### ABOUT PATHWARD FINANCIAL, INC.

Pathward Financial, Inc. (Nasdaq: CASH) is a U.S.-based financial holding company driven by its purpose to power financial inclusion for all. Through our subsidiary, Pathward®, N.A., we strive to increase financial availability, choice, and opportunity across our Partner Solutions and Commercial Finance business lines. These strategic business lines provide support to individuals and businesses. Learn more at [www.pathwardfinancial.com](http://www.pathwardfinancial.com).

# A MESSAGE FROM **CHIEF EXECUTIVE OFFICER** BRETT PHARR

## **TO MY FELLOW STOCKHOLDERS,**

This fiscal year, the Pathward team did a great job delivering on the 2025 strategy we outlined at the end of last year, achieving many successes across the business. We stand by our belief that financial services should be available to everyone. As we support individuals and small and medium sized businesses who need financial access, we inherently evolve with the marketplace and meet folks where they want to be met. This means we not only help the unbanked and underbanked, but has increasingly led us to digital first consumers, as well as those who prefer digital only. For businesses, we are expanding access to loans as well as acquiring services. With the help of our partners, we are identifying gaps in the market and providing solutions, fulfilling our purpose of financial inclusion.

We had quite the fiscal year. From completing the sale of our insurance premium finance business and the transportation portfolio, hiring a new Chief People and Culture Officer, to contracting with several new partners, and winning multiple awards, the team at Pathward has done a phenomenal job executing on our strategy in 2025. We consider ourselves privileged to operate in this capacity, and I am very proud of all that we were able to accomplish together this year.

In Commercial Finance, we continued to optimize the balance sheet by focusing on risk-adjusted returns. This led us to the decision to complete the divestiture of our insurance premium finance business and the sale of our transportation loan portfolio. We also improved many of our performance metrics, including strong growth in total loans and leases and return on average assets when compared to September 30, 2024. In Partner Solutions, we not only brought on new partnerships but also expanded our existing partnerships with Pathward's products and capabilities.

The execution of our strategy resulted in improved financial results. In fiscal year 2025, we reported net income of \$186 million. Earnings per diluted share increased 9% to \$7.87 compared to \$7.20 in fiscal year 2024. Our results were driven primarily by an increase in noninterest income of 10% when compared to last year. But, we also expanded our full year net interest margin to 7.34%.

## **EXECUTION OF 2025 STRATEGY**

Being the trusted platform that enables our partners to thrive provides Pathward with the ability to deliver on our purpose of financial inclusion while also growing our business. We saw this growth materialize primarily in two ways: moving toward an optimized balance sheet with optimized asset mix and expanding our Partner Solutions businesses.

In Commercial Finance, the team was laser focused on asset rotation into the highest yielding portfolios where we believed we had a competitive advantage or that provided us with optionality. This led to the shrinking of our securities portfolio in favor of loans while also maintaining our current standards and discipline around collateralized lending.

In Partner Solutions, we believe investing in technology to facilitate evolution and scalability is imperative for us to be a comprehensive source of growth for our partners. Because of our continued investment, we believe we were able to innovate and scale solutions alongside our partners and address market needs in a unique way through the expansion of our product offerings with current partners. Furthermore, we announced five new partnerships between merchant acquiring, issuing and credit solutions. We also renewed partnership agreements with key independent tax software providers in the 2024 tax season and delivered significant growth in pre-tax income.

## **MORE OF THE SAME MIX IN 2026**

Building on our success in 2025 in delivering on our long-term strategy - being the trusted platform that enables our partners to thrive - we believe we are well-positioned as we enter fiscal year 2026 to:

- 1) Maintain an optimized balanced sheet;
- 2) Utilize technology to facilitate evolution and scalability;
- 3) Value our people and culture;
- 4) Have a mature risk and compliance framework; and
- 5) Focus on the client experience.

Our balance sheet optimization strategy is still top of mind for us when we think about the business. Now we are at a juncture where the team has done a great job at closing the gap and getting us to where we believe our optimal asset mix might be. Maintaining this extraordinary achievement will take some work and I am confident that we can continue on this path.

Our next goal is to leverage technology to facilitate evolution and scalability for us to remain the partner bank of choice in the marketplace. We believe that our ability to drive revenue growth is predicated on our ability to produce profitable outcomes with enhanced technological capabilities. In addition, we can find synergies and opportunities to streamline platforms, create new products, and further innovation. The pipeline of opportunities, both in the short term and on the horizon, are plentiful in an expanding marketplace, and we regularly evaluate potential new opportunities to add even more partners to our universe. We cannot rest on our laurels, especially in this industry.

At Pathward, we believe that people and culture are important assets. Together, we lead by example, find a better way, help others succeed and dare to be great. We are taking a fresh look at how we can reimagine the human capital function within the business and will be focused in the near term on continuing to cultivate a talent pipeline and reinforcing our commitment to collaboration with a Talent Anywhere remote working environment.

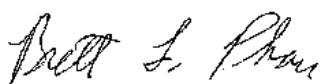

Next is our mature risk and compliance framework. As many of you know, we were a pioneer of the prepaid industry and an industry leader in payments, and our experience has led us to develop policies, programs and actions that help us guide our partners. Fast forward to today, managing products and services in this day and age is often complex; however, we believe we are making the right investments in our risk capabilities to ensure we continue to have a scalable platform well into the future.

The last component of our 2026 strategy is the client experience. This goal encompasses our entire pipeline of opportunities and further evaluation of successfully onboarding new partners and deepening existing relationships. Although certainly not a new concept for the company, management believes that making this front and center further supports our commitment to our partners and customers as we continue to facilitate multi-threaded solutions across our suite of products. Not only are we aiming to help our partners achieve their goals, but we also believe their success is linked to ours as we continue to drive Pathward's growth.

We believe this growth will come in ways that are not tied to growing our balance sheet. We have additional capacity to optimize the balance sheet through a continued rotation from securities to loans, increasing net interest income without growing the overall asset size. Second, we have been securing contracts with partners that grow fee income with very little balance sheet impact - such as merchant acquiring. And finally, we are utilizing balance sheet velocity for both commercial and consumer loans that generates noninterest income, but again, allows us to effectively hold the balance sheet steady. We believe the foundation of 2025 and the strategy of 2026 will put us in a position to generate sustainable revenue and net income growth into 2027 and beyond.

The Board and management are committed to our mission, vision, and strategy and believe we are well positioned for the future. Thank you for your continued confidence and support as we look to deliver additional shareholder value.

Sincerely,

**Brett Pharr**

## FORWARD-LOOKING STATEMENTS

PATHWARD FINANCIAL, INC. ("Pathward Financial" or the "Company" or "us") and its wholly-owned subsidiary, Pathward®, National Association ("Pathward® , N.A" or "Pathward" or "the Bank") may from time to time make written or oral "forward-looking statements," including statements contained in this Annual Report on Form 10-K, the Company's other filings with the Securities and Exchange Commission (the "SEC"), the Company's reports to stockholders, and other communications by the Company and Pathward, N.A., which are made in good faith by the Company pursuant to the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995.

You can identify forward-looking statements by words such as "may," "hope," "will," "should," "expect," "plan," "anticipate," "intend," "believe," "estimate," "predict," "potential," "continue," "could," "future," "target," or the negative of those terms, or other words of similar meaning or similar expressions. You should carefully read statements that contain these words because they discuss our future expectations or state other "forward-looking" information. These forward-looking statements are based on information currently available to us and assumptions about future events, and include statements with respect to the Company's beliefs, expectations, estimates, and intentions, which are subject to significant risks and uncertainties, and are subject to change based on various factors, some of which are beyond the Company's control. Such risks, uncertainties and other factors may cause our actual growth, results of operations, financial condition, cash flows, performance and business prospects and opportunities to differ materially from those expressed in, or implied by, these forward-looking statements. Such statements address, among others, the following subjects: future operating results, including our performance expectations; progress on key strategic initiatives; expected results of our partnerships; impacts of our improved data analytics, underwriting, and monitoring processes; expected nonperforming loan resolutions and net charge-off rates; the performance of our securities portfolio; the impact of card balances related to government stimulus programs; customer retention; loan and other product demand; new products and services; credit quality; the level of net charge-offs and the adequacy of the allowance for credit losses; and technology. The following factors, among others, could cause the Company's financial performance and results of operations to differ materially from the expectations, estimates, and intentions expressed in such forward-looking statements: maintaining our executive management team; expected growth opportunities may not be realized or may take longer to realize than expected; our ability to successfully implement measures designed to reduce expenses and increase efficiencies; changes in trade, monetary, and fiscal policies and laws, including actual changes in interest rates and the Fed Funds rate and changes in international trade policies, tariffs and treaties affecting imports and exports, and their related impacts on macroeconomic conditions, customer behavior, funding costs and loan and securities portfolios; changes in tax laws; trade disputes, barriers to trade or the emergence of trade restrictions; the strength of the United States' economy, and the local economies in which the Company operates; adverse developments in the financial services industry generally such as bank failures, responsive measures to mitigate and manage such developments, related supervisory and regulatory actions and costs, and related impacts on customer behavior; inflation, market, and monetary fluctuations; our liquidity and capital positions, including the sufficiency of our liquidity; the timely and efficient development of new products and services offered by the Company or its strategic partners, as well as risks (including reputational and litigation) attendant thereto, and the perceived overall value and acceptance of these products and services by users; the Bank's ability to maintain its Durbin Amendment exemption; the risks of dealing with or utilizing third parties, including, in connection with the Company's prepaid card and tax refund advance businesses, the risk of reduced volume of refund advance loans as a result of reduced customer demand for or usage of the Bank's strategic partners' refund advance products; our relationship with, and any actions which may be initiated by, our regulators, and any related increases in compliance and other costs; changes in financial services laws and regulations, including laws and regulations relating to the tax refund industry; technological changes, including, but not limited to, the protection of our electronic systems and information; the impact of acquisitions and divestitures; litigation risk; the growth of the Company's business, as well as expenses related thereto; continued maintenance by the Bank of its status as a well-capitalized institution; changes in consumer borrowing, spending, and saving habits; losses from fraudulent or illegal activity; technological risks and developments and cyber threats, attacks, or events; and the success of the Company at maintaining its high quality asset level and managing and collecting assets of borrowers in default should problem assets increase; and the potential adverse effects of unusual and infrequently occurring events, including the impact on financial markets from geopolitical conflicts such as the military conflicts in Ukraine and the Middle East, weather-related disasters, or public health events, such as pandemics, and any governmental or societal responses thereto.

The foregoing list of factors is not exclusive. We caution you not to place undue reliance on these forward-looking statements. The forward-looking statements included in this Annual Report on Form 10-K speak only as of the date hereof. All subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. Additional discussions of factors affecting the Company's business and prospects are reflected under the caption "Risk Factors," and in the Company's other filings made with the SEC. The Company expressly disclaims any intent or obligation to update, revise or clarify any forward-looking statements, whether written or oral, that may be made from time to time by or on behalf of the Company or its subsidiaries, whether as a result of new information, changed circumstances, or future events or for any other reason.

## PART I

### Item 1. Business.

#### General

Pathward Financial, a registered bank holding company ("BHC") that has elected to be a financial holding company ("FHC"), was incorporated in Delaware on June 14, 1993. Pathward Financial's principal assets are all the issued and outstanding shares of the Bank, a chartered national bank, the accounts of which are insured up to applicable limits by the Federal Deposit Insurance Corporation ("FDIC") as administrator of the Deposit Insurance Fund ("DIF"). Unless the context otherwise requires, references herein to the Company include Pathward Financial and the Bank, and all subsidiaries of Pathward Financial, direct or indirect, on a consolidated basis.

As a nationwide provider of payments and commercial finance products, the Company has offices across the country. The principal executive office is located at 5501 South Broadband Lane, Sioux Falls, South Dakota, 57108. Its telephone number at that address is (877) 497-7497. The Company is subject to comprehensive regulation and supervision. See "Regulation and Supervision" herein.

The Company's purpose of powering financial inclusion means individuals and businesses deserve access to financial solutions. It is why for the past two decades Pathward Financial has been building solutions to help those who have been underserved by traditional banking providers.

The Company strives to remove barriers to financial access and promote economic mobility by working with third parties to provide responsible, secure, high quality financial products that contribute to the social and economic benefit of communities at the core of the real economy. Pathward Financial aims to increase financial availability, choice, and opportunity across two business lines: Partner Solutions and Commercial Finance. These strategic business lines provide support to individuals and businesses.

As a nationally chartered bank, Pathward sits at the hub of the financial ecosystem where traditional banking and financial technology intersect. With expert talent and access to world-class partners, Pathward moves money seamlessly across a multitude of solutions while mitigating risk and anticipating changes to a complicated regulatory landscape.

The Bank, a wholly-owned full-service banking subsidiary of Pathward Financial, operates through three reportable segments (Consumer, Commercial, and Corporate Services/Other). See Note 17. Segment Reporting for further information on the reportable segments.

The business of the Bank is to collaborate with partners through the Partner Solutions business line to provide solutions that attract stable deposits and generate fee income. The deposits are primarily invested into loan and lease products offered through the Commercial Finance business line. In addition to originating loans and leases, the Bank also occasionally contracts to sell loans, such as consumer credit product loans, government guaranteed loans, and other commercial loans to third party buyers. The Bank also sells and purchases loan participations from time to time and from other financial institutions, as well as mortgage-backed securities ("MBS") and other investments permissible under applicable regulations.

The Consumer segment includes the Partner Solutions business line, which collaborates with partners to navigate payment and lending needs. With capabilities ranging from prepaid cards and deposit accounts to payment processing and consumer lending, the Company enables its partners to deliver programs that provide a financial path forward for all.

The Company delivers a diversified portfolio of offerings including sponsorship solutions, financial institution solutions, credit solutions, and professional tax solutions. With its issuing solutions, Pathward is one of the leading debit and prepaid card issuers in the country and holds funds for the programs of its partners in order to provide the consumer protections of a traditional bank account. Acquiring solutions focuses on optimizing the core banking activities to ensure secure, compliant, and seamless transactions through merchant acquiring and ATM sponsorship. Digital payments solutions accept and process payments for customers' personal and business needs. The Bank moves funds daily through high speed banking rails, including ACH, wire transfers, and push to debit. Through its financial institution solutions, Pathward offers innovative, cost-effective banking and lending solutions designed to fill product gaps and add value for community banks and credit unions. Credit solutions enable the Bank's partners' lending solutions that serve the borrowing needs of customers in a diverse credit pool. Professional tax solutions offer tax-related financial products, such as electronic refund advances and refund transfers, that ease the pressure of tax season and help over 42,000 independent tax offices stay competitive in a crowded marketplace.

The Commercial segment includes the Company's Commercial Finance business line, which helps businesses access funds they need to launch, operate, and grow. Pathward's innovative approach and customized financial products offer the flexibility traditional bank products cannot. This diverse range of commercial finance products is available through the following lending solutions: working capital, equipment finance, and structured finance.

Working capital provides ready cash for liquidity needs to new or growing companies or companies in cyclical or seasonal industries. Working capital financing is secured by business collateral (assets) such as accounts receivable, inventory, and equipment. Equipment finance provides financing in the form of leases and loans for equipment needs. Structured finance assists small- and mid-sized business and rural borrowers to fund growth, expansion, and restructuring. Products include alternative energy financing, conventional loans, and loans administered through partnerships with the Small Business Administration ("SBA") and United States Department of Agriculture ("USDA").

On October 31, 2024, the Bank completed the sale of substantially all of the assets and liabilities related to its commercial insurance premium finance business to AFS IBEX Financial Services, LLC, a subsidiary of Honor Capital Holdings, LLC. See Note 2. Divestitures to the "Notes of Consolidated Financial Statements," which is included in Part II, Item 8 "Financial Statements and Supplementary Data" of this Annual Report on Form 10-K, for more information on the sale and transaction.

#### **Other Subsidiaries**

Pathward Venture Capital, LLC ("Pathward Venture Capital"), a wholly-owned service corporation subsidiary of the Bank was formed in 2017 for the purpose of making minority equity investments. Pathward Venture Capital focuses on investing in companies in the financial services industry.

First Midwest Financial Capital Trust I, a wholly-owned subsidiary of Pathward Financial, was established in July 2001 and Crestmark Capital Trust I, a wholly-owned subsidiary of Pathward Financial and acquired by the Company in August 2018, was established in June 2005. Both subsidiaries were established for the purpose of issuing trust preferred securities.

#### **Lending Activities**

The Company focuses its lending activities on the origination of commercial finance loans and leases, consumer finance loans and tax services loans. The Company emphasizes credit quality and seeks to avoid undue concentrations of loans and leases to a single industry or based on a single class of collateral. The Company has established lending policies that include a number of underwriting factors it considers in making a loan, including loan-to-value ratio, cash flow, interest rate and credit history of the borrower. At September 30, 2025, the Company's loans and leases receivable, net of allowance for credit losses, totaled \$4.61 billion, or 64% of the Company's total assets, as compared to \$4.00 billion, or 53%, at September 30, 2024.

Loan and lease applications are initially considered and approved at various levels of authority, depending on the type and amount of the loan or lease as directed by the Bank's lending policies. The Company has a loan committee structure in place for oversight of its lending activities. Loans and leases in excess of certain amounts require approval by an Executive Credit Committee. The Company may discontinue, adjust, or create new lending programs to respond to competitive factors.

At September 30, 2025, the Company's largest lending relationship to a single borrower or group of related borrowers totaled \$109.5 million. The Company had 24 other lending relationships in excess of \$28.3 million as of September 30, 2025.

## Loan and Lease Portfolio Composition

The following table shows the composition of the Company's loan and lease portfolio by fixed- and adjustable-rate at the dates indicated.

(Dollars in thousands)	September 30, 2025		September 30, 2024	
	Amount	Percent	Amount	Percent
<b>Fixed-rate loans and leases</b>				
Commercial finance	\$ 1,385,514	29.7 %	\$ 1,544,745	38.0 %
Consumer finance	45,135	1.0 %	77,591	1.9 %
Tax services	2,532	0.1 %	8,825	0.2 %
Warehouse finance	69,964	1.5 %	33,789	0.8 %
<b>Total fixed-rate loans and leases</b>	<b>1,503,145</b>	<b>32.2 %</b>	<b>1,664,950</b>	<b>40.9 %</b>
<b>Adjustable-rate loans and leases</b>				
Commercial finance	2,538,455	54.4 %	1,750,854	43.0 %
Consumer finance	48,184	1.0 %	171,209	4.2 %
Warehouse finance	575,222	12.3 %	484,058	11.9 %
<b>Total adjustable-rate loans and leases</b>	<b>3,161,861</b>	<b>67.8 %</b>	<b>2,406,121</b>	<b>59.1 %</b>
<b>Total loans and leases</b>	<b>4,665,006</b>	<b>100.0 %</b>	<b>4,071,071</b>	<b>100.0 %</b>
Deferred fees and discounts	(98)		4,124	
Allowance for credit losses	(53,319)		(71,765)	
<b>Total loans and leases receivable, net</b>	<b>\$ 4,611,589</b>		<b>\$ 4,003,430</b>	

The following table illustrates the contractual maturities of the Company's loan and lease portfolio and the distribution by changes in interest rates for loans with a contractual maturity greater than one year at September 30, 2025.

(Dollars in thousands)	Loan Maturities					Loans Maturing After 1 Year	
	Due in 1 Year or Less	Due After 1 Year Through 5 Years	After 5 Years Through 15 Years	After 15 Years	Total	Fixed Interest Rate	Variable Interest Rate
Commercial finance	\$ 1,187,376	\$ 1,943,095	\$ 471,389	\$ 322,109	\$ 3,923,969	\$ 1,274,431	\$ 1,462,162
Consumer finance	35,303	58,016	—	—	93,319	21,161	36,855
Tax services	2,532	—	—	—	2,532	—	—
Warehouse finance	—	645,186	—	—	645,186	69,964	575,222
<b>Total loans and leases</b>	<b>\$ 1,225,211</b>	<b>\$ 2,646,297</b>	<b>\$ 471,389</b>	<b>\$ 322,109</b>	<b>\$ 4,665,006</b>	<b>\$ 1,365,556</b>	<b>\$ 2,074,239</b>

## **Commercial Finance**

The Company's Commercial Finance business line offers a variety of products through its working capital, equipment finance, and structured finance lending solutions. These products include term lending, asset-based lending, factoring, lease financing, government guaranteed lending, and other commercial finance products offered on a nationwide basis.

*Term Lending.* The Bank originates a variety of collateralized conventional term loans and notes receivable. While terms generally range from five months to 14 years, the weighted average life of these loans is approximately 46 months. These term loans may be secured by equipment, recurring revenue streams, or real estate. Credit risk is managed through setting loan amounts appropriate for the collateral based on information including equipment cost, appraisals, valuations, and lending history. The Bank follows standardized loan policies and established and authorized credit limits and applies attentive portfolio management, which includes monitoring past dues, financial performance, financial covenants, and industry trends. As of September 30, 2025, 60% of the term lending portfolio exposure is concentrated in solar/alternative energy, most of which are construction projects that will convert to longer term government guaranteed facilities upon completion of the construction phase. Equipment finance makes up 25% of the term lending total as of September 30, 2025. The remaining 15% are a variety of other general purpose commercial loans.

*Asset-Based Lending.* The Bank provides asset-based loans secured by short-term assets such as accounts receivable and inventory. Asset-based loans may also be secured by equipment supported by third party independent appraisals. The primary sources of repayment are the collection of the receivables and/or the sale of the inventory securing the loan, as well as the operating income of the borrower. Loans are typically revolving lines of credit with terms of one year to three years. Credit risk is managed through advance rates appropriate for the collateral (generally, advance rates on accounts receivable range from 80% to 90% and inventory advance rates do not exceed 65%). Collateral is further supported and verified via field audits conducted up to three times per year. All asset-based facilities have standardized loan policies, established and authorized credit limits, attentive portfolio management and the use of lock box agreements and similar arrangements which result in the Company receiving and controlling the debtors' cash receipts. As of September 30, 2025, approximately 65% of asset-based loans were backed by accounts receivable.

*Factoring.* The Bank provides factoring lending where customers provide detailed accounts receivable reporting for lending arrangements. The factoring customers are diversified as to industry and geography. With these loans, the Commercial Finance business lends a percentage of eligible accounts receivable invoices. Advance rates generally range between 80% and 95%. Credit risk is managed through standardized advance policies, established and authorized credit limits, verification of receivables, attentive portfolio management and the use of lock box agreements and similar arrangements which result in the Company receiving and controlling the customer's cash receipts. In addition, customers generally guarantee the payment of purchased accounts receivable.

*Lease Financing.* The Bank provides creative, flexible lease solutions for equipment needs of its customers. Leases that transfer substantially all of the benefits and risks of ownership to the lessee are accounted for as sales-type or direct financing leases. The lease may contain provisions that transfer ownership to the lessee at the end of the initial term, contain a bargain purchase option or allow for purchase of the equipment at fair market value. Residual values are estimated at the inception of the lease. Lease maturities are generally no greater than 84 months.

*Government Guaranteed Lending.* The Bank originates loans through programs partially guaranteed by the SBA or USDA. SBA loans are made to small businesses and professionals. Generally, the Bank provides USDA loans to alternative energy project developers and the hotel industry. Certain guaranteed portions of these loans may be sold to the secondary market. See "Originations, Sales and Servicing of Loans and Leases" below for further details.

*Other Commercial Finance.* Included in this category of loans are the Company's healthcare receivables loan portfolio primarily comprised of loans to individuals for medical services received. The majority of these loans are guaranteed by the hospital providing the service to the debtor and this guarantee serves to reduce credit risk as the guarantors agree to repurchase severely delinquent loans. Credit risk is minimized on these loans based on the guarantor's repurchase agreement. This loan category also includes commercial real estate loans.

## **Consumer Finance**

The Bank offers a variety of installment and revolving consumer lending products through its credit solutions. The Bank designs its credit program relationships with certain desired outcomes, including liquidity, credit protection, and risk retention by the program partner. The Bank believes the benefits of these outcomes not only support its goals but the goals of the credit program partner as well. The Bank designs its program credit protections in a manner so that the Bank earns a reasonable risk adjusted return, but is protected by certain layers of credit support, similar to what you would find in structured finance. Certain loans are sold to third parties based on terms and conditions within the Program Agreement. See "Originations, Sales and Servicing of Loans and Leases" below for further details.

## **Tax Services**

The Bank's Partner Solutions business line offers professional tax solutions, which includes short-term refund advance loans and short-term electronic return originator ("ERO") advance loans.

*Refund Advance Loans.* Refund advance loans are unsecured loans to taxpayers that are determined to be eligible based on underwriting criteria designed for this product. Due to the nature of refund advance loans, it typically takes no more than three e-file cycles (the period of time between scheduled IRS payments) from when the return is accepted by the IRS to collect from the borrower. In the event of default, the Bank has no recourse against the taxpayer. When collection of principal becomes doubtful, the Bank will charge off the balance of a refund advance loan on September 30. Any remaining balances are charged off at the end of the calendar year. The Bank may record recoveries of previously charged off loans if collected in subsequent tax years.

*ERO Advance Loans.* ERO advance loans are unsecured advances that are typically utilized by tax preparers to purchase tax preparation software and to prepare tax office operations for the upcoming tax season. EROs go through an underwriting process to determine eligibility. Collection on ERO advances begins once the ERO begins to process refund transfers. Generally, the Bank will charge off the balance of an ERO advance loan if there is a balance at the end of June, or when collection of principal becomes doubtful.

## **Warehouse Finance**

The Bank participates in several collateral-based warehouse lines of credit whereby the Bank is in a senior, secured position as the first out participant. These facilities are primarily collateralized by consumer receivables, with the Bank holding a senior collateral position enhanced by a subordinate party structure.

## **Originations, Sales and Servicing of Loans and Leases**

The Company, from time to time, sells loans and leases, and in some cases, loan participations, generally without recourse. At September 30, 2025, there were no outstanding loans sold by the Company with recourse. When loans or leases are sold, the Company may retain the responsibility for collecting and remitting loan payments, making certain that escrow payments are made on behalf of borrowers, and otherwise servicing the loans. The servicing fee is recognized as income over the life of the loans. As of September 30, 2025, the Company was servicing \$782.1 million of SBA/USDA loans and \$209.4 million of term lending loans.

The Company may sell the guaranteed portion of its SBA 7(a) loans and USDA program loans in the secondary market. These sales have resulted in gains for the Company at the time of sale and created a stream of future servicing income. When the Company sells the guaranteed portion of its loans, it retains credit risk on the non-guaranteed portion of the loans, and, if a customer defaults on the loan, the Company shares any loss and recovery related to the loan pro-rata with the SBA or USDA, as applicable. If the SBA or USDA establishes that a loss on a guaranteed loan is attributable to significant technical deficiencies in the manner in which the loan was originated, funded or serviced by the Company, the SBA or USDA may seek recovery of the principal loss related to the deficiency from the Company, which could materially adversely affect our business, results of operations and financial condition.

On October 31, 2024, as part of the insurance premium finance business sale, the Company sold commercial insurance premium finance loans. See Note 2. Divestitures to the "Notes of Consolidated Financial Statements," which is included in Part II, Item 8 "Financial Statements and Supplementary Data" of this Annual Report on Form 10-K, for more information on the sale and transaction.

In the normal course of business, the Company enters into off-balance sheet transactions with special purpose entities ("SPEs"). See Note 1. Summary of Significant Accounting Policies to the "Notes of Consolidated Financial Statements," which is included in Part II, Item 8 "Financial Statements and Supplementary Data" of this Annual Report on Form 10-K, for more information on these transactions.

In periods of economic uncertainty, the Company's ability to originate large dollar volumes of loans and leases may be substantially reduced or restricted, with a resultant decrease in related loan origination fees, other fee income and operating earnings. In addition, the Company's ability to sell loans may substantially decrease if potential buyers reduce their purchasing activities.

The following table shows the loan and lease originations (including draws, loan and lease renewals, and undisbursed portions of loans and leases in process), purchases, and sales and repayment activities of the Company for the periods indicated.

(Dollars in thousands)	Fiscal Year Ended September 30,	
	2025	2024
<b>Originations</b>		
Commercial finance	\$ 11,475,878	\$ 11,691,809

Total principal repayments	13,071,816	13,760,154
Total reductions	16,576,717	15,796,238
Increase (decrease) in other items, net	(14,224)	18,664
Net increase	\$ 95,892	\$ 344,369

<sup>(1)</sup> Includes loan balances as part of the insurance premium finance business sale. See Note 2. Divestitures to the "Notes of Consolidated Financial Statements," which is included in Part II, Item 8 "Financial Statements and Supplementary Data" of this Annual Report on Form 10-K, for more information on the sale and transaction.

### Nonperforming Assets, Other Loans and Leases of Concern and Classified Assets

The following table sets forth the Company's loan and lease delinquencies by type, by amount and by percentage of type at September 30, 2025.

(Dollars in thousands)	30-59 Days			60-89 Days			> 89 Days Past Due		
	Number of Loans	Amount	Percent of Category	Number of Loans	Amount	Percent of Category	Number of Loans	Amount	Percent of Category
Loans held for sale	750	\$ 2,319	6.7 %	581	\$ 1,860	9.0 %	493	\$ 1,521	2.6 %
Commercial finance	68	31,505	90.7 %	71	18,061	87.2 %	294	\$ 53,833	91.8 %
Consumer finance	5,743	909	2.6 %	192	778	3.8 %	199	826	1.4 %
Tax services <sup>(1)</sup>	—	—	— %	—	—	— %	—	2,477	4.2 %
Warehouse finance	—	—	— %	—	—	— %	—	—	— %
Total loans and leases held for investment	5,811	\$ 32,414	93.3 %	263	\$ 18,839	91.0 %	493	\$ 57,136	97.4 %
Total loans and leases	6,561	\$ 34,733	100.0 %	844	\$ 20,699	100.0 %	986	\$ 58,657	100.0 %

<sup>(1)</sup> The tax services loans past due represented the aggregate remaining balance of the tax services loan portfolio.

Delinquencies 90 days and over constituted 1.21% of total loans and leases and 0.82% of total assets.

Generally, when a loan or lease becomes delinquent 90 days or more or when the collection of principal or interest becomes doubtful, the Company will place the loan or lease on a non-accrual status and, as a result, previously accrued interest income on the loan or lease is reversed against current income. The loan or lease will generally remain on a non-accrual status until six months of good payment history has been established or management believes the financial status of the borrower has been significantly restored. Certain relationships in the table above are over 90 days past due and still accruing. The Company considers these relationships as being in the process of collection. Insurance premium finance loans, consumer finance and tax services loans are generally not placed on non-accrual status, but are instead written off when the collection of principal and interest become doubtful.

The table below sets forth the amounts and categories of the Company's nonperforming assets.

(Dollars in thousands)	September 30, 2025	September 30, 2024
<b>Nonperforming Loans and Leases</b>		
<u>Nonaccruing loans and leases:</u>		
Commercial finance	\$ 81,416	\$ 26,412
Total nonaccruing loans and leases	81,416	26,412
<u>Accruing loans and leases delinquent 90 days or more:</u>		
Loans held for sale	1,521	1,050
Commercial finance	12,900	2,314
Consumer finance	826	3,053
Tax services <sup>(1)</sup>	2,477	8,733
Total accruing loans and leases delinquent 90 days or more	17,724	15,150
Total nonperforming loans and leases	99,140	41,562
<b>Other Assets</b>		
Nonperforming operating leases	2,571	1,471
Total other assets	2,571	1,471
Total nonperforming assets	\$ 101,711	\$ 43,033
Total as a percentage of total assets	1.42 %	0.57 %

<sup>(1)</sup> Certain tax services loans do not bear interest.

For the fiscal year ended September 30, 2025, interest income recorded on nonaccrual loans and leases was insignificant.

**Nonaccruing Loans and Leases.** At September 30, 2025, the Company had \$81.4 million in nonaccruing loans and leases, which constituted 1.7% of the Company's gross loan and lease portfolio. At September 30, 2024, the Company had \$26.4 million in nonaccruing loans which constituted 0.6% of its gross loan and lease portfolio. The fiscal 2025 increase in nonaccruing loans and leases was primarily driven within the commercial finance portfolio, in particular, one sizable relationship that moved to nonaccrual status during the 2025 fiscal fourth quarter.

**Accruing Loans and Leases Delinquent 90 Days or More.** At September 30, 2025, the Company had \$17.7 million in accruing loans and leases delinquent 90 days or more, compared to \$15.2 million at September 30, 2024. The increase in the balance of accruing loans and leases 90 days or more past due was primarily within the commercial finance portfolio, partially offset by decreases within the seasonal tax services and consumer finance portfolios.

For information on classified assets, see "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operation – Asset Quality" of this Annual Report on Form 10-K.

**Allowance for Credit Losses.** ASU 2016-13, *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments* requires the use of a current expected credit losses ("CECL") methodology to determine the allowance for credit losses ("ACL") for loans and debt securities held to maturity. CECL requires loss estimates for the remaining estimated life of the assets to be measured using historical loss data, adjustments for current conditions, and adjustments for reasonable and supportable forecasts of future economic conditions. See Note 1. Summary of Significant Accounting Policies to the "Notes of Consolidated Financial Statements," which is included in Part II, Item 8 "Financial Statements and Supplementary Data" of this Annual Report on Form 10-K, for more information of the ACL.

The following table sets forth an analysis of the Company's ACL.

(Dollars in thousands)	September 30, 2025	September 30, 2024
Balance at beginning of period	\$ 71,765	\$ 96,855
<b>Charge-offs:</b>		
Commercial finance	(28,235)	(22,837)
Consumer finance	(30,938)	(41,628)
Tax services	(31,721)	(30,780)
Total charge-offs	(90,894)	(95,245)
<b>Recoveries:</b>		
Commercial finance	4,081	3,286
Consumer finance	2,194	1,406
Tax services	9,628	7,785
Total recoveries	15,903	12,477
Net (charge-offs) recoveries	(74,991)	(82,768)
Provision for credit loss	56,545	57,678
<b>Balance at end of period</b>	<b>\$ 53,319</b>	<b>\$ 71,765</b>
Ratio of net charge-offs during the period to average loans outstanding during the period	1.55 %	1.78 %
Ratio of net charge-offs during the period to average loans outstanding during the period (excluding tax loans and tax net charge-offs)	1.13 %	1.33 %
Ratio of net charge offs during the period to nonperforming assets at year end	73.73 %	192.34 %
Allowance to total loans and leases	1.14 %	1.76 %
Ratio of allowance to total nonaccrual loans	65.49 %	271.71 %
Ratio of total nonaccrual loans to total loans outstanding	1.68 %	0.55 %

For more information on the Provision for Credit Loss, see "Management's Discussion and Analysis of Financial Condition and Results of Operations," which is included in Item 7 of this Annual Report on Form 10-K.

The following table presents net loan charge-offs per lending category and the percentage of net charge-offs to average loan and lease balances.

(Dollars in thousands)	At and For the Fiscal Year Ended September 30,					
	2025			2024		
	Net Loan Charge-offs	Average Outstanding Balance	Percent of Net Charge-offs to Average Loans	Net Loan Charge-offs	Average Outstanding Balance	Percent of Net Charge-offs to Average Loans
Term lending	13,777	\$ 1,862,337	0.7 %	\$ 15,850	\$ 1,462,403	1.1 %
Asset-based lending	5,561	566,187	1.0 %	(255)	429,726	(0.1)%
Factoring	770	284,144	0.3 %	2,229	341,571	0.7 %
Lease financing	1,389	143,304	1.0 %	103	170,962	0.1 %
Insurance premium finance	91	47,593	0.2 %	870	642,927	0.1 %
SBA/USDA	2,566	682,364	0.4 %	754	566,255	0.1 %
Other commercial finance	—	163,786	— %	—	159,472	— %

Consumer finance	28,744	282,975	10.2 %	40,222	318,886	12.6 %
Tax services	22,093	166,157	13.3 %	22,995	153,713	15.0 %
Warehouse finance	—	640,598	— %	—	416,988	— %
Total	\$ 74,991	\$ 4,839,445	1.5 %	\$ 82,768	\$ 4,662,903	1.8 %

The distribution of the Company's ACL at the dates indicated is summarized as follows:

(Dollars in thousands)	September 30, 2025		September 30, 2024	
	Amount	Percent of Loans and Leases in Each Category of Total Loans and Leases	Amount	Percent of Loans and Leases in Each Category of Total Loans and Leases
Term lending	\$ 28,345	49.3 %	\$ 30,394	38.2 %
Asset-based lending	7,650	12.7 %	1,356	11.6 %
Factoring	4,319	4.7 %	5,757	8.9 %
Lease financing	1,040	3.2 %	1,189	3.7 %
Insurance premium finance	—	— %	—	— %
SBA/USDA	4,807	11.0 %	3,273	14.0 %
Other commercial finance	90	3.2 %	607	4.6 %
Commercial finance	46,251	84.1 %	42,576	81.0 %
Consumer finance	6,422	2.0 %	28,669	6.1 %
Tax services	—	0.1 %	2	0.2 %
Warehouse finance	646	13.8 %	518	12.7 %
<b>Total</b>	<b>\$ 53,319</b>	<b>100.0 %</b>	<b>\$ 71,765</b>	<b>100.0 %</b>

Management closely monitors economic developments and considers these factors when assessing the appropriateness of the Company's ACL. The Company's ACL as a percentage of total loans and leases decreased to 1.14% at September 30, 2025 from 1.76% at September 30, 2024. The decrease in the total loan and lease coverage ratio was primarily driven by decreases in the loan and lease coverage ratios for the consumer finance portfolio and the seasonal tax services portfolio. The Company expects to continue to diligently monitor the ACL and adjust as necessary in future periods to maintain an appropriate and supportable level.

Management believes that, based on a detailed review of the loan and lease portfolio, historic loan and lease losses, current economic conditions, the size of the loan and lease portfolio and other factors, the level of the ACL at September 30, 2025 reflected an appropriate allowance against expected credit losses from the lending portfolio. Although the Company maintains its ACL at a level it considers to be appropriate, investors and others are cautioned that there can be no assurance that future losses will not exceed estimated amounts, or that additional provisions for loan and lease losses will not be required in future periods.

## Investment Activities

The investment policy of the Company generally is to invest funds among various categories of investments and maturities based upon the Company's need for liquidity, to achieve the proper balance between its desire to minimize risk and maximize yield, to provide collateral for borrowings and to fulfill the Company's asset/liability management policies. The Company's portfolio is managed in accordance with a written investment policy, which is implemented by members of the Company's Asset/Liability Committee. The Company closely monitors balances in these accounts and maintains a portfolio of highly liquid assets to fund potential deposit outflows or other liquidity needs. To date, the Company has not experienced any unexpected significant outflows related to the Partner Solutions business line deposits, though no assurance can be given that this will continue to be the case.

As of September 30, 2025, the Company had total investment securities with an amortized cost of \$1.55 billion compared to \$1.98 billion as of September 30, 2024. At September 30, 2025, \$1.34 billion, or 86.6%, of the Company's investment securities were pledged to secure various obligations of the Company. Many of the Company's municipal holdings are able to be pledged at either the Federal Reserve bank ("FRB") or the Federal Home Loan Bank of Des Moines ("FHLB").

The Company's mortgage-backed securities ("MBS") portfolio consists of securities issued by U.S. Government agencies or by non-agencies. MBS have uncertain cash flow characteristics that present additional interest rate risk in the form of prepayment or extension risk primarily caused by changes in market interest rates. The prepayment risk associated with MBS is continually monitored, and prepayment rate assumptions are adjusted as appropriate to update the Company's MBS accounting and asset/liability reports.

The following table sets forth the carrying value of the Company's portfolio at the dates indicated.

(Dollars in thousands)	September 30, 2025	September 30, 2024
<b>Securities Available for Sale ("AFS")</b>		
Corporate securities	\$ 21,250	\$ 19,750
SBA securities	10,769	81,935
Obligations of states and political subdivisions	162	480
Non-bank qualified obligations of states and political subdivisions	187,040	217,990
Asset-backed securities	136,372	189,698
Mortgage-backed securities	972,250	1,231,368
Total debt securities AFS	1,327,843	1,741,221
<b>Securities Held to Maturity ("HTM")</b>		
Non-bank qualified obligations of states and political subdivisions	27,373	31,060
Mortgage-backed securities	1,935	2,032
Total debt securities HTM	29,308	33,092
<b>FRB and FHLB stock</b>		
Total securities and FRB and FHLB stock	\$ 1,381,859	\$ 1,810,327
<b>Other Interest-Earning Assets</b>		
Interest bearing deposits in other financial institutions and federal funds sold <sup>(1)</sup>	\$ 96,047	\$ 106,672

<sup>(1)</sup> At September 30, 2025, the Company had \$94.6 million and \$1.4 million in interest bearing deposits held at the FRB and FHLB, respectively. At September 30, 2024, the Company had \$104.9 million and \$1.7 million in interest bearing deposits held at the FRB and FHLB, respectively.

The fair value of debt securities available for sale ("AFS") decreased \$413.4 million at September 30, 2025 when compared to September 30, 2024 while the amortized cost of debt securities held to maturity ("HTM") decreased \$3.8 million over the same period. These decreases were primarily driven by strategic investment sales during the fiscal year and typical payments and prepayments in amortizing securities.

The following table sets forth the contractual maturities of debt securities AFS and HTM at September 30, 2025. Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations.

		September 30, 2025					
(Dollars in thousands)	1 Year or Less	After 1 Year Through 5 Years	After 5 Years Through 10 Years	After 10 Years	Total Securities

Weighted average yield	— %	— %	— %	2.77 %	2.77 %	5.74 %	

At September 30, 2025, the contractual maturity of approximately 100.0% of the Company's MBS were in excess of ten years. The actual maturity of an MBS is typically less than its stated contractual maturity due to scheduled principal payments and prepayments of the underlying mortgages. Prepayments that are different than anticipated will affect the yield to maturity. The yield is based upon the interest income and the amortization of any premium or discount related to the MBS. In accordance with U.S. Generally Accepted Accounting Principles ("GAAP"), premiums and discounts are amortized over the estimated lives of the loans, which decrease and increase interest income, respectively.

Under ASU 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, and subsequent related ASUs (collectively, "Topic 326") debt securities HTM are subject to an allowance for credit losses that reflects expected credit losses over the life of the financial asset, unless management concludes there is a zero risk of loss. The Company's HTM debt security portfolio is limited to investments with implicit and explicit guarantees by government agencies. As a result, management has concluded a zero risk of loss associated with these securities and no provision for credit loss has been included in the Company's Consolidated Statement of Operations. Under Topic 326, debt securities AFS continue to be recorded at fair value but are subject to an allowance for credit losses that reflects the portion of an unrealized loss position related to credit factors. Any such credit loss is recorded in the Company's Provision for Credit Loss on the Company's Consolidated Statement of Operations. Non-credit related losses are recorded in Other Comprehensive Income in the Company's Consolidated Statement of Condition. The adoption of CECL was inconsequential to debt securities AFS.

**Equity Securities.** The Company holds marketable equity securities, which have readily determinable fair values, and include common equity and mutual funds. These securities are recorded at fair value with unrealized gains and losses, due to changes in fair value, reflected in earnings. Interest and dividend income from these securities is recognized in interest income. See Note 3. Securities for additional information on marketable equity securities.

The Company also holds non-marketable equity investments and accounts for them under the equity method, fair value, or the measurement alternative method depending on the level of significant influence the Company can exercise and the availability of fair value. All income or loss recognition or fair value adjustments, regardless of measurement methodology, are reflected in earnings as non-interest income. Non-marketable equity investments measured under the equity method, or the measurement alternative method are reviewed for impairment each reporting period and are reported in earnings if applicable.

## **Funding Activities**

The Company's sources of funds are deposits, borrowings, amortization and repayment of loan and lease principal, interest earned on or maturation of securities and funds provided from operations.

Borrowings, including FHLB advances, overnight federal funds purchased, repurchase agreements, other short-term borrowings, and funds available through the FRB Discount Window, may be used at times to compensate for seasonal reductions in deposits or deposit inflows at less than projected levels, may be used to compensate for short-term delays in deposit funding, may be used on a longer-term basis to support expanded lending activities, and may also be used to match the funding of a corresponding asset.

### **Deposits**

The Company offers a variety of deposit accounts having a wide range of interest rates and terms. The Company's deposits primarily consist of demand deposit accounts, savings accounts, and money market savings accounts, many of which are related to the Partner Solutions business line. In addition, the Company may periodically utilize brokered or other wholesale deposits to target strategic maturities related to its seasonal refund advance lending. Other sources of wholesale deposits may also be utilized periodically to take advantage of balance sheet funding opportunities.

The flow of deposits is influenced significantly by general economic conditions, changes in prevailing interest rates, and competition.

The variety of deposit accounts offered by the Company has allowed it to be competitive in obtaining funds and to respond with flexibility to changes in consumer demand. The Company endeavors to manage the pricing of its deposits in keeping with its asset/liability management and profitability objectives. Based on its experience, the Company believes that deposits related to the Partner Solutions business line are relatively stable sources of deposits. However, the ability of the Company to attract and maintain deposits and the rates paid on these deposits has been and will continue to be significantly affected by market conditions.

During fiscal years 2020 and 2021, in partnership with the U.S. Department of the Treasury's Bureau of the Fiscal Service ("Fiscal Service"), the Bank issued 16.5 million prepaid cards in conjunction with the three Economic Impact Payment ("EIP") stimulus programs, totaling approximately \$24.15 billion. As of September 30, 2025, the Company had \$326.0 million in deposits related to government stimulus funds. Of the total amount of government stimulus program deposits, \$161.5 million are on activated cards while \$164.5 million are on inactivated cards.

At September 30, 2025, \$5.67 billion of the Company's \$5.89 billion deposit portfolio was attributable to the Consumer segment. The majority of these deposits represent funds available to spend on prepaid debit cards and other stored value products, of which \$5.62 billion are included with noninterest-bearing checking accounts and \$45.2 million are included with savings deposits on the Company's Consolidated Statements of Financial Condition. The Partner Solutions business line originates debit card programs through outside sales agents and other financial institutions. As such, these deposits carry a somewhat higher degree of concentration risk than traditional consumer products. If a major customer or card program were to leave the Bank, deposit outflows could be more significant than if the Bank were to lose a more traditional customer, although it is considered unlikely that all deposits related to a program would leave the Bank without significant advance notification. As such, and as historical results indicate, the Company believes that its deposit portfolio attributable to the Consumer segment is stable. Deposits arising from the Partner Solutions business line has allowed the Bank to reduce its reliance on wholesale deposits, certificates of deposit and public funds, which typically have relatively higher costs.

For information on noninterest-bearing checking deposits, see "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operation - Financial Condition" of this Annual Report on Form 10-K.

Approximately 64% of the deposit portfolio during the 2025 fiscal fourth quarter was subject to variable, rate-related processing expenses that are derived from the terms of contractual agreements with certain Partner Solutions relationships. These agreements are tied to a rate index, typically the Effective Federal Funds Rate ("EFFR").

The following table sets forth the dollar amount of deposits in the various types of deposit programs offered by the Company for the periods indicated.

(Dollars in thousands)	September 30, 2025		September 30, 2024	
	Amount	Percent of Total	Amount	Percent of Total
<b><u>Transactions and Savings Deposits:</u></b>				
Noninterest bearing checking	\$ 5,619,554	95.5 %	\$ 5,617,097	95.6 %
Interest bearing checking	11,605	0.2 %	4,350	0.1 %
Savings deposits	45,154	0.8 %	48,730	0.8 %
Money market deposits	206,954	3.5 %	174,701	3.0 %
Wholesale deposits	1,044	— %	1,001	— %
<b>Total transactions and savings deposits</b>	<b>5,884,311</b>	<b>100.0 %</b>	<b>5,845,879</b>	<b>99.5 %</b>
<b><u>Time Certificates of Deposit:</u></b>				
<b>Total time certificates of deposit<sup>(1)</sup></b>	<b>2,636</b>	<b>— %</b>	<b>29,206</b>	<b>0.5 %</b>
<b>Total deposits</b>	<b>\$ 5,886,947</b>	<b>100.0 %</b>	<b>\$ 5,875,085</b>	<b>100.0 %</b>

<sup>(1)</sup> As of September 30, 2025, total time certificates of deposit included no wholesale certificates of deposit.

As of September 30, 2025 and 2024, total deposits that exceed FDIC insurance limits, or are otherwise uninsured, were estimated to be \$652.1 million and \$643.3 million, respectively. Estimated uninsured domestic deposits reflect amounts, disclosed in U.S. regulatory reports of the Bank, with adjustments for amounts related to consolidated subsidiaries.

The following table presents contractual maturities of estimated U.S. time deposits in excess of FDIC insurance limits or are otherwise uninsured at September 30, 2025.

(Dollars in thousands)	Maturity					Total
	3 Months or Less	Over 3 to 6 Months	Over 6 to 12 Months	Over 12 Months		
Certificates of deposit	\$ —	\$ 1,136	\$ 750	\$ —	\$ 1,886	

The following table shows rate and maturity information for the Company's certificates of deposit at September 30, 2025.

(Dollars in thousands)	0.00 - 0.99%	1.00 - 1.99%	2.00 - 2.99%	3.00 - 3.99%	4.00 - 4.99%	Total	Percent of Total

The following table indicates the amount of the Company's certificates of deposit by time remaining until maturity as of September 30, 2025.

(Dollars in thousands)	3 Months or Less	After 3 to 6 Months	After 6 to 12 Months	After 12 Months	Total
Certificates of deposit less than \$250,000	\$ —	\$ —	\$ —	\$ —	\$ —
Certificates of deposit of \$250,000 or more	—	1,636	1,000	—	2,636
<b>Total certificates of deposit</b>	<b>\$ —</b>	<b>\$ 1,636</b>	<b>\$ 1,000</b>	<b>\$ —</b>	<b>\$ 2,636</b>

At September 30, 2025, there were no deposits from governmental or other public entities included in certificates of deposit.

For information on off-balance sheet custodial deposits, see "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operation – Financial Condition" of this Annual Report on Form 10-K.

### Borrowings

Although deposits are the Company's primary source of funds, the Company's practice has been to utilize borrowings to manage cyclical deposit changes, when they are a less costly source of funds, can be invested at a positive interest rate spread, or when the Company desires additional capacity to fund loan demand. Borrowings from various sources mature based on stated payment schedules.

The Company's borrowings have historically consisted primarily of advances from the FHLB upon the security of a blanket collateral agreement of a percentage of unencumbered loans and the pledge of specific securities. Such advances can be made pursuant to several different credit programs, each of which has its own interest rate and range of maturities. At September 30, 2025, the Bank had \$9.0 million overnight borrowings with the ability to borrow up to an approximate additional \$1.02 billion from the FHLB.

As of September 30, 2025, debt securities with fair values of approximately \$385.5 million and \$955.3 million were pledged as collateral to the FRB and the FHLB, respectively, to secure various obligations of the Company. For additional information regarding the Company's collateralization of borrowings, see Note 11. Short-term and Long-term Borrowings to the "Notes to Consolidated Financial Statements," which is included in Part II, Item 8 "Financial Statements and Supplementary Data" of this Annual Report on Form 10-K.

On September 26, 2022, the Company announced the completion of a private placement of \$20 million of its 6.625% Fixed-to-Floating Rate Subordinated Notes due 2032 to certain qualified institutional buyers and accredited investors. The Notes are intended to qualify as Tier 2 capital for regulatory capital purposes. The Notes were issued under an indenture with UMB Bank, N.A., as trustee. At September 30, 2025, \$19.8 million in aggregate principal amount in subordinated debentures were outstanding.

On July 16, 2001, the Company issued all of the 10,310 authorized shares of Company Obligated Mandatorily Redeemable Preferred Securities of First Midwest Financial Capital Trust I (preferred securities of subsidiary trust) holding solely trust preferred securities. Distributions are paid semiannually. Cumulative cash distributions are calculated at 6-month CME Term SOFR plus 0.42826% tenor spread adjustment plus 3.75%, not to exceed 12.5%. The Company may, at one or more times, defer interest payments on the capital securities for up to 10 consecutive semi-annual periods, but not beyond July 25, 2031. At the end of any deferral period, all accumulated and unpaid distributions must be paid. The capital securities are required to be redeemed on July 25, 2031; however, the Company has a semiannual option to shorten the maturity date. The option has not been exercised as of the date of this filing. The redemption price is \$1,000 per capital security plus any accrued and unpaid distributions to the date of redemption. Holders of the capital securities have no voting rights, are unsecured, and rank junior in priority of payment to all of the Company's indebtedness and senior to the Company's common stock. The trust preferred securities have been includable in the Company's capital since they were issued. The preferential capital treatment of the Company's trust preferred securities was grandfathered under the Dodd-Frank Act and is consistent with federal community bank capital rules.

Through the Crestmark Acquisition, the Company acquired \$3.4 million in floating rate capital securities due to Crestmark Capital Trust I, a 100%-owned nonconsolidated subsidiary of the Company. The subordinated debentures bear interest at 3-month CME Term SOFR plus 0.26161% tenor spread adjustment plus 3.00%, have a stated maturity of 30 years from the date of issuance and are redeemable by the Company at par, with regulatory approval. The interest rate is reset quarterly at distribution dates in February, May, August, and November. The subsidiary has the option to defer interest payments on the subordinated debentures from time to time for a period not to exceed five consecutive years.

The outstanding balance of the trust preferred securities at September 30, 2025 was \$13.7 million.

The following table sets forth the maximum month-end balance and average balance of trust preferred securities, subordinated debentures, overnight fed funds purchased, and other borrowings for the periods indicated.

	Fiscal Year Ended September 30,	
	2025	2024
(Dollars in thousands)		
<u>Maximum Balance:</u>		
Trust preferred securities	\$ 13,661	\$ 13,661
Subordinated debentures	19,795	19,693
Overnight fed funds purchased	286,000	377,000
Other borrowings	—	523
 <u>Average Balance:</u>		
Trust preferred securities	\$ 13,661	\$ 13,661
Subordinated debentures	19,740	19,638
Overnight fed funds purchased	74,948	99,290
Other borrowings	—	201

The following table sets forth certain information as to the Company's trust preferred securities, subordinated debentures, overnight fed funds purchased, and other borrowings.

(Dollars in thousands)	September 30, 2025	September 30, 2024
Trust preferred securities	\$ 13,661	\$ 13,661
Subordinated debentures	19,795	19,693
Overnight fed funds purchased	9,000	377,000
Other borrowings	—	—
<b>Total borrowings</b>	<b>\$ 42,456</b>	<b>\$ 410,354</b>
Weighted average interest rate of trust preferred securities	8.09 %	8.91 %
Weighted average interest rate of subordinated debentures	6.63 %	6.63 %
Weighted average interest rate of overnight fed funds purchased	4.33 %	5.11 %

## Partner Solutions Activities

The Company's core differentiators, including industry experience, operational excellence, committed partnership, and mature risk and compliance infrastructure are important for payment innovators in an evolving marketplace. Partner Solutions delivers a diversified portfolio of offerings including sponsorship solutions, financial institution solutions, credit solutions, and professional tax solutions with an operating structure that streamlines banking processes and ensures reliable and sustainable programs with unparalleled commitment to enabling our partners' success. Overall, the products and services offered by the Company are generally designed to facilitate the processing and settlement of authorized electronic transactions involving the movement of funds.

While the Company has seasoned banking expertise and time-tested risk and compliance infrastructure, no guarantee can be made that the Company will not experience losses in the Partner Solutions business line. The Company has signed agreements with terms extending through the next few years with several of its largest sales agents/program managers, which the Company expects will help mitigate this risk.

Each offering is discussed generally below with examples to illustrate use cases. The Company cross-utilizes personnel and resources across these offerings.

### Issuing

**DDA Sponsorship.** Partners looking to offer financial services in an ecosystem typically employ a direct deposit account, savings account or debit card, or combination thereof. Pathward facilitates their ability to establish a seamless banking experience for both their consumer and business customers, complete with online acceptance and digital funds transfer, as well as options such as overdraft protection in times of income shortfalls and the overall benefit of improved money management.

**Prepaid Sponsorship.** Similar to traditional debit cards, prepaid cards are embedded with a magnetic stripe, which encodes relevant card data (which may or may not include information about the user and/or purchaser of such card), and an EMV chip, which is equipped with a microprocessor chip and the technology used to authenticate chip card transactions. When the holder of a card attempts a permitted transaction, necessary information, including the authorization for such transaction, is shared between the "point of use" or "point of sale" and authorization systems maintaining the account of record. Most recently, "virtual" prepaid cards have become popular in the industry. Virtual prepaid cards are used in both the consumer space, for example as a gift card, and in the commercial arena to facilitate accounts payable and vendor payments.

The funds associated with such cards are typically held in pooled accounts at the Bank representing the aggregate value of all cards issued in connection with particular products or programs. Although the funds are held in pooled accounts, the account of record indicates the funds held by each individual card. The cards may work in a closed loop (e.g., the card will only work at one particular merchant and will not work anywhere else), a restricted access network (e.g., the card will only work at a specific set of merchants such as a shopping mall), or in an open loop by way of a Visa, MasterCard, or Discover branded debit card that will work wherever such cards are accepted for payment. Most of the Company's prepaid cards are open loop. Pathward is one of the leading prepaid card issuers in the United States.

The prepaid card business can generally be divided into two program categories: Consumer Use and Business or Commercial Use products. These programs are typically offered through a third-party relationship.

*Consumer Use.* Examples of consumer use prepaid card programs include payroll, general purpose reloadable ("GPR"), reward, gift and benefit/HSA cards. Payroll cards are a product whereby an employee's payroll is loaded to the card by their employer via direct deposit. GPR cards are usually distributed by retailers and can be reloaded an indefinite number of times at participating retail load networks. Other examples of reloadable cards are travel cards, which are used in place of traveler's checks and can be reloaded a predetermined number of times, as well as tax-related cards where a taxpayer's refund is placed on the card. Reloadable cards are generally open-loop cards that consumers can use to obtain cash at ATMs or purchase goods and services wherever such cards are accepted for payment.

*Business or Commercial Use.* Prepaid cards are also frequently used by businesses for travel and entertainment, accounts payable and business-to-business ("B2B") settlement products. For example, virtual prepaid cards are used to facilitate one-time payments between a company and its vendors for monthly settlement. Travel and entertainment cards, alternatively, are reloadable by the company for use by its employees to travel for business.

### **Acquiring**

*Merchant Acquiring Sponsorship.* Acquiring solutions include the acceptance, processing and settlement of credit card and debit card payments by an acquiring bank on behalf of merchants. Pathward acts as an acquiring bank to sponsor acquiring activity on behalf of merchant customers by leveraging partnerships with partners who act as merchant processors, third-party service providers, independent sales organizations ("ISOs"), and/or payment facilitators to identify, onboard and support merchant customers.

*ATM Sponsorship.* The Company sponsors ATM ISOs into various networks and provides associated sponsorships of encryption support organizations and third-party processors in support of the financial institutions and the ATM ISO sponsorships. Sponsorship consists of the review and oversight of entities participating in debit and credit networks.

Pathward currently provides financial processing services for approximately 300,000 freestanding ATMs in the U.S. and U.S. territories providing consumers with access to funds at ATMs frequently found in malls, retail chains, convenience stores, events, fairs and other small business locations.

### **Digital Payments**

*Money Movement Solutions.* In today's market, consumers want to move their money fast, with more visibility and control of their own financial transactions. Pathward provides the financing operations for Automated Clearing House ("ACH") transactions, disburse to debit (through Visa Direct or Mastercard Send), wire or check processing which enable the faster, almost instantaneous movement of funds from sender to receiver.

Technology has accelerated the growth and speed of transactional payments for corporate and financial organizations. Prompt movement of money creates efficiency, speed and a robust marketplace for consumers, B2B and business-to-consumer ("B2C") companies.

Pathward is a Nacha Top 50 bank for receiving and originating payments.

### **Financial Institution Solutions**

With this suite of offerings, Pathward provides community banks and credit unions a path to fulfill the unique needs of their customers without using in-house resources.

*Prepaid Solutions.* Pathward has delivered myriad co-branded prepaid card programs that promote the brands of our financial institution clients.

*Merchant Services.* Pathward's merchant services program empowers community banks and credit unions to offer merchant processing services to their business clients, eliminating the challenges and liabilities associated with managing an independent program.

## **Professional Tax Solutions**

Under the Refund Transfer program, the Bank opens a temporary bank account for each customer who is receiving an income tax refund and elects to defer payment of his or her tax preparation fees. After, the IRS and any state income tax authorities transfer the refund into the customer's account, the net funds are transferred to the customer. The temporary deposit account remains available for use for two tax years, which allows for additional payments to be received in addition to federal and state refunds, and then the account is closed.

## **Regulation and Supervision**

Both the Company and the Bank are subject to extensive regulation in connection with their respective activities and operations, including those of their subsidiaries. On April 1, 2020, the Bank converted from a federal thrift charter to a national bank charter and the Company converted from a savings and loan holding company to a BHC that has elected to be a FHC.

As a national bank, the Bank is supervised and examined by the Office of the Comptroller of the Currency ("OCC"), as its primary federal regulator, and the FDIC, the federal agency that administers the DIF. As a BHC, the Company is supervised and examined by the Federal Reserve. Federal banking policy is designed to protect customers of and depositors in insured depository institutions, the DIF, and the U.S. banking system.

The framework by which both the Company and the Bank are supervised and examined is complex. This framework includes acts of Congress, regulations, policy statements and guidance, and other interpretive materials that define the obligations and requirements for entities participating in the U.S. banking system.

Moreover, regulation of banks and their holding companies is subject to continual revision, both through statutory changes and corresponding regulatory revisions as well as through evolving supervisory objectives of banking agency examiners and supervisory staff. It is not possible to predict the content or timing of changes to the laws and regulations that may impact the business of the Bank and the Company. Any changes to the regulatory framework applicable to the Company or the Bank, however, could have a material adverse impact on the condition or operations of each entity.

In addition to regulation and supervision by the Federal Reserve, the Company is a reporting company under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and is required to file reports with the SEC and otherwise comply with federal securities laws.

As described broadly below, the banking industry is subject to significant regulation. The following discussion is not intended to be a complete list of all the activities regulated by the U.S. banking laws or of the impact of such laws and regulations on the Company or the Bank. Rather, it is intended to briefly summarize the legal and regulatory framework in which the Company and the Bank operate and describe legal requirements that impact their businesses and operations. The information set forth below is subject to change and is qualified in its entirety by the actual laws and regulations referenced.

### **Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the "Dodd-Frank Act")**

Enacted in 2010, the Dodd-Frank Act significantly changed the financial regulatory regime in the United States. Since the enactment of the Dodd-Frank Act, U.S. banks and financial services firms, such as the Company and the Bank, have been subject to enhanced regulation and oversight. As of the date of the filing of this Annual Report on Form 10-K, several provisions of the Dodd-Frank Act remain subject to further rulemaking and interpretation by the federal banking agencies; moreover, certain provisions of the act that were implemented by federal agencies have been revised or rescinded pursuant to legislative changes adopted by the U.S. Congress.

Certain provisions of the Dodd-Frank Act that directly impact the operation of the Company or the Bank are highlighted below:

*Consumer Financial Protection Bureau.* Pursuant to the Dodd-Frank Act, the Bank is subject to regulations promulgated by the Consumer Financial Protection Bureau (the “Bureau”). The Bureau has consolidated authority related to federal laws and regulations impacting the provision of consumer financial products and services. The Bureau also has substantial power to define the rights of consumers and responsibilities of lending institutions, such as the Bank. The Bureau does not, however, examine or supervise the Bank for compliance with such laws and regulations; rather, based on the Bank’s size (less than \$10 billion in assets), enforcement authority remains with the OCC, although the Bank may be required to submit reports or other materials to the Bureau upon request. The Dodd-Frank Act also provides state attorneys general with the right to enforce federal consumer protection laws. The Bureau is also authorized to prescribe rules applicable to any covered person or service provider identifying and prohibiting acts or practices that are unfair, deceptive or abusive in connection with any transaction with a consumer for a consumer financial product or service, or the offering of a consumer financial product or service (“UDAAP authority”). To date, the Bureau has engaged in rulemaking and taken enforcement actions that directly impact the business operations of financial institutions offering consumer financial products or services including the Bank and its divisions.

*Interchange Fees.* The Dodd-Frank Act includes provisions that restrict interchange fees to those which are “reasonable and proportionate” for certain debit card issuers and limits the ability of networks and issuers to restrict debit card transaction routing (known as the “Durbin Amendment”). Although, as of the date of the filing of this Annual Report on Form 10-K, the interchange fee restrictions in the Durbin Amendment do not apply to the Bank because debit card issuers with total worldwide assets of less than \$10 billion are exempt, such restrictions may negatively impact the pricing all debit card processors in the market, including the Bank, may charge.

*Incentive Compensation.* The Dodd-Frank Act requires that the federal banking agencies, including the Federal Reserve and the OCC, and the SEC issue a rule related to incentive-based compensation. No final rule implementing this provision of the Dodd-Frank Act has, as of the date of the filing of this Annual Report on Form 10-K, been adopted, but a re-proposed rule was published in May 2024 that is intended to prohibit certain financial institutions from establishing or maintaining incentive-based compensation arrangements that encourage inappropriate risk taking by providing covered persons with excessive compensation, fees or benefits that could lead to material financial loss at the financial institution. It is unclear when or whether this rule will be finalized. Although a final rule has not been issued, the Company and the Bank have undertaken efforts to ensure that their incentive compensation plans do not encourage inappropriate risks, consistent with the principles identified above.

**The Economic Growth, Regulatory Relief, and Consumer Protection Act of 2018 (“Regulatory Relief Act”)**

Enacted in 2018, the Regulatory Relief Act includes several provisions that positively affect smaller banking institutions (e.g., those with less than \$10 billion in assets) like the Bank. Specific provisions of the Regulatory Relief Act that benefit smaller banks include modifications to the “qualified mortgage” criteria under the “ability to repay” rules for certain mortgages that are held and maintained on the Bank’s retained portfolio as well as relief from certain capital requirements required by an international banking capital framework with the creation of a “community bank leverage ratio.” See “Regulatory Capital Requirements” and “Brokered Deposits.” Many of the Regulatory Relief Act’s changes were implemented through rules promulgated by the federal banking agencies. These rules and their enforcement are subject to the substantial regulatory discretion of the federal banking agencies.

### **Temporary Regulatory Capital Relief Related to Impact of CECL**

On August 26, 2020, the federal banking agencies adopted a final rule that delayed the estimated impact on regulatory capital resulting from the adoption of CECL. The interim final rule provided banking organizations that implemented CECL before the end of 2020 the option to delay for two years the estimated impact of CECL on regulatory capital relative to regulatory capital determined under the prior incurred loss methodology, followed by a three-year transition period to phase out the aggregate amount of capital benefit provided during the initial two-year delay. The Company elected to phase in the regulatory capital impact as permitted under this final rule. The CECL transition amount is being phased out of regulatory capital over a three-year period that began October 1, 2022 and ended on September 30, 2025.

### **Bank Regulation and Supervision**

The Bank is a national bank that is subject to broad federal regulation and oversight extending to all of its operations by its primary federal regulator, the OCC, and by its deposit insurer, the FDIC. Such regulation covers all aspects of the banking business, including lending practices, safeguarding deposits, capital structure, transactions with affiliates, and conduct and qualifications of personnel. The Bank pays assessment fees both to the OCC and the FDIC, and the level of such assessments reflects the condition of the Bank. If the condition of the Bank were to deteriorate, the level of such assessments could increase significantly, having a material adverse effect on the Company's financial condition and results of operations.

Regulatory authorities have been granted extensive discretion in connection with their supervisory and enforcement activities which are intended to strengthen the financial condition of the banking industry, including, but not limited to, the imposition of restrictions on the operation of an institution, the classification of assets by the institution, and the adequacy of an institution's allowance for credit losses. Typically, these actions are undertaken due to violations of laws or regulations or conduct of operations in an unsafe or unsound manner.

The Bank derives its lending and investment powers from the National Bank Act ("NBA") and the OCC's implementing regulations promulgated thereunder. Under these laws and regulations, the Bank may invest in mortgage loans secured by residential and commercial real estate, commercial and consumer loans, certain types of debt securities and certain other assets. The Bank may also invest in operating subsidiaries, bank service companies (but not service corporations generally), financial subsidiaries, and may make non-controlling investments in other entities, in each case subject to the statutory provisions of the NBA and the OCC's regulatory requirements and limitations.

In general, the Bank's legal lending limit totals 15 percent of its capital and surplus plus an additional 10 percent of capital and surplus if the amount that exceeds the 15 percent general limit is fully secured by readily marketable collateral (together, referred to as the "combined general limit"). At September 30, 2025, the Bank was in compliance with the combined general limit.

The OCC and the FDIC have signaled shifts in their supervisory programs. On October 7, 2025, the OCC and FDIC issued a notice of proposed rulemaking to codify the elimination of reputation risk from their supervisory programs, which would, among other things, prohibit the OCC or FDIC from criticizing or taking adverse action against an institution on the basis of reputation risk, and to prohibit politicized debanking. On October 7, 2025, the OCC and FDIC also issued a notice of proposed rulemaking that would define the term "unsafe or unsound practice" for purposes of section 8 of the Federal Deposit Insurance Act and revise the supervisory framework for the issuance of matters requiring attention and other supervisory communications.

### **Insurance of Deposit Accounts and Regulation by the FDIC**

The Bank is a member of the DIF, which is administered by the FDIC. Pursuant to the Dodd-Frank Act, a permanent increase in deposit insurance to \$250,000 was authorized. The coverage limit is per depositor, per insured depository institution for each account ownership category. FDIC insurance is backed by the full faith and credit of the United States government.

While not the Bank's primary federal regulator, the FDIC, as insurer of the Bank's deposits, imposes deposit insurance premiums and is authorized to conduct examinations of and to require reporting by FDIC-insured institutions. It also may prohibit any FDIC-insured institution from engaging in any activity the FDIC determines by regulation or order poses a serious risk to the DIF. The FDIC also has authority to initiate enforcement actions against any FDIC-insured institution after giving its primary federal regulator the opportunity to take such action, and may seek to terminate the deposit insurance if it determines that the institution has engaged in unsafe or unsound practices or is in an unsafe or unsound condition. Finally, the FDIC may terminate deposit insurance upon a finding that the institution has engaged in unsafe or unsound practices, is in an unsafe or unsound condition to continue operations, or has violated any applicable law, regulation, rule, order, or condition imposed by the FDIC or the OCC.

The FDIC imposes an assessment against all depository institutions for deposit insurance quarterly. FDIC total base assessment rates for institutions that have been insured for at least five years range from 2.5 to 42 basis points annually and take into account an institution's composite CAMELS rating and other factors. Notably, the FDIC has the authority to increase certain institutions' deposit insurance premium if it determines that the institution significantly relies upon brokered deposits. As of September 30, 2025, 2024 and 2023, the Bank's deposit insurance assessment rate was 6 basis points, 7 basis points, and 7 basis points, respectively. The Bank's deposit insurance premium expense totaled \$4.5 million for 2025, \$5.3 million for 2024, and \$4.3 million for 2023. A significant increase in DIF insurance premiums would have an adverse effect on the operating expenses and results of operations of the Bank.

The FDIC applies small bank credits to banks with less than \$10 billion in assets, such as the Bank, so long as the designated reserve ratio ("DRR") is at least 1.35%. After applying small bank credits for four quarters, the FDIC will remit to banks the value of any remaining small bank credits in the next assessment period in which the DRR is at least 1.35%.

The Federal Deposit Insurance Act requires the FDIC to designate and publish the DRR before the beginning of each calendar year. For calendar year 2025, the FDIC set the DRR at 2.00%, which is consistent with the DRR set for each calendar year since 2011 and the FDIC's goal to maintain the DRR at or above the statutory threshold.

#### **Brokered Deposits**

The FDIC limits the ability to accept brokered deposits to those insured depository institutions that are well capitalized. Institutions that are less than well capitalized cannot accept, renew or roll over any brokered deposit unless they have applied for and been granted a waiver by the FDIC. The FDIC has defined the "national rate" for all interest-bearing deposits held by less-than-well-capitalized institutions as "a simple average of rates paid by all insured depository institutions and branches for which data are available" and has stated that its presumption is that this national rate is the prevailing rate in any market. As such, institutions that are less than well capitalized that are permitted to accept, renew or rollover brokered deposits via FDIC waiver generally may not pay an interest rate in excess of the national rate plus 75 basis points on such brokered deposits. As of September 30, 2025, the Bank categorized \$59.5 million, or 1% of its deposit liabilities, as brokered deposits.

#### **Branching by National Banks**

Subject to certain limitations, federal statutes and OCC regulations permit national banks to establish branches in any state of the United States. With OCC approval, a national bank may open an interstate *de novo* branch in any state that permits the establishment of a branch by a bank chartered by such state, subject to applicable state law limitations. The Bank's only banking office open to the public is its home office in Sioux Falls, South Dakota, where it accepts deposits.

**Prepaid Accounts under the Electronic Fund Transfer Act ("Regulation E") and the Truth In Lending Act ("Regulation Z")**  
The Bureau's "Prepaid Accounts Rule," adopted in October 2016, enhanced the regulations applicable to prepaid products and brought them fully within Regulation E, which implements the federal Electronic Funds Transfer Act. In addition, prepaid products that have a credit component, like some of those offered in connection with an existing program manager agreement, are now regulated by Regulation Z, which implements the federal Truth in Lending Act. The rule also extended Regulation Z's credit card rules and disclosure requirements to prepaid accounts that provide overdraft services and other credit features. These rules became effective on April 1, 2019.

### **Short-Term, Small-Dollar Installment Lending**

The Bureau has a small dollar rule related to payday, vehicle title and certain high-cost installment loans ("Small Dollar Rule"), which restricts lenders from attempting to withdraw payment from a borrower's account after two consecutive failed attempts unless the borrower provides new authorization for the third attempt. In order to begin re-attempting payments, the lender must follow certain guidelines and obtain new authorizations where applicable. The Small Dollar Rule became effective on March 30, 2025.

Separately, in May 2020, the federal banking agencies issued interagency guidance to encourage banks, savings associations, and credit unions to offer responsible small-dollar loans to customers for consumer and small business purposes. As of the date of the filing of this Annual Report on Form 10-K, the Bank has not determined to offer such products, although this position may change as the Bank further refines its business plan in the future.

### **Interest Rate Risk Management**

The OCC requires national banks, like the Bank, to have an effective and sound interest rate risk management program, including appropriate measurement and reporting, robust and meaningful stress testing, assumption development reflecting the institution's experience, and comprehensive model valuations. According to OCC guidance, interest rate risk exposure is supposed to be managed using processes and systems commensurate with their earnings and capital levels; complexity; business model; risk profile; and scope of operations.

### **Standards for Safety and Soundness**

The federal banking agencies have adopted the *Interagency Guidelines Establishing Standards for Safety and Soundness*. The guidelines establish certain safety and soundness standards for all depository institutions. The operational and managerial standards in the guidelines generally relate to the following: (1) internal controls and information systems; (2) internal audit systems; (3) loan documentation; (4) credit underwriting; (5) interest rate exposure; (6) asset growth; (7) compensation, fees and benefits; (8) asset quality; and (9) earnings. Failure to meet the standards in the guidelines could result in a request by the OCC to the Bank to provide a written compliance plan to demonstrate its efforts to come into compliance with such guidelines.

### **Anti-Money Laundering ("AML") Laws and Regulations**

AML and financial transparency laws and regulations, including the Bank Secrecy Act and the USA PATRIOT Act of 2001, impose strict standards for gathering and verifying customer information in order to ensure funds or other assets are not being placed in U.S. financial institutions to facilitate terrorist financing and laundering of funds. Applicable laws require financial institutions to have AML programs in place and require the federal banking agencies to consider a holding company's effectiveness in combating money laundering when ruling on certain merger or acquisition applications. In addition, failure to comply with these requirements could lead to significant fines and penalties or the imposition of corrective orders. In July 2024, the federal banking agencies, including the Federal Reserve and OCC, proposed amendments to update the requirements for supervised institutions to establish, implement and maintain effective, risk-based and reasonably designed AML and countering the financing of terrorism ("CFT") programs. The proposed amendments would require supervised institutions to identify, evaluate and document the regulated institution's money laundering, terrorist financing and other illicit finance activity risks, as well as consider, as appropriate, the U.S. Department of the Treasury's Financial Crimes Enforcement Network's ("FinCEN") published national AML/CFT priorities.

### **Customer Identification Programs for Holders of Prepaid Cards**

The federal banking agencies, including the OCC and the Federal Reserve, issued guidance in 2016 that extends the requirements of the Customer Identification Program required by Section 326 of the USA PATRIOT Act to prepaid accounts where the cardholder has either the (i) ability to reload funds, or (ii) access to credit or overdraft features. If either of these features is present, the issuer must verify the identity of the named account holder.

### **Privacy and Cybersecurity**

The Bank is required by federal statutes and regulations to disclose its privacy policies to its customers. The Bank is also required to appropriately safeguard its customers' personal information.

A banking organization is required to notify its primary federal regulator of any significant computer-security incident as soon as possible and no later than 36 hours after the banking organization determines that a cyber incident has occurred. Notification is required for incidents that have materially affected—or are reasonably likely to materially affect—the viability of a banking organization's operations, its ability to deliver banking products and services, or the stability of the financial sector. A bank service provider must also notify affected banking organization customers as soon as possible when the provider determines that it has experienced a computer-security incident that has materially affected or is reasonably likely to materially affect banking organization customers for four or more hours.

In addition, certain state laws could potentially impact the Bank's operations, including those related to applicable notification requirements when computer-security incident or unauthorized access to customers' nonpublic personal information has occurred.

### **Guidance for Third-Party Relationships**

In June, 2023, the OCC, Federal Reserve, and FDIC issued final interagency guidance on risk management of third-party relationships, including third-party lending relationships. The interagency guidance is based, in part, on the OCC's previously existing third-party risk management guidance from 2013 and seeks to, among other things, promote consistency in third-party risk management and provide sound risk management guidance for third-party relationships commensurate with a bank's risk profile and complexity as well as the criticality of the activity. Additionally, third party relationship risk management and banking as a service arrangements (including with respect to deposit products and services) may continue to be topics of focus for federal bank regulators and further rulemaking activity or guidance may be forthcoming.

### **Unclaimed Property Laws**

Unclaimed property (escheatment) laws vary by state but generally require holders of customer property (including money) to turn over such property to the applicable state after holding the property for the statutorily prescribed period of time. These laws are not uniform and impose varying requirements on entities, like the Bank, which may hold funds that are required to be escheated to the applicable states.

### **Assessments**

The Dodd-Frank Act provides that, in establishing the amount of an assessment, the Comptroller of the Currency may consider the nature and scope of the activities of the entity, the amount and type of assets it holds, the financial and managerial condition of the entity and any other factor that is appropriate. The assessments are paid to the OCC on a semi-annual basis. During the fiscal year ended September 30, 2025, the Bank paid assessments (standard assessments) of \$655,404 to the OCC.

### **Regulatory Capital Requirements**

The regulatory capital rules applicable to the Company and the Bank (the "Capital Rules") identify three components of regulatory capital: (i) common equity tier 1 capital ("CET1 Capital"), (ii) additional tier 1 capital, and (iii) tier 2 capital. Tier 1 capital is the sum of CET1 Capital and additional tier 1 capital instruments meeting certain requirements. Total capital is the sum of tier 1 capital and tier 2 capital. CET1 Capital, tier 1 capital, and total capital serve as the numerators for three prescribed regulatory capital ratios. Risk-weighted assets, calculated using the standardized approach in the Capital Rules for the Company and the Bank, provide the denominator for such ratios. There is also a leverage ratio that compares tier 1 capital to average total assets.

Failure by the Company or the Bank to meet minimum capital requirements set by the Capital Rules could result in certain mandatory and/or discretionary disciplinary actions by their regulators that could have a material adverse effect on their business and their consolidated financial position. Under the capital requirements and the regulatory framework for prompt corrective action (discussed below), the Company and the Bank must meet specific capital guidelines that involve quantitative measures of the Company's and the Bank's assets, liabilities and certain off-balance-sheet items as calculated under regulatory accounting practices. The Company's and the Bank's capital amounts and classifications are also subject to qualitative judgments by regulators about components, risk weightings and other factors.

The Company and the Bank are required to maintain a capital conservation buffer of 2.5% above the minimum risk-based capital requirements in order to avoid certain limitations on capital distributions, stock repurchases and discretionary bonus payments to executive officers. The capital conservation buffer is exclusively composed of CET1 Capital and applies to each of the three risk-based capital ratios (but not the leverage ratio).

The Capital Rules provide for a number of deductions from and adjustments to CET1 Capital. These include, for example, the requirement that deferred tax assets arising from temporary differences that could not be realized through net operating loss carrybacks and significant investments in non-consolidated financial entities be deducted from CET1 Capital to the extent that any one such category exceeds 10% of CET1 Capital or all such items, in the aggregate, exceed 15% of CET1 Capital.

The Capital Rules prescribe a standardized approach for risk weightings for a large and risk-sensitive number of categories, depending on the nature of the assets, generally ranging from 0% for U.S. government and agency securities to 600% for certain equity exposures, and resulting in high-risk weights for a variety of asset classes. As of September 30, 2025, the Bank exceeded all of its regulatory capital requirements and was designated as “well capitalized” under federal guidelines.

There have been several developments which are intended to reduce the regulatory capital burden on smaller or less complex banking organizations like the Company and the Bank. The effect that these developments will have on the Company and the Bank is currently uncertain.

In July 2019, the federal banking agencies finalized a rule intended to simplify and clarify a number of the more complex aspects of existing regulatory capital rules. Specifically, the rule simplifies the capital treatment for mortgage servicing assets, certain deferred tax assets, investments in the capital instruments of unconsolidated financial institutions, and minority interest. The final rule also allows bank holding companies to redeem common stock without prior approval unless otherwise required. The final rule became effective April 1, 2020 for the amendments to simplify capital rules, and October 1, 2019 for revisions to the pre-approval requirements for the redemption of common stock and other technical amendments. The Bank did not elect to implement the relief provided under the simplification rule.

On November 21, 2018, the FDIC, the OCC, and the Federal Reserve jointly issued a proposed rule required by the Regulatory Relief Act that would permit qualifying banks that have less than \$10 billion in consolidated assets to elect to be subject to a 9% leverage ratio that would be applied using less complex leverage calculations (referred to as the “community bank leverage ratio” or “CBLR”). Under the proposed rule, banks that opt into the CBLR framework and maintain a CBLR of greater than 9% would not be subject to other risk-based and leverage capital requirements and would be deemed to have met the well capitalized ratio requirements. The rule was adopted in September 2019. The Bank continues to assess the potential impact of opting in to this election as part of its ongoing capital management and planning processes.

#### **Prompt Corrective Action ("PCA")**

Federal banking agencies are authorized and, under certain circumstances, required to take certain actions against banks that fail to meet their minimum capital requirements.

Well capitalized banks may not make a capital distribution or pay management fees if the bank would be undercapitalized after making such distributions or paying such fees. Adequately capitalized banks, in general, cannot pay dividends or make any capital contributions that would leave them undercapitalized; they cannot pay a management fee to a controlling person if, after paying the fee, they would be undercapitalized; and they cannot accept, renew or roll over any brokered deposit unless they have applied for and been granted a waiver by the FDIC. The activities of an “undercapitalized,” “significantly undercapitalized” or “critically undercapitalized” bank are further restricted. Any such bank must submit a capital restoration plan that is guaranteed by each company that controls the Bank, and such company must provide appropriate assurances of performance. Until such plan is approved, the bank may not increase its assets, acquire another institution, establish a branch or engage in any new activities, and generally may not make capital distributions. The federal banking agencies are authorized to impose additional restrictions, discussed below, that are applicable to significantly undercapitalized institutions.

The imposition of any action taken by the OCC against the Bank in connection with the agency’s PCA authority would likely have a substantial adverse effect on it and on the Company’s operations and profitability. This is especially true if the Bank were to no longer be deemed to be well capitalized and, therefore, subject to limitations on its ability to accept, renew or roll over brokered deposits absent a waiver from the FDIC. The Company’s stockholders are not entitled to preemptive rights and, therefore, if the Company is directed by its regulators to issue additional shares of common stock, such issuance may result in dilution to the Company’s existing stockholders.

#### **Institutions in Troubled Condition**

Certain events, including entering into a formal written agreement with a bank’s regulator that requires action to improve the bank’s financial condition, or being informed by the regulator that the bank is in troubled condition, will automatically result in limitations on so-called “golden parachute” agreements pursuant to Section 18(K) of the FDIA. In addition, organizations that are not in compliance with minimum capital requirements, or are otherwise in a troubled condition, must give 90 days’ written notice to the OCC before appointing a Director or Senior Executive Officer, pursuant to the OCC’s regulations.

### **Civil Money Penalties**

The OCC has the authority to assess civil money penalties (“CMPs”) against any national bank, federal savings bank or any of their institution-affiliated parties (“IAPs”). In addition, the OCC has the authority to assess CMPs against bank service companies and service providers. CMPs may encourage an affected party to correct violations, unsafe or unsound practices or breaches of fiduciary duty. CMPs are also intended to serve as a deterrent to future violations of law, regulations, orders and other conditions.

### **Limitations on Dividends and Other Capital Distributions**

The NBA and related federal regulations govern the permissibility of dividends and capital distributions by a national bank. As a national bank, the Bank’s board of directors may not declare, and the Bank may not pay, any dividend in an amount greater than the sum of current period net income and retained earnings. A distribution in excess of that amount is a reduction in permanent capital, and the Bank would need to follow the applicable procedures set forth in OCC regulations and guidance. Further, the Bank’s board of directors may not declare a dividend if paying the dividend would result in the Bank being undercapitalized under the OCC’s PCA rule.

The Bank also must obtain prior approval from the OCC to pay a cash dividend if the dividend would exceed the sum of current period net income and retained earnings from the past two years, after deducting the following transactions during that period: (i) any dividends previously declared, (ii) extraordinary transfers required by the OCC, and (iii) payments made for the retirement of preferred stock. This calculation is performed on a rolling basis as described in the OCC’s earnings limitation regulations.

The Bank paid cash dividends in the amount of \$159.5 million to the Company during fiscal 2025, to be used to fund share repurchases under the common stock share repurchase programs that were authorized by the Company’s Board of Directors. On August 25, 2023, the Company’s Board of Directors authorized a stock repurchase program pursuant to which the Company may repurchase up to 7,000,000 shares of the Company’s outstanding common stock on or before September 30, 2028. As part of its capital planning, the Company will continue to regularly assess its needs for dividends from the Bank in order to fund future share repurchases and dividends to the Company’s stockholders as needed.

### **Transactions with Affiliates**

The Bank must comply with Sections 23A and 23B of the Federal Reserve Act relative to transactions with “affiliates,” generally defined to mean any company that controls or is under common control with the institution (as such, the Company is an affiliate of the Bank for these purposes). Transactions between an institution or its subsidiaries and its affiliates are required to be on terms as favorable to the Bank as terms prevailing at the time for transactions with non-affiliates. Certain transactions, such as loans to an affiliate, are restricted to a percentage of the institutions’ capital (e.g., the aggregate amount of covered transactions with any individual affiliate is limited to 10% of the capital and surplus of the institution; the aggregate amount of covered transactions with all affiliates is limited to 20% of the institution’s capital and surplus).

### **Community Reinvestment Act (“CRA”)**

Under the CRA, the Bank is evaluated periodically by its primary federal banking regulator to determine if it is meeting its continuing and affirmative obligations consistent with its safe and sound operation, to help meet the credit needs of its assessment areas, including low- and moderate-income neighborhoods. CRA ratings can also impact an insured depository institution’s ability to engage in certain activities as CRA performance is considered in connection with certain applications by depository institutions and their holding companies, including merger applications, charter applications, and applications to acquire assets or assume liabilities. The Bank received a “Satisfactory” rating during its most recent Performance Evaluation dated January 29, 2024.

On October 24, 2023, the federal banking agencies jointly issued a final rule to modernize CRA regulations, but in light of litigation, the agencies issued a joint proposal in July 2025 to rescind this rule and reinstate the CRA framework that existed prior to the 2023 final rule.

### **Federal Home Loan Bank System**

The Bank is a member of the FHLB system through the FHLB of Des Moines, one of 11 regional FHLBs that administer the home financing credit function that is subject to regulation and supervision by the Federal Housing Finance Agency. All advances from the FHLB are required to be fully secured by sufficient collateral as determined by the FHLB. In addition, all long-term advances must be used for residential home financing.

As a member of the FHLB system, the Bank is required to purchase and maintain activity-based capital stock in the FHLB in the amount specified by the applicable FHLB's capital plan. At September 30, 2025, the Bank had in the aggregate \$5.0 million in FHLB stock, which was in compliance with the FHLB of Des Moines' requirement. For the fiscal year ended September 30, 2025, dividends paid by the FHLB to the Bank totaled \$0.6 million.

#### **Other Regulation**

The Bank is also subject to a variety of other regulations with respect to its business operations including, but not limited to, the Truth in Lending Act, the Truth in Savings Act, the Consumer Leasing Act, the Equal Credit Opportunity Act, the Electronic Funds Transfer Act, the Military Lending Act, the Servicemembers' Civil Relief Act, the Fair Housing Act, the Fair Debt Collection Practices Act, the Telephone Consumer Protection Act, the Controlling the Assault of Non-Solicited Pornography and Marketing Act, and the Fair Credit Reporting Act.

It is possible that additional rulemaking could require significant revisions to the regulations under which the Bank operates and is supervised. Any change in such laws and regulations or interpretations thereof negatively impacting the Bank's or the Company's current operations, whether by the OCC, the FDIC, the Bureau, the Federal Reserve or through legislation, could have a material adverse impact on the Bank and its operations and on the Company and its stockholders.

#### **Holding Company Regulation and Supervision**

The Company is subject to examination, supervision, and certain reporting requirements by the Federal Reserve, which has responsibility for the primary regulation and supervision of all BHCs, including the Company, under the Bank Holding Company Act ("BHCA"). The Federal Reserve also has supervisory authority over any nonbank subsidiary of a BHC that is not functionally regulated by another federal or state regulator, such as a leasing subsidiary. Through the supervisory process, the Federal Reserve ensures that BHCs, like the Company, comply with law and regulation and are operated in a manner that is consistent with safe and sound banking practices. The Federal Reserve supervises BHCs pursuant to Regulation Y (12 C.F.R. Part 225) and a supervisory program that seeks to ensure that BHCs comply with rules and regulations and that they operate in a safe and sound manner.

As a BHC that has elected to become a FHC, the Company may engage in any activity, or acquire and retain the shares of a company engaged in any activity, that is either (i) financial in nature or incidental to such financial activity (as determined by the Federal Reserve in consultation with the Secretary of the Treasury) or (ii) complementary to a financial activity, and that does not pose a substantial risk to the safety and soundness of depository institutions or the financial system (as solely determined by the Federal Reserve). Activities that are financial in nature include securities underwriting and dealing, insurance underwriting, and making merchant banking investments.

#### **Acquisitions**

Federal law prohibits a BHC, including the Company, directly or indirectly, from: (a) acquiring control (as defined under Regulation Y) of another bank (or a holding company parent) without prior Federal Reserve approval; or (b) through merger, consolidation or purchase of assets, acquiring another bank or a holding company thereof, or acquiring all or substantially all of the assets of such institution (or a holding company), without prior Federal Reserve approval. In evaluating applications by BHCs to acquire other holding companies and banks, the Federal Reserve must consider the financial and managerial resources and future prospects of the company and institution involved, the effect of the acquisition on the risk to the DIF, the convenience and needs of the community and competitive factors.

In September 2024, the OCC issued a final rule related to its regulations for business combinations involving national banks and a policy statement summarizing the principles the OCC uses when it reviews proposed bank merger transactions under the Bank Merger Act ("BMA"), both of which expressed the OCC's heightened scrutiny of business combinations involving national banks. In May 2025, the OCC adopted an interim final rule amending the 2024 final rule to restore the expedited review and the use of the streamlined business combination application. The OCC also rescinded its 2024 policy statement. President Trump subsequently signed a joint resolution under the Congressional Review Act, which, among other things, prevents an agency from reissuing a substantially similar rule.

## **Change in Bank Control**

Federal law and regulation set forth the types of transactions that require prior notice under the Change in Bank Control Act (“CIBCA”). Pursuant to CIBCA and Regulation Y, any person (acting directly or indirectly) that seeks to acquire control of a bank or its holding company must provide prior notice to the Federal Reserve. A “person” includes an individual, bank, corporation, partnership, trust, association, joint venture, pool, syndicate, sole proprietorship, unincorporated organization, or any other form of entity. A person acquires “control” of a banking organization whenever the person acquires ownership, control, or the power to vote 25 percent or more of any class of voting securities of the institution. The applicable regulations also provide for certain other “rebuttable” presumptions of control.

## **Source of Strength and Capital Requirements**

The Dodd-Frank Act requires all companies, including BHCs, that directly or indirectly control an insured depository institution to serve as a source of financial and managerial strength to its subsidiary depository institutions and to maintain adequate resources to support such institutions; to date, however, specific regulations implementing this requirement have not been published. As an BHC, the Company is also subject to the same regulatory capital requirements as the Bank.

## **Examination**

In 2019, the Federal Reserve published finalized guidance with respect to inspection frequency and scope for BHCs with less than \$10 billion in assets. According to the Federal Reserve, with respect to institutions with less than \$10 billion in assets (such as the Company), the determination of whether a holding company is “complex” versus “noncomplex” is made at least annually on a case-by-case basis taking into account and weighing a number of considerations, such as: the size and structure of the holding company; the extent of intercompany transactions between insured depository institution subsidiaries and the holding company or uninsured subsidiaries of the holding company; the nature and scale of any non-bank activities; and the degree of leverage of the holding company, including the extent of its debt outstanding to the public.

## **Dividends**

In 2009, the Federal Reserve released a supervisory letter entitled *Applying Supervisory Guidance and Regulations on the Payment of Dividends, Stock Redemptions and Stock Repurchases at Bank Holding Companies*. This letter generally sets forth principles describing when a BHC must consult, provide notice, or seek approval from the Federal Reserve prior to a capital distribution including the payment of dividends, stock redemptions, or stock repurchases. According to Federal Reserve staff, the Federal Reserve banks are likely to require holding companies to eliminate, defer or reduce dividends if these payments are not fully covered by the net income available to shareholders for the past four quarters, earnings retention is not consistent with capital needs or the holding company will not meet or is in danger of not meeting minimum regulatory capital adequacy ratios.

## **Management**

In August 2017, the Federal Reserve published proposed guidance related to supervisory expectations for boards of directors of BHCs. The proposal sought to clarify supervisory expectations of boards and distinguish the roles held by senior management to allow boards to focus on fulfilling their core responsibilities. On February 26, 2021, the Federal Reserve issued a Supervision and Regulation letter (SR 21-3/CA 21-1) containing its final supervisory guidance on the effectiveness of a banking institution's board of directors. Although the guidance only applies to bank holding companies and savings-and-loan holding companies with total consolidated assets of \$100 billion or more, the Company continues to monitor the Federal Reserve's evolving supervisory and regulatory approach to board and senior management effectiveness.

## **Additional Regulatory Matters**

The Company is subject to oversight by the SEC, NASDAQ and various state securities regulators. In the normal course of business, the Company has received requests for information from these regulators. Such requests have been considered routine and incidental to the Company's operations.

## **Federal and State Taxation**

Pathward Financial and its subsidiaries file a consolidated federal income tax return and various consolidated state income tax returns. Additionally, Pathward Financial or its subsidiaries file separate company income tax returns in states where required. All returns are filed on a fiscal year basis using the accrual method of accounting. The Company monitors relevant tax authorities and changes its estimate of accrued income tax due to changes in income or franchise tax laws and their interpretation by the courts and regulatory authorities.

## **Competition**

The Company operates in competitive markets for each of the different financial sectors in which it engages in business: payments, commercial finance, tax services and consumer lending. Competitors include a wide range of regional and national banks and financial services companies located both in the Company's market areas and across the nation.

The Company's Partner Solutions business line serves customers nationally and also faces strong competition from large commercial banks and specialty providers of electronic payments processing and servicing, including prepaid, debit and credit card issuers, ACH processors and ATM network sponsors. Many of these national players are aggressive competitors, leveraging relationships and economies of scale.

As part of its national lending operations, the Company also faces strong competition from non-bank commercial finance companies, leasing companies, factoring companies, consumer finance and others on a nationwide basis. In addition, the Company's tax return processing services division competes nationwide with financial institutions that offer similar processing technologies and capabilities.

## **Human Capital Resources**

The Company's purpose of powering financial inclusion is foundational to our ability to attract and retain top talent who desire to work with innovators to enable financial availability, choice, and opportunity for consumers and businesses in underserved markets. We empower our employees by providing opportunities to grow and develop in their careers, supported by strong compensation, benefits, and health and well-being programs. We seek to provide an inclusive, safe, and healthy workplace, recognizing our employees enable us to deliver on our purpose.

### **Composition of Our Workforce**

The following table describes the composition of our workforce as of September 30, 2025:

Employee Type	9/30/2024	9/30/2025	Change
Full-time	1,239	1,177	(5.00)%
All Other Types	5	5	—%
<b>Total Employees</b>	<b>1,244</b>	<b>1,182</b>	<b>(4.98)%</b>

We aim to cultivate an environment where every employee is recognized for their unique contributions in serving our clients, partners and communities.

Pathward works to provide an equal opportunity for employment and success, as reflected in our Code of Business Conduct and Employee Handbook.

### **Talent Acquisition**

A core tenet of our talent system is to both develop talent from within and enrich our talent pool with external hires to support a continuous improvement mindset. We have evolved our "Talent Anywhere" recruitment strategy to source candidates in anchor geographic hubs with flexibility to hire in other domestic locations. This allows us to expand our talent pool to acquire the best talent available while encouraging the ability for interactivity in our hub locations to build connections and community. Through this recruiting strategy, we expand our reach beyond local candidates as a remote-enabled employer of choice.

## **Talent Assessment and Development**

Assessing talent and leadership development are critical to our pipeline strategy. We have continued to mature our enterprise talent management framework to provide a clearer line of sight into our teams' strengths and opportunities in terms of skills and leadership potential. This helps ensure our internal talent supply keeps pace with demand. We continue to invest in our workforce with intention, have our highest performing, highest potential employees applied to our most critical work, and are preparing today's talent for tomorrow's needs.

Our performance management program is an interactive practice that engages our employees by aligning objectives at the enterprise level to drive individual goal setting, promoting quarterly conversations designed to review progress and accomplishments and designate focus areas for the upcoming quarter, driving progress against objectives, alignment, and performance feedback throughout the year. We offer a variety of support to help team members and managers establish and meet personalized development goals, take on new roles and become better leaders.

## **Employee Engagement**

We recognize that team members who are involved in, enthusiastic about and committed to their work and workplace contribute meaningfully to the success of the company. As a normal course of business, we complete enterprise-wide engagement surveys. The results of the survey are reviewed with the executive management team and are used to prioritize employee programs, initiatives, and communications.

## **Total Rewards**

As part of our total rewards strategy, we aspire to offer and maintain market competitive total rewards programs for our employees to attract and retain superior talent. In addition to competitive base wages, we offer other variable pay depending on an employee's position, including an annual bonus or commission plan. We offer a 401(k) plan with a highly competitive company match. Our healthcare, insurance benefits, health savings and flexible spending accounts are equally competitive with a low-cost share for employees. Understanding the importance of time away from work to recharge and address family needs, we offer paid time off, family leave and flexible work schedules. We also offer family care resources, adoption assistance, employee assistance programs, and other related benefits.

## **Health and Safety**

We believe the success of our business is fundamentally connected to the well-being of our people. Accordingly, we are committed to the health, safety, and wellness of our employees. We follow local, state and federal regulations issued by the Occupational Safety and Health Administration and are prepared to implement any applicable workplace requirements. Our employees and their families also have access to a variety of flexible and convenient health and well-being programs, including benefits that support their physical and mental health. We are also a fully remote-enabled employer, with a work-from-home program allowing hybrid access to our offices that includes a stipend to enhance employees' at-home work experience.

## **Available Information**

The Company's website address is [www.pathwardfinancial.com](http://www.pathwardfinancial.com). The Company makes available, through a link with the SEC's EDGAR database (<http://www.sec.gov>), free of charge, its Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act, and statements of ownership on Forms 3, 4, and 5. Investors are encouraged to access these reports and other information about our business on our website. The information found on the Company's website is not incorporated by reference in this or any other report the Company files or furnishes to the SEC. The Company also will provide copies of its Annual Report on Form 10-K, free of charge, upon written request to Darby Schoenfeld, SVP Chief of Staff and Investor Relations, at the Company's address.

## **Item 1A. Risk Factors.**

We are subject to various risks, including those described below that, individually or in the aggregate, could cause our actual results to differ materially from expected or historical results. Our business could be harmed, perhaps materially, by any of these risks, as well as other risks that we have not identified, whether due to such risks not presently being known to us, because we do not currently believe such risks to be material, or otherwise. The trading price of our common stock could decline due to any of these risks, and you may lose all or part of your investment. Moreover, certain events including geopolitical and financial market turmoil may also have the effect of heightening many of the risks and uncertainties described in the risks discussed below. The risks discussed below also include forward-looking statements, and actual results and events may differ substantially from those discussed or highlighted in these forward-looking statements. In assessing these risks, you should also refer to the other information contained in this Annual Report on Form 10-K, including the Company's financial statements and related notes. Before making an investment decision with respect to any of our securities, you should carefully consider the following risks and uncertainties described below and elsewhere in this Annual Report on Form 10-K. See "Forward-Looking Statements."

### **Risk Factor Summary**

These risks and uncertainties include:

#### *Risks Related to Our Industry and Business*

- Our framework for managing risk, including our underwriting practices, may not prevent future losses.
- We are subject to credit risk in connection with our lending and leasing activities, and our financial condition and results of operations may be negatively impacted by factors that adversely affect our borrowers.
- If our actual credit losses exceed our allowance for credit losses, our net income will decrease.
- Our earnings are significantly affected by general business, political and economic conditions.
- Adverse developments or concerns affecting the financial services industry or specific financial institutions could adversely affect our financial condition and results of operations.
- Ineffective liquidity management could adversely affect our financial condition and results of operation.
- Our investments in certain tax-advantaged projects may not generate anticipated returns, causing an adverse impact on our results of operations.
- The residual value of leased equipment at the time of its disposition may be less than forecasted at the time we entered into the lease.
- Changes in interest rates could adversely affect our results of operations and financial condition.
- We operate in an extremely competitive market, and our business will suffer if we are unable to compete effectively.
- Our business could suffer if consumer behaviors, or other factors, in connection with the use of prepaid cards change, or there are adverse developments with respect to the prepaid financial services industry in general.
- Our operations depend upon third-party relationships; our ability to maintain such relationships and such third parties' performances could adversely affect our business.
- We derive a significant percentage of our deposits, total assets and income from deposit accounts that we generate through Payments' customer relationships, of which a limited number of program manager relationships are particularly significant to our operations.
- We are exposed to fraud losses from customer accounts.
- We are exposed to settlement and other losses from payments customers.
- Our business strategy includes plans for organic growth, and our financial condition and results of operation could be adversely affected if we fail to grow or fail to manage our growth effectively.
- Acquisitions and other strategic transactions, or the failure to consummate such transactions, could disrupt our business and harm our financial condition and may not yield the intended benefits.
- New lines of business or new products and services may subject us to additional risks.
- An impairment charge of goodwill or other intangibles could have a material adverse impact on our financial condition and results of operations.
- We may incur losses due to fraudulent and negligent acts, as well as errors, by third parties or our employees.
- Security breaches involving us, the Bank or any third parties with which we do business could expose us to liability and litigation, adversely affecting our reputation and operating revenues.

- Failure to comply satisfactorily with certain privacy and data protection laws, regulations, and standards to which we are subject could adversely affect our reputation and operating revenues.
- Our reputation and financial condition may be harmed by system failures, computer viruses and other technological interruptions to our operations.
- Agency, technological, or human error could lead to tax refund processing delays, which could adversely affect our reputation and operating revenues.
- The Commercial Finance business line generates government-backed loans funded by the Bank, any of which could be negatively impacted by a variety of factors.
- Agreements between the Bank and third parties to market and service Bank-originated consumer loans may subject the Bank to credit, fraud and other risks, as well as claims from regulatory agencies and third parties that, if successful, could negatively impact the Bank's current and future business.
- The OCC's grant of bank charters to fintech companies and special purpose fintech charter could present a market risk to us generally and the Partner Solutions business line specifically.
- The loss or transition of key members of our senior management team or key employees in the Bank's divisions, or our inability to attract and retain qualified personnel, could adversely affect our business.
- We regularly assess our investments in technology, and failure to effectively implement technology initiatives or anticipate future technology needs or demands could adversely affect our business or financial results.
- Our ability to receive dividends from the Bank could affect our liquidity and ability to pay dividends on our common stock, interest on our trust preferred securities and principal on our debt.
- Unclaimed funds represented by unused value on the cards presents compliance and other risks.
- We have identified a material weakness in our internal control over financial reporting, and our management has concluded that our disclosure controls and procedures were not effective as of September 30, 2025. Failure to remediate this material weakness or otherwise to maintain an effective system of internal control and effective disclosure controls and procedures could have a material adverse effect on our results of operations and financial condition.

#### *Risks Related to Regulation of the Company and the Bank*

- We operate in a highly regulated environment, and our failure to comply with laws and regulations, or changes in laws and regulations to which we are subject, may adversely affect our business, prospects, results of operations and financial condition.
- The Bureau's rulemaking and enforcement of prohibitions against unfair, deceptive or abusive practices have directly impacted, and may continue to impact, the Bank's consumer financial products and service offerings.
- Regulatory scrutiny of bank provision of partner solutions and related technology considerations has increased.
- Increased scrutiny and evolving expectations from stakeholders with respect to sustainability practices may impose additional costs on us or expose us to new or additional risks.
- We will be subject to heightened regulatory requirements if our total assets exceed \$10 billion as of December 31 of any calendar year.
- We will become subject to reduced interchange income and could face related adverse business consequences if our total assets exceed \$10 billion as of December 31 of any calendar year.
- Any change in the Bank's ability to gather brokered deposits may adversely impact the Bank.
- As a BHC, we are required to serve as a "source of strength" for the Bank.
- If we fail to maintain sufficient capital, our financial condition, liquidity, results of operations, and compliance with regulatory requirements would be adversely affected.
- Changes in federal, state, and local tax laws, interpretations of existing tax laws, or adverse determinations by tax authorities, could increase our tax burden or otherwise have a material adverse effect on our business, financial condition, and results of operations.

#### *General Risk Factors*

- The price of our common stock may be volatile, which may result in losses for investors.
- An investment in our common stock is not an insured deposit.
- Future sales or additional issuances of our capital stock may depress prices of shares of our common stock or otherwise dilute the book value of shares then outstanding.
- Changes in accounting policies or accounting standards, or changes in how accounting standards are interpreted or applied, could materially affect how we report our financial results and condition.
- Federal regulations and our organizational documents may inhibit a takeover, prevent a transaction you favor or limit our growth opportunities, causing the market price of our common stock to decline.

- We may not be able to pay dividends in the future in accordance with past practice.
- Catastrophic events could negatively impact our operations, the operations of third parties with which we do business, and the communities in which we do business.
- Legal challenges to and regulatory investigations of our, or the Bank's, operations could have a significant material adverse effect on us.
- Our reputation and business could be damaged by negative publicity.
- Existing insurance policies may not adequately protect us and our subsidiaries.

## **Risks Related to Our Industry and Business**

**Our framework for managing risk, including our underwriting practices, may not prevent future losses.**

We have established processes and procedures intended to identify, measure, monitor, report, and analyze the types of risk to which we are subject, including liquidity risk, credit risk, market risk, interest rate risk, operational risk, legal and compliance risk, and reputational risk, among others. However, as with any risk management framework, there are inherent limitations to our risk management strategies, as there may exist, or develop in the future, risks that we have not appropriately anticipated or identified. For example, if our underwriting practices or criteria fail to adequately identify, price, and mitigate credit risks, such as risks related to economic disruption and the risk in our refund advance loan portfolio that the IRS or the relevant state revenue department does not pay our customer's tax refund in full or the risk that any of our EROs will facilitate or engage in malfeasance or offer the Bank's products and services in a manner that does not comply with applicable law or contractual representations, warranties and covenants, it is possible that losses in our loan portfolio will exceed the amounts the Bank has set aside for loss reserves and result in reduced interest income and increased provision for credit loss, which could have an adverse effect on our financial condition and results of operations. Any resulting deterioration in our loan and lease portfolio could also cause a decrease in our capital, which would make it more difficult to maintain regulatory capital compliance. Further, risk mitigation techniques and the judgments that accompany their application cannot anticipate every economic and financial outcome or the specific circumstances and timing of such outcomes, which may result in the Bank or any of its business lines incurring unexpected losses.

**We are subject to credit risk in connection with our lending and leasing activities, and our financial condition and results of operations may be negatively impacted by factors that adversely affect our borrowers.**

We, through the Bank and its business lines, originate various types of loans and leases, and our financial condition and results of operations are affected by the ability of borrowers to repay their loans or leases in a timely manner. Borrowers may be unable to repay their loans due to various factors, some of which are outside of their control. Similarly, borrowers under our commercial loans and related financing products (typically, small- to medium-sized businesses) may be more susceptible to even mild or moderate economic declines than larger commercial borrowers, which may subject the Bank and, ultimately, us, to a higher risk of loan loss. Many borrowers have been negatively impacted by recent events impacting financial, real estate, and securities markets, including geopolitical turmoil, higher interest rates, inflation, tariffs, and other events that have caused market and economic volatility, and may continue to be similarly or more severely affected in the future. The risk of non-payment by borrowers is assessed through our underwriting processes and other risk management practices, which may not be able to fully identify, price and mitigate such risk. See "*Our framework for managing risk, including our underwriting practices, may not prevent future losses.*" Despite those efforts, we do and will experience loan and lease losses, and our financial condition and results of operations will be adversely affected by those loan and lease losses.

**If our actual credit losses exceed our allowance for credit losses, our net income will decrease.**

We make various assumptions and subjective judgments about the collectability of our loan and lease portfolio, including the creditworthiness of our borrowers and the value of the assets serving as collateral for the repayment of our loans and leases, which are subject to change. Despite our underwriting and monitoring practices, our loan and lease customers may not repay their loans and leases according to their terms, and the collateral securing the payment of these loans and leases may be insufficient to pay any remaining loan and lease balance. We may experience significant credit losses due to nonpayment by our borrowers, which could have a material adverse effect on our overall financial condition and results of operation, as well as the value of our common stock. Because we must use assumptions to establish our allowance for credit losses, the current allowance for credit losses may not be sufficient to cover actual credit losses, and increases in the allowance, which may be significant, may be necessary. In addition, federal and state regulators periodically review our allowance for credit losses and may require us to increase our provision for credit loss or recognize loan charge-offs. Material additions to our allowance

would materially decrease our net income. We cannot provide any assurance that our monitoring procedures and policies will reduce certain lending risks or that our allowance for credit losses will be adequate to cover actual losses.

**Our earnings are significantly affected by general business, political and economic conditions.**

Our operations and profitability, including the value of the portfolio of investment securities we hold and the value of collateral securing certain of our loans, are impacted by general business, political and economic conditions in the United States and abroad. These conditions include short-term and long-term interest rates, inflation, commodity pricing, money supply and monetary policy, political issues, legislative and regulatory changes, fluctuations in both debt and equity capital markets, broad trends in industry and finance, the strength of the United States economy, and uncertainty in financial markets globally, all of which are beyond our control. A deterioration in business, political or economic conditions, including those arising from government shutdowns or defaults, geopolitical turmoil and war, increases in unemployment, or pandemics, could result in an increase in loan delinquencies and nonperforming assets, decreases in loan collateral values, and a decrease in demand for our products and services, among other things, any of which could have a material adverse impact on our financial condition and results of operations.

Additionally, an unpredictable or volatile political environment in the United States, including any social unrest, could negatively impact business and market conditions, economic growth, financial stability, and business, consumer, investor, and regulatory sentiments, any one or more of which could have a material adverse impact on our financial condition and results of operations. It is difficult to predict the legislative, executive and regulatory changes that will result from the current Congress and Presidential Administration, which may cause broader economic changes due to various changes in the federal government's approach to regulation and administration. New appointments to the Board of Governors of the Federal Reserve could affect monetary policy and interest rates, which could in turn affect economic growth. Future legislation, regulation and changes in policy, as well as changes in the way in which existing statutes and regulations are interpreted or applied by courts and government agencies, could affect the economy and banking industry, including our business and results of operations, in ways that are difficult to predict.

The process we use to estimate losses inherent in our credit exposure requires difficult, subjective and complex judgments, including forecasts of economic conditions, and determinations as to whether economic conditions might impair the ability of our borrowers to repay their loans and leases. The level of uncertainty concerning economic conditions may adversely affect the accuracy of our estimates which may, in turn, impact the reliability of our underwriting processes. See also "*If our actual loan and lease losses exceed our allowance for credit losses, our net income will decrease.*"

The electronic payments industry, including the prepaid financial services segment within that industry in which the Partner Solutions business line operates, could vary depending upon the overall level of consumer spending, which may decrease if economic or political conditions in the United States deteriorate and result in a reduction of the number of our prepaid accounts that are purchased or reloaded, the number of transactions involving our cards and the use of our reloadable card products and related services. A sustained reduction in the use of our products and related services, either as a result of a general reduction in consumer spending or as a result of a disproportionate reduction in the use of card-based payment systems, would materially harm our business, results of operations and financial condition.

**Adverse developments or concerns affecting the financial services industry or specific financial institutions could adversely affect our financial condition and results of operations.**

Actual events involving limited liquidity, defaults, non-performance or other adverse developments that affect financial institutions, transactional counterparties or other companies in the financial services industry or the financial services industry generally, or concerns or rumors about any events of these kinds or other similar events, have in the past and may in the future lead to erosion of customer confidence in the banking system, deposit volatility, liquidity issues, stock price volatility, increased regulatory scrutiny and other adverse developments. For example, the closures of Silicon Valley Bank ("SVB") and Signature Bank in March 2023, and First Republic Bank in May 2023, led to disruption and volatility, including deposit outflows and increased need for liquidity, at certain banks. Although depositors of these banks were largely protected, it is not certain that the Federal Reserve or FDIC will treat future bank failures similarly.

Similarly, inflation and rapid increases in interest rates have led to a decline in the trading value of previously issued government securities with interest rates below current market interest rates. Any sale of investment securities that

are held in an unrealized loss position by financial institutions for liquidity or other purposes will cause actual losses to be realized. There can be no assurance that there will not be additional bank failures or issues such as liquidity concerns in the broader financial services industry or in the U.S. financial system as a whole. Adverse financial market and economic conditions can exert downward pressure on stock prices, security prices, and credit availability for financial institutions without regard to their underlying financial strength. The volatility and economic disruption resulting from the failures of SVB and Signature Bank particularly impacted the price of securities issued by financial institutions, including us.

While we did not experience any abnormal changes in our total outstanding deposit balances following the bank closures in March and May 2023 and related events, we experienced changes in deposit balances resulting from typical seasonal fluctuations due to the nature of our business. While our deposit base primarily consists of millions of retail cards and other small dollar accounts with an average balance less than \$1,000 and we maintain a liquidity position with numerous funding options available totaling over \$2.0 billion as of September 30, 2025, we cannot be assured that unusual deposit withdrawal activity will not affect banks generally in the future or us in particular. Continued uncertainty regarding or worsening of the severity or duration of the volatility in the banking industry could also adversely impact our estimate of our allowance for credit losses and related provision for credit loss.

Any of these impacts, or any other impacts resulting from the events described above, could have a material adverse effect on our liquidity and our current and/or projected business operations and financial condition and results of operations.

**Ineffective liquidity management could adversely affect our financial condition and results of operation.**

Liquidity is essential to our business. We rely on different sources in order to meet our potential liquidity demands. Our primary sources of funds are deposits, derived principally through our Partner Solutions business line, borrowings, principal and interest payments on loans and leases and mortgage-backed securities, and maturing investment securities. We also utilize wholesale deposit sources to provide temporary funding when necessary or when favorable terms are available. An inability to raise funds through deposits, borrowings, the sale of loans and other sources could have a substantial negative effect on our liquidity. Our access to funding sources in amounts adequate to finance our activities or on terms which are acceptable to us could be impaired by factors that affect us specifically, or the financial services industry or economy generally. Any decline in available funding in amounts adequate to finance our activities or on terms which are acceptable could adversely impact our ability to originate loans, invest in securities, meet our expenses or fulfill our obligations, such as repaying our borrowings or meeting deposit withdrawal demands, any of which could, in turn, have a material adverse effect on our business, financial condition and results of operations. See “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operation – Liquidity and Capital Resources” of this Form 10-K.

**Our investments in certain tax-advantaged projects may not generate anticipated returns, causing an adverse impact on our results of operations.**

We invest in certain tax-advantaged investments that support renewable energy resources. Our investments in these projects are designed to generate a return in part through the realization of federal and state income tax credits, and other tax benefits, over specified time periods. We are subject to the risk that previously recorded tax credits, which remain subject to recapture by taxing authorities based on compliance features required to be met at the project level, may fail to meet certain government compliance requirements and may not be able to be realized.

The risk of not being able to realize, or of subsequently incurring a recapture of, the tax credits and other tax benefits depends on various factors, some of which are outside of our control, including changes in the applicable tax code, as well as the continued economic viability of the project and project operator. Further, while we engage in due diligence review both prior to the initial investment and on an ongoing basis, our due diligence review may not identify relevant issues or risks that may adversely impact our ability to realize these tax credits or other tax benefits. The possible inability to realize these tax credits and other tax benefits would have a negative impact on our financial results.

**The residual value of leased equipment at the time of its disposition may be less than forecasted at the time we entered into the lease.**

Through our Commercial Finance business line, we engage in equipment leasing activities. The market value of any given piece of leased equipment could be less than its depreciated value at the time it is sold due to various factors,

including factors beyond our control. The market value of used leased equipment depends on several factors, including:

- the market price for new equipment that is similar;
- the age and condition of the leased equipment at the time it is sold;
- the supply of and demand for similar used equipment on the market;
- technological advances relating to the leased equipment or similar equipment; and
- economic conditions in the specific business or industry in which the equipment is used, as well as broader regional or national economic conditions.

We include in income from operations the difference between the sales price and the depreciated value of an item of leased equipment sold. Changes in our assumptions regarding depreciation could change our depreciation expense, as well as the gain or loss realized upon disposal of leased equipment. If we sell our used leased equipment at prices significantly below our projections or in lesser quantities than we anticipated at the time we entered into the lease, our results of operations and cash flows may be negatively impacted.

**Changes in interest rates could adversely affect our results of operations and financial condition.**

Our earnings depend substantially on our interest rate spread, which is the difference between (i) the interest rates we earn on loans, securities, and other interest-earning assets, and (ii) the interest rates we pay on deposits, other borrowings, and other interest-bearing liabilities. We are exposed to interest rate risk because our interest-earning assets and interest-bearing liabilities do not react uniformly or concurrently to changes in interest rates since the two have different time periods for adjustment and can be tied to different measures of rates. These rates are highly sensitive to many factors beyond our control, including general economic conditions and the policies of various governmental and regulatory authorities, including the Federal Reserve. Throughout 2022, 2023 and 2024, the Federal Reserve raised the target range for the federal funds rate in an effort to curb inflation. In September 2024, the Federal Reserve began lowering the target range for the federal funds rate, which is now at a target range of 3.75% to 4.00%. As market interest rates have risen, we have experienced competitive pressures to increase the rates we pay on deposits, which may decrease our net interest income. In addition, inflationary pressures will generally increase our operating costs and could have a significant negative effect on our borrowers and the values of collateral securing loans, which could negatively affect our financial performance. In addition, certain of our noninterest income and noninterest expenses are subject to adverse effect in a rising interest rate environment. The Bank monitors its interest rate risk exposure; however, the Bank can provide no assurance that its efforts will appropriately protect the Bank in the future from interest rate risk exposure. For additional information, see Part II, Item 7A, "Quantitative and Qualitative Disclosures About Market Risk."

**We operate in an extremely competitive market, and our business will suffer if we are unable to compete effectively.**

We encounter significant competition in all of our market areas and national business lines from other commercial banks, savings and loan associations, credit unions, mortgage banking firms, consumer finance companies, factoring companies, card issuers, securities brokerage firms, insurance companies, money market mutual funds and other financial intermediaries, including but not limited to fintech or neobank financial intermediaries. Some of our and the Bank's competitors have substantially greater resources and lending limits, may be subject to less regulation than we are, may offer services that we do not or cannot provide and, due to their size and other factors, may be able to offer services at more competitive rates. Our profitability depends upon both our ability to compete successfully in our market areas and the Bank's and the divisions' ability to compete in their various business markets.

For example, the Commercial Finance business line competes for loans, leases, and other financial services with numerous national and regional banks, thrifts, credit unions, and other financial institutions, as well as other entities that provide financial services, including specialty lenders, securities firms, and mutual funds. Certain larger commercial financing companies do not currently focus their marketing efforts on smaller commercial companies; however, any shift in focus by such larger financing companies may further fragment existing market share in this commercial finance industry. Moreover, some of the financial institutions and financial service organizations with which the Commercial Finance business line competes are not subject to the same degree of regulation as the Commercial Finance business line and the Bank. Many of the Commercial Finance business line's competitors have been in business for many years, have established customer bases, are larger and may offer other services that neither the Commercial Finance business line nor the Bank do.

Several banking institutions have adopted business strategies similar to ours, particularly with respect to the Partner Solutions business. This competition, and competition in any of the Bank's other business lines, may increase our costs, reduce our revenues or revenue growth, result in fragmented market share and a failure to enjoy economies of scale or make it difficult for us to compete effectively in maintaining and obtaining additional customer relationships.

**Our business could suffer if consumer behaviors, or other factors, in connection with the use of prepaid cards change, or there are adverse developments with respect to the prepaid financial services industry in general.**

As the prepaid financial services industry evolves, consumers may either find prepaid financial services to be less attractive than other financial services or may change the way in which they utilize the service prepaid cards provide. Consumers might not use prepaid financial services for any number of reasons. For example, negative publicity surrounding us or other prepaid financial service providers could impact the Payments business and prospects for growth to the extent it adversely impacts the perception of prepaid financial services. Consumer spend behaviors could increase or decrease, or become more difficult to accurately predict, thereby impacting operating revenues and/or expenses of the Company. Growth of prepaid financial services as an electronic payment mechanism may not occur or may occur more slowly than estimated. These factors could have a material adverse effect on our financial condition and results of operations.

**Our operations depend upon third-party relationships; our ability to maintain such relationships and such third parties' performances could adversely affect our business.**

The Bank has entered into numerous arrangements with third parties with respect to the operations of its business, as described in Part I, Item 1 "Business." Upon the expiration of the then-current term, any such agreements may not be renewed by the third party or may be renewed on terms less favorable to the Bank. In some cases, such agreements may permit the third party to unilaterally prescribe certain business practices and procedures with respect to the Bank and its business lines (as is the case under agreements with Discover, MasterCard, Visa and other card networks) or terminate the agreement early under certain circumstances (as is the case under our program management agreement with Emerald Financial Services, LLC ("EFS") with respect to certain H&R Block financial services if the Bank should lose its exemption from the Durbin Amendment). To the extent any agreement with a service provider is terminated, we may not be able to secure alternate service providers, and, even if we do, the terms with alternate providers may not be as favorable as those currently in place. In addition, were we to lose any of our significant third-party providers, including in our refund advance related business in which we have a limited number of partners, it could cause a material disruption in our ability to service our customers, which also could have an adverse material impact on the Bank, its business lines and, ultimately, us. Moreover, significant disruptions in our ability to provide services could negatively affect the perception of our business, which could result in a loss of confidence and other adverse effects on our business.

In addition, if any of our counterparties are unable to or otherwise does not fulfill (or does not timely fulfill) its obligations to us for any reason (including, but not limited to, bankruptcy, computer or other technological interruptions or failures, personnel loss, negative regulatory actions, or acts of God) or engages in fraud or other misconduct during the course of such relationship, we may need to seek alternative third party service providers, or discontinue certain products or programs in their entirety. We have experienced, and expect to continue to experience, situations where we have been held directly or indirectly responsible, or were otherwise subject to liability, for the inability of our third-party service providers to perform services for our customers on a timely basis or at all or for actions of third parties undertaken on behalf of the Bank or otherwise in connection with the Bank's arrangement with such third parties. Any such responsibility or liability in the future may have a material adverse effect on our business, including the operations of the Bank and its divisions, and financial results.

In any event, our agreements with, and management practices with respect to, third parties have been and may continue to be scrutinized by our regulators, and our regulators could raise an issue with, or object to, any term or provision in such an agreement or any action taken by such third party vis-à-vis the Bank's operations or customers, resulting in a material adverse effect to us including, but not limited to, the imposition of fines and/or penalties and the material restructuring or termination of such agreement. Moreover, if our regulators examine our third-party service providers and find questionable or illegal acts or practices, our regulators could require us to restructure or terminate our agreements with such providers or enhance management and risk oversight practices with respect thereto.

Additionally, although our network of tax preparation partners is expansive, it is possible that our EROs may choose to offer tax-related products of other companies that provide products and services similar to the Bank's if such other companies offer superior pricing or for other competitive reasons.

**We derive a significant percentage of our deposits, total assets and income from deposit accounts that we generate through Payments' customer relationships, of which a limited number of program manager relationships are particularly significant to our operations.**

We derive a significant percentage of our deposits, total assets and income from deposit accounts we generate through program manager relationships between third parties and Payments. If one of these significant program manager relationships were to be terminated or there is a significant decrease in revenues or deposits associated with any of these business relationships, it could materially reduce our deposits, assets and income. Similarly, if a significant program manager relationship was not replaced, we may be required to seek higher-rate funding sources as compared to the existing program manager relationship or see a significant reduction in fee income.

**We are exposed to fraud losses from customer accounts.**

Fraudulent activity involving our products may lead to customer disputed transactions, for which we may be liable under banking regulations and payment network rules. Our fraud detection and risk control mechanisms may not prevent all fraudulent or illegal activity. To the extent we incur losses from disputed transactions, our business, results of operations and financial condition could be materially and adversely affected.

**We are exposed to settlement and other losses from payments customers.**

Our cardholders can incur charges in excess of the funds available in their accounts, and we may become liable for these overdrafts. While we decline authorization attempts for amounts that exceed the available balance in a cardholder's account, the application of card association rules, the timing of the settlement of transactions and the assessment of the card's monthly maintenance fee, among other things, can result in overdrawn accounts.

In addition, we face settlement risks from our distributors and banking partners, which may increase during an economic downturn. Depending on contract terms, we may prefund partner accounts. If a partner becomes insolvent, files for bankruptcy, commits fraud or otherwise fails to remit proceeds to our card issuing bank from the sales of our products and services, we are liable for any amounts owed to our customers. At September 30, 2025, we had assets subject to settlement risk of \$267.3 million.

For one of our programs, the Company pays servicing fees which are primarily offset by estimated card breakage. For cards issued prior to January of 2020, if consumers spend more than projected over the life of the card programs, the Company could experience a material adverse effect on our business, results of operations and financial condition. See "Funding Activities – Deposits" for further breakdown of balances as of September 30, 2025. We are not insured against these settlement or partner risks.

**Our business strategy includes plans for organic growth, and our financial condition and results of operation could be adversely affected if we fail to grow or fail to manage our growth effectively.**

As part of our general growth strategy, we expect to continue to pursue organic growth, while also continuing to evaluate potential acquisitions and expansion opportunities that we believe provide a strategic or geographic fit with our business. Although we have experienced significant growth in our assets and revenues, we may not be able to sustain our historical growth rate or be able to grow at all. We believe that our future organic growth will depend on competitive factors and on the ability of our senior management to maintain a robust system of internal controls and procedures and manage a growing number of customer relationships. See "*We operate in an extremely competitive market, and our business will suffer if we are unable to compete effectively.*" We may not be able to implement changes or improvements to these internal controls and procedures in an efficient or timely manner and have, and may in the future, discover deficiencies in existing systems and controls. Our growth strategy may divert management from our existing business and may require us to incur additional expenditures to expand our administrative and operational infrastructure and, if we are unable to effectively manage our growth, including to the satisfaction of our regulators, we could be materially and adversely affected. In addition, acquiring other companies may involve risks such as exposure to potential asset quality issues, disruption to our normal business activities and diversion of management's time and attention due to integration and conversion efforts. Consequently, continued

organic growth, if achieved, may place a strain on our administrative and operational infrastructure, which could have a material adverse effect on our financial condition and results of operations.

**Acquisitions and other strategic transactions, or the failure to consummate such transactions, could disrupt our business and harm our financial condition and may not yield the intended benefits.**

We have historically and may continue to evaluate, consider and engage in strategic transactions, combinations, acquisitions and dispositions. These transactions could be material to our financial condition and results of operations if consummated. Identifying appropriate business opportunities can be difficult, time-consuming and costly, and we may not be successful in negotiating favorable terms and/or consummating the transaction. Even if we do consummate such a transaction, we may be unable to obtain the benefits or avoid the difficulties and risks of such transaction, including:

- increased regulatory and compliance requirements;
- implementation or remediation of controls, procedures and policies at the acquired company;
- diversion of management time and focus from operation of our then-existing business;
- integration and coordination of product, sales, marketing, program and systems management functions;
- integration of the acquired company's systems and operations generally with ours;
- integration of employees from the acquired company into our organization;
- loss or termination, including costs associated with the termination or replacement, of employees;
- liability for activities of the acquired company prior to the acquisition, including violations of law, commercial disputes and tax and other known and unknown liabilities; and
- increased litigation or other claims in connection with the acquired company, including claims brought by terminated employees, customers, former stockholders or other third parties.

Accordingly, any acquisition, disposition or other strategic transaction may not be successful, may not benefit our business strategy or may not otherwise result in the intended benefits. It also may take us longer than expected to fully realize the anticipated benefits and synergies of these transactions, and those benefits and synergies may ultimately be smaller than anticipated or may not be realized at all, which could adversely affect our business and operating results.

Additionally, any acquisition of target financial institutions or other banking assets by us may require approval by, and cooperation from, a number of governmental regulatory agencies, as well as state banking regulators. Such regulators could delay or deny our applications or regulatory approvals may not be granted on terms that are acceptable to us.

To the extent we pay the consideration for any future strategic acquisition in cash, it would reduce the amount of cash available to us for other purposes. Future strategic transactions could also result in dilutive issuances of our equity securities or the incurrence of debt, contingent liabilities, amortization expenses, or goodwill impairment charges, any of which could harm our financial condition and negatively impact our stockholders.

**New lines of business or new products and services may subject us to additional risks.**

From time to time, we have implemented, and in the future, may implement new lines of business or offer new financial products or services within existing lines of business. Substantial risks and uncertainties are associated with developing and marketing new lines of business or new products or services, particularly in instances where markets are not fully developed or when the laws and regulations regarding a new product are not mature, and we may be required to invest significant time, management and capital resources in connection with such new lines of business or new products or services. Initial timetables for the introduction and development of new lines of business or new products or services may not be achieved. In addition, price and profitability targets for new lines of business or new products or services may not prove feasible, as we, the Bank or any of the Bank's business lines may need to price products and services on less advantageous terms than anticipated to retain or attract customers. External factors, such as regulatory reception, compliance with regulations and guidance, developing laws and regulations, competitive alternatives, and shifting market preferences, may also impact the successful implementation of a new line of business or a new product or service. Furthermore, any new line of business or new product or service may be expensive to implement and could also have a significant impact on the effectiveness of our system of internal controls. Failure to successfully manage these risks in the development and implementation of new lines of business or new products or services could reduce our revenues and potentially generate losses.

**An impairment charge of goodwill or other intangibles could have a material adverse impact on our financial condition and results of operations.**

From previous acquisitions, the Company has goodwill and intangible assets included in its consolidated assets. Under GAAP we are required to test the carrying value of goodwill and intangible assets at least annually or sooner if events occur that indicate impairment could exist. These events or circumstances could include a significant change in the business climate, legal and regulatory factors, competition, a decrease in our stock price and market capitalization over a sustained period of time, a sustained decline in a reporting unit's fair value or other operating performance indicators. GAAP requires us to assign and then test goodwill at the reporting unit level. If the fair value of our reporting unit is less than its net book value, the shortfall is recognized as impairment and is recognized in current earnings. In addition, if the revenue and cash flows generated from any of our other acquired intangible assets is not sufficient to support its net book value, we may be required to record an impairment charge. The estimation of fair value involves a high degree of judgment and subjectivity in the assumptions used. The amount of any impairment charge could be significant and could have a material adverse impact on our financial condition and results of operations for the period in which the charge is taken.

**We may incur losses due to fraudulent and negligent acts, as well as errors, by third parties or our employees.**

We may incur losses due to fraudulent or negligent acts, misconduct or errors on the part of third parties with which we do business, our employees and individuals and entities unaffiliated with us, including unauthorized wire and automated clearinghouse transactions, the theft of customer data, customer fraud concerning the value of any relevant collateral, identity theft, errors in a customer's tax return, tax return fraud, the counterfeiting of cards and "skimming" (whereby a skimmer reads a debit card's encoded mag stripe and a camera records the PIN that is entered by a customer), malicious social engineering schemes (where people are asked to provide a prepaid card or reload product in order to obtain a loan or purchase goods or services) and collusion between participants in the card system to act illegally. Additionally, our employees could hide unauthorized activities from us, engage in improper or unauthorized activities on behalf of our customers, or improperly use confidential information. There can be no assurances that the Bank's program to monitor fraud and other activities will be able to detect all instances of such conduct or that, even if such conduct is detected, we, the Bank, our customers or the third parties with which we do business, including the ATM networks and card payment industry in which the Bank participates, will not be the victims of such activities. Even a single significant instance of fraud, misconduct or other error could result in reputational damage to us, which could reduce the use and acceptance of our cards and other products and services, cause retail distributors or their customers to cease doing business with us or them, or could lead to greater regulation that would increase our compliance costs. Such activities could also result in the imposition of regulatory sanctions, including significant monetary fines, and civil claims which could adversely affect our business, operating results and financial condition.

**Security breaches involving us, the Bank or any third parties with which we do business could expose us to liability and litigation, adversely affecting our reputation and operating revenues.**

In connection with our business, we collect and retain significant volumes of sensitive business and personally identifiable information, including social security numbers of our customers and other personally identifiable information of our customers and employees, on our data systems. We and the third parties with which we conduct business are subject to security breaches, which may be due to the failure of our data encryption technologies or otherwise, involving the receipt, transmission, and storage of confidential customer and other personally identifiable information, including account takeovers, unavailability of service, computer viruses, or other malicious code, cyberattacks, or other events, any of which may arise from human error, fraud or malice on the part of employees or third parties or from accidental technological failure. If one or more of these events occurs, it could result in the disclosure of confidential customer information, impairment of our ability to provide products and services to our customers, damage to our reputation with our customers and the market, additional costs (such as costs for repairing systems or adding new personnel or protection technologies), regulatory penalties, and financial losses for us, our customers and other third parties. Such events could also cause interruptions or malfunctions in the operations of our customers, or other third parties with which we engage in business. Such events could also damage our reputation with customers and third parties with whom we do business, which could lead to loss of customers and business opportunities and have a material adverse effect on our financial condition and results of operation.

Risks and exposures related to cybersecurity attacks have increased as a result of greater reliance on remote working, and are expected to remain high for the foreseeable future due to the rapidly evolving nature and sophistication of these threats, the proliferation of malicious actors internationally, and the expanding use of

technology-based products and services by us and our customers. Cybersecurity risk and other security matters are also a major focus of regulatory authorities. We can provide no assurances that the safeguards we have in place or may implement in the future will prevent all unauthorized infiltrations or breaches and that we will not suffer losses related to a security breach in the future, which losses may be material. In addition, we may be required to expend additional resources to enhance our protective measures or to investigate and remediate any information security vulnerabilities or exposures.

**Failure to comply satisfactorily with certain privacy and data protection laws, regulations, and standards to which we are subject could adversely affect our reputation and operating revenues.**

We are subject to various privacy, information security and data protection laws, regulations and standards. For example, the largest credit card associations in the world created the Payment Card Industry Data Security Standards (the "PCI DSS"), a multifaceted standard that includes data security management, policies and procedures as well as other protective measures to protect the nonpublic personal information of cardholders. These laws, regulations and standards are rapidly evolving and increasing in complexity and could have a significant impact on our current and planned privacy, data protection and information security-related practices, our collection, use, sharing, retention and safeguarding of consumer and employee information, and some current or planned business activities. Complying with these laws, regulations and standards may increase our operational costs, restrict our ability to provide certain products and services or have an effect on the profitability of one or more of our business divisions. Additionally, our failure, or perceived failure, to comply with applicable laws and regulations or other obligations to which we may be subject relating to personal information could result in regulatory sanctions, including financial penalties, regulatory investigations, claims for damages by customers and other affected individuals and damage to our reputation, any of which could have a material adverse effect on our operations, financial performance and business.

**Our reputation and financial condition may be harmed by system failures, computer viruses and other technological interruptions to our operations.**

We rely heavily upon information systems and other operating technologies to efficiently operate and manage our business, including to process transactions through the Internet, including, in particular, in our Partner Solutions business line. Were there to be a failure or a significant impairment in the operation of any of such systems, we may need to develop alternative processes, including to comply with customer safeguard protocols, during which time revenues and profitability may be lower, and there can be no assurance that we could develop or find such an alternative on terms acceptable to us or at all. Any such disruption in the information systems and other operating technologies utilized by the Bank or its divisions, including due to infiltration by hackers or other intruders, power loss, telecommunications failure, physical break-ins, or damage from fire, could also result in negative publicity, have a material adverse effect on our ability to obtain or retain customers, and have a material adverse effect on our financial condition and results of operations.

**Agency, technological, or human error could lead to tax refund processing delays, which could adversely affect our reputation and operating revenues.**

We and our tax preparation partners rely on the IRS, technology, and employees when processing and preparing tax refunds and tax-related products and services. Any delays during the processing or preparation period could result in reputational damage to us or to our tax preparation partners, which could reduce the use and acceptance of our cards and tax-related products and services, either of which could have a significant adverse impact on our operating revenues and future growth prospects.

**The Commercial Finance business line generates government-backed loans funded by the Bank, any of which could be negatively impacted by a variety of factors.**

The Commercial Finance business line originates loans backed by numerous state and federal government agencies. Risks inherent in the Bank's participation in such programs, through its Commercial Finance business line, include: (i) some of these programs guarantee only a portion of the commercial loan made by the Bank; as such, if the borrower defaults and losses exceed those guaranteed by the government agency, the Bank could realize significant losses; (ii) certain programs, including some guaranteed by the United States Department of Agriculture, limit the geographic scope of such loans; as such, if the Commercial Finance business line is not able to market these loans to potential borrowers, the Bank's share in this market may be negatively impacted; (iii) the intended beneficiaries of such loan programs may experience a contraction in their credit quality due to local, national, or global economic

events or because of factors specific to their business, including, for example, businesses dependent upon the farming and agriculture industry; as such, any negative impact to certain commercial business lines designed to benefit from such government-sponsored loan programs could constrict the Bank's business in these areas; and (iv) nearly all of these guaranteed loan programs are subject to an appropriations process, either at the legislative or regulatory level; this means that funds that may be currently available to guarantee loans or portions of loans could be limited or eliminated in their entirety with little or no advance warning.

**Agreements between the Bank and third parties to market and service Bank-originated consumer loans may subject the Bank to credit, fraud and other risks, as well as claims from regulatory agencies and third parties that, if successful, could negatively impact the Bank's current and future business.**

The Bank has entered into various agreements with unaffiliated third parties ("Marketers"), whereby the Marketers will market and service unsecured consumer loans underwritten and originated by the Bank. These agreements present potential increased credit, operational, and reputational risks. Because the loans originated under such programs are unsecured, in the event a borrower does not repay the loan in accordance with its terms or otherwise defaults on the loan, the Bank may not be able to recover from the borrower an amount sufficient to pay any remaining balance on the loan. See "*If our actual loan and lease losses exceed our allowance for credit losses, our net income will decrease.*" We may also become subject to claims by regulatory agencies, customers, or other third parties due to the conduct of the third parties with which the Bank operates such lending programs if such conduct is deemed not to comply with applicable laws in connection with the marketing and servicing of loans originated pursuant to these programs.

Certain types of these arrangements have been challenged both in the courts and in regulatory actions. In these actions, plaintiffs have generally argued that the "true lender" is the marketer and that the intent of such lending program is to evade state usury and loan licensing laws. Other cases have also included other claims, including racketeering and other state law claims, in their challenge of such programs.

In 2020, the OCC issued final rules designed to clarify when a national bank such as the Bank will be considered the "true lender" in such relationships (the "True Lender Rule"). In June 2021, the True Lender Rule was repealed and the OCC prohibited from issuing any replacement of the True Lender Rule absent Congressional authorization. In the wake of the repeal of the True Lender Rule, several states announced their intention to broaden oversight of non-bank fintech lenders, and several states have adopted legislation and guidance regarding "true lenders." Additionally, certain parties have initiated litigation in order to obtain court guidance on how particular jurisdictions may weigh loan program facts and rule on "true lender" challenges. In addition, the Bureau and the Federal Trade Commission previously announced their intention to explore their authority to supervise nonbank lending partnerships in markets for consumer financial products and services.

Consequently, state and federal regulatory authorities may proceed on different paths to promulgate "true lender" restrictions, and – absent binding court rulings or direct legislative action – impacted parties may have little to no advance notice of new restrictions and compliance obligations. In the absence of applicable laws or regulations addressing these matters, true lender disputes will be determined on a case-by-case basis, informed by differing state laws and the facts in each instance. There can be no assurance that lawsuits or regulatory actions in connection with any such lending programs the Bank has entered, or will enter, into will not be brought in the future. If a regulatory agency, consumer advocate group, or other third party were to bring successful action against the Bank or any of the third parties with which the Bank operates such lending programs, there could be a material adverse effect on our financial condition and results of operations.

**The OCC's grant of bank charters to fintech companies and special purpose fintech charter could present a market risk to us generally and the Partner Solutions business line specifically.**

The OCC announced on July 31, 2018 that it would begin to accept and evaluate charters for entities that wanted to conduct certain components of a banking business pursuant to a federal charter, known as a "special purpose national bank" ("SPNB") charter. Intended to promote economic opportunity and spur financial innovation, SPNBs may engage in paying checks, lending money and taking deposits. While the OCC has not granted any SPNB charters as of the date of this filing, it has granted national bank charters to companies that were previously non-bank fintech companies and approved the acquisition of national bank charters by fintech companies.

If, in the future, the OCC determines to grant any SPNB applications or continues to grant bank charters to fintech applicants, recipients of such charters may enter the U.S. payments market, banking as a service ("BaaS") solutions

market, and other business lines in which the Bank operates, which could increase the competition we face and have a material adverse effect on the Bank and the Partner Solutions business line.

**The loss or transition of key members of our senior management team or key employees in the Bank's divisions, or our inability to attract and retain qualified personnel, could adversely affect our business.**

We believe that our success depends largely on the efforts and abilities of our senior executive management team and other key employees. Their experience and industry contacts significantly benefit us. Our future success also depends in part on our ability to attract, retain and motivate key management and operating personnel. The loss of any of our key personnel could have an adverse effect on our business. Management transitions may create uncertainty and involve a diversion of resources and management attention, be disruptive to our daily operations or impact public or market perception, any of which could negatively impact our ability to operate effectively or execute our strategies and result in a material adverse impact on our business, financial condition, results of operations or cash flows.

As we continue to develop and expand our operations, we may require personnel with different skills and experiences, with a sound understanding of our business and the industries in which we operate. The competition for qualified personnel in the financial services industry is intense, and the loss of any of our key personnel or an inability to continue to attract, retain, and motivate key personnel could adversely affect our business.

**We regularly assess our investments in technology, and failure to effectively implement technology initiatives or anticipate future technology needs or demands could adversely affect our business or financial results.**

The fintech industry is undergoing technological innovation at a fast pace. To keep up with our competition, we regularly evaluate technology to determine whether it may help us compete on a cost-effective basis. This is especially true with respect to our Partner Solutions business line, which requires significant expenditures to exploit technology and to develop new products and services to meet customers' needs. The cost of investing in, implementing and maintaining such technology is high, and there can be no assurance, given the fast pace of change and innovation, that our technology, either purchased or developed internally, will meet our needs, in a timely, cost-effective manner or at all. During the course of implementing new technology into our or the Bank's operations, we may experience system interruptions and failures. In addition, there can be no assurances that we will recognize, in a timely manner or at all, the benefits that we may expect as a result of our implementing new technology into our operations. In connection with our implementation of new lines of business, offering of new financial products or acquisitions, we may experience significant, one-time or recurring technology-related costs. If we are not able to anticipate and keep pace with existing and future technology needs, our business, financial results, or reputation could be negatively impacted.

The banking and financial services industry continually experiences technological changes, with frequent introductions of new technology-driven products and services, including recent and rapid developments in artificial intelligence ("AI"), including agentic AI. Our success depends, in part, upon our ability to address the needs of our clients by using technology to provide products and services that will satisfy client demands for convenience, as well as to create operational efficiencies, including through AI capabilities. There are risks in effectively implementing and marketing new technology-driven products and services. Upgrades and integration may cause service interruptions, transaction errors, and delays, and could cause us to fail to comply with applicable laws. There can be no assurance that we will be able to successfully manage the risks associated with our increased dependency on technology. Failure to successfully keep pace with technological change affecting the banking and financial services industry could negatively affect our revenue and profitability.

The use of AI models developed by third parties introduces risks related to how those models are developed, trained, and deployed, including unauthorized material in training data and limited visibility into risk mitigation steps. The legal and regulatory environment for AI is uncertain and rapidly evolving, both in the United States and internationally, potentially increasing compliance costs and risk of non-compliance.

We are also exposed to the risk that generative AI models may produce incorrect outputs, release confidential information, reflect biases, infringe intellectual property, or otherwise cause harm. Their complexity makes it challenging to understand outputs and comply with documentation or explanation requirements. Any of these risks could expose us to liability or adverse legal or regulatory consequences and harm our business or financial results.

**Our ability to receive dividends from the Bank could affect our liquidity and ability to pay dividends on our common stock, interest on our trust preferred securities and principal on our debt.**

We are a legal entity separate and distinct from the Bank. Our primary source of cash, other than securities offerings, is dividends from the Bank. These dividends are a principal source of funds to pay dividends on our common stock, interest on our trust preferred securities and interest and principal on our debt. Various laws and regulations limit the amount of dividends that the Bank may pay us, as further described in Part I, Item 1 "Business - Regulation and Supervision - Bank Regulation and Supervision - Limitations on Dividends and Other Capital Distributions" of this Annual Report on Form 10-K. Such limitations could have a material adverse effect on our liquidity and on our ability to pay dividends on common stock. Additionally, if the Bank's earnings are not sufficient to make dividend payments to us while maintaining adequate capital levels, we may not be able to make dividend payments to our common shareholders or make payments on our trust preferred securities.

**Unclaimed funds represented by unused value on the cards presents compliance and other risks.**

The concept of escheatment involves the reporting and delivery of property to states that is abandoned when its rightful owner cannot be readily located and/or identified. In the context of prepaid cards, the customer funds represented by such cards can sometimes be "abandoned" or unused for the relevant period of time set forth in each applicable state's abandoned property laws. The Partner Solutions business line utilizes automated programs designed to comply with applicable escheatment laws and regulations. There appears, however, to be a movement among some state regulators to more broadly interpret definitions in escheatment statutes and regulations than in the past. State regulators may choose to initiate collection or other litigation action against prepaid card issuers, like Payments, for unreported abandoned property, and such actions may seek to assess fines and penalties and could have an adverse effect on our business.

**We have identified a material weakness in our internal control over financial reporting, and our management has concluded that our disclosure controls and procedures were not effective as of September 30, 2025. Failure to remediate this material weakness or otherwise to maintain an effective system of internal control and effective disclosure controls and procedures could have a material adverse effect on our results of operations and financial condition.**

As a SEC reporting company, we are required to, among other things, maintain a system of effective internal control over financial reporting, which requires annual management and independent registered public accounting firm assessments of the effectiveness of our internal controls. The rules governing the standards that must be met for management to determine the adequacy of our internal control over financial reporting are complex and require significant documentation, testing, and possible remediation if a deficiency is identified. If we fail to maintain the adequacy of our internal control over financial reporting, we will not be able to conclude on an ongoing basis that we have effective internal control over financial reporting in accordance with Section 404 of the Sarbanes-Oxley Act.

Our management concluded that there was a material weakness in internal control over financial reporting for the year ended September 30, 2025. The material weakness related to our gross vs. net basis presentation and derivative accounting, and financial reporting, of certain third-party lending and servicing relationships within the Consumer Solutions business, within held-for-investment loan balances as described in Note 1. Summary of Significant Accounting Policies in this Annual Report on Form 10-K for the year ended September 30, 2025. Our management also re-evaluated the effectiveness of our disclosure controls and procedures as of September 30, 2025. Our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were not effective as of September 30, 2025. In addition, we restated our financial statements for the fiscal years ended September 30, 2024 and 2023 and the interim periods ended December 31, 2024, 2023, 2022, and 2021, March 31, 2024, 2023, and 2022, and June 30, 2024, 2023, and 2022.

As discussed in Part II, Item 9A. *Controls and Procedures*, we have taken and will continue to take steps to remediate this material weakness. The elements of our remediation plan can only be accomplished over time, and we cannot assure you that we will be able to remediate any existing or future material weakness in a timely manner or at all. If our efforts to remediate an identified material weakness are not successful or other significant control deficiencies occur, our ability to accurately and timely report our financial results could be impaired, which could result in additional late filings of our annual and quarterly reports under the Exchange Act, additional restatements of our consolidated financial statements, a decline in our stock price, suspension or delisting of our common stock from NASDAQ, and have an adverse effect on our business, financial condition and results of operations.

## Risks Related to Regulation of the Company and the Bank

We operate in a highly regulated environment, and our failure to comply with laws and regulations, or changes in laws and regulations to which we are subject, may adversely affect our business, prospects, results of operations and financial condition.

We and the Bank operate in a highly regulated environment, and we are subject to extensive regulation (including, among others, the Dodd-Frank Act, the Basel III Capital Rules, the Bank Secrecy Act and other AML rules), supervision, and examination, including by the OCC and the Federal Reserve, our primary banking regulators. In addition, the Bank is subject to regulation by the FDIC and, to a lesser degree, the Bureau. Prepaid card issuers like the Bank are also subject to heightened regulatory scrutiny based on AML and Bank Secrecy Act concerns, which scrutiny could result in higher compliance costs. See Part I, Item 1 "Business - Regulation and Supervision" herein. Many of the laws, rules, regulations and supervisory policies governing our business are intended primarily for the protection of our depositors, our customers, the financial system and the FDIC insurance fund, not our stockholders or other creditors and are subject to regular modification and change. A considerable amount of management time and resources are devoted to oversight of, and development, implementation and execution of controls and procedures relating to, compliance with these laws, regulations and policies.

Banking regulatory authorities have broad discretion in connection with their supervisory and enforcement activities, including, but not limited, to the imposition of restrictions on the operation of an institution, the classification of assets by the institution, and the adequacy of an institution's allowance for credit losses. If any of our banking regulators takes informal or formal supervisory action or pursues an enforcement action, any required corrective steps could result in us being subject to additional regulatory requirements, operational restrictions, a consent order, enhanced supervision and/or civil money penalties. Failure to maintain and implement adequate policies, procedures, and systems to comply with these regulations could also have serious reputational consequences for us.

Any new requirements or rules, changes in such requirements or rules, changes to or new interpretations of existing requirements or rules, failure to follow requirements or rules, or future lawsuits or rulings could increase our compliance and other costs of doing business, require significant systems redevelopment, render our products or services less profitable or obsolete or otherwise have a material adverse effect on our business, prospects, results of operations, and financial condition. For example, any changes in the U.S. tax laws as a result of pending tax legislation in the U.S. Congress or otherwise may adversely impact our tax refund processing and settlement business, which could reduce customer demand for our strategic partner's refund advance products, thereby reducing the volume of refund advance loans that we may offer. In addition, future regulations could increase the assessment rate we are required to pay to the FDIC, adversely affecting our earnings. It is very difficult to predict future changes in regulation or the competitive impact that any such changes would have on our business.

**The Bureau's rulemaking and enforcement of prohibitions against unfair, deceptive or abusive practices have directly impacted, and may continue to impact, the Bank's consumer financial products and service offerings.**

The Bureau has broad rulemaking authority to administer and carry out the purposes and objectives of "federal consumer financial laws, and to prevent evasions thereof" with respect to all financial institutions that offer financial products and services to consumers. However, there is currently uncertainty surrounding the ongoing operations of the Bureau. We cannot predict the impact the Bureau's future actions, including any exercise of its UDAAP authority, will have on the banking industry broadly or us and the Bank specifically. Notwithstanding that insured depository institutions with assets of \$10 billion or less (such as the Bank) will continue to be supervised and examined by their primary federal regulators, the full reach and impact of the Bureau's broad rulemaking powers and UDAAP authority on the operations of financial institutions offering consumer financial products or services are currently unknown. The Bureau has initiated enforcement actions against a variety of bank and non-bank market participants with respect to a number of consumer financial products and services that has resulted in those participants expending significant time, money and resources to adjust to the initiatives being pursued by the Bureau. Such enforcement actions may serve as precedent for how the Bureau interprets and enforces consumer protection laws, which may result in the imposition of higher standards of compliance with such laws and, as a result, limit or restrict the Bank with respect to its consumer product offerings. See "Business - Regulation and Supervision - Bank Regulation and Supervision" in Part I, Item 1 of this Annual Report on Form 10-K.

**Regulatory scrutiny of bank provision of partner solutions and related technology considerations has increased.**

We provide products and services to third parties through sponsorship solutions, financial institution solutions, credit solutions, and professional tax solutions. The third parties that use these partner solutions, and with which we often partner in marketing efforts, are typically considered fintech companies but may also include other financial intermediaries. Federal bank regulators are increasingly focused on the risks related to bank and fintech company partnerships, raising concerns regarding risk management, oversight, internal controls, information security, change management, and information technology operational resilience. This focus is demonstrated by recent regulatory enforcement actions against other banks that have allegedly not adequately addressed these concerns while growing their BaaS offerings, as well as by a request for information by the federal banking regulators on bank-fintech arrangements. While we believe we are a leader in managing, monitoring and overseeing partner solutions relationships with third parties and corresponding technologies, we could be subject to additional regulatory scrutiny with respect to that portion of our business.

**Increased scrutiny and evolving expectations from stakeholders with respect to sustainability practices may impose additional costs on us or expose us to new or additional risks.**

As a regulated financial institution and a publicly traded company, we are facing increasing public, investor, activist, legislative and regulatory scrutiny related to sustainability practices, disclosures and developments. Regulators, politicians, investor advocacy groups, investment funds, and influential investors are increasingly focused on these practices, especially as they relate to climate risk, hiring practices, diversity, health and safety and human rights. Failure to adapt to or comply with regulatory requirements or regulatory, investor or stakeholder expectations and standards could negatively impact the Company's reputation, ability to do business with certain partners, and stock price. Ongoing legislative or regulatory uncertainties, divergence and changes regarding sustainability may result in higher compliance, credit and reputational risks and costs. To the extent that we or our customers experience increases in costs, including with respect to compliance with any additional regulatory or disclosure requirements or expectations, reductions in the value of assets, constraints on operations or similar concerns driven by changes in sustainability oversight and regulation, our results of operations, financial condition, and business could be adversely affected.

**We will be subject to heightened regulatory requirements if our total assets exceed \$10 billion as of December 31 of any calendar year.**

As of September 30, 2025, our total assets were \$7.17 billion. While we intend to remain under the \$10 billion asset level, our total assets could exceed \$10 billion at the end of this or a future calendar year. In addition to our current regulatory requirements, banks with \$10 billion or more in total assets are, among other things: examined directly by the Bureau with respect to various federal consumer financial laws; subject to reduced dividends on the Bank's holdings of Federal Reserve Bank of Minneapolis common stock; subject to limits on interchange fees pursuant to the Durbin Amendment to the Dodd-Frank Act; subject to certain enhanced prudential standards; no longer treated as a "small institution" for FDIC deposit insurance assessment purposes; and no longer eligible to elect to be subject to the Community Bank Leverage ratio. Compliance with these additional ongoing requirements may necessitate additional personnel, the design and implementation of additional internal controls, or the incurrence of other significant expenses, any of which could have a significant adverse effect on our business, financial condition or results of operations. Our regulators may also consider our preparation for compliance with these regulatory requirements in the course of examining our operations generally or when considering any request from us or the Bank.

**We will become subject to reduced interchange income and could face related adverse business consequences if our total assets exceed \$10 billion as of December 31 of any calendar year.**

Debit card interchange fee restrictions set forth in Section 1075 of the Dodd-Frank Wall Street Reform and Consumer Protection Act, which is known as the Durbin Amendment, as implemented by regulations of the Federal Reserve, cap the maximum debit interchange fee that a debit card issuer may receive per transaction. Debit card issuers with total consolidated assets of less than \$10 billion are exempt from these interchange fee restrictions. The exemption for small issuers ceases to apply as of July 1 of the year following the calendar year in which the debit card issuer has total consolidated assets of \$10 billion or more at calendar year-end. While we intend to remain under the \$10 billion asset level, and have implemented an off-balance sheet strategy for deposits, growth in deposits and associated loan growth could result in such an increase on our balance sheet. Any reduction in interchange income

as a result of the loss of the exemption for small issuers under the Durbin Amendment could have a significant adverse effect on our business, financial condition and results of operations. Moreover, our loss of eligibility under the exemption for small issuers could adversely affect or reduce our ability to maintain certain of our fee-sharing prepaid card partnerships, which have the right to terminate our agreement with respect to certain financial services under such circumstances.

**Any change in the Bank's ability to gather brokered deposits may adversely impact the Bank.**

Failure to maintain the Bank's status as a "well capitalized" institution could have an adverse effect on us, and our ability to fund our operations. The Bank relies on brokered deposits to assist in funding its loan and other financing products. Should the Bank ever fail to be well capitalized in the future as a result of not meeting the well capitalized requirements or the imposition of an individual minimum capital requirement or similar formal requirement, then, the Bank would be prohibited, absent waiver from the FDIC, from utilizing brokered deposits (i.e., no insured depository institution that is deemed to be less than "well capitalized" may accept, renew or rollover brokered deposits absent a waiver from the FDIC). In such event, such a result could produce material adverse consequences for the Bank with respect to liquidity and could also have material adverse effects on our financial condition and results of operations. Further, depending on the Bank's condition in the future and its reliance on these deposits as a source of funding, the FDIC could increase the surcharge on our brokered deposits. If we are ever required to pay higher surcharge assessments with respect to these deposits, such payments could be material and therefore could have a material adverse effect on our financial condition and results of operations. In addition, changes to FDIC regulations regarding brokered deposits or interpretations of such regulations by federal banking agencies could have an adverse impact on the Bank's ability to accept brokered deposits. Additionally, brokered deposits are highly sensitive to changes in interest rates and, accordingly, can be a more volatile source of funding. Use of brokered deposits involves the risk that growth supported by such deposits would be halted, or the Bank's liquidity adversely impacted, if the rates offered by the Bank were less than those offered by other institutions seeking such deposits, or if depositors were to perceive a decline in the Bank's safety and soundness, or both.

**As a BHC, we are required to serve as a "source of strength" for the Bank.**

Federal banking law codifies a requirement that a BHC (like us) act as a financial "source of strength" for its FDIC-insured depository institution subsidiaries (like the Bank) and permits the OCC, as the Bank's primary federal regulator, to request reports from us to assess our ability to serve as a source of strength for the Bank and to enforce compliance with these statutory requirements. See Part I, Item 1 "Business - Regulation and Supervision - Holding Company Regulation and Supervision." Given the power provided to the federal banking agencies, we, as a source of strength for the Bank, may be required to contribute capital to the Bank when we might not otherwise voluntarily choose to do so. Specifically, the imposition of such financial requirements might require us to raise additional capital to support the Bank at a time when it is not otherwise prudent for us to do so, including on terms that are not typical or favorable to us. Further, any capital provided by us to the Bank would be subordinate to others with an interest in the Bank, including the Bank's depositors. In addition, in the event of our bankruptcy at a time when we had a commitment to one of the Bank's regulators to maintain the capital of the Bank, the regulators' claims against us may be entitled to priority status over other obligations.

**If we fail to maintain sufficient capital, our financial condition, liquidity, results of operations, and compliance with regulatory requirements would be adversely affected.**

Both we and the Bank are required to meet regulatory capital requirements and otherwise need to maintain sufficient liquidity to support recent and future growth. We have continued to experience considerable growth, having increased our assets from \$2.53 billion at September 30, 2015 to \$7.17 billion at September 30, 2025, primarily due to strategic transactions, such as the Crestmark Acquisition, through participation in government stimulus programs such as the EIP, and through organic growth. Asset growth, diversification of our lending business, expansion of our financial product offerings and other changes in our asset mix continue to require higher levels of capital, which management believes may not be met through earnings retention alone. Our ability to raise additional capital, when and if needed in the future, to meet such regulatory capital requirements and liquidity needs will depend on conditions in the capital markets, general economic conditions, the performance and prospects of our business and a number of other factors, many of which are outside of our control. We cannot assure you that we will be able to raise additional capital if needed or raise additional capital on terms acceptable to us. If we fail to meet these capital and other regulatory requirements, our financial condition, liquidity and results of operations could be materially and adversely affected.

Although we comply with all current applicable capital requirements, we may be subject to more stringent regulatory capital requirements in the future, and we may need additional capital in order to meet those requirements. If we or the Bank fail to meet applicable minimum capital requirements or cease to be well capitalized, such failure would cause us and the Bank to be subject to regulatory restrictions and could adversely affect customer confidence, our ability to grow, our costs of funds and FDIC insurance costs, our ability to pay dividends on common stock and/or repurchase shares, our ability to make distributions on our trust preferred securities, our ability to make acquisitions, and our business, results of operations and financial condition, generally.

**Changes in federal, state, and local tax laws, interpretations of existing tax laws, or adverse determinations by tax authorities, could increase our tax burden or otherwise have a material adverse effect on our business, financial condition, and results of operations.**

We are subject to taxation at the federal state and local levels. The governing tax laws and applicable tax rates vary by jurisdiction and are subject to interpretation and changes. We may be subject to examination by the tax authorities and such authorities may disagree with our tax positions, which could adversely affect our financial condition. Additionally, the amount of tax payable in a given financial statement period may be impacted by sudden or unforeseen changes in tax laws, changes in the mix and level of earnings by taxing jurisdictions, or changes to existing accounting rules or regulations. For example, the Tax Cuts and Jobs Act (the "Tax Act") enacted in December 2017, made broad and complex changes to the U.S. tax code. Additionally, on July 4, 2025, the One Big Beautiful Bill Act ("OBBBA") was signed into law, which included a broad range of tax reform provisions affecting businesses, including extending and modifying certain key provisions from the Tax Act and accelerating the phase-out of certain incentives from the Inflation Reduction Act of 2022.

## **General Risk Factors**

**The price of our common stock may be volatile, which may result in losses for investors.**

The market price for shares of our common stock has been volatile in the past, and several factors, including factors outside of our control and unrelated to our performance, could cause the price to fluctuate substantially in the future. These factors include:

- announcements of developments related to our business;
- the initiation, pendency or outcome of litigation, regulatory reviews, inquiries and investigations, and any related adverse publicity;
- fluctuations in our results of operations;
- sales of substantial amounts of our securities into the marketplace;
- general conditions in the financial services industry or the worldwide economy;
- operating and stock price performance of comparable companies, as deemed by investors;
- geopolitical conditions, such as acts or threats of terrorism, military conflicts, the effects (or perceived effects) of pandemics and trade relations;
- a shortfall in revenues or earnings compared to securities analysts' expectations;
- lack of an active trading market for the common stock;
- new technology used, or services offered, by competitors;
- changes in analysts' recommendations or projections; and
- announcement of new acquisitions, dispositions or other projects by the Company or our competitors.

General market price declines or market volatility in the future could adversely affect the price of our common stock, and the current market price may not be indicative of future market prices. Stock price volatility also may make it more difficult for our stockholders to resell their common stock when desired. General market fluctuations, industry factors, political conditions, and general economic conditions and events, such as economic slowdowns, recessions, interest rate changes or credit loss trends, could cause our common stock price to decrease regardless of operating results. Further, volatility in our stock price also impacts the value of our equity compensation, which may impact our ability to recruit and retain employees.

Moreover, in the past, securities class action lawsuits have been instituted against some companies following periods of volatility in the market price of its securities. In the future, we could be the target of similar litigation. Securities litigation could result in substantial costs and divert management's attention and resources from our normal business.

**An investment in our common stock is not an insured deposit.**

Our common stock is not a bank deposit and, therefore, is not insured against loss by the FDIC, any other deposit insurance fund, or by any other public or private entity. Investment in our common stock is inherently subject to risks, including those described in this "Risk Factors" section, and is subject to forces that affect the financial markets in general. As a result, if you hold or acquire our common stock, it is possible that you may lose all or a portion of your investment.

**Future sales or additional issuances of our capital stock may depress prices of shares of our common stock or otherwise dilute the book value of shares then outstanding.**

Sales of a substantial amount of our capital stock in the public market or the issuance of a significant number of shares could adversely affect the market price for shares of our common stock. As of September 30, 2025, we were authorized to issue up to 90,000,000 shares of common stock, of which 22,772,570 shares were outstanding, and 70,215 shares were held as treasury stock. We were also authorized to issue up to 3,000,000 shares of preferred stock and 3,000,000 shares of non-voting common stock, none of which were outstanding or reserved for issuance. Future sales or additional issuances of stock may affect the market price for shares of our common stock.

**Changes in accounting policies or accounting standards, or changes in how accounting standards are interpreted or applied, could materially affect how we report our financial results and condition.**

Our accounting policies are fundamental to determining and understanding our financial results and condition. From time to time, the Financial Accounting Standards Board (the "FASB") and the SEC change the financial accounting and reporting standards that govern the preparation of our financial statements. In addition, those that set accounting standards and those that interpret the accounting standards (such as the FASB, the SEC, banking regulators, and our outside auditors) may change or even reverse their previous interpretations or positions on how these standards should be applied. Changes in financial accounting and reporting standards and changes in current interpretations may be beyond our control, can be difficult to predict, and could materially affect how we report our financial results and condition. We may be required to apply a new or revised standard retroactively or apply an existing standard differently and retroactively, which may result in us being required to restate prior period financial statements, which restatements may reflect material changes. Such changes could also require us to incur additional personnel and technology costs.

**Federal regulations and our organizational documents may inhibit a takeover, prevent a transaction you favor or limit our growth opportunities, causing the market price of our common stock to decline.**

Certain provisions of our organizational documents and federal regulations could have the effect of making it more difficult for a third party to acquire, or of discouraging a third party from attempting to acquire, control of us. In addition, we may need to obtain approval from regulatory authorities before we can acquire control of any other company. Such approvals could involve significant expenses related to diligence, legal compliance, and the submission of required applications and could be conditioned on acts or practices that limit or otherwise constrain our operations.

**We may not be able to pay dividends in the future in accordance with past practice.**

We have historically paid a quarterly dividend to stockholders. The payment of dividends is subject to legal and regulatory restrictions. Any payment of dividends in the future will depend, in large part, on our earnings, capital requirements, financial condition, regulatory review, and other factors considered relevant by our Board of Directors.

**Catastrophic events could negatively impact our operations, the operations of third parties with which we do business, and the communities in which we do business.**

Catastrophic events (including natural disasters, severe weather conditions, pandemics, terrorism and other geopolitical events), which are beyond our control, could have an adverse impact on the Bank's ability and the ability of our vendors and other third parties with which we do business, to provide necessary services to support the operation of the Bank and provide products and services to the Bank's customers. Natural disasters and severe weather conditions could harm our operations through interference with communications, including the interruption or loss of our computer systems, which could prevent or impede us from gathering deposits, originating loans, and processing and controlling the flow of business, as well as through the destruction of facilities and our operational,

financial and management information systems. Although insurance coverage may provide some protection in light of such events, there can be no assurance that any insurance proceeds would adequately compensate the Bank for the losses it incurred as a result of such events. See also "*Existing insurance policies may not adequately protect us and our subsidiaries.*" Moreover, the damage caused by such events may not be directly compensable from insurance proceeds or otherwise, such as damage to our reputation as a result of such events. Additionally, such catastrophic events may negatively impact economic activity, which could lead to an adverse effect on our customers and impact the communities in which we do business. Such catastrophic events could each negatively impact our employees, our business operations or the stability of our deposit base, cause significant property damage, adversely impact the values of collateral securing our loans and/or interrupt our borrowers' abilities to conduct their business in a manner to support their debt obligations, which could result in losses and increased provision for credit loss. There is no assurance that our business continuity and disaster recovery program can adequately mitigate the risks of such business disruptions and interruptions.

**Legal challenges to and regulatory investigations of our, or the Bank's, operations could have a significant material adverse effect on us.**

From time to time, we, the Bank or our other subsidiaries are subject to regulatory supervision and investigation, legal proceedings and claims in the ordinary course of business. An adverse resolution in litigation or a regulatory action, including litigation or other actions brought by our shareholders, customers or another third party, such as a state attorney general or one of our regulators, could result in substantial damages or otherwise negatively impact our business, reputation and financial condition. Moreover, our involvement in such matters, even if the matters are ultimately determined in our favor, could also cause significant harm to our reputation, result in substantial expense, and divert management attention from the operations of our business. See Part I, Item 1 "Business - Regulation and Supervision" and Item 3, "Legal Proceedings."

**Our reputation and business could be damaged by negative publicity.**

Reputational risk, including as a result of negative publicity, is inherent in our business. Negative publicity or reputational harm can result from actual or alleged conduct in a number of areas, including legal and regulatory compliance, lending practices, corporate governance, litigation, inadequate protection of customer data, illegal or unauthorized acts taken by third parties that supply products or services to us or the Bank, the behavior of our employees, the customers with whom we have chosen to do business, and negative publicity for other financial institutions. Damage to our reputation could adversely impact our ability to attract new, and maintain existing, loan and deposit customers, employees and business relationships, and, particularly with respect to our Partner Solutions business line, could result in the imposition of new regulatory requirements, operational restrictions, enhanced supervision and/or civil money penalties. Such damage could also adversely affect our ability to raise additional capital, and otherwise have a material adverse effect on our financial condition and results of operations.

**Existing insurance policies may not adequately protect us and our subsidiaries.**

Fidelity, business interruption, cybersecurity, and property insurance policies are in place with respect to our operations. Should any event triggering such policies occur, however, it is possible that our policies would not fully reimburse us for the losses we could sustain due to deductible limits, policy limits, coverage limits, or other factors. We generally renew our insurance policies on an annual basis. If the cost of coverage becomes too high, we may need to reduce our policy limits, increase the deductibles or agree to certain exclusions from our coverage in order to reduce the premiums to an acceptable amount.

**Item 1B. Unresolved Staff Comments.**

None.

## **Item 1C. Cybersecurity.**

### **Information Security Program**

Pathward maintains a comprehensive Information Security Program to promote the principles of sound information security governance and to ensure risk-taking activities are in line with the Company's strategic objectives, risk appetite, and regulatory requirements. The Information Security Program governs the confidentiality, integrity, and availability of data, and defines the responsibilities of departments and individuals for such data. The Information Security Program is designed to protect information resources from a wide range of threats to ensure business continuity and minimize business risk.

### **Risk Management and Strategy**

The goal of the Information Security Program is to prevent cybersecurity incidents. The Information Security Program aligns to the National Institute of Standards and Technology Cybersecurity Framework ("NIST CSF"). The Information Security Policy is designed to address compliance by Pathward and its personnel with applicable laws and regulations. Information security controls are designed to follow the Center for Internet Security ("CIS") controls framework. Policies and program standards that align with CIS and Payment Card Industry Data Security Standard ("PCI-DSS") are also in place.

The Information Security teams include experienced, highly qualified architects, engineers and analysts who support all aspects of cybersecurity including security architecture, identity and access management, vulnerability management, security operations, as well as governance, risk and compliance. The majority of the Information Security staff holds at least one cybersecurity-related certification.

Pathward has a formal Enterprise Risk Management ("ERM") department. The Company's Chief Risk Officer is responsible for developing and executing the risk framework and ERM plan for the Company. The Company has implemented a three lines of defense model. The first line of defense ("1LOD") is responsible for owning, measuring, and managing the risks and controls. The second line of defense ("2LOD") is responsible for monitoring risk and controls in support of management. The third line of defense ("3LOD") is the independent audit function.

Based on the risk appetite of the Company, the ERM department monitors enterprise-wide risk and control profiles. The ERM department provides monthly and quarterly risk reporting to management and the Board of Directors. The ERM department ensures accurate and timely risk assessments are prepared throughout the organization. The ERM department and compliance team also administer a documented regulatory change control process when new and revised regulations need to be implemented.

### **Role of Management**

Pathward's Information Security Program is managed by the Company's Chief Information and Operations Officer ("CIOO") and Chief Information Security Officer ("CISO"). The current CIOO has over 30 years of experience in senior leadership positions in the areas of information technology, technology innovation and enterprise architecture, and has been recognized for various technology and leadership awards. The current CISO reports to the CIOO and has extensive years of experience in information security both at Pathward and at other companies as well as many years of executive management experience. The CISO regularly reports to executive management, the Risk Committee of the Board of Directors (the "Board Risk Committee") and the Board of Directors regarding all aspects of information security including cybersecurity risk and incidents. The Information Technology Committee and Executive Risk Committee provide governance and oversight of the Information Security Program. These Committees convene at least four times annually, reporting significant activities and issues upward to the Board Risk Committee and the Board of Directors as necessary.

### **Role of the Board of Directors**

The Board of Directors has delegated oversight of all enterprise risks relevant to the Company, including information technology and cybersecurity risk, to the Board Risk Committee, which consists of three independent non-employee directors. The CISO provides quarterly updates on information security and cybersecurity risk to the Board Risk Committee, as well as an annual cybersecurity overview and information security report to the full Board of Directors. The Risk Committee oversees the Information Security Program including through the annual review and approval of any material changes to the Information Security Policy.

### **Security Awareness Training**

All Pathward employees play a crucial role in cybersecurity defense. Pathward has implemented a security awareness training program that includes annual mandatory training for employees and contractors as well as ongoing phishing resiliency testing. The security awareness program also includes periodic videos and educational articles that are shared with employees through a partnership with corporate communications.

### **Third Party Risk Management Program**

The Information Security third party risk management program is a piece of the overarching enterprise third party risk management program. The Information Security team's reviews of third parties include initial and periodic security assessments, documentation and audit report reviews, and consultation on any security enhancements recommended based on the results of the completed reviews.

### **Incident Response Program**

Management has developed and implemented a risk-based incident response program to minimize the impact to Pathward and its customers in the event of an information security incident. The incident response program has defined protocols to declare and respond to an identified incident and includes appropriate containment and restoration strategies. Pathward maintains a documented Cybersecurity Incident Response Plan and has identified Information Technology and Information Security staff who are responsible for assisting with a data breach incident response event. Team members have defined roles, responsibilities and must participate in incident response training and walk-through events at least annually. Pathward has contracted with an incident response provider in the event of a security breach. In addition, Pathward has acquired a cybersecurity insurance policy.

Pathward has established a Crisis Management Team ("CMT"), which is comprised of executive leadership and key senior stakeholders and is engaged immediately following a cybersecurity incident. The CMT provides leadership and maintains ultimate executive level oversight during each phase of the incident.

Pathward has robust cybersecurity measures in place. Pathward is not aware of any cybersecurity incidents that have materially affected or are reasonably likely to materially affect Pathward, including its business strategy, results of operations or financial condition, during the fiscal year ended September 30, 2025. Yet, in this modern, evolving world cybersecurity remains a high risk regardless. For further information about the cybersecurity risks Pathward faces, and potential impacts, see Item 1A. "Risk Factors".

### **Item 2. Properties.**

The Company's corporate headquarters is located at 5501 South Broadband Lane in Sioux Falls, South Dakota. The Company has six non-branch offices from which its Commercial Finance and Partner Solutions business lines operate. The Commercial Finance business line operates out of offices in Troy, Michigan; Franklin, Tennessee; and Toronto, Ontario, Canada. The Partner Solutions business line operates out of the Company's corporate headquarters along with additional offices in Louisville, Kentucky and Easton, Pennsylvania. The Company has a corporate and shared services office located in Phoenix, Arizona.

Of the Company's seven properties, the Company leases six of them, all on market terms. See Note 6. Premises, Furniture, and Equipment, Net to the "Notes to Consolidated Financial Statements" which is included in Part II, Item 8 "Financial Statements and Supplementary Data" of this Annual Report on Form 10-K.

Management believes current facilities are adequate to meet its present needs, though it is continuing to assess those property needs as Pathward Financial is a Talent Anywhere remote working environment.

### **Item 3. Legal Proceedings.**

There are no material pending legal proceedings to which we are a party or to which any of our properties are subject. There are no material proceedings known to us to be contemplated by any governmental authority. From time to time, we are involved in a variety of litigation matters in the ordinary course of our business and anticipate that we will become involved in new litigation matters in the future.

**Item 4. Mine Safety Disclosures.**

Not applicable.

**PART II****Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.**

The Company's common stock trades on the NASDAQ Global Select Market® under the symbol "CASH." Quarterly dividends for all quarters of fiscal years 2025 and 2024 were \$0.05 per share.

Dividend payment decisions are made with consideration of a variety of factors including earnings, financial condition, market considerations and regulatory restrictions.

As of November 19, 2025, the Company had (i) 22,339,006 shares of common stock outstanding, which were held by approximately 148 stockholders of record, (ii) no shares of nonvoting common stock outstanding, and (iii) 41,798 shares of common stock held in treasury.

The transfer agent for the Company's common stock is Computershare, P.O. Box 43078, Providence, RI 02940-3078.

The Company's Board of Directors authorized a 7,000,000 share repurchase program that was publicly announced on August 25, 2023 and is scheduled to expire September 30, 2028. The table below sets forth information regarding repurchases of our common stock during the fiscal 2025 fourth quarter.

Period	Total Number of Shares Repurchased <sup>(1)</sup>	Average Price Paid per Share <sup>(1)(2)</sup>	Total Number of Shares Purchased As Part of Publicly Announced Plans or Programs	Maximum Number Of Shares that may yet be Purchased Under the Plans or Programs
July 1 to 31	180,740	\$ 82.95	180,740	4,937,816
August 1 to 31	—	—	—	4,937,816
September 1 to 30	—	—	—	4,937,816
<b>Total</b>	<b>180,740</b>		<b>180,740</b>	

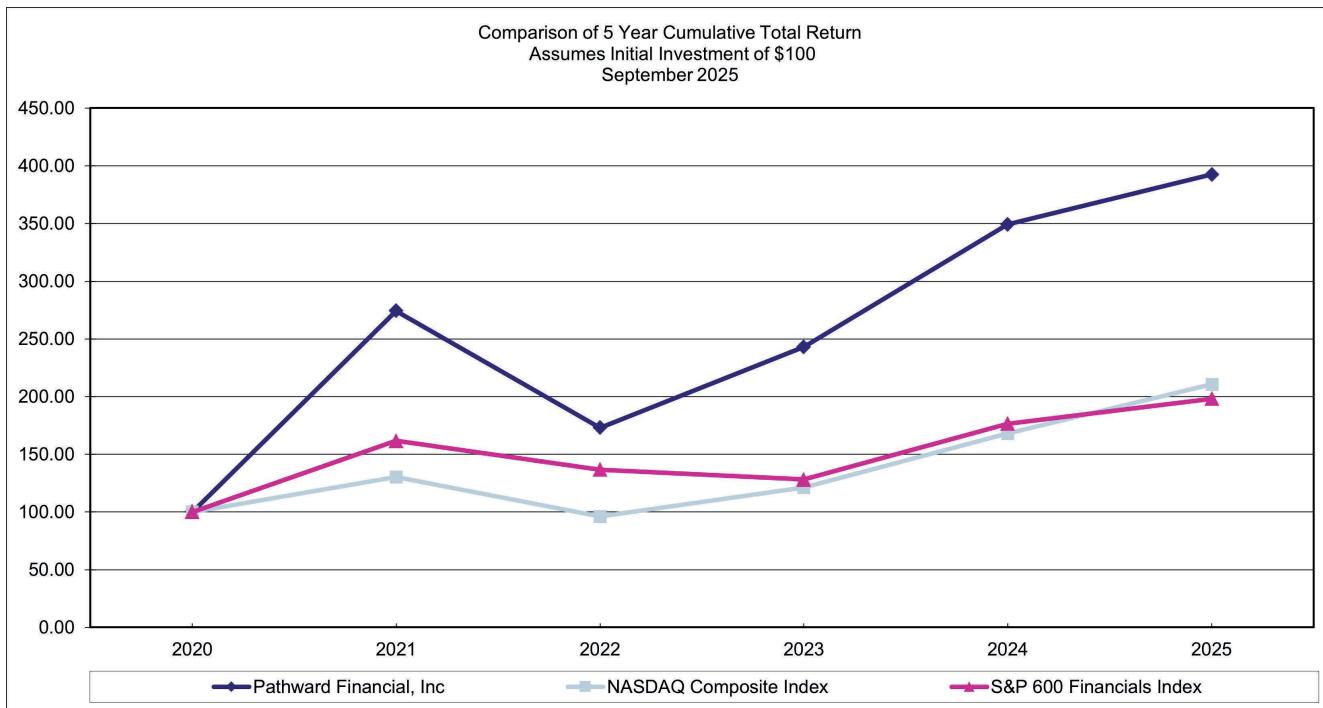

<sup>(1)</sup> No shares were acquired during the period in satisfaction of the tax withholding obligations of holders of restricted stock unit awards, which vested during the quarter, or otherwise outside of the publicly announced repurchase program.

<sup>(2)</sup> The average price paid per share is calculated on a trade date basis for all open market transactions and excludes commissions and other transaction expenses.

**Total Stock Return Performance Graph**

The following graph compares the cumulative total stockholder return on Pathward Financial common stock over the last five fiscal years with the cumulative total return of the NASDAQ Composite Index and the S&P 600 Financials Index (assuming the investment of \$100 in each index on October 1, 2020 and reinvestment of all dividends). The stock price performance reflected below is based on historical results and is not necessarily indicative of future stock price performance.

*The information contained in this section, including the following line graph, shall not be deemed to be "soliciting material" or "filed" or incorporated by reference in future filings of Pathward Financial with the SEC, or subject to the liabilities of Section 18 of the Exchange Act, except to the extent the Company specifically incorporates it by reference into a document filed under the Securities Act of 1933, as amended, or the Exchange Act.*

Index	Fiscal Year Ended September 30,					
	2020	2021	2022	2023	2024	2025
Pathward Financial, Inc.	\$ 100.00	\$ 274.27	\$ 173.04	\$ 242.98	\$ 349.21	\$ 392.52
NASDAQ Composite Index	100.00	130.26	96.06	121.14	167.95	210.64
S&P 600 Financials Index	100.00	161.72	136.72	128.21	176.55	198.23

**Item 6. [Reserved]**

## **Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.**

This section should be read in conjunction with the following parts of this Form 10-K: Part I, Item 1 "Business," Part II, Item 7A, "Quantitative and Qualitative Disclosures About Market Risk," and Part II, Item 8 "Financial Statements and Supplementary Data."

### **GENERAL**

The Company, a registered BHC that has elected to be a financial holding company, is a Delaware corporation, the principal assets of which are all the issued and outstanding shares of the Bank, a chartered national bank, the accounts of which are insured up to applicable limits by the FDIC as administrator of the DIF. Unless the context otherwise requires, references herein to the Company include Pathward Financial and the Bank, and all direct or indirect subsidiaries of Pathward Financial on a consolidated basis.

### **EXECUTIVE SUMMARY**

#### **Financial Highlights for the 2025 Fiscal Fourth Quarter**

- Total revenue for the fourth quarter was \$186.7 million, an increase of \$7.2 million, or 4%, compared to the same quarter in fiscal 2024, primarily driven by an increase of 13% in noninterest income.
- Net interest margin ("NIM") increased 14 basis points to 7.46% for the fourth quarter from 7.32% during the same period of last year, primarily driven by an improved earning asset mix from continued balance sheet optimization.
- Total gross loans and leases at September 30, 2025 increased \$589.7 million, to \$4.66 billion compared to September 30, 2024 and decreased \$78.4 million when compared to June 30, 2025. The primary driver for the sequential decrease was due to the Company moving \$144.1 million of its held for investment consumer finance portfolio to held for sale due to a purchase agreement being signed during the 2025 fiscal fourth quarter. On October 3, 2025, the Company closed on the sale of more than half of the held for sale consumer finance portfolio.
- During the 2025 fiscal fourth quarter, the Company repurchased 180,740 shares of common stock at an average share price of \$82.95. As of September 30, 2025, there were 4,937,816 shares available for repurchase under the current common stock share repurchase program.

### **Subsequent Events**

Management has evaluated and identified subsequent events that occurred after September 30, 2025. See Note 21. Subsequent Events for details on these events.

### **FINANCIAL CONDITION**

At September 30, 2025, the Company's total assets decreased to \$7.17 billion compared to \$7.53 billion at September 30, 2024, primarily due to reductions of \$512.3 million in loans held for sale, \$413.4 million in securities AFS, and \$37.8 million in cash and cash equivalents, partially offset by growth of \$589.7 million in loans and leases.

Total cash and cash equivalents were \$120.6 million at September 30, 2025, decreasing from \$158.3 million at September 30, 2024. The decrease was primarily due to the repayment of short-term borrowings partially offset by the proceeds from the sale of the commercial insurance premium finance business, net transaction costs, the sale of the transportation portfolio within the Company's working capital lending solutions, and the sale of debt securities AFS during the fiscal year ended September 30, 2025. The Company maintains its cash investments primarily in interest-bearing overnight deposits with the FHLB of Des Moines and the FRB. At September 30, 2025, the Company did not have any federal funds sold.

The Company's investment security balances at September 30, 2025 totaled \$1.36 billion, as compared to \$1.77 billion at September 30, 2024. The decrease was primarily related to the sale of investment securities AFS during the first, second, and fourth quarters of fiscal 2025 and normal paydown activity of investment security balances during the fiscal year. The Company's portfolio of securities customarily consists primarily of MBS, which have expected lives much shorter than the stated final maturity, non-bank qualified obligations of states and political subdivisions, which mature in approximately 15 years or less, and other tax exempt municipal mortgage related pass through securities which have average lives much shorter than their stated final maturities. During the fiscal year ended September 30, 2025, the Company made \$2.3 million purchases of investment securities.

Through the Bank, the Company owns stock in the FHLB due to the Bank's membership and participation in this banking system as well as stock in the FRB. The FHLB requires a level of stock investment based on a pre-determined formula. The Company's investment in these stocks was \$24.7 million at September 30, 2025, a decrease from \$36.0 million at September 30, 2024, as redemptions were partially offset by purchases of FHLB membership stock during the fiscal year.

Loans held for sale at September 30, 2025 totaled \$179.4 million, decreasing from \$691.7 million at September 30, 2024. This decrease was primarily driven by the sale of the commercial insurance premium finance loans and a reduction in SBA/USDA loans held for sale, partially offset by an increase in consumer credit products held for sale at September 30, 2025 compared to September 30, 2024.

Total gross loans and leases totaled \$4.66 billion at September 30, 2025, as compared to \$4.08 billion at September 30, 2024. The increase was due to an increase in the commercial finance and warehouse finance portfolios, partially offset by decreases in the consumer finance and seasonal tax services loan portfolios. The decrease in consumer finance was due to the Company moving \$144.1 million of its held for investment consumer finance portfolio to held for sale due to a purchase agreement being signed during the 2025 fiscal fourth quarter. See Note 4. Loans and Leases, Net to the "Notes to Consolidated Financial Statements," which is included in Part II, Item 8 "Financial Statements and Supplementary Data" of this Annual Report on Form 10-K.

Commercial finance loans, which comprised 84% of the Company's loan and lease portfolio, totaled \$3.92 billion at September 30, 2025, reflecting an increase of \$628.4 million, or 19%, from September 30, 2024. The increase was primarily driven by increases in term lending of \$747.9 million and asset-based lending of \$121.4 million, partially offset by decreases of \$144.8 million in factoring loans, \$57.1 million in SBA/USDA, and \$36.0 million in other commercial finance.

Total end-of-period deposits increased slightly to \$5.89 billion at September 30, 2025, compared to \$5.88 billion at September 30, 2024. The increase in end-of-period deposits was primarily driven by increases in money market deposits of \$32.3 million, partially offset by a decrease in wholesale deposits of \$25.0 million.

The Company's total borrowings decreased \$367.9 million to \$42.5 million at September 30, 2025 from \$410.4 million at September 30, 2024, primarily driven by a decrease in short-term borrowings of \$368.0 million. See Note 11. Short-term and Long-term Borrowings to the "Notes to Consolidated Financial Statements," which are included in Part II, Item 8 "Financial Statements and Supplementary Data" of this Annual Report on Form 10-K.

At September 30, 2025, the Company's stockholders' equity totaled \$857.5 million, an increase of \$35.3 million, from \$822.2 million at September 30, 2024. The increase was primarily attributable to increases in additional paid-in capital, retained earnings, and a decrease in accumulated other comprehensive loss, partially offset by a decrease in treasury stock. The Company and Bank remained above the federal regulatory minimum capital requirements at September 30, 2025, and continued to be classified as well-capitalized, and in good standing with the regulatory agencies. See Note 15. Capital Requirements and Restrictions on Retained Earnings to the "Notes to Consolidated Financial Statements," which is included in Part II, Item 8 "Financial Statements and Supplementary Data" of this Annual Report on Form 10-K.

*Noninterest-bearing Checking Deposits.* The Company may hold negative balances associated with cardholder programs in the Partner Solutions business line that are included within noninterest-bearing deposits on the Company's Consolidated Statements of Financial Condition. Negative balances can relate to any of the following payments functions:

- Prefundings: The Company deploys funds to cards prior to receiving cash (typically 2-3 days) where the prefunding balance is netted at a pooled partner level utilizing ASC 210-20.
- Discount fundings: The Company funds cards in alignment to expected breakage values on the card. Consumers may spend more than is estimated. These discounts are netted at a pooled partner level using ASC 210-20. The majority of these discount fundings relate to a small number of partners and are analyzed on an ongoing basis.
- Demand Deposit Account ("DDA") overdrafts: Certain programs offered allow cardholders traditional DDA overdraft protection services whereby cardholders can spend a limited amount in excess of their available card balance. When overdrawn, these accounts are re-classed as loans on the balance sheet within the Consumer Finance category.

The Company meets the Right of Set off criteria in ASC 210-20, Balance Sheet - Offsetting, for all payments negative deposit balances with the exception of DDA overdrafts. The following table summarizes the Company's negative deposit balances within the Partner Solutions business line:

(Dollars in thousands)	September 30, 2025	September 30, 2024
Noninterest-bearing deposits	\$ 5,886,873	\$ 5,982,992
Prefunding	(245,841)	(315,994)
Discount funding	(3,501)	(38,665)
DDA overdrafts	(17,977)	(11,236)
Noninterest-bearing checking, net	<u>\$ 5,619,554</u>	<u>\$ 5,617,097</u>

*Off-Balance Sheet Custodial Deposits.* The Bank utilizes a custodial deposit transference structure for certain prepaid and deposit programs whereby the Bank, acting as custodian of cardholder funds, places a portion of such cardholder funds that are not needed to support near term settlement at one or more third-party banks insured by the FDIC (each, a "Program Bank"). Accounts opened at Program Banks are established in the Bank's name as custodian, for the benefit of the Bank's cardholders. The Bank remains the issuer of all cards and holder of all accounts under the applicable cardholder agreements and has sole custodial control and transaction authority over the accounts opened at Program Banks.

The Bank maintains the records of each cardholder's deposits maintained at Program Banks. Program Banks undergo robust due diligence prior to becoming a Program Bank and are also subject to continuous monitoring.

As of September 30, 2025, the Company managed \$210.5 million of customer deposits at other banks in its capacity as custodian. These deposits provide the Company with the ability to earn servicing fee income, typically reflective of the EFFR.

## RESULTS OF OPERATIONS

The Company's results of operations are dependent on net interest income, provision for credit loss, noninterest income, noninterest expense and income tax expense. Net interest income is the difference, or spread, between the average yield on interest-earning assets and the average rate paid on interest-bearing liabilities. The interest rate spread is affected by regulatory, economic and competitive factors that influence interest rates, loan and lease demand and deposit flows. Notwithstanding that a significant amount of the Company's deposits, primarily those attributable to the Partner Solutions business line, pay relatively low rates of interest or none at all, the Company, like other financial institutions, is subject to interest rate risk to the extent that its interest-earning assets mature or reprice at different times, or on a different basis, than its interest-bearing liabilities and that card processing expense derived from contractual agreements with certain Partner Solutions partners are tied to a rate index and servicing fees the Company recognizes for off-balance sheet custodial deposits are typically reflective of the EFFR. The provision for credit loss is the adjustment to the allowance for credit losses balance for the applicable period. The allowance for credit losses represents management's current estimate of credit losses expected to be incurred by the loan and lease portfolio over the life of each financial asset as of the balance sheet date.

The Company's noninterest income is derived primarily from acquiring fee income, tax product fees, card and deposit fees, credit products, and ATM fees attributable to the Partner Solutions business line and fees charged on bank loans, leases and transaction accounts. Noninterest income is also derived from rental income, net gains on the sale of securities, secondary market revenue, as well as the Company's holdings of bank-owned life insurance. This income is offset by noninterest expenses, such as compensation and benefits associated with personnel, as well as card processing expenses and tax product expenses attributable to the Partner Solutions business line. Noninterest expense is also impacted by operating lease equipment depreciation expense, building and software, legal and consulting expenses, and regulatory expense.

## Average Balances, Interest Rates and Yields

The following table presents, for the periods indicated, the total dollar amount of interest income from average interest-earning assets and the resulting yields, as well as the interest expense on average interest-bearing liabilities, expressed both in dollars and rates. The balances presented in the table below are calculated on a daily average basis. Tax-equivalent adjustments have been made in yields on interest-bearing assets and NIM. Nonaccruing loans and leases have been included in the table as loans or leases carrying a zero yield.

<b>Total cost of deposits (a+b)</b>	<b>6,359,148</b>	<b>5,430</b>	<b>0.09 %</b>	<b>6,545,862</b>	<b>13,019</b>	<b>0.20 %</b>	<b>6,023,937</b>	<b>4,356</b>	<b>0.07 %</b>

<sup>(1)</sup> Tax rate used to arrive at the tax-equivalent yield ("TEY") for the fiscal years ended September 30, 2025, 2024, and 2023 was 21%.

<sup>(2)</sup> Net interest margin expressed on a fully taxable equivalent basis ("net interest margin, tax equivalent") is a non-GAAP financial measure. The tax-equivalent adjustment to net interest income recognizes the estimated income tax savings when comparing taxable and tax-exempt assets and adjusting for federal and state exemption of interest income. Management of the Company believes that it is a standard practice in the banking industry to present net interest margin expressed on a fully taxable equivalent basis, and accordingly believe the presentation of this non-GAAP financial measure may be useful for peer comparison purposes.

<sup>(3)</sup> Included in the yield computation are net loan fees of \$27.6 million, \$22.7 million, and \$27.7 million, for the fiscal years ended September 30, 2025, 2024, and 2023, respectively.

## Rate / Volume Analysis

The following table presents, for the periods presented, the dollar amount of changes in interest income and interest expense for major components of interest-earning assets and interest-bearing liabilities. The table distinguishes between the change related to higher outstanding balances and the change due to the levels and volatility of interest rates. For each category of interest-earning assets and interest-bearing liabilities, information is provided on changes attributable to (i) changes in volume (i.e., changes in volume multiplied by old rate); and (ii) changes in rate (i.e., changes in rate multiplied by old volume). Due to the numerous simultaneous volume and rate changes during any period, it is not possible to precisely allocate such changes between volume and rate. For this table, changes attributable to both rate and volume that cannot be segregated have been allocated proportionately to the change due to volume and the change due to rate.

(Dollars in thousands)	Fiscal Year Ended September 30,

## Comparison of Operating Results for the Fiscal Years Ended September 30, 2025 and September 30, 2024

The Company reported net income of \$185.9 million, or \$7.87 per diluted share, for the fiscal year ended September 30, 2025, compared to \$183.2 million, or \$7.20 per diluted share, for the fiscal year ended September 30, 2024, an increase of \$2.7 million. The increase in net income was driven by increases in noninterest income and net interest income and a decrease in provision for credit losses, partially offset by an increase in noninterest expense and income tax expense. Total revenue for fiscal 2025 was \$839.9 million, compared to \$797.4 million for fiscal 2024, an increase of 5%.

### Net Interest Income

Net interest income for fiscal 2025 was \$511.8 million, an increase of 3%, from \$497.8 million for the same period of the prior year. The increase was mainly attributable to an improved earning asset mix.

The Company's average interest-earning assets for fiscal 2025 decreased by \$132.0 million to \$6.97 billion compared with fiscal 2024, primarily due to a decrease in total investment security balances, partially offset by increases in average outstanding balances of loans and leases and cash balances. The Company's average outstanding balance of loans and leases increased \$176.5 million compared to the prior fiscal year primarily due to an increase in the warehouse finance portfolio.

The Company's average deposits and interest-bearing liabilities decreased \$211.2 million to \$6.47 billion during fiscal 2025 from \$6.68 billion during fiscal 2024. This decrease was primarily due to decreases in average interest-bearing deposits of \$107.8 million, noninterest-bearing deposits of \$79.0 million, and total borrowings of \$24.4 million.

Fiscal 2025 NIM increased to 7.34% from 7.01% in fiscal 2024. The overall reported TEY on average earning asset yields increased 33 basis points to 7.35% compared to the prior fiscal year primarily driven by an improved earning asset mix. The yield on the loan and lease portfolio was 9.42% compared to 9.41% for the prior fiscal year and the TEY on the securities portfolio was 3.09% compared to 3.15% for the prior fiscal year.

The Company's cost of funds for all deposits and borrowings averaged 0.18% during fiscal 2025, as compared to 0.32% during fiscal 2024. The Company's overall cost of deposits was 0.09% in fiscal 2025, as compared to 0.20% during fiscal 2024.

#### **Provision for Credit Loss**

The Company recognized a provision for credit loss of \$56.8 million for fiscal 2025, compared to \$58.1 million in fiscal 2024. The period-over-period decrease in provision for credit loss was primarily due to decreases in provision for credit losses in the consumer finance portfolio of \$12.9 million and the tax services portfolio of \$0.9 million, partially offset by an increase of \$12.7 million in provision for credit loss in the commercial finance portfolio. The decrease in provision for credit loss in the consumer finance portfolio was primarily driven by a \$14.3 million release in provision as the Company moved more than half of its held for investment consumer finance portfolio to held for sale during the fiscal 2025 fourth quarter. The Company recognized net charge-offs of \$75.0 million for the fiscal year ended September 30, 2025, compared to net charge-offs of \$82.8 million for the fiscal year ended September 30, 2024. Net charge-offs attributable to the consumer finance, commercial finance, and tax services portfolios for fiscal 2025 were \$28.7 million, \$24.2 million, and \$22.1 million, respectively. Net charge-offs attributable to the consumer finance, tax services, and commercial finance portfolios for fiscal 2024 were \$40.2 million, \$23.0 million, and \$19.5 million, respectively. See Note 4. Loans and Leases, Net for further information on the provision for credit loss.

#### **Noninterest Income**

Fiscal 2025 noninterest income increased 10% to \$328.1 million, compared to \$299.6 million for fiscal 2024. The increase was primarily driven by increases in secondary market revenue, gain on divestiture, total tax services product fees, and other income, partially offset by a loss on sale of investment securities and decreases in rental income, gain on sale of other, and card and deposit fees.

The decrease in card and deposit fee income was primarily related to lower servicing fee income due to a reduction in custodial deposits. Servicing fee income totaled \$21.4 million during fiscal 2025, compared to \$27.2 million for fiscal 2024.

#### **Noninterest Expense**

Noninterest expense increased 8% to \$560.1 million for fiscal 2025 from \$520.7 million for fiscal 2024. The increase was primarily attributable to increases in other expense, legal and consulting expense, building and software, operating lease equipment depreciation, and impairment expense, partially offset by decreases in compensation and benefits and intangible amortization expense.

Card processing expense is primarily driven by rate-related agreements with Partner Solutions relationships. The amount of expense paid under those agreements is based on an agreed upon rate index that varies depending on the deposit levels, floor rates, market conditions, and other performance conditions. Generally this rate index is based on a percentage of the EFFR and reprices immediately upon a change in the EFFR. Approximately 64% of the deposit portfolio was subject to these higher rate-related processing expenses. For fiscal 2025, contractual, rate-related processing expenses were \$104.1 million, as compared to \$110.8 million for the fiscal year ended September 30, 2024.

#### **Income Tax Expense**

The Company recorded an income tax expense of \$36.3 million, representing an effective tax rate of 16.3%, for fiscal 2025, compared to an income tax expense of \$34.1 million, representing an effective tax rate of 15.6%, for fiscal 2024. The increase in income tax expense was primarily due to the increase in income and the surrender of life insurance policies.

For the fiscal year ended September 30, 2025, the Company originated \$95.5 million in renewable energy leases, compared to \$68.4 million for the prior fiscal year. Investment tax credits related to renewable energy leases are recognized ratably based on income throughout each fiscal year.

#### **Comparison of Operating Results for the Fiscal Years Ended September 30, 2024, and September 30, 2023**

A comparison of the 2024 results to the 2023 results and other 2023 information not included herein can be found in the Company's Annual Report on Form 10-K/A: Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" filed August 29, 2025 and is incorporated by reference herein.

#### **Asset Quality**

Generally, when a loan or lease becomes delinquent 90 days or more or when the collection of principal or interest becomes doubtful, the Company will place the loan or lease on a nonaccrual status and, as a result, previously accrued interest income on the loan or lease is reversed against current income. The loan or lease will generally remain on a non-accrual status until six months of good payment history has been established or management believes the financial status of the borrower has been significantly restored. Certain relationships in the table below are over 90 days past due and still accruing. The Company considers these relationships as being in the process of collection. Consumer finance and tax services loans are generally not placed on nonaccrual status, but are instead written off when the collection of principal and interest become doubtful.

Loans and leases, or portions thereof, are generally charged-off when collection of principal becomes doubtful. Typically, this is associated with a delay or shortfall in payments of 120 days or more for consumer credit products and leases and 90 days or more for commercial finance loans. Action is taken to charge off ERO loans if such loans have not been collected by the end of June and refund advance loans if such loans have not been collected by the end of the calendar year. The Company individually evaluates loans and leases that do not share similar risk characteristics with other financial assets, which generally means loans and leases identified as modifications or loans and leases on nonaccrual status.

The Company believes that the level of allowance for credit losses at September 30, 2025 was appropriate and reflected probable losses related to these loans and leases; however, there can be no assurance that all loans and leases will be fully collectible or that the present level of the allowance will be adequate in the future. See the section below titled "Allowance for Credit Losses" for further information.

The table below sets forth the amounts and categories of the Company's nonperforming assets.

(Dollars in thousands)	<u>September 30, 2025</u>	<u>September 30, 2024</u>
<b>Nonperforming Loans and Leases</b>		
<u>Nonaccruing loans and leases:</u>		
Commercial finance	\$ 81,416	\$ 26,412
Total nonaccruing loans and leases	81,416	26,412
<u>Accruing loans and leases delinquent 90 days or more:</u>		
Loans held for sale	1,521	1,050
Commercial finance	12,900	2,314
Consumer finance	826	3,053
Tax services <sup>(1)</sup>	2,477	8,733
Total accruing loans and leases delinquent 90 days or more	17,724	15,150
Total nonperforming loans and leases	99,140	41,562
<b>Other Assets</b>		
Nonperforming operating leases	2,571	1,471
Total other assets	2,571	1,471
Total nonperforming assets	\$ 101,711	\$ 43,033
Total as a percentage of total assets	<u>1.42 %</u>	<u>0.57 %</u>

<sup>(1)</sup> Certain tax services loans do not bear interest.

The Company's nonperforming assets at September 30, 2025 were \$101.7 million, representing 1.42% of total assets, compared to \$43.0 million, or 0.57% of total assets at September 30, 2024. The increase in the nonperforming assets as a percentage of total assets at September 30, 2025 compared to the prior fiscal year, was primarily driven by an increase in nonperforming loans in the commercial finance portfolio, partially offset by decreases in the tax services and consumer finance portfolios.

The Company's nonperforming loans and leases at September 30, 2025, were \$99.1 million, representing 2.05% of total gross loans and leases, compared to \$41.6 million, or 0.87% of total gross loans and leases at September 30, 2024.

**Classified Assets.** Federal regulations provide for the classification of certain loans, leases, and other assets such as debt and equity securities considered by the Bank's primary regulator, the OCC, to be of lesser quality as "substandard," "doubtful" or "loss," with each such classification dependent on the facts and circumstances surrounding the assets in question. An asset is considered "substandard" if it is inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. "Substandard" assets include those characterized by the "distinct possibility" that the Bank will sustain "some loss" if the deficiencies are not corrected. Assets classified as "doubtful" have all of the weaknesses inherent in those classified "substandard," with the added characteristic that the weaknesses present make "collection or liquidation in full," on the basis of currently existing facts, conditions and values, "highly questionable and improbable." Assets classified as "loss" are those considered "uncollectible" and of such minimal value that their continuance as assets without the establishment of a specific loss reserve is not warranted.

General allowances represent loss allowances which have been established to recognize the inherent risk associated with lending activities, but which, unlike specific allowances, have not been allocated to particular problem assets. When assets are classified as "loss," the Bank is required either to establish a specific allowance for losses equal to 100% of that portion of the asset so classified or to charge off such amount. The Bank's determinations as to the classification of its assets and the amount of its valuation allowances are subject to review by its regulatory authorities, which may order the establishment of additional general or specific loss allowances.

On the basis of management's review of its loans, leases, and other assets, at September 30, 2025, the Company had classified loans and leases of \$244.9 million as substandard, \$13.7 million as doubtful and none as loss. At September 30, 2024, the Company classified loans and leases of \$180.9 million as substandard, \$10.3 million as doubtful and none as loss.

*Allowance for Credit Losses.* The ACL represents management's estimate of current credit losses expected to be incurred by the loan and lease portfolio over the life of each financial asset as of the balance sheet date. The Company individually evaluates loans and leases that do not share similar risk characteristics with other financial assets, which generally means loans and leases identified as modifications or loans and leases on nonaccrual status. All other loans and leases are evaluated collectively for credit loss. A reserve for unfunded credit commitments such as letters of credit and binding unfunded loan commitments is recorded in other liabilities on the Consolidated Statements of Financial Condition.

Individually evaluated loans and leases are a key component of the ACL. Generally, the Company measures credit loss on individually evaluated loans based on the fair value of the collateral less estimated selling costs, as the Company considers these financial assets to be collateral dependent. If an individually evaluated loan or lease is not collateral dependent, credit loss is measured at the present value of expected future cash flows discounted at the loan or lease initial effective interest rate.

The Company's ACL totaled \$53.3 million at September 30, 2025, a decrease compared to \$71.8 million at September 30, 2024. The \$18.4 million year-over-year decrease in the ACL was primarily driven by a \$22.2 million decrease in the allowance related to the consumer finance portfolio, partially offset by a \$3.7 million increase in the allowance related to the commercial finance portfolio and a \$0.1 million increase in the allowance related to the warehouse finance portfolio.

The following table presents the Company's ACL as a percentage of its total loans and leases.

	As of the Period Ended				
	September 30, 2025	June 30, 2025	March 31, 2025	December 31, 2024	September 30, 2024
Commercial finance	1.18 %	1.27 %	1.10 %	1.18 %	1.29 %
Consumer finance	6.88 %	11.69 %	12.04 %	10.84 %	11.52 %
Tax services	— %	81.32 %	60.35 %	1.75 %	0.02 %
Warehouse finance	0.10 %	0.10 %	0.10 %	0.10 %	0.10 %
<b>Total loans and leases</b>	<b>1.14 %</b>	<b>2.23 %</b>	<b>2.30 %</b>	<b>1.63 %</b>	<b>1.76 %</b>
<b>Total loans and leases excluding tax services</b>	<b>1.14 %</b>	<b>1.60 %</b>	<b>1.57 %</b>	<b>1.63 %</b>	<b>1.77 %</b>

The Company's ACL as a percentage of total loans and leases decreased to 1.14% at September 30, 2025 from 1.76% at September 30, 2024. The decrease in the total loans and leases coverage ratio was primarily driven by the decrease in the ACL relative to the decrease in the consumer finance and the seasonal tax services portfolios. The decrease in the consumer finance portfolio coverage ratio was primarily driven by the aforementioned release in provision.

## CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The Company's financial statements are prepared in accordance with GAAP. The financial information contained within these financial statements is, to a significant extent, based on approximate measures of the financial effects of transactions and events that have already occurred. Management has identified its critical accounting policies, which are those policies described below as Critical Accounting Estimates that, in management's view, are most important in the portrayal of our financial condition and results of operations. These policies involve complex and subjective decisions and assessments. Some of these estimates may be uncertain at the time they are made, could change from period to period, and could have a material impact on the financial statements. See Note 1. Summary of Significant Accounting Policies and Note 4. Loans and Leases, Net to the "Notes of Consolidated Financial Statements," which is included in Part II, Item 8 "Financial Statements and Supplementary Data" of this Annual Report on Form 10-K, for more information.

### **Allowance for Credit Losses**

The Company's allowance for credit losses methodology estimates expected credit losses over the life of each financial asset as of the balance sheet date.

For the loan and lease portfolio, the Company measures credit loss on individually evaluated loans based on the fair value of the collateral less estimated selling costs if collateral dependent or based on the present value of expected future cash flows discounted at the loan or lease initial effective interest rate if not collateral dependent. The majority of the Company's loans and leases subject to individual evaluation are considered collateral dependent. Only loans and leases that are on nonaccrual status or are designated as a modification are subject to individual evaluation. Management has also identified certain structured finance credits for alternative energy projects in which a substantial cash collateral account has been established to mitigate credit risk. Due to the nature of the transactions and significant cash collateral positions, these credits are evaluated individually. All other loans and leases are evaluated collectively for credit loss by pooling loans and leases based on similar risk characteristics. The collective evaluation of expected losses in all commercial finance portfolios is based on a cohort loss rate and adjustments for forward-looking information, including industry and macroeconomic forecasts. The cohort loss rate is a life of loan loss rate that immediately reverts to historical loss information for the remaining maturity of the financial asset. Management has elected to use a twelve to twenty-four month reasonable and supportable forecast for forward-looking information. Factors utilized in the determination of the allowance include historical loss experience, current and forecasted economic conditions, and measurement date credit characteristics such as product type, delinquency, and industry. The unfunded credit commitments depend on these same factors, as well as estimates of lines of credit usage. The collective evaluation of expected credit losses for certain consumer lending portfolios utilizes different methodologies when estimating expected credit losses.

Debt securities HTM include implicit and explicit guarantees by government agencies and have an expected zero risk of loss, therefore no provision for credit loss for debt securities held to maturity has been included in the Company's Consolidated Statement of Operations. Debt securities AFS are recorded at fair value and are assessed quarterly for credit loss. Any such credit loss is recorded in the Company's Provision for Credit Loss on the Company's Consolidated Statement of Operations. Non-credit related losses are recorded in Other Comprehensive Income in the Company's Consolidated Statement of Condition.

Although management believes the levels of the allowance for credit losses at September 30, 2025 and September 30, 2024 are adequate to absorb expected credit losses in the financial assets evaluated, a decline in local economic conditions or other factors could result in increasing losses.

### **Goodwill and Intangible Assets**

The Company accounts for business combinations under the acquisition method of accounting in accordance with ASC 805, *Business Combinations*. Under the acquisition method, the Company records assets acquired, including identifiable intangible assets, liabilities assumed, and any non-controlling interest in the acquired business at their fair values as of the acquisition date. Any acquisition-related transaction costs are expensed in the period incurred. Results of operations of the acquired entity are included in the Consolidated Statements of Operations from the date of acquisition. Any measurement-period adjustments are recorded in the period the adjustment is identified.

The excess of consideration paid over the fair value of the net assets acquired is recorded as goodwill. Determining the fair value of assets acquired, including identifiable intangible assets, liabilities assumed, and any noncontrolling interest often requires the use of significant estimates and assumptions. This may involve estimates based on third-party valuations, such as appraisals, or internal valuations based on discounted cash flow analyses or other valuation techniques such as estimates of attrition, inflation, asset growth rates, discount rates, multiples of earnings or other relevant factors. In addition, the determination of the useful lives over which an intangible asset will be amortized is subjective. See Note 8. Goodwill and Intangible Assets to the Consolidated Financial Statements for further information.

## LIQUIDITY AND CAPITAL RESOURCES

The Company's primary sources of funds are deposits, derived principally through its Partner Solutions business line, borrowings, principal and interest payments on loans and leases and mortgage-backed securities, and maturing investment securities. In addition, the Company utilizes wholesale deposit sources to provide temporary funding when necessary or when favorable terms are available. While scheduled loan repayments and maturing investments are relatively predictable, deposit flows and early loan repayments are influenced by the level of interest rates, general economic conditions and competition. The Company uses its capital resources principally to meet ongoing commitments to fund maturing certificates of deposit and loan commitments, to maintain liquidity, and to meet operating expenses.

At September 30, 2025, the Company had unfunded loan and lease commitments of \$1.20 billion. Management believes that loan repayment and other sources of funds will be adequate to meet the Company's foreseeable short- and long-term liquidity needs. The liquidity sources as of September 30, 2025 include \$120.6 million in cash and cash equivalents and \$210.5 million in off-balance sheet custodial deposits. When factoring in all resources, such as the FHLB, the FRB Discount Window and other unsecured funding and wholesale options, the Company has over \$2.30 billion in available liquidity. Due to the characteristics of the Company's deposit portfolio, uninsured deposits remained less than 15% of total deposits during fiscal year 2025 and below the Company's available liquidity.

The following table summarizes the Company's significant contractual obligations at September 30, 2025.

(Dollars in thousands)	Less Than 1 Year	1 to 3 Years	3 to 5 Years	More Than 5 Years	Total
Time deposits	\$ 2,636	\$ —	\$ —	\$ —	\$ 2,636
Wholesale time deposits	—	—	—	—	—
Short-term debt	9,000	—	—	—	9,000
Long-term debt	—	—	—	33,456	33,456
Operating leases	3,441	6,803	6,763	9,830	26,837
<b>Total</b>	<b>\$ 15,077</b>	<b>\$ 6,803</b>	<b>\$ 6,763</b>	<b>\$ 43,286</b>	<b>\$ 71,929</b>

For more information on the Company's short-term and long-term borrowings, see "Funding Activities – Borrowings" within Item 1 "Business," which is included in Part I of this Annual Report on Form 10-K and Note 11. Short-term and Long-term Borrowings to the "Notes to Consolidated Financial Statements," which is included in Part II, Item 8 "Financial Statements and Supplementary Data" of this Annual Report on Form 10-K."

The Company and the Bank met regulatory requirements for classification as well-capitalized institutions at September 30, 2025. Based on current and expected continued profitability and subject to continued access to capital markets, management believes that the Company and the Bank will continue to meet the capital conservation buffer of 2.5% in addition to required minimum capital ratios. See Note 15. Capital Requirements and Restrictions on Retained Earnings to the "Notes to Consolidated Financial Statements," which is included in Part II, Item 8 "Financial Statements and Supplementary Data" of this Annual Report on Form 10-K.

The payment of dividends and repurchase of shares have the effect of reducing stockholders' equity. Prior to authorizing such transactions, the Board of Directors considers the effect the dividend or repurchase of shares would have on liquidity and regulatory capital ratios. See "Regulation and Supervision - Limitations on Dividends and Other Capital Distributions" within Item 1 "Business", which is included in Part I of this Annual Report on Form 10-K.

No assurance can be given that our regulators will consider our liquidity level, or our capital level, though substantially in excess of current rules pursuant to which the Company and the Bank are considered "well-capitalized," to be sufficiently high in the future. See Note 15. Capital Requirements and Restrictions on Retained Earnings to the "Notes to Consolidated Financial Statements," which is included in Part II, Item 8 "Financial Statements and Supplementary Data" of this Annual Report on Form 10-K.

### Impact of New Accounting Standards

See Note 1. Summary of Significant Accounting Policies to the "Notes of Consolidated Financial Statements," which is included in Part II, Item 8 "Financial Statements and Supplementary Data" of this Annual Report on Form 10-K, for information regarding recently issued accounting pronouncements.

#### **Item 7A. Quantitative and Qualitative Disclosures About Market Risk.**

The Company derives a portion of its income from the excess of interest collected over interest paid. The rates of interest the Company earns on assets and pays on liabilities generally are established contractually for a period of time. Market interest rates change over time. Accordingly, the Company's results of operations, like those of most financial institutions, are impacted by changes in interest rates and the interest rate sensitivity of its assets and liabilities.

The Company monitors and measures its exposure to changes in interest rates in order to comply with applicable government regulations and risk policies established by the Board of Directors, and in order to preserve stockholder value. In monitoring interest rate risk, the Company analyzes assets and liabilities based on characteristics including size, coupon rate, repricing frequency, maturity date, likelihood of prepayment, and deposit behaviors.

The Company's primary objective for its investment portfolio is to provide a source of liquidity for the Company. In addition, the investment portfolio may be used in the management of the Company's interest rate risk profile. The investment policy generally calls for funds to be invested among various categories of security types and maturities based upon the Company's need for liquidity, desire to achieve a proper balance between minimizing risk while maximizing yield, the need to provide collateral for borrowings, and the need to fulfill the Company's asset/liability management goals.

The Company believes that its portfolio of longer duration deposits generated from its Partner Solutions business line provides a stable and profitable funding vehicle. A portion of the Company's deposit balances are subject to variable card processing expenses, derived from contractual agreements with certain Partner Solutions partners tied to a rate index, typically the EFFR. These costs reprice immediately upon a change in the applicable rate index.

The Bank, acting as custodian of cardholder funds, places a portion of such cardholder funds at one or more third-party banks insured by the FDIC (each, a "Program Bank"). These custodial deposits earn recordkeeping service fee income, typically reflective of the EFFR.

The Board of Directors and relevant government regulations establish limits on the level of acceptable interest rate risk at the Company, to which management adheres. There can be no assurance, however, that, in the event of an adverse change in interest rates, the Company's efforts to limit interest rate risk will be successful.

#### **Interest Rate Risk ("IRR")**

**Overview.** The Company's IRR analysis is designed to compare income and economic valuation simulations in market scenarios designed to alter the direction, magnitude and speed of interest rate changes, as well as the slope of the yield curve. This analysis may not represent all impacts driven by changes in the interest rate environment, such as certain other card fee income and expense line items tied to card processing expense derived from contractual agreements with certain Partner Solutions partners and servicing fees the Company recognizes from off-balance sheet custodial deposits. The Company does not currently engage in trading activities to control IRR although it may do so in the future, if deemed necessary, to help manage IRR.

***Earnings at risk and economic value analysis.*** As a continuing part of its financial strategy, the Bank considers methods of managing an asset/liability mismatch consistent with maintaining acceptable levels of net interest income. In order to monitor IRR, the Company has created an Asset/Liability Committee whose principal responsibilities are to assess the Bank's asset/liability mix and implement strategies that will enhance income while managing the Bank's vulnerability to changes in interest rates.

The Company uses two approaches to model IRR: Earnings at Risk ("EAR analysis") and Economic Value of Equity ("EVE analysis"). Under EAR analysis, net interest income is calculated for each interest rate scenario and compared to the net interest income forecast in the base case over a one-year minimum time horizon. The results are affected by projected rates, prepayments, caps and floors. Management exercises its best judgment in making assumptions regarding events that management can influence, such as non-contractual deposit re-pricing, as well as events outside of management's control, such as customer behavior on loan and deposit activity and the effect that competition has on both lending and deposit pricing. These assumptions are subjective and, as a result, net interest income simulation results will differ from actual results due to the timing, magnitude, and frequency of interest rate changes, changes in market conditions, customer behavior and management strategies, among other factors. The Company performs various sensitivity analyses on assumptions of deposit attrition, loan prepayments, and asset re-pricing, as well as market-implied forward rates and various likely and extreme interest rate scenarios, including rapid and gradual interest rate ramps, rate shocks and yield curve twists.

The EAR analysis used in the following table reflects the required analysis used no less than quarterly by management. It models basis point parallel shifts in market interest rates over the next one-year period. The following table shows the results of the scenarios as of September 30, 2025 and 2024:

**Net Sensitive Earnings at Risk**

(Dollars in thousands)	Book Value	Change in Interest Income/Expense for a given change in interest rates				
		Over/(Under) Base Case Parallel Shift	-200	-100	Base	+100
<b>Balances as of September 30, 2025</b>						
Total interest income	6,309,960	415,683	433,904	462,434	494,959	527,497
Total interest expense	276,393	813	915	1,317	3,226	5,138
Net interest income		414,870	432,989	461,117	491,733	522,359
Percentage change from base		-10.0%	-6.1%	—%	6.6%	13.3%
<b>Balances as of September 30, 2024</b>						
Total interest income	6,676,417	411,926	440,588	470,620	499,529	527,533
Total interest expense	634,988	12,614	16,686	22,053	27,715	33,184
Net interest income		399,312	423,902	448,567	471,814	494,349
Percentage change from base		-11.0%	-5.5%	—%	5.2%	10.2%

The EAR analysis reported at September 30, 2025, shows that changes in market interest rates have a larger impact on total interest income than total interest expense. IRR is a snapshot in time. The Company's business and deposits are predictably cyclical on a weekly, monthly and yearly basis. The Company's static IRR results could vary depending on which day of the week the month ends, primarily related to payroll processing and timing of when certain programs are prefunded and when the funds are received.

Under EVE analysis, the economic value of financial assets, liabilities and off-balance sheet instruments is derived under each rate scenario. The economic value of equity is calculated as the difference between the estimated market value of assets and liabilities, net of the impact of off-balance sheet instruments.

The EVE analysis used in the following table reflects the required analysis used no less than quarterly by management. It models immediate basis point parallel shifts in market interest rates. The following table shows the results of the scenario as of September 30, 2025 and 2024:

**Economic Value Sensitivity**

(Dollars in thousands)	Book Value	Standard (Parallel Shift)			
		Economic Value of Equity at Risk %			
		-200	-100	+100	+200
<b>Balances as of September 30, 2025</b>					
Percentage change from base		-6.5%	-2.6%	1.6%	2.8%
<b>Balances as of September 30, 2024</b>					
Percentage change from base		-10.0%	-3.9%	2.6%	4.2%

The EVE at risk reported at September 30, 2025 shows that the economic value of equity position is expected to benefit from rising interest rates due to the large amount of noninterest-bearing funding.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Stockholders and the Board of Directors of Pathward Financial, Inc.  
Sioux Falls, South Dakota

### Opinion on the Financial Statements

We have audited the accompanying consolidated statements of financial condition of Pathward Financial, Inc. and Subsidiaries (the "Company") as of September 30, 2025 and 2024, the related consolidated statements of operations, comprehensive income, changes in stockholders' equity, and cash flows for each of the three years in the period ended September 30, 2025, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of September 30, 2025 and 2024, and the results of its operations and its cash flows for each of the three years in the period ended September 30, 2025, in conformity with accounting principles generally accepted in the United States of America.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) ("PCAOB"), the Company's internal control over financial reporting as of September 30, 2025, based on criteria established in Internal Control – Integrated Framework: (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) and our report dated November 25, 2025, expressed an adverse opinion on the Company's internal control over financial reporting because of the material weakness related to the accounting and financial reporting for certain consumer lending program agreements in the Consumer Solutions business. We considered the material weakness in determining the nature, timing, and extent of audit procedures applied in our audit of the 2025 financial statements, and our report on Internal Control over Financial Reporting does not affect this report on the financial statements.

### Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

### Critical Audit Matter

The critical audit matters communicated below are matters arising from the current period audit of the financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of the critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing a separate opinion on the critical audit matters or on the accounts or disclosures to which they relate.

## **Allowance for Credit Losses (ACL) – Qualitative Adjustments**

As described in Notes 1 and 4 to the financial statements, the Company recognizes expected credit losses over the contractual lives of financial assets carried at amortized cost, including loans receivable, utilizing the Current Expected Credit Losses ("CECL") methodology. Estimates of expected credit losses are based on relevant information about current conditions, past events, and reasonable and supportable forward-looking forecasts regarding collectability of the reported amounts. For most of its loan segments, the Company utilized a cohort model which computes the historical life-of-loan loss rate for each identified loan segment (also referred to as the "quantitative loss rates"). The quantitative loss rates are then adjusted, as deemed necessary, based on current economic forecasts over a twelve to twenty-four month reasonable and supportable forecast period as well as for measurement date credit characteristics including problem loan and delinquency trends, portfolio growth and other factors (also referred to as the "qualitative adjustments").

We have identified auditing the qualitative adjustments as a critical audit matter as management's determination of the qualitative adjustments used in the ACL is subjective and involves significant management judgments; and our audit procedures related to the qualitative adjustments involved a high degree of auditor judgment and required significant audit effort, including the need to involve more experienced audit personnel.

The primary procedures we performed to address this critical audit matter included:

- Testing the effectiveness of controls over the qualitative adjustments used in the ACL calculation including controls addressing:
  - Testing the design and operating effectiveness of controls pertaining to the key assumptions and judgments applied in the development of the qualitative adjustments.
  - Testing the design and operating effectiveness of the controls around the mathematical accuracy of the qualitative adjustments applied to the loan segments in the ACL calculation.
- Substantively testing management's determination of the qualitative adjustments used in the ACL estimate, including evaluating their judgements and assumptions, including:
  - Testing management's process for developing the qualitative adjustments and assessing the reasonableness, relevance and reliability of data used to develop the adjustments, including evaluating their judgments and assumptions for reasonableness. Among other procedures, our evaluation considered evidence from internal and external sources, loan portfolio performance and whether such assumptions were applied consistently from period to period.
  - Analytically evaluating the qualitative adjustments for directional consistency.
  - Testing the qualitative adjustments for reasonableness, including evaluating significant changes.
  - Testing the mathematical accuracy of the qualitative adjustments applied to the loan segments in the ACL calculation.

## **Credit Enhancements Contained Within Third-Party Consumer Lending Agreements**

The Company has agreements with third parties to service consumer finance loans that are included in the Company's loan portfolio as described in Notes 1 and 4 to the consolidated financial statements. As part of these programs, several third-party providers offer various credit enhancements with respect to loans originated under the programs, including contributions to reserve accounts, yield maintenance and certain other payments. The Company has determined that the borrower payments and credit enhancement payments under the programs should be accounted for separately. Interest income is recorded at the gross borrower loan rate, and credit losses and associated provisions for credit losses are recorded on a gross basis over the life of the loans. The third-party agreements represent a total return derivative recognized at fair value on the consolidated statement of financial condition. Changes in fair value of the total return derivative are recognized in noninterest expense.

We identified auditing the accounting associated with the credit enhancement contained within the third-party agreements as a critical audit matter due to the nature and extent of audit effort required, including the need for individuals with specialized knowledge. Additionally, a material weakness was identified by the Company related to the accounting and financial reporting for certain consumer lending program agreements in the Consumer Solutions business, including the continuing application of U.S. GAAP to such transactions.

The primary procedure we performed to address this critical audit matter included involving experienced audit personnel and our internal specialists to evaluate the third-party agreements and the related accounting treatment.

/s/ Crowe LLP

We have served as the Company's auditor since 2018.

South Bend, Indiana

November 25, 2025

**PATHWARD FINANCIAL, INC. AND SUBSIDIARIES**

**PATHWARD FINANCIAL, INC. AND SUBSIDIARIES**  
 Notes to Consolidated Financial Statements

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**PRINCIPLES OF CONSOLIDATION**

The Consolidated Financial Statements include the accounts of Pathward Financial, Inc. ("Pathward Financial" or the "Company" or "us"), a registered bank holding company located in Sioux Falls, South Dakota, and its wholly-owned subsidiaries. The Company's subsidiaries include Pathward®, National Association ("Pathward®, N.A." or "Pathward" or the "Bank"), a national bank whose primary federal regulator is the Office of the Comptroller of the Currency (the "OCC"), and Pathward Venture Capital, LLC, a wholly-owned service corporation subsidiary of Pathward, N.A. which invests in companies in the financial services industry. All significant intercompany balances and transactions have been eliminated. The Company also owns 100% of First Midwest Financial Capital Trust I (the "Trust"), which was formed in July 2001 for the purpose of issuing trust preferred securities, and Crestmark Capital Trust I, which was acquired from the Crestmark Acquisition in August 2018. The Trust and Crestmark Capital Trust I are not included in the Consolidated Financial Statements of the Company.

In addition, the Company is a variable interest holder in certain entities in which the equity holders do not have the characteristics of a controlling financial interest or where the entity does not have enough equity at risk to finance its activities without additional subordinated financial support (referred to as variable interest entities or "VIEs"). The Company's variable interest arises from contractual ownership or other monetary interests that change with fluctuations in the VIE's net asset value. The primary beneficiary is the entity which has both: (1) the power to direct the activities of the VIE that most significantly impacts the VIE's economic performance, and (2) the obligation to absorb losses or receive benefits of the entity that could potentially be significant to the VIE. To determine whether or not a variable interest the Company holds could potentially be significant to the VIE, the Company considers both qualitative and quantitative factors regarding the nature, size and form of the Company's involvement with the VIE. Further, the Company assesses whether or not the Company is the primary beneficiary of a VIE on an ongoing basis. If the determination is made that the Company is the primary beneficiary, then that entity is included in the Consolidated Financial Statements.

Noncontrolling interests represent the portion of net income and equity attributable to third-party owners of consolidated subsidiaries that are not wholly-owned by Pathward Financial. All of the Company's noncontrolling interests relate to the Company's Commercial Finance business line.

**Variable Interest Entities**

As a result of the Crestmark Acquisition, the Company acquired existing membership interests of certain joint venture limited liability companies (the "LLCs"). The Company holds 80% of the membership interests in each of the LLC entities, which offer commercial lending and other financing arrangements. In connection with these LLCs, the Company exclusively provides funding for each entity's activities. The Company determined it is the primary beneficiary of all LLCs as it has the managing power under the terms of each of the LLC operating agreements. Results of the LLCs are reflected in the Company's September 30, 2025 Consolidated Financial Statements and are summarized below. The assets recognized as a result of consolidating the LLCs are the property of the LLCs and are not available for any other purpose.

(Dollars in thousands)	<u>September 30, 2025</u>
Cash and cash equivalents	\$ 222
Loans and leases	43,662
Allowance for credit losses	(1,048)
Accrued interest receivable	145
Other assets	991
<b>Total assets</b>	<b>43,972</b>
Accrued expenses and other liabilities	310
Noncontrolling interest	(591)
<b>Net assets less noncontrolling assets</b>	<b>\$ 44,253</b>

Amounts for noncontrolling interests reflect the proportionate share of membership interest (equity) and net income attributable to the holders of minority membership interest in the following entities:

- CM Help, LLC - CM Help provides flexible patient loan programs to hospitals and patient customers of hospitals as a financing alternative for the self-pay and co-pay portions of patients' hospital expenses.
- CM Southgate II, LLC - CM Southgate II engages in the business of acquiring fleet leases and semi-trailer/tractor loans and leases.
- CM TFS, LLC - CM TFS engages in the business of acquiring equipment financing term loans and leases.

In the normal course of business, the Company enters into off-balance sheet transactions with SPEs, which can be structured as corporations, trusts, limited liability companies, or partnerships and are established for a limited purpose. Currently, the Company utilizes a SPE facility for certain term lending products within the Company's Commercial Finance business line. The Company participated in the structuring of the SPE, has a minority ownership interest in the SPE, and acts as servicer for the SPE in exchange for a servicing fee. Pathward is not the primary beneficiary of the SPE as our risk of loss or right to benefits from the SPE are not significant. At September 30, 2025, there are \$25.8 million commercial term loans held at the SPE compared to \$18.4 million for the prior fiscal year, and the Company's equity investment in the SPE is \$2.3 million compared to \$5.8 million for the prior fiscal year. The Company's maximum exposure to loss from the SPE is limited to its equity investment. At September 30, 2025 and 2024, there were no and \$4.6 million commercial term loans classified as held for sale related to this SPE, respectively.

#### **NATURE OF BUSINESS AND INDUSTRY SEGMENT INFORMATION**

One of the Company's primary sources of revenue relates to payment processing services for prepaid cards, ATM sponsorship, tax refund transfer and money movement. Additionally, a significant source of revenue for the Company is interest from the purchase or origination of commercial finance loans, consumer finance loans, and warehouse finance loans. The Company accepts deposits from customers in the normal course of business on a national basis through its partner solutions and tax services divisions, and through wholesale funding. The Company operates in the banking industry, which accounts for the majority of its revenues and assets. The Company uses the "management approach" for reporting information about segments in annual and interim financial statements. The management approach is based on the way the chief operating decision-maker organizes segments within a company for making operating decisions and assessing performance. Reportable segments are based on products and services, geography, legal structure, management structure and any other manner in which management disaggregates a company. Based on the management approach model, the Company has determined that its business is comprised of three reporting segments. See Note 17. Segment Reporting for additional information on the Company's segment reporting.

#### **RECLASSIFICATION AND REVISION OF PRIOR PERIOD BALANCES**

Certain prior year amounts have been reclassified to conform to the current year financial statement presentation. These reclassifications did not impact previously reported net income, comprehensive income or the statement of financial condition. Additionally, the Company began using "Secondary Market Revenue" on the Condensed Consolidated Statement of Operations beginning with the interim period ending March 31, 2025 versus the previous caption of "Gain (Loss) on Sale of Loans and Leases". This line item exclusively comprises gains or losses realized from the sale of loans and leases, including any adjustments to record loans held for sale at the lower of amortized cost basis or fair value in accordance with ASC 860-20-50-5. There were no reclassifications of fiscal year amounts or prior period amounts as a result of this change in financial statement caption description.

#### **USE OF ESTIMATES IN PREPARING FINANCIAL STATEMENTS**

The preparation of Consolidated Financial Statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Certain significant estimates include the valuation of residual values within lease receivables, allowance for credit losses, the valuation of goodwill and intangible assets, Consumer Loan Program derivatives and the fair values of securities and other financial instruments. These estimates are reviewed by management regularly; however, they are particularly susceptible to significant changes in the future.

## **CASH AND CASH EQUIVALENTS**

For purposes of reporting cash flows, cash and cash equivalents is defined to include the Company's cash on hand and due from financial institutions and short-term interest-bearing deposits in other financial institutions. The Company reports cash flows net for customer loan transactions, securities purchased under agreement to resell, federal funds purchased, deposit transactions, securities sold under agreements to repurchase, and FHLB advances with terms less than 90 days. Previously, the FRB required all depository institutions to maintain reserves at specified levels against their transaction accounts, primarily checking accounts. However, since March 26, 2020, the reserve requirement ratio has been zero percent. At September 30, 2025, the Bank was not required to maintain any reserve balances. The Company at times maintains balances in excess of insured limits at various financial institutions including the FRB, the FHLB and other private institutions. At September 30, 2025, the Company had \$94.6 million in interest-bearing deposits held at the FRB and \$1.4 million interest-bearing deposits held at the FHLB. The Company does not believe these instruments carry a significant risk of loss but cannot provide assurances that no losses could occur if these institutions were to become insolvent.

## **SECURITIES**

GAAP requires that, at acquisition, an enterprise classify debt securities into one of three categories: Available for Sale ("AFS"), Held to Maturity ("HTM") or trading. Debt securities AFS are carried at fair value on the Consolidated Statements of Financial Condition. Unrealized holding gains and losses due to risk of credit loss are recognized in earnings while unrealized holding gains and losses due to market conditions and other non-credit risk factors are excluded from earnings and recognized as a separate component of equity in accumulated other comprehensive income (loss) ("AOCI"). See Note 20. Fair Values of Financial Instruments for additional information on fair value of AFS debt securities. Debt securities HTM are measured at amortized cost. The Company classifies the majority of its debt securities as AFS, which are those the Company may decide to sell if needed for liquidity, asset/liability management, or other reasons. Both AFS and HTM are subject to an allowance for credit losses. Pathward Financial did not hold trading securities at September 30, 2025 or 2024.

Gains and losses on the sale of securities are determined using the specific identification method based on amortized cost and are reflected in results of operations at the time of sale. Interest and dividend income, adjusted by amortization of purchase premium or discount using the level yield method, is included in income as earned. For callable debt securities, any purchase premium is amortized to the first call date while any discount is accreted over the contractual life of the security.

### **Debt Securities Credit Losses**

The Company evaluates debt securities AFS for credit losses on a quarterly basis and records any such losses as a component of provision for credit loss in the Consolidated Statements of Operations. The Company has concluded that any unrealized holding losses in its portfolio as of September 30, 2025 are not related to credit loss and as a result has not recorded an allowance for credit losses. See Note 3. Securities for further information.

The Company evaluates debt securities HTM for credit losses on a quarterly basis and records any such losses as a component of provision for credit loss in the Consolidated Statements of Operations. The Company has concluded that its portfolio as of September 30, 2025 has a zero risk of credit loss due to the related U.S. Government financial guarantees underlying the securities within the HTM portfolio and as a result has not recorded an allowance for credit losses.

### **Equity Investments**

The Company holds marketable equity securities, which have readily determinable fair value, and include common equity and mutual funds. These securities are recorded at fair value with unrealized gains and losses, due to changes in fair value, reflected in earnings. Interest and dividend income from these securities is recognized in interest income. See Note 3. Securities for additional information on marketable equity securities.

The Company also holds non-marketable equity securities that are included in Other Assets in the Company's Consolidated Financial Statements. The Company generally accounts for these investments under the equity method or the provisions of Accounting Standards Codification ("ASC") 321, Equity Securities. Investments where the Company has significant influence, but not control, over the investee are accounted for under the equity method. Investments where the Company cannot exercise significant influence over the investee are measured at fair value, with changes in fair value recognized in earnings, unless those investments have no readily determinable fair value. Investments without readily determinable fair value are measured under the measurement alternative, which reflects cost less impairment, with adjustments in value resulting from observable price changes arising from orderly transactions of the same or a similar security from the same issuer ("measurement alternative investments").

The Company reviews for impairment for equity method and measurement alternative investments and includes an analysis of the facts and circumstances for each investment, expectations of cash flows, capital needs, and viability of its business model. For equity method, the asset carrying value is reduced when the decline in fair value is considered to be other than temporary. For measurement alternative investments, the asset carrying value is reduced when the fair value is less than the carrying value, without the consideration of recovery.

The Company held the following non-marketable equity securities:

- **Equity Method** - The Company held equity method investments of \$5.3 million within other assets as of September 30, 2025 and \$4.1 million at September 30, 2024. The Company's ownership of such investments typically ranges from 5% - 25% of the investee. The Company recognized nominal net earnings from these investments within noninterest income for the fiscal year ended September 30, 2025. The Company elected to classify distributions received from equity method investments using the cumulative earnings approach on the Consolidated Statements of Cash Flows.
- **Fair Value Method** - The Company held equity investments measured at net asset value ("NAV") per share (or its equivalent) of \$13.2 million at September 30, 2025 and \$11.8 million at September 30, 2024 where NAV is considered the fair value practical expedient. These investments are recorded within other assets on the Company's Consolidated Financial Statements. Fluctuations in fair value are recognized in earnings within noninterest Income.
- **Measurement Alternative** - The Company held equity investments measured using the measurement alternative of \$6.7 million as of September 30, 2025 and \$9.5 million at September 30, 2024 within other assets on the Company's Consolidated Financial Statements. Equity investments measured using the measurement alternative are subject to fair value adjustments when observable price changes in orderly transactions for the identical or similar investment of the same issuer occur. The Company did not recognize any fair value adjustments in the fiscal years ended September 30, 2025 and 2024. Additionally, the Company recognized impairment loss of \$3.0 million and \$1.0 million of such investments during the fiscal years ended September 30, 2025 and 2024, respectively.

#### **LOANS HELD FOR SALE ("LHFS")**

Loans are designated as LHFS based on management's intent to sell loans, or portions of loans, in established secondary markets or to participating third-party financial institutions. LHFS are held at the lower of cost or fair value. Any amount by which the cost exceeds fair value is initially recorded as a valuation allowance and subsequently reflected in the gain or loss on sale when sold. At September 30, 2025 and 2024, there was no valuation allowance recorded for LHFS. Gains and losses on LHFS are recorded in noninterest income on the Consolidated Statements of Operations. Loan costs and fees are deferred at origination and are recognized in income at the time of sale. Interest income is calculated based on the note rate of the loan and is recorded as interest income. The Company occasionally transfers loans between held for sale and held for investment classifications based on its intent and ability to hold or sell loans. Management's intent to sell may be impacted by secondary market conditions, loan credit quality, or other factors.

## LOANS AND LEASES

### Loans Receivable

Loans receivable that management has the intent and ability to hold for the foreseeable future or until maturity or pay-off are classified as held for investment and are generally reported at their outstanding principal balances net of any unearned income, cumulative charge-offs, unamortized deferred fees and costs on originated loans, and unamortized premiums or discounts on purchased loans (amortized cost).

Interest income on loans is generally accrued over the term of the loans based upon the amount of principal outstanding except when serious doubt exists as to the collectability of a loan, in which case the accrual of interest is discontinued. Unearned income, deferred loan fees and costs, and discounts and premiums are amortized to interest income over the contractual life of the loan generally using the interest method. The Company's business lines follow a nonaccrual policy with certain commercial finance, consumer finance and tax service loans not generally being placed on non-accrual status, but instead are charged off when the collection of principal and interest become doubtful. When placed on nonaccrual status, the accrued unpaid interest receivable is reversed against interest income and any remaining amortizing of net deferred fees is suspended. Cash collected on these loans is applied to first reduce the carrying value of the loan with any remainder being recognized as interest income. Generally, a loan can return to accrual status when all delinquent interest and principal become current under the terms of the loan agreement and collectability of the remaining principal and interest is no longer doubtful. Loans are considered past due when contractually required principal or interest payments have not been made on the due dates.

For commercial loans, the Company generally fully charges off or charges down to net realizable value (fair value of collateral, less estimated costs to sell) for loans secured by collateral when: management judges the loans to be uncollectible; repayment is deemed to be protracted beyond reasonable time frames; the loan has been classified as a loss by either the Company's internal loan review process or its banking regulatory agencies; the customer has filed bankruptcy and the loss becomes evident owing to lack of assets; or the loan meets a defined number of days past due unless the loan is both well-secured and in the process of collection. For consumer loans, the Company fully charges off or charges down to net realizable value when deemed uncollectible due to bankruptcy or other factors, or meets a defined number of days past due.

### Consumer Loan Programs

The Company partners with third-parties to originate and service consumer loans to further deploy financing offerings to the underserved and underbanked (the Programs). Loan options under the Programs include secured and unsecured installment products. The Programs allow for loans to be originated as held for sale or held for investment, with the majority of the loans being originated as held for sale and not retained by the Company. The loans are originated with terms up to 73 months, although the effective life of the loans may be much shorter.

The Programs are governed by multiple interrelated agreements including the loan agreement between the Company and the borrower and the agreements with the third-party partners. For loans held for investment, the structure of the Programs is intended to generate loans that yield a targeted return to the Bank on a portfolio basis while also providing credit enhancements from the third-party partner. Key characteristics of the Programs include:

- The Bank has thresholds in place on the maximum amount of loans to be retained by the Bank. The majority of loans originated under these Programs are originated as held for sale.
- For loans retained by the Bank, only interest received is allocated between the Bank and third-party partners. All principal cash collections for loans are retained by the Bank and reduce the outstanding principal balance.
- For loans retained by the Bank, interest received is first applied to charge offs and then to the Bank for its targeted yield under the applicable Program. Any remaining interest received in excess of the targeted yield is then allocated to the third-party partner, which includes compensation for servicing, and recorded in noninterest expense. If there is no remaining interest received after charge offs and the Bank's yield, there is no excess interest paid or due to the third-party partners.

- The third-party partners contribute funds to a reserve account at the time of Program execution to be used for any future charge-offs not covered by interest collections, as well as any Bank required yield, as outlined in the contract. The reserve account is required to maintain minimum thresholds over the term of the Program.

The Company's agreements with multiple unrelated parties are required to be accounted for separately in accordance with U.S. GAAP relevant to each unit of account. The Company accounts for the Programs into multiple units of account as follows:

- The loans and related interest income are accounted for under ASC 310, Receivables, and are included in the Company's expected credit losses estimation process under CECL. Due to the nature of the product, the Company recognizes interest income based on the monthly interest.
- The agreement with the third-party partner that governs the excess interest, required Bank yield, and credit enhancements meets the definition of a derivative financial instrument and is accounted for in accordance with ASC 815, Derivatives and Hedging. The derivative is accounted for at fair value in the Company's Consolidated Statements of Financial Condition in other assets or liabilities with changes in fair value each period reported in the Consolidated Statements of Operations within noninterest expense.
  - Noninterest expense each period includes actual amounts paid during the period for excess interest.

The Company had \$256.4 million and \$273.0 million of loans outstanding in the Programs, or 5% and 6% of its total gross loan portfolio, as of September 30, 2025 and 2024, respectively. As of September 30, 2025 and 2024, \$163.1 million and \$24.2 million, respectively, were included in loans held for sale at the lower of cost or fair value as a result of the Company's decision to pursue a sale of that portion of the portfolio. As of September 30, 2025 and 2024, \$93.3 million and \$248.8 million were included in loans held for investment, respectively. Loans in the Programs held for investment are included within the Consumer Finance category disclosures in Note 4. Loans and Leases, Net.

### **Leases Receivable**

The Company provides various types of commercial lease financing that are classified for accounting purposes as direct financing, sales-type or operating leases. Leases that transfer substantially all of the benefits and risks of ownership to the lessee are classified as direct financing or sales-type leases and are included in loans and leases receivable on the Consolidated Statements of Financial Condition. Direct financing and sales-type leases are carried at the combined present value of future minimum lease payments and lease residual values. The determination of lease classification requires various judgments and estimates by management, including the fair value of equipment at lease inception, useful life of the equipment under lease, lease residual value, and collectability of minimum lease payments.

Sales-type leases generate a gain or loss at lease inception by recording lease revenue less lease cost. Lease revenue consists of the present value of the future minimum lease payments. Lease cost consists of the lease equipment's book value, less the present value of its residual. Interest income on direct financing and sales-type leases is recognized using methods that approximate a level yield over the fixed, non-cancelable term of the lease. Recognition of interest income is generally discontinued at the time the lease becomes 90 days delinquent, unless the lease is well-secured and in process of collection. Delinquency and past due status is based on the contractual terms of the lease. The Company receives pro rata rent payments for the interim period until the lease contract commences and the fixed, non-cancelable lease term begins. Interim payments are recognized in the month they are earned and are recorded in interest income. Management has policies and procedures in place for the determination of lease classification and review of the related judgments and estimates for all lease financings.

The Company generally fully charges off or charges down to net realizable value (fair value of collateral, less estimated costs to sell) for leases when management judges the lease to be uncollectible; repayment is deemed to be protracted beyond reasonable time frames; the lease has been classified as a loss by either the Company's internal review process or its banking regulatory agencies; the customer has filed bankruptcy and the loss becomes evident owing to lack of assets; or the lease meets a defined number of days past due unless the lease is both well-secured and in the process of collection.

Some lease financings include a residual value component, which represents the estimated fair value of the leased equipment at the expiration of the initial term of the transaction. The estimation of the residual value involves judgments regarding product and technology changes, customer behavior, shifts in supply and demand, and other economic assumptions. The Company may purchase and sell minimum lease payments, primarily as a credit risk reduction tool, to third-party financial institutions at fixed rates on a non-recourse basis with its underlying equipment as collateral. For those transactions that achieve sale treatment, the related lease cash flow stream and the non-recourse financing are derecognized. For those transactions that do not achieve sale treatment, the underlying lease remains on the Company's Consolidated Statements of Financial Condition and non-recourse debt is recorded in the amount of the proceeds received. The Company retains servicing of these leases and bills, collects, and remits funds to the third-party financial institution. Upon default by the lessee, the third-party financial institutions may take control of the underlying collateral which the Company would otherwise retain as residual value.

Leases that do not transfer substantially all benefits and risks of ownership to the lessee are classified as operating leases. Such leased equipment are included in rental equipment on the Consolidated Statements of Financial Condition and are depreciated on a straight-line basis over the term of the lease to its estimated residual value.

Depreciation expense is recorded as operating lease equipment depreciation expense within noninterest expense. Operating lease rental income is recognized when it becomes due and is reflected as a component of noninterest income. The Company evaluates the carrying value of rental equipment for impairment whenever events or circumstances have occurred that would indicate the carrying amount may not be fully recoverable. If the carrying amount is not fully recoverable, an impairment loss is recognized to reduce the carrying amount to fair value, where fair value is based on the condition of the rental equipment and the projected net cash flows from rental and sale adjusted for current market conditions. A \$2.9 million impairment expense from rental equipment was recognized for the fiscal year ended September 30, 2025, a \$2.0 million impairment expense was recognized for fiscal year ended September 30, 2024, and a nominal impairment expense was recognized for the fiscal year ended September 30, 2023.

#### **Loan Servicing and Transfers of Financial Assets**

The Company sells loan participations, generally without recourse, in both the commercial and consumer segments. The Company also sells commercial SBA and USDA loans to third parties, generally without recourse. Sold loans are not included in the Consolidated Financial Statements. The Bank generally retains the right to service the sold loans for a fee. If the fee is determined commensurate and customary with market terms, no servicing asset or liability is recorded. Any fee that is above or below market terms results in a servicing asset or liability and is included within Other Assets on the Consolidated Statements of Financial Condition. At September 30, 2025 and 2024, the Bank was servicing loans for others with aggregate unpaid principal balances of \$991.5 million and \$364.5 million, respectively. The service fees and ancillary income related to these loans were immaterial. For consumer loans originated, the Bank relies on third-party services regardless of if the loans are held for investment or sold.

Transfers of loans, portions of loans meeting the definition of a participating interest, and other financial assets are accounted for as sales on the transaction settlement date when control has been surrendered. Control over transferred assets is deemed to be surrendered when (1) the assets have been legally isolated from the Company, (2) the transferee obtains the right (free of conditions that constrain it from taking advantage of such right) to pledge or exchange the transferred assets, and (3) the Company does not maintain effective control over the transferred assets through a repurchase agreement or other means. Upon sale, the loans or other financial assets are derecognized from the Company's Consolidated Statements of Financial Condition. If the transfer does not satisfy the aforementioned control criteria, the transaction is recorded as a secured borrowing with the loans or other financial assets remaining on the Company's Consolidated Statements of Financial Condition and proceeds recognized as a liability.

#### **ALLOWANCE FOR CREDIT LOSSES**

The ACL represents management's estimate of current credit losses expected to be incurred by the loan and lease portfolio over the life of each financial asset as of the balance sheet date. The Company individually evaluates loans and leases that do not share similar risk characteristics with other financial assets, which generally means loans and leases on nonaccrual status. All other loans and leases are evaluated collectively for credit loss. A reserve for unfunded credit commitments such as letters of credit and binding unfunded loan commitments is recorded in other liabilities on the Consolidated Statements of Financial Condition.

Individually evaluated loans and leases are a key component of the ACL. Generally, the Company measures credit loss on individually evaluated loans based on the fair value of the collateral less estimated selling costs, as the Company considers these financial assets to be collateral dependent. If an individually evaluated loan or lease is not collateral dependent, credit loss is measured at the present value of expected future cash flows discounted at the loan or lease initial effective interest rate. Management has also identified certain structured finance credits for alternative energy projects in which a substantial cash collateral account has been established to mitigate credit risk. Due to the nature of the transactions and significant cash collateral positions, these credits are evaluated individually.

Credit loss for all other loans and leases is evaluated collectively by various characteristics. The collective evaluation of expected losses in all commercial finance and consumer lending portfolios is based on a cohort loss rate and adjustments for forward-looking information, including industry and macroeconomic forecasts. The cohort loss rate is a life of loan loss rate that immediately reverts to historical loss information for the remaining maturity of the financial asset. Management has elected to use a twelve to twenty-four month reasonable and supportable forecast for forward-looking information. Factors utilized in the determination of the allowance include historical loss experience, current economic forecasts and measurement date credit characteristics such as product type, delinquency, and industry. The unfunded credit commitments depend on these same factors, as well as estimates of lines of credit usage. The various quantitative and qualitative factors used in the methodologies are reviewed quarterly. The consumer lending programs are structured with freestanding credit enhancements that are not incorporated in management's estimate of expected credit losses in accordance with ASC 326, Financial Instruments – Credit Losses. Rather these credit enhancements are reflected in the Company's noninterest expense section of the Consolidated Statements of Income (Loss) from Operations.

The amount of ACL depends significantly on management's estimates or key factors and assumptions affecting valuation, appraisals of collateral, evaluations of performance and status, the amounts and timing of future cash flows expected to be received, forecasts of future economic conditions and reversion periods. Such estimates, appraisals, evaluations, cash flows and forecasts may be subject to frequent adjustments due to changing economic prospects of borrowers, lessees, properties or economic conditions. These estimates are reviewed quarterly and adjustments, if necessary, are recorded in the provision for credit loss in the periods in which they become known.

Accrued interest receivable is presented separately on the Consolidated Statements of Financial Condition, and an ACL is not recorded for these balances. Generally, when a loan or lease is placed on nonaccrual status, typically when the collection of interest or principal is 90 days or more past due, uncollected interest accrued in prior years is charged off against the ACL and interest accrued in the current year is reversed against interest income.

Management maintains a framework of controls over the estimation process for the ACL, including review of collective reserve methodologies for compliance with GAAP. Management has a quarterly process to review the appropriateness of historical observation periods and loss assumptions and risk ratings assigned to loans and leases, if applicable. Management reviews its qualitative framework and the effect on the collective reserve compared with relevant credit risk factors and consistency with credit trends. Management also maintains controls over information systems, models and spreadsheets used in the quantitative components of the reserve estimate. This includes the quality and accuracy of historical data used to derive loss rates, the inputs to industry and macroeconomic forecasts and the reversion periods utilized. The results of this process are summarized and presented to management quarterly for their approval of the recorded allowance. See Note 4. Loans and Leases, Net for further information.

The following are risk characteristics of the Company's loan and lease portfolio:

#### **Commercial Finance**

The Company's Commercial Finance business line offers a variety of products through its working capital, equipment finance, and structured finance lending solutions. These products include term lending, asset-based lending, factoring, lease financing, government guaranteed lending and other commercial finance products offered on a nationwide basis that are subject to adverse market conditions which may impact the borrower's ability to make repayment on the loan or lease or could cause a decline in the value of the collateral that secures the loan or lease. The loans or leases are primarily made based on the operating cash flows of the borrower and on the underlying collateral provided by the borrower. The cash flows of borrowers may be volatile and the value of the collateral securing these loans and leases may be difficult to measure. Most commercial finance loans and leases are secured by the assets being financed or other business assets such as accounts receivable or inventory. Although the loans and leases are often collateralized by equipment, inventory, accounts receivable, or other business assets, the liquidation of collateral in the event of a borrower default may be an insufficient source of repayment, because accounts receivable may be uncollectible and inventories and equipment may be obsolete or of limited use. The Company attempts to mitigate these risks by adhering to its underwriting policies in evaluating the management of the business and the credit-worthiness of borrowers and guarantors. See Note 2. Divestitures for information on the sale of the Bank's commercial premium finance insurance business, which was completed on October 31, 2024.

#### **Consumer Finance**

The Bank offers a variety of installment and revolving consumer lending products through its credit solutions. The Bank designs its credit program relationships with certain desired outcomes, including liquidity, credit protection, and risk retention by the program partner. The Bank believes the benefits of these outcomes not only support its goals but the goals of the credit program partner as well. The Bank designs its program credit protections in a manner so that the Bank earns a reasonable risk adjusted return, but is protected by certain layers of credit support, similar to what you would find in structured finance. These program credit protections are considered freestanding credit enhancements under ASC 326 and are not considered in the Company's estimate for the ACL. Rather, these program credit protections are captured in the Company's noninterest activities on the Consolidated Statements of Operations. Certain loans are sold to third parties based on terms and conditions within the Program Agreement.

### **Derivative Instruments**

Derivatives are financial instruments that meet the criteria in ASC 815, Derivatives and Hedging, to be recognized as either freestanding or embedded derivatives. The Company's derivatives are recognized as either assets or liabilities in the Consolidated Statements of Financial Condition at fair value. Changes in the fair value of the derivatives are recorded through noninterest expense in the Consolidated Statements of Operations. The Company does not utilize derivative instruments for trading or speculative purposes.

The Bank's use of derivatives is limited to the Consumer Lending Programs. Under these Programs, the Bank has an agreement with a third party to originate consumer loans that are included in the Bank's held for investment or held for sale portfolios. The third party provides a target return to the Company on the portfolio of loans retained by the Bank and all interest received from borrowers on such loans above the target return and after all charge-offs have been covered is paid to the third-party as excess interest and servicing. This agreement to pay the third-party excess interest and receive credit enhancements meets the definition of a derivative instrument. The primary drivers of the derivative value include the Company's ability to settle the loans at par value and the third-party partners' rights of first refusal to purchase loans that the Company intends to sell. Each reporting period, the Company estimates the fair value of the derivative instrument using a market approach considering primarily the average interest rate on the underlying loans and the credit spread relative to the risk-free rate in order to validate that the value of the loans is in excess of par and thus the derivative could be settled by either party at no cost. The Company considers this derivative instrument to be within Level 3 of the fair value hierarchy, as it utilizes inputs from sales or securitization transactions involving similar loans. As of September 30, 2025 and 2024, the Company determined the derivatives had no fair value, respectively, thus eliminating the need for further disclosures regarding Level 3 inputs as outlined in ASC 820.

### **Tax Services**

The Bank's Partner Solutions business line also offers tax solutions, which includes short-term refund advance loans. Through this product, taxpayers are underwritten to determine eligibility for these unsecured loans. Due to the nature of refund advance loans, it typically takes no more than three e-file cycles (the period of time between scheduled IRS payments) from when the return is accepted by the IRS to collect from the borrower. In the event of default, the Bank has no recourse against the tax consumer. When collection of principal becomes doubtful, the Bank will charge off the balance of a refund advance loan on September 30. Any remaining balances are charged off at the end of the calendar year. The Bank may record recoveries of previously charged off loans if collected in subsequent tax years.

The Bank offers short-term electronic return originator ("ERO") advance loans on a nationwide basis. These loans are typically utilized by tax preparers to purchase tax preparation software and to prepare tax office operations for the upcoming tax season. EROs go through an underwriting process to determine eligibility for the unsecured advances. ERO loans are not collateralized. Collection on ERO advances begins once the ERO begins to process refund transfers. Generally, the Bank will charge off the balance of an ERO advance loan if there is a balance at the end of June, or when collection of principal becomes doubtful.

### **Warehouse Finance**

The Bank participates in several collateral-based warehouse lines of credit whereby the Bank is in a senior, secured position as the first out participant. These facilities are primarily collateralized by consumer receivables, with the Bank holding a senior collateral position enhanced by a subordinate party structure.

### **PREMISES, FURNITURE, AND EQUIPMENT**

Land is carried at cost. Buildings, furniture, fixtures, leasehold improvements, internal-use software and equipment are carried at cost, less accumulated depreciation and amortization. The Company primarily uses the straight-line method of depreciation and amortization over the estimated useful lives of the assets, which is 39 years for buildings, three years for internal-use software, and range from two years to 15 years for leasehold improvements and for furniture, fixtures and equipment. Assets are reviewed for impairment when events indicate the carrying amount may not be recoverable. See Note 6. Premises, Furniture and Equipment, Net for further information.

## **GOODWILL**

Goodwill represents the cost in excess of the fair value of net assets acquired (including identifiable intangibles) in transactions accounted for as business acquisitions. Goodwill is evaluated annually for impairment at a reporting unit level. The Company has determined that its reporting units are one level below the operating segments and distinguish these reporting units based on how the segments and reporting units are managed, taking into consideration the economic characteristics, nature of the products, and customers of the segments and reporting units. The Company performs its impairment evaluation as of September 30 of each fiscal year unless a triggering event occurs that would require an interim impairment evaluation. The Company generally utilizes a qualitative approach during this annual assessment to determine whether it is more likely than not (i.e. a likelihood of more than 50 percent) that the fair value of a reporting unit is less than its carrying value. If we determine it is more likely than not that goodwill is impaired, then a quantitative assessment is performed to determine fair value of the reporting unit. If the carrying amount of the reporting unit with goodwill exceeds its fair value, goodwill is considered impaired and is written down by the excess carrying value of the reporting unit. Subsequent increases in goodwill are not recognized in the Consolidated Financial Statements. No goodwill impairment was recognized during the fiscal years ended September 30, 2025, 2024 or 2023. See Note 8. Goodwill and Intangible Assets for further information.

## **INTANGIBLE ASSETS**

Intangible assets other than goodwill are amortized over their respective estimated lives. All intangible assets are subject to an impairment test at least annually or more often if conditions indicate a possible impairment. See Note 8. Goodwill and Intangible Assets for further information.

## **STOCK COMPENSATION**

Compensation expense for share-based awards is recorded over the vesting period at the fair value of the award at the time of grant. The fair value of nonvested (restricted) shares and performance share units granted under the Company's incentive plans is equal to the fair market value of the underlying stock at the grant date, adjusted for dividends where applicable. The Company has elected to record forfeitures as they occur. See Note 13. Stock Compensation for further information.

## **INCOME TAXES**

The Company records income tax expense based on the amount of taxes due on its tax return plus deferred taxes computed based on the expected future tax consequences of temporary differences between the carrying amounts and tax bases of assets and liabilities, using enacted tax rates. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

In accordance with ASC 740, *Income Taxes*, the Company recognizes a tax position as a benefit only if it is more likely than not that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized upon examination. For tax positions not meeting the more likely than not test, no tax benefit is recorded. The Company recognizes interest and/or penalties related to income tax matters in noninterest income or noninterest expense. The effect on deferred tax assets and liabilities from a change in tax rates is recorded in income tax expense in the Consolidated Statements of Operations in the period in which the enactment date occurs. If current period income tax rates change, the impact on the annual effective income tax rate is applied year to date in the period of enactment. See Note 14. Income Taxes for further information.

## **FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK**

The Company, in the normal course of business, makes commitments to originate loans which are not reflected in the Consolidated Financial Statements. The reserve for these unfunded commitments is included within Other Liabilities on the Consolidated Statements of Financial Condition.

## **COMPREHENSIVE INCOME (LOSS)**

Comprehensive income (loss) consists of net income and other comprehensive income or loss. Other comprehensive income or loss includes the change in net unrealized holding gains and losses due to market conditions and other non-credit risk factors on AFS debt securities, net of reclassification adjustments and tax effects. Accumulated other comprehensive income (loss) is recognized as a separate component of stockholders' equity.

## REVENUErecognition

Interest revenue from loans, leases, and investments is recognized on the accrual basis of accounting as the interest is earned according to the terms of the particular loan, lease, or investment. Income from service and other customer charges is recognized as earned. Revenue within the Consumer segment is recognized as services are performed and service charges are earned in accordance with the terms of the various programs. Refer to Note 16. Revenue from Contracts with Customers for additional information.

## EARNINGS PER COMMON SHARE ("EPS")

Basic EPS is computed using the two-class method by dividing income available to common stockholders after the allocation of dividends and undistributed earnings to the participating securities by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised, and is computed after giving consideration to the weighted average dilutive effect upon vesting of restricted stock grants and after the allocation of earnings to the participating securities. See Note 5. Earnings per Common Share for further information.

## RELATED PARTY TRANSACTIONS

The Company has disclosed information on its equity investments and relationships with variable interest entities in Note 1. Summary of Significant Accounting Policies.

At September 30, 2025 and 2024, the Company had no loans or deposits outstanding with individuals deemed under Regulation O to be directors, executive officers and/or employees of the Company.

## RECENTLY ADOPTED ACCOUNTING STANDARDS UPDATES ("ASU")

The following ASU was adopted by the Company during the fiscal year ended September 30, 2025 and did not have a material impact on the Company's Consolidated Financial Statements. The following ASU became effective for the Company on October 1, 2024.

**ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures.** This ASU improves reportable segment disclosures primarily by enhancing disclosure requirements about significant segment expenses. The amendments were effective for the Company beginning October 1, 2024, and the amended guidance was first applied to the Company's annual consolidated financial statements for the fiscal year ending September 30, 2025 using a retrospective transition method. This ASU impacts disclosure only, and therefore does not have an impact on our consolidated financial statements. See Note 17. Segment Reporting.

The following ASUs have been issued and are considered applicable to the Company, but have not yet been adopted as of September 30, 2025.

**ASU 2023-09, Income Taxes (ASC 740): Improvements to Income Tax Disclosures.** This ASU requires enhanced income tax disclosures primarily related to the rate reconciliation and income taxes paid information to provide further transparency surrounding the Company's income tax position. The amendments in this ASU will be effective for the Company beginning on October 1, 2025 and will apply to the Company's annual consolidated financial statements for the fiscal year ending September 30, 2026. The Company is currently evaluating the impact of such amendments to the consolidated financial statements and related disclosures.

**ASU 2024-03, Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures.** This ASU requires public entities to provide enhanced disaggregation of certain expense categories presented in the income statement to improve transparency and consistency in financial reporting. The new guidance aims to provide investors with more detailed information regarding the nature of a company's expenses. The amendments will be effective for the Company beginning with the fiscal year ending September 30, 2027, and interim periods within that fiscal year. The amendments are to be applied retrospectively to all prior periods presented. The Company is currently evaluating the impact of such amendments to the consolidated financial statements and related disclosures.

**ASU 2025-05, Financial Instruments—Credit Losses (Topic 326) Measurement of Credit Losses for Accounts Receivable and Contract Assets.** This ASU clarifies the measurement of expected credit losses for accounts receivable and contract assets arising from revenue transactions, aligning the application of Topic 326 with the revenue recognition guidance in Topic 606. The amendments are intended to reduce diversity in practice and improve the consistency of credit loss estimates across similar financial assets. The amendments will be effective for the Company beginning on October 1, 2026, and will apply to interim periods within the fiscal year ending September 30, 2027. The Company is currently evaluating the impact of such amendments to the consolidated financial statements and related disclosures.

**ASU 2025-06, Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40).** This ASU modernizes the accounting for internally used software by streamlining when costs may be capitalized and by enhancing disclosure and presentation requirements. The amendments will be effective for the Company beginning on October 1, 2028, and will apply to interim periods within the fiscal year ending September 30, 2029. The Company is currently evaluating the impact of such amendments to the consolidated financial statements and related disclosures.

**ASU 2025-07, Derivatives and Hedging (Topic 815) and Revenue from Contracts with Customers (Topic 606).** This ASU refines the scope of derivative accounting and clarifies the treatment of certain share-based noncash consideration received from customers. The amendments are intended to enhance clarity and consistency in applying derivative and revenue recognition guidance. The amendments will be effective for the Company beginning on October 1, 2027 and will apply to interim periods within the fiscal year ending September 30, 2028. The Company is currently evaluating the impact of such amendments to the consolidated financial statements and related disclosures.

## NOTE 2. DIVESTITURES

On October 31, 2024, the Company completed the sale of the Bank's commercial insurance premium finance business, a component of the Company's Commercial segment, pursuant to the Asset Purchase and Sale Agreement (the "Purchase Agreement") dated August 28, 2024 with Honor Capital Corporation, a Florida corporation, the successor by assignment to AFS IBEX Financial Services, LLC, and Honor Capital Holdings, LLC as guarantor. The purchase price at closing was based on the net asset value of the assets purchased and liabilities assumed pursuant to the Purchase Agreement plus a \$31.2 million premium. The sale included substantially all of the assets and liabilities related to the Bank's commercial insurance premium finance business. The Company has summarized the results of the transaction as follows:

(Dollars in thousands)	December 31, 2024	Settlement Adjustments	September 30, 2025
<b>Assets Purchased and Liabilities Assumed</b>			
Cash and cash equivalents	\$ 4,686	\$ —	\$ 4,686
Loans	594,541	(1,360)	593,181
Premises, furniture, and equipment, net	484	—	484
<b>Total assets purchased</b>	<b>\$ 599,711</b>	<b>\$ (1,360)</b>	<b>\$ 598,351</b>
Deposits	\$ 16,760	\$ —	\$ 16,760
Accrued expenses and other liabilities	1,158	120	1,278
<b>Total liabilities assumed</b>	<b>\$ 17,918</b>	<b>\$ 120</b>	<b>\$ 18,038</b>
<b>Net assets purchased</b>	<b>\$ 581,793</b>	<b>\$ (1,480)</b>	<b>\$ 580,313</b>
Consideration paid at close	603,290	8,223	611,513
Consideration due	9,703	(9,703)	—
<b>Purchase price</b>	<b>612,993</b>	<b>(1,480)</b>	<b>611,513</b>
<b>Premium on transaction</b>	<b>31,200</b>	<b>—</b>	<b>31,200</b>
Other adjustments:			
Goodwill derecognition	(11,577)	—	(11,577)
Intangible derecognition	(631)	—	(631)
Building lease derecognition	471	—	471
Deferred loan origination cost derecognition	—	(1,360)	(1,360)
Transaction costs	(3,059)	—	(3,059)
<b>Total other adjustments</b>	<b>(14,796)</b>	<b>(1,360)</b>	<b>(16,156)</b>
<b>Gain on divestitures</b>	<b>\$ 16,404</b>	<b>\$ (1,360)</b>	<b>\$ 15,044</b>

After final settlement adjustments, the sale resulted in an overall gain of \$15.0 million before tax that was recognized within noninterest income on the Company's Condensed Consolidated Statements of Operations. The settlement adjustments during the three months ended March 31, 2025 resulted in a \$1.4 million decrease of the previously recognized gain as of December 31, 2024 as a result of certain deferred loan origination costs that were excluded from the final settlement. See Note 8. Goodwill and Intangible Assets and Note 9. Operating Lease Right-of-Use Assets and Liabilities to the Condensed Consolidated Financial Statements for further information on the amounts included in the divestiture.

### NOTE 3. SECURITIES

The amortized cost, gross unrealized gains and losses and estimated fair values of debt securities AFS and HTM are presented below.

(Dollars in thousands)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized (Losses)	Fair Value
<b>Debt Securities AFS</b>				
<b>September 30, 2025</b>				
Corporate securities	\$ 25,000	\$ —	\$ (3,750)	\$ 21,250
SBA securities	11,791	—	(1,022)	10,769

The decrease in the fair value of investment securities balances when comparing September 30, 2025 to the prior year was primarily driven by the sale of \$239.3 million debt securities AFS and principal pay downs during the fiscal year. The sale of debt securities AFS in the first quarter of fiscal 2025 stemmed from the decision to offset the gain on the sale of the commercial insurance premium finance business. The sale of debt securities AFS in the second quarter of fiscal 2025 stemmed from the decision to offset the gain on the sale of the transportation portfolio within working capital. Individual securities were identified for sale upon close of the transactions in order to reposition the debt securities AFS portfolio. At September 30, 2025, there were 147 debt securities AFS in an unrealized loss position. Management assessed each investment security with unrealized losses for credit loss by evaluating qualitative factors, including materiality of loss position as a percentage of book value, credit ratings, outstanding principal and interest payments, and changes in the underlying implicit or explicit guarantee of the security, and determined all unrealized losses on these securities were due to adverse market conditions and/or change in interest rates versus credit loss. As part of that assessment, management evaluated and concluded that it is more-likely-than-not that the Company will not be required and does not intend to sell any of the securities prior to recovery of the amortized cost. At September 30, 2025, there was no ACL for debt securities AFS.

The amortized cost and fair value of debt securities by contractual maturity are shown below. Certain securities have call features which allow the issuer to call the security prior to maturity. Expected maturities may differ from contractual maturities in MBS because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties. Therefore, MBS are not included in the maturity categories in the following maturity summary. The expected maturities of certain SBA securities may differ from contractual maturities because the borrowers may have the right to prepay the obligation. However, certain prepayment penalties may apply.

(Dollars in thousands)	September 30, 2025		September 30, 2024	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
<b>Debt Securities AFS</b>				
Due in one year or less	\$ 755	\$ 760	\$ 1,826	\$ 1,796
Due after one year through five years	1,332	1,352	14,772	14,211

	27,373	23,943	31,060	28,392
Mortgage-backed securities	1,935	1,710	2,032	1,844
<b>Total debt securities HTM</b>	<b>\$ 29,308</b>	<b>\$ 25,653</b>	<b>\$ 33,092</b>	<b>\$ 30,236</b>

Activity related to the sale of securities is summarized below.

(Dollars in thousands)	Fiscal Year Ended September 30,		
	2025	2024	2023
<b>Securities AFS</b>			
Proceeds from sales	\$ 239,322	\$ —	\$ —
Gross gains on sales	—	—	—
Gross losses on sales	25,084	—	—
<b>Net loss on securities AFS</b>	<b>\$ (25,084)</b>	<b>\$ —</b>	<b>\$ —</b>

There was no activity related to the sale of securities held to maturity during the fiscal years ended September 30, 2025, 2024, and 2023.

No securities were pledged as collateral for public funds on deposit at September 30, 2025 and 2024. No securities were pledged as collateral for individual, trust and estate deposits at September 30, 2025 and 2024.

**FRB Stock.** The Bank is required by federal law to subscribe to capital stock (divided into shares of \$100 each) as a member of the FRB of Minneapolis with an amount equal to six per centum of the paid-up capital stock and surplus. One-half of the subscription is paid at time of application, and one-half is subject to call of the Board of Governors of the Federal Reserve System. FRB of Minneapolis stock held by the Bank totaled \$19.7 million at September 30, 2025 and 2024. These equity securities are 'restricted' in that they can only be owned by member banks. At fiscal year-end 2025 and 2024, the Company pledged securities with fair values of \$385.5 million and \$533.8 million against FRB advances, respectively.

For each of the fiscal years ended September 30, 2025, 2024, and 2023, \$1.2 million related to dividend income on FRB stock is included in interest and dividend income from other investments.

**FHLB Stock.** The Company's borrowings from the FHLB are secured by specific investment securities. Such advances can be made pursuant to several different credit programs, each of which has its own interest rate and range of maturities.

The investments in the FHLB stock are required investments related to the Company's membership in and current borrowings from the FHLB of Des Moines. The investments in the FHLB of Des Moines could be adversely impacted by the financial operations of the FHLB and actions of their regulator, the Federal Housing Finance Agency.

The FHLB stock is carried at cost since it is generally redeemable at par value. The carrying value of the stock held at the FHLB was \$5.0 million and \$16.3 million at September 30, 2025 and 2024, respectively. At fiscal year-end 2025 and 2024, the Company pledged securities with fair values of approximately \$955.3 million and \$1.04 billion, respectively, as collateral against FHLB advances. There was approximately \$223.0 million and \$136.9 million of qualifying loans pledged as collateral at September 30, 2025 and 2024, respectively.

Included in interest and dividend income from other investments is \$0.6 million, \$0.7 million and \$0.5 million related to dividend income on FHLB stock for the fiscal years ended September 30, 2025, 2024 and 2023, respectively.

These equity securities are 'restricted' in that they can only be sold back to the respective institution from which they were acquired or another member institution at par. Therefore, FRB and FHLB stocks are less liquid than other marketable equity securities, and the cost approximates fair value.

*Equity Securities.* The Company held \$3.8 million and \$3.3 million in marketable equity securities within other assets on the Consolidated Statements of Financial Condition at September 30, 2025 and 2024, respectively. The Company recognized \$0.1 million and \$0.1 million in unrealized losses on marketable equity securities during the fiscal years ended September 30, 2025 and 2024, respectively. No such securities were sold during the fiscal year.

Non-marketable equity securities that are measured at fair value using NAV as a practical expedient totaled \$13.2 million and \$11.8 million at September 30, 2025 and 2024, respectively. These securities are held within other assets on the Consolidated Statements of Financial Condition. The Company recognized \$1.6 million and \$1.1 million in unrealized gains during the fiscal years ended September 30, 2025 and 2024, respectively. No such securities were sold during the fiscal year.

Non-marketable equity securities without readily determinable fair value totaled \$12.0 million and \$13.6 million at September 30, 2025 and 2024, respectively, reflecting the Company's ownership interests in other entities through Pathward Venture Capital, LLC, a wholly-owned service corporation subsidiary of the Bank that was formed in 2017 for the purpose of making minority equity investments and other corporate investments. The Company recognized a \$0.4 million gain and a \$2.4 million gain on Visa shares previously carried at a cost basis of \$0 during the fiscal years ended September 30, 2025 and 2024, respectively. This gain was recognized within the gain on sale of other on the Consolidated Statements of Operations. There was one security sold during the fiscal year ended September 30, 2025 for a \$0.4 million gain which is included in gain on sale of other on the Consolidated Statements of Operations.

*Equity Securities Impairment.* The Company evaluates impairment for investments held at cost on at least an annual basis based on the ultimate recoverability of the par value. All other equity investments, including those under the equity method, are reviewed for other-than-temporary impairment on at least a quarterly basis. The Company recognized \$3.0 million, \$1.0 million, and \$3.3 million in impairment for such investments for the fiscal years ended September 30, 2025, 2024, and 2023, respectively.

#### NOTE 4. LOANS AND LEASES, NET

Loans and leases consist of the following:

(Dollars in thousands)	September 30, 2025	September 30, 2024
Term lending	\$ 2,302,540	\$ 1,554,641
Asset-based lending	593,265	471,897
Factoring	217,501	362,295
Lease financing	149,236	152,174
SBA/USDA	511,488	568,628
Other commercial finance	149,939	185,964
Commercial finance	3,923,969	3,295,599
Consumer finance	93,319	248,800
Tax services	2,532	8,825
Warehouse finance	645,186	517,847
<b>Total loans and leases</b>	<b>4,665,006</b>	<b>4,071,071</b>
Net deferred loan origination costs (fees)	(98)	4,124
<b>Total gross loans and leases</b>	<b>4,664,908</b>	<b>4,075,195</b>
Allowance for credit losses	(53,319)	(71,765)
<b>Total loans and leases, net</b>	<b>\$ 4,611,589</b>	<b>\$ 4,003,430</b>

During the fiscal years ended September 30, 2025 and 2024, the Company originated \$2.50 billion and \$2.03 billion of consumer finance and SBA/USDA loans as held for sale, respectively.

The Company sold held for sale loans resulting in proceeds of \$2.91 billion and gain on sale of \$37.0 million during the fiscal year ended September 30, 2025. The Company sold held for sale loans resulting in proceeds of \$2.04 billion and gain on sale of \$5.9 million during the fiscal year ended September 30, 2024. Gains and losses from the sale of loans and leases are included in secondary market revenue on the Consolidated Statements of Operations.

See Note 2. Divestitures to the Consolidated Financial Statements for further information on the sale of the Company's commercial insurance premium finance business.

Loans purchased and sold by portfolio segment, including participation interests, were as follows:

(Dollars in thousands)	Fiscal Year Ended September 30,	
	2025	2024
<b>Loans Purchased</b>		
Loans held for investment:		
Commercial finance	\$ 20,811	\$ 13,782
Warehouse finance	205,417	284,480
<b>Total purchases</b>	<b>\$ 226,228</b>	<b>\$ 298,262</b>
<b>Loans Sold</b>		
Loans held for sale:		
Commercial finance	\$ 563,997	\$ 99,005
Consumer finance	2,349,777	1,937,079
<b>Total sales</b>	<b>\$ 2,913,774</b>	<b>\$ 2,036,084</b>

*Leasing Portfolio.* The net investment in direct financing and sales-type leases was comprised of the following:

(Dollars in thousands)	September 30, 2025	September 30, 2024
Minimum lease payments receivable	\$ 157,271	\$ 162,757
Unguaranteed residual assets	6,785	9,300
Unamortized initial direct costs	68	102
Unearned income	(14,820)	(19,883)
<b>Total net investment in direct financing and sales-type leases</b>	<b>\$ 149,304</b>	<b>\$ 152,276</b>

The components of total lease income were as follows:

(Dollars in thousands)	Fiscal Year Ended September 30,		
	2025	2024	2023
<b>Interest income - loans and leases</b>			
Interest income on net investments in direct financing and sales-type leases	\$ 11,185	\$ 11,827	\$ 13,536
<b>Leasing and equipment finance noninterest income</b>			
Lease income from operating lease payments	50,750	53,365	53,551
Other <sup>(1)</sup>	8,441	4,921	3,964
<b>Total leasing and equipment finance noninterest income</b>	<b>59,191</b>	<b>58,286</b>	<b>57,515</b>
<b>Total lease income</b>	<b>\$ 70,376</b>	<b>\$ 70,113</b>	<b>\$ 71,051</b>

<sup>(1)</sup> Other leasing and equipment finance noninterest income consists of gains (losses) on sales of leased equipment, fees and service charges on leases and gains (losses) on sales of leases.

Undiscounted future minimum lease payments receivable for direct financing and sales-type leases, and a reconciliation to the carrying amount recorded at September 30, 2025 were as follows:

(Dollars in thousands)		
2026		\$ 50,195
2027		60,916
2028		22,911
2029		15,108
2030		6,489
Thereafter		1,652
<b>Total undiscounted future minimum lease payments receivable for direct financing and sales-type leases</b>		<b>\$ 157,271</b>
Third-party residual value guarantees		—
<b>Total carrying amount of minimum lease payments for direct financing and sales-type leases</b>		<b>\$ 157,271</b>

The Company did not record any contingent rental income from direct financing and sales-type leases in the fiscal year ended September 30, 2025.

A number of factors that began to affect the economic environment in 2023 have continued into 2025, including economic uncertainty, inflation, increased interest rates, with the Federal Reserve beginning to lower the target federal funds rate at the end of 2024, and geopolitical conflict. Since early 2025, global markets and the U.S. economy have also experienced disruption and volatility resulting from tariffs and other policies of the U.S. administration, which may continue during the remainder of 2025. Management continues to evaluate the loan and lease portfolio in order to assess the impact on repayment sources and underlying collateral that could result in additional losses and the impact to our customers and businesses as a result of these factors impacting the economy and will refine its estimate as developments occur and more information becomes available.

Activity in the allowance for credit losses by portfolio segment was as follows:

(Dollars in thousands)	Fiscal Year Ended September 30,	
	2025	2024
Beginning balance	\$ 71,765	\$ 96,855

<sup>(1)</sup> Reserve for unfunded commitments is recognized within other liabilities on the Consolidated Statements of Financial Condition.

Information on loans and leases that are deemed to be collateral dependent and are evaluated individually for the ACL was as follows:

(Dollars in thousands)	September 30, 2025	September 30, 2024
Term lending	\$ 33,042	\$ 15,491
Asset-based lending	24,273	—
Lease financing	3,985	5,300
SBA/USDA	6,147	1,419
Commercial finance <sup>(1)</sup>	67,447	22,210
<b>Total</b>	<b>\$ 67,447</b>	<b>\$ 22,210</b>

<sup>(1)</sup> For commercial finance, collateral dependent financial assets have collateral in the form of cash, equipment, or other business assets.

Management has identified certain structured finance credits for alternative energy projects in which a substantial cash collateral account has been established to mitigate credit risk. Due to the nature of the transactions and significant cash collateral positions, these credits are evaluated individually. The balance of these pass rated cash collateral loans totaled \$107.7 million and \$105.1 million at September 30, 2025 and 2024, respectively.

Federal regulations provide for the classification of loans and other assets such as debt and equity securities considered by the Bank's primary regulator, the OCC, to be of lesser quality as "substandard," "doubtful" or "loss." The loan classification and risk rating definitions are as follows:

**Pass** - A pass asset is of sufficient quality in terms of repayment, collateral and management to preclude a special mention or an adverse rating.

**Watch** - A watch asset is generally a credit performing well under current terms and conditions but with identifiable weakness meriting additional scrutiny and corrective measures. Watch is not a regulatory classification but can be used to designate assets that are exhibiting one or more weaknesses that deserve management's attention. These assets are of better quality than special mention assets.

**Special Mention** - A special mention asset is a credit with potential weaknesses deserving management's close attention and, if left uncorrected, may result in deterioration of the repayment prospects for the asset. Special mention assets are not adversely classified and do not expose an institution to sufficient risk to warrant adverse classification. Special mention is a temporary status with aggressive credit management required to garner adequate progress and move to watch or higher.

The adverse classifications are as follows:

**Substandard** - A substandard asset is inadequately protected by the net worth and/or repayment ability or by a weak collateral position. Assets so classified will have well-defined weaknesses creating a distinct possibility the Bank will sustain some loss if the weaknesses are not corrected. Loss potential does not have to exist for an asset to be classified as substandard.

**Doubtful** - A doubtful asset has weaknesses similar to those classified substandard, with the degree of weakness causing the likely loss of some principal in any reasonable collection effort. Due to pending factors, the asset's classification as loss is not yet appropriate.

**Loss** - A loss asset is considered uncollectible and of such little value that the asset's continuance on the Bank's balance sheet is no longer warranted. This classification does not necessarily mean an asset has no recovery or salvage value leaving room for future collection efforts.

Loans and leases, or portions thereof, are generally charged off when collection of principal becomes doubtful. Typically, this is associated with a delay or shortfall in payments of 120 days or more for consumer credit products and leases, and 90 days or more for commercial finance loans. Action is taken to charge off ERO loans if such loans have not been collected by the end of June and refund advance loans if such loans have not been collected by the end of the calendar year. The Company individually evaluates loans and leases that do not share similar risk characteristics with other financial assets, which generally means loans and leases identified as modifications or loans and leases on nonaccrual status.

The Company recognizes that concentrations of credit may naturally occur and may take the form of a large volume of related loans and leases to an individual, a specific industry, or a geographic location. Credit concentration is a direct, indirect, or contingent obligation that has a common bond where the aggregate exposure equals or exceeds a certain percentage of the Company's Tier 1 Capital plus the allowable Allowance for Credit Losses.

The Company has various portfolios of consumer finance and tax services loans that present unique risks that are statistically managed. Due to the unique risks associated with these portfolios, the Company monitors other credit quality indicators in its evaluation of the appropriateness of the ACL on these portfolios, and as such, these loans are not included in the asset classification table below. The outstanding balances of consumer finance loans and tax services loans were \$93.3 million and \$2.5 million at September 30, 2025, respectively, and \$248.8 million and \$8.8 million at September 30, 2024, respectively.

The amortized cost basis of loans and leases by asset classification and year of origination was as follows:

(Dollars in thousands)	Amortized Cost Basis							Revolving Loans and Leases	Total

Consumer finance	736	1,841	388	88	—	—	—	—	3,053		
Tax services	8,733	—	—	—	—	—	—	—	8,733		
Total loans and leases held for investment	9,469	2,462	1,073	809	275	12	—	—	14,100		
Total 90 days or more delinquent and accruing	\$ 10,500	\$ 2,481	\$ 1,073	\$ 809	\$ 275	\$ 12	\$ —	\$ —	\$ 15,150		

Certain loans and leases 90 days or more past due as to interest or principal continue to accrue because they are (1) well-secured and in the process of collection or (2) consumer loans exempt under regulatory rules from being classified as non-accrual until later delinquency, usually 120 days past due.

The following table provides the average recorded investment in nonaccrual loans and leases:

(Dollars in thousands)	Fiscal Year Ended September 30,	
	2025	2024
Term lending	\$ 29,965	\$ 20,133
Asset-based lending	4,789	4,896
Factoring	915	2,079
Lease financing	3,804	1,176
SBA/USDA	5,436	2,230
Commercial finance	44,909	30,514
Total loans and leases	\$ 44,909	\$ 30,514

The recognized interest income on the Company's nonaccrual loans and leases for the fiscal years ended September 30, 2025 and 2024 was not significant.

Modifications made to borrowers experiencing financial difficulty during the fiscal year ended September 30, 2025 were \$6.7 million in the commercial finance loan portfolio. The types of modifications granted were term extensions and reduced payments. Modifications made to borrowers experiencing financial difficulty during the fiscal year ended September 30, 2024 were \$9.8 million in the commercial finance loan portfolio. The types of modifications granted were term extensions and reduced payments.

During the fiscal years ended September 30, 2025 and 2024, the Company had \$5.9 million and \$1.5 million of commercial finance loans where a modification was granted in the previous 12 months in which there was a payment default, respectively. At September 30, 2025 and 2024, \$5.9 million of modifications granted were in the 60 to 89 days past due category and \$1.5 million of modifications granted were in the over 89 days past due category, respectively.

#### NOTE 5. EARNINGS PER COMMON SHARE ("EPS")

The Company has granted restricted share awards with dividend rights that are considered to be participating securities. Accordingly, a portion of the Company's earnings is allocated to those participating securities in the earnings per share calculation under the two-class method. Basic EPS is computed using the two-class method by dividing income available to common stockholders after the allocation of dividends and undistributed earnings to the participating securities by the weighted average number of common shares outstanding for the period. Diluted EPS is calculated using the more dilutive of the two-class method or the treasury stock method. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised, and is computed after giving consideration to the weighted average dilutive effect upon vesting of performance share units ("PSUs") and restricted stock grants, and after the allocation of earnings to the participating securities. Antidilutive securities are disregarded in earnings per share calculations. Diluted EPS shown below reflects the two-class method, as diluted EPS under the two-class method was more dilutive than under the treasury stock method.

A reconciliation of net income and common stock share amounts used in the computation of basic and diluted earnings per share is presented below.

	Fiscal Year Ended September 30,		
	2025	2024	2023
(Dollars in thousands, except per share data)			
<b>Basic income per common share:</b>			
Net income attributable to Pathward Financial, Inc.	\$ 185,872	\$ 183,219	\$ 143,266
Dividends and undistributed earnings allocated to participating securities	(691)	(1,678)	(2,148)
Basic net earnings available to common stockholders	<u>185,181</u>	<u>181,541</u>	<u>141,118</u>
Undistributed earnings allocated to nonvested restricted stockholders	673	1,631	2,067
Reallocation of undistributed earnings to nonvested restricted stockholders	(670)	(1,629)	(2,060)
Diluted net earnings available to common stockholders	<u>\$ 185,184</u>	<u>\$ 181,543</u>	<u>\$ 141,125</u>
Total weighted-average basic common shares outstanding	23,397,489	25,169,937	26,833,079
<b>Effect of dilutive securities<sup>(1)</sup></b>			
PSUs	125,140	31,813	92,527
Total effect of dilutive securities	<u>125,140</u>	<u>31,813</u>	<u>92,527</u>
Total weighted-average diluted common shares outstanding	<u>23,522,629</u>	<u>25,201,750</u>	<u>26,925,606</u>
<b>Net earnings per common share:</b>			
Basic earnings per common share	\$ 7.91	\$ 7.21	\$ 5.26
Diluted earnings per common share <sup>(2)</sup>	\$ 7.87	\$ 7.20	\$ 5.24

<sup>(1)</sup> Represents the effect of the assumed vesting of PSUs and restricted stock, as applicable, utilizing the treasury stock method.

<sup>(2)</sup> Excluded from the computation of diluted earnings per share for the fiscal years ended September 30, 2025, 2024, and 2023, respectively, were 87,324, 232,601, and 408,477 weighted average shares of nonvested restricted stock because their inclusion would be anti-dilutive.

## NOTE 6. PREMISES, FURNITURE, AND EQUIPMENT, NET

Premises, furniture, and equipment consists of the following:

(Dollars in thousands)	<u>September 30, 2025</u>	<u>September 30, 2024</u>
Land	\$ 1,354	\$ 1,354
Buildings	22,203	21,685
Furniture, fixtures, and equipment	69,456	63,823
	93,013	86,862
Less: accumulated depreciation and amortization	(52,381)	(47,807)
Net book value	<u>\$ 40,632</u>	<u>\$ 39,055</u>

Depreciation expense of premises, furniture and equipment included in building and software was approximately \$9.6 million, \$10.2 million and \$11.1 million for the fiscal years ended September 30, 2025, 2024 and 2023, respectively.

## NOTE 7. RENTAL EQUIPMENT, NET

Rental equipment consists of the following:

(Dollars in thousands)	<u>September 30, 2025</u>	<u>September 30, 2024</u>
Computers and IT networking equipment	\$ 11,723	\$ 21,308
Motor vehicles and other	141,101	140,920
Other furniture and equipment	26,040	38,755
Solar panels and equipment	111,447	128,296
Total	<u>290,311</u>	<u>329,279</u>
Accumulated depreciation	(131,530)	(124,987)
Unamortized initial direct costs	665	1,047
Net book value	<u>\$ 159,446</u>	<u>\$ 205,339</u>

Future minimum lease payments expected to be received for operating leases at September 30, 2025 were as follows:

(Dollars in thousands)		
2026		\$ 34,404
2027		26,647
2028		18,295
2029		12,965
2030		3,677
Thereafter		2,808
Total		<u>\$ 98,796</u>

## NOTE 8. GOODWILL AND INTANGIBLE ASSETS

The Company held a total of \$297.9 million of goodwill at September 30, 2025. The recorded goodwill is a result of multiple business combinations that occurred from 2015 to 2018. During the fiscal year ended September 30, 2025, the Company closed on the sale of the commercial insurance premium finance business and derecognized the goodwill associated with that reporting unit. The goodwill was included in the carrying amount of the disposed business. See Note 2. Divestitures to the Consolidated Financial Statements for further information.

The changes in the carrying amount of the Company's goodwill were as follows:

(Dollars in Thousands)	Consumer	Commercial	Corporate Services/Other	Total
September 30, 2024	\$ 87,145	\$ 222,360	\$ —	\$ 309,505
Divestiture	—	(11,577)	—	(11,577)
<b>September 30, 2025</b>	<b>\$ 87,145</b>	<b>\$ 210,783</b>	<b>\$ —</b>	<b>\$ 297,928</b>
September 30, 2023	\$ 87,145	\$ 222,360	\$ —	\$ 309,505
<b>September 30, 2024</b>	<b>\$ 87,145</b>	<b>\$ 222,360</b>	<b>\$ —</b>	<b>\$ 309,505</b>

The changes in the carrying amount of the Company's intangible assets during the fiscal year ended September 30, 2025 include certain intangibles disposed of as part of the commercial insurance premium finance business sale. The relevant intangibles were included in the carrying amount of the disposed business. See Note 2, Divestitures to the Consolidated Financial Statements for further information.

(Dollars in thousands)	Trademark <sup>(1)</sup>	Non-Compete	Customer Relationships <sup>(2)</sup>	All Others <sup>(3)</sup>	Total

Accumulated impairment	—	—	(10,918)	(153)	(11,071)
<b>September 30, 2024</b>	<b>\$ 6,422</b>	<b>\$ —</b>	<b>\$ 6,566</b>	<b>\$ 3,601</b>	<b>\$ 16,589</b>

<sup>(1)</sup> Book amortization period of 5-15 years. Amortized using the straight line and accelerated methods.

<sup>(2)</sup> Book amortization period of 10-30 years. Amortized using the accelerated method.

<sup>(3)</sup> Book amortization period of 3-20 years. Amortized using the straight line method.

The estimated amortization expense of intangible assets assumes no activities, such as acquisitions, which would result in additional amortizable intangible assets. Estimated amortization expense of intangible assets in the subsequent fiscal years at September 30, 2025 was as follows:

(Dollars in thousands)		
2026	\$	3,103
2027		2,483
2028		2,194
2029		1,581
2030		1,473
Thereafter		1,668
<b>Total anticipated intangible amortization</b>	<b>\$</b>	<b>12,502</b>

There were no impairments to intangible assets for the fiscal years ended September 30, 2025 and 2024. Intangible impairment expense is recorded within the impairment expense line of the Consolidated Statements of Operations.

#### **NOTE 9. OPERATING LEASE RIGHT-OF-USE ASSETS AND LIABILITIES**

Operating lease right-of-use ("ROU") assets, included in other assets, were \$22.7 million and \$24.4 million at September 30, 2025 and 2024, respectively.

Operating lease liabilities, included in accrued expenses and other liabilities, were \$24.0 million and \$26.0 million at September 30, 2025 and 2024, respectively.

The decreases in lease ROU assets and liabilities relate to normal amortization and lease payments made during the fiscal year ended September 30, 2025, but also include adjustments for lease assignments that occurred as a result of the commercial insurance premium finance business sale during the fiscal 2025 first quarter. Two office locations, Newport Beach, California and Addison, Texas, were included in the sale of the commercial insurance premium finance business and the relevant lease ROU assets and liabilities are no longer reflected in the Company's Condensed Consolidated Financial Statements after the transaction closed. The derecognition of the relevant lease ROU assets and liabilities resulted in a \$0.5 million gain on remeasurement that was recognized as part of the overall gain on divestitures from the commercial insurance premium finance business sale. See Note 2. Divestitures to the Condensed Consolidated Financial Statements for further information.

Undiscounted future minimum operating lease payments and a reconciliation to the amount recorded as operating lease liabilities at September 30, 2025 were as follows:

(Dollars in thousands)		
2026	\$	3,441
2027		3,356
2028		3,447
2029		3,486
2030		3,276
Thereafter		9,831
<b>Total undiscounted future minimum lease payments</b>	<b>\$</b>	<b>26,837</b>
Discount		(2,881)
<b>Total operating lease liabilities</b>	<b>\$</b>	<b>23,956</b>

The weighted-average discount rate and remaining lease term for operating leases were as follows:

	<u>September 30, 2025</u>	<u>September 30, 2024</u>
Weighted-average discount rate	2.65 %	2.45 %
Weighted-average remaining lease term (years)	7.97	8.78

The components of total lease costs for operating leases were as follows:

(Dollars in thousands)	<u>Fiscal Year Ended September 30,</u>		
	<u>2025</u>	<u>2024</u>	<u>2023</u>
Lease expense	\$ 3,807	\$ 3,997	\$ 3,951
Short-term and variable lease cost	78	75	142
Sublease income	(1,377)	(1,300)	(1,409)
<b>Total lease cost for operating leases</b>	<b>\$ 2,508</b>	<b>\$ 2,772</b>	<b>\$ 2,684</b>

#### **NOTE 10. TIME CERTIFICATES OF DEPOSIT**

Time certificates of deposit in denominations of \$250,000 or more were approximately \$2.6 million and \$4.1 million at September 30, 2025 and 2024, respectively.

Scheduled maturities of time certificates of deposit at September 30, 2025 were as follows for the fiscal years ending:

(Dollars in thousands)	\$	\$
2026	\$ 2,636	\$ 2,636
2027	—	—
2028	—	—
2029	—	—
2030	—	—
Thereafter	—	—
<b>Total<sup>(1)</sup></b>	<b>\$ 2,636</b>	<b>\$ 2,636</b>

<sup>(1)</sup> As of September 30, 2025, the Company had no certificates of deposit recorded in wholesale deposits on the Consolidated Statements of Financial Condition.

Under the Dodd-Frank Act, IRA and non-IRA deposit accounts are insured up to \$250,000 by the DIF under management of the FDIC.

#### **NOTE 11. SHORT-TERM AND LONG-TERM BORROWINGS**

##### **Short-Term Borrowings**

(Dollars in thousands)	<u>September 30, 2025</u>	<u>September 30, 2024</u>
Overnight fed funds purchased	\$ 9,000	\$ 377,000
<b>Total</b>	<b>\$ 9,000</b>	<b>\$ 377,000</b>

The Company had \$9.0 million of overnight federal funds purchased from the FHLB and none from other financial institutions at September 30, 2025, as compared to \$257.0 million from the FHLB and \$120.0 million from other financial institutions at September 30, 2024.

The Bank has executed blanket pledge agreements whereby the Bank assigns, transfers, and pledges to the FHLB and grants to the FHLB a security interest in real estate and securities collateral. The Bank has the right to use, commingle, and dispose of the collateral it has assigned to the FHLB. Under the agreement, the Bank must maintain "eligible collateral" that has a "lending value" at least equal to the "required collateral amount," all as defined by the agreement.

At September 30, 2025 and 2024, the Bank pledged securities with fair values of approximately \$955.3 million and \$1.04 billion, respectively, to be used against FHLB advances as needed. In addition, qualifying loans of approximately \$223.0 million were pledged as collateral at September 30, 2025 compared to \$136.9 million at September 30, 2024.

The Company had no securities sold under agreements to repurchase at September 30, 2025 and 2024.

### Long-Term Borrowings

(Dollars in thousands)	September 30, 2025	September 30, 2024
Trust preferred securities	\$ 13,661	\$ 13,661
Subordinated debentures, net of issuance costs	19,795	19,693
<b>Total</b>	<b>\$ 33,456</b>	<b>\$ 33,354</b>

Scheduled maturities of the Company's long-term borrowings at September 30, 2025 were as follows for the fiscal years ending:

(Dollars in thousands)	Trust preferred securities	Subordinated debentures	Other long- term borrowings	Total
2026	\$ —	\$ —	\$ —	\$ —
2027	—	—	—	—
2028	—	—	—	—
2029	—	—	—	—
2030	—	—	—	—
Thereafter	13,661	19,795	—	33,456
<b>Total long-term borrowings</b>	<b>\$ 13,661</b>	<b>\$ 19,795</b>	<b>\$ —</b>	<b>\$ 33,456</b>

Certain trust preferred securities are due to First Midwest Financial Capital Trust I, a 100%-owned nonconsolidated subsidiary of the Company. The securities were issued in 2001 in conjunction with the Trust's issuance of 10,000 shares of trust preferred securities. The securities bear the same interest rate and terms as the trust preferred securities. The securities are included on the Consolidated Statements of Financial Condition as liabilities.

The Company issued all of the 10,310 authorized shares of trust preferred securities of First Midwest Financial Capital Trust I holding solely securities. Distributions are paid semi-annually. Cumulative cash distributions are calculated at 6-month CME Term SOFR plus 0.42826% tenor spread adjustment plus 3.75% (8.03% at September 30, 2025 and 8.43% at September 30, 2024), not to exceed 12.5%. The Company may, at one or more times, defer interest payments on the capital securities for up to 10 consecutive semi-annual periods, but not beyond July 25, 2031. At the end of any deferral period, all accumulated and unpaid distributions are required to be paid. The capital securities are required to be redeemed on July 25, 2031; however, the Company has a semi-annual option to shorten the maturity date. The redemption price is \$1,000 per capital security plus any accrued and unpaid distributions to the date of redemption.

Holders of the capital securities have no voting rights, are unsecured and rank junior in priority of payment to all of the Company's indebtedness and senior to the Company's common stock.

Although the securities issued by the Trust are not included as a component of stockholders' equity, the securities are treated as capital for regulatory purposes, subject to certain limitations.

Through the Crestmark Acquisition, the Company acquired \$3.4 million in floating rate capital securities due to Crestmark Capital Trust I, a 100%-owned nonconsolidated subsidiary of the Company. The subordinated debentures bear interest at 3-month CME Term SOFR plus 0.26161% tenor spread adjustment plus 3.00%, have a stated maturity of 30 years and are redeemable by the Company at par, with regulatory approval. The interest rate is reset quarterly at distribution dates in February, May, August, and November. The interest rate as of September 30, 2025 was 7.24%. The Company has the option to defer interest payments on the subordinated debentures from time to time for a period not to exceed five consecutive years.

On September 23, 2022, the Company completed a private placement of \$20.0 million of its 6.625% fixed-to-floating rate subordinated debentures due 2032 to certain qualified institutional buyers and accredited investors. These notes will mature on September 30, 2032, unless earlier redeemed. Beginning on September 30, 2027, the notes may be redeemed, in whole or in part, at the Company's option subject to regulatory approval, on any scheduled interest payment date. Prior to September 30, 2027, the notes may be redeemed, in whole but not in part, at any time upon certain other specified events. At September 30, 2025, the Company had \$19.8 million in aggregate principal amount in subordinated debentures remains outstanding.

#### **NOTE 12. STOCKHOLDERS' EQUITY**

*Repurchase of Common Stock.* The Company's Board of Directors authorized the September 3, 2021 share repurchase program to repurchase up to 6,000,000 shares of the Company's outstanding common stock. This authorization was effective from September 3, 2021 through September 30, 2024, with 146,435 shares authorized by this repurchase program not repurchased when it expired. On August 25, 2023, the Company's Board of Directors announced a share repurchase program to repurchase up to an additional 7,000,000 shares of the Company's outstanding common stock on or before September 30, 2028. During the fiscal years ended September 30, 2025 and 2024, the Company repurchased 2,062,184 and 1,520,001 shares, respectively, as part of the share repurchase programs.

Under the repurchase programs, repurchased shares were retired and designated as authorized but unissued shares. The Company accounts for repurchased shares using the par value method under which the repurchase price is credited to paid-in capital up to the par value of those shares. When the repurchase price is greater than the original issue proceeds, the excess is charged to retained earnings. As of September 30, 2025, 4,937,816 shares of common stock remained available for repurchase.

For the fiscal years ended September 30, 2025 and 2024, the Company also repurchased 66,446 and 126,221 shares, or \$4.6 million and \$6.1 million, of common stock, respectively, in settlement of employee tax withholding obligations due upon the vesting of restricted stock.

*Repurchase of Treasury Stock.* The Company accounts for the retirement of repurchased shares, including treasury stock, using the par value method under which the repurchase price is charged to paid-in capital up to the amount of the original proceeds of those shares. When the repurchase price is greater than the original issue proceeds, the excess is charged to retained earnings. The Company retired zero and 129,929 shares of common stock held in treasury during the fiscal years ended September 30, 2025 and 2024, respectively.

#### **NOTE 13. STOCK COMPENSATION**

On February 27, 2024, the shareholders of the Company voted to approve the Pathward Financial, Inc. 2023 Omnibus Incentive Plan (the "Plan"). The Plan permits the granting of various types of awards including but not limited to nonvested (restricted) shares and PSUs to certain officers and directors of the Company. Awards may be granted by the Compensation Committee of the Board of Directors based on the performance of the award recipients or other relevant factors.

Shares have previously been granted each year to executives and senior leadership members under the applicable Company incentive plan. In addition, beginning in fiscal year 2025, awards were made to certain employees as time-vesting restricted stock units settleable in shares ("RSUs"). These shares and RSUs generally vest at various times ranging from immediately to three years based on circumstances at time of grant. The grant date fair value is determined based on the fair market value of the Company's stock on the grant date, determined in accordance with applicable accounting standards. Director shares are issued to the Company's directors, and these shares have historically vested from immediately to up to one year from the grant date.

The Company also grants selected executives PSU awards. The vesting of these awards is contingent on meeting company-wide performance goals, including earnings per share. The awards generally vest over a period of three years and have payout levels ranging from a threshold of 50% to a maximum of 200%. Upon vesting, each PSU earned is converted into one share of common stock.

The fair value of the PSUs (other than PSUs subject to a market condition) is determined by the dividend-adjusted fair value on the grant date for those awards subject to a performance condition. For those PSUs subject to a market condition, a simulation valuation is performed.

In addition, during the first and second quarters of fiscal year 2017, shares were granted to certain executive officers of the Company in connection with their signing of employment agreements with the Company. These stock awards generally vest in equal installments over eight years. Finally, awards of shares or RSUs may be made at other times during the fiscal year for new hire, promotion, or retention awards.

The following tables show the activity of share awards (including shares of restricted stock subject to vesting, fully-vested restricted stock, RSUs, and PSUs) granted, exercised or forfeited under all of the Company's incentive plans during the fiscal years ended September 30, 2025 and 2024.

	Number of Shares	Weighted Average Fair Value at Grant
<b>Restricted Stock Awards</b>		
Nonvested shares outstanding, September 30, 2024	248,670	\$ 41.19
Granted	15,600	77.42
Vested	(179,669)	41.24
Forfeited or expired	(2,904)	48.17
Nonvested shares outstanding, September 30, 2025	<u>81,697</u>	<u>\$ 47.77</u>
Nonvested shares outstanding, September 30, 2023	370,151	\$ 35.87
Granted	181,117	50.61
Vested	(288,734)	40.22
Forfeited or expired	(13,864)	42.49
Nonvested shares outstanding, September 30, 2024	<u>248,670</u>	<u>\$ 41.19</u>
<b>RSUs</b>		
Nonvested shares outstanding, September 30, 2024	—	\$ —
Granted	97,062	79.20
Vested	—	—
Forfeited or expired	(4,442)	79.39
Nonvested shares outstanding, September 30, 2025	<u>92,620</u>	<u>\$ 79.19</u>
	Number of Units	Weighted Average Fair Value at Grant
<b>PSUs</b>		
PSUs outstanding, September 30, 2024	142,462	\$ 47.24
Granted <sup>(1)</sup>	34,208	79.47
Vested	(34,304)	57.21
Forfeited or expired	—	—
PSUs outstanding, September 30, 2025	<u>142,366</u>	<u>\$ 52.59</u>
PSUs outstanding, September 30, 2023	155,804	\$ 41.20
Granted <sup>(2)</sup>	52,125	49.61
Vested	(60,984)	55.47
Forfeited or expired	(4,483)	44.59
PSUs outstanding, September 30, 2024	<u>142,462</u>	<u>\$ 47.24</u>

<sup>(1)</sup> The activity in this table includes 34,304 shares related to the fiscal year 2022 PSUs, which are included in this table under the assumption of a target performance achievement. The final performance was assessed after September 30, 2024, resulted in an achievement greater than target, and an additional 6,847 shares were allocated to the participants in the plan.

<sup>(2)</sup> The activity in this table includes 60,984 shares related to the fiscal year 2021 PSUs, which are included in this table under the assumption of a target performance achievement. The final performance was assessed after September 30, 2023, resulted in an achievement greater than target, and an additional 47,252 shares were allocated to the participants in the plan.

Compensation expense for share-based awards is recorded over the vesting period at the fair value of the award at the time of the grant. The fair value of nonvested (restricted) shares and PSUs granted under the Company's incentive plans is equal to the fair market value of the underlying stock at the grant date, adjusted for dividends where applicable. The Company has elected to record forfeitures as they occur.

The following table shows the effect to income, net of tax benefits, of share-based compensation expense recorded:

(Dollars in thousands)	Fiscal Year Ended September 30,		
	2025	2024	2023
Total employee stock-based compensation expense recognized in income, net of tax effects of \$1,651, \$1,873, and \$1,838, respectively	\$ 7,856	\$ 8,416	\$ 8,465

As of September 30, 2025, stock-based compensation expense not yet recognized in income totaled \$7.7 million, which is expected to be recognized over a weighted-average remaining period of 1.64 years.

#### NOTE 14. INCOME TAXES

The Company and its subsidiaries file a consolidated federal income tax return on a fiscal year basis. The provision for income taxes were as follows:

(Dollars in thousands)	Fiscal Year Ended September 30,		
	2025	2024	2023
<b>Federal:</b>			
Current	\$ 10,407	\$ 9,770	\$ 8,792
Deferred	15,754	13,276	(6,688)
	26,161	23,046	2,104
<b>State:</b>			
Current	9,060	8,172	7,935
Deferred	1,045	2,890	(452)
	10,105	11,062	7,483
Income tax expense	\$ 36,266	\$ 34,108	\$ 9,587

The tax effects of the Company's temporary differences that give rise to significant portions of its deferred tax assets and liabilities were:

(Dollars in thousands)	<u>September 30, 2025</u>	<u>September 30, 2024</u>
<b>Deferred tax assets:</b>		
Allowance for credit losses	\$ 12,938	\$ 17,647
Deferred compensation	4,511	4,351
Stock based compensation	2,084	2,402
Valuation adjustments	78	175
General business credits <sup>(1)</sup>	49,070	55,471
Accrued expenses	2,807	2,763
Lease liability	5,930	6,503
Net unrealized loss on securities available for sale	47,167	50,819
Premises and equipment	4,998	3,939
Deferred income	2,386	—
Other assets	2,276	3,940
	<u>134,245</u>	<u>148,010</u>
<b>Deferred tax liabilities:</b>		
Intangibles	(8,366)	(7,859)
Leased assets	(80,012)	(76,016)
Right-of-use assets	(5,678)	(6,218)
Life insurance redemption	(3,493)	—
Other liabilities	(466)	(1,346)
	<u>(98,015)</u>	<u>(91,439)</u>
<b>Net deferred tax assets</b>	<b>\$ 36,230</b>	<b>\$ 56,571</b>

<sup>(1)</sup> The general business credits are investment tax credits generated from qualified solar energy property placed in service during the fiscal years ended September 30, 2025 and 2024. These credits will begin to expire on September 30, 2041.

As of September 30, 2025, the Company had a gross deferred tax asset of \$3.6 million for separate company state cumulative net operating loss carryforwards, for which \$3.6 million was reserved. At September 30, 2024, the Company had a gross deferred tax asset of \$3.0 million for separate company state cumulative net operating loss carryforwards, for which \$3.0 million was reserved. These state operating loss carryforwards will expire in various subsequent periods.

In general, management believes that the realization of its deferred tax assets is more likely than not based on the expectations as to future taxable income; therefore, there was no deferred tax valuation allowance at September 30, 2025, or 2024 with the exception of the state cumulative net operating loss carryforwards discussed above.

The table below reconciles the statutory federal income tax expense and rate to the effective income tax expense and rate for the fiscal years presented. The Company's effective tax rate is calculated by dividing income tax expense by income before income tax expense.

(Dollars in thousands)	Fiscal Year Ended September 30,					
	2025		2024		2023	
	Amount	Rate	Amount	Rate	Amount	Rate
Statutory federal income tax expense and rate	\$ 46,841	21.0 %	\$ 45,910	21.0 %	\$ 32,559	21.0 %
Change in tax rate resulting from:						
State income taxes net of federal benefits	7,983	3.6 %	8,678	4.0 %	5,999	3.9 %
162(m) disallowance	1,540	0.7 %	1,874	0.9 %	919	0.6 %
Tax exempt income	(636)	(0.3)%	(690)	(0.3)%	(783)	(0.5)%
General business credits	(20,773)	(9.3)%	(21,132)	(9.7)%	(28,633)	(18.5)%
Life insurance redemption	3,116	1.4 %	—	— %	—	— %
Other, net	(1,805)	(0.8)%	(532)	(0.2)%	(474)	(0.3)%
Income tax expense	<u>\$ 36,266</u>	<u>16.3 %</u>	<u>\$ 34,108</u>	<u>15.7 %</u>	<u>\$ 9,587</u>	<u>6.2 %</u>

The Company uses the flow through method of accounting for investment tax credits under which the credits are recognized as a reduction to income tax expense in the period in which the credit arises. During the fiscal years ended September 30, 2025, 2024, and 2023, \$19.7 million, \$19.7 million, and \$27.4 million in investment tax credits were recognized as a reduction to income tax expense, respectively.

The Company's tax reserves reflect management's judgment as to the resolution of the issues involved if subject to judicial review. While the Company believes that its reserves are adequate to cover reasonably expected tax risks, there can be no assurance that, in all instances, an issue raised by a tax authority will be resolved at a financial cost that does not exceed its related reserve. With respect to these reserves, the Company's income tax expense would include (i) any changes in tax reserves arising from material changes during the period in the facts and circumstances surrounding a tax issue, and (ii) any difference from the Company's tax position as recorded in the Consolidated Financial Statements and the final resolution of a tax issue during the period.

The tax years ended September 30, 2022 and later remain subject to examination by the Internal Revenue Service. For state purposes, the tax years ended September 30, 2022 and later remain open for examination, with few exceptions.

A reconciliation of the beginning and ending balances for liabilities associated with unrecognized tax benefits follows:

(Dollars in thousands)	September 30, 2025	September 30, 2024
Balance at beginning of fiscal year	\$ 577	\$ 521
Additions (reductions) for tax positions related to prior years	(78)	56
Balance at end of fiscal year	<u>\$ 499</u>	<u>\$ 577</u>

The total amount of unrecognized tax benefits that, if recognized, would impact the effective rate was \$499,000 as of September 30, 2025. The Company recognizes interest related to unrecognized tax benefits as a component of income tax expense. The amount of accrued interest related to unrecognized tax benefits was \$57,000 as of September 30, 2025. The Company does not anticipate any significant change in the total amount of unrecognized tax benefits within the next 12 months.

## NOTE 15. CAPITAL REQUIREMENTS AND RESTRICTIONS ON RETAINED EARNINGS

The Company and the Bank are required to comply with the regulatory capital rules administered by federal banking agencies (the "Capital Rules"). Under the Capital Rules and the regulatory framework for prompt corrective action, the Company and Bank must meet specific capital guidelines that involve quantitative measures of the Company's and Bank's assets, liabilities and certain off-balance-sheet items as calculated under regulatory accounting practices. The Company's and Bank's capital amounts and classifications are also subject to qualitative judgments by regulators about components, risk weightings, and other factors.

The Capital Rules require the Company and the Bank to maintain minimum ratios (set forth in the table below) of total risk-based capital and Tier 1 capital (as defined in the regulations) to risk-weighted assets (as defined), and a leverage ratio consisting of Tier 1 capital (as defined) to average assets (as defined). At September 30, 2025, the Company and the Bank exceeded federal regulatory minimum capital requirements to be classified as well-capitalized under the prompt corrective action requirements. The Company and the Bank took the AOCI opt-out election; under the rule, non-advanced approach banking organizations were given a one-time option to exclude certain AOCI components.

The table below includes certain non-GAAP financial measures that are used by investors, analysts and bank regulatory agencies to assess the capital position of financial services companies. Management reviews these measures along with other measures of capital as part of its financial analyses and has included this non-GAAP financial information, and the corresponding reconciliation to total equity.

	Company	Bank	Minimum to be Adequately Capitalized Under Prompt Corrective Action Provisions	Minimum to be Well Capitalized Under Prompt Corrective Action Provisions
<b>September 30, 2025</b>				
Tier 1 leverage capital ratio	9.79 %	10.00 %	4.00 %	5.00 %
Common equity Tier 1 capital ratio	12.70	13.23	4.50	6.50
Tier 1 capital ratio	12.95	13.23	6.00	8.00
Total capital ratio	14.27	14.19	8.00	10.00
<b>September 30, 2024</b>				
Tier 1 leverage capital ratio	9.05 %	9.22 %	4.00 %	5.00 %
Common equity Tier 1 capital ratio	12.26	12.78	4.50	6.50
Tier 1 capital ratio	12.52	12.78	6.00	8.00
Total capital ratio	14.14	14.03	8.00	10.00

The following table provides a reconciliation of the amounts included in the table above for the Company.

(Dollars in thousands)	Standardized Approach <sup>(1)</sup>	
	September 30, 2025	September 30, 2024
<b>Total stockholders' equity</b>	<b>\$ 857,454</b>	<b>\$ 822,189</b>
<b>Adjustments:</b>		
LESS: Goodwill, net of associated deferred tax liabilities	285,158	296,105
LESS: Certain other intangible assets	18,077	18,018
LESS: Net deferred tax assets from operating loss and tax credit carry-forwards	5,733	15,624
LESS: Net unrealized (losses) on available for sale securities	(143,190)	(152,328)
LESS: Noncontrolling interest	(591)	(277)
ADD: Adoption of Accounting Standards Update 2016-13	1,788	3,576
<b>Common Equity Tier 1<sup>(1)</sup></b>	<b>694,055</b>	<b>648,623</b>
Long-term borrowings and other instruments qualifying as Tier 1	13,661	13,661
Tier 1 minority interest not included in common equity Tier 1 capital	(307)	(150)
<b>Total Tier 1 capital</b>	<b>707,409</b>	<b>662,134</b>
Allowance for credit losses	52,455	66,140
Subordinated debentures, net of issuance costs	19,796	19,693
<b>Total capital</b>	<b>\$ 779,660</b>	<b>\$ 747,967</b>

<sup>(1)</sup> Capital ratios were determined using the Basel III capital rules that became effective on January 1, 2015. Basel III revised the definition of capital, increased minimum capital ratios, and introduced a minimum common equity tier 1 capital ratio; those changes were fully phased in through the end of 2021.

The Company and the Bank are required to maintain a capital conservation buffer above the minimum risk-based capital requirements in order to avoid certain limitations on capital distributions, stock repurchases and discretionary bonus payments to executive officers. The capital conservation buffer is exclusively composed of Common Equity Tier 1 capital, and it applies to each of the three risk-based capital ratios but not the leverage ratio. The required Common Equity Tier 1 risk-based, Tier 1 risk-based and total risk-based capital ratios with the buffer are currently 7.0%, 8.5% and 10.5%, respectively.

Based on current and expected continued profitability and subject to continued access to capital markets, we believe that the Company and the Bank will continue to meet the capital conservation buffer of 2.5% in addition to required minimum capital ratios.

#### **NOTE 16. REVENUE FROM CONTRACTS WITH CUSTOMERS**

Topic 606 applies to all contracts with customers unless such revenue is specifically addressed under existing guidance. The table below presents the Company's revenue by operating segment. For additional descriptions of the Company's operating segments, including additional financial information and the underlying management accounting process, see Note 17. Segment Reporting to the Consolidated Financial Statements.

Total noninterest income	227,248	217,107	90,904	71,748	9,948	10,732	328,100	299,587
Revenue	<u>\$ 527,261</u>	<u>\$ 496,717</u>	<u>\$ 276,401</u>	<u>\$ 265,823</u>	<u>\$ 36,232</u>	<u>\$ 34,872</u>	<u>\$ 839,894</u>	<u>\$ 797,412</u>

<sup>(1)</sup> These revenues are not within the scope of Topic 606. Additional details are included in other footnotes to the accompanying financial statements. The scope of Topic 606 explicitly excludes net interest income as well as many other revenues for financial assets and liabilities, including loans, leases, and securities.

Following is a discussion of key revenues within the scope of Topic 606. The Company provides services to customers that have related performance obligations that must be completed to recognize revenue. Revenues are generally recognized immediately upon the completion of the service or over time as services are performed. Any services performed over time generally require that the Company renders services each period; therefore, the Company measures progress in completing these services based upon the passage of time. Revenue from contracts with customers did not generate significant contract assets and liabilities for the fiscal year ended September 30, 2025.

**Refund Transfer Product Fees.** Refund transfer fees are specific to the Partner Solutions business line and reflect product fees offered by the Company through third-party tax preparers and tax preparation software providers where the Company acts as the partnering financial institution. A refund transfer allows a taxpayer to pay tax preparation and filing fees directly from their federal or state government tax refund, with the remainder of the refund being disbursed in accordance with the terms and conditions of the taxpayer agreement, which may include satisfaction of other disbursement obligations before going directly to the taxpayer via check, direct deposit, or prepaid card. Refund transfer fees are recognized by the Company immediately after the taxpayer's refund has been disbursed in accordance with the contract and are based on standalone pricing included within the terms and conditions. Certain expenses to tax preparation software providers are netted with refund transfer fee income as the Company is considered the agent in these contractual relationships. All refund transfer fees are recorded within the Consumer reporting segment.

**Card and Deposit Fees.** Card fees relate to the Partner Solutions business line and consist of income from prepaid cards and merchant services, including interchange fees from prepaid cards processed through card association networks, merchant services and other card related services. Interchange rates are generally set by card association networks based on transaction volume and other factors. Since interchange fees are generated by cardholder activity, the Company recognizes the income as transactions occur. Fee income for merchant services and other card related services reflect account management and transaction fees charged to merchants for processing card association network transactions. The associated income is recognized as transactions occur or as services are performed. For the Company's internally managed prepaid card programs, fees are based on standalone pricing within the terms and conditions of the cardholder agreement. The Company is considered the principal of these relationships resulting in all fee income being presented on a gross basis within the Consolidated Statement of Operations. For the Company's sponsorship prepaid card programs where a third-party is considered the Program Manager, the fees are based on standalone pricing within the terms and conditions of the Program Agreement. For these relationships, the Company is considered the agent and certain expenses with the Program Manager, networks and associations are netted with card fee revenue. All card fee income is included in the Consumer reporting segment.

Deposit fees relate to the Partner Solutions and Commercial Finance business lines and consist of income from banking and deposit-related services, including account services, overdraft protection, and wire transfers. Fee income for account services is recognized over the course of the month as the performance obligation is satisfied. Fee income for overdraft protection and wire transfers is recognized at the point in time when such event occurs. For partner solutions, the fees for account services and overdraft protection are based on standalone pricing within the terms and conditions of the Program Agreement with the sponsorship partner. For these relationships, the Company is considered the agent and certain expenses with the partner are netted with deposit fee revenue. For Commercial Finance, fees for wire transfers are based on standalone pricing within the terms and conditions of the customer deposit agreement. Bank and deposit fees for the Partner Solutions and Commercial Finance business lines are included in the Consumer and Commercial reporting segments, respectively. Also included within Card and Deposit Fees for the Consumer reporting segment are monthly servicing fees the Company recognizes for off-balance sheet custodial deposits. This fee income is for services the Bank performs to maintain records of cardholder funds placed at one or more third-party banks insured by the FDIC. The servicing fee is typically reflective of the EFFR.

#### **NOTE 17. SEGMENT REPORTING**

An operating segment is generally defined as a component of a business for which discrete financial information is available and whose results are reviewed by the chief operating decision-maker ("CODM") to appropriately allocate entity resources and evaluate performance. The Company has identified the CODM to be the Chief Executive Officer ("CEO") of Pathward Financial, Inc.

Operating segments are aggregated into reportable segments if certain criteria are met. The Company reports its results of operations through the following three business segments: Consumer, Commercial, and Corporate Services/Other. The Company evaluated the listed operating segments based on their business processes, consumers, and variety of economic characteristics. The Partner Solutions business line is reported in the Consumer segment. The Commercial Finance business line is reported in the Commercial segment. The Corporate Services/Other segment includes certain shared services as well as treasury related functions such as the investment portfolio, warehouse finance, wholesale deposits, and borrowings.

The CODM reviews the performance and aggregates resources based on various factors but primarily through the evaluation of income (loss) before income tax expense. The significant expenses that have been deemed meaningful to the segments and regularly reported to the CODM are summarized below. These expenses are directly attributable to each of the three business segments. Shared services are an area of focus for the Company and as such, the table below includes the significant selling, general, and administrative ("SG&A") allocations of such shared services.

The following tables present segment data for the Company:

	Fiscal Year Ended September 30, 2025			
(Dollars in thousands)	Consumer	Commercial	Corporate Services/ Other	Total
Interest and dividend income	\$ 317,686	\$ 307,348	\$ (101,642)	\$ 523,392

 Total assets	445,813	4,183,624	2,873,964	7,503,401
Total goodwill	87,145	222,360	—	309,505
Total deposits	6,376,467	5,958	206,757	6,589,182

<sup>(1)</sup> Consumer lending program expenses relate to the excess interest that gets passed to our partners for loans originated and retained by the Company under the various partner programs. Refer to Derivative Instruments in Note 1. Significant Accounting Policies for additional information on these expenses.

Expenses included in the Other Expenses line represent insignificant expenses to the various operating segments such as marketing, data processing, meals and travel, communications, office supplies, seminars and training, dues and subscriptions, regulatory expense, bank service charges, fraud and program losses, charitable giving, and intangible amortization that are included in income (loss) before income tax expense.

In addition, interest expense includes intercompany interest paid through allocations to appropriately fund each of the operating segments. Management uses funds transfer pricing methodology to allocate the inter-segment interest appropriately, and as such, has determined the allocation to properly represent the interest rate environment at the Company.

## NOTE 18. PARENT COMPANY FINANCIAL STATEMENTS

Presented below are the condensed financial statements for the parent company, Pathward Financial, Inc.

### Condensed Statements of Financial Condition

(Dollars in thousands)

#### ASSETS

	September 30, 2025	September 30, 2024

**NOTE 20. FAIR VALUES OF FINANCIAL INSTRUMENTS**

ASC 820, *Fair Value Measurements* defines fair value, establishes a framework for measuring the fair value of assets and liabilities using a hierarchy system and requires disclosures about fair value measurement. It clarifies that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts.

The fair value hierarchy is as follows:

Level 1 Inputs - Valuation is based upon quoted prices for identical instruments traded in active markets that the Company has the ability to access at measurement date.

Level 2 Inputs - Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which significant assumptions are observable in the market.

Level 3 Inputs - Valuation is generated from model-based techniques that use significant assumptions not observable in the market and are used only to the extent that observable inputs are not available. These unobservable assumptions reflect the Company's own estimates of assumptions that market participants would use in pricing the asset or liability.

There were no transfers between levels of the fair value hierarchy for the fiscal years ended September 30, 2025 or 2024.

*Debt Securities AFS and HTM.* Debt securities AFS are recorded at fair value on a recurring basis and debt securities HTM are carried at amortized cost.

The fair value of debt securities AFS, categorized primarily as Level 2, is recorded using prices obtained from independent asset pricing services that are based on observable transactions, but not quoted markets. Management reviews the prices obtained from independent asset pricing services for unusual fluctuations and compares to current market trading activity.

*Equity Securities.* Marketable equity securities and certain non-marketable equity securities are recorded at fair value on a recurring basis. The fair values of marketable equity securities are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

*Derivatives.* The Bank's use of derivatives is limited to the Consumer Lending Programs. Under these Programs, the Bank has an agreement with a third party to originate consumer loans that are included in the Bank's held for investment or held for sale portfolios. The third party provides a target return to the Company on the portfolio of loans retained by the Bank and all interest received from borrowers on such loans above the target return and after all charge-offs have been covered is paid to the third party as excess interest and servicing. The primary drivers of the derivative value include the Company's ability to settle the loans at par value and the third party partners' rights of first refusal to purchase loans that the Company intends to sell. The Company estimates the fair value of the derivative instrument using a market approach considering primarily the average interest rate on the underlying loans and the credit spread relative to the risk-free rate in order to validate that the value of the loans is in excess of par and thus the derivative could be settled by either party at no cost. The Company considers this derivative instrument to be within Level 3 of the fair value hierarchy, as it utilizes inputs from sales or securitization transactions involving similar loans. As of September 30, 2025 and September 30, 2024, the Company determined the derivatives had no fair value, respectively, thus eliminating the need for further disclosures regarding Level 3 inputs as outlined in ASC 820.

The following table summarizes the fair values of debt securities AFS and equity securities as they are measured at fair value on a recurring basis.

(Dollars in thousands)	Total	Level 1	Level 2	Level 3
<b>September 30, 2025</b>				
Debt securities AFS				
Corporate securities	\$ 21,250	\$ —	\$ 21,250	—

Non-marketable equity securities <sup>(2)</sup>	\$ 11,828	\$ —	\$ —	—

<sup>(1)</sup> Equity securities at fair value are included within other assets on the Consolidated Statements of Financial Condition at September 30, 2025 and September 30, 2024.

<sup>(2)</sup> Consists of certain non-marketable equity securities that are measured at fair value using NAV as a practical expedient and are excluded from the fair value hierarchy.

*Loans and Leases.* The Company does not record loans and leases at fair value on a recurring basis. However, if a loan or lease is individually evaluated for risk of credit loss and repayment is expected to be solely provided by the values of the underlying collateral, the Company measures fair value on a nonrecurring basis. Fair value is determined by the fair value of the underlying collateral less estimated costs to sell. The fair value of the collateral is determined based on the internal estimates and/or assessment provided by third-party appraisers and the valuation relies on discount rates ranging from 3% to 31%.

The following table summarizes the assets of the Company that are measured at fair value in the Consolidated Statements of Financial Condition on a nonrecurring basis:

(Dollars in thousands)	Total	Level 1	Level 2	Level 3	
<b>September 30, 2025</b>					
Loans and leases, net individually evaluated for credit loss					
Commercial finance	\$ 32,321	\$ —	\$ —	\$ 32,321	
Total loans and leases, net individually evaluated for credit loss	32,321	—	—	32,321	
<b>Total</b>	<b>\$ 32,321</b>	<b>\$ —</b>	<b>\$ —</b>	<b>\$ 32,321</b>	
<b>September 30, 2024</b>					
Loans and leases, net individually evaluated for credit loss					
Commercial finance	\$ 7,652	\$ —	\$ —	\$ 7,652	
Total loans and leases, net individually evaluated for credit loss	7,652	—	—	7,652	
<b>Total</b>	<b>\$ 7,652</b>	<b>\$ —</b>	<b>\$ —</b>	<b>\$ 7,652</b>	
<b>Quantitative Information About Level 3 Fair Value Measurements</b>					
(Dollars in thousands)	Fair Value at September 30, 2025	Fair Value at September 30, 2024	Valuation Technique	Unobservable Input	Range of Inputs
Loans and leases, net individually evaluated for credit loss	\$ 32,321	7,652	Market approach	Appraised values <sup>(1)</sup>	3% - 31%

<sup>(1)</sup> The Company generally relies on external appraisers to develop this information. Management reduced the appraised value by estimated selling costs and other inputs in a range of 3% to 31%.

Management discloses the estimated fair value of financial instruments, including assets and liabilities on and off the Consolidated Statements of Financial Condition, for which it is practicable to estimate fair value. These fair value estimates were made at September 30, 2025 and 2024 based on relevant market information and information about financial instruments. Fair value estimates are intended to represent the price at which an asset could be sold or a liability could be settled. However, since there is no active market for certain financial instruments of the Company, the estimates of fair value are subjective in nature, involve uncertainties, and include matters of significant judgment. Changes in assumptions as well as tax considerations could significantly affect the estimated values. Accordingly, the aggregate fair value estimates are not intended to represent the underlying value of the Company, on either a going concern or a liquidation basis.

The following tables present the carrying amount and estimated fair value of the financial instruments held by the Company:

(Dollars in thousands)	September 30, 2025				
	Carrying Amount	Estimated Fair Value	Level 1	Level 2	Level 3
<b>Financial assets</b>

Accrued interest payable	571	571	571	—	—

<sup>(1)</sup> Equity securities at fair value are included within other assets on the Consolidated Statement of Financial Condition at September 30, 2024.

<sup>(2)</sup> Includes certain non-marketable equity securities that are measured at fair value using NAV per share (or its equivalent) as a practical expedient and are excluded from the fair value hierarchy.

The following sets forth the methods and assumptions used in determining the fair value estimates for the Company's financial instruments at September 30, 2025 and 2024.

#### **CASH AND CASH EQUIVALENTS**

The carrying amount of cash and short-term investments is assumed to approximate the fair value.

#### **DEBT SECURITIES AVAILABLE FOR SALE AND EQUITY SECURITIES**

Fair values for debt securities available for sale are based on quoted prices of similar securities on nationally recognized securities exchanges, or matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities, but rather by relying on the securities' relationship to other benchmark quoted securities. Fair values for marketable equity securities are based on unadjusted quoted prices from active markets in which the security is traded. Non-marketable equity securities are measured at fair value using NAV per share (or its equivalent) as a practical expedient.

#### **LOANS HELD FOR SALE**

Loans held for sale are carried at the lower of amortized cost or fair value, where fair value reflects the amount a willing market participant would pay for the loan. The Company classifies SBA/USDA loans held for sale as Level 2 in the fair value hierarchy as there is an active secondary market in which these loans are exchanged. Consumer loans held for sale are classified as Level 2 in the fair value hierarchy as the price at which these loans are sold are dictated by terms of the Program Agreements with consumer lending partners.

#### **LOANS AND LEASES**

The fair values of loans and leases were estimated using an exit price methodology. The exit price estimation of fair value is based on the present value of expected cash flows, which are based on the contractual terms of the loans, adjusted for prepayments and a discount rate based on the relative risk of the cash flows. Other considerations include the loan type, remaining life of the loan and credit risk.

#### **FEDERAL RESERVE BANK AND FEDERAL HOME LOAN BANK STOCKS**

The fair value of FRB and FHLB stock is assumed to approximate book value since the Company is only able to redeem this stock at par value.

#### **ACCRUED INTEREST RECEIVABLE**

The carrying amount of accrued interest receivable is assumed to approximate the fair value.

#### **DEPOSITS**

With the exception of time certificate deposits and wholesale deposits, the carrying values of deposits are assumed to approximate fair value since deposits are immediately withdrawable without penalty. The fair value of time certificate deposits and wholesale certificate of deposits are estimated using a discounted cash flows calculation that applies the FHLB Des Moines curve to aggregated expected maturities of time deposits.

#### **FEDERAL HOME LOAN BANK ADVANCES**

The fair value of such advances was estimated by discounting the expected future cash flows using current interest rates for advances with similar terms and remaining maturities.

#### **SUBORDINATED DEBENTURES AND OTHER BORROWINGS**

The fair value of these instruments was estimated by discounting the expected future cash flows using derived interest rates approximating market over the contractual maturity of such borrowings.

#### **ACCRUED INTEREST PAYABLE**

The carrying amount of accrued interest payable is assumed to approximate the fair value.

## **LIMITATIONS**

Fair value estimates are made at a specific point in time and are based on relevant market information about the financial instrument. Additionally, fair value estimates are based on existing on- and off-balance sheet financial instruments without attempting to estimate the value of anticipated future business, customer relationships and the value of assets and liabilities that are not considered financial instruments. These estimates do not reflect any premium or discount that could result from offering the Company's entire holdings of a particular financial instrument for sale at one time. Furthermore, since no market exists for certain of the Company's financial instruments, fair value estimates may be based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with a high level of precision. Changes in assumptions as well as tax considerations could significantly affect the estimates. Accordingly, based on the limitations described above, the aggregate fair value estimates are not intended to represent the underlying value of the Company, on either a going concern or a liquidation basis.

## **NOTE 21. SUBSEQUENT EVENTS**

Management has evaluated subsequent events that occurred after September 30, 2025. During this period, up to the filing date of this Annual Report on Form 10-K, management identified the following subsequent event:

- On September 26, 2025, the Company entered into an agreement to sell a portion of its consumer finance loan portfolio to a third party. The transaction closed on October 3, 2025. As part of the transaction, \$115.1 million of consumer finance loans were sold, and there was no gain or loss associated with the sale of the loans.

### **Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure.**

None.

### **Item 9A. Controls and Procedures.**

#### **EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES**

Management, under the direction of its Chief Executive Officer and Chief Financial Officer, is responsible for maintaining disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "1934 Act")) that are designed to ensure that information required to be disclosed in reports filed or submitted under the 1934 Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and that such information is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures.

In connection with the preparation of this Annual Report on Form 10-K, management evaluated the Company's disclosure controls and procedures. The evaluation was performed under the direction of the Company's Chief Executive Officer and Chief Financial Officer to determine the effectiveness, as of September 30, 2025, of the design and operation of the Company's disclosure controls and procedures. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of September 30, 2025, the Company's disclosure controls and procedures were not designed effectively to ensure timely alerting of material information relating to the Company required to be included in the Company's periodic SEC filings. This conclusion was reached as a result of the material weakness in internal control over financial reporting described in Item 9A of Amendment No. 1 to the Annual Report on Form 10-K/A for the year ended September 30, 2024 filed with the SEC on August 29, 2025.

Notwithstanding the conclusion by our management, including our Chief Executive Officer and Chief Financial Officer, that our disclosure controls and procedures were not effective as of September 30, 2025, and notwithstanding the material weakness in our internal control over financial reporting, management, including our Chief Executive Officer and Chief Financial Officer, believes that the consolidated financial statements included in this Form 10-K fairly present, in all material respects, the Company's consolidated financial position, results of operations, and cash flows as of and for the periods presented, in accordance with U.S. GAAP.

## **MANAGEMENT'S ANNUAL REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

The Company's management is responsible for establishing and maintaining effective internal control over financial reporting. The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP. The Company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Company's management and directors; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company assets that could have a material effect on the financial statements.

Management assessed the effectiveness of the Company's internal control over financial reporting as of September 30, 2025, based on the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in "Internal Control Integrated Framework (2013)." Based on the presence of a material weakness, our management concluded that our internal control over financial reporting was not effective as of September 30, 2025.

The effectiveness of the Company's internal control over financial reporting as of September 30, 2025, has been audited by Crowe LLP, the independent registered public accounting firm that also has audited the Company's Consolidated Financial Statements included in this Annual Report on Form 10-K. Crowe LLP's attestation report on the Company's internal controls over financial reporting appears below.

A material weakness exists when there is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement in the Company's annual or interim financial statements will not be prevented or detected on a timely basis.

In connection with management's assessment of the Company's internal control over financial reporting described above, management has identified the following material weakness:

- The Company did not design and maintain effective internal control activities for evaluating the technical accounting and financial reporting for certain consumer lending program agreements in the Consumer Solutions business, including the continued application of U.S. GAAP to such transactions.

As a result, certain amounts included in interest income, non-interest income and expense, and the related balance sheet accounts were not recognized in accordance with U.S. GAAP, which required a restatement of the Company's audited consolidated financial statements as of the fiscal years ended September 30, 2024 and 2023, and for each year in the three fiscal year period ended September 30, 2024 contained in its Annual Reports on Form 10-K, and its unaudited consolidated financial statements as of and for the interim periods ended December 31, 2024, 2023, 2022, and 2021, March 31, 2024, 2023, and 2022, and June 30, 2024, 2023, and 2022 contained in its Quarterly Reports on Form 10-Q, which was completed through filing of the Form 10-K/A on August 29, 2025 and subsequent filing of the Form 10-Q/A on September 3, 2025.

## **INHERENT LIMITATIONS ON THE EFFECTIVENESS OF CONTROLS**

Any control system, no matter how well designed and operated, can provide only reasonable (not absolute) assurance that its objectives will be met. Furthermore, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in a cost-effective control system, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected.

## **REMEDIATION PLAN AND STATUS**

The material weakness cannot be considered remediated until applicable controls have been designed, implemented, have operated for a sufficient period of time and management has concluded, through testing, that these controls are operating effectively. Although we have not remediated these control deficiencies as of September 30, 2025, management, under the oversight of the Audit Committee, has made and continues to make progress towards remediation.

As part of our commitment to strengthening our internal control over financial reporting, management has taken certain measures including the following to remediate the material weakness:

- The Company engaged a third-party technical accounting consultant to assist with the identification, assessment and accounting and financial reporting impacts for certain consumer lending program agreements in the Consumer Solutions business; and
- Designed and implemented a control enhancement over the periodic review and validation of accounting policies and accounting treatment for certain consumer lending program agreements in the Consumer Solutions business to ensure both the initial and continuing compliance with relevant U.S. GAAP, including determining if engagement of a third-party technical accounting consultant is necessary.

We believe that the actions outlined above will remediate the material weakness once a sufficient period of time has passed for management to conclude, through testing, that these controls are operating effectively. We will continue to assess the effectiveness of our internal control over financial reporting and have taken steps to remediate the material weakness as expeditiously as possible.

#### **CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING**

Management conducted an evaluation of the Company's internal control over financial reporting to determine whether any changes occurred during the three months ended September 30, 2025 that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting. Based on this evaluation, management concluded that, as of the end of the period covered by this report, other than described above, there have not been any changes in the Company's internal controls over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the 1934 Act) during the fiscal fourth quarter to which this report relates that could have materially affected the Company's internal controls over financial reporting.

#### **Item 9B. Other Information.**

##### **Adoption or Termination of Trading Arrangements by Directors and Executive Officers**

During the fiscal quarter ended September 30, 2025, none of our directors or officers (as defined in Rule 16a-1(f) of the 1934 Act) informed us of the adoption or termination of any "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as those terms are defined in Item 408 of Regulation S-K.

#### **Item 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections.**

Not applicable.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Stockholders and the Board of Directors of Pathward Financial, Inc.  
Sioux Falls, South Dakota

### Opinion on Internal Control over Financial Reporting

We have audited Pathward Financial, Inc. and Subsidiaries' (the "Company") internal control over financial reporting as of September 30, 2025, based on criteria established in Internal Control – Integrated Framework: (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In our opinion, because of the effects of the material weakness discussed in the following paragraph, the Company has not maintained, in all material respects, effective internal control over financial reporting as of September 30, 2025, based on criteria established in Internal Control – Integrated Framework: (2013) issued by COSO.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis. The following material weakness has been identified and included in Management's Annual Report on Internal Control over Financial Reporting:

- The Company did not design and maintain effective internal control activities for evaluating the technical accounting and financial reporting for certain consumer lending program agreements in the Consumer Solutions business, including the continuing application of U.S. GAAP to such transactions.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) ("PCAOB"), the consolidated statements of financial condition of the Company as of September 30, 2025 and 2024, the related consolidated statements of operations, comprehensive income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended September 30, 2025, and the related notes (collectively referred to as the "financial statements") and our report dated November 25, 2025 expressed an unqualified opinion. We considered the material weakness identified above in determining the nature, timing, and extent of audit procedures applied in our audit of the 2025 financial statements, and this report on Internal Control over Financial Reporting does not affect such report on the financial statements.

### Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

### **Definition and Limitations of Internal Control Over Financial Reporting**

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## PART III

### **Item 10. Directors, Executive Officers and Corporate Governance.**

#### **Directors**

Information concerning directors of the Company required by this item will be included under the captions "Election of Directors" and "Stockholder Proposals For The Fiscal Year 2027 Annual Meeting" in the Company's definitive Proxy Statement for the Annual Meeting of Stockholders to be held on February 24, 2026, a copy of which will be filed no later than 120 days after September 30, 2025 (the "2026 Proxy Statement"), and is incorporated herein by reference.

#### **Executive Officers**

Information concerning the executive officers of the Company required by this item will be included under the captions "Executive Officers" and "Election of Directors" in the 2026 Proxy Statement and is incorporated herein by reference.

#### **Compliance with Section 16(a)**

Information, if applicable, required by this item regarding compliance with Section 16(a) of the Exchange Act will be included under the caption "Delinquent Section 16(a) Reports" in the Company's 2026 Proxy Statement and is incorporated herein by reference.

#### **Audit Committee and Audit Committee Financial Expert**

Information regarding the audit committee of the Company's Board of Directors will be included under the caption "Committees of the Board" in the Company's 2026 Proxy Statement and is incorporated herein by reference.

#### **Code of Business Conduct**

Information regarding the Company's Code of Business Conduct will be included under the caption "Corporate Governance" in the Company's 2026 Proxy Statement and is incorporated herein by reference.

#### **Insider Trading Policy**

The Company has an Insider Trading Policy governing the purchase, sale and other dispositions of the Company's securities that applies to all Company personnel, including directors, officers, employees and other covered persons. The Company believes that its Insider Trading Policy is reasonably designed to promote compliance with insider trading laws, rules and regulations and listing standards applicable to the Company. A copy of the Company's Insider Trading Policy is available at Exhibit 19.1 to this Form 10-K.

### **Item 11. Executive Compensation.**

Information concerning executive and director compensation will be included under the captions "Compensation of Directors", "Executive Compensation" and "Compensation Committee Report" in the Company's 2026 Proxy Statement and is incorporated herein by reference.

### **Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.**

#### (a) Security Ownership of Certain Beneficial Owners and Management

The information required by this item will be included under the caption "Stock Ownership Information" in the Company's 2026 Proxy Statement and is incorporated herein by reference.

#### (b) Changes in Control

Management of the Company knows of no arrangements, including any pledge by any persons of securities of the Company, the operation of which may, at a subsequent date, result in a change in control of the Registrant.

(c) Equity Compensation Plan Information

The Company previously maintained the Pathward Financial, Inc. 2002 Omnibus Incentive Plan, as amended and restated (the "Prior Omnibus Incentive Plan"). On February 27, 2024, the shareholders of the Company voted to approve the Pathward Financial, Inc. 2023 Omnibus Incentive Plan (the "Plan"). The Plan permits the granting of various types of awards including but not limited to nonvested (restricted) shares and performance share units ("PSUs") to certain officers and directors of the Company. The table below presents information on the Company's equity compensation plans as of September 30, 2025, as required by SEC rules.

Plan Category	(a) Number of securities to be issued under outstanding options, warrants and rights <sup>(1)</sup> (#)	(b) Weighted-average exercise price of outstanding options, warrants and rights <sup>(2)</sup> (\$)	(c) Number of shares remaining for future issuance under equity compensation plans (excluding securities reflected in column (a)) (#)
Equity compensation plans approved by stockholders	220,683	N/A	832,372
Equity compensation plans not approved by stockholders	—	—	—
<b>Total</b>	<b>220,683</b>	<b>N/A</b>	<b>832,372</b>

<sup>(1)</sup> Consists of outstanding performance share units awarded under both the prior 2002 Omnibus Incentive Plan and the current 2023 Omnibus Incentive Plan, reflected based on the assumption that target performance is probable.

<sup>(2)</sup> Performance share units do not have an exercise price and are delivered without any payment or consideration.

For more information on the Company's equity compensation plans, see Note 13. Stock Compensation to the "Notes to Consolidated Financial Statements," which is included in Part II, Item 8 "Financial Statements and Supplementary Data" of this Annual Report on Form 10-K.

**Item 13. Certain Relationships and Related Transactions, and Director Independence.**

The information required by this item will be included under the captions "Election of Directors," "Committees of the Board", "Related Person Transactions" and "Corporate Governance" in the Company's 2026 Proxy Statement and is incorporated herein by reference.

**Item 14. Principal Accountant Fees and Services.**

The information required by this item will be included under the captions "Independent Registered Public Accounting Firm Fees" and "Pre-Approval Policy" in the Company's 2026 Proxy Statement and is incorporated herein by reference.

The Independent Registered Public Accounting Firm is Crowe LLP (Public Company Accounting Oversight Board Firm ID No. 173) located in Chicago, Illinois.

## PART IV

### Item 15. Exhibits and Financial Statement Schedules.

The following is a list of documents filed as Part of this report:

**(a) Financial Statements:**

The following financial statements are included under Part II, Item 8 of this Annual Report on Form 10-K:

1. Report of Independent Registered Public Accounting Firm.
2. Consolidated Statements of Financial Condition as of September 30, 2025 and 2024.
3. Consolidated Statements of Operations for the Fiscal Years Ended September 30, 2025, 2024, and 2023.
4. Consolidated Statements of Comprehensive Income for the Fiscal Years ended September 30, 2025, 2024, and 2023.
5. Consolidated Statements of Changes in Stockholders' Equity for the Fiscal Years Ended September 30, 2025, 2024, and 2023.
6. Consolidated Statements of Cash Flows for the Fiscal Years Ended September 30, 2025, 2024, and 2023.
7. Notes to Consolidated Financial Statements.

**(b) Exhibits:**

Exhibit Number	Description
†2.1	Asset Purchase and Sale Agreement dated August 28, 2024, among Pathward, N.A., as seller, and AFS IBEX Financial Services, LLC as Purchaser and Honor Capital Holdings, LLC as Guarantor, filed on August 29, 2024 as an exhibit to the Registrant's Current Report on Form 8-K, is incorporated herein by reference.

**CERTIFICATION PURSUANT TO  
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Brett L. Pharr, certify that:

1. I have reviewed this Annual Report on Form 10-K of Pathward Financial, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report), that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
