## (Reference) Initiatives on Equity Holdings

### Initiatives to Reduce Equity Holdings

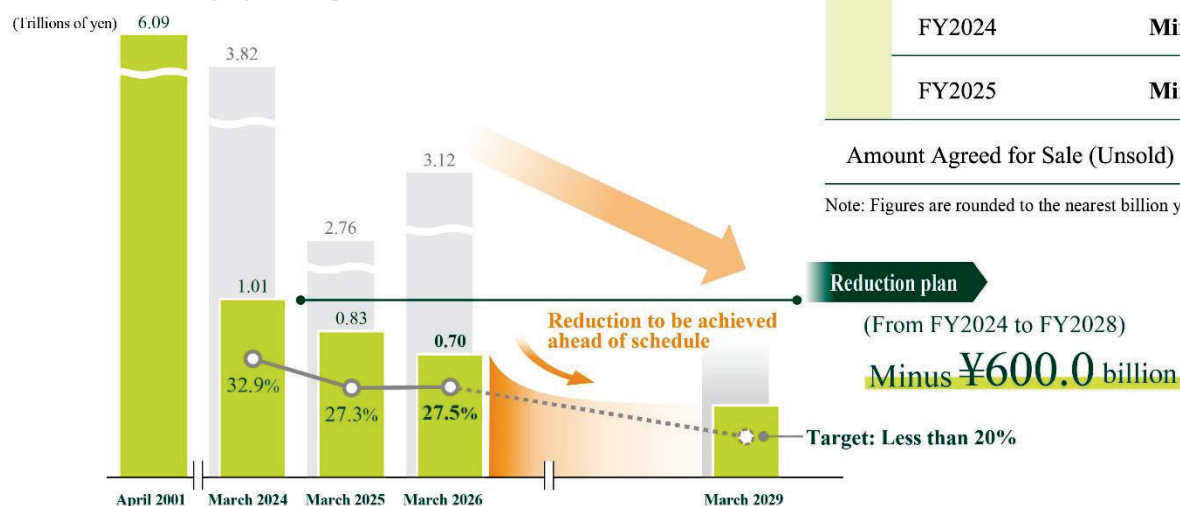

The Group has announced a plan to reduce its equity holdings (formerly referred to as “strategic shareholdings”) and is continuously working to reduce the balance.

We achieved our initial plan to reduce the balance by ¥200.0 billion over the three years from March 31, 2023, which was announced in May 2023, in September 2024, one and a half years ahead of schedule.

Following the achievement of this plan, we announced a new plan in November 2024 to reduce the balance by ¥600.0 billion over the five years from March 31, 2024 (the “Plan”). In line with the Plan, we reduced the balance by ¥185.0 billion in FY2024 and by ¥124.0 billion in FY2025. Achieving the Plan will have reduced the balance of equity holdings by more than 90% on a cumulative basis since the establishment of Sumitomo Mitsui Banking Corporation, the Company’s subsidiary. We aim to reduce the ratio of the fair value of the balance of our equity holdings to the Company’s consolidated net assets to less than 20% during the period of the Medium-Term Management Plan from FY2026 through FY2028.

### Changes in the balance of equity holdings

- Book value of domestic listed stocks (Note 1)
- Fair value of domestic listed stocks (Note 1)
- Fair value of equity holdings (Note 2) / consolidated net assets

Notes: 1. On a consolidated basis, excluding investments after March 2020 for the business alliance purpose.  
 2. Including the balance of deemed held shares as stated in securities reports.

Also, SMBC’s equity holdings of domestically listed companies were 777 issues as of March 31, 2025, however, 265 issues were sold in FY2025 (including partial sales), meaning that as of March 31, 2026, we held 655 issues.

## Policy for Equity Holdings

The Group has published its “Policy for equity holdings” as follows.

- (1) In principle, the Group does not hold the shares of other companies where “the rationale to hold” those shares cannot be recognized. This policy is in place in order to maintain the Group’s financial soundness taking into consideration the standards of globally operating financial institutions and our proactive response to global regulation.
- (2) We determine “the rationale to hold” as a case where the shareholding will contribute to increasing the Group’s corporate value over the medium to long term. We determine this with comprehensive consideration based on (a) the profitability - through an appropriate assessment and understanding of relevant factors, such as associated risks, costs and returns of the holding, (b) the objectives to hold - such as maintaining and strengthening our relationship, capital and business alliance, restructuring support, and (c) other relevant factors.
- (3) We examine “the rationale to hold” on a regular basis. We will sell them by taking into consideration various factors, such as market impact and the financial strategy of the issuers, where an appropriate rationale no longer exists. In the case where we recognize there is good rationale for doing so, we will continue to hold shares.

### Examination Results of “the rationale to hold”

Regarding the examination of “the rationale to hold” concerning equity holdings in FY2025 (to which the stocks held as of March 31, 2025 were subject), as a result of the Company’s and SMBC’s Board of Directors examining all domestic listed stocks, the profitability criteria was found insufficient, with the number of companies at 9.1% and the book value balance at 8.7%, and ultimately stocks for which it was judged that there was no “rationale to hold” had a book value balance of 16.2%. Stocks for which it was judged that there was no “rationale to hold” shall be sold in accordance with the policy for equity holdings and in consideration of various factors such as the influence on the market and the financial strategy of the issuing entity.

- Notes: 1. “No rationality” if unprofitability continued for a certain period of time in a row.  
 2. Revitalization support, business partnerships, etc.  
 3. Taking into consideration various factors, such as market impact and the financial strategy of the issuers

Proposal No. 4 is a proposal proposed by one shareholder.

## **Shareholder Proposal**

### **Proposal No. 4: Partial Amendments to the Articles of Incorporation**

(Revision to the allocation of authority concerning acquisition of corporation's own shares)

#### **1. Details of the proposal**

Article 8 of the existing Articles of Incorporation will be revised as follows.

(Acquisition of Corporation's Own Shares)

Article 8. Unless otherwise provided for in applicable laws and ordinances or by these Articles of Incorporation, when the Corporation acquires for value its own shares, the general meeting of shareholders shall by resolution determine the basic policy concerning the acquisition of the Corporation's own shares, the class of shares to be acquired, the total number of shares that can be acquired, the total acquisition price, and the period when the shares can be acquired.

(2) The Board of Directors may flexibly determine the timing, method, and other specific matters concerning the acquisition of the Corporation's own shares, within the scope of the resolution by the general meeting of shareholders under the foregoing paragraph and in accordance with laws and regulations.

#### **2. Reasons for the proposal**

In the outline of the new Medium-Term Management Plan announced in April, the Company stated that it will enhance shareholder value, improve capital efficiency, and prioritize resource allocation to key strategic areas. However, for the Company, which operates in the financial industry, repurchases of its own shares can impact financial soundness, growth investments, shareholder returns, as well as future capacity as a financial intermediary. The Company's repurchases of its own shares in recent times do not appear limited to supplementary measures, and the framework for their implementation is determined by resolutions of the Board of Directors, based on Article 8 of the existing Articles of Incorporation. Shareholder returns through share repurchases of corporation's own shares are unlike dividends in that there is no direct distribution to shareholders, and the method and timing of their implementation are subject to corporation's discretion. Additionally, shareholder involvement cannot be immediately eliminated from the setting of CET1 ratio targets. This proposal does not reject share repurchases of the Company's own shares themselves nor their flexible execution but delegates specific matters to the Board of Directors, while seeking involvement from the general meeting of shareholders in the basic policy and repurchase framework, in light also of the intent of the Companies Act. Accordingly, a revision to the Articles of Incorporation is appropriate from the perspective of appropriate allocation of authority in regard to key capital allocation, accountability, and supervision by shareholders.

[(Note from the Company) The above "Details of the proposal" and "Reasons for the proposal" were translated from those submitted in Japanese by the proposing shareholder. ]

Opinion of the Board of Directors of the Company: **We oppose this shareholder proposal.**

The Company's basic capital policy is to realize sustainable growth in shareholder value by balancing enhancing shareholder returns and investing for growth, predicated on securing financial soundness. In terms of shareholder returns, dividends are the Company's principal approach, while the Company also implements repurchases of its own shares flexibly and timely.

The Company regards repurchases of its own shares as a key measure for shareholder returns for improving return on equity (ROE) and earnings per share (EPS). In considering and implementing such repurchases, swift and flexible management decisions that take into account the market environment, the Company's financial performance, stock price, and capital position, as well as opportunities for investing for growth are essential.

Accordingly, the Articles of Incorporation of the Company, pursuant to the Companies Act provide that the Company may implement repurchases of its own shares by a resolution of the Board of Directors. The Company believes this framework to be reasonable and appropriate. Moreover, the Company determines and implements flexible repurchases of its own shares based on the situation at the time, up to the distributable amount determined by the Companies Act and under the relevant provisions of our Articles of Incorporation, and provides timely disclosure of the same.

This shareholder proposal seeks to require a resolution by the general meeting of shareholders to determine the basic policy concerning share repurchases, the total number of shares that can be acquired, the total acquisition price, and the period when the shares can be acquired. If, as contemplated by this shareholder proposal, share repurchases were to be subject exclusively to resolutions at general meetings of shareholders, the Company may be unable to implement share repurchases in a timely manner, which would impair the flexibility of our capital policy and could impair the Company's corporate value.

For the reasons above, the Board of Directors opposes the proposed amendments to the Articles of Incorporation.
