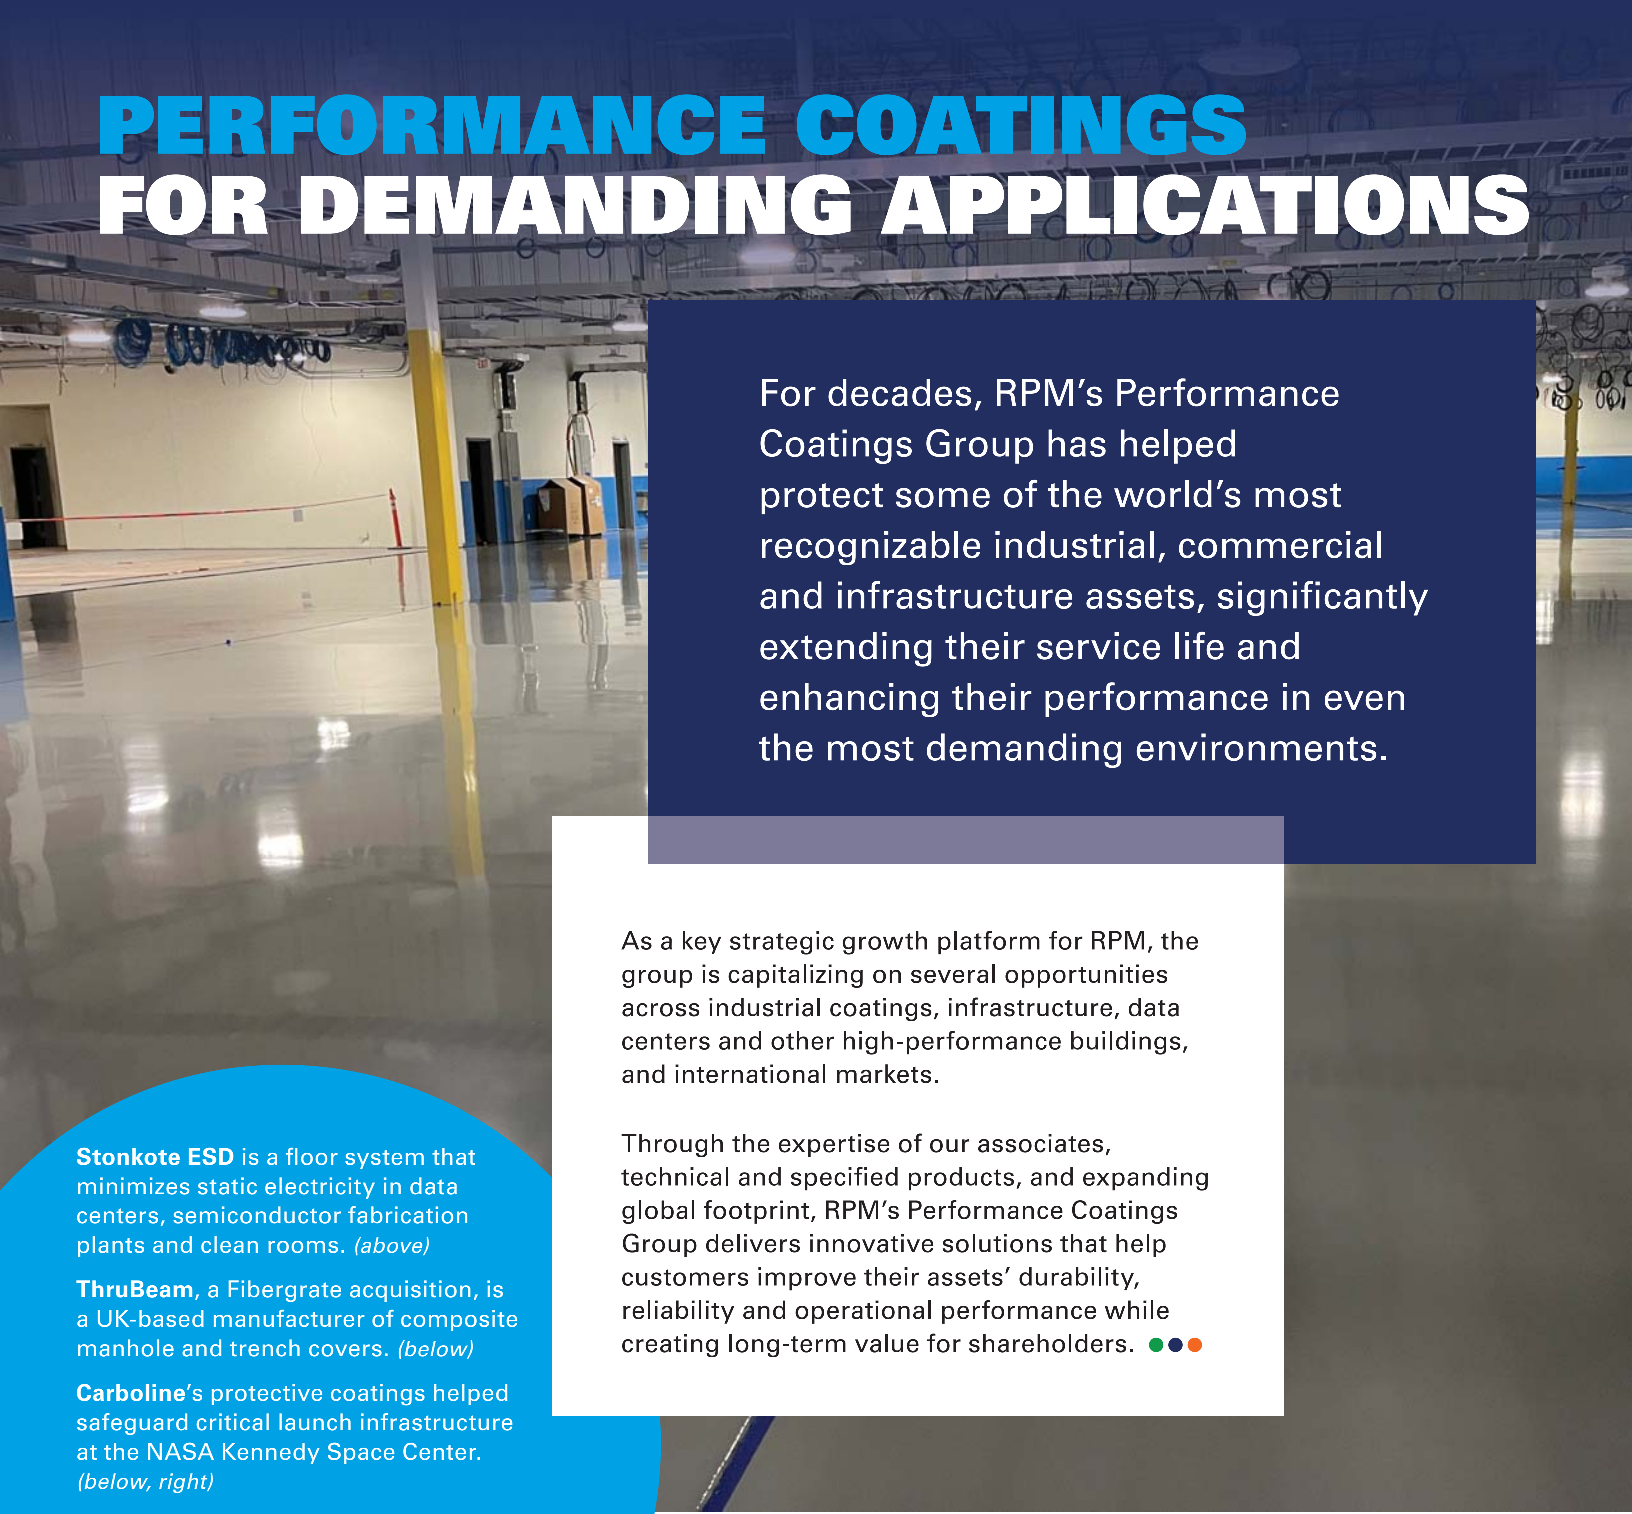
LiteForm, a Tremco CPG acquisition, is a U.S.-based manufacturer and designer of ICF systems. *(right, top)*

EUCON R3A is a new, innovative admixture that transforms returned concrete into reusable material. *(right, middle)*

Nudura's HercuWall is an innovative insulated concrete form (ICF) wall system supporting our integrated systems approach. *(right, bottom)*



PERFORMANCE COATINGS FOR DEMANDING APPLICATIONS



For decades, RPM's Performance Coatings Group has helped protect some of the world's most recognizable industrial, commercial and infrastructure assets, significantly extending their service life and enhancing their performance in even the most demanding environments.

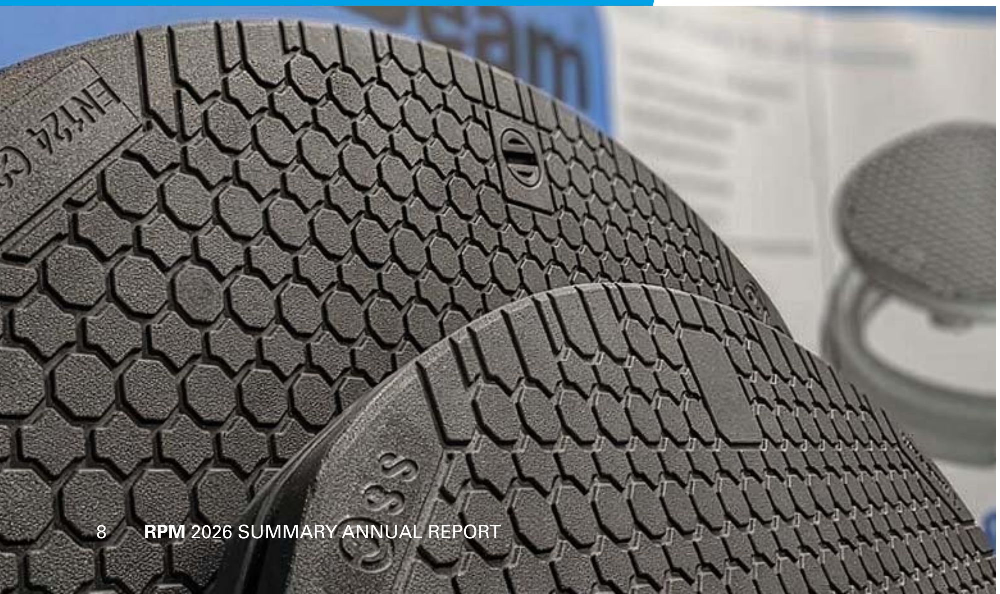
As a key strategic growth platform for RPM, the group is capitalizing on several opportunities across industrial coatings, infrastructure, data centers and other high-performance buildings, and international markets.

Through the expertise of our associates, technical and specified products, and expanding global footprint, RPM's Performance Coatings Group delivers innovative solutions that help customers improve their assets' durability, reliability and operational performance while creating long-term value for shareholders.

Stonkote ESD is a floor system that minimizes static electricity in data centers, semiconductor fabrication plants and clean rooms. *(above)*

ThruBeam, a Fibergrate acquisition, is a UK-based manufacturer of composite manhole and trench covers. *(below)*

Carboline's protective coatings helped safeguard critical launch infrastructure at the NASA Kennedy Space Center. *(below, right)*



CONSUMER BRANDS FOR REPAIR & RESTORATION

RPM's Consumer Group delivers trusted solutions that help consumers repair, restore, protect, maintain and enhance the homes and assets they value most.

While softer consumer demand and lower housing turnover continue to create headwinds, the Consumer Group remains focused on meeting customers' evolving maintenance, repair and home improvement needs.

Built on a portfolio of market-leading brands with strong positions in repair as well as restoration and maintenance, the Consumer Group continues to differentiate itself by offering innovative, high-performance products that extend asset life and help consumers protect their investments.

As homeowners increasingly choose to maintain and improve existing homes rather than relocate, RPM's Consumer Group remains well positioned to capitalize on long-term repair-and-restoration trends while delivering innovative solutions across its diversified portfolio.

Ready Seal, a Rust-Oleum acquisition, is a manufacturer of easy-to-use, Goof Proof premium exterior wood stains. *(left)*

Pink Stuff Squeezable is a convenient, multi-purpose cleaning paste that tackles tough messes with ease. *(below, left)*

DAP Black Foam is an innovative, UV-resistant insulating spray foam with a wide-spray applicator. *(below)*

HOW WE DO IT

Build Efficient, Responsible Operations

RPM helps build a better world by responsibly sourcing materials and driving operational efficiency to reduce costs and the consumption of natural resources.

Euclid Chemical's R&D team advances innovative technologies for the construction industry.

Associates celebrate the opening of Stonhard's expanded Fort Wayne, Indiana, facility.

DRIVING OPERATIONAL EXCELLENCE

RPM's operational excellence programs continue to help the company navigate volatility more effectively.

Through procurement discipline, manufacturing excellence, Lean initiatives, center-led operations and operating improvement initiatives, RPM is strengthening productivity, improving margins and building long-term resilience across our global footprint. These efforts create a more connected, efficient and agile organization while helping RPM deliver greater value to our customers and shareholders.

Tremco CPG's Wigan, UK, facility tripled its production, while achieving a

98%

right-first-time quality rate and strengthened its safety culture—resulting in significant cost savings.

EUCOMEX and **Mexico's Global Service Center** combined their healthcare purchasing power to **reduce employee insurance costs by up to**

24%

while maintaining the same coverage level.

Stonhard expanded its Fort Wayne, Indiana, facility, which **increased its manufacturing efficiency by up to**

65%

while improving workplace safety and employee retention.

RPM's Global Service Center in India supports businesses across RPM's global portfolio.

CONNECTIVITY ACROSS GLOBAL OPERATIONS

RPM's global footprint is strengthened by the connections that bring our businesses together.

Digital resources, research and development capabilities, operational collaboration and shared services all help RPM leverage expertise across our global portfolio while supporting growth and efficiency.

As RPM continues to expand internationally, particularly across our Construction Products Group and Performance Coatings Group, these connected capabilities create opportunities to accelerate innovation, improve service and strengthen support for our customers around the world.

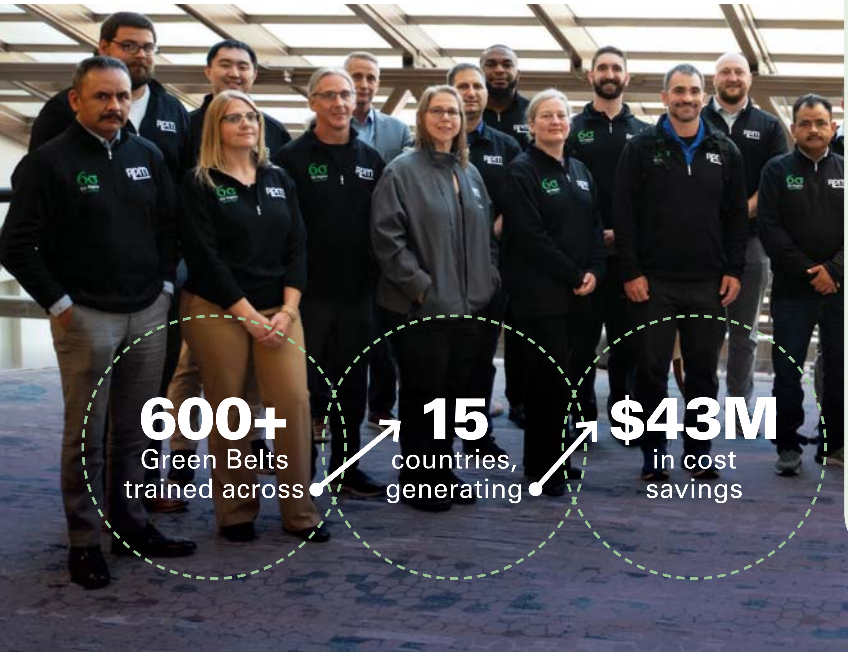
- Rust-Oleum, Stonhard and Carboline co-launched a **new joint European headquarters in The Netherlands** to strengthen connectivity across many of RPM's businesses.
- RPM Europe recently opened a **new, 323,000-square-foot distribution hub in Belgium** that centralizes logistics and operations for multiple brands under the RPM Europe umbrella. *(below)*
- Our **Global Service Centers in India and Mexico** provide shared IT, financial, legal and administrative services across many of RPM's businesses worldwide.
- A **newer, state-of-the-art manufacturing facility in Malaysia** has strengthened our Asia-Pacific construction and industrial coatings platform.

ENHANCING SAFETY & CONTINUOUS IMPROVEMENT

RPM continues to strengthen its culture of safety and continuous improvement, empowering associates to work safer, improve processes and drive operational excellence.

Across the organization, associates are identifying new and unique opportunities to improve processes, strengthen safety performance and drive impactful results. In fact, more than 600 Green Belts trained across 15 countries have helped generate over $43 million in savings while advancing RPM's culture of continuous improvement.

- **Tremco CPG's global safety culture** is fostering a companywide cultural shift by empowering associates to take ownership through open communication and proactive hazard identification.
- At Rust-Oleum's Martin Mathys plant in Belgium, a **Green Belt-led initiative resolved critical production challenges**, delivering $450,000 in cost savings and future sales.
- **Viapol's manufacturing facilities in Brazil achieved significant safety milestones**, with the Caçapava site reaching 309 days without a lost-time incident and the Candeias facility marking five years without a lost-time accident.
- A **continuous improvement initiative at Stonhard's Maple Shade, New Jersey, facility** reduced lead times by 60%, increased throughput by 50% and strengthened the facility's operational agility.



Creating Value for All

RPM creates value for our customers, associates and shareholders through innovative solutions, an entrepreneurial culture, operational discipline and long-term stewardship.

WHY WE DO IT

ASSOCIATES

We deliver superior benefits, rewards and recognition to our associates who invest their time and talent in our combined success.

CUSTOMERS

We deliver innovative products and solutions to customers with passion and integrity.

STOCKHOLDERS

We deliver superior returns through a growing cash dividend and stock price appreciation to our stockholders who invest their capital and trust in RPM.

VALUE IN ACTION

RPM offers its U.S. associates a competitive benefits package that includes a defined benefit pension plan, 401(k) matching, and continuing education and development opportunities.

52

RPM has increased its cash dividend for 52 consecutive years, an impressive track record that less than 0.5% of all publicly traded U.S. companies can match.

Nudura BuildEase is a new, end-to-end ICF delivery enablement service designed to streamline residential construction through improved efficiency, reduced waste and faster project execution.

WTI PureAir restored a failing air handler system at Copley High School in Ohio for less than half the replacement cost, resulting in cost savings of more than $350,000 for the district.

Stonhard launched a new, state-of-the-art quality control lab at its European manufacturing facility in Alghero, Italy—a move that strengthens RPM's commitment to product excellence.

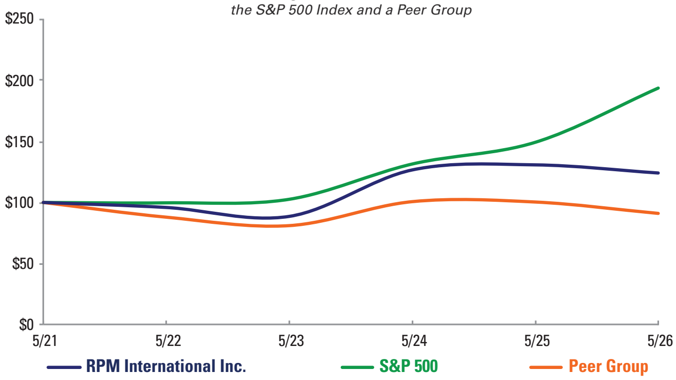
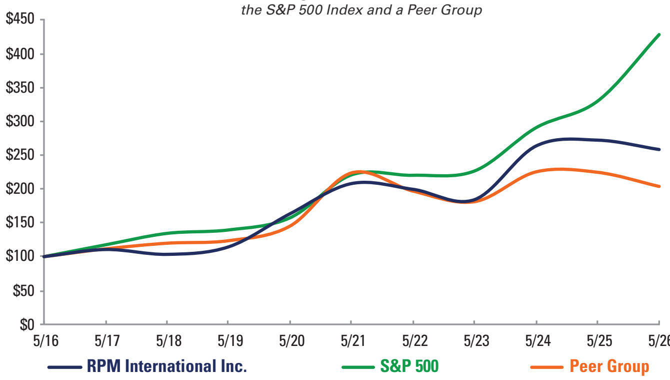
Among RPM International Inc., the S&P 500 Index and a Peer Group



COMPARISON OF 10-YEAR CUMULATIVE TOTAL RETURN[1]

Among RPM International Inc., the S&P 500 Index and a Peer Group



[1] The graphs above compare the cumulative five- and 10-year total return provided to shareholders on RPM International Inc.'s common stock relative to the cumulative total returns of the S&P 500 Index and customized peer group. An investment of $100 (with reinvestment of all dividends) is assumed to have been made in RPM common stock, the peer group and the index on 5/31/2021 and 5/31/2016 and their relative performance is tracked through 5/31/2026. Peer group companies include: AkzoNobel N.V., Axalta Coating Systems Ltd., Carlisle Companies Inc., H.B. Fuller Company, Masco Corporation, PPG Industries, Inc., The Sherwin-Williams Company and Sika AG.
