

2025 Annual Report
Raising
the bar

About Assurant

Assurant redefines the boundaries of protection—safeguarding and servicing connected devices, homes, automobiles, and commercial equipment in partnership with the world’s most successful brands. As a Fortune 500 company operating in 21 countries, Assurant leads the way in leveraging insights and technology to transform customer connections that build loyalty and drive value.

We operate in North America, Latin America, Europe, and Asia Pacific through two operating segments: Global Lifestyle and Global Housing. Through our Global Lifestyle segment, we provide mobile device solutions, extended service contracts and related services for consumer electronics and appliances, and financial services and other insurance products (referred to as “Connected Living”); and vehicle protection services, commercial equipment services and other related services (referred to as “Global Automotive”). Through our Global Housing segment, we provide lender-placed homeowners, manufactured housing and flood insurance, as well as voluntary manufactured housing, condominium, and homeowners insurance (referred to as “Homeowners”); and renters insurance and other products (referred to as “Renters and Other”).

Disclosures

This Annual Report contains forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Please see “Forward-Looking Statements” on page 4 of the Form 10-K included in this Annual Report.

¹ These measures are non-GAAP financial measures. See Non-GAAP Financial Measures beginning on page 10 of this Annual Report for more information on these non-GAAP financial measures and a reconciliation of such measures to their most directly comparable GAAP measure.

² References to total revenue throughout this Annual Report refer to net earned premiums, fees, and other income.

A Message To Our Shareholders

Assurant's continued growth reflects the strength of our diversified business model and sustained investments in innovation that are transforming our operations and product offerings —supporting partners, driving efficiencies, elevating the customer experience, and creating long-term shareholder value.

2025 was an exceptional year for Assurant. We extended our track record to nine consecutive years of profitable growth, underscoring the durability of our long-term strategy and the resilience of our operating model. Across our diversified portfolio, we delivered momentum by executing on our strategic priorities to deepen relationships with existing partners, win new clients globally, prioritize investment in core markets, and expand into attractive, new markets where we see opportunity for long-term value creation. Throughout the year, our teams demonstrated the focus, discipline, and resilience that differentiate Assurant in the markets we serve.

Our performance was supported by targeted investments in innovation across Global Lifestyle and Global Housing that continue to elevate customer experiences, drive efficiencies across our operations, and strengthen outcomes for partners and their customers while reinforcing the foundation for long-term value creation. In 2025, we also expanded our presence in retail service contracts and multi-appliance protection, laying the operational groundwork to broaden our capabilities and enter adjacent markets. This continued in early 2026 with the launch of Assurant Home Warranty.

At Assurant, our teams are driven to make a meaningful impact, focused on delivering innovative services and capabilities, and showing up every day with a relentless commitment to our clients and their customers.

KEITH DEMMINGS,
Chief Executive Officer

Above all, our results reflect the talent and dedication of our teams and the value of the capabilities and services we deliver. In 2025, Assurant continued to execute at a high level across the enterprise, reinforcing our position as a trusted partner and strengthening our platform for continued outperformance in the years ahead.

What Differentiates Assurant

Assurant's differentiated business-to-business-to-consumer (B2B2C) model remains a defining strength. Our diversified portfolio across business lines and geographies provides resilience through economic cycles and allows us to continue driving innovation. By partnering with leading global brands, we embed our capabilities directly into our clients' ecosystems, creating long-term relationships, while delivering

high-quality protection and service solutions to end consumers.

This seamless integration is made possible by decades of investment in technology, data, and operational capabilities to enhance customer experiences and generate strong financial outcomes at scale. The continued client wins, renewals, and program expansions we saw across Global Lifestyle and Global Housing in 2025 underscored the trust we have earned and the enduring demand for our offerings.

We also differentiate ourselves through disciplined execution. Strategic initiatives in prior years delivered expected returns in 2025, including measurable gains in Connected Living and improved performance in Global Automotive. This ability to invest thoughtfully,

Evolving with Assurant Home Warranty

In early 2026, we leveraged deep market insights, industry-leading protection solutions, and a proven track record of successful channel expansion to launch Assurant Home Warranty. Through a new, long-term relationship with Compass International Holdings, a global real estate services company, Assurant Home Warranty is now available to affiliated agents across participating Compass brands, including Coldwell Banker®, CENTURY 21®, Better Homes and Gardens® Real Estate, ERA®, Corcoran®, and Sotheby's International Realty®.

This launch represents a meaningful evolution of our home protection portfolio into the real estate channel. Building on decades of global warranty experience across mobile, auto, and the home, we are applying our scale, operational discipline, and trusted client relationships to support homeowners, brokerages and real estate professionals. Assurant Home Warranty is designed to simplify a historically complex category, delivering a customer-first claims experience with high-touch support that makes coverage more transparent, reliable, and efficient for homeowners, agents, and brokerages.

Assurant Home Warranty helps buyers manage financial risk while providing sellers and agents with a practical way to attract buyers, support transactions through closing, and protect long-term client relationships. Our purpose-built agent portal designed to fit naturally into workflows increases efficiency, supported by a nationwide service network and dedicated customer care to ensure a dependable and seamless experience.

While we are early in this journey, we see a clear path to scale. By addressing market gaps, delivering exceptional customer experiences, and standing behind our promise to be there when it matters most, Assurant Home Warranty transforms unpredictable home repair expenses into more manageable, predictable costs—providing homeowners with greater financial confidence and peace of mind. home repair expenses into more manageable, predictable costs—providing homeowners with greater financial confidence and peace of mind.

execute effectively, and scale responsibly remains central to Assurant's competitive advantage.

Our People

Assurant's success is driven by the dedication of our people. Across the globe, our diverse workforce of approximately 14,800 employees brings our purpose and values to life every day and demonstrates a relentless commitment to our clients and customers. In 2025, their dedication continued to elevate our market leadership and strengthen our culture of accountability, collaboration, and a drive to make a meaningful impact.

We remain focused on creating an environment where employees can innovate and perform at their highest levels. We are committed to empowering our workforce through continued learning, leadership

In 2025, we increased Adjusted EBITDA by 11% to more than \$1.7 billion, while growing Adjusted EPS by 12% to more than \$22.00, both excluding catastrophes.¹ We are focused on building upon the momentum of the business and Assurant's continued success.

Global Lifestyle

Global Lifestyle delivered adjusted EBITDA growth in 2025, driven by growth from Connected Living and Global Automotive.

Connected Living

In Connected Living, targeted investments made in 2024 supported mid-single digit earnings growth and expansion across several key client programs.

In mobile, we added 1.9 million protected devices through new programs and strategic wins, bringing

We delivered broad-based momentum by executing on our strategic priorities to deepen relationships with existing partners, win new clients globally, prioritize investment in core markets, and expand into attractive, new markets where we see opportunity for long-term value creation.

development, and the thoughtful adoption of technology. In 2025, we continued to expand the use of AI to enhance learning and development opportunities at all levels of the organization, improve processes, and drive a simpler, seamless customer experience. By equipping our teams with the tools, capabilities, and opportunities they need to succeed, we strengthen our ability to deliver exceptional results for our partners and customers worldwide.

I am incredibly proud of what our team accomplished in 2025, including being recognized on Forbes' World's Best Employers list and Fortune's America's Most Innovative Companies list. I'm grateful to our team and excited for the continued innovation and growth we will deliver together in 2026.

Continued Outperformance

Assurant's performance in 2025 extends its record of long-term growth and strong returns. Since 2020, we have increased Adjusted EBITDA by more than \$700 million, excluding catastrophes,¹ representing approximately an 11% compound annual growth rate.

the total number of protected devices globally to more than 66 million. Subscriber growth remained strong, supported by the performance of device protection programs globally. We deepened carrier relationships through new protection offerings, expanded logistics and repair capabilities, and opened a dedicated, state-of-the-art facility co-operated with a major U.S. mobile client.

Beyond mobile, we continued to build momentum in retail extended service contracts and financial services. This included the expansion of appliance and electronics protection programs and growth in card benefits offerings.

Global Automotive

Global Automotive delivered earnings growth in what was a pivotal year for the business. We expanded our presence with national dealer groups, third-party administrators, and international original equipment manufacturers, now protecting 57 million vehicles globally, representing an increase of nearly 2 million year-over-year.

We launched a new partnership with a top dealer group, renewed a key multiyear national dealer partnership, and accelerated growth in heavy equipment and our leased and financed business through multiple new partners and renewals. These actions position the business well for continued momentum entering 2026.

Global Housing

In 2025, our Global Housing business delivered another outstanding year. Building upon the groundwork we laid in 2024, Global Housing Adjusted EBITDA grew double digits, excluding catastrophes,¹ and surpassed \$1 billion, more than doubling since 2022.

Within Homeowners, our lender-placed business

continued to serve an essential function in the U.S. mortgage ecosystem, as homeowners rely on lender-placed insurance to protect their homes. During the year, we renewed four major lender-placed partnerships representing more than 4 million loans tracked and identified opportunities to expand loan counts further in 2026.

Our Renters and Other business also delivered strong results, powered by our technology-enabled services that continue to differentiate Assurant in the marketplace, including our Cover360 platform. We achieved meaningful topline growth, expanded policies in force, signed and renewed key property management company relationships, and onboarded a new renters' portfolio that expands our future growth opportunities.

Executing Strategic Priorities

Translating Strategic Priorities into Business Results

Capital Position

Our 2025 results reflect the power of our diversified Global Lifestyle and Global Housing portfolio, which continues to drive significant cash generation and produced \$925 million in segment dividends. This enabled us to return \$468 million to shareholders, including repurchasing 1.4 million shares of common stock for \$300 million and paying \$168 million in common stock dividends. Additionally, in November, we increased our common stock dividend by 10%, which represented the 21st consecutive year we have raised our dividend since our initial public offering. We are proud of this achievement and are focused on continuing to deliver strong capital returns.

We ended the year with \$887 million of holding company liquidity. This further reinforces our confidence in our strong capital position and robust cash flows.

2026 Outlook

Looking ahead to 2026, we expect increasing momentum in Global Lifestyle and underlying strength in Global Housing to drive strong underlying results³ in the year ahead, with ongoing innovation to better serve our customers.

As we invest in our strategic priorities, including the launch of Assurant Home Warranty, we remain confident in our ability to drive long-term value for our shareholders and other stakeholders. I'd like to thank our talented global workforce, who continue to elevate the customer experience while improving both the ways we operate and the capabilities and services we provide to our clients, reinforcing Assurant's industry leadership.

Keith Demmings

President & Chief Executive Officer

³ Some of the metrics included within the company's outlook are non-GAAP financial measures and the company believes that it cannot, without unreasonable efforts, forecast certain information needed to reconcile to the GAAP measures, the probable significance of which cannot be determined. More information can be found in the Non-GAAP Financial Measures section beginning on page 10 of this Annual Report.

Corporate Governance

Sound corporate governance principles are the foundation upon which investors' trust is built.

These principles are fostered by Assurant's Board of Directors and Management Committee working together and reflected in our Corporate Governance Guidelines and Code of Business Conduct and Ethics to ensure Assurant remains a company of uncompromised integrity and performance.

Non-GAAP Financial Measures

1. Assurant uses Adjusted EBITDA, excluding reportable catastrophes, as an important measure of the company's operating performance. Assurant defines Adjusted EBITDA, excluding reportable catastrophes (which represents individual catastrophic events that generate losses in excess of \$5.0 million, pre-tax, net of reinsurance and client profit sharing adjustments and including reinstatement and other premiums), as net income (or net income from continuing operations), excluding net realized losses (gains) on investments and fair value changes to equity securities, interest expense, provision for income taxes, depreciation expense, amortization of purchased intangible assets, as well as other highly variable or unusual items, including restructuring costs and the loss on a subsidiary held for sale. The company believes this metric provides investors with an important measure of the company's operating performance because it excludes items that do not represent the ongoing operations of the company, and therefore (i) enhances management's and investors' ability to analyze the ongoing operations of its businesses and (ii) facilitates comparisons of its operating performance over multiple periods, including because the amortization expense associated with purchased intangible assets may fluctuate from period to period based on the timing, size, nature and number of acquisitions. It also excludes reportable catastrophes (defined above), which can be volatile. Although the company excludes amortization of purchased intangible assets from Adjusted EBITDA, revenue generated from such intangible assets is included within the revenue in determining Adjusted EBITDA. The comparable GAAP measure is net income (or net income from continuing operations).

(UNAUDITED) (\$ in millions)	Twelve Months					
	2025	2024	2023	2022	2021	2020
GAAP net income from continuing operations	\$ 872.7	\$ 760.2	\$ 642.5	\$ 276.6	\$ 602.9	\$ 519.4

(UNAUDITED) (\$ in millions)	Twelve Months	
	2025	2022
GAAP Global Housing Adjusted EBITDA	\$ 858.7	\$ 246.0
Reportable catastrophes	198.8	171.4
Global Housing Adjusted EBITDA, excluding reportable catastrophes	\$ 1,057.5	\$ 417.4

Non-GAAP Financial Measures **(Continued)**

2. Assurant uses Adjusted earnings, excluding reportable catastrophes, per diluted share as an important measure of the company's stockholder value. Assurant defines Adjusted earnings, excluding reportable catastrophes, per diluted share as (i) net income (or net income from continuing operations), excluding net realized losses (gains) on investments and fair value changes to equity securities, amortization of purchased intangible assets, as well as other highly variable or unusual items, including non-core operations, restructuring costs and the loss on a subsidiary held for sale, plus any dilutive preferred stock dividends and less earnings allocated to participating securities, divided by (ii) the weighted average diluted shares outstanding. The company believes this metric provides investors with an important measure of stockholder value because it excludes items that do not represent the ongoing operations of the company, and therefore (i) enhances management's and investors' ability to analyze the ongoing operations of its businesses and (ii) facilitates comparisons of its operating performance over multiple periods, including because the amortization expense associated with purchased intangible assets may fluctuate from period to period based on the timing, size, nature and number of acquisitions. It also excludes reportable catastrophes (defined above), which can be volatile. Although the company excludes amortization of purchased intangible assets from Adjusted earnings, revenue generated from such intangible assets is included within the revenue in determining Adjusted earnings. The comparable GAAP measure is net income (or net income from continuing operations) per diluted share.

(UNAUDITED)

Twelve Months

FORWARD-LOOKING STATEMENTS

Some statements in “Item 1 – Business” and “Item 7 – Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this Annual Report on Form 10-K for the fiscal year ended December 31, 2025 (this “Report”), including our business and financial plans and any statements regarding our anticipated future financial performance, business prospects, growth and operating strategies and similar matters, may constitute forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. You can identify these statements by the use of words such as “will,” “may,” “can,” “anticipates,” “expects,” “estimates,” “projects,” “intends,” “plans,” “believes,” “targets,” “forecasts,” “potential,” “approximately,” and the negative versions of those words and other words and terms with a similar meaning. Any forward-looking statements contained in this Report are based upon our historical performance and on current plans, estimates and expectations. The inclusion of this forward-looking information should not be regarded as a representation by us or any other person that our future plans, estimates or expectations will be achieved. Our actual results might differ materially from those projected in the forward-looking statements. We undertake no obligation to update or review any forward-looking statement, whether as a result of new information, future events or other developments. For a discussion of the factors that could affect our actual results, see “Item 1A – Risk Factors” and “Item 7 – Management’s Discussion and Analysis of Financial Condition and Results of Operations – Critical Factors Affecting Results.”

PART I

Unless the context otherwise requires, references to the terms “Assurant,” the “Company,” “we,” “us” and “our” refer to Assurant, Inc.’s consolidated operations.

Item 1. *Business*

Assurant, Inc. was incorporated as a Delaware corporation in 2004.

We are a premier global protection company that partners with the world’s leading brands to safeguard and service connected devices, homes and automobiles. We leverage data-driven technology solutions to provide exceptional customer experiences. We operate in North America, Latin America, Europe and Asia Pacific through two operating segments: Global Lifestyle and Global Housing. Through our Global Lifestyle segment, we provide mobile device solutions, extended service contracts and related services for consumer electronics and appliances, and credit and other insurance products (referred to as “Connected Living”); and vehicle protection services, commercial equipment protection and other related services (referred to as “Global Automotive”). Through our Global Housing segment, we provide lender-placed homeowners, manufactured housing and flood insurance, as well as voluntary manufactured housing, condominium and homeowners insurance (referred to as “Homeowners”); and renters insurance and other products (referred to as “Renters and Other”).

Our Competitive Strengths

Our financial strength and capabilities across our businesses create competitive advantages that we believe allow us to support our clients, deliver a superior experience for their customers and drive sustainable profitable growth over the long term.

Our financial strength and business model. We believe we have a strong balance sheet and operating cash flows. As of December 31, 2025, we had \$36.29 billion in total assets and our debt to total capital was 27.3%. Our business model in our Global Lifestyle and Global Housing segments focuses on business-to-business-to-consumer (B2B2C) distribution, partnered with some of the world’s leading brands. Our business model creates earnings and capital diversification, and generates significant operating cash flows, which provide us with the flexibility to make investments to strengthen our strategic capabilities and enhance our partnerships with our clients.

Insights and capabilities enable innovation and solutions to meet evolving consumer needs. We have deep partnerships with and an understanding of our clients and the consumer markets they serve. We seek to leverage consumer insights, together with extensive capabilities, to identify and anticipate the needs of our clients and the consumers they serve. We leverage those insights to invest in emerging technologies and operations, including digital capabilities supported by artificial intelligence (“AI”), to introduce innovative products and services and continuously adapt those offerings to the changing needs of consumers. Investments and innovation enable services that complement our protection and specialty insurance products, creating customized solutions for clients and customers.

Value chain and technology integration and customer experience. We own or manage multiple pieces of the value chain, which enables us to create products and service offerings based on client and consumer needs and provide a seamless customer experience. Offering end-to-end solutions allows us to provide additional value for consumers and adapt more quickly and efficiently to their needs. Visibility across the value chain and integrating our technology with clients helps us further improve the customer experience and our offerings. Our ability to introduce value-added services and capabilities across the value chain, integrate our technology and provide a superior customer experience allows us to strengthen our partnerships and our competitive position.

Our Strategy for Profitable Growth

As we focus on executing our strategy, we believe we are positioned for continued long-term profitable growth by:

Growing our portfolio of market-leading businesses. Our businesses represent a group of leading, protection and service-oriented offerings focused on compelling growth opportunities in specialized markets. We intend to grow our businesses by strengthening our partnerships with major clients and prospects globally, through expanded offerings and attachment with clients and by winning new clients, and by entering into attractive adjacent markets (such as home warranty), while continuing to invest in talent, capabilities and technology to enable us to deliver a superior customer experience.

Providing integrated offerings to deliver additional value for a superior customer experience. We provide customized solutions supported by integrated technology platforms to create a superior customer experience. As we continue to evolve our product and service capabilities and respond to client and consumer needs, we expect ongoing innovation of our integrated offerings, leveraging data-driven insights, technology, robotics and AI to deliver additional value for our clients and their customers.

Deploying our capital strategically. Our strong financial position provides us with flexibility to strategically deploy our capital. We generally deploy capital to support business growth by funding investments and through acquisitions, to pay dividends and to repurchase shares. We target new businesses and capabilities, organically and through acquisitions, that complement or accelerate our strategy, including in adjacent markets. Our approach to acquisitions and other growth opportunities reflects our strategic and disciplined approach to capital management.

Investing in talent and technology. Our employees play a critical role in contributing to our success and supporting our business strategy. We believe in fostering an inclusive culture to drive sustainable profitable growth over the long term. We are focused on strategically attracting, developing, retaining and motivating our talent, as we prioritize programs and initiatives aimed at investing in their growth, skills and wellbeing. We continue to invest in technology, including digital, robotics and AI, and seek to integrate technology platforms with our clients, to create superior customer experiences.

2025 Highlights

In 2025, we delivered another year of profitable growth and reinforced our solid foundation for the future by prioritizing disciplined investments in innovation across our diversified Global Lifestyle and Global Housing businesses.

In Global Lifestyle, growth was driven by new client programs and the continued expansion of our partnerships and capabilities, supported by our investments. In Connected Living, we made progress in expanding and supporting partnerships across mobile, extended service contracts and financial services. In mobile, subscriber growth remained strong, supported by the expansion of device protection programs globally, and we deepened key carrier relationships, including by signing a new agreement with a large U.S. mobile carrier. We expanded our reverse logistics business in mobile through a multi-year reverse logistics agreement and a dedicated logistics facility. In retail extended service contracts, we continued to build momentum across appliances and consumer electronics, and we saw strong progress in financial services as we scaled our card benefits business. In Global Automotive, we continue to expand and protect our position through new and renewed partnerships across distribution channels, including large dealer groups. We are also accelerating progress in heavy equipment and our leased and financed business. In Global Housing, we continued to outperform through policy growth in lender-placed, supported by a hardened voluntary homeowners' insurance market and our success renewing key clients and winning new partnerships. Across the businesses, we are investing in technology, including AI, to transform our operations, support our clients and improve the customer experience.

In 2025, we made a series of strategic leadership appointments that leverage the strength of our executive bench and position us for continued long-term success. Effective September 2025, Michael Campbell, previously the President of our Global Housing segment, was appointed Chief Operating Officer and is responsible for leading efforts to enhance operational efficiency, accelerate our technology roadmap, and fully leverage our global scale and capabilities across all product lines. In addition, Ryan Lumsden, who had led the Renters and Other business for nearly six years, was appointed President of Global Housing, succeeding Mr. Campbell.

Throughout the year, we have maintained a strong balance sheet, generating \$925.1 million in dividends or returns of capital from our subsidiaries (net of infusions of liquid assets and excluding amounts used for acquisitions or received from dispositions) and returning \$468.3 million to shareholders through share repurchases and common stock dividends. In August 2025, we issued \$300.0 million of 5.55% senior notes due 2036 and used the net proceeds to redeem all of the \$175.0 million outstanding aggregate principal amount of our 6.10% senior notes due 2026.

Sustainability Priorities

Assurant is a purpose-driven company that remains committed to integrating sustainability into our long-term strategy, with a focus on Connected Communities, Respected Resources and a Protected Planet.

Connected Communities. As a purpose-driven company, we help our customers maximize opportunities in a way that contributes to a thriving society. We do this by focusing on creating an inclusive culture where employees have opportunities to learn and grow; supporting communities through investing our time, skills and resources where needed; and creating superior experiences for our customers. For additional information, refer to “– Human Capital Resources” below.

Respected Resources. We look for opportunities to embed circularity across our operations and to integrate programs and services into our suite of offerings that embrace circular practices to help our customers live connected lives. This mindset has led us to become an industry leader in the transition from a linear to a circular economy for mobile devices, including our approach to responsible recycling.

Protected Planet. Across our enterprise, we integrate climate actions into our long-term strategy, global facilities, and product and service offerings, and work with our operations and partners to minimize negative environmental impacts.

We view these sustainability priorities as directly tied to how we deliver for our employees, our clients, end-consumers and communities in support of Assurant's broader growth and innovation objectives. These priorities strengthen Assurant for the future, including how we attract, empower and reward an inclusive workforce to drive innovation, contribute to the

development and adoption of sustainable products, and reduce the environmental impact of Assurant’s operations and supply chain. Our Board of Directors (the “Board”), Management Committee and employees understand the importance of our sustainability initiatives in supporting the successful execution of our long-term growth strategy.

For additional information about our sustainability efforts, and our most recent Sustainability Report, please refer to our website at <https://www.assurant.com/sustainability>. The information found on our website and in such report is not incorporated by reference into and does not constitute a part of this Report.

Segments

The composition of our reportable segments aligns with how we view and manage our business. For additional information on our segments, see “Item 7 – Management’s Discussion and Analysis of Financial Condition and Results of Operations – Results of Operations” and Note 5 to the Consolidated Financial Statements included elsewhere in this Report.

Global Lifestyle

	Years Ended December 31,		
	2025	2024	2023
Net earned premiums, fees and other income by product:			
Connected Living (1)	\$ 5,378.7	\$ 4,807.9	\$ 4,376.8
Global Automotive	4,203.8	4,159.4	4,184.6
Total	<u>\$ 9,582.5</u>	<u>\$ 8,967.3</u>	<u>\$ 8,561.4</u>
Segment Adjusted EBITDA	\$ 801.3	\$ 773.4	\$ 792.3
Segment equity (2)	\$ 5,163.2	\$ 4,830.9	\$ 4,822.0

(1) For the years ended December 31, 2025, 2024 and 2023, 53.0%, 50.6%, and 44.8%, respectively, of net earned premiums, fees and other income was from mobile device solutions; 34.4%, 38.8%, and 44.7%, respectively, was from extended service contracts and related services for consumer electronics and appliances; and 12.6%, 10.6%, and 10.5%, respectively, was from financial services and other insurance products.

(2) Segment equity does not include components of accumulated other comprehensive income (“AOCI”), which is primarily comprised of net unrealized gains/ losses on securities, net of taxes. For additional information on total AOCI, see Note 21 to the Consolidated Financial Statements included elsewhere in this Report.

Our Products and Services

The key lines of business in Global Lifestyle are: Connected Living, which includes mobile device solutions (including extended service contracts, insurance policies and device lifecycle related services), extended service contracts and related services for consumer electronics and appliances, and financial services and other insurance products; and Global Automotive.

Connected Living: Through partnerships with the mobile eco-system (including carriers, original equipment manufacturers (“OEMs”) and cable multiple system operators (“MSOs”)), retailers, and financial and other institutions, we underwrite and provide administrative support and related services for extended service contracts. These contracts provide consumers with coverage, such as on mobile devices and consumer electronics and appliances, protecting them from certain covered losses. We provide coverage for repairing or replacing these consumer goods in the event of loss, theft, accidental damage, mechanical breakdown or electronic malfunction after the manufacturer's warranty expires. Our strategy is to provide integrated service solutions to our clients that address all aspects of the insurance or extended service contract, including program design and marketing strategy, regulatory filings, risk management, data analytics, customer support and claims handling, supply chain services, service delivery and repair and logistics management, while ensuring exceptional customer experience measured through our net promoter scores.

In our mobile business, we provide end-to-end mobile device lifecycle solutions from when the claim is filed through when the device is received and inspected, repaired or refurbished, to when it is ultimately disposed of through a sale to a third-party or used to support an insurance claim. In addition to extended protection for multiple devices, our mobile offerings include trade-in and upgrade programs, premium technical support, including device self-diagnostic tools, and device disposition. We also sell repaired or refurbished mobile and other electronic devices, as well as provide Certified Pre-Owned (“CPO”) devices, to our clients to fulfill their insurance and consumer needs. We provide in-store, same-day, same-unit device repairs to customers through our global network of approximately 1,150 repair and partner locations. These services support both our insurance and non-insurance customers and are powered by our AI-driven dynamic fulfillment platform. We have repair operations within our device care centers, including our Nashville Innovation and Device Care Center, which leverages automation, robotics and AI. We believe that we maintain a differentiated position in this marketplace through our combination of robust administrative capabilities, digital platforms enabling on-boarding, claims management and service delivery, supply chain management, technical support infrastructure, insurance underwriting capabilities, access to a large base of secondary market devices and a suite of adjacent value-added services – such as trade-in and upgrade and asset value recovery.

Within Connected Living, our global financial services business maintains a suite of protection and assurance products that deliver a combination of features and benefits for varying customer segment needs. With major financial services clients, we provide value-added financial services in the U.S. and internationally, including inclusive credit card benefits, packaged bank account benefits and travel coverage, as well as credit insurance.

Global Automotive: We underwrite and provide administrative services for vehicle service contracts (“VSCs”) and ancillary products providing coverage for vehicles, including automobiles, trucks, recreational vehicles, powersports, construction, forestry and agricultural equipment, as well as parts. For VSCs, we pay the cost of repairing a customer’s vehicle in the event of mechanical breakdown. For ancillary products, including guaranteed asset protection products and other products relating to commercial and other leased and financed equipment, coverage varies, but, generally, we pay the cost of repairing, servicing or replacing parts or provide other financial compensation in the event of mechanical breakdown, accidental damage or theft. We provide integrated service offerings to our clients, including program design and marketing strategy, risk management, data analytics, customer support and claims handling, reinsurance facilitation, actuarial consulting, experiential and digital training and performance management. We work closely with our global partners to develop innovative offerings that reflect the evolution of the auto market, such as Assurant Vehicle Care which represents a majority of dealer services contracts providing a comprehensive suite of enhanced vehicle protection products and digital experience for consumers. We also provide risk management solutions tailored for commercial equipment lenders where our core products include insurance tracking, physical damage insurance and service contracts.

Distribution and Clients

Global Lifestyle operates globally, with approximately 80.7% of its revenue from North America (the U.S. and Canada), 7.7% from Latin America (Brazil, Argentina, Puerto Rico, Mexico, Chile, Colombia and Peru), 5.9% from Europe (the United Kingdom (the “U.K.”), France, Italy, Spain, Germany and the Netherlands) and 5.7% from Asia Pacific (Japan, Australia, New Zealand, South Korea, India, Singapore and Hong Kong for the year ended December 31, 2025). Global Lifestyle focuses on establishing strong, long-term relationships with clients that are leaders in their markets, including leading distributors of our products and services. In Connected Living, we partner with the mobile eco-system (including carriers, retailers, OEMs and cable MSOs) and financial and other institutions to market our mobile device solutions, with some of the largest OEMs, consumer electronics retailers, appliance retailers (including e-commerce retailers) and cable operators to market our extended service contracts and related services, and with financial institutions, insurers and retailers to market our credit and other insurance products. In Global Automotive, we partner with auto dealers and agents, third-party administrators, manufacturers, equipment retailers and large banks and financing companies to market our vehicle protection, commercial equipment products and other related services. Many of our agreements in Global Lifestyle are exclusive and multi-year with terms generally between three and five years and allow us to integrate our administrative and technology systems with those of our clients.

Global Lifestyle is dependent on a few clients, in particular those in the mobile eco-system including carriers and MSOs. A reduction in business with or the loss of one or more such clients could have a material adverse effect on our results of operations and cash flows. See “Item 1A – Risk Factors – Business, Strategic and Operational Risks – *Our revenues and profits may decline if we are unable to maintain relationships with significant clients, distributors and other parties, or renew contracts with them on favorable terms, or if those parties face financial, reputational or regulatory issues.*”

Our Addressable Markets and Market Activity

The mobile protection market is a large and growing global market with evolving wireless standards. The worldwide used and refurbished smartphone market is growing, driven by the cost, perceived lack of innovation and availability of new devices, and by sustainability-conscious customers.

Consumer needs relating to mobile devices are continuing to expand in scope. We believe there are growth opportunities in bundled protection products, which support customers as they take full advantage of the features and functions of their mobile devices through their daily interaction. Expanded capabilities like repair and logistics, technical support for customers and enhanced customer experience through digital solutions and AI allow us to create product and service offerings that customers find compelling.

Our business is subject to fluctuations in mobile device trade-in and upgrade volumes, including based on the release of new devices and carrier promotional programs, as well as changes in client needs and customer preferences.

U.S. new vehicle sales have shown modest improvements since 2024, remaining stable despite tariff uncertainty, while affordability challenges continue to steer more buyers toward the used vehicle market. Inventory of used vehicles has recovered slightly from the shortages of 2021-2022, but remains below historical levels, with scarcity of low-mileage vehicles keeping prices elevated. In select international regions, new and used vehicle sales are expanding, broadening addressable markets. While interest rates and credit volatility are beginning to ease, inflation on parts and labor underscores the mixed macroeconomic environment.

Consumers are becoming increasingly connected across their mobile devices, vehicles and homes, which is creating a global market for smart home devices and related services. We believe this will create long-term opportunities for Assurant as consumers' lifestyles will increasingly intertwine with their connected ecosystems. Due to our capabilities, including device protection, premium technology support, service delivery networks and financing, as well as technology components such as dynamic fulfillment, which integrates a dynamic mobile claims management process with risk and fraud mitigation, resulting in higher customer satisfaction, we are well positioned to support customers as the smart home market continues to grow.

In our financial services business, our focus is on expanding our partnerships with leading financial institutions to offer travel, purchase protection, and other credit card benefits, including underwriting and claims processing, and packaged bank account offerings to their customers.

Risk Management

We earn premiums on our insurance and extended service contracts and fees for our other services. For a portion of our contracts, we share in the underwriting risk with our clients through reinsurance or profit-sharing agreements. We believe that these arrangements better align our clients' interests with ours and help us to better manage risk exposure. For additional risks relating to our Global Lifestyle segment, please see "Item 1A – Risk Factors."

Inventory

In our mobile business, we carry inventory to meet the delivery requirements of certain clients. These devices are ultimately disposed of through sales to third parties or used to support an insurance claim. Our inventory includes devices and parts on consignment with our global network of approximately 1,150 repair and partner locations through which we provide in-store repairs. We also carry the parts and device inventory to support our repair operations based in our device care centers. Inventory levels may vary from period to period due to, among other things, differences between actual and forecasted demand, supply chain constraints, the addition of new devices and parts, and strategic purchases. Payment terms with clients also vary, which may result in less inventory financed by clients and more inventory financed with our own capital.

We employ a range of strategies to manage our inventory, including monitoring inventory levels, optimizing purchase timing, coordinating with clients on demand planning and securing return rights for select programs and devices. However, the value of certain inventory could be adversely impacted by technological changes affecting the usefulness or desirability of the devices and parts, physical problems resulting from faulty design or manufacturing, increased competition, decreased consumer demand, including due to changes in customer preferences, changes in client promotions and seasonality, changes in client forecasts and demand, supply chain constraints and our ability to manage inventory, growing industry emphasis on cost containment and adverse foreign trade relationships. No assurance can be given that we will be adequately protected against declines in inventory value. See "Item 1A – Risk Factors – Business, Strategic and Operational Risks – *“Our mobile business is subject to the risk of declines in the value and availability of mobile devices, and to regulatory compliance and other risks.”*"

Seasonality

We experience seasonal fluctuations that impact demand in each of our lines of business. For example, seasonality for extended service contracts and VSCs aligns with the seasonality of the retail and automobile markets. In addition, our mobile results may fluctuate quarter to quarter due to the actual and anticipated timing and availability of the release of new devices and carrier promotional programs.

Global Housing

	Years Ended December 31,		
	2025	2024	2023
Net earned premiums, fees and other income by product:			
Homeowners	\$ 2,192.4	\$ 1,958.9	\$ 1,663.4
Renters and Other	576.4	498.1	479.5
Total	<u>\$ 2,768.8</u>	<u>\$ 2,457.0</u>	<u>\$ 2,142.9</u>
Segment Adjusted EBITDA	\$ 858.7	\$ 671.2	\$ 574.2
Segment equity (1)	\$ 1,659.3	\$ 1,597.8	\$ 1,318.9

(1) Segment equity does not include components of AOCI, which is primarily comprised of net unrealized gains/ losses on securities, net of taxes. For additional information on total AOCI, see Note 21 to the Consolidated Financial Statements included elsewhere in this Report.

Our Products and Services

The key lines of business in Global Housing are Homeowners and Renters and Other, each as described below.

Homeowners: We provide lender-placed homeowners, manufactured housing and flood insurance, as well as voluntary manufactured housing, condominium and homeowners insurance.

Lender-placed homeowners insurance. Lender-placed homeowners insurance consists principally of fire and dwelling hazard insurance offered through our lender-placed program. The lender-placed program provides collateral protection to lenders, mortgage servicers and investors in mortgaged properties in the event that a homeowner does not maintain insurance on a mortgaged dwelling. Lender-placed homeowners insurance provides structural coverage, similar to that of a standard homeowners policy. The amount of coverage is often based on the last known insurance coverage under the prior policy for the property and provides replacement cost coverage on the property. It protects both the lender's interest and the borrower's interest and equity. We also provide real estate owned ("REO") insurance, consisting of insurance on foreclosed properties managed by our clients.

In the majority of cases, we use proprietary insurance-tracking administration systems linked with the administrative systems of our clients to monitor clients' mortgage portfolios to verify the existence of insurance on each mortgaged property and identify those that are uninsured. If there is a potential lapse in insurance coverage, we begin a process of outreach and notification to the homeowner and the last known insurance carrier or agent through phone calls, written correspondence and in some cases, direct interfaces with insurance carriers, which generally takes up to 90 days to complete. If coverage cannot be verified at the end of this process, the mortgage servicer procures a lender-placed policy. The process of tracking voluntary coverage – including determining whether voluntary coverage is in force, the policy limits in place, the perils insured and the deductibles, as well as obtaining other required insurance related information – is part of our risk exposure management for our lender-placed insurance business. The exposure management process is needed in order to underwrite the risk we assume, to understand loss exposure and to communicate with appropriate parties, including the lender, insurance agent and homeowner. Our placement rates reflect the ratio of insurance policies placed to tracked loans. The homeowner always retains the option to obtain or renew the insurance in the voluntary insurance market.

Lender-placed manufactured housing insurance. Lender-placed manufactured housing insurance consists principally of fire and dwelling hazard insurance for manufactured housing offered through our lender-placed program. Lender-placed manufactured housing insurance is issued after an insurance tracking and exposure management process similar to that described above. In most cases, tracking is performed using a proprietary insurance-tracking administration system.

Lender-placed flood insurance. Lender-placed flood insurance consists of flood insurance offered through our lender-placed program. It provides collateral protection to lenders in mortgaged properties in the event a homeowner does not maintain required flood insurance. Lender-placed flood insurance is issued after an insurance tracking and exposure management process similar to that described above.

Voluntary insurance. We offer voluntary manufactured housing, condominium and homeowners insurance in select states in the U.S. Our voluntary insurance products generally provide structural, contents and liability coverage.

Renters and Other: We provide renters insurance and other products, as described below.

Renters insurance. We provide integrated solutions across the resident lifecycle. We offer renters insurance for a wide variety of single and multi-family rental properties, providing content protection for renters' personal belongings and liability protection for the property owners against renter-caused damage. We also offer an integrated billing and tracking platform for our clients and their customers, as well as receivables management, which helps our clients to maximize the collection of amounts owed by prior tenants.

Other products. We are the second largest administrator for the U.S. government under the voluntary National Flood Insurance Program (the "NFIP"), for which we earn fees for collecting premiums and processing claims. This business is 100% reinsured to the U.S. government.

Distribution and Clients

Global Housing establishes long-term relationships with leading mortgage lenders and servicers, manufactured housing lenders, property managers, and financial, insurance and other institutions. Lender-placed insurance products are distributed primarily through mortgage lenders, mortgage servicers and financial and other institutions. The majority of our lender-placed agreements are exclusive. Typically, these agreements have terms of three to five years and allow us to integrate our systems with those of our clients. Renters products are distributed primarily through property management companies and affinity marketing partners. We offer our voluntary insurance programs primarily through manufactured housing lenders and builders,

along with our affinity partners and independent specialty agents. Independent specialty agents also distribute flood products and other property products.

Global Housing is dependent on a few clients, and a reduction in business with or the loss of any one or more such clients could have a material adverse effect on our results of operations and cash flows. See “Item 1A – Risk Factors – Business, Strategic and Operational Risks – *Our revenues and profits may decline if we are unable to maintain relationships with significant clients, distributors and other parties, or renew contracts with them on favorable terms, or if those parties face financial, reputational or regulatory issues.*”

Our Addressable Markets and Market Activity

In the lender-placed market, placement rates have increased in certain areas, due to reduced availability within the voluntary homeowners’ insurance market, including in California and Texas. We continue to monitor the state of the overall housing market and the potential impact of loan modifications, forbearances and foreclosure delays, including the impact to REO volumes. Should the housing market deteriorate for a prolonged period, we could experience a longer-term increase in our placement rates over time. In addition to the overall market, our lender-placed results are also impacted by inflation and the costs of paying claims, and the mix of loans we service.

The U.S. renters insurance market is a growing market with new building development, high occupancy and favorable relocation trends. We acquired a new renters book in 2025 and believe there is opportunity to increase attachment rates with new and existing clients through our investments in digital platforms designed to deliver superior customer experience and our expanded offerings to provide end-to-end solutions.

Risk Management

We earn premiums on our insurance products and fees for our services. Our lender-placed insurance products are not underwritten on an individual policy basis. Contracts with our clients require us to issue these policies automatically when a borrower’s insurance coverage is not maintained. These products are priced to factor in the additional risk from ensuring that all client properties have continuous insurance coverage. We monitor pricing adequacy based on a variety of factors and adjust pricing as required, subject to regulatory constraints, including through a built-in quarterly inflation guard feature. For additional risks relating to our Global Housing segment, please see “Item 1A – Risk Factors,” including “– Financial Risks – *We may be unable to accurately predict and price for claims and other costs, which could reduce our profitability*” and “– *Actual results may differ materially from the analytical models we use to assist in our decision-making in key areas such as pricing, catastrophe risks, reserving and capital management*”.

Because several of our business lines (such as homeowners, manufactured housing and other property policies) are exposed to catastrophe risks, we purchase reinsurance coverage to reduce our financial exposure, protect capital, and mitigate earnings and cash flow volatility. Our reinsurance program generally incorporates a provision to allow for the reinstatement of coverage, which provides protection against the risk of multiple catastrophes in a single year.

2025 reinsurance premiums for the total program were \$203.2 million pre-tax, as of December 31, 2025, compared to \$188.9 million pre-tax for 2024. 2025 reinsurance premiums reflected our exposure changes, expected Florida Hurricane Catastrophe Fund (“FHCF”) program impacts and favorable underlying rates from improved reinsurance market conditions. 2024 reinsurance premiums reflected a premium benefit from changing the timing of program placement to a single placement date. The U.S. per-occurrence catastrophe coverage included a main reinsurance program providing \$1.76 billion of coverage in excess of a \$160.0 million retention for a first event. Layers 1 through 6 of the program allow for one automatic reinstatement. When combined with the FHCF, the U.S. program protects against gross Florida losses of up to approximately \$1.98 billion, in excess of retention.

We are also subject to non-catastrophe risk from isolated fire, water and wind damage, theft and vandalism, as well as general liability in renters and homeowners policies. Losses are impacted by increases in the cost of materials and labor required to settle claims. Please see “Item 1A – Risk Factors – Business, Strategic and Operational Risks – *Catastrophe and non-catastrophe losses, including as a result of climate change and the current inflationary environment, could materially reduce our profitability and have a material adverse effect on our results of operations and financial condition.*”

Seasonality

We experience seasonal fluctuation in several of our lines of business, which are exposed to the risk of catastrophe and non-catastrophe losses. Catastrophe events such as hurricanes typically occur in the second half of the year. We also experience some seasonal fluctuation in non-catastrophe weather-related claims that tend to occur in the first half of the year.

Competition

Our businesses focus on supporting, protecting and connecting major consumer purchases. Although we face global competition in each of our businesses, we believe that no single competitor competes against us in all of our business lines.

Across Global Lifestyle and Global Housing, we compete for business, clients, customers, agents and other distribution relationships with many insurance companies, warranty and protection companies, financial services companies, mobile device repair and logistics companies, technology and software companies and specialized competitors that focus on one market, product or service. To remain competitive in many of our businesses, we must anticipate and respond effectively to changes in customer preferences, new industry standards, evolving distribution models, disruptive technology developments and alternate business models. We must respond to the threat of disruption by traditional players, such as insurers, from new entrants, such as “Insurtech” companies, and from their use of technologies such as AI. Competition in each business is based on a number of factors, including scope of products and services offered, ability to tailor products and services to client and customer needs, product features and terms, pricing, technology offerings, diversity of distribution resources, brand recognition, costs, financial strength and ratings, resources, and quality of service, including speed of claims payment and the overall customer experience. The relative importance of these factors varies by product and market. For further information on the risks associated with competition, see “Item 1A – Risk Factors – Business, Strategic and Operational Risks – *Significant competitive pressures, changes in customer preferences and disruption could adversely affect our results of operations.*”

Human Capital Resources

A cornerstone of Assurant is the employees who bring our purpose, values and commitments to life each day for the millions of customers we serve worldwide. We believe in fostering a globally inclusive and performance-based culture to drive sustained profitable growth through innovation. We regularly evaluate our policies, practices and programs to ensure we continue to attract, develop and retain the best talent to support our strategy. This includes ongoing investments in competitive total rewards and wellbeing offerings, and providing programs for learning, development and engagement, while continuously enhancing the experience of our employees who are critical to our long-term success.

As of December 31, 2025, Assurant had approximately 14,800 employees, representing more than 80 nationalities, with a presence in 21 markets globally. Our global workforce spans a wide range of roles and skills. While 72% of our employee base was located in North America, we continued to expand our presence in key international markets across Europe, Latin America and Asia Pacific to support our increasingly global client portfolio. As of December 31, 2025, approximately 61% of our employees were frontline workers, predominantly in hourly roles such as customer care, claims administration, mobile repair and logistics; and approximately 38% were in managerial roles, predominantly salaried employees engaged in an array of business and support functions.¹

For full-year 2025, our global turnover rate was 11%, reflecting our blended workforce of frontline and managerial roles; turnover for managerial roles was 5%, and turnover for frontline employees was 14%, which is typically higher given the nature of the roles. Year-over-year, the turnover rate for frontline employees improved by 3 percentage points, while the turnover rate for managerial employees remained unchanged.² Overall, this is attributed to ongoing actions to identify and remediate talent risks and enhance the employee experience, as well as stabilization in key labor markets.

The Board, through the Compensation and Talent Committee, oversees the significant human capital management programs of Assurant, which are led by Assurant’s Chief Executive Officer (“CEO”) and Chief People Officer. Attracting, developing and retaining the best talent globally is key to our success in sustaining long-term profitable growth. In August 2025, we announced two strategic leadership appointments, drawing on the strength of our leadership bench, and in January 2026, we expanded our Management Committee to support accelerated business growth. These appointments further underscored our deep talent pool and robust succession bench.

Our talent strategy is focused on empowering employees to learn, grow and thrive—while equipping the business with the capabilities required for a future-ready workforce that can deliver on our long-term strategy. Central to this approach is recognizing and rewarding performance and supporting career development and growth.

As part of our talent strategy, we have established Global Capability Centers, which are global talent hubs in key markets, to leverage our global scale and access best-in-class talent. These hubs advance our operating model, create additional capacity to support client growth, foster innovation, and enable our teams to focus on delivering exceptional customer experiences.

We regularly engage with our employees to gather feedback through multiple forums and channels, including one-on-one discussions with managers, interactive town halls, employee surveys and our enterprise-wide listening program. The program is designed to expand opportunities for anonymous, real-time feedback between managers and employees. Key topics covered include culture, learning and development, compensation, benefits, wellbeing and recognition. Insights from these engagements inform targeted action plans to address opportunities and further enhance the employee experience in alignment with our overall human capital strategy.

¹ Frontline and managerial employees do not include employees who do not have, or do not yet have, an assigned pay grade, such as interns and casual employees, and workers transferred from an acquired company.

² Beginning in 2024, we revised the definition of employee turnover to include voluntary turnover only. We believe this revised approach to exclude any involuntary actions provides better insight into the program and strategies we can take as an organization to impact employee retention.

Results from our most recent listening program, which concluded in June 2025, reflected strong employee participation and demonstrated notable year-over-year improvements in employee engagement and employee satisfaction. Results across most engagement drivers were at or above relevant industry benchmarks. Overall, the survey indicated that employees feel engaged, aligned with the Company's priorities, and view our culture as a differentiator.

Fostering a Globally Inclusive Culture

Building an inclusive culture is more than the right thing to do - it's a business imperative - a key enabler of growth and innovation, rooted in our belief that more globally inclusive teams deliver stronger performance. We believe global teams and a globally inclusive culture drives better performance by improving our ability to respond to the changing global marketplace. We are committed to fostering a sense of belonging at Assurant. Our Chief People Officer has direct oversight and responsibility for our human capital management strategy.

We strategically recruit talent with different skillsets, experiences, backgrounds, and perspectives necessary to deliver on our long-term strategies, including through strategic and educational partnerships that bring greater visibility and expertise. We are focused on inclusion through global programming, including five Employee Resource Groups, which are open to all employees globally and provide forums for employees to raise topics that are important to them. All Employee Resource Groups are chaired by members of our Management Committee or senior leaders to reinforce commitment and engagement at the highest levels of the company. In the marketplace, we support digital inclusion, STEM and thriving communities through the Assurant Foundation.

Fair Pay

Assurant is committed to fair pay. Our compensation practices and programs consider a variety of factors designed to set fair compensation levels. We take a holistic approach to evaluating and aligning roles with compensation levels based on job responsibilities, market competitiveness, geographical location, strategic importance of roles and other relevant factors. For the last several years, we have engaged in a multi-step process to ensure that we are compensating fairly for employees performing substantially similar job responsibilities and report this out to the Compensation and Talent Committee. Results from our last review completed in 2025, which examined total compensation for U.S., UK, Canada, Argentina and India-based employees, or roughly 91% of our workforce, confirmed that there is no evidence of systemic disparities for comparable job groupings with similar skill, scope and effort. We remain committed to remediate any significant pay disparities we may discover. We also continue to monitor and adjust market wages as necessary to ensure we provide competitive wages, consistent with our ongoing compensation strategy.

We remain committed to investing in our people through competitive rewards and development opportunities. We continued to reward high performers and invest in merit increases, allocating more funding to front-line employees in recognition of the disproportionate impact of the current challenging economic environment. We have advanced our commitment to pay transparency, particularly in North America, by providing applicants and employees with base salary ranges for their role and grade. We expect to finalize compliance with the EU Pay Transparency Directive as required in mid-2026.

Total Rewards and Wellbeing

We are committed to the health and safety of our employees as we believe the success of our business is directly connected to their wellbeing. In addition to providing robust compensation and benefits programs and opportunities to invest in their financial future, we offer employees and their families access to a variety of health and wellness programs. Our Total Rewards programs, such as paid time off, family leave, family care resources and flexible work schedules help provide protection and security related to events that may require time away from work or that impact employee financial wellbeing. Our Global Employee Assistance Plan ("EAP") provides additional support to help employees and their families access critical resources for their wellbeing, including financial, social, physical and mental health. In 2026, we enhanced our EAP to include additional sessions per issue at no additional cost to our employees.

To further promote wellbeing, Assurant continued to expand the reach of its Personify Health global wellbeing platform allowing employees to personalize their unique wellbeing goals with access to tools and activities to stay engaged and accountable for building healthy habits. Assurant offers access to the Headspace App as a no-cost benefit for all global employees, which is an additional resource for managing stress and finding better balance. Our live company-wide signature events across the mental and financial wellbeing landscape have consistently attracted a large global audience.

We regularly benchmark our Total Rewards offerings against companies of similar size and industries to ensure we remain competitive and solicit employee feedback on the evolving needs of our workforce. We conducted employee listening efforts to validate that recommended changes for 2026 met the needs of our global workforce, particularly around predictability and affordability of health care costs. We made several enhancements to benefits starting in 2026, including no cost increases for dental and vision care, a new weight management program and offering mobile pop-up clinics at select on site locations. We also enhanced marketing and communications efforts promoting the breadth and depth of benefits offered to meet the various needs of our employees.

Assurant has an AI-enabled HR virtual assistant to provide easy access to answers to routine questions employees raise with the goal of improving their experience as an employee. We continue to assess additional opportunities across Total Rewards and Wellbeing to help attract and retain top talent.

Recognizing the benefit of flexible work arrangements for our business, customers and employees, we continued to enable a long-term shift to a hybrid work model to support our business and talent strategy. A majority of our employees work virtually on a full-time or part-time basis. While we will continue to encourage purposeful in-person engagement to support our culture, team development and product innovation, we believe our hybrid work model will remain a key competitive advantage to support the evolving needs of our customers and employees. Within this hybrid environment, we support over thirty Engagement Champion Teams globally that lead strategies and activities to promote and foster inclusion and engagement. We continued our ongoing real estate consolidation to support work-from-home arrangements given our increasingly hybrid workforce, while investing in key facilities (such as our Nashville Innovation and Device Care Center that opened in 2024) and markets to support the long-term strategy of the Company.

Learning and Development

Learning and development are essential to Assurant's success. We continually invest in our employees' career growth by offering a broad range of development opportunities, including instructor-led, virtual and self-directed learning, mentoring and external development experiences. These offerings are delivered through *Leading the Way*, our enterprise learning portfolio designed to unlock the potential of our people in support of our vision and purpose. *Leading the Way* focuses on building critical skills, capabilities and careers to enhance employee engagement, strengthen performance and drive business results. Priority areas include developing leadership, technical and professional capabilities; expanding career mobility; and reinforcing a strong culture of ethics and compliance.

In 2025, we continued to implement key initiatives to support upskilling, with an increased emphasis on accelerating adoption of digital and AI-enabled technologies and processes as we expand the use of AI as an enabler to enhance employee and customer experiences. This includes providing learning, training and change management support.

Our learning and development programs and delivery methods continue to evolve to meet the needs of our business and hybrid workforce. We offer training across a wide range of topics, including mental health awareness and resilience, inclusive leadership, core managerial capabilities and essential power skills for all employees. All employees have access to industry-leading content and an AI coach to support development of professional, technical, and leadership skills. Technology employees are also provided with opportunities to participate in immersive technology labs and skills assessments as we build critical capabilities in this area. In 2025, we further enhanced our manager and senior leader programming to strengthen our bench of future-ready leaders. In addition, we implemented an enterprise-wide mentorship program to help support emerging talent.

Additionally, Assurant supports employees pursuing undergraduate and graduate degrees, professional certifications and continuing education required by certain professional organizations.

Succession Planning

An important element of our talent strategy is succession planning and building leadership pipelines for our most critical roles across the organization. We assess the performance and potential of current incumbents, identify and assess potential successors, and create targeted development plans to strengthen the preparedness of our talent pipeline. Annually, we conduct a comprehensive talent review to discuss potential successors of our Management Committee and other key leadership roles, as well as a broader group of top talent as we look to ensure better visibility into our strengths and opportunities for prioritized roles. The Compensation and Talent Committee annually reviews the CEO succession plan and succession plans for senior executives, which include emergency successors for each role, and conducts a broader talent review with the goal of ensuring we have the right leadership in place to execute the Company's long-term strategic plans.

For more information on our human capital resources, please refer to our most recent Sustainability Report available at <https://www.assurant.com/sustainability> and our most recent Proxy Statement available at ir.assurant.com. The information found on our website and in such reports is not incorporated by reference into and does not constitute a part of this Report.

Intellectual Property

We rely on a combination of contractual rights and patents, trademarks, copyrights and trade secrets to establish and protect our intellectual property. We regularly file patent and trademark applications to protect innovations arising from our research, development, design and marketing. We own a number of patents and pending applications relating to technical innovations. In addition, we have a trademark portfolio that we consider important in the marketing of our products and services, including the "Assurant" brand name.

Over time, we have accumulated a sizeable portfolio of issued and registered intellectual property rights around the world, and we seek to protect it against infringement. No single intellectual property right is solely responsible for protecting our

products and services. We have also entered into agreements that permit other companies to use certain of our patents and trademarks.

We believe the duration of our intellectual property rights is adequate relative to the expected lives of our products and services. Patents are of varying duration depending on the filing date, and they will typically expire at the end of their natural term. Trademark registrations may be renewed indefinitely, subject to country-specific use and registration requirements. For risks relating to our intellectual property, see “Item 1A – Risk Factors – Legal and Regulatory Risks – *Our business is subject to risks related to litigation and regulatory actions.*”

Ratings

Independent rating organizations periodically review the financial strength of insurers, including many of our insurance subsidiaries. Financial strength ratings represent the opinions of rating agencies regarding the ability of an insurance company to meet its financial obligations to policyholders and contract holders. These ratings are not applicable to our common stock or debt securities. Ratings are an important factor in establishing the competitive position of insurance companies.

Rating agencies also use an “outlook statement” of “positive,” “stable,” “negative” or “developing” to indicate a medium- or long-term trend in credit fundamentals which, if continued, may lead to a rating change. A rating may have a stable outlook to indicate that the rating is not expected to change; however, a stable outlook does not preclude a rating agency from changing a rating at any time, without notice.

Most of our domestic operating insurance subsidiaries are rated by A.M. Best Company (“A.M. Best”). In addition, three of our domestic operating insurance subsidiaries are rated by Moody’s Investors Service, Inc. (“Moody’s”) and S&P Global Ratings, a division of S&P Global Inc. (“S&P”). The ratings issued on our operating insurance subsidiaries by these agencies are announced publicly and are available from the agencies.

For information on the risks associated with ratings downgrades, see “Item 1A – Risk Factors – Financial Risks – *A decline in the financial strength ratings of our insurance subsidiaries could adversely affect our results of operations and financial condition.*”

The following table summarizes the financial strength ratings and outlooks of our domestic operating insurance subsidiaries as of December 31, 2025:

Company	A.M. Best (1)	Moody’s (2)	S&P (3)
American Bankers Insurance Company of Florida	A+	A2	A
American Bankers Life Assurance Company of Florida	A	A2	A
American Security Insurance Company	A+	A2	A
Caribbean American Life Assurance Company	A	N/A	N/A
Caribbean American Property Insurance Company	A+	N/A	N/A
Reliable Lloyds Insurance Company	A+	N/A	N/A
Standard Guaranty Insurance Company	A+	N/A	N/A
Virginia Surety Company, Inc.	A+	N/A	N/A
Voyager Indemnity Insurance Company	A+	N/A	N/A

- (1) A.M. Best financial strength ratings range from “A+” (superior) to “D” (poor). A second “+” or a “-” may be appended to ratings from categories A+ to C to indicate relative position within a category. Ratings of A+ fall under the “superior” category, which is the highest of A.M. Best’s seven ratings categories, while ratings of A fall under the “excellent” category, which is the second highest of A.M. Best’s seven ratings categories. A.M. Best has a stable outlook on all of our domestic operating insurance subsidiaries’ financial strength ratings.
- (2) Moody’s insurance financial strength ratings range from “Aaa” (highest quality) to “C” (lowest rated). A numeric modifier may be appended to ratings from “Aa” to “Caa” to indicate relative position within a category, with 1 being the highest and 3 being the lowest. A rating of A2 is considered “upper-medium-grade” and falls within the third highest of Moody’s nine ratings categories. Moody’s has a stable outlook on all of our domestic operating insurance subsidiaries’ insurance financial strength ratings.
- (3) S&P’s insurer financial strength ratings range from “AAA” (extremely strong) to “D” (general default). A “+” or “-” may be appended to ratings from categories AA to CCC to indicate relative position within a category. Ratings of A (strong) are within the third highest of S&P’s nine ratings categories. S&P has a stable outlook on all of our domestic operating insurance subsidiaries’ insurer financial strength ratings.

Regulation

We are subject to extensive federal, state and international regulation and supervision in the jurisdictions in which we do business.

The following is a summary of significant regulations that apply to our businesses, but it is not intended to be a comprehensive review of every regulation to which we are subject. For information on the risks associated with regulations

applicable to us, see “Item 1A – Risk Factors – Business, Strategic and Operational Risks,” “Item 1A – Risk Factors – Technology, Cybersecurity and Privacy Risks” and “Item 1A – Risk Factors – Legal and Regulatory Risks.”

Holding Company Insurance Regulations

Under applicable insurance holding company regulations, no person may acquire a controlling interest in the Company or any of our insurance company subsidiaries, unless such person has obtained prior regulatory approval for such acquisition. Under these laws, “control” is presumed when any person acquires or holds, directly or indirectly, 10% or more of our common stock or of the voting securities of any of our insurance company subsidiaries. To obtain approval, the proposed acquiror must file an application with the relevant regulator. For more information on the risks associated with holding company insurance regulations, see “Item 1A – Risk Factors – General Risk Factors – *Applicable laws and our certificate of incorporation and by-laws may discourage takeovers and business combinations that some stockholders might consider to be in their best interests.*”

U.S. Insurance Regulation

We are subject to the insurance holding company laws in the states and territories where our insurance companies are domiciled. These laws generally require insurance companies within the insurance holding company system to register with the insurance departments of their respective states and territories of domicile and furnish reports to such insurance departments. These laws also require that transactions between affiliated companies be fair and equitable. In addition, certain intercompany transactions, changes of control, certain dividend payments and certain transfers of assets between the companies within the holding company system are subject to prior notice to, or approval by, regulatory authorities in such states and territories.

We are licensed to sell insurance through our insurance subsidiaries in all 50 states, Puerto Rico and the District of Columbia. Like all U.S. insurance companies, our insurance subsidiaries are subject to regulation and supervision in the jurisdictions where they do business. In general, these regulations are designed to protect the interests of policyholders, and not necessarily the interests of shareholders and other investors. To that end, these laws grant regulators broad authority over licensing, capital and surplus, underwriting, product forms, premium rates, investment limits, solvency testing and market conduct examinations.

Risk-Based Capital Requirements. In order to enhance the regulation of insurer solvency, the National Association of Insurance Commissioners (the “NAIC”) has established certain risk-based capital (“RBC”) standards. RBC, which regulators use to assess the sufficiency of an insurer’s statutory capital, is calculated by applying factors to various asset, premium, expense, liability and reserve items. Factors are higher for items that the NAIC views as having greater underlying risk. The NAIC periodically reviews the RBC formula and changes to the formula could occur in the future.

Investment Regulation. Insurance company investments must comply with applicable laws and regulations that govern the kind, quality and concentration of investments made by insurance companies. These regulations require diversification of insurance company investment portfolios and limit the amount of investments in certain asset categories.

Products and Coverage. Insurance regulators have broad authority to regulate many aspects of our products and services. Additionally, certain non-insurance products and services we offer, such as service contracts, may be regulated by regulatory bodies other than departments of insurance and may be subject to consumer protection laws.

Pricing and Premium Rates. Nearly all states and territories have insurance laws requiring insurers to file price schedules and policy forms with the state’s or territory’s regulatory authority. In many cases, these price schedules and/or policy forms must be approved prior to use, and state and territory insurance departments have the power to disapprove increases or require decreases in the premium rates we charge.

Market Conduct Regulation. Activities of insurers are highly regulated by state and territory insurance laws and regulations, that govern the form and content of disclosure to consumers, advertising, sales practices and complaint handling. State and territory regulatory authorities enforce compliance through periodic market conduct examinations.

Guaranty Associations and Indemnity Funds. Most states and territories require insurance companies to support guaranty associations or indemnity funds, which are established to pay claims on behalf of insolvent insurance companies. These associations may levy assessments on member insurers. In some states and territories, member insurers can recover a portion of these assessments through premium tax offsets and/or policyholder surcharges.

Insurance Regulatory Initiatives. The NAIC, state and territory regulators and professional organizations have considered and are considering various proposals that may alter or increase state and territory authority to regulate insurance companies and insurance holding companies. See “Item 1A – Risk Factors – Legal and Regulatory Risks – *Changes in insurance regulation may reduce our profitability and limit our growth*” for a discussion of the risks related to such initiatives.

Federal Regulation

Although our business in the United States is primarily regulated by the states, federal initiatives often have an impact on our business in a variety of ways. Impacted areas include financial services regulation, privacy, tort reform legislation and taxation. In addition, various forms of direct and indirect federal regulation of insurance have been proposed from time to time, including proposals for the establishment of an optional federal charter for insurance companies. See “Item 1A – Risk Factors – Legal and Regulatory Risks – *Our business is subject to risks related to litigation and regulatory actions.*”

Employee Retirement Income Security Act. We are subject to regulation under the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). ERISA places certain requirements on how we may administer employee benefit plans covered by ERISA. Among other things, regulations under ERISA set standards for certain notice and disclosure requirements and for claim processing and appeals.

Gramm-Leach-Bliley Act. Certain of our activities are subject to the privacy requirements of the Gramm-Leach-Bliley Act, which, along with regulations adopted thereunder, generally requires insurers to provide customers with notice regarding how their nonpublic personal financial information is used and the opportunity to “opt out” of certain disclosures, if applicable.

Dodd-Frank Wall Street Reform and Consumer Protection Act. Regulations under the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”) address mortgage servicers’ obligations to correct errors asserted by mortgage loan borrowers; provide certain information requested by such borrowers; and provide protections to such borrowers in connection with lender-placed insurance. These requirements affect our operations because, in many instances, we administer such operations on behalf of our mortgage servicer clients. While the Consumer Financial Protection Bureau (the “CFPB”) does not have direct jurisdiction over insurance products, it is possible that additional regulations promulgated by the CFPB may extend its authority more broadly to cover these products and others we offer. In addition, the Dodd-Frank Act created the Federal Insurance Office (“FIO”) within the U.S. Department of the Treasury (“U.S. Treasury”). While the FIO does not have general supervisory or regulatory authority over the business of insurance, the FIO director performs various functions with respect to insurance, including monitoring the insurance sector and representing the U.S. on prudential aspects of international insurance matters, including at the International Association of Insurance Supervisors (“IAIS”). Additional regulations or new requirements may emerge from the activities of these regulatory entities.

Tax Reform. The Company is subject to the tax laws in the U.S. federal, state and foreign jurisdictions where we operate. For example, the Organization for Economic Cooperation and Development (the “OECD”) has issued Pillar Two Model Rules that include a 15% global minimum tax on the income of certain corporations, and recently issued administrative guidance and safe harbor rules around its implementation. Many jurisdictions where we operate, including Japan and the United Kingdom, have adopted Pillar Two for tax years beginning in 2024. In addition, in July 2025, the One Big Beautiful Bill Act (the “OBBBA”) was enacted, introducing a broad range of U.S. tax reform provisions. Additional regulation and guidance with respect to the implementation of certain OBBBA provisions are expected in 2026. For more information, see “Item 1A – Risk Factors – Legal and Regulatory Risks – *Changes in tax laws and regulations could have a material adverse impact on our results of operations and financial condition.*”

International Regulation

We are subject to regulation and supervision of our international operations in various jurisdictions. These regulations, which vary depending on the jurisdiction, include anti-corruption laws; solvency and market conduct regulations; various privacy, insurance, tax, tariff and trade laws and regulations; and corporate, employment, intellectual property and investment laws and regulations. We operate in various jurisdictions, including Canada, the U.K., France, Argentina, Australia, Brazil, Chile, Peru, Colombia, Germany, India, the Netherlands, New Zealand, Puerto Rico, Spain, Italy, Mexico, Japan, South Korea, Hong Kong and Singapore, and, in several of these jurisdictions, our businesses are supervised by local regulatory authorities.

In the past few years, the IAIS developed a model common framework for the supervision of Internationally Active Insurance Groups (“IAIGs”), which includes group-wide supervisory oversight across national boundaries and the establishment of ongoing supervisory colleges (“ComFrame”). ComFrame applies to entities that meet the IAIS’s criteria for IAIGs and that are so designated by their group-wide supervisor. The NAIC previously adopted changes to the Model Insurance Holding Company System Regulatory Act to allow state insurance regulators in the U.S. to be designated as group-wide supervisors for U.S.-based IAIGs. While we do not currently meet the criteria for IAIG designation, we are monitoring developments of reforms adopted by the IAIS as they influence NAIC activities, including those related to risk and group capital oversight.

Securities and Corporate Governance Regulation

As a company with publicly-traded securities, we are subject to certain legal and regulatory requirements applicable generally to public companies, including the rules and regulations of the U.S. Securities and Exchange Commission (the “SEC”) and the New York Stock Exchange (the “NYSE”) relating to public reporting and disclosure, accounting and financial reporting, corporate governance and other matters. One of our subsidiaries is a broker-dealer that is registered with the SEC and

with state securities commissions, and it is a member of the Financial Industry Regulatory Authority. Additionally, we and our subsidiaries are subject to the corporate governance laws of our respective jurisdictions of incorporation or formation.

Consumer Protection Laws

Numerous federal, state and international consumer protection laws affect the Company. For example, the CFPB may take the position that it has the authority to regulate certain non-insurance consumer services we provide. In addition, new or amended international regulations relating to fair value and fair treatment relating to products and services for consumers are being further considered or proposed, depending on the jurisdiction.

Anti-Corruption Regulation

We are subject to certain U.S. and foreign laws applicable to businesses generally, including anti-corruption laws. The Foreign Corrupt Practices Act of 1977 (the “FCPA”) regulates U.S. companies in their dealings with foreign officials and prohibits bribes and similar practices. In addition, the U.K. Anti-Bribery Act has wide applicability to certain activities that affect U.K. companies, their commercial activities in the U.K., and potentially that of their affiliates located outside of the U.K. Anti-bribery and corruption laws and regulations continue to be implemented and/or enhanced across most of the jurisdictions in which we operate.

Privacy, Data Protection, Cybersecurity and Artificial Intelligence

We are subject to a variety of laws and regulations in the U.S. and abroad regarding privacy, data protection and data security, and these requirements continue to evolve. Since the enactment of EU General Data Protection Regulation (“GDPR”), multiple countries where we conduct business have enacted or are in the process of implementing GDPR-influenced data protection laws. In the United States, we are subject to a variety of federal and state privacy and data security laws and regulations. At the state level, the NAIC Insurance Data Security Model Law has been enacted in multiple states, imposing an array of detailed security measures, reporting and attestation requirements on insurance companies. The accelerated rate of adoption poses challenges for businesses as implementation and compliance may necessitate modifications to businesses processes, technological infrastructure, security measures and customer-facing websites.

Cybersecurity risks and incidents remain a focus for regulators. For example, in July 2023, the SEC adopted new rules for public companies requiring disclosure of material cybersecurity incidents and periodic disclosures regarding cybersecurity risk management, strategy and governance. Furthermore, the New York Department of Financial Services’ 2023 amendments to its cybersecurity rule continued to phase in through 2025, adding requirements for governance, risk assessments, multi-factor authentication and expanded notification duties. In addition, the EU Digital Operational Resilience Act became effective in January 2025, imposing enhanced information and communications technology risk management, resilience testing and incident-response obligations on financial services firms.

We are also monitoring increased regulatory activity related to AI, including machine learning tools. For example, the NAIC has adopted a model bulletin to inform and articulate expectations for AI governance for insurers. As of the end of 2025, over 20 states have adopted the bulletin with additional adoption expected in 2026, and several states, including Colorado, New York and California, have adopted their own AI regulations or guidance specific for the insurance industry. Internationally, the European Union Artificial Intelligence Act entered into force in August 2024, with phased obligations beginning in 2025. In November 2025, the European Commission proposed a ‘Digital Omnibus’ package that would extend or condition certain compliance deadlines, potentially pushing requirements set for 2026 into 2027 or later.

Climate-Related Regulation

We are subject to various federal, state, and international regulations regarding climate risk disclosure. For example, California has enacted climate-disclosure laws, and recent proposals to delay their compliance deadlines did not pass. As a result, in-scope companies are expected to begin reporting under these laws as early as 2026, subject to ongoing legal challenges.

Other Regulation

As we continue to grow and evolve our business mix to cover other non-insurance-based products and services, we have been and will continue to become subject to other legal and regulatory requirements. Examples include U.S. and local customs and trade regulations for the movement of mobile devices across geographic borders; health, safety, labor and environmental regulations, including those impacting our mobile supply chain operations; U.S. and international laws and regulations broadly relating to the performance, transparency and reporting of sustainability matters; and antitrust and competition-related laws and regulations that may impact future transactions or business practices.

Global Risk Management

Governance

We employ a risk governance structure, overseen by our Board and senior management and led by the Global Risk Management function, to provide a common framework for (i) evaluating the risks embedded in and across our businesses and functional areas, (ii) developing risk appetites, (iii) managing these risks, and (iv) identifying current and future risk challenges and opportunities.

Global risk management is the responsibility of the Chief Risk Officer (the “CRO”), who leads the Global Risk Management function, which reports to the Enterprise Risk Committee and to the Finance and Risk Committee of the Board. The CRO reports at least quarterly to the Finance and Risk Committee of the Board and reports at least annually to the Board. Our Enterprise Risk Management (“ERM”) Framework sets out our approach to risk governance, risk appetite, roles and responsibilities, and core risk processes. It is reviewed annually to align with the Company’s business operations and strategy, as well as changes to applicable laws, regulations and industry standards, and it is approved annually by the Board.

Our risk management framework cascades into the enterprise through various management-level risk committees. Our risk governance structure is headed by the Enterprise Risk Committee, comprised of the CEO, the Chief Financial Officer, the Chief Strategy and Transformation Officer, other members of the Management Committee, as well as the CRO, the Treasurer, the Chief Internal Auditor, and the Global Chief Ethics and Compliance Officer. The Enterprise Risk Committee reviews the Company’s key enterprise risks, sets and monitors risk appetite, and oversees mitigation and remediation plans.

Board of Directors and Committee Oversight

The Board, directly and through its committees as described in their charters, oversees our risk management framework and practices, including our risk appetite, and discusses risk-related issues at least quarterly. The Board reviews and approves our ERM Framework and risk appetite annually.

The Nominating and Corporate Governance Committee coordinates Board and committee oversight of the key enterprise risks. The Board and its committees receive updates from management on specific risks throughout the year, and each committee chair reports significant risk updates at least quarterly to the full Board so that the Board has the benefit of each committee’s specific areas of risk oversight. The Nominating and Corporate Governance Committee focuses on risks relating to director succession and has ultimate oversight responsibility for how we manage sustainability.

The Audit Committee reviews our policies with respect to risk assessment and risk management and coordinates with the Finance and Risk Committee with respect to Board oversight of risk management and Global Risk Management activities. The Audit Committee also focuses on risks relating to financial statements, internal control over financial reporting, disclosures, and compliance with legal and regulatory requirements. The Audit Committee receives reports at least quarterly from the Chief Internal Auditor and the Global Chief Ethics and Compliance Officer.

The Finance and Risk Committee has primary oversight responsibility for the Global Risk Management function and corresponding risk activities. It receives risk management reports at least quarterly from the CRO that include the identification, assessment, reporting, and mitigation of existing and emerging key enterprise risks. The Finance and Risk Committee also focuses on risks relating to investments, capital management, catastrophes and reinsurance.

The Compensation and Talent Committee focuses on risks relating to management succession, talent management and compensation plan design.

The Information Technology Committee is responsible for oversight of information technology risk assessment and risk management. This includes oversight of cybersecurity policies, controls, training, technology and procedures, such as procedures to identify and assess internal and external cybersecurity risks. The Information Technology Committee also reviews and assesses the impact of AI on operations, risk management and control processes. The Information Technology Committee receives updates from management, including the Chief Information Security Officer, on internal and external cybersecurity risks at least quarterly.

In fulfilling its responsibilities, the Board and each committee have the authority to retain external advisors. We believe that the Board’s leadership structure supports the risk oversight function of the Board and its committees, with the Board’s five committees providing oversight of our risk management program within their purview and reporting back to the Board, while the Board retains broader oversight.

Management Oversight

Global Risk Management develops risk assessment and risk management guidelines, and facilitates the identification and assessment, monitoring and reporting, and mitigation of risks. The Company uses the three lines of defense operating model to provide structure around risk management and internal controls.

The first line of defense is comprised of the business and functional areas that are responsible for the daily management of Company's business operations and related risks. The second line of defense provides independent oversight of risk-taking activities in the first line and is comprised of the Company's Global Risk Management and Compliance functions. The second line of defense assists in determining the risk appetite, strategies, guidelines and structure for managing risk, including strategic and business risk, financial risk, and operational risk. The third line of defense is comprised of the Internal Audit and Advisory Services ("IAAS") function and is independently governed by the Audit Committee. IAAS evaluates the effectiveness and adequacy of the Company's control environment and other components of our governance system, including compliance with policies, procedures and processes established in the first and second lines, and assesses the design and ongoing effectiveness of risk management and the risk management framework.

Risk Appetite, Identification and Assessment, Monitoring and Reporting, and Mitigation

Risk appetite defines the levels, types and amount of risk that the Company is willing to accept in the pursuit of its business and strategic objectives, consistent with prudent management of risk concomitant with available levels of capital. Global Risk Management, in conjunction with various risk committees, develops recommendations for risk limits as part of our ERM Framework. Using metrics as appropriate in establishing these risk limits allows for a cohesive assessment of risk, resources and strategy, and supports management and the Board in making well-informed business decisions.

Risk identification and assessment are performed by Global Risk Management and conducted in coordination with the first line and Compliance. Risks are classified using an enterprise-wide risk taxonomy. Risk reporting provides tracking of each risk. The risk identification and assessment process feeds into reporting and serves to escalate any elevated or emerging risks for review and action. Risk reporting also includes reporting on the progress of key initiatives and risk mitigation activities. Risk mitigation includes determining a course of action and monitoring progress against remediation.

Available Information

Our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and all amendments to such reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as well as the Statements of Beneficial Ownership of Securities on Forms 3, 4 and 5 for our directors and applicable officers, are available free of charge through the SEC website at www.sec.gov. We make our periodic reports and other information filed with or furnished to the SEC available, free of charge, through the Investor Relations page of our website (www.assurant.com) as soon as reasonably practicable after they are electronically filed with or furnished to the SEC.

We use our website (www.assurant.com) and social media accounts, including LinkedIn ([@Assurant](#)), X (formerly Twitter) ([@Assurant](#)) and Facebook ([@Assurant](#)), as a means of disclosing information about us and our services and for complying with our disclosure obligations under the SEC's Regulation FD (Fair Disclosure). The information we post on our website and social media accounts may be deemed material. Accordingly, investors should monitor our website and social media accounts in addition to following our SEC filings, press releases, and public conference calls and webcasts. Except as specifically noted, the information found on our website and social media accounts are not incorporated by reference into, and do not constitute a part of, this Report or any other report filed with or furnished to the SEC.

Item 1A. Risk Factors

Certain factors may have a material adverse effect on our business, financial condition, results of operations and cash flows. You should carefully consider them, along with the other information presented in this Report. It is not possible to predict or identify all such factors. Additional risks and uncertainties that are not yet identified or that we currently believe to be immaterial may also materially harm our business, financial condition, results of operations and cash flows.

The following is a summary of the material risks that could adversely affect our business, financial condition, results of operations and cash flows.

Business, Strategic and Operational Risks

- Our revenues and profits may decline if we are unable to maintain relationships with significant clients, distributors and other parties, or renew contracts with them on favorable terms, or if those parties face financial, reputational or regulatory issues.
- Significant competitive pressures, changes in customer preferences and disruption could adversely affect our results of operations.
- The success of our business depends on the execution of our strategy, including through organic growth and the continuing service of key executives, senior leaders, highly-skilled personnel and a high-performing workforce.
- We may be unable to find suitable acquisition candidates at attractive prices, integrate acquired businesses or divest of non-strategic businesses effectively, which could have a material adverse effect on our business, financial condition and results of operations.
- Our inability to successfully recover should we experience a business continuity event could have a material adverse effect on our business, financial condition and results of operations.
- Failure to successfully manage vendors and other third parties could adversely affect our business.
- We face risks associated with our international operations.
- Our mobile business is subject to the risk of declines in the value and availability of mobile devices, and to regulatory compliance and other risks.
- Sales of our products and services may decline if we are unable to develop and maintain distribution sources or attract and retain sales representatives and executives with key client relationships.
- We face risks associated with joint ventures, franchises and investments in which we share ownership or management with third parties.
- Catastrophe and non-catastrophe losses, including as a result of climate change and the current inflationary environment, could materially reduce our profitability and have a material adverse effect on our results of operations and financial condition.
- Negative publicity relating to our business, industry or clients may have a material adverse effect on our financial results.

Macroeconomic, Political and Global Market Risks

- General economic, financial market and political conditions and conditions in the markets in which we operate may materially adversely affect our results of operations and financial condition.

Financial Risks

- Our actual claims losses may exceed our reserves for claims, requiring us to establish additional reserves or to incur additional expense for settling unreserved liabilities, which could have a material adverse effect on our results of operations, profitability and capital.
- We may be unable to accurately predict and price for claims and other costs, which could reduce our profitability.
- A decline in the financial strength ratings of our insurance subsidiaries could adversely affect our results of operations and financial condition.
- A credit rating agency downgrade of our corporate senior debt rating could materially and adversely impact our business.
- Fluctuations in the exchange rate of the U.S. Dollar and other foreign currencies may materially and adversely affect our results of operations.
- An impairment of our goodwill or other intangible assets could materially adversely affect our results of operations and book value.
- Failure to maintain effective internal control over financial reporting could have a material adverse effect on our business and stock price.
- Unfavorable conditions in the capital and credit markets may significantly and adversely affect our access to capital and our ability to pay our debts or expenses.
- Our investment portfolio is subject to market risk, including changes in interest rates, that may adversely affect our results of operations and financial condition.
- Our investment portfolio is subject to credit, liquidity and other risks that may adversely affect our results of operations and financial condition.

- The value of our deferred tax assets could become impaired, which could materially and adversely affect our results of operations and financial condition.
- Reinsurance may not be adequate or available to protect us against losses, and we are subject to the credit risk of reinsurers.
- Through reinsurance, we have sold or exited businesses that could again become our direct financial and administrative responsibility if the reinsurers become insolvent.
- We are exposed to risks related to the creditworthiness and reporting systems of some of our agents, third-party administrators and clients.
- Our subsidiaries' inability to pay us sufficient dividends could prevent us from meeting our obligations and paying future stockholder dividends.
- Our ability to declare and pay dividends on our capital stock may be limited.
- Actual results may differ materially from the analytical models we use to assist in our decision-making in key areas such as pricing, catastrophe risks, reserving and capital management.

Technology, Cybersecurity and Privacy Risks

- The failure to effectively maintain and modernize our technology systems and infrastructure and integrate those of acquired businesses could adversely affect our business.
- We could incur significant liability if our technology systems or those of third parties are breached or we or third parties otherwise fail to protect the security of data residing on our respective systems, which could adversely affect our business and results of operations.

Legal and Regulatory Risks

- We are subject to extensive laws and regulations, which increase our costs and could restrict the conduct of our business, and violations or alleged violations of such laws and regulations could have a material adverse effect on our reputation, business and results of operations.
- Changes in tax laws and regulations could have a material adverse impact on our results of operations and financial condition.
- Our business is subject to risks related to litigation and regulatory actions.
- The costs of complying with, or our failure to comply with, U.S. and foreign laws related to privacy, data security and data protection could adversely affect our financial condition, operating results and reputation.
- Our business is subject to risks related to reductions in the insurance premium rates we charge.
- Changes in insurance regulation may reduce our profitability and limit our growth.

General Risk Factors

- Our common stock may be subject to stock price and trading volume volatility.
- Employee misconduct could harm us by subjecting us to significant legal liability, regulatory scrutiny and reputational harm.
- Applicable laws and our certificate of incorporation and by-laws may discourage takeovers and business combinations that some stockholders might consider to be in their best interests.

For a more complete discussion of these risks, please see below.

Business, Strategic and Operational Risks

Our revenues and profits may decline if we are unable to maintain relationships with significant clients, distributors and other parties, or renew contracts with them on favorable terms, or if those parties face financial, reputational or regulatory issues.

The success of our business depends largely on our relationships and contractual arrangements with significant clients, distributors and other parties, including vendors. Many of these arrangements are exclusive and some rely on preferred provider or similar relationships. If our key clients, distributors or other parties terminate important business arrangements with us, reduce their business with us or renew contracts on terms less favorable to us, which occurs from time to time, we may fail to meet our business objectives and targets, and our cash flows, results of operations and financial condition could be materially adversely affected.

Each of our Global Lifestyle and Global Housing segments receives a substantial portion of its revenues from a few clients. A reduction in business with or the loss of one or more of our significant clients could have a material adverse effect on the results of operations and cash flows of individual segments or the Company. Reliance on a few significant clients may

weaken our bargaining power, and we may be unable to renew contracts with them without concessions (including up-front payments) or on favorable terms or at all. Examples of important business arrangements include: in Global Lifestyle, exclusive and non-exclusive relationships with the mobile eco-system (including carriers, retailers, OEMs and cable MSOs), dealerships and agents, consumer electronics retailers, appliance retailers (including e-commerce retailers), commercial equipment manufacturers and dealers, and financial, insurance and other institutions through which we distribute our products and services; and in Global Housing, exclusive and non-exclusive relationships with mortgage lenders and servicers, manufactured housing lenders, property managers, and financial, insurance and other institutions.

We are subject to the risk that clients, distributors and other parties may face financial difficulties (including as a result of macroeconomic challenges), reputational issues, problems with respect to their own products and services, or regulatory restrictions or compliance issues that may lead to lower than expected or cessation of sales of our products and services and have other adverse impacts on our results of operations or financial condition. In addition, our clients and other parties with whom we do business may change their strategic priorities or initiatives, including exiting or deprioritizing products, services, programs, distribution channels or lines of business that we service or support. They may disintermediate us by developing internal capabilities, products or services that would allow them to service their clients without our involvement, which has occurred from time to time and may materially reduce our revenues and profits. Furthermore, if one or more of our clients or distributors, for example in the mobile, automotive or mortgage servicing markets, consolidate or align themselves with other companies with whom we do not do business, they may choose to utilize or distribute the products and services of our competitors, which has occurred from time to time and could materially reduce our revenues and profits.

Significant competitive pressures, changes in customer preferences and disruption could adversely affect our results of operations.

We compete for business, clients, customers, agents and other distribution relationships with many insurance companies, warranty and protection companies, financial services companies, mobile device repair and logistics companies, technology and software companies and specialized competitors that focus on one market, product or service. Some of our competitors may: offer a broader array of products and services than we do or more favorable terms; be better able to tailor those products and services to client and customer needs, including through better technology systems or infrastructure; or have greater diversity of distribution resources, better brand recognition, more competitive pricing, lower costs, greater financial strength or ratings, more resources or higher quality of service.

Additionally, customers may turn to our competitors because of our or our client's failure, or perceived failure, to deliver on customer expectations, product or service flaws, technology issues, gaps in operational support or other issues affecting customer experience. As a result, competition may adversely affect the persistency of our policies, our ability to sell products and provide services, maintain client relationships (including significant clients), and our revenues and results of operations, which has occurred from time to time.

The evolving nature of consumer needs and preferences and improvements in technology could result in a reduction in consumer demand and in the prices of the products and services we offer. Our competitive position may be impacted if we are unable to develop, use or integrate, in an effective, compliant and competitive manner, technology such as AI and machine learning, or if our competitors collect and use data that we do not have the ability to access or use. AI technologies may fail, underperform expectations or disrupt business operations, and there can be no assurance that our use of AI will enhance our products or services, or be beneficial to our business.

In addition, across many of our businesses, we must respond to the threat of disruption by traditional players, such as insurers, from new entrants, such as "Insurtech" companies, and from their use of technologies such as AI. These players are focused on using technology and innovation to simplify and improve the customer experience, increase efficiencies, alter business models and effect other potentially disruptive changes in the markets in which we operate. To maintain a competitive position, we must continue to invest in new technologies, including AI, and new ways to deliver our products and services. If we do not anticipate and respond effectively to changes in customer preferences, new industry standards, evolving distribution models, disruptive technology developments, including AI, and alternative business models, our business and results of operations could be adversely impacted.

The success of our business depends on the execution of our strategy, including through organic growth and the continuing service of key executives, senior leaders, highly-skilled personnel and a high-performing workforce.

Our strategy is focused on delivering long-term profitable growth. As part of our strategy, we are developing new and innovative products and services and enhancing existing offerings. We are investing in technology and digital capabilities, including AI and our Innovation and Device Care Center, and in our home warranty business. We are also enhancing operational efficiency and accessing global talent hubs, including through our Global Capability Centers. In recent years, we realigned our organizational structure and talent to support our business strategy, and accelerated ongoing real estate consolidation efforts. We may not be able to realize our expected growth objectives and operational efficiency improvements from these and future initiatives.

Our ability to effectively identify and capitalize on opportunities for growth, including within home warranty, depends on, among other things, our ability to: deliver on customer expectations and provide a positive customer experience; successfully execute large-scale, critical programs and projects in a timely and cost-effective manner; identify and successfully enter and scale our services in new geographic markets and market segments; recruit and retain qualified personnel; coordinate our efforts across various geographic markets and market segments; maintain and grow relationships with our existing customers and expand our customer base; offer new products and services; form strategic alliances and partnerships; secure key vendor and distributor relationships; and access sufficient capital. Our failure to effectively execute our long-term strategy, including achieving growth, innovation and efficiency, could have a material adverse effect on our business, results of operations and financial condition.

We rely on the continued service of key executives, senior leaders, highly-skilled personnel and a high-performing workforce to achieve our long-term strategy. We believe that our future success depends in substantial part on our ability to attract, recruit, motivate, develop and retain a high-performing workforce, including those with specialized industry knowledge or within critical or in-demand areas. Doing so may be difficult due to many factors, including fluctuations in economic and industry conditions; employee expectations; the effectiveness of our talent strategies and total rewards and wellbeing programs; and fluctuations in the labor market, including rising wages and competition for talent. We rely on attracting, retaining, developing and motivating talent, including at the executive level, to effectively manage our businesses and drive our long-term strategy. If we do not succeed in attracting, retaining and developing key talent, our revenue growth and profitability may be materially adversely affected. Furthermore, our business and results of operations could be adversely affected if we fail to adequately plan for and successfully carry out the succession of our key executives and senior leaders.

We may be unable to find suitable acquisition candidates at attractive prices, integrate acquired businesses or divest of non-strategic businesses effectively, which could have a material adverse effect on our business, financial condition and results of operations.

There can be no assurance that we will continue to be able to identify suitable acquisition candidates or new venture opportunities, or to finance or complete transactions on acceptable terms or in a timely manner. Additionally, the integration of acquired businesses and divestiture of non-strategic businesses or assets may result in significant challenges and additional costs, and we may be unable to accomplish such transactions efficiently or effectively.

Acquisitions of businesses and divestitures of non-strategic businesses may not provide us with the benefits that we anticipate, may require significant effort and expenditures, and may entail numerous risks, difficulties and uncertainties. These include, among others, diversion of management's attention and resources to the integration of operations and infrastructure, which could otherwise have been devoted to other strategic opportunities; inaccurate assessment of risks and liabilities; difficulties in realizing projected revenues, earnings, cash flows, business opportunities, growth prospects, efficiencies, synergies and cost savings, including the incurrence of unexpected integration, compliance or divestiture costs; reputational risks; difficulties in keeping existing customers and obtaining new customers; exposure to jurisdictions or businesses with heightened legal and regulatory risks, including corruption, which may increase compliance costs; difficulties in integrating operations and systems, including cybersecurity and other technology systems, and internal control over financial reporting; difficulties in assimilating employees and corporate cultures; an increase in our indebtedness or future borrowing costs; and limitations on our ability to access additional capital when needed. Our failure to adequately address these and other transaction risks, difficulties and uncertainties could materially adversely affect our results of operations and financial condition.

The market price of our stock may decline if we are unable to integrate acquired businesses or divest of non-strategic businesses successfully, if the integration or divestiture takes longer than expected or fails to achieve financial benefits to the extent anticipated by financial analysts or investors, or if the effect of the business combination on the financial results of the combined company or the divestiture on the financial results of the standalone company is otherwise not consistent with the expectations of financial analysts or investors.

Our inability to successfully recover should we experience a business continuity event could have a material adverse effect on our business, financial condition and results of operations.

If we experience a business continuity event, such as an earthquake, hurricane, flood, terrorist incident, military conflict, pandemic, security breach, cybersecurity incident, power loss, telecommunications outage or other systems failure, or other disaster, our ability to continue operations will depend on an effective business continuity and disaster recovery plan, including the safety and continued availability of our personnel, including key executives, vendors and other third parties, and the proper functioning of our telecommunications and other systems and operations, including our device care centers and other facilities. An extended period of such conditions may strain our business continuity and disaster recovery plan, introduce additional operational risk, including cybersecurity and fraud risks, negatively impact employee morale, result in negative publicity, reputational harm and the loss of profitability and clients. Our inability to successfully recover from a business continuity event could have a material adverse effect on our business, financial condition and results of operations. See " – Technology,

Cybersecurity and Privacy Risks – *The failure to effectively maintain and modernize our technology systems and infrastructure and integrate those of acquired businesses could adversely affect our business.*”

Our operations depend upon our ability to protect our technology infrastructure against damage and interruption. If a business continuity event occurs, we could lose Company, customer, vendor and other third-party data, lose significant processing capability, or experience interruptions to our operations, the availability of our systems or delivery of products and services to our clients and their customers, which has occurred from time to time and which could have a material adverse effect on our business, financial condition and results of operations. We rely on certain third-party technology systems that have in the past experienced a business continuity event, which impacted our operations. A cybersecurity incident or other business continuity event affecting us or key third parties with whom we work could result in a significant and extended disruption in the functioning of our technology systems or operations, requiring us to incur significant expense to address and remediate or otherwise resolve such issues, and divert management’s attention. See “ – Technology, Cybersecurity and Privacy Risks – *We could incur significant liability if our technology systems or those of third parties are breached or we or third parties otherwise fail to protect the security of data residing on our respective systems, which could adversely affect our business and results of operations.*”

The risk of business disruption is more pronounced in certain geographic areas across the world, including the cities in which our device care centers, data centers and operations personnel are located; major metropolitan centers, such as Atlanta, where our headquarters is located; and certain catastrophe-prone areas, such as Miami, where we have a significant employee base. This risk is heightened in certain countries and regions in which we operate that are subject to higher potential threat of terrorist incidents, military conflicts, political instability and data breaches.

A disaster or other business continuity event on a significant scale or affecting our key businesses or our data centers, or our inability to successfully and quickly recover from such an event and any legislative and regulatory responses thereto, could materially interrupt our business operations and result in material financial loss, loss of human capital, regulatory actions, reputational harm, loss of clients and their customers or damaged relationships, legal liability and other adverse consequences. Our liability insurance policies may not fully cover, in type or amount, the cost of a successful recovery in the event of such a disruption.

Failure to successfully manage vendors and other third parties could adversely affect our business.

We rely on vendors and other third parties, including independent contractors, to conduct business and provide services to our clients. We use vendors and other third parties for business, investment management, technology, operations, facilities management and other services. For example, our ability to continue to develop, use and efficiently deploy AI technologies depends on access to specific third-party equipment and services. We take steps to monitor and regulate the performance of vendors and other third parties, including in our agreements with such parties, but our oversight controls could prove inadequate. Since we do not fully control the actions of vendors and other third parties, we are subject to the risk that their decisions or operations adversely impact us, and replacing them could create significant delay and expense. If these vendors or other third parties fail to satisfy their obligations to us or if they fail to comply with legal or regulatory requirements in a high-quality and timely manner, which has occurred from time to time, our operations or reputation could be compromised, and we could face legal, regulatory and financial consequences. In addition, these third parties face their own technology, operating, business and economic risks, and any significant failures by them, including the improper use or disclosure of our confidential client, employee or Company information, could expose us to liability. An interruption in or the cessation of service by any service provider as a result of systems failures, capacity constraints, financial difficulties or for any other reason has occurred from time to time and could materially disrupt our operations, limit our ability to offer certain products and services, or result in contractual or regulatory penalties, liability claims, damage to our reputation and harm to our business. If we are unable to attract and retain qualified vendors, independent contractors and other third-party service providers, or if changes in law or judicial decisions require independent contractors to be classified as employees, our business could be significantly adversely affected.

Our engagements with international vendors or third parties expose us to risks that accompany operations in a foreign jurisdiction, including international economic and political conditions, foreign laws and regulations, fluctuations in currency values and heightened data security risks. For more information on the risks associated with the use of international vendors and third parties, see “ – *We face risks associated with our international operations.*”

We face risks associated with our international operations.

Our international operations face economic, political, legal, compliance, regulatory, operational, supply chain and other risks. For example, we face the risk of, the imposition of sanctions, tariffs, trade barriers or other protectionist laws or business practices that favor local competition (including from the United States), increase costs and may otherwise adversely affect our business; inflation and foreign exchange rate fluctuations; restrictions on currency conversion and the repatriation of non-U.S. investments and earnings; burdens and costs of compliance with a variety of foreign laws and regulations and the associated risk and costs of non-compliance, including reputational harm; exposure to evolving legal systems, which may result in

unpredictable or inconsistent application of laws and regulations, including export controls and exposure to commercial, political, legal or regulatory risks such as corruption; political, economic or other instability in countries in which we conduct business, including possible terrorist acts; diminished ability to enforce our contractual rights; heightened data security risks; differences in cultural environments; changes in regulatory requirements, including changes in regulatory treatment of certain products or services; exposure to local economic conditions and its impact on our clients' performance and creditworthiness; and a competitive global labor market.

If our business model is not successful in a particular country or region, or a country or region in which we do business experiences economic, political or other instability, we may lose all or part of our investment in that country or region. As we continue to scale our global operations and grow our international labor force within Global Capability Centers, our business becomes increasingly exposed to these and other risks, including where certain countries or regions have experienced economic or political instability.

As we engage with international clients, we may make certain up-front commission payments or similar cash outlays, which we may not recover if the business does not develop as we expect. These up-front payments are typically supported by various protections, such as letters of credit, letters of guarantee and real estate, but we may not fully or timely recover amounts owed to us because of difficulties in enforcing contracts or judgments in evolving legal systems and other factors. In addition, we rely on fronting carriers in certain countries to maintain their licenses and product approvals, satisfy local regulatory requirements and continue in business. If they fail to do so, our business, reputation, and relationships with our clients and their customers could be adversely affected.

For additional information on the significant international regulations that apply to us and the risks relating thereto, see "Item 1 – Business – Regulation – International Regulation" in this Report, " – Business, Strategic and Operational Risks – *Our mobile business is subject to the risk of declines in the value and availability of mobile devices, and to regulatory compliance and other risks,*" " – Macroeconomic, Political and Global Market Risks – *General economic, financial market and political conditions and conditions in the markets in which we operate may materially adversely affect our results of operations and financial condition,*" " – Legal and Regulatory Risks – *We are subject to extensive laws and regulations, which increase our costs and could restrict the conduct of our business, and violations or alleged violations of such laws and regulations could have a material adverse effect on our reputation, business and results of operations,*" " – Legal and Regulatory Risks – *Our business is subject to risks related to litigation and regulatory actions*" and " – Legal and Regulatory Risks – *The costs of complying with, or our failure to comply with, U.S. and foreign laws related to privacy, data security and data protection could adversely affect our financial condition, operating results and reputation.*"

Our mobile business is subject to the risk of declines in the value and availability of mobile devices, and to regulatory compliance and other risks.

The value of the mobile devices that we collect and refurbish for our clients may fall below the prices we have paid or guaranteed, which could adversely affect our profitability. Our mobile business is subject to the risk that the value, including selling price, or availability of devices and parts will be adversely affected by: technological changes affecting the usefulness or desirability of the devices and parts; physical problems resulting from faulty design or manufacturing; increased competition; decreased customer demand, including due to changes in customer preferences, changes in client promotions and seasonality; changes in client forecasts and demand; supply chain constraints and our ability to manage inventory; and growing industry emphasis on cost containment. The value and availability of devices may also be impacted by adverse foreign trade relationships and an escalation of U.S.-China and China-Taiwan trade tensions. If the value or availability of devices or parts is significantly reduced, it could have a material adverse effect on our profitability.

Our sales of mobile devices to third parties, particularly those domiciled outside of the U.S., subject us to compliance costs and increased risk, including risks relating to corruption, sanctions and export control laws and regulations, which may result in fines or other sanctions, and increase the cost of operating the business. While we conduct diligence and screening for buyers of mobile devices that we sell, our mobile device buyers may not comply with applicable laws and regulations, including anti-money laundering laws. In addition, strong compliance standards may adversely impact our ability to find buyers. Furthermore, certain businesses we acquire may violate, and from time to time have violated, such laws and regulations, which could subject us to liability. Non-compliance with such laws could adversely affect our business, reputation, relationships with our clients and their customers, financial condition and results of operations. See " – *We face risks associated with our international operations*" and " – *Significant competitive pressures, changes in customer preferences and disruption could adversely affect our results of operations.*"

Sales of our products and services may decline if we are unable to develop and maintain distribution sources or attract and retain sales representatives and executives with key client relationships.

We distribute many of our insurance products and services through a variety of channels, including service providers (such as device carriers and cable operators), auto dealers and agents, financial institutions, mortgage lenders and servicers,

retailers, association groups, other third-party marketing organizations and, to a limited extent, our own captives and affiliated agents. Our relationships with these distributors are significant for our revenues and profits. There is intense competition for distribution outlets. Agents who distribute our products are typically not exclusively dedicated to us, but they also market the products of our competitors. In some cases, such agents may be affiliated with other insurers who may choose to write the product that such agents are now selling on our behalf.

We have our own sales representatives. We depend in large part on our sales representatives and business executives to develop and maintain client relationships. Our inability to attract and retain effective sales representatives and executives with key client relationships could materially adversely affect our results of operations and financial condition.

We face risks associated with joint ventures, franchises and investments in which we share ownership or management with third parties.

From time to time, we have entered into and may continue to enter into joint ventures and franchises and invest in entities in which we share ownership or management with third parties. In certain circumstances, we may not have complete control over governance, financial reporting, operations, legal and regulatory compliance, or other matters relating to such joint ventures, franchises or entities. As a result, we may face certain operational, financial, legal and regulatory compliance and other risks relating to these joint ventures, franchises and entities, including risks related to the financial strength of joint venture partners, franchisees and other investors; the willingness of joint venture partners, franchisees and other investors to provide adequate funding for the joint venture, franchise or entity; differing goals, strategies, priorities or objectives between us and joint venture partners, franchisees or other investors; our inability to unilaterally implement actions, policies or procedures with respect to the joint venture, franchise or entity that we believe are favorable; legal and regulatory compliance risks relating to actions of the joint venture, franchise, entity, joint venture partners, franchisees or other investors; the risk that the actions of joint venture partners, franchisees and other investors could damage our brand image and reputation; and the risk that we will be unable to resolve disputes with joint venture partners, franchisees or other investors. As a result, joint ventures, franchises and investments in which we share ownership or management subject us to risk and may contribute significantly less than anticipated to our earnings and cash flows.

Catastrophe and non-catastrophe losses, including as a result of climate change and the current inflationary environment, could materially reduce our profitability and have a material adverse effect on our results of operations and financial condition.

Our insurance operations expose us to claims arising from catastrophes and other events, particularly in our homeowners insurance, renters insurance and flood offerings, as well as in certain businesses the Company has fully exited or expects to fully exit. Catastrophes include hurricanes, windstorms, tornados, earthquakes, hailstorms, floods, severe winter weather, wildfires, terrorist incidents and accidents, and may result in reportable catastrophe losses, which are individual catastrophe events that generate losses in excess of \$5.0 million, pre-tax, net of reinsurance and client profit sharing adjustments, and including reinstatement and other premiums. Non-catastrophe losses include losses from isolated fire, water and wind damage, theft and vandalism, as well as general liability in renters and homeowners policies. Losses are impacted by increases in inflation and supply chain disruptions that have increased and may continue to increase the cost of materials and labor required to settle claims, particularly in our Global Housing and Global Automotive businesses. We have experienced, and expect to continue to experience, catastrophe and non-catastrophe losses that materially reduce our profitability and impact our available capital, which may have a material adverse effect on our results of operations and financial condition.

Changing weather patterns and climate change have increased the unpredictability, frequency and severity of weather-related events, such as wildfires, hurricanes, floods and tornadoes, particularly in coastal areas such as Florida, California and Texas, has in the past and may in the future result in increased claims and higher catastrophe losses, which could have a material adverse effect on our results of operations and financial condition. We cannot predict how legal, regulatory, political and social responses to concerns around climate change may impact our business. While the frequency and severity of catastrophes are inherently unpredictable, increases in the value and geographic concentration of insured property and the effects of inflation have and may continue to increase the frequency and severity of claims from catastrophes. In addition, legislative and regulatory initiatives and court decisions may have the effect of limiting the ability of insurers to manage catastrophe losses, including by forcing expansion of certain insurance coverages for catastrophe claims, which may adversely impact our business. See “ – Macroeconomic, Political and Global Market Risks – *General economic, financial market and political conditions and conditions in the markets in which we operate may materially adversely affect our results of operations and financial condition.*”

Catastrophe and non-catastrophe losses can vary widely and could significantly exceed our expectations. We use modeling tools that help estimate our probable losses, but these projections are based on historical data and other assumptions that may differ materially from actual events, and their reliability and predictive value may decrease as a result of climate change. These modeling tools may not be able to anticipate emerging trends or changing marketplace conditions. See “ –

Financial Risks – *Actual results may differ materially from the analytical models we use to assist in our decision-making in key areas such as pricing, catastrophe risks, reserving and capital management.*”

We purchase reinsurance for certain risks, but if the severity of an event were sufficiently high, our losses could exceed our reinsurance coverage limits and could have a material adverse effect on our results of operations and financial condition. In addition, the availability and cost of reinsurance can be adversely impacted by market conditions. See “ – Financial Risks – *Reinsurance may not be adequate or available to protect us against losses, and we are subject to the credit risk of reinsurers.*” Claims from catastrophe and non-catastrophe events could result in substantial volatility in our results of operations and financial condition for any particular fiscal quarter or year.

Accounting rules do not permit insurers to reserve for catastrophe or non-catastrophe events before they occur. Once such an event occurs, the establishment of appropriate reserves is an inherently uncertain and complex process. The ultimate cost of losses may vary materially from recorded reserves and such variance may have a material adverse effect on our results of operations, financial condition and capital. See “ – Financial Risks – *Our actual claims losses may exceed our reserves for claims, requiring us to establish additional reserves or to incur additional expense for settling unreserved liabilities, which could have a material adverse effect on our results of operations, profitability and capital.*”

Because Global Housing’s lender-placed homeowners and lender-placed manufactured housing insurance products are designed to automatically provide property coverage for client portfolios, our exposure to certain catastrophe-prone locations, such as Florida, California and Texas, may increase. The withdrawal of other insurers from these or other states may lead to adverse selection and increased use of our products in these areas, and it may negatively affect our loss experience and increase our costs.

Negative publicity relating to our business, industry or clients may have a material adverse effect on our financial results.

We communicate with and distribute our products and services ultimately to individual customers. From time to time, regulators, consumer advocacy groups, the media and individual customers may focus their attention on our products and services, or on the broader industries in which we operate, which may subject us to negative publicity. We may be negatively affected if another company in one of our industries or in a related industry, or if one of our clients, engages in practices that subject our industry or businesses to negative publicity. Negative publicity may result from judicial inquiries, unfavorable outcomes in lawsuits, social media, regulatory or governmental actions, including with respect to our products or services and industry commercial practices. For example, regulators may submit queries to assess and ensure fair practices and fair value from our products and services. In addition, there is stakeholder and regulatory focus on sustainability matters, including workforce inclusion, which has recently been subject to significant change and varies among jurisdictions, and could subject us to negative publicity. An actual or perceived increase in related risks as a result of our or our industries’ business activities, may subject us to negative publicity.

Negative publicity may cause increased regulation and legislative scrutiny of industry practices as well as increased litigation or enforcement action by civil and criminal authorities. Additionally, negative publicity may increase our costs of doing business and adversely affect our profitability by impeding our ability to market our products and services, constraining our ability to price our products appropriately for the risks we are assuming, requiring us to change the products and services we offer or increasing the regulatory burdens under which we operate.

Macroeconomic, Political and Global Market Risks

General economic, financial market and political conditions and conditions in the markets in which we operate may materially adversely affect our results of operations and financial condition.

Limited availability of credit, disruptive geopolitical events (including regional and global conflicts and trade relations), supply chain disruptions, deteriorations of the global economies, including mortgage and real estate markets, declines in consumer confidence and consumer spending, increases in prices or in the rate of inflation, periods of high unemployment or labor shortages, persistently low or rapidly increasing interest rates, and other events outside of our control (such as a major epidemic or a pandemic, political or civil unrest, the recent U.S. government shutdown or the possibility of a default on U.S. debt obligations), could contribute, and in some cases have contributed, to increased volatility and diminished expectations for the economy and the financial markets, including the market for our stock. In addition, there is continued uncertainty concerning potential and recent actions by the current U.S. administration, including increased or new tariffs that may impact the cost of claims and disrupt supply chains. These factors may materially adversely affect our business, results of operations and financial condition. Specifically, during periods of economic downturn:

- individuals and businesses may (i) choose not to purchase our insurance products, extended service contracts and other products and services, (ii) terminate existing policies or contracts or permit them to lapse and (iii) choose to reduce the amount of coverage they purchase;

- conditions in the markets in which we operate may deteriorate, impacting, among other things, consumer demand for the mobile devices, electronics, appliances, automobiles, housing and other products we insure, including the rate of introduction and success of new products, technologies and promotional programs that provide opportunities for growth;
- clients are more likely to underperform expectations, experience financial distress and declare bankruptcy, which could have an adverse impact on the remittance of premiums from such clients and the collection of receivables from such clients for items such as unearned premiums and could otherwise expose us to credit risk;
- claims on certain specialized insurance products tend to rise;
- there is a risk of fraudulent insurance claims;
- there may be an impairment in the value of our tangible and intangible assets and our investment portfolio may be adversely affected;
- there may be fluctuations in the labor market and a negative impact on employee retention; and
- our ability to access the capital markets on favorable terms or at all may be negatively impacted.

General inflationary pressures and supply chain disruptions, including within the current environment, has and may continue to increase the costs of paying claims, including for materials and labor, particularly in our Global Housing and Global Automotive businesses. In addition, inflationary pressures and shortages in the labor market have increased, and may continue to increase, our labor costs, including employee wages, and changes in interest rates has impacted, and may continue to impact, our investment portfolio and capital. See “ – Financial Risks – *Our investment portfolio is subject to market risk, including changes in interest rates, that may adversely affect our results of operations and financial condition.*” Conversely, deflationary pressures may affect the pricing of our products and services.

Financial Risks

Our actual claims losses may exceed our reserves for claims, requiring us to establish additional reserves or to incur additional expense for settling unreserved liabilities, which could have a material adverse effect on our results of operations, profitability and capital.

We maintain reserves to cover our estimated ultimate exposure for claims and claim adjustment expenses with respect to reported claims and incurred but not reported (“IBNR”) claims as of the end of each accounting period. Whether calculated under accounting principles generally accepted in the United States of America (“GAAP”), Statutory Accounting Principles or accounting principles applicable in foreign jurisdictions, reserves are estimates. Reserving is inherently a matter of judgment and our ultimate liabilities could exceed reserves for a variety of reasons, including changes in macroeconomic factors (such as inflation, unemployment and interest rates), case development and other factors. From time to time, we adjust our reserves and our reserving methodology, as these factors, our claims experience and estimates of future trends in claims frequency and severity change. Reserve adjustments have caused volatility in our reported results. Reserve development, changes in our reserving methodology and paid losses exceeding corresponding reserves could have a material adverse effect on our results of operations, profitability and capital. See “Item 7 – Management’s Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Estimates – Reserves” in this Report for additional detail on our reserves.

We may be unable to accurately predict and price for claims and other costs, which could reduce our profitability.

Our profitability could be reduced if we are unable to accurately predict and price for claims and other costs, including the frequency and severity of property and other claims. This ability could be affected by various factors, including macroeconomic conditions; inflation; changes in the regulatory environment; changes in industry practices; changes in legal, social or environmental conditions; impacts from operational changes; new products; and new technologies or domestic or global supply chain or labor issues. In addition, our modeling tools that support business decisions involve historical data and numerous assumptions that may differ materially from actual events. Climate change may make it more difficult to predict and model catastrophes, reducing our ability to accurately price our exposure to such events and mitigate risks, particularly in our Global Housing business. The inability to accurately predict and price for claims and other costs, including costs related to climate change and macroeconomic conditions, could materially adversely affect our results of operations and financial condition. See “ – Financial Risks – *Actual results may differ materially from the analytical models we use to assist in our decision-making in key areas such as pricing, catastrophe risks, reserving and capital management.*”

A decline in the financial strength ratings of our insurance subsidiaries could adversely affect our results of operations and financial condition.

Ratings are important considerations in establishing the competitive position of insurance companies. A.M. Best rates most of our domestic and certain international operating insurance subsidiaries. Moody’s and S&P rate three of our domestic operating insurance subsidiaries. These ratings are subject to periodic review by A.M. Best, Moody’s and S&P, and we cannot

ensure that we will be able to retain them. Rating agencies may change their methodology or requirements for determining ratings, or they may become more conservative in assigning ratings. Rating agencies could increase capital requirements for our subsidiaries or the enterprise, thereby reducing deployable capital at such subsidiary or at the holding company. Any reduction in these ratings could materially adversely affect our standing in the insurance industry and the demand for our products from intermediaries and consumers, which could materially adversely affect our results of operations.

As of December 31, 2025, our operations had a significant number of contracts that contain provisions that require the applicable subsidiaries to maintain minimum financial strength ratings, typically from A.M. Best, ranging from “A” or better to “B+” or better, depending on the contract. Our clients may terminate these contracts or fail to renew them if the subsidiaries’ ratings fall below these minimums. Termination of or failure to renew these agreements could materially and adversely affect our results of operations and financial condition.

A credit rating agency downgrade of our corporate senior debt rating could materially and adversely impact our business.

Currently, Assurant, Inc.’s senior debt is rated BBB by S&P and Baa2 by Moody’s, and both ratings carry a stable outlook. If our senior debt credit ratings were downgraded, particularly if downgraded below investment grade, our business, financial condition and results of operations, and perceptions of our financial strength, could be materially and adversely affected. A downgrade could adversely affect our liquidity and ability to access liquidity quickly or at all, increase our borrowing costs, decrease demand for our debt securities, and increase the expense and difficulty of financing our operations, including temporary financing for subsidiaries necessary to address any immediate liquidity concerns, or refinancing our existing indebtedness on similar or more favorable terms. For example, the interest rate payable on certain series of our senior notes is subject to increase if either S&P or Moody’s downgrades the credit rating assigned to such series of senior notes to BB+ or below or to Ba1 or below, respectively. Additionally, we could be subject to more restrictive financial and operational covenants in any indebtedness we issue in the future, which could reduce our operational flexibility. There can be no assurance that our credit ratings will not be downgraded. See Note 18 to the Consolidated Financial Statements included elsewhere in this Report for additional information on our senior notes and the impact of rating changes.

Fluctuations in the exchange rate of the U.S. Dollar and other foreign currencies may materially and adversely affect our results of operations.

While most of our costs and revenues are in U.S. Dollars, some are in other currencies, including labor costs in our international locations and Global Capability Centers. Because our financial results in certain countries are translated from local currency into U.S. Dollars upon consolidation, our results of operations, including period-over-period comparisons, have been and may continue to be affected by foreign exchange rate fluctuations. If the U.S. Dollar weakens against a local currency, the translation of our foreign-currency-denominated balances will result in increased net assets, net revenue, operating expenses and net income. Similarly, our net assets, net revenue, operating expenses and net income will decrease if the U.S. Dollar strengthens against a local currency. These fluctuations in currency exchange rates may result in losses that materially and adversely affect our results of operations.

Additionally, we may incur foreign exchange losses in connection with the designation of the U.S. Dollar as the functional currency of our international subsidiaries. For example, Argentina’s economy is classified as highly inflationary in accordance with GAAP accounting requirements and, as a result, the functional currency of our Argentina subsidiaries was changed from the local currency to U.S. Dollars and their non-U.S. Dollar denominated monetary assets and liabilities were subject to remeasurement resulting in losses. We could incur additional losses, which would adversely affect our results of operations. For additional information on the change in functional currency for our Argentina subsidiaries and the effect thereof, see Note 2 to the Consolidated Financial Statements included elsewhere in this Report.

An impairment of our goodwill or other intangible assets could materially adversely affect our results of operations and book value.

As a result of acquisitions, we have added a considerable amount of goodwill and other intangible assets to our balance sheet. Goodwill represented 45% of our total equity as of December 31, 2025. We review our goodwill annually in the fourth quarter for impairment or more frequently if indicators of impairment exist. Such circumstances include a significant adverse change in legal factors, an adverse action or assessment by a regulator, unanticipated competition, loss of key personnel or a significant decline in our expected future cash flows due to changes in company-specific factors or the broader business climate. In addition, other intangible assets collectively represented 9% of our total equity as of December 31, 2025. Estimated useful lives of finite intangible assets are reassessed on an annual basis. Generally, other intangible assets with finite lives are only tested for impairment if there are indicators of impairment identified, including a significant adverse change in the extent, manner or length of time in which the other intangible asset is being used or a significant adverse change in legal factors or in the business climate that could affect the value of the other intangible asset.

An impairment of goodwill or other intangible assets, or significant reduction in the useful lives of intangible assets, could have a material adverse effect on our profitability and book value. For more information on our annual goodwill impairment testing, the goodwill of our segments and related reporting units and intangible asset impairment testing, see “Item 7 – Management’s Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Estimates – Valuation and Recoverability of Goodwill” and Notes 2 and 14 to the Consolidated Financial Statements included elsewhere in this Report.

Failure to maintain effective internal control over financial reporting could have a material adverse effect on our business and stock price.

As a public company, we are required to maintain effective internal control over financial reporting. While management has certified that our internal control over financial reporting was effective as of December 31, 2025, because internal control over financial reporting is complex, there can be no assurance that our internal control over financial reporting will be effective in the future. We rely on manual processes and procedures that subject us to increased risk of error and internal control failure compared to automated processes. Although we have implemented an integrated global financial system in North America and are in the process of implementing it globally, there can be no assurance that the implementation will achieve all of its intended goals, including reducing the use of manual processes. Any failure to implement required controls, or difficulties or errors encountered in their operation, could adversely affect our results of operations or cause us to fail to meet our reporting obligations. If we are not able to maintain or document effective internal control over financial reporting, our independent registered public accounting firm would be unable to certify the effectiveness of our internal control over financial reporting or opine that our financial statements fairly present, in all material respects, our financial position, results of operations and cash flows in conformity with GAAP. Significant deficiencies or material weaknesses in internal control over financial reporting may prevent us from reporting our financial information on a timely basis or cause us to restate previously issued financial information, and thereby subject us to litigation and adverse regulatory consequences, including fines and other sanctions, and would require us to claw back certain executive compensation, which would be costly and time-consuming. If any of the foregoing were to occur, investor confidence in us and the reliability of our financial statements could erode, resulting in a decline in our stock price, impairing our ability to raise capital, negatively affecting our reputation and subjecting us to legal and regulatory risk.

Unfavorable conditions in the capital and credit markets may significantly and adversely affect our access to capital and our ability to pay our debts or expenses.

The global capital and credit markets have experienced periods of uncertainty, volatility and disruption, including from geopolitical and macroeconomic tensions, a U.S. government shutdown, the possibility of a default on U.S. debt obligations, changes to U.S. and foreign tax and trade policies, the imposition of tariffs or other trade restrictions, other government actions and foreign currency fluctuations. Our ability to raise money during such periods could be severely or entirely restricted. Our ability to borrow or raise money is important if our operating cash flow is insufficient to pay our expenses, meet capital requirements, repay debt, pay dividends on our common stock or make investments. As a holding company, we have limited direct operations of our own. The principal sources of our liquidity are dividends and other statutorily permissible payments from our subsidiaries, cash flow from our investment portfolio, the Credit Facility (as defined below) and liquid assets, consisting mainly of cash or assets that are readily convertible into cash. Sources of liquidity in normal markets include a variety of short-and long-term instruments. If our access to the capital and credit markets is restricted, our cost of capital could increase, thus decreasing our profitability and reducing our financial flexibility, including our ability to refinance maturities of existing indebtedness on similar or more favorable terms. Our results of operations, financial condition, cash flows and statutory capital position could be materially and adversely affected by periods of uncertainty, volatility and disruption in the capital or credit markets.

Our investment portfolio is subject to market risk, including changes in interest rates, that may adversely affect our results of operations and financial condition.

Investment returns are an important part of our profitability. Our investments are subject to market-wide risks and fluctuations, including in the fixed maturity, equity securities and real estate markets, which could impair our profitability, financial condition and cash flows. Further, in pricing our products and services, we incorporate assumptions regarding returns on our investments. Market conditions may not allow us to invest in assets with sufficiently high returns to meet our pricing assumptions and profit targets over the long term.

We are subject to interest rate risk in our investment portfolio. Changes in interest rates have, and may continue to, materially adversely affect the performance of some of our investments, including by materially reducing the fair value of and investment income from fixed maturity securities and increasing unrealized losses in our investment portfolio, which can adversely impact our capital. As of December 31, 2025, fixed maturity securities represented approximately 85% of our total investments and full year 2025 gross investment income from fixed maturity securities totaled \$434.8 million. The fair market value of fixed maturity securities generally increases or decreases in an inverse relationship with fluctuations in interest rates,

while net investment income realized by us from future investments in fixed maturity securities generally increases or decreases directly with fluctuations in interest rates. In addition, actual investment income and cash flows from investments that carry prepayment risk, such as mortgage-backed and other asset-backed securities, may differ from those anticipated at the time of investment as a result of interest rate fluctuations.

Recent periods have been characterized by substantial volatility in interest rates. A prolonged period during which interest rates remain at high levels may result in greater unrealized losses in our investment portfolio. Conversely, a prolonged period during which interest rates are at lower levels may result in lower-than-expected investment income. We attempt to mitigate certain interest rate risk with hedging activities, but such activities may not be effective. Though we employ asset/liability management strategies to manage the adverse effects of interest rate changes, significant fluctuations may require us to liquidate investments prior to maturity at a significant loss to pay claims, which could have a material adverse effect on our results of operations and financial condition. See “Item 7A – Quantitative and Qualitative Disclosures About Market Risk – Interest Rate Risk” in this Report.

Our investment portfolio is subject to credit, liquidity and other risks that may adversely affect our results of operations and financial condition.

We are subject to credit risk in our investment portfolio, primarily from our investments in corporate bonds, preferred stocks, leveraged loans, municipal bonds and commercial mortgages. Defaults by third parties in the payment or performance of their obligations could reduce our investment income and result in realized investment losses. The value of our investments may be materially adversely affected by downgrades in the corporate bonds included in our portfolio, increases in treasury rates or credit spreads and by other factors that may result in realized and unrealized investment losses and other-than-temporary impairments. The determination that a security has incurred an other-than-temporary impairment requires the judgment of management and there are inherent risks and uncertainties involved in making these judgments. Changes in facts, circumstances or critical assumptions could cause management to conclude that further impairments have occurred, which could lead to additional losses on investments. Each of these events may cause us to reduce the carrying value of our investment portfolio. For further details on net investment losses, see Note 7 to the Consolidated Financial Statements included elsewhere in this Report.

The value of any particular fixed maturity security is subject to impairment based on the creditworthiness of its issuer. As of December 31, 2025, fixed maturity securities represented approximately 85% and below investment grade securities (rated “BB” or lower by nationally recognized statistical rating organizations) represented approximately 6% of our total investments. Below investment grade securities generally are expected to provide higher returns but present greater risk and can be less liquid than investment grade securities. A significant increase in defaults and impairments on our fixed maturity securities portfolio could materially adversely affect our results of operations and financial condition. See “Item 7A – Quantitative and Qualitative Disclosures About Market Risk – Credit Risk” in this Report for additional information on the composition of our fixed maturity securities portfolio.

Equity securities represented approximately 2% of our total investments as of December 31, 2025. However, we have had higher percentages of equity securities in the past and may make more equity investments in the future. Investments in equity securities generally are expected to provide higher total returns but present greater risk to preservation of capital than our fixed maturity securities. All changes in the fair value of equity securities are reported in our statements of operations, which has increased the volatility of our financial results. See Note 2 to the Consolidated Financial Statements included elsewhere in this Report for more information.

Our investments in commercial mortgage loans on real estate (which represented approximately 3% of our total investments as of December 31, 2025) are relatively illiquid. If we require extremely large amounts of cash on short notice, we may have difficulty selling these investments at attractive prices and in a timely manner. In addition, default rates and losses on commercial mortgage loans are affected by a number of factors, including many U.S. regional lenders that are reducing their exposure to such loans.

The manner in which we allocate our resources across the portfolio or the types of assets in which we seek to invest may increase credit, liquidity and other risks that may adversely affect our results of operations and financial condition.

The value of our deferred tax assets could become impaired, which could materially and adversely affect our results of operations and financial condition.

In accordance with applicable income tax guidance, we must determine whether our ability to realize the value of our deferred tax asset or to recognize certain tax liabilities related to uncertain tax positions is “more likely than not”. Under current income tax guidance, a deferred tax asset should be reduced by a valuation allowance if, based on the weight of all available evidence, it is more likely than not that some portion of the deferred tax asset will not be realized. The realization of deferred tax assets depends upon the existence of sufficient taxable income of the same character during the carryback or carry-forward periods.

In determining the appropriate valuation allowance, management made certain judgments relating to recoverability of deferred tax assets, use of tax loss and tax credit carry-forwards, levels of expected future taxable income of the appropriate character and available tax planning strategies. The assumptions in making these judgments are updated periodically on the basis of current business conditions affecting us and overall economic conditions. These management judgments are therefore subject to change due to factors that include changes in our ability to realize sufficient taxable income of the same character in the same jurisdiction or in our ability to execute other tax planning strategies. Furthermore, any future changes in tax laws could impact the value of our deferred tax assets. Management will continue to assess and determine the need for, and the amount of, the valuation allowance in subsequent periods. Any change in the valuation allowance could have a material adverse impact on our results of operations and financial condition.

Reinsurance may not be adequate or available to protect us against losses, and we are subject to the credit risk of reinsurers.

As part of our overall risk and capacity management strategy, we purchase reinsurance for certain risks underwritten by our various operating segments. We also access the FHCF to reinsure eligible Florida risks. Although reinsurers are liable to us for claims properly ceded under our reinsurance arrangements, we remain liable to the insured as the direct insurer on all risks reinsured. Ceded reinsurance arrangements therefore do not eliminate our obligation to pay claims. We are subject to credit and other risks with respect to our ability to recover amounts due from reinsurers and the FHCF. The inability to collect amounts due from reinsurers and any changes in the FHCF could materially adversely affect our results of operations and financial condition.

The availability and cost of reinsurance are subject to prevailing reinsurance market conditions, which have been, and in the future may continue to be, adversely impacted by: the occurrence of significant reinsured events, including catastrophes; expectations regarding increased occurrences of such events due to climate change; and other impacts on reinsurers' capital, such as increased demand for coverage driven by inflation, a volatile investment market or litigation costs. In the future, we may not be able to obtain reinsurance coverage for some of our businesses at commercially reasonable rates or at all. In such a situation, we might be adversely affected by state and other regulations that prohibit us from excluding catastrophe exposures or from withdrawing from or increasing premium rates in catastrophe-prone areas where we are required to provide property coverage for client portfolios. In addition, we may not be able to renew our current reinsurance facilities or obtain other reinsurance facilities in adequate amounts, at favorable rates and with favorable terms. The inability to obtain reinsurance at favorable rates or at all could cause us to reduce the level of our underwriting commitments, take more risk, hold more capital or incur higher costs. Any of these developments could materially adversely affect our results of operations and financial condition.

Through reinsurance, we have sold or exited businesses that could again become our direct financial and administrative responsibility if the reinsurers become insolvent.

In the past, we have sold or fully exited, and in the future we may sell or exit, businesses through reinsurance ceded to third parties. One of our insurance subsidiaries, which was classified as held for sale as of December 31, 2025, holds a reinsurance recoverable balance with John Hancock Life Insurance Company ("John Hancock") of \$472.0 million as of the same date, related to the sale of our long-term care division through reinsurance. The A.M. Best rating of John Hancock is currently A+. Certain assets backing reserves reinsured under this sale and other sales are held in trusts or separate accounts. However, if the reinsurers became insolvent, the assets in the trusts or separate accounts could prove insufficient to support the liabilities that would revert to us and we may again become responsible for administering these businesses. We do not currently have the administrative systems and capabilities to support these businesses. We might be forced to obtain such capabilities on unfavorable terms with a resulting material adverse effect on our results of operations and financial condition. In addition, other third parties to whom we have sold businesses in the past may in turn sell these businesses to other third parties, through reinsurance or otherwise, and we could face credit risks and risks related to the new administrative systems and capabilities of these third parties in administering these businesses.

For more information on these arrangements, including the reinsurance recoverable and risk mitigation mechanisms used, see Note 17 to the Consolidated Financial Statements included elsewhere in this Report.

We are exposed to risks related to the creditworthiness and reporting systems of some of our agents, third-party administrators and clients.

We are subject to the credit risk of some of the agents, third-party administrators, clients and client-owned reinsurance companies with which we contract in our businesses, including dealer obligors in our Global Automotive business. We may incur losses related to accounts receivables, write-downs of upfront fees, write-downs of deferred acquisition costs, insurance reserves held by third parties with or without collateral (including the impairment of any collateral), reimbursement of claims or commissions prepaid by us and loans granted to such counterparties. In addition, some of our agents, third-party administrators and clients collect and report premiums or pay claims on our behalf. Also, under certain contractual arrangements, we pay claims on behalf of third parties and subsequently seek reimbursement. These parties' failure to remit all premiums collected or

to pay claims on our behalf or to reimburse us for paid claims on a timely and accurate basis could have an adverse effect on our results of operations.

Our subsidiaries' inability to pay us sufficient dividends could prevent us from meeting our obligations and paying future stockholder dividends.

As a holding company whose principal assets are the capital stock of our subsidiaries, we rely primarily on dividends and other statutorily permissible payments from our subsidiaries to meet our obligations for payment of interest and principal on outstanding debt obligations, to repurchase shares or debt, to pay for certain expenses, to acquire new businesses, and to pay dividends to common stockholders. Our subsidiaries' ability to pay dividends and to make such other payments depends on their GAAP equity or statutory surplus, future earnings, cash position, rating agency requirements and regulatory restrictions, as applicable. Regulators could increase capital requirements for our subsidiaries, thereby reducing deployable capital at such subsidiary. Except to the extent that we are a creditor with recognized claims against our subsidiaries, claims of our subsidiaries' creditors, including policyholders, have priority over our claims with respect to our subsidiaries' assets and earnings. If any of our subsidiaries becomes insolvent, liquidates or otherwise reorganizes, our creditors and stockholders will have no right to proceed against our subsidiary's assets or to cause the liquidation, bankruptcy or winding-up of our subsidiary under applicable liquidation, bankruptcy or winding-up laws. The applicable insurance laws of the jurisdiction where each of our insurance subsidiaries is domiciled would govern any proceedings relating to that subsidiary and the insurance authority of that jurisdiction would act as a liquidator or rehabilitator for the subsidiary.

The payment of dividends by any of our regulated domestic insurance company subsidiaries in excess of specified amounts (i.e., extraordinary dividends) must be approved by the subsidiary's domiciliary jurisdiction department of insurance. Ordinary dividends, for which no regulatory approval is generally required, are limited to amounts determined by a formula, which varies by jurisdiction. Some jurisdictions have an additional stipulation that dividends may only be paid out of earned surplus. If insurance regulators determine that payment of an ordinary dividend or any other payments by our insurance subsidiaries to us (such as payments under a tax sharing agreement or payments for employee or other services) would be adverse to policyholders or creditors, they may block such payments that would otherwise be permitted without prior approval. Future regulatory actions could further restrict our insurance subsidiaries' ability to pay us dividends. For more information on the maximum amount of dividends our regulated U.S. domiciled insurance subsidiaries could pay us in 2026 under applicable laws and regulations, without prior regulatory approval, see "Item 5 – Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities – Dividend Policy."

Any additional material restrictions on our insurance subsidiaries' ability to pay us dividends could adversely affect our ability to pay any dividends on our common stock, service our debt and pay other expenses.

Our ability to declare and pay dividends on our capital stock may be limited.

Any determination to declare and pay dividends is at the sole discretion of the Board and depends on various factors, including: our subsidiaries' payment of dividends and other statutorily permissible payments to us; our results of operations and cash flows; our financial condition and capital requirements; general business conditions and growth prospects; any legal, tax, regulatory and contractual restrictions on the payment of dividends; and any other factor the Board deems relevant. Payments of dividends on shares of common stock will be restricted if an event of default has occurred or if the proposed common stock dividend payment would cause an event of default under the Credit Facility; or if we defer the payment of interest on our Subordinated Notes. Furthermore, the agreements governing any of our or our subsidiaries' future indebtedness may limit our ability to declare and pay dividends on our common stock. In the event that any agreements governing any such indebtedness restrict our ability to declare and pay dividends in cash on our common stock, we may be unable to declare and pay dividends in cash on our common stock unless we can repay or refinance the amounts outstanding under such agreements.

Actual results may differ materially from the analytical models we use to assist in our decision-making in key areas such as pricing, catastrophe risks, reserving and capital management.

We use various modeling techniques and data analytics throughout the organization to analyze and estimate exposures, loss trends, and other risks associated with our assets, liabilities, profitability and cash flows. This includes both proprietary and third-party modeled outputs and related analysis to assist us in decision-making related to pricing and rate filings, catastrophe and non-catastrophe modeling, loss reserving, asset management, corporate tax, financial reporting and planning, and risk and capital management, among other things. The modeled outputs and related analyses are subject to uncertainties and the inherent limitations of any statistical analysis, including model design errors; rely on numerous assumptions and the use of historical internal and industry data; and may lead to unintentional bias. In addition, climate change may make it more difficult to predict and model catastrophes, reducing our ability to accurately price our exposure to such events and mitigate risks. As a result, actual results may differ materially from our modeled results. If, based upon these models, we misprice our products, underestimate the frequency or severity of catastrophes and non-catastrophe losses, or fail to appropriately estimate the risks we are exposed to, which has occurred from time to time, our business, results of operations and financial condition may be materially adversely affected.

Technology, Cybersecurity and Privacy Risks

The failure to effectively maintain and modernize our technology systems and infrastructure and integrate those of acquired businesses could adversely affect our business.

The success of our business depends on our ability to maintain effective, secure and reliable technology systems and infrastructure and to modernize them to support current and new clients and grow in an efficient and cost-effective manner. Some of the Company's technology systems and software are legacy-type systems that are less efficient and require an ongoing commitment of significant resources to maintain or upgrade to current standards, including business continuity procedures. We continue to upgrade and implement new information technology systems and infrastructure involving several enterprise-wide technology initiatives, including AI, to support our strategy and keep pace with continuing changes in information processing technology and evolving industry and regulatory requirements. This includes our implementation of an integrated global financial system; enhancing existing systems, procedures and controls; developing new systems and products; and retiring certain legacy systems. We have also migrated many of our systems and applications to the cloud, which is key to our technology strategy. We currently rely on significant manual processes and procedures that subject us to increased risk of error and internal control failure compared to automated processes. We must integrate the systems of acquired businesses effectively so that technology gained through acquisitions meets the required level of security and performance capabilities to avoid additional risk to existing operations.

Our ability to modernize our technology systems and infrastructure requires us to execute large-scale, complex programs and projects, which rely on the commitment of significant financial and managerial resources and effective planning and management processes. We may be unable to implement these programs and projects effectively, efficiently or in a timely manner, which could result in operational resiliency issues, poor customer experience, cost overruns, additional expenses, reputational harm, legal and regulatory actions, and other adverse consequences.

If we are unable to maintain technology systems, infrastructure, procedures and controls that function effectively without interruption and securely, or to update or integrate our hardware, applications or systems, we may not be able to service our clients and their customers, successfully offer our products, grow our business and account for transactions in an appropriate and timely manner, and our relationships with clients could be adversely affected. We are dependent on vendors and other third parties to maintain reliable and secure network systems that provide adequate speed and data capacity. For example, we utilize third-party cloud service providers in connection with certain key aspects of our business and operations, and any disruption of, or interference with, our use of such cloud services could have a material adverse impact on our business and operations. We have from time to time experienced operational resiliency issues, including the unavailability of technology systems upon which our clients rely. Such failures could result in loss of business and adversely affect our financial condition and results of operations. For risks relating to the security of our technology systems and cybersecurity incidents, see “ – *We could incur significant liability if our technology systems or those of third parties are breached or we or third parties otherwise fail to protect the security of data residing on our respective systems, which could adversely affect our business and results of operations.* ”

We could incur significant liability if our technology systems or those of third parties are breached or we or third parties otherwise fail to protect the security of data residing on our respective systems, which could adversely affect our business and results of operations.

We rely on the uninterrupted and secure operation of our technology systems, including information technology systems and operational technology systems, and those of our vendors to operate our business and securely process, transmit and store electronic information. This electronic information includes confidential and other sensitive information, including personal data, that we receive from our customers, vendors and other third parties. Our technology systems and safety control systems and those of our vendors and other third parties with whom we share sensitive information are vulnerable to, and in some cases have been subject to, damage or interruption from a variety of external threats, including cybersecurity incidents, such as advanced ransomware, credential compromises, vulnerability exploitation including zero-day exploits, distributed denial of service attacks, hardware misconfigurations, phishing and advanced social engineering, which have been increasing in frequency and complexity.

Cybersecurity incidents are rapidly evolving and becoming increasingly sophisticated, partly due to the growing use of AI by malicious actors. We are at risk of attack, and from time to time have been the subject of an attack, by a growing list of adversaries, including state-sponsored organizations, organized crime, hackers and “hacktivists” (activist hackers), through the use of increasingly sophisticated methods of attack, including long-term, persistent attacks referred to as advanced persistent threats, attacks via yet unknown vulnerabilities referred to as zero-day threats, attacks against our externally-facing applications and infrastructure components, and credential harvesting attacks against our employees through advanced social engineering tactics. Because the techniques used to obtain unauthorized access or sabotage systems change frequently and generally are not identified until they are launched against a target, we may be unable to anticipate these techniques or implement adequate preventative measures, resulting in potential data loss or other damage to technology systems. As the breadth and complexity of

the technologies we use continue to grow, and as a result of the remote and hybrid work arrangements for a significant portion of our employees, the risk of security breaches and cybersecurity incidents has increased.

Our systems have also been subject to compromise from internal threats such as improper action by employees and third parties who may have otherwise legitimate access to our systems. Our call centers subject us to additional risk from internal threats due to access to personal data. Moreover, we face the ongoing challenge of managing access controls in a complex environment. Remote and hybrid work arrangements, including the use of personal devices and home networks that are not managed by the organization's security control framework, bypass certain physical security controls for our employees and the employees of our vendors who have access to sensitive information. While additional controls have been put in place, they may not be sufficient to discover compromises that occur due to the loss of physical controls. The latency of a compromise is often measured in months, and we may not be able to detect a compromise in a timely manner. We could experience significant financial and reputational harm as a result of operational resiliency issues, including if our technology systems are breached, sensitive client or Company data are compromised, modified, rendered inaccessible for any period of time, made public or misused, or if we fail to make adequate disclosures to the public or law enforcement agencies following any such event.

Our data protection measures may not be effective to protect our network and systems from external and internal threats. Should an attacker gain access to our network using compromised credentials of an authorized user or otherwise, or gain entry as a result of a zero-day exploit or other vulnerabilities that may exist in our systems environment, which has occurred from time to time, we are at risk that the attacker might successfully leverage that access to compromise additional systems and data. Certain measures that could increase the security of our systems take significant time and resources to deploy broadly and may not be effective against an attack. Additionally, our policies, procedures and technical safeguards may be insufficient to prevent or detect improper access to confidential, personal or proprietary information and other cybersecurity incidents, assess the severity or impact of any such incidents or appropriately respond in a timely manner. The inability to implement, maintain and upgrade effective protective measures and other safeguards or adequately respond to a breach could have a material adverse effect on our business.

Although we continue to invest in security and engage in best practices for software development, code vulnerabilities may still be introduced into production environments. Our technology systems must be continually patched, hardened and upgraded to protect against vulnerabilities, including zero-day threats, and cyber attackers have, and may continue to, exploit these vulnerabilities before they have been addressed. Due to the large number and age of the systems and platforms that we operate and the increased frequency with which vendors issue security patches to their products, as well as the need to test patches and, in some cases coordinate with clients and vendors, before they can be deployed, we are at risk that we cannot deploy these patches to remediate these vulnerabilities in a timely and effective manner. We are dependent on vendors and other third parties, such as cloud service providers, to keep their systems patched and hardened in order to protect our data. We have vendors and other third parties who receive data from us in connection with the services we offer our customers. In addition, we have migrated certain data, and may increasingly migrate data, to the cloud hosted by third-party providers. From time to time, we have experienced cybersecurity incidents involving a vendor or other third party, which resulted in a breakdown of such third party's data protection measures or access to our infrastructure through the third party. To the extent that a vendor or third party suffers a cybersecurity incident that compromises their operations, our data and our customers' data could be compromised or we may experience significant service interruption. Any failure related to these activities and operational resiliency could have a material adverse effect on our business.

The process of integrating the technology systems of the businesses we acquire is complex and exposes us to additional risk. For instance, we may not adequately identify weaknesses in an acquired entity's technology systems, either before or after the acquisition, which could affect the value we are able to derive from the acquisition, expose us to unexpected liabilities or make our own systems more vulnerable to a cybersecurity incident. We may be unable to integrate the systems of the businesses we acquire into our environment in a timely manner, which could further increase these risks until such integration takes place.

Like many companies, we are subject to regular phishing email and social media engineering campaigns directed at our employees that have become more sophisticated, highly personalized and ultimately more successful, partly through the use of AI, and can result in significant financial and data losses. Although some of these incidents have resulted in data leaks and other damages, to date, they have not had a material adverse effect on our business or operations. These types of incidents have in the past and could in the future result in confidential, restricted personal or proprietary information being lost or stolen, modified, rendered inaccessible for any period of time, or made public, including client, employee or Company data, which could have a material adverse effect on our business.

Improper access to or disclosure of sensitive client or Company information, which has occurred from time to time, could harm our reputation and subject us to litigation and significant liability under our contracts, as well as under existing or future laws, rules and regulations. In the event of a cybersecurity incident, we might have to take our systems offline, which could interfere with services to our clients, damage our reputation or expose us to litigation. In addition, our cybersecurity insurance

policy may not be sufficient in type or amount to fully cover us against claims and costs related to security breaches, cybersecurity incidents, and other related data and system incidents.

Legal and Regulatory Risks

We are subject to extensive laws and regulations, which increase our costs and could restrict the conduct of our business, and violations or alleged violations of such laws and regulations could have a material adverse effect on our reputation, business and results of operations.

We are subject to extensive regulation under the laws of the U.S. and its various states and territories, the E.U. and its member states, the U.K. and the other jurisdictions in which we operate. We are subject to anti-bribery and anti-corruption laws, such as the FCPA and the U.K. Anti-Bribery Act, trade sanctions, export control regulations and restrictions and anti-money laundering laws. We are subject to other laws and regulations on matters as diverse as antitrust, internal control over financial reporting and disclosure controls and procedures, accounting standards implemented by the Financial Accounting Standards Board and accounting-related rules and interpretations of the SEC, environmental protection, wage-and-hour standards, and employment and labor relations. In addition, new or proposed sustainability-related laws and regulations may result in expanded mandatory and voluntary reporting, diligence and disclosure.

There is also significant uncertainty in the evolving regulatory regime relating to AI, which may require substantial resources to modify and maintain business practices to comply with U.S. and non-U.S. laws. For example, various states have adopted the NAIC's model bulletin, *The Use of Artificial Intelligence Systems by Insurers*; and internationally, the European Union Artificial Intelligence Act entered into force in August 2024 with phased obligations. Evolving obligations may negatively impact our development and use of AI in our business and may subject us to regulatory scrutiny, litigation, increased compliance costs, and social and ethical concerns.

Our domestic and international insurance subsidiaries are subject to extensive regulatory oversight, including: restrictions and requirements related to licensing; capital, surplus and dividends; underwriting limitations; the ability to enter, exit and continue to operate in markets; statutory accounting and other disclosure requirements; the ability to provide, terminate or cancel certain coverages; premium rates, including regulatory ability to disapprove or reduce the premium rates companies may charge; trade and claims practices; product forms, including regulatory ability to disapprove new product filings; content of disclosures to consumers; type, amount and valuation of investments; assessments or other surcharges for guaranty funds and companies' ability to recover assessments through premium increases; and market conduct and sales practices.

The U.S. and foreign laws and regulations that apply to our operations are complex and may change rapidly, and our efforts to comply with them require significant resources and increase the costs and risks of doing business. The regulations we are subject to have become more stringent over time, may decrease the need for our services, impose significant operational limits on our business and may be inconsistent across jurisdictions. Further, the laws and regulations affecting our business are subject to change as a result of, among other things, new interpretations and judicial decisions, and any such changes may increase the regulatory requirements imposed on us, impact the way we are able to do business, impact efforts to protect intellectual and other property, and significantly harm our business and results of operations. There is also heightened regulatory expectations for third-party and critical vendor risk management.

While we attempt to comply with applicable laws and regulations, there can be no assurance that we or our employees, consultants, contractors and other agents are in full compliance with such laws and regulations at all times or that we will be able to comply with any future laws or regulations. If we fail to comply with applicable laws and regulations, which occurs from time to time, we may be subject to investigations, criminal penalties, civil remedies or other adverse consequences, including fines, injunctions, loss of an operating license or approval, increased scrutiny or oversight by regulatory authorities, the suspension of individual employees, limitations on engaging in a particular business, redress to clients, exposure to negative publicity or reputational damage and harm to client, employee and other relationships. Moreover, our failure to comply with laws or regulations in one jurisdiction may result in increased regulatory scrutiny by other regulatory agencies in that jurisdiction or regulatory agencies in other jurisdictions. The costs of compliance and the consequences of non-compliance could have a material adverse effect on our business, results of operations and financial condition. For additional discussion of the various laws and regulations affecting our business, see "Item 1 – Business – Regulation" in this Report.

Changes in tax laws and regulations could have a material adverse impact on our results of operations and financial condition.

Federal, state and foreign tax laws and regulations, or their interpretation and application, are subject to significant changes that may have a material adverse impact on our results of operations and financial condition. The OECD has issued Pillar Two Model Rules that include a 15% global minimum tax on the income of certain corporations, and recently issued administrative guidance and safe harbor rules around the implementation of Pillar Two. Many jurisdictions where we operate, including Japan and the United Kingdom, have adopted Pillar Two for tax years beginning in 2024. In addition, in July 2025, the One Big Beautiful Bill Act (the "OBBA") was enacted, introducing a broad range of U.S. tax reform provisions.

Additional regulation and guidance with respect to the implementation of certain OBBBA provisions are expected in 2026. We currently do not expect a material tax impact to our results of operations or financial condition due to these recent developments, and we continue to monitor and evaluate the potential impact of changing tax laws and regulations on future years.

Our business is subject to risks related to litigation and regulatory actions.

From time to time, we may be, and in certain cases have been, subject to a variety of legal and regulatory actions relating to our current and past business operations, including:

- industry-wide investigations regarding business practices, including the use and marketing of certain types of insurance policies or certificates of insurance, and compliance with guidance issued by regulators;
- actions by regulatory authorities that may restrict our ability to increase or maintain our premium rates, require us to reduce premium rates, require us to allow customers to defer premium payments on certain of our products, make offering our products more expensive or unattractive to our clients, impose fines or penalties, and result in other expenses;
- market conduct examinations, for which we are required to pay the expenses of the regulator as well as our own expenses, and which may result in fines, penalties, and other adverse consequences;
- disputes regarding our lender-placed insurance products, including those relating to rates, agent compensation, consumer disclosure, continuous coverage requirements, loan tracking services and other services that we provide to mortgage servicers;
- disputes over coverage or claims adjudication;
- disputes over our treatment of claims, in which states or insureds may allege that we failed to make required payments or meet prescribed deadlines for adjudicating claims;
- disputes regarding regulatory compliance, sales practices, disclosures, premium refunds, licensing, underwriting and compensation arrangements;
- disputes over liability claims under comprehensive general liability policies involving property damage or personal injury at insured properties or relating to insured vehicles;
- disputes alleging bundling of credit insurance and extended service contracts and related products with other products provided by financial institutions;
- disputes with tax and insurance authorities regarding our tax liabilities;
- investigations alleging violations of fraud, sanctions, money laundering and/or export control laws;
- disputes relating to customers' claims that they were not aware of the full cost or existence of the insurance or limitations on insurance coverage;
- disputes relating to protecting our intellectual property portfolio and by third parties alleging intellectual property infringement; and
- employment litigation claims brought by current or former employees.

Further, actions by certain regulators may cause additional changes to the structure of the lender-placed insurance industry, including the arrangements under which we track coverage on mortgaged properties. These changes could materially adversely affect the results of operations of Global Housing and the results of operations and financial condition of the Company. For additional information, see "Item 1 – Business – Regulation" in this Report.

We are involved in a variety of litigation and legal and regulatory proceedings relating to our current and past business operations and may, from time to time, become involved in other such actions. We continue to defend ourselves vigorously in these proceedings. We participate in settlements on terms that we consider reasonable; however, the results of any pending or future litigation and regulatory proceedings are inherently unpredictable and involve significant uncertainty. Unfavorable outcomes in litigation or regulatory proceedings or significant problems in our relationships with regulators could materially adversely affect our results of operations, financial condition, reputation, ratings and ability to continue to do business. They could expose us to further investigations or litigation. In addition, certain of our clients in the mortgage, auto financing, credit card and banking industries are the subject of various regulatory investigations and litigation matters regarding mortgage lending practices, credit insurance, debt-deferment and debt cancellation products, and the sale of protection products, which could indirectly negatively affect our businesses. For additional information, see "Item 3 – Legal Proceedings" and Note 26 to the Consolidated Financial Statements included elsewhere in this Report.

The costs of complying with, or our failure to comply with, U.S. and foreign laws related to privacy, data security and data protection could adversely affect our financial condition, operating results and reputation.

In providing services and solutions to our customers and operating our business, we process, store and transfer sensitive customer, end-consumer and Company data, including personal data, in and across multiple jurisdictions. As a result, we are and will continue to be subject to a variety of laws and regulations in the U.S. and abroad regarding privacy, data protection and data security. For discussion of the various laws and regulations affecting our business, see “Item 1 – Business – Regulation” in this Report. The scope and interpretation of these laws and additional laws that are or may be applicable to us are continuously evolving, often uncertain and may be conflicting, particularly with respect to foreign laws. All of these evolving compliance and operational requirements, including restrictions on cross-border data transfers, impose significant costs that are likely to increase over time and may restrict the way services involving data are offered, all of which may adversely affect our results of operations. For example, privacy and data-protection regimes increasingly regulate profiling and automated decision-making, which may require opt-outs, human review or impact assessments, and could delay or limit the deployment of analytics and AI in our business operations. Complying with these and similar laws and regulations requires us to make significant changes to our operations, and may be unable to implement required operational changes effectively, efficiently or in a timely manner, which could result in cost overruns, additional expenses, reputational harm, legal and regulatory actions, and other adverse consequences.

Unauthorized disclosure or transfer of personal or otherwise sensitive data, whether through systems failure, employee negligence, fraud, misappropriation or other means, by us, our vendors or other parties with whom we do business could subject us to significant litigation, monetary damages, regulatory enforcement actions, investigations, fines, criminal prosecution, increased costs such as those related to notifications and credit monitoring, and other adverse consequences in one or more jurisdictions. Such events could result in negative publicity and damage to our reputation and cause us to lose clients, which could have a material adverse effect on our results of operations.

Our business is subject to risks related to reductions in the insurance premium rates we charge.

We file rates with the state departments of insurance in the ordinary course of business. The rates associated with the premiums we charge are subject to review by regulators. The results of such reviews vary, and regulators could require us to reduce our rates based on various factors, including if they consider our loss ratios to be too low. Significant rate reductions could materially reduce our profitability.

From time to time we have engaged in discussions and proceedings with certain state regulators regarding our lender-placed insurance business. As previously disclosed, we completed a regulatory settlement agreement (the “RSA”) in 2017 to resolve a targeted multistate market conduct examination focused on lender-placed insurance, which includes a number of requirements and restrictions that are applicable in all participating states and U.S. territories. Among other things, the terms of the RSA require more frequent rate filings for lender-placed insurance. This could result in downward pressure on premium rates for these products. If such filings result in significant decreases in premium rates for our lender-placed insurance products, our cash flows and results of operations could be materially adversely affected.

Changes in insurance regulation may reduce our profitability and limit our growth.

Legislation or other regulatory reform related to the insurance industry that increases the regulatory requirements imposed on us or that changes the way we are able to do business may significantly harm our business or results of operations. Various state and federal regulatory authorities have taken actions with respect to our lender-placed insurance business, including the multistate market conduct examination and related RSA in 2017. If we were unable for any reason to comply with any new or revised requirements, including the RSA, it could result in substantial costs to us and ongoing reporting and monitoring obligations, and may materially adversely affect our results of operations and financial condition. In addition, new interpretations of existing laws or new judicial decisions affecting the insurance industry could adversely affect our business.

Insurance industry-related legislative or regulatory changes that could significantly harm our subsidiaries and us include:

- imposed reductions in premium rates, limitations on the ability to raise premiums on existing policies, limitations on the ability to provide evergreen contracts or new minimum loss ratios;
- increases in minimum capital, reserves, liquidity, solvency and other financial viability requirements, such as RBC standards established by the NAIC;
- enhanced or new regulatory requirements intended to prevent future financial crises or to otherwise ensure the stability of institutions;
- new licensing requirements;
- restrictions on the ability to offer certain types of insurance products, service contracts or other protection products;

- restrictions on algorithmic underwriting or the use of AI-enabled decision-making tools;
- prohibitions or limitations on provider financial incentives and provider risk-sharing arrangements;
- more stringent standards of review for claims denials or coverage determinations;
- increased regulation relating to lender-placed insurance; and
- new or enhanced regulatory requirements that require insurers to pay claims on terms other than those mandated by underlying policy contracts.

In addition, regulators in certain states have hired third-party auditors to audit the unclaimed property records of insurance companies operating in those states. Among other companies, we are currently subject to these audits in a number of states and have been responding to information requests from these auditors.

General Risk Factors

Our common stock may be subject to stock price and trading volume volatility.

Our common stock price and trading volume has from time to time and could in the future materially fluctuate in response to a number of events and factors, including: variations in our quarterly operating results, including against expectations; client or business losses; catastrophe and non-catastrophe losses; the operating and stock price performance of comparable companies; changes in our insurance subsidiaries' financial strength ratings; changes in our corporate debt ratings; changes to our registered securities; limitations on premium levels or the ability to maintain or raise premiums on existing policies; our ability to pay common stock dividends, refinance or repay debt, or make interest payments on debt; regulatory developments affecting our products or services; and negative publicity relating to us or our competitors. In addition, macroeconomic, geopolitical conflicts and industry fluctuations may materially and adversely affect the trading price or volume of our common stock, regardless of our actual operating performance.

Employee misconduct could harm us by subjecting us to significant legal liability, regulatory scrutiny and reputational harm.

Our employees are the cornerstone of our Company's culture and acts of misconduct by any employee, and particularly by senior management, could erode trust and confidence and damage our reputation. Our employees could engage or be accused of engaging in misconduct that subjects us to investigation, litigation, regulatory sanctions, financial costs and serious harm to our reputation or financial position. Employee misconduct could prompt regulators to allege or determine, on the basis of such misconduct, that we have not established an adequate program to inform employees of applicable rules or to detect and deter violations of such rules. It is not always possible to deter employee misconduct and the precautions we take to detect and prevent misconduct may not be, and at times has not been, effective. Misconduct by employees, or even unsubstantiated allegations, could have a material adverse effect on our financial position, reputation and business.

Applicable laws and our certificate of incorporation and by-laws may discourage takeovers and business combinations that some stockholders might consider to be in their best interests.

Applicable laws and our certificate of incorporation and by-laws may delay, defer, prevent or render more difficult a takeover attempt that our stockholders might consider to be in their best interests. For example, Section 203 of the General Corporation Law of the State of Delaware may limit the ability of an "interested stockholder" to engage in business combinations with us. An interested stockholder is defined to include persons owning 15% or more of our outstanding voting stock. These provisions may make it difficult for stockholders to replace or remove our directors, which could delay, defer or prevent a change in control. Such provisions may prevent our stockholders from receiving the benefit from any premium to the market price of our common stock offered by a bidder in a takeover context. Even in the absence of a takeover attempt, the existence of these provisions may adversely affect the prevailing market price of our common stock if they are viewed as discouraging future takeover attempts.

Additionally, applicable state and foreign insurance laws may require prior approval of an application to acquire control of a domestic insurer. State statutes generally provide, and certain foreign statutes provide, that control over a domestic insurer is presumed to exist when any person directly or indirectly owns, controls, has voting power over, or holds proxies representing, 10% or more of the domestic insurer's voting securities. The application process can be extensive, thereby discouraging the acquisition of a control position.

Our certificate of incorporation or by-laws contain provisions that permit the Board to issue one or more series of preferred stock, prohibit stockholders from filling vacancies on the Board, prohibit stockholders from taking action by written consent, and impose advance notice requirements for stockholder proposals and nominations of directors to be considered at stockholder meetings.

Item 1B. Unresolved Staff Comments

None.

Item 1C. Cybersecurity

We face a multitude of cybersecurity threats from a range of adversaries. Our vendors, clients, distributors and other third parties with whom we work face similar cybersecurity threats, and a cybersecurity incident impacting us or any of these entities could materially adversely affect our business, operations, financial condition and results of operations.

Board Oversight

The Board has ultimate oversight of cybersecurity risk. The Board reviews and approves our ERM Framework and risk appetite annually, including the appropriate risk appetite with respect to cybersecurity. The Information Technology Committee of the Board reviews the effectiveness of our cybersecurity policies, controls, training, technology and procedures, including procedures to identify and assess internal and external risks from cybersecurity threats; controls to prevent and protect from cyberattacks, unauthorized access or other malicious acts and risks; procedures to detect, respond to, mitigate negative effects from and remediate cybersecurity attacks; and controls and procedures for fulfilling applicable regulatory reporting and disclosure obligations related to cybersecurity incidents, risks and costs. Our Chief Information Security Officer (“CISO”) briefs or provides a report to the Information Technology Committee on our cybersecurity and information security posture and program at least quarterly, including penetration test results and related remediation and significant cybersecurity incidents. Our CISO also provides an annual cybersecurity update to the full Board.

Role of Management

Cybersecurity risk is integrated into our Global Risk Management process. Cybersecurity risk continues to be identified as one of our key enterprise risks. Risk owners from the Management Committee, senior leadership and the Global Risk Management function have been assigned to develop risk mitigation plans, which are tracked and reported at least quarterly to the Finance and Risk Committee of the Board and annually to the full Board. See “Item 1 – Business – Global Risk Management” for more information on the Global Risk Management function.

Our CISO, who reports to our Chief Technology Officer on the Management Committee, has over 20 years of information technology and security program management experience, holds a Certified Information Security Manager certification and has led our information security team, including information technology compliance and risk management, since 2009. Our Chief Technology Officer has over 30 years of information technology experience, including leading global digital, security, infrastructure, cloud services and application teams. Prior to joining the Company in 2016, our Chief Technology Officer was chief information officer at a large, publicly-traded energy company.

Our CISO has implemented a management-level governance structure and process to assess, identify, manage and report cybersecurity risks, and to manage our overall information security program. The Information Security Board, led by our CISO and comprised of leaders from all of our lines of business and key functional areas such as Global Risk Management, Privacy and Compliance, as well as members of our information security team, meets quarterly, and is responsible for overseeing our information security program, including our information security strategy and related policies and standards. The information security team manages cybersecurity risks and controls, and continually enhances a global security control framework with the ultimate goal of preventing cybersecurity incidents to the extent feasible, while simultaneously minimizing the business impact should an incident occur.

Risk Management Policies and Procedures

We have implemented cybersecurity policies and standards based on leading industry frameworks, including the ISO 27001 standard and the National Institute of Standards and Technology Cybersecurity Framework, and we regularly assess our policies and practices, including through tabletop exercises with senior management (and periodically with members of the Board), aimed at mitigating cybersecurity risks. In the event of a cybersecurity incident, we follow our Enterprise Information Security Incident Response Plan (the “IRP”), which outlines steps from incident detection to assessment, response, mitigation, recovery and notification, including to key functional areas such as Global Risk Management, Corporate Law, Privacy and Compliance, senior leadership, and the Information Technology Committee of the Board and the full Board, as appropriate. The IRP includes quantitative and qualitative incident assessment guidance and promotes engagement with multidisciplinary teams across the enterprise to facilitate real-time information-sharing during a cybersecurity incident.

Employees outside of our information security team as well as third-party cybersecurity experts have an important role in our cybersecurity defenses. We require employees to participate in annual cybersecurity training and provide them with additional optional training and awareness materials, and we regularly engage our employees in phishing exercises, reporting results to the Information Technology Committee. In addition, we regularly engage assessors, consultants, auditors and other

third parties in our management of cybersecurity risk. For example, third parties are engaged to conduct evaluations of the maturity and effectiveness of our security program, including testing the design and operational effectiveness of security controls, penetration testing, engaging in independent audits, reviewing our policies and standards, and consulting on best practices to address new challenges. We also receive threat intelligence from government agencies, information sharing and analysis centers, and cybersecurity associations.

We assess third-party cybersecurity controls through a cybersecurity questionnaire and a review of independent cybersecurity rating assessments. Our vendor risk management process includes a review of the information security policies of our key vendors against our standards, and ongoing monitoring for compliance. Our contracts with third parties generally include security and privacy addendums where applicable and require counterparties to meet a specific standard of data security and to report cybersecurity incidents to us.

Risks from Cybersecurity Threats

While we have not experienced a cybersecurity incident that resulted in a material adverse effect on our business, operations, financial condition or results of operations, there can be no guarantee that we will not experience such an incident in the future. See “Item 1A – Risk Factors – Technology, Cybersecurity and Privacy Risks – *The failure to effectively maintain and modernize our technology systems and infrastructure and integrate those of acquired businesses could adversely affect our business,*” “– Technology, Cybersecurity and Privacy Risks – *We could incur significant liability if our technology systems or those of third parties are breached or we or third parties otherwise fail to protect the security of data residing on our respective systems, which could adversely affect our business and results of operations,*” “– Business Strategic and Operational Risks – *Our inability to successfully recover should we experience a business continuity event could have a material adverse effect on our business, financial condition and results of operations*” and “– *Failure to successfully manage vendors and other third parties could adversely affect our business*” for more information.

Item 2. Properties

We own three properties. We have a shared headquarters building in Atlanta, Georgia, which serves as our corporate headquarters, as well as the headquarters for our Global Lifestyle and Global Housing businesses. In 2025, we entered into an agreement to sell our office in Miami, Florida, which had served as a shared office space supporting our Global Lifestyle and Global Housing businesses. Also in 2025, we sold one of our Global Housing operations centers located in Florence, South Carolina, and we started marketing for sale another operations center located in Springfield, Ohio. We lease office space and device care centers globally, with terms ranging from month-to-month to ten years. We believe that our owned and leased properties are sufficient to support our current business operations. See Notes 13 and 26 to the Consolidated Financial Statements included elsewhere in this Report for additional information about our properties. For more information on the Miami sale, see “Item 7 – Management’s Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources.”

Item 3. Legal Proceedings

For a description of any material pending legal proceedings in which we are involved, see “Commitments and Contingencies – Legal and Regulatory Matters” in Note 26 to the Consolidated Financial Statements included elsewhere in this Report, which is hereby incorporated by reference.

Item 4. Mine Safety Disclosures

Not applicable.

PART II

Item 5. Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Our common stock is listed on the NYSE under the symbol “AIZ.” On February 13, 2026, there were approximately 221 registered holders of record of our common stock.

Stock Performance Graph

The following graph compares the cumulative total return (stock price increase plus reinvestment of dividends paid) on our common stock from December 31, 2020 through December 31, 2025 with the cumulative total returns for the S&P 400 MidCap Index and the S&P 500 Index, as the broad equity market indexes, and the S&P Composite 1500 Property & Casualty Insurance Index (“S&P 1500 P&C Index”), as the published industry index. The graph assumes that the value of the investment in our common stock and each index was \$100 on December 31, 2020 and that all dividends were reinvested.

**Total Values/Annual Return Percentages
(Includes reinvestment of dividends)**

Security / Index	Initial Investment at 12/31/2020	TOTAL VALUES				
		December 31,				
		2021	2022	2023	2024	2025
Assurant, Inc. Common Stock	\$ 100.00	\$ 116.46	\$ 95.10	\$ 130.78	\$ 168.11	\$ 192.81
S&P 500 Index	100.00	128.71	105.40	133.10	166.40	196.16
S&P 400 MidCap Index	100.00	124.76	108.47	126.29	143.89	154.68
S&P 1500 P&C Index	100.00	119.57	137.26	152.29	203.42	221.66

Security / Index	ANNUAL RETURN PERCENTAGES				
	Years Ended December 31,				
	2021	2022	2023	2024	2025
Assurant, Inc. Common Stock	16.46 %	(18.34)%	37.52 %	28.55 %	14.69 %
S&P 500 Index	28.71	(18.11)	26.29	25.02	17.88
S&P 400 MidCap Index	24.76	(13.06)	16.44	13.93	7.50
S&P 1500 P&C Index	19.57	14.80	10.94	33.58	8.96

Issuer Purchases of Equity Securities

The table below provides information regarding purchases of our common stock during the fourth quarter of 2025.

Period in 2025	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	Approximate Dollar Value of Shares that May Yet be Purchased Under the Plans or Programs (1)
October 1 – October 31	127,802	\$ 214.45	127,802	\$ 140.9
November 1 – November 30	105,168	225.60	105,168	817.2
December 1 – December 31	183,445	231.80	183,445	774.6
Total fourth quarter	416,415	\$ 224.91	416,415	\$ 774.6

- (1) Shares purchased pursuant to the November 2023 publicly announced share repurchase authorization of up to \$600.0 million aggregate cost at purchase of outstanding common stock. In November 2025, the Board authorized an additional share repurchase program for up to \$700.0 million aggregate cost at purchase of outstanding common stock. As of December 31, 2025, \$774.6 million aggregate cost at purchase remained unused under the repurchase authorizations.

Dividend Policy

Any determination to declare and pay future dividends will be at the sole discretion of the Board and will be dependent upon various factors, including: our subsidiaries' payments of dividends and other statutorily permissible payments to us; our results of operations and cash flows; our financial condition and capital requirements; general business conditions and growth prospects; any legal, tax, regulatory and contractual restrictions on the payment of dividends; and any other factors the Board deems relevant. The Credit Facility also contains limitations on our ability to pay dividends to our stockholders and repurchase capital stock if we are in default, or such dividend payments or repurchases would cause us to be in default, of our obligations thereunder. In addition, if we elect to defer the payment of interest on our subordinated notes (refer to "*— Senior and Subordinated Notes*" below), we generally may not make payments on or repurchase any shares of our capital stock.

We are a holding company and, therefore, our ability to pay dividends on our common stock, repurchase shares or debt, service our debt and meet our other obligations depends primarily on the ability of our subsidiaries to pay dividends and make other statutorily permissible payments to us. Our insurance subsidiaries are subject to significant regulatory and other restrictions limiting their ability to pay dividends. See "Item 1A – Risk Factors – Financial Risks – *Our subsidiaries' inability to pay us sufficient dividends could prevent us from meeting our obligations and paying future stockholder dividends.*" For the year ending December 31, 2026, the maximum amount of dividends our regulated U.S. domiciled insurance subsidiaries could pay us under applicable laws and regulations, without prior regulatory approval, is approximately \$791.9 million. We may seek approval of regulators to pay dividends in excess of any amounts that would be permitted without such approval. There can be

no assurance that we would obtain such approval if sought. Our international and non-insurance subsidiaries provide additional sources of dividends. Dividends or returns of capital paid by our subsidiaries, net of infusions of liquid assets and excluding amounts used for acquisitions or received from dispositions, was approximately \$925.1 million for the year ended December 31, 2025, of which \$751.9 million was generated by our U.S. domiciled insurance subsidiaries.

Payments of dividends on shares of common stock are restricted if an event of default has occurred or if the proposed common stock dividend payment would cause an event of default under the Credit Facility; or if we defer the payment of interest on our Subordinated Notes. For more information, see “Item 1A – Risk Factors – Financial Risks – *Our ability to declare and pay dividends on our capital stock may be limited*” and “Item 7 – Management’s Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources.”

Securities Authorized for Issuance Under Equity Compensation Plans

See Item 12 of this Report for information about securities authorized for issuance under our equity compensation plans.

Item 6. *Reserved*

Not applicable.

Item 7. *Management’s Discussion and Analysis of Financial Condition and Results of Operations.*

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our Consolidated Financial Statements and accompanying notes included elsewhere in this Report. It contains forward-looking statements that involve risks and uncertainties. Our actual results might differ materially from those projected in these forward-looking statements as a result of various factors, including those discussed below and elsewhere in this Report, particularly under the headings “Item 1A – Risk Factors” and “Forward-Looking Statements.”

General

Segment Information

As of December 31, 2025, we had two reportable operating segments which are defined based on the manner in which the Company’s chief operating decision maker, our CEO, reviews the business to assess performance and allocate resources, and which align to the nature of the products and services offered:

- Global Lifestyle: includes mobile device solutions (including extended service contracts, insurance policies and related services), extended service contracts and related services for consumer electronics and appliances, and financial services and other insurance products (referred to as “Connected Living”); and vehicle protection services, commercial equipment protection and other related services (referred to as “Global Automotive”); and
- Global Housing: includes lender-placed homeowners, manufactured housing and flood insurance, as well as voluntary manufactured housing, condominium and homeowners insurance (referred to as “Homeowners”); and renters insurance and other products (referred to as “Renters and Other”).

In addition, we report the Corporate and Other segment, which includes corporate employee-related expenses, activities of the holding company and investments in our home warranty business.

We define Adjusted EBITDA, our segment measure of profitability, as net income, excluding net realized gains (losses) on investments and fair value changes to equity securities, interest expense, benefit (provision) for income taxes, depreciation expense, amortization of purchased intangible assets, as well as other highly variable or unusual items (including restructuring costs, the loss on the pending subsidiary sale and non-core operations, each as described below).

The following discussion covers the year ended December 31, 2025 (“Twelve Months 2025”) and the year ended December 31, 2024 (“Twelve Months 2024”). For a more detailed comparative analysis, see the discussion that follows. Our comparative analysis of Twelve Months 2024 and the year ended December 31, 2023 is included under the heading “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2024 filed with the SEC on February 20, 2025.

Executive Summary

Summary of Financial Results

Consolidated net income increased \$112.5 million, or 15%, to \$872.7 million for Twelve Months 2025 from \$760.2 million for Twelve Months 2024, primarily due to higher segment earnings in Global Housing, lower reportable catastrophes and growth in Global Lifestyle, partially offset by a higher effective tax rate and restructuring costs.

Global Lifestyle Adjusted EBITDA increased \$27.9 million, or 4%, to \$801.3 million for Twelve Months 2025 from \$773.4 million for Twelve Months 2024, primarily driven by Connected Living growth from global mobile programs and higher contributions from financial services. In Global Automotive, improved loss experience led to increased profitability.

Global Lifestyle net earned premiums, fees and other income increased \$615.2 million, or 7%, to \$9.58 billion for the Twelve Months 2025 from \$8.97 billion for Twelve Months 2024, primarily due to global mobile programs and from a new program in financial services within Connected Living and modest growth in Global Automotive.

Global Housing Adjusted EBITDA increased \$187.5 million, or 28%, to \$858.7 million for Twelve Months 2025 from \$671.2 million for Twelve Months 2024, including \$46.4 million of lower pre-tax reportable catastrophes. Excluding reportable catastrophes, Adjusted EBITDA increased 15% mainly due to top-line growth in lender-placed insurance and favorable non-catastrophe loss experience.

Global Housing net earned premiums, fees and other income increased \$311.8 million, or 13%, to \$2.77 billion for Twelve Months 2025 from \$2.46 billion for Twelve Months 2024, primarily due to growth in policies in-force and higher average premiums within lender-placed insurance, as well as growth in various specialty products. Renters and Other also increased, led by contributions from a new book of business previously disclosed.

Corporate and Other Adjusted EBITDA was \$(123.8) million for Twelve Months 2025 compared to \$(122.2) million for Twelve Months 2024, primarily driven by lower investment income.

Critical Factors Affecting Results

Our results depend on, among other things, the appropriateness of our product pricing, underwriting, the accuracy of our reserving methodology for future policyholder benefits and claims, the frequency and severity of reportable and non-reportable catastrophes, returns on and values of invested assets, our investment income, and our ability to enhance operational efficiencies and manage our expenses. Our results also depend on our ability to profitably grow our businesses, including our Connected Living, Global Automotive and Renters businesses, and the performance of our Homeowners business, which will be impacted by our ability to provide a superior customer experience, including from our investments in technology and digital initiatives. Factors affecting these items, including conditions in the financial markets, the global economy, political conditions and the markets in which we operate, fluctuations in exchange rates, interest rates and inflation, and tariffs and global supply chain disruptions may have a material adverse effect on our results of operations or financial condition.

Our results may also be impacted by our ability to capitalize on opportunities for further growth, including within adjacent markets such as home warranty. Our mobile business is subject to volatility in mobile device trade-in volumes and margins based on the actual and anticipated timing of the release of new devices, carrier promotional programs and sales prices for used devices, as well as to changes in consumer preferences and client forecasts and demands. Our Homeowners revenue is impacted by changes in the housing market, as well as the voluntary insurance market. Variability in insurance claims, including changes in frequency and severity, and the impact of inflation, also contribute to fluctuations in our business performance. In addition, across many of our businesses, we must respond to competitive pressures, including the threat of disruption and competition for talent. For more information on these and other factors that could affect our results, see “Item 1A – Risk Factors,” including “– Business, Strategic and Operational Risks – *Significant competitive pressures, changes in customer preferences and disruption could adversely affect our results of operations,*” “– *Our mobile business is subject to the risk of declines in the value and availability of mobile devices, and to regulatory compliance and other risks*” and “– *The success of our business depends on the execution of our strategy, including through organic growth and the continuing service of key executives, senior leaders, highly-skilled personnel and a high-performing workforce.*”

For Twelve Months 2025, net cash provided by operating activities was \$1.83 billion; net cash used in investing activities was \$1.46 billion; and net cash used in financing activities was \$364.2 million. We had \$1.83 billion in cash and cash equivalents as of December 31, 2025. See “– Liquidity and Capital Resources” below for further details.

Revenues

We generate revenues primarily from the sale of our insurance policies, service contracts and related products and services, and from income earned on our investments. Sales of insurance policies are recognized in revenue as earned premiums while sales of administrative services are recognized as fee income.

Our premium and fee income is supplemented by income earned from our investment portfolio. We recognize revenue from interest payments, dividends, change in market value of equity securities and sales of investments. Currently, our investment portfolio is primarily invested in fixed maturity securities. Both investment income and changes in market value on these investments can be significantly affected by changes in interest rates.

Interest rate volatility can increase or reduce unrealized gains or losses in our investment portfolios. Interest rates are highly sensitive to many factors, including governmental monetary policies, domestic and international economic and political

conditions, inflation and other factors beyond our control. Fluctuations in interest rates affect our returns on, and the market value of, fixed maturity and short-term investments.

The fair market value of the fixed maturity securities in our investment portfolio and the investment income from these securities fluctuate depending on general economic and market conditions. The fair market value generally increases or decreases in an inverse relationship with fluctuations in interest rates, while net investment income realized by us from future investments in fixed maturity securities generally increases or decreases with fluctuations in interest rates. We also have investments that are subject to pre-payment risk, such as mortgage-backed and asset-backed securities. Interest rate fluctuations may cause actual net investment income and/or timing of cash flows from such investments to differ from estimates made at the time of investment. In periods of declining interest rates, mortgage prepayments generally increase and mortgage-backed securities, commercial mortgage obligations and bonds are more likely to be prepaid or redeemed as borrowers seek to borrow at lower interest rates. Therefore, in these circumstances we may be required to reinvest those funds in lower interest-earning investments.

Please see “Item 7A – Quantitative and Qualitative Disclosures About Market Risk” below for further details.

Expenses

Our expenses are primarily policyholder benefits, underwriting, selling, general and administrative expenses and interest expense.

Policyholder benefits are affected by our claims management programs, reinsurance coverage, contractual terms and conditions, regulatory requirements, economic conditions including inflation, and numerous other factors. Benefits paid or reserves required for future benefits could substantially exceed our expectations, causing a material adverse effect on our business, results of operations and financial condition.

Underwriting, selling, general and administrative expenses consist primarily of commissions, premium taxes, licenses, fees, amortization of deferred costs, general operating expenses and income taxes. We continue to undertake various expense savings initiatives while also making investments in talent, capabilities and technology, among other things, which impact our expenses.

We also incur interest expense related to our debt.

Critical Accounting Policies and Estimates

Certain items in our Consolidated Financial Statements are based on estimates and judgment. Differences between actual results and these estimates and judgments could in some cases have material impacts on our Consolidated Financial Statements. The following critical accounting policies require significant estimates and judgment:

- Reserves, Net of Reinsurance
- Valuation of Investments
- Valuation and Recoverability of Goodwill

Reserves, Net of Reinsurance

Reserves are established using generally accepted actuarial methods and reflect significant judgment and estimates about expected future claim payments. Factors used in their calculation include experience derived from historical claim payments and actuarial assumptions. Calculations incorporate assumptions about the incidence of incurred claims, the extent to which all claims have been reported, reporting lags, expenses, inflation rates, future investment earnings, internal claims processing costs and other relevant factors. While the methods of making such estimates and establishing the related liabilities are periodically reviewed and updated, the estimation of reserves includes an element of uncertainty given that management is using historical information and methods to project future events and reserve outcomes.

The recorded reserves represent our best estimate at a point in time of the ultimate costs of settlement and administration of a claim or group of claims, based upon actuarial assumptions and projections using facts and circumstances known at the time of calculation. The adequacy of reserves may be impacted by future trends in claims severity, frequency, judicial theories of liability and other factors. These variables are affected by both external and internal events, including: changes in the economic cycle, inflation, changes in repair costs, natural or human-made catastrophes, judicial trends, legislative changes and claims handling procedures.

Many of these items are not directly quantifiable and not all future events can be anticipated when reserves are established. Reserve estimates are refined as experience develops. Adjustments to reserves, both positive and negative, are reflected in the consolidated statement of operations in the period in which such estimates are updated.

Because establishment of reserves is an inherently complex process involving significant judgment and estimates, there can be no certainty that future settlement amounts for claims incurred through the financial reporting date will not vary from

reported claims reserves. Future loss development could require reserves to be increased or decreased, which could have a material effect on our earnings in the periods in which such increases or decreases are made. However, based on information currently available, we believe our reserve estimates are adequate. See “Item 1A – Risk Factors – Financial Risks – *Our actual claims losses may exceed our reserves for claims, requiring us to establish additional reserves or to incur additional expense for settling unreserved liabilities, which could have a material adverse effect on our results of operations, profitability and capital*” and “ – Financial Risks – *Actual results may differ materially from the analytical models we use to assist in our decision-making in key areas such as pricing, catastrophe risks, reserving and capital management*” for more detail on this risk.

Reinsurance Recoverables

We utilize reinsurance for loss protection and capital management, business dispositions and client risk and profit sharing. Reinsurance premiums paid are amortized as reductions to premium over the terms of the underlying reinsured policies. Amounts recoverable from reinsurers are estimated in a manner consistent with claim and claim adjustment expense reserves or future policy benefits reserves. Reinsurance recoverables include amounts we are owed by reinsurers for claims paid as well as those included in reserve estimates that are subject to the reinsurance.

We use a probability of default and loss given default methodology in estimating an expected credit loss allowance, whereby the credit ratings of reinsurers are used in determining the probability of default. The allowance is established for reinsurance recoverables on paid and unpaid future policy benefits and claims and benefits. Prior to applying default factors, the net exposure to credit risk is reduced for any collateral for which the right of offset exists, such as funds withheld, assets held in trust and letters of credit, which are part of the reinsurance arrangements, with adjustments to include consideration of credit exposure on the collateral. Our methodology incorporates historical default factors for each reinsurer based on their credit rating using comparably rated bonds as published by a major ratings service. The allowance is based upon our ongoing review of amounts outstanding, length of collection periods, changes in reinsurer credit standing and other relevant factors.

In the ordinary course of business, we are involved in both the assumption and cession of reinsurance with non-affiliated companies. The following table provides details of the reinsurance recoverables balance as of December 31, 2025 and 2024:

	2025	2024
Ceded future policyholder benefits and expense	\$ 4.2	\$ 340.7
Ceded unearned premium	5,062.9	5,188.5
Ceded claims and benefits payable	899.0	1,808.9
Ceded paid losses	505.2	241.4
Total	<u>\$ 6,471.3</u>	<u>\$ 7,579.5</u>

For additional information regarding our reserves and reinsurance recoverables, see Notes 2, 4, 16 and 17 to the Consolidated Financial Statements included elsewhere in this Report.

Short Duration Contracts

Claims and benefits payable reserves for short duration contracts include (1) case reserves for known claims which are unpaid as of the balance sheet date; (2) IBNR reserves for claims where the insured event has occurred but has not been reported to us as of the balance sheet date; and (3) loss adjustment expense reserves for the expected handling costs of settling the claims. Periodically, we review emerging experience and make adjustments to our reserves and assumptions where necessary.

Ultimate loss and loss adjustment expenses are estimated utilizing generally accepted actuarial loss reserving methods. Both paid claims development as well as case incurred development are typically analyzed at the product or product grouping level, considering product size and data credibility. The reserving methods widely employed by us include the Chain Ladder, Munich Chain Ladder and Bornhuetter-Ferguson methods. For Global Housing, reportable catastrophes are analyzed and reserved for separately using a frequency and severity approach.

The methods all involve aggregating paid and case-incurred loss data by accident period and accident age for each product grouping. As the data ages, development factors are calculated that measure emerging claim development patterns between reporting periods. By selecting loss development factors indicative of remaining development, known losses are projected to an ultimate incurred basis for each accident period. The underlying premise of the Chain Ladder method is that future claims development is best estimated using past claims development, whereas the Bornhuetter-Ferguson method employs a combination of past claims development and estimates of ultimate losses based on an expected loss ratio. The Munich Chain Ladder method incorporates the correlations between paid and incurred development in projecting future development factors, and is typically more applicable to products experiencing variability in incurred to paid ratios.

Each of these methods applied to the data groupings produces an estimate of the loss reserves for the product grouping. The best estimate is generally selected from a blend of the different methods. The determination of the best estimate is based on many factors, including:

- the nature and extent of the underlying assumptions;
- the quality and applicability of historical data - whether internal or industry data;
- current and expected future economic and market conditions;
- regulatory, legislative, and judicial considerations;
- the extent of data segmentation - data should be homogeneous yet credible enough for loss development methods to apply;
- trends in loss frequency and severity for various causes of loss;
- consideration of the distribution of loss reserves, management's selection of the best estimate that may exceed an estimate based on median values, suggesting that favorable development may be more likely than unfavorable development; and
- hindsight testing of prior loss estimates - the loss estimates on some product lines will vary from actual loss experience more than others.

When employing the reserving methods, consideration is given to contractual requirements, historical utilization trends and payment patterns, coverage changes, seasonality, product mix, the legislative and regulatory environment, economic factors, natural catastrophes and other relevant factors. We consistently apply reserving principles and methodologies from year to year, while also giving due consideration to the potential variability of these factors.

While management has used judgment in establishing its best estimate of required reserves, different assumptions and variables could lead to significantly different reserve estimates. Two key measures of loss activity are loss frequency, which is a measure of the number of claims per unit of insured exposure, and loss severity, which is a measure of the average size of claims. Factors affecting loss frequency include the effectiveness of loss controls, changes in economic activity and weather patterns. Factors affecting loss severity include changes in policy limits, retentions, rate of inflation and judicial interpretations.

If the actual level of loss frequency and severity are higher or lower than expected, the ultimate reserves required will be different than management's estimate. The effect of higher and lower levels of loss frequency and severity on our ultimate costs for claims occurring in 2025 would be as follows:

Change in both loss frequency and severity for all Global Lifestyle and Global Housing	Ultimate cost of claims occurring in 2025	Change in cost of claims occurring in 2025
3% higher	\$ 1,981.2	\$ 113.7
2% higher	\$ 1,942.9	\$ 75.4
1% higher	\$ 1,905.0	\$ 37.5
Base scenario (1)	\$ 1,867.5	\$ —
1% lower	\$ 1,830.3	\$ (37.2)
2% lower	\$ 1,793.5	\$ (74.0)
3% lower	\$ 1,757.1	\$ (110.4)

(1) Represents the sum of the case reserves and incurred but not reported reserves as of December 31, 2025 for Global Lifestyle and Global Housing.

Non-Core Operations

Short duration contracts in non-core operations primarily consist of the sharing economy and small commercial products previously reported within Global Housing. While the contracts are classified as short duration, the coverages were predominantly commercial liability and have a long reporting and settlement tail compared to property coverages which make up most of our core operations.

The reserving methodology described for other short duration contracts is applicable for non-core operations. Given the nature of commercial liability coverages and its relatively long claim runoff duration, additional emphasis is placed on elevated loss activity from increasing attorney involvement and analysis of individual case reserve adequacy on known claims. This is done through use of average cost per claim methods that include an allowance for future inflation impacts, detailed open claim inventory analysis, and leveraging industry development patterns to supplement our own historical claims experience.

Long Duration Contracts, including Disposed and Runoff Long Duration Lines

Reserves for future policy benefits represent the present value of future benefits to policyholders and related expenses less the present value of future net premiums. Reserve assumptions reflect best estimates for expected investment yield, inflation,

mortality, morbidity, expenses and withdrawal rates. These assumptions are based on our experience to the extent it is credible, modified where appropriate to reflect current trends, industry experience and provisions for possible unfavorable deviation. We also record an unearned revenue reserve which represents premiums received which have not yet been recognized in our consolidated statements of operations.

Risks related to the reserves recorded for certain discontinued individual life, annuity and long-term care insurance policies have been fully ceded via reinsurance. The insurance subsidiary that includes these fully ceded insurance policies was classified as held for sale as of December 31, 2025. See Note 3 to the Consolidated Financial Statements included elsewhere in this Report for more information.

Valuation of Investments

In determining the estimated fair value of our investments, fair values are primarily based on unadjusted quoted prices for identical investments in active markets that are readily and regularly obtainable. When such unadjusted quoted prices are not available, estimated fair values are based on quoted prices for identical or similar investments in markets that are not active, or other observable inputs. If these observable inputs are not available, or observable inputs are not determinable, unobservable inputs or adjustments to observable inputs requiring management judgment are used to determine the estimated fair value of investments. The methodologies, assumptions and inputs utilized are described in Note 9 to the Consolidated Financial Statements.

Financial markets are susceptible to severe events evidenced by rapid depreciation in asset values accompanied by a reduction in asset liquidity. Our ability to sell investments and the price ultimately realized for investments depends upon the demand and liquidity in the market.

See also Notes 2, 7 and 9 to the Consolidated Financial Statements included elsewhere in this Report, “Item 1A – Risk Factors – Financial Risks – *Our investment portfolio is subject to credit, liquidity and other risks that may adversely affect our results of operations and financial condition*” and “ – Investments” contained in this Item 7.

Valuation and Recoverability of Goodwill

Our goodwill related to acquisitions of businesses was \$2.65 billion and \$2.62 billion as of December 31, 2025 and 2024, respectively. We review our goodwill annually in the fourth quarter for impairment, or more frequently if indicators of impairment exist. Such indicators include: a significant adverse change in legal factors, an adverse action or assessment by a regulator, unanticipated competition, loss of key personnel or a significant decline in our expected future cash flows due to changes in company-specific factors or the broader business climate. The evaluation of such factors requires considerable management judgment. Any adverse change in these factors could have a significant impact on the recoverability of goodwill and could have a material impact on our Consolidated Financial Statements.

Goodwill is tested for impairment at the reporting unit level, which is either at the operating segment or one level below, if that component is a business for which discrete financial information is available and segment management regularly reviews such information. Components within an operating segment can be aggregated into one reporting unit if they have similar economic characteristics. A goodwill impairment loss is measured as the excess of the carrying value, including goodwill, of the reporting unit over its fair value. An impairment loss is limited to the amount of goodwill allocated to the reporting unit.

Our Global Lifestyle operating segment is disaggregated into two reporting units: Connected Living and Global Automotive. Our reporting unit for goodwill testing was at the same level as the operating segment for Global Housing.

The following table illustrates the amount of goodwill carried by operating segment as of the dates indicated:

	December 31,	
	2025	2024
Global Lifestyle (1)	\$ 2,329.6	\$ 2,299.3
Global Housing	316.7	316.7
Total	\$ 2,646.3	\$ 2,616.0

- (1) As of December 31, 2025, \$807.7 million and \$1,521.9 million of goodwill was assigned to the Connected Living and Global Automotive reporting units, respectively. As of December 31, 2024, \$793.6 million and \$1,505.7 million of goodwill was assigned to the Connected Living (including Global Financial Services which was aggregated with Connected Living in 2023) and Global Automotive reporting units, respectively.

Quantitative Impairment Testing

In the fourth quarter of 2025, we performed a quantitative assessment for the Global Lifestyle and Global Housing reporting units, consistent with our standard practice following a qualitative test in the prior year. Based on this quantitative assessment, the Company determined that it was more likely than not that the reporting units’ fair values were more than their

carrying amounts and that there was no impairment for the Global Lifestyle and Global Housing reporting units as of October 1, 2025.

The determination of fair value of the reporting units requires many estimates and assumptions. These estimates and assumptions include earnings and required capital projections, discount rates, terminal growth rates, operating income and dividend forecasts for each reporting unit and the weighting assigned to the results of each valuation method included in the fair value calculation. Changes in certain assumptions could have a significant impact on the goodwill impairment assessment.

Should the operating results of these reporting units decline substantially compared to projected results, or changes to macroeconomic conditions having a potential impact of substantially reducing future profitability of the reporting units, we could determine that we need to perform an updated impairment test due to the potential impairment indicators, which may require the recognition of a goodwill impairment loss in any of the reporting units.

Refer to Note 14 to the Consolidated Financial Statements included elsewhere in this Report for further detail.

Recent Accounting Pronouncements

See Note 2 to the Consolidated Financial Statements included elsewhere in this Report.

Results of Operations

Assurant Consolidated

The table below presents information regarding our consolidated results of operations:

	For the Years Ended December 31,	
	2025	2024
Revenues:		
Net earned premiums	\$ 10,482.9	\$ 9,795.8
Fees and other income	1,875.9	1,638.6
Net investment income	527.3	518.9
Net realized losses on investments and fair value changes to equity securities	(71.8)	(75.8)
Total revenues	12,814.3	11,877.5
Benefits, losses and expenses:		
Policyholder benefits	2,927.8	2,766.5
Underwriting, selling, general and administrative expenses	8,688.1	8,076.7
Interest expense	109.7	107.0
Loss on extinguishment of debt	1.3	—
Total benefits, losses and expenses	11,726.9	10,950.2
Income before provision for income taxes	1,087.4	927.3
Provision for income taxes	214.7	167.1
Net income	\$ 872.7	\$ 760.2

Year Ended December 31, 2025 Compared to the Year Ended December 31, 2024

Net Income

Consolidated net income increased \$112.5 million, or 15%, to \$872.7 million for Twelve Months 2025 from \$760.2 million for Twelve Months 2024, primarily driven by higher earnings in Global Housing, a \$38.7 million decrease in after-tax reportable catastrophes, higher earnings in Global Lifestyle and a \$7.1 million after-tax decline in losses related to our non-core operations. The increase in net income was partially offset by a higher annualized effective tax rate, mainly due to higher transferable tax credits and a tax benefit for the release of a valuation allowance on foreign deferred tax assets recorded in the prior year, as well as a \$17.3 million increase in after-tax restructuring costs related to a new restructuring plan in fourth quarter 2025 related to optimizing operational efficiencies and higher after-tax depreciation expense of \$13.4 million, mainly due to higher software assets placed into service.

Global Lifestyle

The table below presents information regarding the Global Lifestyle segment's results of operations for the periods indicated:

	For the Years Ended December 31,	
	2025	2024
Revenues:		
Net earned premiums	\$ 7,892.8	\$ 7,506.0
Fees and other income	1,689.7	1,461.3
Net investment income	357.5	356.6
Total revenues	<u>9,940.0</u>	<u>9,323.9</u>
Benefits, losses and expenses:		
Policyholder benefits	1,901.7	1,738.6
Selling and underwriting expenses	4,986.8	4,770.4
Cost of sales	982.5	841.6
General expenses	1,267.7	1,199.9
Total benefits, losses and expenses	<u>9,138.7</u>	<u>8,550.5</u>
Global Lifestyle Adjusted EBITDA	<u>\$ 801.3</u>	<u>\$ 773.4</u>
Net earned premiums, fees and other income:		
Connected Living	\$ 5,378.7	\$ 4,807.9
Global Automotive	4,203.8	4,159.4
Total	<u>\$ 9,582.5</u>	<u>\$ 8,967.3</u>
Net earned premiums, fees and other income:		
Domestic	\$ 7,334.3	\$ 6,970.2
International	2,248.2	1,997.1
Total	<u>\$ 9,582.5</u>	<u>\$ 8,967.3</u>

Year Ended December 31, 2025 Compared to the Year Ended December 31, 2024

Adjusted EBITDA increased \$27.9 million, or 4%, to \$801.3 million for Twelve Months 2025 from \$773.4 million for Twelve Months 2024, primarily due to Connected Living growth, mainly from global mobile device protection programs and U.S. financial services, and improved loss experience in Global Automotive. The increase in Adjusted EBITDA was partially offset by a \$7.0 million non-run rate inventory adjustment recorded for U.S. mobile during the fourth quarter of 2025 and the unfavorable impact of foreign exchange.

Total revenues increased \$616.1 million, or 7%, to \$9.94 billion for Twelve Months 2025 from \$9.32 billion for Twelve Months 2024. Net earned premiums increased \$386.8 million, or 5%, primarily driven by growth in Connected Living from global mobile subscriber growth and higher contributions from financial services from a new program, partially offset by a decline in domestic extended service contracts and the unfavorable impact of foreign exchange. Fees and other income increased \$228.4 million, or 16%, primarily due to growth from global mobile trade-in programs and higher contributions from financial services from a new program. Net investment income increased \$0.9 million, primarily due to higher yields and asset balances on fixed maturity securities.

Total benefits, losses and expenses increased \$588.2 million, or 7%, to \$9.14 billion for Twelve Months 2025 from \$8.55 billion for Twelve Months 2024. Selling and underwriting expenses increased \$216.4 million, or 5%, primarily due to an increase in commission expenses in Connected Living, mainly related to the growth from global mobile device protection programs in line with the increase in net earned premiums. Policyholder benefits increased \$163.1 million, or 9%, primarily due to financial services in Connected Living, partially offset by lower losses within Global Automotive. Cost of sales increased \$140.9 million, or 17%, driven by growth in global mobile trade-in programs and a non-run rate inventory adjustment noted above. General expenses increased \$67.8 million, or 6%, primarily due to higher employee-related and information technology expenses to support growth initiatives.

Global Housing

The table below presents information regarding the Global Housing segment's results of operations for the periods indicated:

	For the Years Ended December 31,	
	2025	2024
Revenues:		
Net earned premiums	\$ 2,584.4	\$ 2,281.0
Fees and other income	184.4	176.0
Net investment income	141.8	127.3
Total revenues	2,910.6	2,584.3
Benefits, losses and expenses:		
Policyholder benefits	1,018.4	1,010.2
Selling and underwriting expenses	201.6	158.1
General expenses	831.9	744.8
Total benefits, losses and expenses	2,051.9	1,913.1
Global Housing Adjusted EBITDA	\$ 858.7	\$ 671.2
Impact of reportable catastrophes	\$ 198.8	\$ 245.2
Net earned premiums, fees and other income:		
Homeowners	\$ 2,192.4	\$ 1,958.9
Renters and Other	576.4	498.1
Total	\$ 2,768.8	\$ 2,457.0

Year Ended December 31, 2025 Compared to the Year Ended December 31, 2024

Adjusted EBITDA increased \$187.5 million, or 28%, to \$858.7 million for Twelve Months 2025 from \$671.2 million for Twelve Months 2024, mainly due to continued growth from higher lender-placed policies in-force and average premiums within Homeowners, and favorable non-catastrophe loss experience driven by lower frequency from weather and water claims, \$46.4 million of lower pre-tax reportable catastrophes, the previously disclosed \$27.5 million unfavorable non-run rate adjustment from Twelve Months 2024, and higher net investment income and fee income. The increase in Adjusted EBITDA was partially offset by higher costs associated with growth, lower Renters and Other results mainly from unfavorable non-catastrophe loss experience and overall higher catastrophe reinsurance premiums from the 2024 program restructuring.

Total revenues increased \$326.3 million, or 13%, to \$2.91 billion for Twelve Months 2025 from \$2.58 billion for Twelve Months 2024. Net earned premiums increased \$303.4 million, or 13%, primarily driven by Homeowners from higher lender-placed policies in-force and average premiums, as well as growth across various specialty products, growth in Renters and Other, primarily from a block of newly acquired renters policies, as previously disclosed, and the non-run rate adjustment described above, partially offset by higher catastrophe reinsurance premiums. Net investment income increased \$14.5 million, or 11%, primarily due to higher invested asset balances and yields. Fees and other income increased \$8.4 million, or 5%, primarily driven by continued growth in service fees within Homeowners.

Total benefits, losses and expenses increased \$138.8 million, or 7%, to \$2.05 billion for Twelve Months 2025 from \$1.91 billion for Twelve Months 2024. General expenses increased \$87.1 million, or 12%, and selling and underwriting expenses increased \$43.5 million, or 28%, both primarily due to higher costs associated with growth. Policyholder benefits increased \$8.2 million, or 1%, primarily due to higher non-catastrophe losses from exposure growth and severity, partially offset by favorable frequency, as well as lower reportable catastrophe losses and \$6.4 million of favorable year-over-year non-catastrophe prior year reserve development. Twelve Months 2025 had \$113.1 million of favorable non-catastrophe prior year reserve development compared to \$106.7 million in Twelve Months 2024.

Corporate and Other

The table below presents information regarding the Corporate and Other segment's results of operations for the periods indicated:

	For the Years Ended December 31,	
	2025	2024
Revenues:		
Net earned premiums	\$ —	\$ —
Fees and other income	1.7	0.4
Net investment income	23.9	27.2
Total revenues	25.6	27.6
Benefits, losses and expenses		
Policyholder benefits	—	—
General expenses	149.4	149.8
Total benefits, losses and expenses	149.4	149.8
Corporate and Other Adjusted EBITDA	<u>\$ (123.8)</u>	<u>\$ (122.2)</u>

Year Ended December 31, 2025 Compared to the Year Ended December 31, 2024

Adjusted EBITDA decreased \$1.6 million, or 1%, to \$(123.8) million for Twelve Months 2025 from \$(122.2) million for Twelve Months 2024. The change in results was primarily due to lower net investment income as explained below.

Total revenues decreased \$2.0 million, or 7%, to \$25.6 million for Twelve Months 2025 from \$27.6 million for Twelve Months 2024, primarily driven by a decrease in net investment income of \$3.3 million, or 12%, mainly due to lower yields on fixed maturity securities, and cash and short term investments, partially offset by an increase in fees and other income of \$1.3 million, mostly due to the sale of Internet Protocol addresses.

Total benefits, losses and expenses decreased \$0.4 million, to \$149.4 million for Twelve Months 2025 from \$149.8 million for Twelve Months 2024, primarily due to a decrease in general expenses of \$0.4 million, mostly driven by lower third-party expenses, partially offset by higher investments in our home warranty business and employee-related expenses.

Investments

We had total investments of \$10.06 billion and \$8.54 billion as of December 31, 2025 and 2024, respectively. Net unrealized losses on our fixed maturity securities portfolio decreased \$294.0 million during Twelve Months 2025, from a \$349.7 million unrealized loss at December 31, 2024 to a \$55.7 million unrealized loss at December 31, 2025, primarily due to a reduction in U.S. Treasury rates.

The following table shows the credit quality of our fixed maturity securities portfolio as of the dates indicated:

Fixed Maturity Securities by Credit Quality	Fair Value as of			
	December 31, 2025		December 31, 2024	
Aaa / Aa / A	\$ 4,710.9	54.9 %	\$ 3,987.5	55.6 %
Baa	3,257.9	38.0 %	2,699.7	37.6 %
Ba	527.6	6.2 %	415.7	5.8 %
B and lower	81.3	0.9 %	72.2	1.0 %
Total	\$ 8,577.7	100.0 %	\$ 7,175.1	100.0 %

The following table shows the major categories of net investment income for the periods indicated:

	Years Ended December 31,	
	2025	2024
Fixed maturity securities	\$ 434.8	\$ 385.9
Equity securities	11.9	13.2
Commercial mortgage loans on real estate	18.6	19.2
Short-term investments	18.1	18.4
Other investments	2.9	21.3
Cash and cash equivalents	58.4	77.0
Total investment income	544.7	535.0
Investment expenses	(17.4)	(16.1)
Net investment income	\$ 527.3	\$ 518.9

Net investment income increased \$8.4 million, or 2%, to \$527.3 million for Twelve Months 2025 from \$518.9 million for Twelve Months 2024. The increase was primarily driven by higher asset balances and yields in fixed maturity securities, partially offset by reduced income due to lower yields and balances in cash and cash equivalents and reduced income in real estate joint ventures and other partnerships.

Net realized losses on investments and fair value changes to equity securities were \$71.8 million for Twelve Months 2025 compared to net realized losses on investments and fair value changes to equity securities of \$75.8 million for Twelve Months 2024. The change in Twelve Months 2025 was primarily driven by realized losses in equity securities, partially offset by fewer impairments in other investments.

As of December 31, 2025, we owned \$14.7 million of securities guaranteed by financial guarantee insurance companies. Included in this amount was \$13.8 million of municipal securities, whose credit rating was A+ with the guarantee, but would have had a rating of AA- without the guarantee.

For more information on our investments, see Notes 7 and 9 to the Consolidated Financial Statements included elsewhere in this Report.

Liquidity and Capital Resources

The following section discusses our ability to generate cash flows from each of our subsidiaries, borrow funds at competitive rates and raise new capital to meet our operating and growth needs. Management believes that we will have sufficient liquidity to satisfy our needs over the next twelve months, including the ability to pay interest on our debt and dividends on our common stock.

In January 2025, we entered into an agreement to sell our Miami, Florida property for a purchase price of \$126.0 million, subject to certain adjustments and to the buyer receiving the requisite development approvals. If the transaction is consummated pursuant to the terms of the agreement, we expect to record a gain above the current carrying value of \$46.0 million as of December 31, 2025, less estimated costs to sell. We do not anticipate that any such gain will impact our capital deployment priorities. There can be no assurance that the transaction will be consummated.

Regulatory Requirements

Assurant, Inc. is a holding company and, as such, has limited direct operations of its own. Our assets consist primarily of the capital stock of our subsidiaries. Accordingly, our future cash flows depend upon the availability of dividends and other statutorily permissible payments from our subsidiaries. Our subsidiaries' ability to pay such dividends and make such other payments is regulated by the states and territories in which our subsidiaries are domiciled. These dividend regulations vary by jurisdiction and by type of insurance provided by the applicable subsidiary, but generally require our insurance subsidiaries to maintain minimum solvency requirements and limit the amount of dividends they can pay to the holding company. See "Item 1A – Risk Factors – Legal and Regulatory Risks – *Changes in insurance regulation may reduce our profitability and limit our growth.*" Along with solvency regulations, the primary driver in determining the amount of capital used for dividends from insurance subsidiaries is the level of capital needed to maintain desired financial strength ratings from A.M. Best.

For the year ending December 31, 2026, the maximum amount of dividends our regulated U.S. domiciled insurance subsidiaries could pay us, under applicable laws and regulations without prior regulatory approval, is approximately \$791.9 million. Our international and non-insurance subsidiaries provide additional sources of dividends.

Regulators or rating agencies could become more conservative in their methodology and criteria, increasing capital requirements for our insurance subsidiaries or the enterprise. For further information on our ratings and the risks of ratings downgrades, see "Item 1 – Business – Ratings" and "Item 1A – Risk Factors – Financial Risks – *A decline in the financial strength ratings of our insurance subsidiaries could adversely affect our results of operations and financial condition.*"

Holding Company

As of December 31, 2025, we had approximately \$887.4 million in holding company liquidity, \$662.4 million above our minimum level of \$225.0 million. The minimum level of holding company liquidity, which can be used for unforeseen capital needs at our subsidiaries or liquidity needs at the holding company, is an internal minimum level calibrated based on approximately one year of pre-tax corporate operating losses and interest expenses. We use the term "holding company liquidity" to represent the portion of cash and other liquid marketable securities held at Assurant, Inc. (out of a total of \$985.4 million as of December 31, 2025) which we are not otherwise holding for a specific purpose as of the balance sheet date. We can use such assets for stock repurchases, stockholder dividends, acquisitions and other corporate purposes.

Dividends or returns of capital paid by our subsidiaries, net of infusions of liquid assets and excluding amounts used for or as a result of acquisitions or received from dispositions, were \$925.1 million and \$804.7 million for Twelve Months 2025 and Twelve Months 2024, respectively. We use these cash inflows primarily to pay holding company operating expenses, to make interest payments on indebtedness, to make dividend payments to our common stockholders, to fund investments and acquisitions, and to repurchase our common stock. From time to time, we may also seek to purchase outstanding debt in open market repurchases or privately negotiated transactions.

Dividends and Repurchases

During Twelve Months 2025 and Twelve Months 2024, we made common stock repurchases and paid dividends to our common stockholders of \$468.3 million and \$455.8 million, respectively.

On January 29, 2026, the Board declared a quarterly dividend of \$0.88 per common share payable on March 30, 2026 to stockholders of record as of February 17, 2026. We paid dividends of \$0.88 per common share on December 29, 2025 to stockholders of record as of December 1, 2025. This represented a 10% increase to the quarterly dividend of \$0.80 per common share paid on September 29, June 30, and March 31, 2025.

Any determination to declare and pay future dividends is at the sole discretion of the Board and depends upon various factors. See "Item 5 – Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities – Dividend Policy."

During Twelve Months 2025, we repurchased 1,432,302 shares of our outstanding common stock at a cost of \$299.9 million, exclusive of commissions. In November 2023, the Board authorized a share repurchase program for up to \$600.0 million of our outstanding common stock. In November 2025, the Board authorized an additional share repurchase program for up to \$700.0 million of our outstanding common stock. As of December 31, 2025, \$774.6 million aggregate cost at purchase remained unused under the repurchase authorizations. The timing and the amount of future repurchases will depend on various factors, including those listed above.

Assurant Subsidiaries

The primary sources of funds for our subsidiaries consist of premiums and fees collected, proceeds from the sales and maturity of investments and net investment income. Cash is primarily used to pay insurance claims, agent commissions, operating expenses and taxes. We generally invest our subsidiaries' funds in order to generate investment income.

We conduct periodic asset liability studies to measure the duration of our insurance liabilities, to develop optimal asset portfolio maturity structures for our significant lines of business and ultimately to assess that cash flows are sufficient to meet the timing of cash needs. These studies are conducted in accordance with formal company-wide Asset Liability Management guidelines.

To complete a study for a particular line of business, models are developed to project asset and liability cash flows and balance sheet items under a varied set of plausible economic scenarios. These models consider many factors including the current investment portfolio, the required capital for the related assets and liabilities, our tax position and projected cash flows from both existing and projected new business. For risks related to modeling, see “Item 1A – Risk Factors – Financial Risks – *Actual results may differ materially from the analytical models we use to assist in our decision-making in key areas such as pricing, catastrophe risks, reserving and capital management.*”

Alternative asset portfolio asset allocations are analyzed for significant lines of business. An investment portfolio maturity structure is then selected from these profiles given our return hurdle and risk appetite. Scenario testing of significant liability assumptions and new business projections is also performed.

Our liabilities generally do not include policyholder optionality, which means that the timing of payments is generally insensitive to the interest rate environment. In addition, our investment portfolio is largely comprised of highly liquid public fixed maturity securities with a sufficient component of such securities invested that are near maturity which may be sold with minimal risk of loss to meet cash needs.

Generally, our subsidiaries’ premiums, fees and investment income, along with planned asset sales and maturities, provide sufficient cash to pay claims and expenses. However, there may be instances when unexpected cash needs arise in excess of that available from usual operating sources. In such instances, we have several options to raise needed funds, including selling assets from the subsidiaries’ investment portfolios, using holding company cash (if available), issuing commercial paper, or drawing funds from the Credit Facility.

Senior and Subordinated Notes

The following table shows the principal amount and carrying value of our outstanding debt, less unamortized discount and issuance costs as applicable, as of December 31, 2025 and 2024:

	December 31, 2025		December 31, 2024	
	Principal Amount	Carrying Value	Principal Amount	Carrying Value
6.10% Senior Notes due February 2026	\$ —	\$ —	\$ 175.0	\$ 174.3
4.90% Senior Notes due March 2028	300.0	299.0	300.0	298.6
3.70% Senior Notes due February 2030	350.0	348.5	350.0	348.2
2.65% Senior Notes due January 2032	350.0	347.7	350.0	347.3
6.75% Senior Notes due February 2034	275.0	273.1	275.0	272.8
5.55% Senior Notes due February 2036	300.0	296.1	—	—
7.00% Fixed-to-Floating Rate Subordinated Notes due March 2048	400.0	398.3	400.0	397.7
5.25% Subordinated Notes due January 2061	250.0	244.2	250.0	244.2
Total Debt		<u>\$ 2,206.9</u>		<u>\$ 2,083.1</u>

2036 Senior Notes: In August 2025, we issued senior notes due February 2036 with an aggregate principal amount of \$300.0 million, which bear interest at a rate of 5.55% per year and were issued at a 0.322% discount to the public (the “2036 Senior Notes”). Interest on the 2036 Senior Notes is payable semi-annually in arrears on February 15 and August 15 of each year, beginning on February 15, 2026. Prior to November 15, 2035, we may redeem all or part of the 2036 Senior Notes at a redemption price equal to 100% of the aggregate principal amount of the 2036 Senior Notes to be redeemed, plus a make-whole premium as described in the 2036 Senior Notes and accrued and unpaid interest up to the redemption date. On or after that date, we may redeem all or part of the 2036 Senior Notes at any time at a redemption price equal to 100% of the aggregate principal amount of the 2036 Senior Notes to be redeemed, plus accrued and unpaid interest up to the redemption date.

In August 2025, we used the net proceeds from the sale of the 2036 Senior Notes to redeem all of the \$175.0 million outstanding aggregate principal amount of our 6.10% Senior Notes due February 2026 (the “2026 Senior Notes”) at a make-whole premium plus accrued and unpaid interest up to the redemption date, to pay related fees and expenses, and for general corporate purposes. In connection with the redemption, we recognized a net loss from the extinguishment of the debt of \$1.3 million, which included the make-whole premium and the remaining deferred debt issuance costs for the 2026 Senior Notes, partially offset by a gain from the termination of a hedge of the interest rate risk associated with the redeemed notes.

In the next five years, we have two debt maturities in March 2028 and February 2030 when the 2028 Senior Notes and the 2030 Senior Notes (each as defined below), respectively, become due and payable.

For additional information, see Note 18 to the Consolidated Financial Statements included elsewhere in this Report.

Credit Facility and Commercial Paper Program

In June 2025, we entered into a \$500.0 million five-year senior unsecured revolving credit facility (the “Credit Facility”) with certain lenders party thereto, JPMorgan Chase Bank, N.A., as administrative agent, and Wells Fargo Bank, National Association, as syndication agent. The Credit Facility replaced our prior \$500.0 million five-year senior unsecured revolving credit facility (the “Prior Credit Facility”), which terminated upon the effectiveness of the Credit Facility. The Credit Facility provides for revolving loans and the issuance of multi-bank, syndicated letters of credit and letters of credit from a sole issuing bank in an aggregate amount of \$500.0 million, which may be increased up to \$750.0 million. The Credit Facility is available until June 2030, provided we are in compliance with all covenants. The Credit Facility has a sublimit for letters of credit issued thereunder of \$50.0 million. The proceeds from these loans may be used for our commercial paper program or for general corporate purposes.

We made no borrowings under the Credit Facility or our Prior Credit Facility during Twelve Months 2025 and no loans were outstanding under the Credit Facility as of December 31, 2025.

Our commercial paper program requires us to maintain liquidity facilities either in an available amount equal to any outstanding notes from the program or in an amount sufficient to maintain the ratings assigned to the notes issued from the program. Our commercial paper is rated AMB-1+ by A.M. Best, P-2 by Moody’s and A-2 by S&P. Our subsidiaries do not maintain commercial paper or other borrowing facilities. This program is backed up by the Credit Facility, of which \$500.0 million was available as of December 31, 2025.

We did not use the commercial paper program during Twelve Months 2025 and there were no amounts relating to the commercial paper program outstanding as of December 31, 2025.

For additional information, see Note 18 to the Consolidated Financial Statements included elsewhere in this Report.

Letters of Credit

In the normal course of business, letters of credit are issued primarily to support reinsurance arrangements in which we are the reinsurer. These letters of credit are supported by commitments under which we are required to indemnify the financial institution issuing the letter of credit if the letter of credit is drawn. We had \$1.7 million and \$1.8 million of letters of credit outstanding as of December 31, 2025 and 2024, respectively.

Limited Recourse Note

In 2024, we entered into a financing arrangement pursuant to which we are able to issue a \$100 million limited recourse note and, in return, obtain a \$100 million asset-backed note from a Delaware master trust. As of December 31, 2025, no notes have been issued under this arrangement.

Cash Flows

We monitor cash flows at the consolidated, holding company and subsidiary levels. Cash flow forecasts at the consolidated and subsidiary levels are provided on a monthly basis, and we use trend and variance analyses to project future cash needs making adjustments to the forecasts when needed.

The table below shows our recent net cash flows for the periods indicated:

	For the Years Ended December 31,	
	2025	2024
Net cash provided by (used in):		
Operating activities	\$ 1,833.9	\$ 1,332.7
Investing activities	(1,457.8)	(657.8)
Financing activities	(364.2)	(477.5)
Effect of exchange rate changes on cash and cash equivalents	14.5	(17.1)
Net change in cash	<u>\$ 26.4</u>	<u>\$ 180.3</u>

Cash Flows for the Years Ended December 31, 2025 and 2024

Operating Activities

We typically generate operating cash inflows from premiums collected from our insurance products, fees received for services and income received from our investments while outflows consist of policy acquisition costs, benefits paid and operating expenses. These net cash flows are then invested to support the obligations of our insurance products and required capital supporting these products. Our cash flows from operating activities are affected by the timing of premiums, fees, and investment income received and expenses paid.

Net cash provided by operating activities was \$1.83 billion and \$1.33 billion for Twelve Months 2025 and Twelve Months 2024, respectively. The change in net operating cash flows was largely attributable to growth in our lender-placed and Connected Living businesses, cash payments related to the assumption of a new block of business in Connected Living and lower outflows for inventory in our mobile business. These increases were partially offset by higher net paid claims and the timing of tax payments as we received a refund during Twelve Months 2024.

Investing Activities

Net cash used in investing activities was \$1,457.8 million and \$657.8 million for Twelve Months 2025 and Twelve Months 2024, respectively. The change in net investing cash flows was primarily driven by the increased investment of net cash provided by operating activities and the reinvestment of proceeds from the sale of fixed maturity securities.

Financing Activities

Net cash used in financing activities was \$364.2 million and \$477.5 million for Twelve Months 2025 and Twelve Months 2024, respectively. The change in net financing cash flows was primarily due to the issuance of the 2036 Senior Notes, partially offset by the redemption of the 2026 Senior Notes. For additional information, see Note 18 in the Consolidated Financial Statements included elsewhere in this Report.

The table below shows our cash outflows for taxes, interest and dividends for the periods indicated:

	For the Years Ended December 31,		
	2025	2024	2023
Income taxes paid	\$ 271.6	\$ 126.6	\$ 232.9
Interest paid on debt	107.2	107.4	107.4
Common stock dividends	168.4	155.9	152.3
Total	\$ 547.2	\$ 389.9	\$ 492.6

Contractual Obligations and Commitments

We have contractual obligations and commitments to third parties as a result of our operations, as detailed in the table below by maturity date as of December 31, 2025:

	As of December 31, 2025				
	Total	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years
<i>Contractual obligations:</i>					
Insurance liabilities (1)	\$ 2,012.3	\$ 1,502.6	\$ 369.6	\$ 87.3	\$ 52.8
Debt and related interest	3,703.2	107.2	507.0	529.3	2,559.7
Operating leases	87.1	20.3	30.0	20.5	16.3
Pension obligations and postretirement benefits (2)	455.3	50.7	97.6	96.7	210.3
<i>Commitments:</i>					
<i>Investment purchases outstanding:</i>					
Commercial mortgage loans on real estate	7.8	7.8	—	—	—
Capital contributions to non-consolidated VIEs	252.4	252.4	—	—	—
Liability for unrecognized tax benefits	22.8	—	22.8	—	—
Total obligations and commitments	\$ 6,540.9	\$ 1,941.0	\$ 1,027.0	\$ 733.8	\$ 2,839.1

- (1) Insurance liabilities reflect undiscounted estimated cash payments to be made to policyholders, net of expected future premium cash receipts on in-force policies and excluding fully reinsured runoff operations. The total gross reserve for fully reinsured runoff operations that was excluded was \$632.0 million which, if the reinsurers defaulted, would be payable over a 30+ year period with the majority of the payments occurring after 5 years. \$489.4 million of these reinsurance recoverables were included in assets held for sale on the consolidated balance sheet. Additional information on the assets held for sale and the reinsurance arrangements can be found in Note 3 and Note 17, respectively, to the Consolidated Financial Statements included elsewhere in this Report. These liabilities also do not include recoverable amounts related to certain high deductible policies in our sharing economy business, included in our non-core operations, for which we are responsible for paying the entirety of the claim and are subsequently reimbursed by the insured for the deductible portion of the claim. As of December 31, 2025, we had exposure to \$86.8 million of reserves below the deductible that we would be responsible for if the clients were to default on their contractual obligation to pay us the deductible. See Note 4 to the Consolidated Financial Statements included elsewhere in this Report for more information on our evaluation of the credit risk exposure from these recoverables. As a result, the amounts presented in this table do not agree to the future policy benefits and expenses and claims and benefits payable in the consolidated balance sheets.
- (2) Our pension obligations and postretirement benefits include an Assurant Pension Plan, various non-qualified pension plans (including an Executive Pension Plan) and certain life and health care benefits for retired employees and their dependents (“Retirement Health Benefits”), all of which were frozen in 2016. In February 2020, we amended the Retirement Health Benefits to terminate such plan benefits to retirees effective December 31, 2024. Due to the Assurant Pension Plan’s current overfunded status, no contributions were made during 2025 and none are expected to be made in 2026. See Note 23 to the Consolidated Financial Statements included elsewhere in this Report for more information.

Liabilities for future policy benefits and expenses have been included in the commitments and contingencies table. Significant uncertainties relating to these liabilities include mortality, morbidity, expenses, persistency, investment returns, inflation, contract terms and the timing of payments.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

The following is a discussion of our primary market risk exposures and management of such exposures as of December 31, 2025. There were no other significant changes in our primary market risk exposures or in how those exposures were managed for the year ended December 31, 2025, compared to the year ended December 31, 2024. We do not currently anticipate significant changes in our primary market risk exposures or in how those exposures are managed in future reporting periods based upon what is known or expected to be in effect in future reporting periods.

Market risk is the risk of loss from changes in the fair value of our financial instruments, including due to interest rates (including impacts of changes in credit spreads), foreign currency exchange rates and credit risk from counterparties. Market risk is dependent on the volatility and liquidity in the underlying markets in which these assets are traded.

Our investment portfolio consists primarily of fixed maturity securities, denominated in both U.S. dollars and foreign currencies, which are sensitive to changes in interest rates, including impacts of changes in credit spreads, foreign currency exchange rates and credit risk from counterparties. The majority of our fixed income portfolio is classified as available for sale. The carrying value of our investment portfolio at December 31, 2025 and 2024 was \$10.06 billion and \$8.54 billion, respectively, of which 85% and 84% was invested in fixed maturity securities, respectively.

Interest Rate Risk

Interest rate risk is the possibility that the fair value of liabilities will change more or less than the market value of investments in response to changes in interest rates, including changes in investment yields and changes in spreads due to credit risks and other factors.

Our investment portfolio, including our fixed maturity portfolio, has exposure to interest rate risk. Changes in investment values attributable to interest rate changes are mitigated by corresponding and partially offsetting changes in the economic value of our liabilities. We monitor this exposure through periodic reviews of our asset and liability positions and we manage interest rate risk by selecting investments with characteristics such as duration, yield, currency and liquidity tailored to the anticipated cash outflow characteristics of our insurance and reinsurance liabilities. Portfolio duration is primarily managed through cash market transactions. For additional information, see Notes 7 and 9 to the Consolidated Financial Statements included elsewhere in this Report and “Item 7 – Management’s Discussion and Analysis of Financial Condition and Results of Operations – Investments”.

The interest rate sensitivity relating to changes in fair value in our fixed maturity portfolio is assessed using hypothetical scenarios that assume parallel shifts of the yield curves. Our actual experience may differ from the results indicated below, particularly due to the assumptions reflected or if events occur that were not included in the methodology. For more information, see “Item 1A – Risk Factors – Financial Risks – *Actual results may differ materially from the analytical models we use to assist in our decision-making in key areas such as pricing, catastrophe risks, reserving and capital management.*”

Our sensitivity analysis model produces a loss in fair value in the fixed maturity portfolio of (i) \$216.5 million and \$173.2 million as of December 31, 2025 and 2024, respectively, based on a hypothetical and instantaneous 50 basis point parallel increase in interest rates (including impacts of changes in credit spreads), and (ii) \$428.5 million and \$340.0 million as of December 31, 2025 and 2024, respectively, based on a hypothetical and instantaneous 100 basis point parallel increase in interest rates (including impacts of changes in credit spreads).

Our debt obligations also have exposure to interest rate risk, primarily at the time of refinancing. We monitor market interest rates and evaluate refinancing opportunities for our debt obligations as maturity dates approach. We stagger the maturity dates of our debt to mitigate the interest rate risk in any given year. For additional information, see Note 18 to the Consolidated Financial Statements included elsewhere in this Report and “Item 7 – Management’s Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources”.

Our sensitivity analysis model produces a loss in fair value of our debt obligations of (i) \$52.2 million and \$48.4 million as of December 31, 2025 and 2024, respectively, based on a hypothetical and instantaneous 50 basis point parallel increase in interest rates, and (ii) \$102.7 million and \$95.3 million as of December 31, 2025 and 2024, respectively, based on a hypothetical and instantaneous 100 basis point parallel increase in interest rates.

Foreign Exchange Risk

We are exposed to foreign exchange risk arising from our investments in foreign subsidiaries. Foreign exchange risk is the possibility that changes in exchange rates produce an adverse effect on earnings and equity when measured in domestic currency. This risk is largest when assets backing liabilities payable in one currency are invested in financial instruments of another currency. To manage foreign exchange risk, our general principle is to invest in assets that match the currency in which we expect liabilities to be paid. Foreign exchange risk is mitigated by matching our liabilities under insurance policies that are payable in foreign currencies with investments that are denominated in such currencies.

The foreign exchange risk sensitivity of the fair value of our investments in foreign subsidiaries is assessed using a hypothetical 10% immediate change in each of the foreign currency exchange rates to which we are exposed. The modeling technique we use to report our currency exposure does not take into account correlation among foreign currency exchange rates. Our actual experience may differ from the results indicated below, particularly due to the assumptions reflected or if events occur that were not included in the methodology. For more information, see “Item 1A – Risk Factors – Financial Risks – *Actual results may differ materially from the analytical models we use to assist in our decision-making in key areas such as pricing, catastrophe risks, reserving and capital management*” and “– *Fluctuations in the exchange rate of the U.S. Dollar and other foreign currencies may materially and adversely affect our results of operations.*”

The following table summarizes the net assets (liabilities) denominated in foreign currencies as of December 31, 2025 and 2024 and the sensitivity to a hypothetical strengthening of the U.S. dollar.

	December 31, 2025		December 31, 2024		2025 vs. 2024
	Value of net assets (liabilities)	Exchange rate per USD	Value of net assets (liabilities)	Exchange rate per USD	% Change in exchange rate per USD
British pound sterling (GBP)	\$ 340.1	1.3379	\$ 323.3	1.2684	5.5%
Canadian dollar (CAD)	247.5	0.7288	239.3	0.6955	4.8%
Euro (EUR)	169.2	1.1754	146.8	1.0514	11.8%
Brazilian real (BRL)	107.0	0.1846	70.6	0.1630	13.3%
Australian dollar (AUD)	86.2	0.6643	64.7	0.6372	4.3%
Mexican peso (MXN)	88.4	0.0556	71.0	0.0497	11.9%
Japanese yen (JPY)	27.9	0.0064	32.4	0.0065	(1.5)%
New Zealand dollar (NZD)	19.1	0.5783	15.2	0.5783	—%
Chilean peso (CLP)	13.3	0.0011	12.1	0.0010	10.0%
Argentine peso (ARS)	19.6	0.0007	13.7	0.0010	(30.0)%
Indian rupee (INR)	8.0	0.0110	9.4	0.0118	(6.8)%
Other (various currencies)	(3.7)		(5.8)		
Value of net assets denominated in foreign currencies	<u>\$ 1,122.6</u>		<u>\$ 992.7</u>		
Net assets	\$ 5,871.6		\$ 5,106.7		
As a percentage of total net assets	19.1 %		19.4 %		
Pre-tax decrease in fair value of our investments in foreign subsidiaries from a hypothetical 10 percent strengthening of the USD	\$ (122.4)		\$ (109.6)		
Pre-tax increase in fair value of our investments in foreign subsidiaries from a hypothetical 10 percent weakening of the USD	\$ 122.4		\$ 109.6		

Credit Risk

Credit risk is the possibility that counterparties may not be able to meet payment obligations when they become due. A counterparty is any person or entity from which cash or other forms of consideration are expected to extinguish a liability or obligation to us. With respect to our market risk sensitive instruments, we have exposure to credit risk as a holder of fixed maturity securities.

Our risk management strategy and investment policy is to invest in securities from a diversified pool of issuers and to limit the amount of credit exposure with respect to any one issuer. We attempt to limit our credit exposure by imposing fixed maturity portfolio limits on individual issuers based upon credit quality, among other strategies. For additional information, refer to “Item 1A – Risk Factors – Financial Risks – *Our investment portfolio is subject to credit, liquidity and other risks that may adversely affect our results of operations and financial condition,*” “Item 7 – Management’s Discussion and Analysis of Financial Condition and Results of Operations – Investments” and Notes 4 and 7 to the Consolidated Financial Statements included elsewhere in this Report.

Item 8. Financial Statements and Supplementary Data

The Consolidated Financial Statements and Financial Statement Schedules in Part IV, Item 15(a)(1) and (2) of this Report are incorporated by reference into this Item 8.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our CEO and our CFO, has evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15(b) or 15d-15(b) under the Exchange Act as of December 31, 2025. Based on such evaluation, management, including our CEO and CFO, has concluded that as of December 31, 2025, our disclosure controls and procedures were effective and provide reasonable assurance that information we are required to disclose in our reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms. Our CEO and CFO also have concluded that as of December 31, 2025, information that we are required to disclose in our reports under the Exchange Act is accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting for us as defined in Rule 13a-15(f) or 15d-15(f) under the Exchange Act.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP. A company's internal control over financial reporting includes policies and procedures that: (1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our management, with the participation of our CEO and CFO, evaluated the effectiveness of our internal control over financial reporting as of December 31, 2025 using criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Management, including our CEO and CFO, based on its evaluation of our internal control over financial reporting, has concluded that our internal control over financial reporting was effective as of December 31, 2025.

The effectiveness of our internal control over financial reporting as of December 31, 2025 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report which appears herein.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the quarterly period ended December 31, 2025 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information

Rule 10b5-1 and non-Rule 10b5-1 Trading Arrangements

None.

Item 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections

Not applicable.

PART III

Item 10. *Directors, Executive Officers and Corporate Governance*

The information required under this Item 10 regarding directors is incorporated by reference to the information in our upcoming 2026 Proxy Statement (the “2026 Proxy Statement”) under the caption “Proposals Requiring Your Vote – Proposal One – Election of Directors.” The information required under this Item 10 regarding executive officers is incorporated by reference to the information in the 2026 Proxy Statement under the caption “Executive Officers.” The information required under this Item 10 regarding compliance with Section 16(a) of the Exchange Act is incorporated by reference to the information in the 2026 Proxy Statement under the caption “Delinquent Section 16(a) Reports,” if included in the 2026 Proxy Statement. The information required under this Item 10 regarding our Code of Business Conduct and Ethics is incorporated by reference to the information in the 2026 Proxy Statement under the caption “Corporate Governance – Corporate Governance Guidelines and Code of Ethics – Code of Ethics.” The information required under this Item 10 regarding the Nominating and Corporate Governance Committee and the Audit Committee is incorporated by reference to the information in the 2026 Proxy Statement under the captions “Corporate Governance – Director Refreshment, Nomination and Stockholder Recommendations,” “Corporate Governance – Board and Committee Leadership and Composition,” “Corporate Governance – Audit Committee” and “Corporate Governance – Director Independence.” The information required under this Item 10 regarding the Company’s insider trading policies and procedures is incorporated by reference to the information in the 2026 Proxy Statement under the caption “Compensation Discussion and Analysis – Our Executive Compensation Practices, Policies & Guidelines – Insider Trading Policy and Prohibitions on Hedging, Pledging and Speculative Transactions.”

Item 11. *Executive Compensation*

The information required under this Item 11 is incorporated by reference to the information in the 2026 Proxy Statement under the captions “Compensation Discussion and Analysis,” “Executive Compensation” and “Director Compensation.” The information required under this Item 11 is incorporated by reference to the information in the 2026 Proxy Statement regarding the Compensation and Talent Committee under the captions “Corporate Governance – Compensation and Talent Committee Interlocks and Insider Participation” and “Compensation and Talent Committee Report.”

Item 12. *Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters*

The information required under this Item 12 is incorporated by reference to the information in the 2026 Proxy Statement under the captions “Equity Compensation Plan Information,” “Security Ownership of Certain Beneficial Owners” and “Security Ownership of Directors and Executive Officers.”

Item 13. *Certain Relationships and Related Transactions, and Director Independence*

The information required under this Item 13 is incorporated by reference to the information in the 2026 Proxy Statement under the captions “Transactions with Related Persons” and “Corporate Governance – Director Independence.”

Item 14. *Principal Accounting Fees and Services*

The information required under this Item 14 is incorporated by reference to the information in the 2026 Proxy Statement under the caption “Audit Committee Matters – Fees of Principal Accountants.”

PART IV

Item 15. Exhibits and Financial Statement Schedules

(a)(1) Consolidated Financial Statements

The following Consolidated Financial Statements of Assurant, Inc. are attached hereto:

	<u>Page Number</u>
Consolidated Financial Statements of Assurant, Inc.	
Report of Independent Registered Public Accounting Firm (PCAOB ID 238)	F-1
Consolidated Balance Sheets as of December 31, 2025 and 2024	F-3
Consolidated Statements of Operations For Years Ended December 31, 2025, 2024 and 2023	F-4
Consolidated Statements of Comprehensive Income For Years Ended December 31, 2025, 2024 and 2023	F-5
Consolidated Statements of Changes in Stockholders' Equity For Years Ended December 31, 2025, 2024 and 2023	F-6
Consolidated Statements of Cash Flows For Years Ended December 31, 2025, 2024 and 2023	F-7
Notes to the Consolidated Financial Statements	F-9

(a)(2) Consolidated Financial Statement Schedules

The following Consolidated Financial Statement Schedules of Assurant, Inc. are attached hereto:

Schedule I – Summary of Investments Other Than Investments in Related Parties as of December 31, 2025	F-73
Schedule II – Parent Only Condensed Financial Statements as of December 31, 2025 and 2024 and for Years Ended December 31, 2025, 2024 and 2023	F-74
Schedule III – Supplementary Insurance Information as of December 31, 2025, 2024 and 2023	F-79
Schedule IV – Reinsurance as of December 31, 2025, 2024 and 2023	F-80
Schedule V – Valuation and Qualifying Accounts as of December 31, 2025, 2024 and 2023	F-81

* All other financial statement schedules are omitted because they are not applicable or not required or the information is included in the Consolidated Financial Statements or the notes thereto.

(a)(3) Exhibits

The following exhibits either (a) are filed with this Report or (b) have previously been filed with the SEC and are incorporated herein by reference to those prior filings.

Exhibit

Number Exhibit Description

- 3.1 Restated Certificate of Incorporation of Assurant, Inc., effective as of May 21, 2025 (incorporated by reference from Exhibit 3.3 to the Registrant's Current Report on Form 8-K, originally filed on May 23, 2025).
- 3.2 Amended and Restated By-laws of Assurant, Inc., effective as of May 21, 2025 (incorporated by reference from Exhibit 3.4 to the Registrant's Current Report on Form 8-K, originally filed on May 23, 2025).
- 4.1 Specimen Common Stock Certificate (incorporated by reference from Exhibit 4.1 to the Registrant's Registration Statement on Form S-1/A and amendments thereto, originally filed on January 13, 2004).
- 4.2 Senior Debt Indenture, dated as of February 18, 2004, between Assurant, Inc. and U.S. Bank Trust Company, National Association (successor to Sun Trust Bank), as trustee (incorporated by reference from Exhibit 10.27 to the Registrant's Annual Report on Form 10-K, originally filed on March 30, 2004).
- 4.3 Indenture, dated as of March 28, 2013, between Assurant, Inc. and U.S. Bank Trust Company, National Association (successor to U.S. Bank National Association), as trustee (incorporated by reference from Exhibit 4.1 to the Registrant's Form 8-K, originally filed on March 28, 2013).

- 4.4 First Supplemental Indenture, dated as of February 28, 2023, between Assurant, Inc. and U.S. Bank Trust Company, National Association (successor to U.S. Bank National Association), as trustee (incorporated by reference from Exhibit 4.2 to the Registrant's Form 8-K, originally filed on February 28, 2023).
- 4.5 Subordinated Indenture, dated as of March 27, 2018, between Assurant, Inc. and U.S. Bank Trust Company, National Association (successor to U.S. Bank National Association), as trustee (incorporated by reference from Exhibit 4.2 to the Registrant's Current Report on Form 8-K, originally filed on March 27, 2018).
- 4.6 Description of the Registrant's Securities.
- 4.7 Pursuant to Item 601(b)(4)(iii) of Regulation S-K, the Registrant hereby agrees to furnish to the SEC, upon request, a copy of any other instrument defining the rights of holders of long-term debt of the Registrant and its subsidiaries.
- 10.1 Form of Assurant, Inc. Restricted Stock Unit Award Agreement for Time-Based Awards for Directors, effective as of January 1, 2013 (incorporated by reference from Exhibit 10.2 to the Registrant's Annual Report on Form 10-K, originally filed on February 20, 2013). *
- 10.2 Form of Assurant, Inc. Restricted Stock Unit Award Agreement for Time-Based Awards for Directors, effective as of January 1, 2013 (incorporated by reference from Exhibit 10.3 to the Registrant's Annual Report on Form 10-K, originally filed on February 20, 2013). *
- 10.3 Amended and Restated Assurant, Inc. Long Term Equity Incentive Plan, effective as of January 1, 2012 (incorporated by reference from Exhibit 10.15 to the Registrant's Annual Report on Form 10-K, originally filed on February 23, 2012). *
- 10.4 Form of Assurant, Inc. Restricted Stock Unit Award Agreement for Time-Based Awards for Directors, under the Assurant, Inc. 2017 Long Term Equity Incentive Plan (incorporated by reference from Exhibit 10.1 to the Registrant's Form S-8, originally filed on May 12, 2017). *

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of Assurant, Inc.

Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying consolidated balance sheets of Assurant, Inc. and its subsidiaries (the "Company") as of December 31, 2025 and 2024, and the related consolidated statements of operations, of comprehensive income, of changes in stockholders' equity and of cash flows for each of the three years in the period ended December 31, 2025, including the related notes and financial statement schedules listed in the index appearing under Item 15(a)(2) (collectively referred to as the "consolidated financial statements"). We also have audited the Company's internal control over financial reporting as of December 31, 2025, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2025 and 2024, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2025 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2025, based on criteria established in Internal Control - Integrated Framework (2013) issued by the COSO.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Annual Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on the Company's consolidated financial statements and on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matters

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that (i) relates to accounts or disclosures that are material to the consolidated financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Valuation of Claims and Benefits Payable Reserves for Global Lifestyle and Global Housing Short Duration Insurance Contracts

As described in Notes 2 and 16 to the consolidated financial statements, the Company maintains claims and benefits payable reserves for short duration insurance contracts. Reserves are established using generally accepted actuarial methods and reflect judgments about expected future claim payments. The reserve liability is based on the expected ultimate cost of settling the claims. As of December 31, 2025, the Company's total liability for claims and benefits payable was \$2.10 billion, which included \$1.87 billion of liabilities for short duration contracts within the Global Lifestyle and Global Housing reporting segments. Claims and benefits payable reserves include case reserves for known claims which are unpaid as of the balance sheet date; incurred but not reported reserves for claims where the insured event has occurred but has not been reported as of the balance sheet date; and loss adjustment expense reserves for the expected handling costs of settling the claims. Factors used in the calculation of the reserves include experience derived from historical claim payments and actuarial assumptions. As described by management, the best estimate of ultimate loss and loss adjustment expense is generally selected from a blend of different actuarial methods that are applied consistently each period, considering significant assumptions including projected loss development factors and expected loss ratios.

The principal considerations for our determination that performing procedures relating to the valuation of claims and benefits payable reserves for short duration insurance contracts is a critical audit matter are (i) the significant judgment by management when determining their estimates; (ii) a high degree of auditor judgment, subjectivity and effort in performing procedures and evaluating audit evidence related to the actuarial methods and projected loss development factors and expected loss ratio assumptions; and (iii) the audit effort involved the use of professionals with specialized skill and knowledge.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to the valuation of claims and benefits payable reserves for short duration insurance contracts, including controls over the selection of actuarial methods, completeness and accuracy of claims data and the development of the significant assumptions. On a test basis, these procedures also included, among others, testing the completeness and accuracy of historical claims data provided by management and the involvement of professionals with specialized skill and knowledge to assist in either (i) testing management's process for determining the estimates by evaluating the appropriateness of management's actuarial methods and the reasonableness of projected loss development factors and expected loss ratio assumptions; or (ii) developing an actuarially determined independent estimate utilizing actual historical data and loss development patterns, as well as industry data and other benchmarks, and comparing this independent estimate to management's actuarially determined reserves.

1. Nature of Operations

Assurant, Inc. (the “Company”) is a premier global protection company that partners with the world’s leading brands to safeguard and service connected devices, homes and automobiles. The Company leverages data-driven technology solutions to provide exceptional customer experiences. The Company operates in North America, Latin America, Europe and Asia Pacific through two operating segments: Global Lifestyle and Global Housing. Through its Global Lifestyle segment, the Company provides mobile device solutions, extended service contracts and related services for consumer electronics and appliances, and credit and other insurance products (referred to as “Connected Living”); and vehicle protection services, commercial equipment protection and other related services (referred to as “Global Automotive”). Through its Global Housing segment, the Company provides lender-placed homeowners, manufactured housing and flood insurance, as well as voluntary manufactured housing, condominium and homeowners insurance (referred to as “Homeowners”); and renters insurance and other products (referred to as “Renters and Other”).

The Company’s common stock is traded on the New York Stock Exchange under the symbol “AIZ.”

2. Summary of Significant Accounting Policies

Basis of Presentation

The Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”). Amounts are presented in United States of America (“U.S.”) Dollars and all amounts

are in millions, except for number of shares, per share amounts and number of securities. Certain prior period amounts have been revised to reflect current period presentation.

Principles of Consolidation

The Consolidated Financial Statements include the accounts of the Company and its controlled subsidiaries, generally through a greater than 50% ownership of voting rights and voting interests. Equity investments in entities that the Company does not consolidate, but where the Company has significant influence or where the Company has more than a minor influence over the entity's operating and financial policies, are accounted for under the equity method. All material inter-company transactions and balances are eliminated in consolidation. In order to facilitate the Company's closing process, financial information from certain foreign subsidiaries and affiliates is reported on a one to three-month lag.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts. The items affected by the use of estimates include but are not limited to, investments, reinsurance recoverables, premium and accounts receivables, deferred acquisition costs ("DAC"), value of business acquired ("VOBA"), deferred income taxes and associated valuation allowances, goodwill, intangible assets, future policy benefits and expenses, unearned premiums, claims and benefits payable, pension and post-retirement liabilities and commitments and contingencies. The estimates are sensitive to market conditions, investment yields, mortality, morbidity, commissions and other acquisition expenses, policyholder behavior and other factors. Actual results could differ from the estimates recorded. The Company believes all amounts reported are reasonable and adequate.

Fair Value

The Company uses an exit price for its fair value measurements. An exit price is defined as the amount received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In measuring fair value, the Company gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. See Note 9 for additional information.

Foreign Currency

For foreign affiliates where the local currency is the functional currency, unrealized foreign currency translation gains and losses net of deferred income taxes have been reflected in accumulated other comprehensive income ("AOCI"). For Canada, Argentina, Brazil, Chile and Mexico, deferred taxes have not been provided for unrealized currency translation gains and losses since the Company intends to indefinitely reinvest the earnings in these other jurisdictions. Transaction gains and losses on assets and liabilities denominated in foreign currencies are recorded in underwriting, selling, general and administrative expenses in the consolidated statements of operations during the period in which they occur.

Management generally identifies highly inflationary markets as those markets whose cumulative inflation rates over a three-year period exceeds 100%, in addition to considering other qualitative and quantitative factors. Beginning July 1, 2018, as a result of the classification of Argentina's economy as highly inflationary, the functional currency of our Argentina subsidiaries was changed from the local currency to U.S. Dollars. The subsidiaries' non-U.S. Dollar denominated monetary assets and liabilities have been subject to remeasurement since July 1, 2018. For the years ended December 31, 2025, 2024 and 2023, the remeasurement resulted in \$7.3 million, \$3.0 million and \$29.4 million, respectively, of net pre-tax losses which the Company classified within underwriting, selling, general and administrative expenses in the consolidated statements of operations. Based on the relative size of the subsidiaries' operations and net assets subject to remeasurement, the Company does not anticipate the ongoing remeasurement to have a material impact on the Company's results of operations or financial condition.

Variable Interest Entities

The Company may enter into agreements with other entities that are deemed to be variable interest entities ("VIEs"). Entities that do not have sufficient equity at risk to allow the entity to finance its activities without additional financial support or in which the equity investors, as a group, do not have the characteristic of a controlling financial interest are referred to as VIEs. A VIE is consolidated by the variable interest holder that is determined to have the controlling financial interest (the "primary beneficiary") as a result of having both the power to direct the activities that most significantly impact the VIE's economic performance and the obligation to absorb losses or right to receive benefits from the VIE that could potentially be significant to the VIE. The Company determines whether it is the primary beneficiary of an entity subject to consolidation based on a qualitative assessment of the VIE's capital structure, contractual terms, the nature of the VIE's operations and purpose and the Company's relative exposure to the related risks of the VIE on the date it becomes initially involved in the VIE. The Company only holds non-consolidated VIEs as of December 31, 2025 and 2024.

Investments

Fixed maturity securities are classified as available-for-sale as defined in the investments guidance and are reported at fair value. If the fair value is higher than the amortized cost for fixed maturity securities, the excess is an unrealized gain; and, if lower than amortized cost, the difference is an unrealized loss. Net unrealized gains and losses on securities classified as available-for-sale, less deferred income taxes, are included in AOCI.

Presentation of credit-related impairments is shown as an allowance, recognizing credit impairments upon purchase of securities as applicable, and requiring reversals of previously recognized credit-related impairments when applicable.

For available for sale fixed maturity securities in an unrealized loss position for which the Company does not intend to sell or for which it is more likely than not that the Company would not be required to sell before an anticipated recovery in value, the Company evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, the Company considers the extent to which fair value is less than the amortized cost basis, changes to the credit rating of the security by a nationally recognized statistical ratings organization and any adverse conditions specifically related to the security, industry or geographic area, among other factors. If this assessment indicates a potential credit loss may exist, the present value of cash flows expected to be collected are compared to the security's amortized cost basis. If the present value of cash flows expected to be collected is less than the amortized cost basis, a credit-related impairment exists, and a charge to income and an associated allowance for credit losses is recorded for the credit-related impairment. Any impairment not related to credit losses is recorded through other comprehensive income. The amount of the allowance for credit losses is limited to the amount by which fair value is less than the amortized cost basis. Upon recognizing a credit-related impairment, the cost basis of the security is not adjusted.

Subsequent changes in the allowance for credit losses are recorded as provision for, or reversal of, credit loss expense. For fixed maturities where the Company records a credit loss, a determination is made as to the cause of the impairment and whether the Company expects a recovery in the value. Write-offs are charged against the allowance when management concludes the financial asset is uncollectible. For fixed maturities where the Company expects a recovery in value, the effective yield method is utilized, and the investment is amortized to par.

For available for sale fixed maturity securities that the Company intends to sell, or for which it is more likely than not that the Company will be required to sell before recovery of its amortized cost basis, the entire impairment loss, or difference between the fair value and amortized cost basis of the security, is recognized in net realized gains (losses) on investments and fair value changes to equity securities. The new cost basis of the security is the previous amortized cost basis less the impairment recognized and is not adjusted for any subsequent recoveries in fair value.

The Company reports receivables for accrued investment income separately from fixed maturities available for sale and elected not to measure allowances for credit losses for accrued investment income as uncollectible balances are written off in a timely manner.

Equity securities that have readily determinable fair values are measured at fair value with changes in fair value recognized in net realized gains (losses) on investments and fair value changes to equity securities on the Company's consolidated statements of operations. The Company has certain equity investments that do not have readily determinable fair values and the Company has elected the measurement alternative to carry such investments at cost, less impairment and to mark to fair value when observable prices in identical or similar investments from the same issuer occur.

Equity securities accounted for under the measurement alternative are impaired if a qualitative assessment based upon several indicators such as earnings performance, offers to sell or purchase, ability to continue as a going concern and macroeconomic factors indicates the equity investment is impaired and the fair value of the investment is less than its carrying value. If a qualitative assessment indicates impairment, a quantitative analysis, which uses probability weighted potential outcomes, is performed to determine the amount of the impairment to be recognized that result in a fair value measurement. Equity securities accounted for under the measurement alternative are included within other investments in the consolidated balance sheets.

Commercial mortgage loans on real estate are reported at unpaid principal balances, adjusted for amortization of premium or discount, less any allowance for credit losses. The allowance for the Company's commercial mortgage loans is based on the present value of expected future cash flows discounted at the loan's effective interest rate, utilizing a probability-of-default and loss given default methodologies, which incorporate various probability weighted economic scenarios. The probability of default is estimated using macroeconomic factors as well as individual loan characteristics, including loan-to-value ("LTV") and debt service coverage ratios ("DSC"), loan term, collateral type, geography and underlying credit. The loss given default is driven primarily by the type and value of underlying collateral, and to a lesser extent by expected liquidation costs and time to recovery. Each loan is analyzed individually based on loan-specific data elements to estimate the expected loss and then aggregated.

The Company places loans on nonaccrual status after 90 days of delinquent payments (unless the loans are secured and in the process of collection). A loan may be placed on nonaccrual status before this time if information is available that suggests collection is unlikely. The Company charges off loan and accrued interest balances that are deemed uncollectible. Charge offs are recorded to net income in the period deemed uncollectible. Refer to Note 4 for further details on the allowance for credit losses on commercial mortgage loans.

Short-term investments include securities and other investments with durations of one year or less, but greater than three months, between the date of purchase and maturity. These amounts are reported at cost or amortized cost, which approximates fair value.

Other investments consist primarily of investments in joint ventures, partnerships, equity investments that do not have readily determinable fair values, invested assets associated with a modified coinsurance arrangement, invested assets associated with the Assurant Investment Plan (the "AIP"), the American Security Insurance Company Investment Plan (the "ASIC") and the Assurant Deferred Compensation Plan (the "ADC"), as well as policy loans. The joint ventures and partnerships are valued according to the equity method of accounting. In applying the equity method, the Company uses financial information provided by the investee, generally on a three-month lag. The invested assets related to the modified coinsurance arrangement, the AIP, the ASIC and the ADC are classified as trading securities. Policy loans are reported at unpaid principal balances, which do not exceed the cash surrender value of the underlying policies.

Realized gains and losses on sales of investments are recognized on the specific identification basis.

Investment income is recorded as earned and reported net of investment expenses. The Company uses the interest method to recognize interest income on its commercial mortgage loans.

The Company anticipates prepayments of principal in the calculation of the effective yield for mortgage-backed securities and structured securities. The retrospective method is used to adjust the effective yield for the majority of the Company's mortgage-backed and structured securities. For credit-sensitive or credit impaired structured securities, the effective yield is recalculated on a prospective basis, primarily our commercial mortgage-backed, residential mortgage-backed and asset backed securities.

Cash and Cash Equivalents

The Company considers all highly liquid securities and other investments with durations of three months or less between the date of purchase and maturity to be cash equivalents. These amounts are carried at cost, which approximates fair value. Cash balances are reviewed at the end of each reporting period to determine if negative cash balances exist. If negative cash balances exist, the cash accounts are netted with other positive cash accounts of the same bank provided the right of offset exists between the accounts. If the right of offset does not exist, the negative cash balances are reclassified to accounts payable and other liabilities.

Restricted cash and cash equivalents, of \$102.0 million and \$150.8 million at December 31, 2025 and 2024, respectively, principally related to cash deposits involving insurance programs with restrictions as to withdrawal and use, are classified within cash and cash equivalents in the consolidated balance sheets.

Reinsurance

For both ceded and assumed reinsurance, risk transfer requirements must be met for reinsurance accounting to apply. If risk transfer requirements are not met, the contract is accounted for as a deposit, resulting in the recognition of cash flows under the contract through a deposit asset or liability and not as revenue or expense. To meet risk transfer requirements, a reinsurance contract must include both insurance risk, consisting of both underwriting and timing risk, and a reasonable possibility of a significant loss for the assuming entity. Similar risk transfer criteria are used to determine whether directly written insurance contracts should be accounted for as insurance or as a deposit.

Reinsurance recoverables include amounts related to paid benefits and estimated amounts related to unpaid policy and contract claims, future policyholder benefits and policyholder contract deposits. The cost of reinsurance is recognized as a reduction to premiums earned over the terms of the underlying reinsured policies. Amounts recoverable from reinsurers are estimated in a manner consistent with claim and claim adjustment expense reserves or future policy benefits reserves and are reported in the consolidated balance sheets. The cost of reinsurance related to long-duration contracts is recognized over the life of the underlying reinsured policies. The ceding of insurance does not discharge the Company's primary liability to insureds, thus a credit exposure exists to the extent that any reinsurer is unable to meet the obligation assumed in the reinsurance agreements. To mitigate this exposure to reinsurer insolvencies, the Company evaluates the financial condition of its reinsurers and typically holds collateral (in the form of funds withheld, trusts and letters of credit) as security under the reinsurance agreements.

The Company accounts for credit losses using the expected credit loss model for reinsurance recoverables. The Company uses a probability of default and loss given default methodology in estimating the allowance, whereby the credit ratings of

reinsurers are used in determining the probability of default. The allowance is established for reinsurance recoverables on paid and unpaid future policy benefits and claims and benefits. Prior to applying default factors, the net exposure to credit risk is reduced for any collateral for which the right of offset exists, such as funds withheld, assets held in trust and letters of credit, which are part of the reinsurance arrangements, with adjustments to include consideration of credit exposure on the collateral. The methodology used by the Company incorporates historical default factors for each reinsurer based on their credit rating using comparably rated bonds as published by a major ratings service. The allowance is based upon the Company's ongoing review of amounts outstanding, length of collection periods, changes in reinsurer credit standing and other relevant factors.

Funds held under reinsurance represent amounts contractually held from assuming companies in accordance with reinsurance agreements, primarily from collateral considerations.

Reinsurance premiums assumed are calculated based upon payments received from ceding companies together with accrual estimates, which are based on both payments received and in force policy information received from ceding companies. Any subsequent differences arising on such estimates are recorded in the period in which they are determined.

Premiums and Accounts Receivable

Premiums and accounts receivable includes insurance premiums receivable from policyholders and amounts due from sponsors or agents. The Company accounts for credit losses using the expected credit loss model for premiums and accounts receivable. For receivables due directly from the insured or consumer, the allowance for credit losses is generally calculated by aging the receivable balances and applying default factors based on the Company's historical collection data. For receivables due from product sponsors or agents, receivable balances are generally segregated by the sponsor or agent and an appropriate default factor is determined based on creditworthiness, billing terms and aging of balances. The financial exposure of a credit loss is determined net of offsets (such as related unearned premium reserves for consumer receivables and receivables net of commissions payable, profit share liabilities and captive reinsurance for balances due from sponsors/agents) prior to applying a default factor.

Deferred Acquisition Costs

Only direct and incremental costs associated with the successful acquisition of new or renewal insurance contracts are deferred to the extent that such costs are deemed recoverable from future premiums. Acquisition costs primarily consist of commissions and premium taxes. Certain direct response advertising expenses are deferred when the primary purpose of the advertising is to elicit sales to customers who can be shown to have specifically responded to the advertising and the direct response advertising results in probable future benefits.

All other acquisition-related costs, including those related to general advertising and solicitation, market research, agent training, product development, unsuccessful sales and underwriting efforts, as well as all indirect costs, are expensed as incurred.

Premium deficiency testing is performed annually and generally reviewed quarterly. Such testing involves the use of assumptions including the anticipation of investment income to determine if anticipated future policy premiums are adequate to recover all DAC and related claims, benefits and expenses. To the extent a premium deficiency exists, it is recognized immediately by a charge to the consolidated statement of operations and a corresponding reduction in DAC. If the premium deficiency is greater than unamortized DAC, a loss (and related liability) is recorded for the excess deficiency.

Short Duration Contracts

Acquisition costs relating to extended service contracts, vehicle service contracts, mobile device protection, credit insurance, lender-placed homeowners insurance and flood, multifamily housing and manufactured housing insurance are amortized over the term of the contracts in relation to premiums earned. These acquisition costs consist primarily of advance commissions paid to agents.

Property and Equipment

Property and equipment are reported at cost less accumulated depreciation. Depreciation is calculated on a straight-line basis over estimated useful lives with a maximum of 39.5 years for buildings, a maximum of seven years for furniture and a maximum of five years for equipment. Expenditures for maintenance and repairs are charged to income as incurred. Expenditures for improvements are capitalized and depreciated over the remaining useful life of the asset.

Property and equipment also include capitalized software costs, comprised of purchased software as well as certain internal and external costs incurred during the application development stage that directly relate to obtaining, developing or upgrading internal use software. Such costs are capitalized and amortized using the straight-line method over their estimated useful lives, not to exceed 15 years. Property and equipment are assessed for impairment when impairment indicators exist.

Goodwill

Goodwill represents the excess of acquisition costs over the net fair value of identifiable assets acquired and liabilities assumed in a business combination. Goodwill is deemed to have an indefinite life and is not amortized, but rather is tested at least annually for impairment. The Company performs the annual goodwill impairment test as of October 1 each year, or more frequently if indicators of impairment exist. Such indicators include: a significant adverse change in legal factors, an adverse action or assessment by a regulator, unanticipated competition, loss of key personnel or a significant decline in the Company's expected future cash flows due to changes in company-specific factors or the broader business climate. The evaluation of such factors requires considerable management judgment.

Goodwill is tested for impairment at the reporting unit level, which is either at the operating segment or one level below, if that component is a business for which discrete financial information is available and segment management regularly reviews such information. Components within an operating segment can be aggregated into one reporting unit if they have similar economic characteristics.

At the time of the annual goodwill test, the Company has the option to first assess qualitative factors to determine whether it is necessary to perform a quantitative goodwill impairment test. The Company is required to perform an additional quantitative step if it determines qualitatively that it is more likely than not (likelihood of more than 50 percent) that the fair value of a reporting unit is less than its carrying amount, including goodwill. Otherwise, no further testing is required.

If the Company determines that it is more likely than not that the reporting unit's fair value is less than the carrying value, or otherwise elects to perform the quantitative testing, the Company compares the estimated fair value of the reporting unit with its net book value. If the reporting unit's estimated fair value exceeds its net book value, goodwill is deemed not to be impaired. If the reporting unit's net book value exceeds its estimated fair value, an impairment loss will be recognized for the amount by which the reporting unit's carrying amount exceeds its fair value, not to exceed the carrying amount of goodwill in that reporting unit. Refer to Note 14 for further details on goodwill impairment testing for 2025.

Other Intangible Assets

Intangible assets that have finite lives are amortized over their estimated useful lives based on the pattern in which the intangible asset is consumed, which may be other than straight-line. Estimated useful lives of finite intangible assets are required to be reassessed on at least an annual basis. For intangible assets with finite lives, impairment is recognized if the carrying amount is not recoverable and exceeds the fair value of the other intangible asset. Generally, other intangible assets with finite lives are only tested for impairment if there are indicators of impairment ("triggers") identified. Triggers include a significant adverse change in the extent, manner or length of time in which the intangible asset is being used or a significant adverse change in legal factors or in the business climate that could affect the value of the other intangible asset.

VOBA represents the value of expected future profits in unearned premium for insurance contracts acquired in an acquisition. For vehicle service contracts and extended service contracts, such as those purchased in connection with the TWG acquisition, the amount is determined using estimates, for premium earnings patterns, paid loss development patterns, expense loads and discount rates applied to cash flows that include a provision for credit risk. The amount determined represents the purchase price paid to the seller for producing the business. For vehicle service contracts and extended service contracts, VOBA is amortized consistent with the premium earning patterns of the underlying in-force contracts. VOBA is tested at least annually in the fourth quarter for recoverability.

Amortization expense and impairment charges for other intangible assets are included in underwriting, selling, general and administrative expenses in the consolidated statements of operations.

Other Assets

Other assets include prepaid items, income tax receivable, deferred income tax assets, right-of-use assets, dealer loans and inventory associated with the Company's mobile protection business.

Reserves

Reserves are established using generally accepted actuarial methods and reflect judgments about expected future premium and claim payments. Factors used in their calculation include experience derived from historical claim payments, expected future premiums and actuarial assumptions. Calculations incorporate assumptions about the incidence of incurred claims, the extent to which all claims have been reported, reporting lags, expenses, inflation rates, future investment earnings, internal claims processing costs and other relevant factors. The estimation of reserves includes an element of uncertainty given that management is using historical information and methods to project future events and reserve outcomes.

The recorded reserves represent the Company's best estimate at a point in time of the ultimate costs of settlement and administration of a claim or group of claims based upon actuarial assumptions and projections using facts and circumstances known at the time of calculation. The adequacy of reserves may be impacted by future trends in claims severity, frequency,

judicial theories of liability and other factors. These variables are affected by both external and internal events, including: changes in the economic cycle, inflation, changes in repair costs, natural or human-made catastrophes, judicial trends, legislative changes and claims handling procedures.

Many of these items are not directly quantifiable and not all future events can be anticipated when reserves are established. Reserve estimates are refined as experience develops. Adjustments to reserves, both positive and negative, are reflected in the consolidated statement of operations in the period in which such estimates are updated. Because establishment of reserves is an inherently complex process involving significant judgment and estimates, there can be no certainty that future settlement amounts for claims incurred through the financial reporting date will not vary from reported claims reserves. Future loss development could require reserves to be increased or decreased, which could have a material effect on the Company's earnings in the periods in which such increases or decreases are made. However, based on information currently available, the Company believes its reserve estimates are adequate.

The following table provides reserve information as of December 31, 2025 and 2024:

	December 31, 2025				December 31, 2024			
	Future Policy Benefits and Expenses		Claims and Benefits Payable		Future Policy Benefits and Expenses		Claims and Benefits Payable	
			Unearned Premiums	Inurred But Not Reported Reserves			Unearned Premiums	Inurred But Not Reported Reserves
			Case Reserves				Case Reserves	
Long Duration Contracts:								
Non-core operations (1)	\$ 48.4	\$ 0.1	\$ 0.9	\$ 1.0	\$ 52.5	\$ —	\$ 1.2	\$ 0.9
All other disposed or runoff businesses (2)	7.3	—	—	0.1	484.2	1.7	—	0.1
Short Duration Contracts:								
Global Lifestyle	—	18,910.1	148.7	579.9	—	18,368.4	149.0	572.7
Global Housing	—	1,944.7	151.1	987.8	—	1,813.6	828.7	1,056.6
Non-core operations (1)	—	7.5	30.2	56.5	—	5.8	35.5	85.9
All other disposed or runoff businesses (2)	—	19.0	61.7	83.3	—	21.9	81.7	101.9
Total	\$ 55.7	\$ 20,881.4	\$ 392.6	\$ 1,708.6	\$ 536.7	\$ 20,211.4	\$ 1,096.1	\$ 1,818.1

- (1) Includes certain businesses which the Company has fully exited or expects to fully exit, including the long-tail commercial liability businesses (sharing economy and small commercial businesses), certain legacy long-duration insurance policies and the Company's operations in mainland China (not Hong Kong). These are included in "non-core operations", as defined in Note 5, and recorded in the Corporate and Other segment.
- (2) Includes business sold through reinsurance or other runoff business reported in the Global Lifestyle segment. As of December 31, 2025, the assets and liabilities of one of the Company's subsidiaries, including \$477.1 million of future policy benefits and expenses, have been transferred to assets and liabilities held for sale. Refer to Note 3 for more information.

Long Duration Contracts

The Company's long duration contracts are primarily comprised of run-off blocks of long-term care and universal life policies.

The long-term care insurance contracts are fully reinsured and there is no impact to consolidated stockholders' equity or net income as the reserves are fully reinsured. In fourth quarter 2025, these were classified as liabilities held for sale. Refer to Note 3 for more information.

The long-term care insurance contracts are grouped into cohorts based on the contract's issue year. Premiums are recognized when due as net earned premiums in the consolidated statement of operations. A future policy benefits and expenses reserve is recorded as the present value of estimated future policy benefits and expenses less the present value of estimated future net premiums. The net premium ratio ("NPR") approach is used to recognize a liability when expected insurance benefits are accrued over the life of the contract in proportion to premium revenue. Policy expense assumptions are locked in as of December 31, 2020 as the long-term care insurance products are in run-off as of the transition date. Actual premiums and benefits are recognized on a quarterly basis in the consolidated statement of operations allocated in proportion to prior period cash flow projections at the cohort level. The updated cash flows used in the calculation are discounted using the discount rate used in the last premium deficiency test update prior to December 31, 2020 (the "original discount rate") and presented as interest expense in the consolidated statement of operations. The revised NPR is used to measure benefit expense based on the recognized premium revenue in the period. The difference between the updated future policy benefits and expenses reserve opening period and previous ending period due to updating the NPR is presented as a remeasurement gain or loss (e.g., a cumulative catch-up adjustment) in policyholder benefits in the Company's consolidated statements of operations.

A remeasurement of the ending reporting period future policy benefits and expenses reserve is calculated using the current upper medium grade fixed-income corporate bond instrument yield as of the consolidated balance sheet ending period (the “current discount rate”). The current discount rate used is an externally published US corporate A index weighted average spot rate that is updated quarterly and effectively matches the duration of the expected cash flow streams of the long-term care reserves. The difference between the ending period future policy benefits and expenses reserve measured using the original discount rate and the future policy benefits and expenses reserve measured using the current discount rate is recorded in AOCI in the Company’s consolidated statements of comprehensive income.

Future policy benefits and expense reserves for universal life insurance policies consist of policy account balances before applicable surrender charges that are being recognized in income over the terms of the policies. Policy benefits charged to expense during the period include amounts paid in excess of policy account balances and interest credited to policy account balances.

Short Duration Contracts

The Company’s short duration contracts include products and services in the Global Lifestyle and Global Housing segments, and Assurant Employee Benefits policies fully covered by reinsurance and certain medical policies no longer offered. For Global Lifestyle, the main product lines include extended service contracts, vehicle services contracts, mobile device protection and credit insurance. The main product lines for Global Housing include lender-placed homeowners and flood, Multifamily Housing and manufactured housing. For short duration contracts, claims and benefits payable reserves are recorded when insured events occur. The liability is based on the expected ultimate cost of settling the claims. The claims and benefits payable reserves include (1) case reserves for known but unpaid claims as of the balance sheet date; (2) incurred but not reported (“IBNR”) reserves for claims where the insured event has occurred but has not been reported to the Company as of the balance sheet date; and (3) loss adjustment expense reserves for the expected handling costs of settling the claims. Factors used in the calculation include experience derived from historical claim payments and actuarial assumptions including loss development factors and expected loss ratios.

The Company has exposure to asbestos, environmental and other general liability claims arising from its participation in various reinsurance pools from 1971 through 1985. This exposure arose from a short duration contract that the Company discontinued writing many years ago. The Company carries case reserves for these liabilities as recommended by the various pool managers and IBNR reserves. Estimation of these liabilities is subject to greater than normal variation and uncertainty due to the general lack of sufficiently detailed data, reporting delays and absence of a generally accepted actuarial methodology for determining the exposures. There are significant unresolved industry legal issues, including such items as whether coverage exists and what constitutes an occurrence. In addition, the determination of ultimate damages and the final allocation of losses to financially responsible parties are highly uncertain.

Changes in the estimated liabilities are recorded as a charge or credit to policyholder benefits as estimates are updated. Fees paid by the National Flood Insurance Program for processing and adjudication services are reported as a reduction of underwriting, selling, general and administrative expenses.

Debt

The Company reports debt net of acquisition costs, unamortized discount or premium and repurchases. Interest expense related to debt is expensed as incurred. See Note 18 for additional information.

Contingencies

A loss contingency is recorded if reasonably estimable and probable. The Company establishes reserves for these contingencies at the best estimate, or if no one estimated amount within the range of possible losses is more probable than any other, the Company records an estimated reserve at the low end of the estimated range. Contingencies affecting the Company primarily relate to legal and regulatory matters, which are inherently difficult to evaluate and are subject to significant changes.

Other Liabilities

With respect to the deductible portion of a high deductible claim, the Company manages and pays the entire claim on behalf of the insured and is reimbursed by the insured for the deductible portion of the claim. These recoverable amounts represent a credit exposure. The Company accounts for credit losses using the expected credit loss model for high deductible recoverables. The Company uses a probability of default and loss given default methodology in estimating the allowance, whereby the credit ratings of insureds are used in determining the probability of default. The allowance is established for unsecured portion of the high deductible recoverables on unpaid future policy benefits. The methodology used by the Company incorporates historical default factors for each insured based on their credit rating using comparably rated bonds as published by a major ratings service. The allowance is based upon the Company’s ongoing review of amounts outstanding, length of collection periods, changes in insured credit standing and other relevant factors.

Retirement of Treasury Stock

The Company accounts for the retirement of repurchased shares using the par value method. This method of accounting allocates the cost of repurchased and retired shares between paid-in capital and retained earnings by comparing the price of shares repurchased to the original issue proceeds of those shares. When the repurchase price of the shares is greater than the original issue proceeds, the excess is charged to retained earnings. The Company uses an average cost method to determine the cost of the repurchased shares to be retired.

Premiums

Short Duration Contracts

The Company's short duration contracts revenue is recognized over the contract term in proportion to the amount of insurance protection provided.

Premiums revenue from vehicle and extended service contracts are earned over the term of the contract, which are typically between three and five years, based on loss emergence experience. Mobile device protection and credit insurance are monthly policies and premium is earned on a monthly basis.

Premiums for lender-placed homeowners, manufactured housing and flood insurance, and renters insurance are generally earned on a pro-rata basis over the term of the policies, which are typically over twelve months.

Reinsurance reinstatement premiums are recognized in the same period as the loss event that gave rise to the reinstatement premium and are netted against net earned premiums in the consolidated statements of operations.

Long Duration Contracts

Premiums for the Company's run-off blocks of long-term care insurance contracts are recognized as revenue when due from the policyholder. For universal life insurance, revenues consist of charges assessed against policy balances. These premiums are ceded.

Fees and Other Income

The Company derives fees and other income from providing administrative services, mobile-related services and mortgage property risk management services. These fees are recognized as the services are performed.

The Company reports revenues related to long duration and short duration insurance contracts as premiums, including insurance contracts written by non-insurance affiliates, such as certain extended service contracts, consistent with the Company's principal business of insurance. Components of consideration paid by the insured are generally not separated as fees and other income. However, when a component of the consideration paid by an insured both does not involve fulfilling the insurance obligation (in that it does not involve acquisition, claims or other administrative aspects of the insurance contract) and the related service could have been written as a separate contract, it is reported in fees and other income.

Dealer obligor service contracts are sales in which an unaffiliated retailer/dealer is the obligor and the Company provides administrative services only. For these contract sales, the Company recognizes administrative fee revenue on a pro-rata basis over the terms of the service contract which correspond to the period in which the services are performed.

The unexpired portion of fee revenues are deferred and amortized over the term of the contracts. These unexpired amounts are reported in accounts payable and other liabilities on the consolidated balance sheets.

Underwriting, Selling, General and Administrative Expenses

Underwriting, selling, general and administrative expenses consist primarily of commissions, premium taxes, licenses, fees, salaries and personnel benefits and other general operating expenses and are expensed as incurred.

Income Taxes

Current federal income taxes are recognized based upon amounts estimated to be payable or recoverable as a result of taxable operations for the current year. Deferred income taxes are recorded for temporary differences between the financial reporting basis and income tax basis of assets and liabilities, based on enacted tax laws and statutory tax rates applicable to the periods in which the Company expects the temporary differences to reverse. A valuation allowance is established for deferred tax assets when it is more likely than not that an amount will not be realized. The impact of changes in tax rates on all deferred tax assets and liabilities are required to be reflected within income on the enactment date, regardless of the financial statement component where the deferred tax originated.

The Company classifies net interest expense related to tax matters and any applicable penalties as a component of income tax expense.

Earnings Per Common Share

Basic earnings per common share is computed by dividing net income by the weighted average number of common shares outstanding for the period. Diluted earnings per common share reflects the potential dilution that could occur if securities or other contracts that can be converted into common stock were exercised as of the end of the period, if dilutive. Restricted stock and restricted stock units that have non-forfeitable rights to dividends or dividend equivalents are included in calculating basic and diluted earnings per common share under the two-class method.

Comprehensive Income

Comprehensive income is comprised of net income, net unrealized gains and losses on foreign currency translation, net unrealized gains and losses on securities classified as available for sale, and expenses for pension and post-retirement plans, less deferred income taxes.

Leases

The Company records expenses for operating leases on a straight-line basis over the lease term. The Company recognizes assets and liabilities associated with leases on the consolidated balance sheet. The Company and its subsidiaries lease office space and equipment under operating lease arrangements for which the Company is the lessee. Right-of-use asset, lease liabilities and deferred rent liability related to operating leases with terms in excess of 12 months are recognized when the Company is the lessee.

Recent Accounting Pronouncements

Changes to GAAP are established by the Financial Accounting Standards Board (“FASB”) in the form of ASUs to the FASB Accounting Standards Codification. The Company considers the applicability and impact of all ASUs.

Adopted Accounting Pronouncements

The table below describes the impacts of the ASUs adopted by the Company, effective December 31, 2025:

Standard	Summary of the Standard	Effective Date Method of Adoption	Impact of the Standard on the Company’s Financial Statements
<i>ASU 2023-09 Income Taxes (Topic 740): Improvements to Income Tax Disclosures</i>	<i>The guidance improves the transparency of income tax disclosures by requiring (1) consistent categories and greater disaggregation of information in the rate reconciliation and (2) income taxes paid disaggregated by jurisdiction. It also includes certain other amendments to improve the effectiveness of income tax disclosures.</i>	<i>The Company adopted the standard prospectively as of December 31, 2025.</i>	<i>The amended income taxes disclosures is presented in Note 11.</i>

Future Adoption of Accounting Pronouncements

ASUs issued but not yet adopted as of December 31, 2025, that are currently being assessed and may or may not have a material impact on the Company’s consolidated financial statements or disclosures are included below. ASUs not listed below were assessed and either determined to be not applicable or are not expected to have a material impact on the Company’s consolidated financial statements or disclosures.

Standard	Summary of the Standard	Effective Date Method of Adoption	Impact of the Standard on the Company's Financial Statements
ASU 2024-03 <i>Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses</i>	<p>The guidance improves disclosures of specified information about certain costs and expenses for each interim and annual reporting period. The new disclosure requirements include:</p> <ul style="list-style-type: none"> Disclose the amounts of (a) purchases of inventory; (b) employee compensation; (c) depreciation; (d) intangible asset amortization; and (e) depreciation, depletion, and amortization recognized as part of oil- and gas-producing activities (or other amounts of depletion expense) included in each relevant expense caption. Include certain amounts that are already required to be disclosed under current GAAP in the same disclosure as the other disaggregation requirements. Disclose a qualitative description of the amounts remaining in relevant expense captions that are not separately disaggregated quantitatively. Disclose the total amount of selling expenses and, in annual reporting periods, an entity's definition of selling expenses. 	December 31, 2027 and for interim periods thereafter	The Company is assessing the impact of adopting this standard as of December 31, 2027. The amended guidance is expected to have no impact on the Company's consolidated financial statements and to expand the annual and interim disclosures of disaggregation of relevant expense captions in the Company's consolidated statement of operations.

3. Disposition

In 2025, the Company entered into an agreement to sell a subsidiary (the “pending subsidiary sale”) that holds certain runoff businesses, including the long-term care business, and is reported in the Corporate and Other segment. The sale was subject to regulatory approval by the New York State Department of Financial Services, which was obtained in January 2026. The Company reports a business as held for sale when management has received approval to sell the business and is committed to a formal plan, the business is available for immediate sale, the business is being actively marketed, the sale is anticipated to occur during the ensuing year and certain other specified criteria are met. A business classified as held for sale is recorded at the lower of its carrying amount or estimated fair value less costs to sell, which is required to be remeasured each reporting period. If the carrying amount of the business exceeds its estimated fair value, which is based on the estimated sales price of the transaction, less costs to sell, a loss is recognized. Depreciation is not recorded on assets of a business classified as held for sale.

As of December 31, 2025, the pending subsidiary sale met the criteria for held for sale presentation as described above and, therefore, its assets and liabilities were recorded as held for sale in the consolidated balance sheet. The major classes of assets and liabilities held for sale as of December 31, 2025 included \$489.4 million of reinsurance recoverables and \$477.1 million of future policy benefits and expenses. As a result of the classification as held for sale, a loss of \$10.7 million was recorded in underwriting, selling, general and administrative expenses in the consolidated statement of operations for the year ended December 31, 2025.

4. Allowance for Credit Losses

The total allowance for credit losses for the financial assets was \$26.0 million and \$20.7 million as of December 31, 2025 and 2024, respectively.

The following table presents the net increases (decreases) to the allowance for credit losses as classified in the consolidated statements of operations for the periods indicated:

	For the Years Ended December 31,	
	2025	2024
Commercial mortgage loans on real estate	\$ 0.8	\$ 2.5
Fixed maturity securities available for sale	1.9	—
Net realized losses on investments and fair value changes to equity securities	2.7	2.5
Underwriting, selling, general and administrative expenses	4.6	(5.6)
Net increase (decrease) in allowance for credit losses	\$ 7.3	\$ (3.1)

Reinsurance Recoverables

As part of the Company's overall risk and capacity management strategy, reinsurance is used to mitigate certain risks underwritten by various business segments. The Company is exposed to the credit risk of reinsurers, as the Company remains liable to insureds regardless of whether related reinsurance recoverables are collected. As of December 31, 2025 and 2024, reinsurance recoverables totaled \$6.47 billion and \$7.58 billion, respectively, the majority of which are protected from credit risk by various types of collateral or other risk mitigation mechanisms, such as trusts, letters of credit or by withholding the assets in a modified coinsurance or funds withheld arrangement.

The Company utilizes external credit ratings published by S&P Global Ratings, a division of S&P Global Inc., at the balance sheet date when determining the allowance. Where rates are not available, the Company assigns default credit ratings based on if the reinsurer is authorized or unauthorized. Of the total recoverables subject to the allowance, 97% were rated A- or better and 3% were not rated based on the Company's analysis and assigned ratings for the year ended December 31, 2025; and 84% were rated A- or better, 5% were rated B- and 11% were not rated based on the Company's analysis and assigned ratings for the year ended December 31, 2024.

The following table presents the changes in the allowance for credit losses by portfolio segment for reinsurance recoverables for the periods indicated:

	Global Lifestyle	Global Housing	Corporate and Other	Total
Balance, December 31, 2023	\$ 3.3	\$ 1.1	\$ 0.4	\$ 4.8
Current period change for credit losses	(0.1)	0.2	0.1	0.2
Balance, December 31, 2024	3.2	1.3	0.5	5.0
Current period change for credit losses	(0.6)	1.2	(0.4)	0.2
Balance, December 31, 2025	\$ 2.6	\$ 2.5	\$ 0.1	\$ 5.2

For each of the years ended December 31, 2025 and 2024, the current period change for credit losses was \$0.2 million. When determining the allowance as of December 31, 2025 and 2024, the Company did not increase default probabilities by reinsurer since there had been no credit rating downgrades or major negative credit indications of the Company's reinsurers that has impacted rating. The allowance may be increased and income reduced in future periods if there are future ratings downgrades or other measurable information supporting an increase in reinsurer default probabilities, including collateral reductions.

Premium and Accounts Receivables

The Company is exposed to credit risk from premiums and other accounts receivables. For premiums receivable, the exposure to loss upon a default is often mitigated by the ability to terminate the policy on default and offset the corresponding unearned premium liability. The Company has other mitigating offsets from amounts payable on commissions and profit share arrangements when the counterparty to the receivable is a sponsor/agent of the Company's insurance product.

The following table presents the changes in the allowance for credit losses by portfolio segment for premium and accounts receivables for the periods indicated:

	Global Lifestyle	Global Housing	Corporate and Other	Total
Balance, December 31, 2023	\$ 6.2	\$ 2.4	\$ 0.4	\$ 9.0
Current period change for credit losses	2.3	0.6	—	2.9
Recoveries	(0.3)	(1.5)	—	(1.8)
Write-offs	(1.6)	(0.7)	(0.3)	(2.6)
Foreign currency translation	(0.3)	—	—	(0.3)
Balance, December 31, 2024	6.3	0.8	0.1	7.2
Current period change for credit losses	1.9	1.3	1.2	4.4
Recoveries	0.1	—	—	0.1
Write-offs	(0.1)	(0.7)	(0.7)	(1.5)
Foreign currency translation	0.2	—	—	0.2
Balance, December 31, 2025	\$ 8.4	\$ 1.4	\$ 0.6	\$ 10.4

For the year ended December 31, 2025, the current period change for credit losses was \$4.4 million, primarily due to an increase in Global Lifestyle across various products. For the year ended December 31, 2024, the current period change for credit losses was \$2.9 million. There is a risk that income may be reduced in future periods for additional credit losses.

Commercial Mortgage Loans

For the years ended December 31, 2025 and 2024, the current period change for credit losses was \$0.8 million and \$2.5 million, respectively. The increase in 2025 and 2024 was primarily driven by changes in certain key credit quality indicators. For the year ended December 31, 2025, the allowance for credit losses was reduced by \$0.6 million for a write-off of an accrued income receivable deemed uncollectible. Refer to Notes 2 and 7 for additional information on commercial mortgage loans.

Available for Sale Securities

There was an allowance for credit losses of \$1.9 million for the fixed maturity securities available for sale as of December 31, 2025. There was no allowance for credit losses as of December 31, 2024. Refer to Notes 2 and 7 for additional information on available for sale securities.

High Deductible Recoverables

For the years ended December 31, 2025 and 2024, the Company reduced its allowance for credit losses for the unsecured portion of the high deductible recoverables by \$0.5 million and \$6.9 million, respectively, due to the ongoing run-off of the sharing economy business. Refer to Note 2 for additional information on high deductible recoverables.

5. Segment Information

As of December 31, 2025, the Company had two reportable operating segments: Global Lifestyle and Global Housing. In addition, the Company reports the Corporate and Other segment, which includes corporate employee-related expenses, activities of the holding company and investments in the home warranty business.

The Company's chief operating decision maker ("CODM") is the Chief Executive Officer ("CEO"). Adjusted EBITDA, as defined below, is the primary measure used by the CODM to assess performance and allocate resources to the segments. The CODM budgets and forecasts for each segment based on Adjusted EBITDA, and then tracks and assesses performance throughout the year by comparing the actual Adjusted EBITDA to the budget and forecast for each segment. The individual operating segment's performance is one of the considerations when determining the compensation of certain employees.

The Company defines Adjusted EBITDA, the segment measure of profitability, as net income, excluding net realized gains (losses) on investments and fair value changes to equity securities, interest expense, benefit (provision) for income taxes, depreciation expense, amortization of purchased intangible assets, as well as other highly variable or unusual items (including restructuring costs, the loss on the pending subsidiary sale and non-core operations, each as described elsewhere in this Report).

The following tables provide information about the segments' Adjusted EBITDA.

	Years Ended December 31,		
	2025	2024	2023
Global Lifestyle:			
Net earned premiums, fees and other income:			
Connected Living	\$ 5,378.7	\$ 4,807.9	\$ 4,376.8
Global Automotive	4,203.8	4,159.4	4,184.6
Net investment income	357.5	356.6	347.5
Total revenues	9,940.0	9,323.9	8,908.9
Policyholder benefits	1,901.7	1,738.6	1,607.9
Selling and underwriting expense (1)	4,986.8	4,770.4	4,789.3
Cost of sales (2)	982.5	841.6	564.2
General expenses (3)	1,267.7	1,199.9	1,155.2
Segment Adjusted EBITDA	<u>\$ 801.3</u>	<u>\$ 773.4</u>	<u>\$ 792.3</u>

Global Housing:			
Net earned premiums, fees and other income:			
Homeowners	\$ 2,192.4	\$ 1,958.9	\$ 1,663.4
Renters and Other	576.4	498.1	479.5
Net investment income	141.8	127.3	109.7
Total revenues	2,910.6	2,584.3	2,252.6
Policyholder benefits	1,018.4	1,010.2	862.0
Selling and underwriting expense (1)	201.6	158.1	137.1
General expenses (4)	831.9	744.8	679.3
Segment Adjusted EBITDA	<u>\$ 858.7</u>	<u>\$ 671.2</u>	<u>\$ 574.2</u>

Corporate:			
Fees and other income	\$ 1.7	\$ 0.4	\$ 0.2
Net investment income	23.9	27.2	21.4
Total revenues	25.6	27.6	21.6
Policyholder benefits	—	—	0.1
General expenses (3)	149.4	149.8	130.5
Segment Adjusted EBITDA	<u>\$ (123.8)</u>	<u>\$ (122.2)</u>	<u>\$ (109.0)</u>

- (1) Consists primarily of commissions, premium taxes and amortization of deferred acquisition costs.
(2) Consists primarily of costs to acquire, and repair or refurbish mobile and other electronic devices the Company sells to third-parties.
(3) Consists primarily of licenses, fees, and general operating expenses.
(4) Consists primarily of lender-placed tracking, licenses, fees, and general operating expenses.

The following table presents segment Adjusted EBITDA with a reconciliation to net income:

	Years Ended December 31,		
	2025	2024	2023
Adjusted EBITDA by segment:			
Global Lifestyle	\$ 801.3	\$ 773.4	\$ 792.3
Global Housing	858.7	671.2	574.2
Corporate and Other	(123.8)	(122.2)	(109.0)
Reconciling items to consolidated net income:			
Interest expense	(109.7)	(107.0)	(108.0)
Depreciation expense	(156.4)	(139.4)	(109.3)
Amortization of purchased intangible assets	(67.4)	(69.1)	(77.9)
Net realized losses on investments and fair value changes to equity securities	(71.8)	(75.8)	(68.7)
Non-core operations (1) (2)	(0.8)	(14.2)	(43.5)
Restructuring costs (3)	(27.3)	(5.4)	(34.3)
Loss on subsidiary held for sale (Note 3)	(10.7)	—	—
Other adjustments	(4.7)	15.8	(9.0)
Total reconciling items	(448.8)	(395.1)	(450.7)
Income before income tax expense	1,087.4	927.3	806.8
Income tax expense	214.7	167.1	164.3
Net income	<u>\$ 872.7</u>	<u>\$ 760.2</u>	<u>\$ 642.5</u>

- (1) Consists of certain businesses which the Company has fully exited or expects to fully exit, including the long-tail commercial liability businesses (sharing economy and small commercial businesses), Assurant Health runoff operations, certain legacy long-duration insurance policies and the Company's operations in mainland China (not Hong Kong) (collectively referred to as "non-core operations"). The non-core operations do not qualify as held for sale or discontinued operations under GAAP accounting guidance and are presented as a reconciling item to consolidated net income. During 2024, the mainland China operations were sold and were no longer included in non-core operations commencing with first quarter 2025.
- (2) In first quarter 2023, the Company recorded income of \$7.5 million related to a payment it received from Time Insurance Company ("TIC") pursuant to a participation agreement that the Company had with TIC in connection with its sale by the Company in 2018. The payment related to the Company's prior participation in the risk adjustment program introduced by the Patient Protection and Affordable Care Act of 2010.
- (3) Relates to strategic exit activities (outside of normal periodic restructuring and cost management activities). Refer to Note 25 for more information.

The Company principally operates in the U.S., as well as Europe, Latin America, Canada and Asia Pacific. The following table summarizes selected financial information by geographic location for the years ended or as of December 31, 2025, 2024 and 2023:

Location	Revenues	Long-lived Assets
2025		
United States	\$ 10,549.0	\$ 759.3
Foreign countries	2,265.3	82.4
Total	<u>\$ 12,814.3</u>	<u>\$ 841.7</u>
2024		
United States	\$ 9,815.5	\$ 681.1
Foreign countries	2,062.0	87.2
Total	<u>\$ 11,877.5</u>	<u>\$ 768.3</u>
2023		
United States	\$ 9,295.7	\$ 654.6
Foreign countries	1,835.9	31.2
Total	<u>\$ 11,131.6</u>	<u>\$ 685.8</u>

Revenue is based in the country where the product was sold and the physical location of long-lived assets, which are primarily property and equipment.

The following table presents total assets by segment:

	December 31, 2025	December 31, 2024
Global Lifestyle (1)	\$ 28,846.7	\$ 27,468.0
Global Housing (1)	5,159.2	5,773.4
Corporate and Other (2)	2,283.7	1,779.2
Segment assets	<u>\$ 36,289.6</u>	<u>\$ 35,020.6</u>

- (1) Segment assets for Global Lifestyle and Global Housing do not include net unrealized gains (losses) on securities attributable to those segments, which are all included within Corporate and Other.
- (2) Corporate and Other includes the assets held for sale of \$512.4 million as of December 31, 2025 related to the pending subsidiary sale and \$46.0 million of assets related to the Miami, Florida property as of December 31, 2025 and 2024, which met held-for-sale criteria and was included in other assets. Refer to Notes 3 and 13, respectively, for more information.

6. Contract Revenues

The Company partners with clients to provide consumers with a diverse range of protection products and services. The Company's revenues from protection products are accounted for as insurance contracts and are recognized over the term of the insurance protection provided. Revenues from service contracts and sales of products are recognized as the contractual performance obligations are satisfied or the products are delivered. Revenue is measured as the amount of consideration the Company expects to be entitled to in exchange for performing the services or transferring products. If payments are received before the related revenue is recognized, the amount is recorded as unearned revenue or advance payment liabilities, until the performance obligations are satisfied or the products are transferred.

The disaggregated revenues from service contracts included in fees and other income on the consolidated statements of operations are \$1.64 billion, \$1.41 billion and \$1.16 billion for Global Lifestyle and \$139.6 million, \$127.8 million and \$84.3 million for Global Housing for the years ended December 31, 2025, 2024 and 2023, respectively.

Global Lifestyle

In the Global Lifestyle segment, revenues from service contracts and sales of products are primarily from the Company's Connected Living business. Through partnerships with the mobile eco-system, the Company provides administrative services related to its mobile device protection products, including program design and marketing strategy, risk management, data analytics, customer support and claims handling, supply chain and service delivery, repair and logistics, and device disposition. Administrative fees are generally billed monthly based on the volume of services provided during the billing period (for example, based on the number of mobile subscribers) with payment due within a short-term period. Each service or bundle of services, depending on the contract, is an individual performance obligation with a standalone selling price. The Company recognizes revenue as it invoices, which corresponds to the value transferred to the customer.

The Company also repairs, refurbishes and then sells mobile and other electronic devices, on behalf of its client, for a bundled per unit fee. The entire processing of the device is considered one performance obligation with a standalone selling price and thus, the per unit fee is recognized when the products are sold. Payments are generally due prior to shipment or within a short-term period.

Global Housing

In the Global Housing segment, revenues from service contracts and sales of products are primarily from the Homeowners business. As part of the Homeowners business, the Company provides loan and claim payment tracking services for lenders. The Company generally invoices its customers weekly or monthly based on the volume of services provided during the billing period with payment due within a short-term period. Each service is an individual performance obligation with a standalone selling price. The Company recognizes revenue as it invoices, which corresponds to the value transferred to the customer.

Contract Balances

The receivables and unearned revenue under these contracts were \$187.6 million and \$149.1 million, respectively, as of December 31, 2025, and \$171.3 million and \$153.8 million, respectively, as of December 31, 2024. These balances are included in premiums and accounts receivable and accounts payable and other liabilities, respectively, in the consolidated balance sheets. Revenue from service contracts and sales of products recognized during the years ended December 31, 2025 and 2024 that was included in unearned revenue as of December 31, 2024 and 2023 were \$86.9 million and \$45.1 million, respectively.

In certain circumstances, the Company defers upfront commissions and other costs in connection with client contracts in excess of one year where the Company can demonstrate future economic benefit. For these contracts, expense is recognized as

revenues are earned. The Company periodically assesses recoverability based on the performance of the related contracts. As of December 31, 2025 and 2024, the Company had approximately \$67.6 million and \$83.4 million, respectively, of such intangible assets that will be expensed over the term of the client contracts.

7. Investments

The following tables show the cost or amortized cost, allowance for credit losses, gross unrealized gains and losses, and fair value of the Company's fixed maturity securities as of the dates indicated:

	December 31, 2025				
	Cost or Amortized Cost	Allowance for Credit Losses	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Fixed maturity securities:					
U.S. government and government agencies and authorities	\$ 62.7	\$ —	\$ 1.0	\$ (0.8)	\$ 62.9
States, municipalities and political subdivisions	100.0	—	1.2	(5.1)	96.1
Foreign governments	596.1	—	9.1	(11.3)	593.9
Asset-backed	850.2	—	4.6	(9.1)	845.7
Commercial mortgage-backed	431.4	—	5.3	(19.3)	417.4
Residential mortgage-backed	978.6	—	11.5	(35.4)	954.7
U.S. corporate	3,895.5	(1.9)	97.3	(113.3)	3,877.6
Foreign corporate	1,720.8	—	44.9	(36.3)	1,729.4
Total fixed maturity securities	<u>\$ 8,635.3</u>	<u>\$ (1.9)</u>	<u>\$ 174.9</u>	<u>\$ (230.6)</u>	<u>\$ 8,577.7</u>

	December 31, 2024				
	Cost or Amortized Cost	Allowance for Credit Losses	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Fixed maturity securities:					
U.S. government and government agencies and authorities	\$ 54.5	\$ —	\$ 0.1	\$ (3.4)	\$ 51.2
States, municipalities and political subdivisions	128.7	—	0.6	(10.2)	119.1
Foreign governments	484.6	—	2.6	(25.1)	462.1
Asset-backed	940.3	—	6.5	(9.5)	937.3
Commercial mortgage-backed	371.8	—	1.0	(36.4)	336.4
Residential mortgage-backed	690.0	—	1.6	(50.5)	641.1
U.S. corporate	3,364.3	—	26.9	(203.8)	3,187.4
Foreign corporate	1,490.6	—	19.0	(69.1)	1,440.5
Total fixed maturity securities	<u>\$ 7,524.8</u>	<u>\$ —</u>	<u>\$ 58.3</u>	<u>\$ (408.0)</u>	<u>\$ 7,175.1</u>

The cost or amortized cost and fair value of fixed maturity securities as of December 31, 2025 by contractual maturity are shown below. Actual maturities may differ from contractual maturities because issuers of the securities may have the right to call or prepay obligations with or without call or prepayment penalties.

	December 31, 2025	
	Cost or Amortized Cost	Fair Value
Due in one year or less	\$ 120.4	\$ 120.6
Due after one year through five years	1,375.8	1,392.9
Due after five years through ten years	3,551.9	3,622.1
Due after ten years	1,327.0	1,224.3
Total	<u>6,375.1</u>	<u>6,359.9</u>
Asset-backed	850.2	845.7
Commercial mortgage-backed	431.4	417.4
Residential mortgage-backed	978.6	954.7
Total	<u>\$ 8,635.3</u>	<u>\$ 8,577.7</u>

The following table shows the major categories of net investment income for the periods indicated:

	Years Ended December 31,		
	2025	2024	2023
Fixed maturity securities	\$ 434.8	\$ 385.9	\$ 335.3
Equity securities	11.9	13.2	15.2
Commercial mortgage loans on real estate	18.6	19.2	17.5
Short-term investments	18.1	18.4	12.9
Other investments	2.9	21.3	39.1
Cash and cash equivalents	58.4	77.0	85.7
Total investment income	<u>544.7</u>	<u>535.0</u>	<u>505.7</u>
Investment expenses	(17.4)	(16.1)	(16.6)
Net investment income	<u>\$ 527.3</u>	<u>\$ 518.9</u>	<u>\$ 489.1</u>

Commercial loan balances totaling approximately \$20.4 million were non-performing as of December 31, 2025. No material investments of the Company were non-income producing for the years ended December 31, 2024 and 2023.

The following table summarizes the proceeds from sales of available-for-sale fixed maturity securities and the gross realized gains and gross realized losses that have been recognized in the statement of operations as a result of those sales for the periods indicated:

	Years Ended December 31,		
	2025	2024	2023
Fixed maturity securities:			
Proceeds from sales	\$ 1,187.7	\$ 1,330.9	\$ 1,464.6
Gross realized gains	\$ 4.2	\$ 1.3	\$ 5.6
Gross realized losses	(75.1)	(72.4)	(49.3)
Net realized (losses) gains on investments from sales of fixed maturity securities	<u>\$ (70.9)</u>	<u>\$ (71.1)</u>	<u>\$ (43.7)</u>

For securities sold at a loss during the year ended December 31, 2025, the average period of time these securities were trading continuously at a price below book value was approximately 31 months.

The following table sets forth the net realized gains (losses) on investments and fair value changes to equity securities, including impairments, recognized in the statement of operations for the periods indicated:

	Years Ended December 31,		
	2025	2024	2023
Net realized (losses) gains on investments and fair value changes to equity securities related to sales and other:			
Fixed maturity securities	\$ (70.7)	\$ (71.0)	\$ (43.3)
Equity securities (1)	5.9	19.5	(7.2)
Commercial mortgage loans on real estate (2)	(0.8)	(2.5)	(2.2)
Other investments	0.5	3.3	1.0
Total net realized (losses) gains on investments and fair value changes to equity securities related to sales and other	(65.1)	(50.7)	(51.7)
Net realized losses related to impairments:			
Fixed maturity securities (3)	(2.0)	(1.3)	(4.1)
Other investments (1)	(4.7)	(23.8)	(12.9)
Total net realized losses related to impairments	(6.7)	(25.1)	(17.0)
Total net realized (losses) gains on investments and fair value changes to equity securities	<u>\$ (71.8)</u>	<u>\$ (75.8)</u>	<u>\$ (68.7)</u>

- (1) Upward adjustments of \$4.8 million, \$6.8 million and \$0.6 million and impairments of \$4.7 million, \$23.8 million, and \$12.9 million were realized on equity investments accounted for under the measurement alternative for the years ended December 31, 2025, 2024 and 2023, respectively.
- (2) Realized losses related to CECL reserves. Refer to Note 4 for additional information.
- (3) Includes credit losses of \$1.9 million on fixed maturity securities available for sale for the year ended December 31, 2025. Refer to Note 4 for additional information.

The following table sets forth the portion of fair value changes to equity securities held for the periods indicated:

	Years Ended December 31,		
	2025	2024	2023
Net gains (losses) recognized on equity securities	\$ 5.9	\$ 19.5	\$ (7.2)
Less: Net realized gains (losses) related to sales of equity securities	(13.9)	5.7	(6.6)
Total fair value changes to equity securities held	<u>\$ 19.8</u>	<u>\$ 13.8</u>	<u>\$ (0.6)</u>

Equity investments accounted for under the measurement alternative are included within other investments on the consolidated balance sheets. The following table summarizes information related to these investments:

	December 31, 2025	December 31, 2024
Initial cost	\$ 82.5	\$ 74.8
Cumulative upward adjustments	55.6	57.9
Cumulative downward adjustments (including impairments)	(22.8)	(24.4)
Carrying value	<u>\$ 115.3</u>	<u>\$ 108.3</u>

The investment category and duration of the Company's gross unrealized losses on fixed maturity securities, as of December 31, 2025 and 2024 were as follows:

	December 31, 2025					
	Less than 12 months		12 Months or More		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Fixed maturity securities:						
U.S. government and government agencies and authorities	\$ 12.5	\$ —	\$ 9.8	\$ (0.8)	\$ 22.3	\$ (0.8)
States, municipalities and political subdivisions	4.1	(0.2)	53.0	(4.9)	57.1	(5.1)
Foreign governments	93.8	(1.6)	163.8	(9.7)	257.6	(11.3)
Asset-backed	364.0	(2.9)	72.8	(6.2)	436.8	(9.1)
Commercial mortgage-backed	35.7	(0.8)	131.5	(18.5)	167.2	(19.3)
Residential mortgage-backed	72.9	(1.1)	182.1	(34.3)	255.0	(35.4)

Total gross unrealized losses represented approximately 9% and 10% of the aggregate fair value of the related securities as of December 31, 2025 and 2024, respectively. Approximately 8% and 15% of these gross unrealized losses had been in a continuous loss position for less than twelve months as of December 31, 2025 and 2024, respectively. The total gross unrealized losses are comprised of 1,827 and 2,712 individual securities as of December 31, 2025 and 2024, respectively. In accordance with its policy, the Company concluded that for these securities, the gross unrealized losses as of December 31, 2025 and December 31, 2024 were related to non-credit factors and therefore, did not recognize credit-related losses during the year ended December 31, 2025. Additionally, the Company currently does not intend to and is not required to sell these investments prior to an anticipated recovery in value.

The cost or amortized cost and fair value of available-for-sale fixed maturity securities in an unrealized loss position as of December 31, 2025, by contractual maturity, is shown below:

	December 31, 2025	
	Cost or Amortized Cost, Net of Allowance	Fair Value
Due in one year or less	\$ 45.3	\$ 44.9
Due after one year through five years	306.5	292.6
Due after five years through ten years	691.6	663.3
Due after ten years	796.5	670.4
Total	1,839.9	1,671.2
Asset-backed	445.9	436.8
Commercial mortgage-backed	186.4	167.1
Residential mortgage-backed	290.5	255.1
Total	\$ 2,762.7	\$ 2,530.2

The Company has entered into commercial mortgage loans, collateralized by the underlying real estate, on properties located throughout the U.S. As of December 31, 2025, approximately 35% of the outstanding principal balance of commercial mortgage loans was concentrated in the states of California, Texas and Maryland. Although the Company has a diversified loan portfolio, an economic downturn could have an adverse impact on the ability of its debtors to repay their loans. The outstanding balance of commercial mortgage loans range in size from less than \$0.1 million to \$5.0 million as of December 31, 2025 and from less than \$0.1 million to \$5.0 million as of December 31, 2024.

Credit quality indicators for commercial mortgage loans are loan-to-value and debt-service coverage ratios. The loan-to-value ratio compares the principal amount of the loan to the fair value of the underlying property collateralizing the loan, and is commonly expressed as a percentage. The debt-service coverage ratio compares a property's net operating income to its debt-service payments and is commonly expressed as a ratio. The loan-to-value and debt-service coverage ratios are generally updated annually in the fourth quarter.

The following table presents the amortized cost basis of commercial mortgage loans, excluding allowance for credit losses, by origination year for certain key credit quality indicators at December 31, 2025 and 2024, respectively.

	December 31, 2025

- (1) LTV ratio derived from current loan balance divided by the fair value of the property.
(2) DSC ratio calculated using most recent reported operating income results from property operators divided by annual debt service.

As of December 31, 2025, the Company had mortgage loan commitments outstanding of approximately \$7.8 million.

The Company had short-term investments and fixed maturity securities of \$711.4 million and \$636.1 million as of December 31, 2025 and 2024, respectively, on deposit with various governmental authorities as required by law.

8. Variable Interest Entities

In the normal course of business, the Company is involved with various types of investment entities that may be considered VIEs. The Company evaluates its involvement with each entity to determine whether consolidation is required. The Company's maximum risk of loss is limited to the carrying value and unfunded commitments of its investments in the VIEs. There were no consolidated VIEs as of December 31, 2025 and 2024.

Non-Consolidated VIEs

Real Estate Joint Venture and Other Partnerships

The Company invests in real estate joint ventures and limited partnerships, as well as closed ended real estate funds. These investments are generally accounted for under the equity method as the primary beneficiary criteria is not met; however, the Company is able to exert significant influence over the investees operating and financial policies. These investments are included in the consolidated balance sheets in other investments. As of December 31, 2025 and 2024, the Company's maximum exposure to loss is its recorded carrying value of \$327.2 million and \$281.2 million, respectively. The Company's unfunded commitments were \$252.4 million as of December 31, 2025.

See Note 2 for additional information on significant accounting policies related to VIEs.

9. Fair Value Disclosures

Fair Values, Inputs and Valuation Techniques for Financial Assets and Liabilities Disclosures

The fair value measurements and disclosures guidance defines fair value and establishes a framework for measuring fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company has categorized its recurring fair value basis financial assets and liabilities into a three-level fair value hierarchy based on the priority of the inputs to the valuation technique.

The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and takes into account factors specific to the asset or liability.

The levels of the fair value hierarchy are described below:

- Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access.
- Level 2 inputs utilize other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability. Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active and inputs other than quoted prices that are observable in the marketplace for the asset or liability. The observable inputs are used in valuation models to calculate the fair value for the asset or liability.
- Level 3 inputs are unobservable but are significant to the fair value measurement for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability. These inputs reflect management's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

The Company reviews fair value hierarchy classifications on a quarterly basis. Changes in the observability of valuation inputs may result in a reclassification of levels for certain securities within the fair value hierarchy.

The following tables present the Company's fair value hierarchy for assets and liabilities measured at fair value on a recurring basis as of December 31, 2025 and 2024. The amounts presented below for short-term investments, other investments, cash equivalents, other assets, assets held in and liabilities related to separate accounts and other liabilities differ from the amounts presented in the consolidated balance sheets because only certain investments or certain assets and liabilities within these line items are measured at estimated fair value. Other investments are comprised of investments in the AIP, the ASIC plan, and the ADC, the Retiree Medical Pension 401(h) plan, and other derivatives. Other liabilities are comprised of investments in the AIP and contingent considerations. The fair value amount and the majority of the associated levels presented for other investments and assets and liabilities held in separate accounts are received directly from third parties.

- (1) Included as part of net realized gains on investments, excluding other-than-temporary impairment losses, in the consolidated statements of operations.
- (2) Included as part of change in unrealized gains on securities in the consolidated statement of comprehensive income.
- (3) Transfers are primarily attributable to changes in the availability of observable market information and the re-evaluation of the observability of valuation inputs.

Three different valuation techniques can be used in determining fair value for financial assets and liabilities: the market, income or cost approaches. The three valuation techniques described in the fair value measurements and disclosures guidance are consistent with generally accepted valuation methodologies.

The market approach valuation techniques use prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. When possible, quoted prices (unadjusted) in active markets are used as of the period-end date (such as for mutual funds and money market funds). Otherwise, the Company uses valuation techniques consistent with the market approach including matrix pricing and comparables. Matrix pricing is a mathematical technique employed principally to value debt securities without relying exclusively on quoted prices for those securities but, rather, relying on the securities' relationship to other benchmark quoted securities. Market approach valuation techniques often use market multiples derived from a set of comparables. Multiples might lie in ranges with a different multiple for each comparable. The selection of where within the range the appropriate multiple falls requires judgment, considering both qualitative and quantitative factors specific to the measurement.

Income approach valuation techniques convert future amounts, such as cash flows or earnings, to a single present amount, or a discounted amount. These techniques rely on current market expectations of future amounts as of the period-end date. Examples of income approach valuation techniques include present value techniques, option-pricing models, binomial or lattice models that incorporate present value techniques and the multi-period excess earnings method.

Cost approach valuation techniques are based upon the amount that would be required to replace the service capacity of an asset at the period-end date, or the current replacement cost. That is, from the perspective of a market participant (seller), the price that would be received for the asset is determined based on the cost to a market participant (buyer) to acquire or construct a substitute asset of comparable utility, adjusted for obsolescence.

While not all three approaches are applicable to all financial assets or liabilities, where appropriate, the Company may use one or more valuation techniques. For all the classes of financial assets and liabilities included in the above hierarchy, excluding certain derivatives and certain privately placed corporate bonds, the Company generally uses the market valuation technique.

Level 1 Securities

The Company's investments and liabilities classified as Level 1 as of December 31, 2025 and 2024 consisted of mutual funds and related obligations, money market funds and common stocks that are publicly listed and/or actively traded in an established market.

Level 2 Securities

The Company values Level 2 securities using various observable market inputs obtained from a pricing service or asset manager. They prepare estimates of fair value measurements for the Company's Level 2 securities using proprietary valuation models based on techniques such as matrix pricing which include observable market inputs. The fair value measurements and disclosures guidance defines observable market inputs as the assumptions market participants would use in pricing the asset or liability developed on market data obtained from sources independent of the Company. The extent of the use of each observable market input for a security depends on the type of security and the market conditions at the balance sheet date. Depending on the security, the priority of the use of observable market inputs may change as some observable market inputs may not be relevant or additional inputs may be necessary. The Company uses the following observable market inputs ("standard inputs"), listed in the approximate order of priority, in the pricing evaluation of Level 2 securities: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data including market research data. Further details for Level 2 investment types follow:

U.S. government and government agencies and authorities: U.S. government and government agencies and authorities securities are priced by the Company's pricing service utilizing standard inputs. Included in this category are U.S. Treasury securities which are priced using vendor trading platform data in addition to the standard inputs.

States, municipalities and political subdivisions: States, municipalities and political subdivisions securities are priced by the Company's pricing service using material event notices and new issue data inputs in addition to the standard inputs.

Foreign governments: Foreign government securities are primarily fixed maturity securities denominated in local currencies which are priced by the Company's pricing service using standard inputs. The pricing service also evaluates each security based on relevant market information including relevant credit information, perceived market movements and sector news.

Commercial mortgage-backed, residential mortgage-backed and asset-backed: Commercial mortgage-backed, residential mortgage-backed and asset-backed securities are priced by the Company's pricing service and asset managers using monthly payment information and collateral performance information in addition to the standard inputs. Additionally, commercial mortgage-backed securities and asset-backed securities utilize new issue data while residential mortgage-backed securities utilize vendor trading platform data.

U.S. and foreign corporate: Corporate securities are priced by the Company's pricing service using standard inputs. Non-investment grade securities within this category are priced by the Company's pricing service and asset managers using observations of equity and credit default swap curves related to the issuer in addition to the standard inputs. Certain privately placed corporate bonds are priced by a non-pricing service source using a model with observable inputs including the credit rating, credit spreads, sector add-ons, and issuer specific add-ons.

Non-redeemable preferred stocks: Non-redeemable preferred stocks are priced by the Company's pricing service using observations of equity and credit default swap curves related to the issuer in addition to the standard inputs.

Short-term investments, cash equivalents, assets held in separate accounts and liabilities related to separate accounts: To price the fixed maturity securities and related obligations in these categories, the pricing service utilizes the standard inputs.

Valuation models used by the pricing service can change from period to period, depending on the appropriate observable inputs that are available at the balance sheet date to price a security.

Level 3 Securities

The Company's investments classified as Level 3 as of December 31, 2025 and 2024 consisted of \$224.8 million and \$184.3 million of fixed maturity and equity securities. All of the Level 3 fixed maturity and equities securities are priced using non-binding third-party quotes, for which the underlying quantitative inputs are not developed by the Company and are not readily available or observable.

Other investments: The Company prices swaptions using a Black-Scholes pricing model incorporating third-party market data, including swap volatility data.

Other assets: The Company prices options using non-binding quotes provided by market makers or broker dealers who are recognized as market participants. Inputs factored into the non-binding quotes include trades in the actual option which is being priced, deal structure, spot rates, volatility, and projected cashflows.

The fair value of the contingent consideration is estimated using a discounted cash flow model. Inputs may include future business performance, earn out caps and applicable discount rates.

Management evaluates the following factors in order to determine whether the market for a financial asset is inactive. The factors include:

- whether there are few recent transactions,
- whether little information is released publicly,
- whether the available prices vary significantly over time or among market participants,
- whether the prices are stale (i.e., not current), and
- the magnitude of the bid-ask spread.

Illiquidity did not have a material impact in the fair value determination of the Company's financial assets as of December 31, 2025 or 2024.

The Company generally obtains one price for each financial asset. The Company performs a periodic analysis to assess if the evaluated prices represent a reasonable estimate of the financial assets' fair values. This process involves quantitative and qualitative analysis and is overseen by investment and accounting professionals. Examples of procedures performed include initial and on-going review of pricing service methodologies, review of the prices received from the pricing service, review of pricing statistics and trends, and comparison of prices for certain securities with two different appropriate price sources for reasonableness. Following this analysis, the Company generally uses the best estimate of fair value based upon all available inputs. On infrequent occasions, a non-pricing service source may be more familiar with the market activity for a particular security than the pricing service. In these cases the price used is taken from the non-pricing service source. The pricing service provides information to indicate which securities were priced using market observable inputs so that the Company can properly categorize the Company's financial assets in the fair value hierarchy.

Disclosures for Assets and Liabilities Measured at Fair Value on a Non-Recurring Basis

The Company also measures the fair value of certain assets and liabilities, generally on an annual basis, or when events or changes in circumstances indicate that the carrying amount of the assets may be affected. These assets include commercial mortgage loans, equity investments accounted for under the measurement alternative, goodwill and finite-lived intangible assets.

In 2025 and 2024, as a result of third-party market observable transactions that were of the same issuer and determined to be similar, the Company marked certain of its equity investments accounted for under the measurement alternative to fair value. The carrying value of investments under the measurement alternative marked to fair value on a non-recurring basis as of December 31, 2025 and 2024 was \$9.6 million and \$26.6 million, respectively. Given the significant unobservable inputs involved in valuation of these investments, they are classified in Level 3 of the fair value hierarchy. Generally, these valuations utilize the market approach, or an option pricing model backsolve method, which is a valuation approach that can be used to determine the value of common shares for companies with complex capital structures in which there have not been any recent transactions involving common shares. Inputs include capitalization tables, investment past and future performance projections, time to exit, discount rate and volatility based upon an appropriate industry group. For the year ended December 31, 2025, the Company recorded fair value increases of \$4.8 million related to three market observable transactions. For the year ended December 31, 2024, the Company recorded fair value increases of \$8.7 million related to five market observable transactions.

In 2025 and 2024, as a result of a qualitative analysis indicating an impairment existed, the Company performed a quantitative analysis utilizing a probability weighted scenario model and determined certain investments were impaired. Model inputs include capitalization tables, investment past and future company performance projections, and discount rate. Based

upon model outputs, impairments of \$4.7 million and \$23.8 million were recorded for the years ended December 31, 2025 and 2024, respectively.

Refer to Note 14 for the results of the 2025 goodwill impairment testing.

Fair Value of Financial Instruments Disclosures

The financial instruments guidance requires disclosure of fair value information about financial instruments, for which it is practicable to estimate such fair value. Therefore, it requires fair value disclosure for financial instruments that are not recognized or are not carried at fair value in the consolidated balance sheets. However, this guidance excludes certain financial instruments, including those related to insurance contracts and those accounted for under the equity method (such as partnerships).

For the financial instruments included within the following financial assets and financial liabilities, the carrying value in the consolidated balance sheets equals or approximates fair value. Please refer to the Fair Values Inputs and Valuation Techniques for Financial Assets and Liabilities Disclosures section above for additional information on the financial instruments included within the following financial assets and financial liabilities and the methods and assumptions used to estimate fair value:

- Cash and cash equivalents;
- Fixed maturity securities;
- Equity securities;
- Short-term investments;
- Other investments;
- Other assets;
- Assets held in separate accounts;
- Other liabilities; and
- Liabilities related to separate accounts.

In estimating the fair value of the financial instruments that are not recognized or are not carried at fair value in the consolidated balance sheets, the Company used the following methods and assumptions:

Commercial mortgage loans on real estate: The fair value of commercial mortgage loans on real estate utilizes a third-party matrix pricing model. For fixed rate loans, the matrix process uses a yield buildup approach to create a pricing yield, with components for base yield, credit quality spread, property type spread, and a weighted average life spread. Floating rate loans are priced with a target quality spread over the swap curve. A dollar price for each loan is derived from the pricing yield or spread by a discounted cash flow methodology.

Other investments: Other investments include low income housing tax credits, business debentures, and credit tenant loans which are recorded at cost or amortized cost, as well as policy loans. The carrying value reported for these investments approximates fair value.

Other assets: The carrying value of dealer loans approximates fair value.

Policy reserves under investment products: The fair values for the Company's policy reserves under investment products are determined using discounted cash flow analysis. Key inputs to the valuation include projections of policy cash flows, reserve runoff, market yields and risk margins.

Funds held under reinsurance: The carrying value reported approximates fair value due to the short maturity of the instruments.

Debt: The fair value of debt is based upon matrix pricing performed by the pricing service utilizing the standard inputs.

The following tables disclose the carrying value, fair value and hierarchy level of the financial instruments that are not recognized or are not carried at fair value in the consolidated balance sheets as of the dates indicated:

	December 31, 2025				
	Carrying Value	Fair Value			
		Total	Level 1	Level 2	Level 3
Financial Assets					
Commercial mortgage loans on real estate	\$ 324.7	\$ 323.1	\$ —	\$ —	\$ 323.1
Other investments	12.4	12.4	1.1	—	11.3
Other assets	31.3	31.3	—	—	31.3
Total financial assets	\$ 368.4	\$ 366.8	\$ 1.1	\$ —	\$ 365.7
Financial Liabilities					
Policy reserves under investment products (Individual and group annuities, subject to discretionary withdrawal) (1)	\$ 1.8	\$ 1.8	\$ —	\$ —	\$ 1.8
Funds held under reinsurance	266.4	266.4	266.4	—	—
Debt	2,206.9	2,164.5	—	2,164.5	—
Total financial liabilities	\$ 2,475.1	\$ 2,432.7	\$ 266.4	\$ 2,164.5	\$ 1.8
	December 31, 2024				
	Carrying Value	Fair Value			
		Total	Level 1	Level 2	Level 3
Financial Assets					
Commercial mortgage loans on real estate	\$ 342.5	\$ 333.3	\$ —	\$ —	\$ 333.3
Other investments	23.2	23.2	1.3	—	21.9
Other assets	26.3	26.3	—	—	26.3
Total financial assets	\$ 392.0	\$ 382.8	\$ 1.3	\$ —	\$ 381.5
Financial Liabilities					
Policy reserves under investment products (Individual and group annuities, subject to discretionary withdrawal) (1)	\$ 6.5	\$ 6.9	\$ —	\$ —	\$ 6.9

Debt	2,083.1	1,998.1	—	1,998.1	—
Total financial liabilities	\$ 2,367.3	\$ 2,282.7	\$ 277.7	\$ 1,998.1	\$ 6.9

(1) Only the fair value of the Company's policy reserves for investment-type contracts (those without significant mortality or morbidity risk) are reflected in the tables above.

10. Premiums and Accounts Receivable

Receivables are reported net of an allowance for uncollectible amounts. A summary of such receivables is as follows as of the dates indicated:

	December 31,	
	2025	2024
Insurance premiums receivable	\$ 1,922.7	\$ 1,974.4
Other receivables	77.1	86.8
Allowance for credit losses	(10.4)	(7.2)
Total	\$ 1,989.4	\$ 2,054.0

11. Income Taxes

The components of income tax expense (benefit) were as follows for the periods indicated:

	Years Ended December 31,		
	2025	2024	2023
Pre-tax income:			
Domestic	\$ 1,001.6	\$ 819.2	\$ 700.9
Foreign	85.8	108.1	105.9
Total pre-tax income	<u>\$ 1,087.4</u>	<u>\$ 927.3</u>	<u>\$ 806.8</u>
	Years Ended December 31,		
	2025	2024	2023
Current expense (benefit):			
Federal and state	\$ 74.7	\$ (124.3)	\$ 220.9
Foreign	38.6	46.5	51.9
Total current expense (benefit)	<u>113.3</u>	<u>(77.8)</u>	<u>272.8</u>
Deferred expense (benefit):			
Federal and state	112.1	262.3	(80.4)
Foreign	(10.7)	(17.4)	(28.1)
Total deferred expense (benefit)	<u>101.4</u>	<u>244.9</u>	<u>(108.5)</u>
Total income tax expense (benefit)	<u>\$ 214.7</u>	<u>\$ 167.1</u>	<u>\$ 164.3</u>

The provision for foreign taxes includes amounts attributable to income from U.S. possessions that are considered foreign under U.S. tax laws. International operations of the Company are subject to income taxes imposed by the jurisdiction in which they operate.

A reconciliation of the federal income tax rate to the Company's effective income tax rate follows for the year ended December 31, 2025, reflecting the adoption of ASU 2023-09:

	Years Ended December 31,	
	2025	
	Amount	Percent
U.S. federal statutory income tax rate:	\$ 228.4	21.0 %
Domestic federal:		
Effect of cross-border tax laws		
Foreign-derived intangible income	(15.5)	(1.4)
Tax credits		
Renewable energy tax credits (1)	(12.5)	(1.1)
Other	(7.1)	(0.7)
Change in valuation allowance	—	—
Nontaxable and nondeductible items, net	6.8	0.6
Changes in unrecognized tax benefits	1.0	0.1
Other	(7.6)	(0.7)
Domestic state and local income tax, net of federal income tax effect (2)	12.1	1.1
Foreign tax effects (3)	9.1	0.8
Effective income tax rate	<u>\$ 214.7</u>	<u>19.7 %</u>

- (1) Pursuant to provisions under the Inflation Reduction Act, the Company purchased transferable federal tax credits during 2025 from various counterparties. Such federal tax credits were purchased at negotiated discounts, resulting in an income tax benefit recorded during the years ended December 31, 2025. Amounts owed to counterparties for the purchased credits are recorded within accounts payable and accrued expenses within the consolidated balance sheets.
- (2) In 2025, state and local income taxes in Florida comprised the majority of the domestic state and local income tax, net of federal income tax effect.
- (3) Results for 2025 primarily include the impact of foreign earnings taxed at different rates.

The reconciliation of the federal income tax rate to the Company's effective income tax rate follows for the years ended December 31, 2024 and 2023 (prior to the adoption of ASU 2023-09):

	Years Ended December 31,	
	2024	2023
Federal income tax rate:	21.0 %	21.0 %
Reconciling items:		
Non-taxable investment income	(0.1)	(0.2)
Foreign earnings (1)	0.1	0.2
Non-deductible compensation	0.6	0.6
Change in liability for prior year tax (2)	(1.2)	(0.8)
Change in valuation allowance	(0.6)	(0.6)
Transferable federal tax credits (3)	(1.3)	—
Other	(0.5)	0.2
Effective income tax rate:	<u>18.0 %</u>	<u>20.4 %</u>

- (1) Results for 2024 and 2023 primarily include the impact of foreign earnings taxed at different rates.
- (2) The change in liability for prior year tax in 2024 was primarily related to additional transferable federal tax credits taken on the 2023 income tax return.
- (3) Pursuant to provisions under the Inflation Reduction Act, the Company purchased transferable federal tax credits during 2024 from various counterparties. Such federal tax credits were purchased at negotiated discounts, resulting in an income tax benefit recorded during the year ended December 31, 2024. Amounts owed to counterparties for the purchased credits are recorded within accounts payable and accrued expenses within the consolidated balance sheet at December 31, 2024.

Income taxes paid (net of refunds received) for the years ended December 31, 2025, 2024 and 2023 is as follows:

	Years Ended December 31,		
	2025	2024	2023
U.S. Federal	\$ 211.4	\$ 75.7	\$ 190.0
U.S. States	8.8	3.6	0.1
Foreign (1)	51.4	47.3	42.8
Income taxes paid (refunds received)	<u>\$ 271.6</u>	<u>\$ 126.6</u>	<u>\$ 232.9</u>

- (1) Foreign income taxes paid (net of refunds received) for the year ended December 31, 2025 is made up of the following jurisdictions:

	Year Ended December 31, 2025
Mexico	\$ 19.8
Brazil	14.8
Other	16.8
Total Foreign	<u>\$ 51.4</u>

A reconciliation of the beginning and ending amount of unrecognized tax benefits for the years ended December 31, 2025, 2024 and 2023 is as follows:

	Years Ended December 31,		
	2025	2024	2023
Balance at beginning of year	\$ (17.3)	\$ (17.0)	\$ (18.5)
Additions based on tax positions related to the current year	(1.2)	(0.9)	(0.9)
Additions for tax positions of prior years	(0.9)	(2.1)	(0.5)
Reductions for tax positions of prior years	0.6	2.7	2.9
Balance at end of year	<u>\$ (18.8)</u>	<u>\$ (17.3)</u>	<u>\$ (17.0)</u>

Total unrecognized tax benefits of \$22.8 million, \$20.4 million and \$19.2 million for the years ended December 31, 2025, 2024, and 2023, respectively, which includes interest and penalties, would impact the Company's consolidated effective tax rate if recognized. The liability for unrecognized tax benefits is included in accounts payable and other liabilities on the consolidated balance sheets.

The Company's continuing practice is to recognize interest expense related to income tax matters in income tax expense. During the years ended December 31, 2025, 2024, and 2023, the Company recognized approximately \$0.6 million, \$1.2 million and \$0.4 million, respectively, of interest expense related to income tax matters. The Company had \$4.6 million, \$4.0 million and \$2.8 million of interest accrued as of December 31, 2025, 2024 and 2023, respectively. The Company had \$0.2 million of penalties accrued as of December 31, 2025, \$0.1 million as of December 31, 2024 and none as of December 31, 2023.

The Company does not anticipate any significant increase or decrease of unrecognized tax benefit within the next 12 months.

The Company and its subsidiaries file income tax returns in the U.S. and various state and foreign jurisdictions. The Company has substantially concluded all U.S. federal income tax matters for years through 2015. Substantially all non-U.S. income tax matters have been concluded for years through 2012, and all state and local income tax matters have been concluded for years through 2008.

The tax effects of temporary differences that result in significant deferred tax assets and deferred tax liabilities are as follows as of the dates indicated:

	December 31,	
	2025	2024
Deferred Tax Assets		
Policyholder and separate account reserves	\$ 580.9	\$ 506.4
Net operating loss carryforwards	36.2	37.1
Net unrealized appreciation on securities	14.9	79.8
Credit carryforwards	13.1	30.6
Employee and post-retirement benefits	7.0	9.1
Compensation related	43.8	44.2
Capital loss carryforwards	26.7	19.1
Investments, net	20.9	11.5
Other	113.2	84.3
Total deferred tax assets	856.7	822.1
Less valuation allowance	(20.0)	(16.7)
Deferred tax assets, net of valuation allowance	836.7	805.4
Deferred Tax Liabilities		
Deferred acquisition costs	(1,094.2)	(1,077.7)
Intangible assets	(94.0)	(94.3)
Total deferred tax liabilities	(1,188.2)	(1,172.0)
Net deferred income tax liabilities	\$ (351.5)	\$ (366.6)

A cumulative valuation allowance of \$20.0 million existed as of December 31, 2025 and \$16.7 million as of December 31, 2024 based on management's assessment that it is more likely than not that certain deferred tax assets attributable to international subsidiaries will not be realized.

The Company's ability to realize deferred tax assets depends on its ability to generate sufficient taxable income of the same character within the carryback or carryforward periods. In assessing future taxable income, the Company considered all sources of taxable income available to realize its deferred tax asset, including the future reversal of existing temporary differences, future taxable income exclusive of reversing temporary differences and carryforwards, taxable income in carryback years and tax-planning strategies. If changes occur in the assumptions underlying the Company's tax planning strategies or in the scheduling of the reversal of the Company's deferred tax liabilities, the valuation allowance may need to be adjusted in the future.

Other than for certain wholly owned Canadian and Latin American subsidiaries, the Company plans to indefinitely reinvest the earnings in other jurisdictions. Under current U.S. tax law, no material income taxes are anticipated on future repatriation of earnings. Therefore, deferred taxes have not been provided.

The net operating loss carryforwards by jurisdiction are as follows as of the dates indicated:

	December 31,	
	2025	2024
Federal net operating loss carryforwards	\$ —	\$ —
Foreign net operating loss carryforwards (1)	\$ 143.5	\$ 146.6

(1) Of the \$143.5 million as of December 31, 2025, \$23.2 million expires between 2026 and 2045, and \$120.3 million has an unlimited carryforward.

12. Deferred Acquisition Costs

Information about deferred acquisition costs is as follows as of the dates indicated:

	December 31,		
	2025	2024	2023
Beginning balance	\$ 9,992.8	\$ 9,967.2	\$ 9,677.1
Costs deferred	4,292.8	3,991.2	4,409.8
Amortization	(4,098.0)	(3,965.6)	(4,119.7)
Ending balance	<u>\$ 10,187.6</u>	<u>\$ 9,992.8</u>	<u>\$ 9,967.2</u>

13. Property and Equipment

Property and equipment consisted of the following as of the dates indicated:

	December 31,	
	2025	2024
Land	\$ 4.9	\$ 6.2
Buildings and improvements	172.8	166.3
Furniture, fixtures and equipment	167.3	117.6
Software	1,145.7	979.0
Total	1,490.7	1,269.1
Less accumulated depreciation	(649.0)	(500.8)
Total	<u>\$ 841.7</u>	<u>\$ 768.3</u>

Depreciation expense for the years ended December 31, 2025, 2024 and 2023 amounted to \$156.4 million, \$139.4 million and \$109.3 million, respectively, including a writedown of \$5.3 million for the year ended December 31, 2025 for assets associated with property located in Springfield, Ohio which the Company started marketing for sale in 2025. Depreciation expense is included in underwriting, selling, general and administrative expenses in the consolidated statements of operations.

The assets of the Miami, Florida office met held-for-sale criteria in second quarter 2023 and were reclassified from property and equipment, net, to other assets in the consolidated balance sheet. The Company has ceased depreciation of these assets which are recorded at carrying value of \$46.0 million as of December 31, 2025 and 2024, which is less than the estimated fair value less estimated costs to sell. During first quarter 2025, the Company entered into an agreement to sell the Miami, Florida property to a buyer for a purchase price of \$126.0 million, subject to certain adjustments and to the buyer receiving the requisite development approvals. There can be no assurance that the transaction will be consummated.

During the year ended December 31, 2025, the Company recorded a \$1.8 million loss on the sale of a property that previously served as an operations center located in Florence, South Carolina.

14. Goodwill

The Company has assigned goodwill to its reporting units for impairment testing purposes. The Company has three reporting units consisting of two reporting units within the Global Lifestyle operating segment, Connected Living and Global Automotive, and Global Housing (whereby the reporting unit for impairment testing was at the operating segment level).

Qualitative Impairment Testing

For the annual October 1, 2024 goodwill impairment test, the Company performed a qualitative assessment for all reporting units with goodwill (Connected Living, Global Automotive and Global Housing) due to high margins between fair value and book value based on quantitative impairment testing in 2023. In conducting a qualitative assessment, the Company analyzed changes in the book value and the financial performance of each reporting unit, including analyzing the historical performance versus plan and the results of quantitative impairment testing performed in 2023. Additionally, the Company assessed critical areas that may impact the reporting units, including macroeconomic and industry trends and market information for the reporting units and their peer companies that could impact the reporting units' fair value. Based on this assessment, the Company determined that it was more likely than not that the reporting units' fair values were more than their respective book values and therefore quantitative impairment testing was not necessary for Connected Living, Global Automotive and Global Housing.

Quantitative Impairment Testing

For the annual October 1, 2025 goodwill impairment test, the Company performed quantitative tests for all reporting units with goodwill (Connected Living, Global Automotive and Global Housing), consistent with its standard practice following a qualitative test in the prior year. The following describes the various valuation methodologies used in the quantitative test which were weighted using our judgment as to which were the most representative in determining the estimated fair value of the reporting units.

A Dividend Discount Method ("Income Approach") was used to value each of the reporting units based upon the present value of expected cash flows available for distribution over future periods. In the Income Approach valuation method, the present values of cash flows reasonably expected to be produced by the reporting units from its operations were summed to produce an estimate of the reporting unit's businesses equity value on a marketable-control basis. Cash flows were estimated for a discrete projection period based on detailed assumptions, and a terminal value was calculated to reflect the value attributable to cash flows beyond the discrete period. Cash flows and the terminal value were then discounted using each reporting unit's estimated cost of capital. The estimated fair value of each reporting unit represented the sum of the discounted cash flows and terminal value.

A Guideline Company Method ("Market Approach"), in which we identified a group of peer companies, including the Company, that have similar operations to the reporting unit, was used; however, direct peer comparisons for the reporting units were limited given the diversity of the products and services within the businesses. The Market Approach valuation method employs market multiples derived from market prices of stocks of companies that are engaged in the same or similar businesses as each reporting unit and that are actively traded on a free open market.

While the Income Approach and Market Approach valuation methodologies were considered in assessing fair value, the Income Approach was weighted more heavily since management believes that expected cash flows are the most important factor in the valuation of a business enterprise, and also considering the lack of directly-comparable peer companies. Based on the quantitative assessment performed as of October 1, 2025, the Company concluded that the estimated fair values of the Connected Living, Global Automotive and Global Housing reporting units exceeded their respective book values and therefore determined that the assigned goodwill was not impaired.

A roll forward of goodwill by reportable segment is provided below as of and for the years indicated:

	Global Lifestyle (1)	Global Housing	Corporate and Other	Consolidated
Balance at December 31, 2023 (2)	\$ 2,292.1	\$ 316.7	\$ —	\$ 2,608.8
Acquisitions	11.4	—	—	11.4
Foreign currency translation and other	(4.2)	—	—	(4.2)
Balance at December 31, 2024 (2)	<u>2,299.3</u>	<u>316.7</u>	<u>—</u>	<u>2,616.0</u>
Transfers	—	—	—	—
Acquisitions	18.3	—	—	18.3
Impairments	—	—	—	—
Foreign currency translation and other	12.0	—	—	12.0
Balance at December 31, 2025 (2)	<u>\$ 2,329.6</u>	<u>\$ 316.7</u>	<u>\$ —</u>	<u>\$ 2,646.3</u>

- (1) As of December 31, 2025, \$807.7 million and \$1,521.9 million of goodwill was assigned to the Connected Living and Global Automotive reporting units, respectively. As of December 31, 2024, \$793.6 million and \$1,505.7 million of goodwill was assigned to the Connected Living and Global Automotive reporting units, respectively.
- (2) Consolidated goodwill reflects \$1,413.7 million of accumulated impairment losses at December 31, 2025, 2024 and 2023.

15. VOBA and Other Intangible Assets

VOBA

Information about VOBA, which is included in other assets in the consolidated balance sheets, is as follows for the periods indicated:

	Years Ended December 31,		
	2025	2024	2023
Beginning balance	\$ 8.0	\$ 83.9	\$ 262.8
Amortization, net of interest accrued	(3.6)	(75.9)	(179.2)
Foreign currency translation and other	(0.1)	—	0.3
Ending balance	\$ 4.3	\$ 8.0	\$ 83.9

As of December 31, 2025, the outstanding VOBA balance is primarily related to the 2018 acquisition of TWG within the Global Lifestyle segment.

As of December 31, 2025, the estimated amortization of VOBA will be recognized through 2029 as follows:

Year	Amount
2026	\$ 1.7
2027	1.4
2028	0.8
2029	0.4
Total	\$ 4.3

Other Intangible Assets

Information about other intangible assets is as follows as of the dates indicated:

	As of December 31,					
	2025			2024		
	Carrying Value	Accumulated Amortization	Net Other Intangible Assets	Carrying Value	Accumulated Amortization	Net Other Intangible Assets
Purchased intangible assets	\$ 915.2	\$ (563.5)	\$ 351.7	\$ 901.1	\$ (515.6)	\$ 385.5
Operating intangible assets	304.5	(145.9)	158.6	239.2	(100.8)	138.4
Total finite-lived intangible assets	1,219.7	(709.4)	510.3	1,140.3	(616.4)	523.9
Total indefinite-lived intangible assets	11.7	—	11.7	11.7	—	11.7
Total other intangible assets	\$ 1,231.4	\$ (709.4)	\$ 522.0	\$ 1,152.0	\$ (616.4)	\$ 535.6

Purchased intangible assets primarily consist of contract based and customer related intangibles related to acquisitions over the past few years. Operating intangible assets primarily consist of customer related intangibles. These intangible assets are amortized over their useful lives.

Amortization of other intangible assets is as follows as of the dates indicated:

	Years Ended December 31,		
	2025	2024	2023
Purchased intangible assets	\$ 67.4	\$ 69.1	\$ 77.9
Operating intangible assets	41.5	28.8	20.2
Total	\$ 108.9	\$ 97.9	\$ 98.1

The estimated amortization of other intangible assets with finite lives for the next five years and thereafter is as follows:

Year	Purchased Intangible Assets	Operating Intangible Assets	Total
2026	\$ 70.8	\$ 36.2	\$ 107.0
2027	55.0	31.4	86.4
2028	49.5	25.7	75.2
2029	42.7	18.1	60.8
2030	40.8	15.5	56.3
Thereafter	92.9	31.7	124.6
Total other intangible assets with finite lives	<u>\$ 351.7</u>	<u>\$ 158.6</u>	<u>\$ 510.3</u>

16. Reserves

Short Duration Contracts

Continuing Business (Global Lifestyle and Global Housing)

The Company's short duration contracts include products and services within the Global Lifestyle and Global Housing segments. The main product lines for Global Lifestyle include mobile device protection, extended service contracts for consumer electronics and appliances, vehicle service contracts, and financial services and other insurance. The main product lines for Global Housing include lender-placed homeowners, manufactured housing and flood insurance; voluntary manufactured housing, condominium and homeowners insurance; and renters insurance.

Total IBNR reserves are determined by subtracting case basis incurred losses from the ultimate loss and loss adjustment expense estimates. Ultimate loss and loss adjustment expenses are estimated utilizing generally accepted actuarial loss reserving methods. The reserving methods employed by the Company include the Chain Ladder, Munich Chain Ladder and Bornhuetter-Ferguson methods. Reportable catastrophe losses are analyzed and reserved for separately using a frequency and severity approach. The methods involve aggregating paid and case-incurred loss data by accident period and accident age for each product grouping. As the data ages, loss development factors are calculated that measure emerging claim development patterns between reporting periods. By selecting loss development factors indicative of remaining development, known losses are projected to an ultimate incurred basis for each accident period. The underlying premise of the Chain Ladder method is that future claims development is best estimated using past claims development, whereas the Bornhuetter-Ferguson method employs a combination of past claims development and an estimate of ultimate losses based on an expected loss ratio. The Munich Chain Ladder method takes into account the correlations between paid and incurred development in projecting future development factors and is typically more applicable to products experiencing greater variability in incurred to paid ratios.

The best estimate of ultimate loss and loss adjustment expense is generally selected from a blend of the different methods that are applied consistently each period considering significant assumptions, including projected loss development factors and expected loss ratios. There have been no significant changes in the methodologies and assumptions utilized in estimating the liability for unpaid loss and loss adjustment expenses for any of the periods presented.

Non-core Operations

Short duration contracts in non-core operations consist of the sharing economy and small commercial products previously reported within Global Housing and the Company's operations in mainland China. While the sharing economy and small commercial contracts are classified as short duration, the coverages were predominantly commercial liability and have a long reporting and settlement tail compared to property coverages which make up most of the Company's core operations.

The reserving methodology described for continuing short duration business is applicable for non-core operations (sharing economy and small commercial). Given the nature of commercial liability coverages and its relatively long claim runoff duration, additional emphasis is placed on social inflation impacts and analysis of individual case reserve adequacy on known claims. This is done through use of average cost per claim methods that include allowance for future inflation impacts, detailed open claim inventory analysis, and leveraging industry development patterns to supplement the Company's own historical claims experience.

Disposed and Runoff Short Duration Insurance Lines

Short duration contracts within the disposed business include certain medical policies no longer offered and Assurant Employee Benefits policies disposed of via reinsurance. Reserves and reinsurance recoverables for previously disposed business are included in the consolidated balance sheets. See Note 17 for additional information.

The Company has runoff exposure to asbestos, environmental and other general liability claims arising from the Company's participation in certain reinsurance pools from 1971 through 1985 from contracts discontinued many years ago. The amount of carried case reserves are based on recommendations of the various pool managers. Using information currently available, and after consideration of the reserves reflected in the consolidated financial statements, the Company does not believe or expect that changes in reserve estimates for these claims are likely to be material.

Long Duration Contracts

The following table presents the balances and changes in the long-term care future policy benefits and expenses reserve:

	Years Ended December 31,		
	2025	2024	2023
Present value of expected net premiums			
Balance, beginning of period	\$ 36.4	\$ 36.4	\$ 34.2
Beginning balance at original discount rate	34.0	36.5	33.4
Effect of changes in cash flow assumptions (1)	—	(1.0)	1.5
Effect of actual variances from expected experience	—	0.9	3.5
Adjusted beginning of period balance	34.0	36.4	38.4
Experience variance (2)	1.5	0.1	—
Interest accrual	2.4	3.4	2.8
Net premiums collected	(4.2)	(5.9)	(4.7)
Ending balance at original discount rate	33.7	34.0	36.5
Effect of changes in discount rate assumptions	1.7	2.4	(0.1)
Transfer to liabilities held for sale (Note 3)	(35.4)	—	—
Balance, end of period	\$ —	\$ 36.4	\$ 36.4
Present value of expected future policy benefits			
Balance, beginning of period	\$ 506.4	\$ 450.6	\$ 462.4
Beginning balance at original discount rate	452.9	453.0	444.4
Effect of actual variances from expected experience	—	1.5	4.4
Adjusted beginning of period balance	452.9	454.5	448.8
Experience variance (2)	(6.1)	(1.3)	1.0
Interest accrual	19.4	26.2	19.5
Benefit payments	(22.6)	(26.5)	(16.3)
Ending balance at original discount rate	443.6	452.9	453.0
Effect of changes in discount rate assumptions	38.7	53.5	(2.4)
Transfer to liabilities held for sale (Note 3)	(482.3)	—	—
Balance, end of period	\$ —	\$ 506.4	\$ 450.6
Net future policy benefits and expenses	\$ —	\$ 470.0	\$ 414.2
Related reinsurance recoverable	—	470.0	414.2
Net future policy benefits and expenses, after reinsurance recoverable	\$ —	\$ —	\$ —
Weighted-average liability duration of the future policy benefits and expenses (in years)	0.0	11.4	12.0

(1) The increase for the year ending December 31, 2023 was primarily due to historical experience reflecting a decreasing trend in lapse and mortality rates on the long-term care insurance products.

- (2) Experience variance includes adverse development resulting from the allocation of the premium deficiency reserve to the cohort level for issue years where net premiums exceed gross premiums.

As shown above, the long-term care future policy benefits and expenses reserve have been transferred to liabilities held for sale. The following long duration disclosures are included for the comparative prior periods. Refer to Note 3 for more information on the pending subsidiary sale.

The following table presents a reconciliation of the long-term care net future policy benefits and expenses to the future policy benefits and expenses reserve in the consolidated balance sheet:

	December 31, 2024
Long-term care	\$ 470.0
Other	66.7
Total	\$ 536.7

The following table presents the amount of undiscounted expected future benefit payments and expected gross premiums for the long-term care insurance contracts:

	December 31, 2024
Expected future benefits payments	\$ 804.4
Expected future gross premiums	\$ 61.9

The following table presents the amount of long-term care revenue and interest recognized in the consolidated statements of operations:

	Years Ended December 31,	
	2024	2023
Gross premiums	\$ 1.4	\$ 1.5
Interest expense (original discount rate)	\$ 5.7	\$ 5.6

The following table presents the weighted-average interest rate for long-term care insurance contracts:

	December 31, 2024
Interest expense (original discount rate)	5.95 %
Current discount rate	4.63 %

Reserve Roll Forward

The following table provides a roll forward of the Company's beginning and ending claims and benefits payable balances. Claims and benefits payable is the liability for unpaid loss and loss adjustment expenses and are comprised of case and IBNR reserves. These balances do not include the recoverable amounts related to certain high deductible policies in the sharing economy business, included in the non-core operations, for which the Company is responsible for paying the entirety of the claim and is subsequently reimbursed by the insured for the deductible portion of the claim. As of December 31, 2025, the Company had exposure of \$86.8 million of reserves below the deductible that it would be responsible for if the clients were to default on their contractual obligation to pay the deductible. Refer to Note 4 for more information on the evaluation of the credit risk exposure from these recoverables.

Since unpaid loss and loss adjustment expenses are estimates, the Company's actual losses incurred may be more or less than the Company's previously developed estimates, which is referred to as either unfavorable or favorable development, respectively.

The best estimate of ultimate loss and loss adjustment expenses is generally selected from a blend of methods that are applied consistently each period. There have been no significant changes in the methodologies and assumptions utilized in estimating the liability for unpaid loss and loss adjustment expenses for any of the periods presented.

	Years Ended December 31,		
	2025	2024	2023
Claims and benefits payable, at beginning of year	\$ 2,914.2	\$ 1,989.2	\$ 2,210.0
Less: Reinsurance ceded and other	(1,669.8)	(886.6)	(1,228.8)
Net claims and benefits payable, at beginning of year	1,244.4	1,102.6	981.2
Incurred losses and loss adjustment expenses related to:			
Current year	3,070.6	2,893.8	2,548.4
Prior years	(142.8)	(127.3)	(26.6)
Total incurred losses and loss adjustment expenses	2,927.8	2,766.5	2,521.8
Paid losses and loss adjustment expenses related to:			
Current year	2,272.1	2,021.8	1,802.3
Prior years	697.8	602.9	598.1
Total paid losses and loss adjustment expenses	2,969.9	2,624.7	2,400.4
Net claims and benefits payable, at end of year	1,202.3	1,244.4	1,102.6
Plus: Reinsurance ceded and other (1)	898.9	1,669.8	886.6
Claims and benefits payable, at end of year (1)	\$ 2,101.2	\$ 2,914.2	\$ 1,989.2

(1) Includes reinsurance recoverables and claims and benefits payable of \$202.2 million, \$911.7 million and \$123.6 million as of December 31, 2025, 2024 and 2023, respectively, which were ceded to the U.S. government. The Company acts as an administrator for the U.S. government under the voluntary National Flood Insurance Program.

A comparison of net (favorable) unfavorable prior year development is shown below across the Company's current and former segments and businesses.

	Prior Year Incurred Loss Development for the Years Ending December 31,		
	2025	2024	2023
Global Lifestyle	\$ (47.2)	\$ (18.9)	\$ (23.6)
Global Housing	(99.6)	(109.7)	(37.1)
Non-core operations	3.0	13.6	40.1
All Other	1.0	(12.3)	(6.0)
Total	\$ (142.8)	\$ (127.3)	\$ (26.6)

The Company experienced net favorable loss development for the years ended December 31, 2025, 2024 and 2023. Global Lifestyle experienced net favorable development in 2025, 2024 and 2023 of \$47.2 million, \$18.9 million and \$23.6 million, respectively. The increase in net favorable development from 2024 to 2025 was primarily due to improvement in the US claims experience for Global Automotive ancillary products and the release of international mobile reserves as a new client's actual loss experience replaced initial pricing assumptions. Global Housing experienced net favorable loss development in 2025, 2024 and 2023 of \$99.6 million, \$109.7 million, and \$37.1 million, respectively, as claim experience for lender-placed homeowners insurance developed favorably due to easing inflation and favorable frequency compared to initial estimates. The non-core operations contributed net unfavorable loss development of \$3.0 million, \$13.6 million, and \$40.1 million in 2025, 2024 and 2023, respectively. A more detailed explanation of the claims development from Global Lifestyle, Global Housing and non-core operations is presented below, including claims development by accident year. Reserves for the longer-tail property and casualty coverages included in All Other (e.g., asbestos, environmental and other general liability) had no material changes in estimated amounts for claims incurred in prior years.

The following tables represent the Global Lifestyle, Global Housing and non-core operations incurred claims and allocated claim adjustment expenses, net of reinsurance, less cumulative paid claims and allocated claim adjustment expenses, net of reinsurance to reconcile to total claims and benefits payable, net of reinsurance as of December 31, 2025. The tables provide undiscounted information about claims development by accident year for the significant short duration claims and benefits payable balances.

The following factors are relevant to the loss development information included in the tables below:

- **Table Presentation:** The tables are organized by accident year. For certain categories of claims and for reinsurance recoverables, losses may sometimes be reclassified to an earlier or later accident year as more information about the date of occurrence becomes available to us. These reclassifications are shown as development in the respective years in the tables below. Predominantly, the Company writes short-tail lines that are written on an occurrence basis. Five years of claims development information is provided since most of the claims are fully developed after five years, as shown in the average payout ratio tables.
- **Table Groupings:** The groupings have homogeneous risk characteristics with similar development patterns and would generally be subject to similar trends and reflect our reportable segments.
- **Impact of Reinsurance:** The reinsurance program varies by exposure type. Historically, the Company has leveraged facultative and treaty reinsurance, both on pro-rata and excess of loss basis. The reinsurance program may change from year to year, which may affect the comparability of the data presented in the tables.
- **IBNR:** Includes development from past reported losses in IBNR.
- **Information excluded from tables:** Unallocated loss adjustment expenses are excluded from the tables.
- **Foreign exchange rates:** The loss development for operations outside of the U.S. is presented for all accident years using the current exchange rates at December 31, 2025. Although this approach requires restating all prior accident year information, the changes in exchange rates do not impact incurred and paid loss development trends.
- **Acquisitions:** Includes acquisitions from all accident years presented in the tables. For purposes of this disclosure, we have applied the retrospective method for the acquired reserves, including incurred and paid claim development histories throughout the relevant tables. It should be noted that historical reserves for the acquired business were established by the acquired companies using methods, assumptions and procedures then in effect which may differ from our current reserving bases. Accordingly, it may not be appropriate to extrapolate future reserve adequacy based on the aggregated historical results shown in the tables.
- **Dispositions:** Excludes dispositions from all accident years presented in the tables.
- **Claim counts:** Considers a reported claim to be one claim for each claimant or feature for each loss occurrence. Reported claims for losses from assumed reinsurance contracts are not available and hence not included in the reported claims. There are limitations that should be considered on the reported claim count data in the tables below, including:
 - Claim counts are presented only on a reported (not an ultimate) basis;
 - The tables below include lines of business and geographies at a certain aggregated level which may indicate different frequency and severity trends and characteristics, and may not be as meaningful as the claim count information related to the individual products within those lines of business and geographies;
 - Certain lines of business are more likely to be subject to occurrences involving multiple claimants and features, which can distort measures based on the reported claim counts in the table below; and
 - Reported claim counts are not adjusted for ceded reinsurance, which may distort the measure of frequency or severity.
- **Required Supplemental Information:** The information about incurred and paid loss development for all periods preceding year ended December 31, 2025 and the related historical claims payout percentage disclosure is unaudited and is presented as required supplementary information.

Global Lifestyle Net Claims Development Tables

Incurred Claims and Allocated Claim Adjustment Expenses, Net of Reinsurance						December 31, 2025	
Accident Year	Years Ended December 31,					Total of Incurred-but-Not Reported Liabilities Plus Expected Development on Reported Claims (1)	Cumulative Number of Reported Claims (2)
	2021 Unaudited	2022 Unaudited	2023 Unaudited	2024 Unaudited	2025

2024				1,437.1	1,700.3
2025					1,602.3
				Total \$	7,572.9
	Outstanding claims and benefits payable before 2021, net of reinsurance				5.4
	Claims and benefits payable, net of reinsurance				\$ 387.5

Average Annual Payout of Incurred Claims by Age, Net of Reinsurance

Year 1 Unaudited	Year 2 Unaudited	Year 3 Unaudited	Year 4 Unaudited	Year 5 Unaudited
85.2%	14.3%	0.3%	0.1%	0.1%

(1) Includes a provision for development on case reserves.

(2) Number of paid claims plus open (pending) claims. Claim count information related to ceded reinsurance is not reflected as it cannot be reasonably defined or quantified, given that the Company's reinsurance includes non-proportional treaties.

Using the December 31, 2025 foreign exchange rates for all years, Global Lifestyle experienced net favorable loss development of \$47.2 million, \$18.9 million and \$23.6 million for the years ended December 31, 2025, 2024 and 2023, respectively. These amounts are based on the change in net incurred losses from the claims development tables above, plus additional impacts from accident years prior to 2021. Many of these contracts and products contain retrospective commission (profit sharing) provisions that would result in offsetting increases or decreases in expense dependent on if the development was favorable or unfavorable.

Development from Global Lifestyle is attributable to nearly all lines of business across most of the Company's regions with a concentration on more recent accident years and based on emerging evaluations regarding loss experience each period. For the year ended December 31, 2025, the Global Lifestyle net favorable development of \$47.2 million was attributable to Connected Living which contributed \$27.9 million, comprised of \$15.9 million from mobile, \$10.4 million from extended service contracts and \$1.6 million from credit and other insurance. The favorable development for mobile was primarily attributable to reserve releases as a new international client's actual loss experience replaced initial pricing assumptions. For extended service contracts, reserve releases and favorable development are primarily attributable to fewer claims as inforce contract counts decrease slightly and lower severity from new pricing agreements with servicers. For credit and other insurance, the favorable development was primarily attributable to administrative closure of claims with no offsetting settlements. Global Automotive experienced net favorable development of \$19.3 million for the year ended December 31, 2025, primarily attributable to favorability in the frequency assumptions in the U.S. service contract products. For the year ended December 31, 2024, the net favorable development was also primarily from Connected Living and due to similar drivers. For the year ended December 31, 2023, the Global Lifestyle net favorable development was primarily attributable to favorable runoff of international credit products where loss assumptions related to inflation and COVID-19 did not materialize.

Foreign exchange rate movements over time caused some of the reserve differences shown in the reserve roll forward and prior year incurred loss tables to vary from what is reflected in the claims development tables for Global Lifestyle. The impacts by year were \$0.5 million, \$(0.9) million, and \$0.3 million for the years ended December 31, 2025, 2024 and 2023, respectively. The claims development tables above remove the impact due to changing foreign exchange rates over time for comparability.

Global Housing Net Claims Development Tables

Incurred Claims and Allocated Claim Adjustment Expenses, Net of Reinsurance						December 31, 2025	
Accident Year	Years Ended December 31,					Total of Incurred-but-Not Reported Liabilities Plus Expected Development on Reported Claims (1)	Cumulative Number of Reported Claims (2)
	2021 Unaudited	2022 Unaudited	2023 Unaudited	2024 Unaudited	2025		
2021	\$ 784.0	\$ 769.0	\$ 770.5	\$ 761.4	\$ 758.6	\$ 7.1	193,897

2023			901.4	814.0	784.8	56.2	177,534
2024				1,123.1	1,069.6	138.6	217,176
2025					1,109.3	383.7	148,209
				Total	\$ 4,521.4		

Cumulative Paid Claims and Allocated Claim Adjustment Expenses, Net of Reinsurance					
Accident Year	Years Ended December 31,				
	2021 Unaudited	2022 Unaudited	2023 Unaudited	2024 Unaudited	2025
2021	\$ 517.6	\$ 690.3	\$ 727.8	\$ 743.0	\$ 749.3
2022		467.7	701.3	754.5	774.3
2023			450.9	665.3	718.3
2024				597.9	903.5
2025					658.9
				Total	\$ 3,804.3
	Outstanding claims and benefits payable before 2021, net of reinsurance				16.3
	Claims and benefits payable, net of reinsurance				\$ 733.4

Average Annual Payout of Incurred Claims by Age, Net of Reinsurance

Year 1 Unaudited	Year 2 Unaudited	Year 3 Unaudited	Year 4 Unaudited	Year 5 Unaudited
62.4%	28.1%	6.4%	2.2%	0.9%

- (1) Includes a provision for development on case reserves.
- (2) Number of paid claims plus open (pending) claims. Claim frequency is determined at a claimant reporting level. Depending on the nature of the product and related coverage triggers, it is possible for a claimant to contribute multiple claim counts in a given policy period. Claim count information related to ceded reinsurance is not reflected as it cannot be reasonably defined or quantified, given that the Company’s reinsurance includes non-proportional treaties.

For the year ended December 31, 2025, 2024 and 2023, Global Housing experienced net favorable loss development of \$99.6 million, \$109.7 million and \$37.1 million, respectively. These amounts are based on the change in net incurred losses from the claims development data above, plus additional impacts from accident years prior to 2021. For the year ended December 31, 2025, the net favorable development for Global Housing was attributable to non-catastrophe claim experience for lender-placed homeowners insurance, as claim experience developed favorably due to easing inflation and favorable frequency compared to initial estimates established during a period with high market uncertainty, stabilization of claim settlement lags, and legislation reform in Florida. For the years ended December 31, 2024 and 2023, the net favorable development for Global Housing was attributable to similar factors as described for the year ended December 31, 2025.

Non-core Operations Net Claims Development Tables

Incurred Claims and Allocated Claim Adjustment Expenses, Net of Reinsurance						December 31, 2025	
Accident Year	Years Ended December 31,					Total of Incurred-but-Not Reported Liabilities Plus Expected Development on Reported Claims (1)	Cumulative Number of Reported Claims (2)

2025					0.7	—	1,202
				Total	\$ 168.2		

Cumulative Paid Claims and Allocated Claim Adjustment Expenses, Net of Reinsurance					
Accident Year	Years Ended December 31,				
	2021 Unaudited	2022 Unaudited	2023 Unaudited	2024 Unaudited	2025
2021	\$ 21.1	\$ 38.5	\$ 58.7	\$ 76.7	\$ 88.6
2022		10.3	19.6	44.2	50.8
2023			3.3	4.6	4.9
2024				—	0.1
2025					0.2
				Total	\$ 144.6
	Outstanding claims and benefits payable before 2019, net of reinsurance				19.4
	Claims and benefits payable, net of reinsurance				\$ 43.0

Average Annual Payout of Incurred Claims by Age, Net of Reinsurance

Year 1 Unaudited	Year 2 Unaudited	Year 3 Unaudited	Year 4 Unaudited	Year 5 Unaudited
30.3%	16.6%	24.1%	15.9%	13.1%

- (1) Includes a provision for development on case reserves.
- (2) Number of paid claims plus open (pending) claims. Claim frequency is determined at a claimant reporting level. Depending on the nature of the product and related coverage triggers, it is possible for a claimant to contribute multiple claim counts in a given policy period. Claim count information related to ceded reinsurance is not reflected as it cannot be reasonably defined or quantified, given that the Company's reinsurance includes non-proportional treaties.

For the years ended December 31, 2025, 2024 and 2023, non-core operations contributed net unfavorable loss development of \$3.0 million, \$13.6 million, and \$40.1 million, including \$0.0 million, \$1.3 million and \$(0.5) million from small commercial and \$3.0 million, \$12.3 million and \$40.6 million from sharing economy products, respectively. The Company stopped writing new small commercial business in 2019 and the claims are in runoff. In 2023, the Company entered into a retroactive reinsurance treaty to cover certain known losses and adverse development up to a \$50.0 million aggregate limit, relating to the small commercial business. For the year ended December 31, 2025, the net unfavorable development was primarily attributable to sharing economy due to the deterioration in the anticipated portion and amount of claims exceeding the per policy deductible. For the year ended December 31, 2024, the net unfavorable development in sharing economy was attributable to reserve increases related to higher settlement values, primarily for accident years 2019 and 2020. For the year ended December 31, 2023, the net unfavorable development from sharing economy was driven by emerging adverse claim development trends on known claims as well as reserve assumption revisions to reflect relevant industry benchmarks.

Reconciliation of the Disclosure of Net Incurred and Paid Claims Development to the Liability for Unpaid Claims and Benefits Payable

	December 31, 2025
Net outstanding liabilities	
Global Lifestyle	\$ 387.5

Claims and benefits payable, net of reinsurance	1,185.0
Reinsurance recoverable on unpaid claims	
Global Lifestyle (2)	484.1
Global Housing	384.9
Non-core operations	28.4
Other short-duration insurance lines (1)	0.7
Total reinsurance recoverable on unpaid claims	898.1
Insurance lines other than short-duration (3)	2.0
Unallocated claim adjustment expense	16.1
Total claims and benefits payable	\$ 2,101.2

- (1) Asbestos and pollution reserves represent \$11.7 million of the other short-duration insurance lines, with \$0.7 million recoveries.
(2) Disposed of property and casualty business represents \$144.6 million of the \$484.1 million in reinsurance recoverables for Global Lifestyle.
(3) Amount consists of certain long-duration contract exposures, primarily claims and benefits payable on run-off blocks of universal life policies.

17. Reinsurance

In the ordinary course of business, the Company is involved in both the assumption and cession of reinsurance with non-affiliated companies. The Company's reinsurance agreements do not relieve the Company from its direct obligation to its insureds. Thus, a credit exposure exists to the extent that any reinsurer is unable to meet the obligations assumed in the reinsurance agreements. The following table provides details of the reinsurance recoverables balance as of the dates indicated:

	December 31,	
	2025	2024
Ceded future policyholder benefits and expense	\$ 4.2	\$ 340.7
Ceded unearned premium	5,062.9	5,188.5
Ceded claims and benefits payable	899.0	1,808.9
Ceded paid losses	505.2	241.4
Total	\$ 6,471.3	\$ 7,579.5

A key credit quality indicator for reinsurance is the A.M. Best Company ("A.M. Best") financial strength ratings of the reinsurer. A.M. Best financial strength ratings are an independent opinion of a reinsurer's ability to meet ongoing obligations to policyholders. The A.M. Best ratings for the reinsurers in new reinsurance agreements where there is material credit exposure are reviewed at the time of execution. The A.M. Best ratings for existing reinsurance agreements are reviewed on a quarterly basis, or sooner based on developments. The following table provides the reinsurance recoverable as of December 31, 2025 grouped by A.M. Best financial strength ratings:

A.M. Best Rating of Reinsurer	Ceded future policyholder benefits and expense	Ceded unearned premiums	Ceded claims and benefits payable	Ceded paid losses	Total
A++ or A+	\$ 0.2	\$ 61.7	\$ 60.8	\$ 11.4	\$ 134.1
A or A-	—	146.9	41.8	28.5	217.2
B++ or B	0.5	10.4	1.1	0.4	12.4
Not Rated (1)	3.5	4,843.9	795.3	470.1	6,112.8
Total	4.2	5,062.9	899.0	510.4	6,476.5
Less: Allowance	—	—	—	(5.2)	(5.2)
Net reinsurance recoverable	\$ 4.2	\$ 5,062.9	\$ 899.0	\$ 505.2	\$ 6,471.3

(1) Not Rated ceded claims and benefits payable included reinsurance recoverables of \$202.2 million as of December 31, 2025 which were ceded to the U.S. government. The Company acts as an administrator for the U.S. government under the voluntary National Flood Insurance Program.

A substantial portion of the Not Rated category is related to Global Lifestyle's and Global Housing's agreements to reinsure premiums and risks related to business generated by certain clients to the clients' own captive insurance companies or to reinsurance subsidiaries in which the clients have an ownership interest. To mitigate exposure to credit risk for these reinsurers, the Company evaluates the financial condition of the reinsurer and typically holds substantial collateral (in the form of funds withheld, trusts and letters of credit) as security.

The effect of reinsurance on premiums earned and benefits incurred was as follows for the periods indicated:

	Years Ended December 31,								
	2025			2024			2023		
	Long Duration	Short Duration	Total	Long Duration	Short Duration	Total	Long Duration	Short Duration	Total
Direct earned premiums	\$ 12.4	\$ 19,379.7	\$ 19,392.1	\$ 13.4	\$ 18,820.1	\$ 18,833.5	\$ 14.4	\$ 18,308.4	\$ 18,322.8
Premiums assumed	—	408.2	408.2	—	178.6	178.6	—	186.4	186.4
Premiums ceded	(7.6)	(9,309.8)	(9,317.4)	(8.0)	(9,208.3)	(9,216.3)	(7.9)	(9,113.3)	(9,121.2)
Net earned premiums	\$ 4.8	\$ 10,478.1	\$ 10,482.9	\$ 5.4	\$ 9,790.4	\$ 9,795.8	\$ 6.5	\$ 9,381.5	\$ 9,388.0
Direct policyholder benefits	\$ 37.2	\$ 7,975.4	\$ 8,012.6	\$ 33.7	\$ 8,777.1	\$ 8,810.8	\$ 36.5	\$ 7,568.2	\$ 7,604.7
Policyholder benefits assumed	—	242.8	242.8	0.1	276.9	277.0	—	241.9	241.9
Policyholder benefits ceded	(33.7)	(5,293.9)	(5,327.6)	(30.3)	(6,291.0)	(6,321.3)	(31.8)	(5,293.0)	(5,324.8)
Net policyholder benefits	\$ 3.5	\$ 2,924.3	\$ 2,927.8	\$ 3.5	\$ 2,763.0	\$ 2,766.5	\$ 4.7	\$ 2,517.1	\$ 2,521.8

The Company had zero invested assets held in trusts or by custodians as of December 31, 2025 and 2024, for the benefit of others related to certain reinsurance arrangements.

The Company utilizes ceded reinsurance for loss protection and capital management, segment client risk and profit sharing and business divestitures.

Loss Protection and Capital Management

As part of the Company's overall risk and capacity management strategy, the Company purchases reinsurance for certain risks underwritten by the Company's various segments, including significant individual or catastrophic claims.

For those product lines where there is exposure to losses from catastrophe events, the Company closely monitors and manages its aggregate risk exposure by geographic area. The Company has entered into reinsurance treaties to manage exposure to these types of events.

Segment Client Risk and Profit Sharing

The Global Lifestyle and Global Housing segments write business produced by their clients, such as mobile providers, auto dealers, mortgage lenders and servicers, and financial institutions, and reinsure all or a portion of such business to insurance subsidiaries of some clients. Such arrangements allow significant flexibility in structuring the sharing of risks and profits on the underlying business.

A substantial portion of Global Lifestyle’s and Global Housing’s reinsurance activities are related to agreements to reinsure premiums and risks related to business generated by certain clients to the clients’ own captive insurance companies or to reinsurance subsidiaries in which the clients have an ownership interest. Through these arrangements, the Company’s insurance subsidiaries share some of the premiums and risk related to client-generated business. When the reinsurance companies are not authorized to do business in the state of domicile of the Company’s insurance subsidiary, the Company’s insurance subsidiary generally obtains collateral, such as a trust or a letter of credit, from the reinsurance company or its affiliate in an amount equal to the outstanding reserves to obtain full statutory financial credit in the domiciliary state for the reinsurance.

Business Divestitures

In the past, the Company has exited certain businesses through reinsurance ceded to third parties. As of December 31, 2025, \$489.4 million of these reinsurance recoverables were included in assets held for sale on the consolidated balance sheet, of which \$472.0 million was attributable to John Hancock Life Insurance Company (“John Hancock”), which reinsures the long-term care business. Refer to Note 3 for more information on the pending subsidiary sale.

Certain assets backing reserves reinsured under this sale and other sales are held in trusts or separate accounts. If the reinsurers became insolvent, the Company would be exposed to the risk that the assets in the trusts or the separate accounts, if any, could prove insufficient to support the liabilities that would revert back to the Company. In addition, the Company would be responsible for administering these businesses in the event of reinsurer insolvency. The Company does not currently have the administrative systems and capabilities to support these businesses. Accordingly, the Company would need to obtain those capabilities in the event of an insolvency of one or more of the reinsurers of these businesses. The Company might be forced to obtain such capabilities on unfavorable terms with a resulting material adverse effect on our results of operations and financial condition.

John Hancock has an A.M. Best financial strength rating of A+ with a stable outlook. As of December 31, 2025, the Company was not aware of any regulatory actions taken with respect to the solvency of the insurance subsidiaries of John Hancock and the Company has not been obligated to fulfill any of its obligations. John Hancock has paid its obligations when due and there have been no disputes.

18. Debt

The following table shows the principal amount and carrying value of the Company’s outstanding debt, less unamortized discount and issuance costs as applicable, as of December 31, 2025 and 2024:

	December 31, 2025		December 31, 2024	
	Principal Amount	Carrying Value	Principal Amount	Carrying Value
6.10% Senior Notes due February 2026	\$ —	\$ —	\$ 175.0	\$ 174.3
4.90% Senior Notes due March 2028	300.0	299.0	300.0	298.6
3.70% Senior Notes due February 2030	350.0	348.5	350.0	348.2
2.65% Senior Notes due January 2032	350.0	347.7	350.0	347.3
6.75% Senior Notes due February 2034	275.0	273.1	275.0	272.8
5.55% Senior Notes due February 2036	300.0	296.1	—	—
7.00% Fixed-to-Floating Rate Subordinated Notes due March 2048 (1)	400.0	398.3	400.0	397.7
5.25% Subordinated Notes due January 2061	250.0	244.2	250.0	244.2
Total Debt		\$ 2,206.9		\$ 2,083.1

- (1) Bears a 7.00% annual interest rate from March 2018 to March 2028 and an annual interest rate equal to three-month LIBOR plus 4.135% thereafter. Under the terms of the debt agreement, a substitute or successor base rate will be used since the LIBOR base rate has been discontinued.

For the years ended December 31, 2025, 2024 and 2023, interest expense was \$109.7 million, \$107.0 million and \$108.0 million, respectively. Interest expense includes derivative-related activities described in the interest rate derivatives section below. There was \$36.0 million and \$33.5 million of accrued interest as of December 31, 2025 and 2024, respectively. Interest paid on debt was \$107.2 million, \$107.4 million and \$107.4 million for the years ended December 31, 2025, 2024 and 2023.

Debt Issuances

Senior Notes

2036 Senior Notes: In August 2025, the Company issued senior notes due February 2036 with an aggregate principal amount of \$300.0 million, which bear interest at a rate of 5.55% per year and were issued at a 0.322% discount to the public (the “2036 Senior Notes”). Interest on the 2036 Senior Notes is payable semi-annually in arrears on February 15 and August 15 of each year, beginning on February 15, 2026. Prior to November 15, 2035, the Company may redeem all or part of the 2036 Senior Notes at a redemption price equal to 100% of the aggregate principal amount of the 2036 Senior Notes to be redeemed, plus a make-whole premium as described in the 2036 Senior Notes and accrued and unpaid interest up to the redemption date. On or after that date, the Company may redeem all or part of the 2036 Senior Notes at any time at a redemption price equal to 100% of the aggregate principal amount of the 2036 Senior Notes to be redeemed, plus accrued and unpaid interest up to the redemption date.

2026 Senior Notes: In February 2023, the Company issued senior notes due February 2026 with an aggregate principal amount of \$175.0 million, which bore interest at a rate of 6.10% per year and were issued at a 0.035% discount to the public (the “2026 Senior Notes”). Interest on the 2026 Senior Notes was payable semi-annually in arrears on February 27 and August 27 of each year, beginning on August 27, 2023. In August 2025, the Company used the net proceeds from the sale of the 2036 Senior Notes to redeem all of the 2026 Senior Notes at a make-whole premium plus accrued and unpaid interest up to the redemption date, to pay related fees and expenses, and for general corporate purposes. In connection with the redemption, the Company recognized a net loss from the extinguishment of the debt of \$1.3 million, which included the make-whole premium and the remaining deferred debt issuance costs for the 2026 Senior Notes, partially offset by a gain from the termination of a hedge of the interest rate risk associated with the redeemed notes. Refer to the Interest Rate Derivatives section below for more information.

2032 Senior Notes: In June 2021, the Company issued senior notes with an aggregate principal amount of \$350.0 million, which bear interest at a rate of 2.65% per year, mature in January 2032 and were issued at a 0.158% discount to the public (the “2032 Senior Notes”). Interest is payable semi-annually in arrears on January 15 and July 15 of each year, beginning on January 15, 2022. Prior to October 15, 2031, the Company may redeem the 2032 Senior Notes at any time in whole or from time to time in part at a make-whole premium plus accrued and unpaid interest. On or after that date, the Company may redeem the 2032 Senior Notes at any time in whole or from time to time in part at a redemption price equal to 100% of the aggregate principal amount being redeemed plus accrued and unpaid interest.

2030 Senior Notes: In August 2019, the Company issued senior notes with an aggregate principal amount of \$350.0 million, which bear interest at a rate of 3.70% per year, mature in February 2030 and were issued at a 0.035% discount to the public (the “2030 Senior Notes”). Interest is payable semi-annually in arrears beginning in February 2020. Prior to November 2029, the Company may redeem the 2030 Senior Notes at any time in whole or from time to time in part at a make-whole premium plus accrued and unpaid interest. On or after that date, the Company may redeem the 2030 Senior Notes at any time in whole or from time to time in part at a redemption price equal to 100% of the aggregate principal amount being redeemed plus accrued and unpaid interest.

2028 Senior Notes: In March 2018, the Company issued senior notes with an aggregate principal amount of \$300.0 million, which bear interest at 4.90% per year, mature in March 2028 and were issued at a 0.383% discount to the public (the “2028 Senior Notes”). Interest on the 2028 Senior Notes is payable semi-annually. Prior to December 2027, the Company may redeem the 2028 Senior Notes at any time in whole or from time to time in part at a make-whole premium plus accrued and unpaid interest. On or after that date, the Company may redeem the 2028 Senior Notes at any time in whole or from time to time in part at a redemption price equal to 100% of the aggregate principal amount being redeemed plus accrued and unpaid interest.

The interest rate payable on each of the 2028 Senior Notes, 2030 Senior Notes and 2032 Senior Notes will be subject to adjustment from time to time, if either Moody’s Investor Service, Inc. (“Moody’s”) or S&P Global Ratings, a division of S&P Global Inc. (“S&P”) downgrades the credit rating assigned to such series of senior notes to Ba1 or below or to BB+ or below, respectively, or subsequently upgrades the credit ratings once the senior notes are at or below such levels. The following table details the increase in interest rate over the issuance rate by rating with the impact equal to the sum of the number of basis points next to such rating for a maximum increase of 200 basis points over the issuance rate:

Rating Levels	Rating Agencies		Interest Rate Increase (2)
	Moody's (1)	S&P (1)	
1	Ba1	BB+	25 basis points
2	Ba2	BB	50 basis points
3	Ba3	BB-	75 basis points
4	B1 or below	B+ or below	100 basis points

(1) Including the equivalent ratings of any substitute rating agency.

(2) Applies to each rating agency individually.

In February 2004, the Company issued senior notes with an aggregate principal amount of \$475.0 million at a 0.61% discount to the public, which bear interest at 6.75% per year and matures in February 2034. Interest is payable semi-annually. These senior notes are not redeemable prior to maturity. In December 2016 and August 2019, the Company completed cash tender offers of \$100.0 million each in aggregate principal amount of such senior notes.

Subordinated Notes

2061 Subordinated Notes: In November 2020, the Company issued subordinated notes due January 2061 with a principal amount of \$250.0 million, which bear interest at an annual rate of 5.25% (the “2061 Subordinated Notes”). Interest is payable quarterly in arrears beginning in April 2021. On or after January 2026, the Company may redeem the 2061 Subordinated Notes in whole at any time or in part from time to time, at a redemption price equal to their principal amount plus accrued and unpaid interest, provided that if they are not redeemed in whole, a minimum amount must remain outstanding. At any time prior to January 2026, the Company may redeem the 2061 Subordinated Notes in whole but not in part, within 90 days after the occurrence of a tax event, rating agency event or regulatory capital event as defined in the global note representing the 2061 Subordinated Notes, at a redemption price equal to (i) with respect to a rating agency event, 102% of their principal amount and (ii) with respect to a tax event or a regulatory capital event, their principal amount plus accrued and unpaid interest. See below, under 2048 Subordinated Notes (as defined below), for more information on terms applicable to both series.

2048 Subordinated Notes: In March 2018, the Company issued fixed-to-floating rate subordinated notes due March 2048 with principal amount of \$400.0 million (the “2048 Subordinated Notes”), which bear interest from March 2018 to March 2028 at an annual rate of 7.00%, payable semi-annually. The 2048 Subordinated Notes will bear interest at an annual rate equal to three-month LIBOR plus 4.135%, payable quarterly, beginning in June 2028. Under the terms of the debt agreement, a substitute or successor base rate will be used since the LIBOR base rate has been discontinued. On or after March 2028, the Company may redeem the 2048 Subordinated Notes in whole at any time or in part from time to time, at a redemption price equal to their principal amount plus accrued and unpaid interest, provided that if they are not redeemed in whole, a minimum amount must remain outstanding. At any time prior to March 2028, the Company may redeem the 2048 Subordinated Notes in whole but not in part, within 90 days after the occurrence of a tax event, rating agency event or regulatory capital event as defined in the global note representing the 2048 Subordinated Notes, at a redemption price equal to (i) with respect to a rating agency event, 102% of their principal amount and (ii) with respect to a tax event or a regulatory capital event, their principal amount plus accrued and unpaid interest.

In addition, so long as no event of default with respect to the 2048 Subordinated Notes and 2061 Subordinated Notes (together, the “Subordinated Notes”) has occurred and is continuing, the Company has the right, on one or more occasions, to defer the payment of interest on the Subordinated Notes for one or more consecutive interest periods for up to five years as described in the global note representing the Subordinated Notes. During a deferral period, interest will continue to accrue on the Subordinated Notes at the then-applicable interest rate. At any time when the Company has given notice of its election to defer interest payments on the Subordinated Notes, the Company generally may not make payments on or redeem or purchase any shares of the Company’s capital stock or any of its debt securities or guarantees that rank upon the Company’s liquidation on a parity with or junior to the Subordinated Notes, subject to certain limited exceptions.

Credit Facility and Commercial Paper Program

In June 2025, the Company entered into a \$500.0 million five-year senior unsecured revolving credit facility (the “Credit Facility”) with certain lenders party thereto, JPMorgan Chase Bank, N.A., as administrative agent, and Wells Fargo Bank, National Association, as syndication agent. The Credit Facility replaced the prior \$500.0 million five-year senior unsecured revolving credit facility (the “Prior Credit Facility”), which terminated upon the effectiveness of the Credit Facility. The Credit Facility provides for revolving loans and the issuance of multi-bank, syndicated letters of credit and letters of credit from a sole issuing bank in an aggregate amount of \$500.0 million, which may be increased up to \$750.0 million. The Credit Facility is available until June 2030, provided the Company is in compliance with all covenants. The Credit Facility has a sublimit for letters of credit issued thereunder of \$50.0 million. The proceeds from these loans may be used for the commercial paper program or for general corporate purposes.

The Company made no borrowings under the Credit Facility or the Prior Credit Facility during the year ended December 31, 2025, and no loans were outstanding under the Credit Facility as of December 31, 2025.

The Company's commercial paper program requires the Company to maintain liquidity facilities either in an available amount equal to any outstanding notes from the program or in an amount sufficient to maintain the ratings assigned to the notes issued from the program. The Company's commercial paper is rated AMB-1+ by A.M. Best, P-2 by Moody's and A-2 by S&P. The Company's subsidiaries do not maintain commercial paper or other borrowing facilities. This program is backed up by the Credit Facility, of which \$500.0 million was available at December 31, 2025.

The Company did not use the commercial paper program during the years ended December 31, 2025 or 2024 and there were no amounts relating to the commercial paper program outstanding as of December 31, 2025 or 2024.

Covenants

The Credit Facility contains restrictive covenants including:

- (i) Maintenance of a maximum consolidated total debt to capitalization ratio on the last day of any fiscal quarter of not greater than 0.35 to 1.0, subject to certain exceptions; and
- (ii) Maintenance of a consolidated adjusted net worth in an amount not less than a "Minimum Amount" equal to the sum of (a) \$4.64 billion, (b) 25% of consolidated net income (if positive) for each fiscal quarter ending after June 30, 2025 and (c) 25% of the net cash proceeds received from any capital contribution to, or issuance of any capital stock, disqualified capital stock and hybrid securities.

In the event of a breach of certain covenants, all obligations under the Credit Facility, including unpaid principal and accrued interest and outstanding letters of credit, may become immediately due and payable.

Interest Rate Derivatives

From time to time, the Company has entered into derivative transactions to hedge the risk associated with changes in interest rates in anticipation of debt issuances. The Company determined that the derivatives qualified for hedge accounting as effective cash flow hedges and recognized deferred gains (losses) upon settlement that were reported through other comprehensive income. The deferred gains (losses) are recognized as a reduction (addition) in interest expense related to the 2026 Senior Notes, the 2028 Senior Notes, 2036 Senior Notes and the 2048 Subordinated Notes on an effective yield basis. The amortization of the net deferred gain was \$2.6 million, \$2.7 million and \$2.8 million for the years ended December 31, 2025, 2024 and 2023, respectively. The remaining total deferred gain as of December 31, 2025 and 2024 was \$4.5 million and \$8.1 million, respectively.

19. Equity Transactions

Common Stock

Changes in the number of shares of common stock outstanding are as follows for the periods presented:

	December 31,		
	2025	2024	2023
Shares of common stock outstanding, beginning	50,833,749	51,955,994	52,830,381
Vested restricted stock and restricted stock units, net (1)	163,265	178,120	170,911
Issuance related to performance share units (1)	131,078	133,136	142,091
Issuance related to ESPP	97,129	115,019	131,815
Shares of common stock repurchased	(1,432,302)	(1,548,520)	(1,319,204)
Shares of common stock outstanding, ending	<u>49,792,919</u>	<u>50,833,749</u>	<u>51,955,994</u>

- (1) Vested restricted stock, restricted stock units and performance share units are shown net of shares of common stock retired to cover participant income tax liabilities.

The Company is authorized to issue 800,000,000 shares of common stock. In addition, 150,001 shares of Class B common stock and 400,001 shares of Class C common stock are authorized but have not been issued.

Preferred Stock

The Company is authorized to issue 200,000,000 shares of preferred stock. As of December 31, 2025, none are outstanding.

Stock Repurchase

In November 2025, the Company's Board of Directors (the "Board") authorized the Company to repurchase up to \$700.0 million aggregate cost at purchase of its outstanding common stock. In November 2023, the Board authorized the Company to repurchase up to \$600.0 million aggregate cost at purchase of its outstanding common stock.

During the year ended December 31, 2025, the Company repurchased 1,432,302 shares of the Company's outstanding common stock at a cost of \$299.9 million, exclusive of commissions, leaving \$774.6 million remaining in the aggregate under the November 2025 and November 2023 repurchase authorizations at December 31, 2025. During the years ended December 31, 2024 and 2023, the Company repurchased 1,548,520 and 1,319,204 shares of the Company's outstanding common stock at a cost, exclusive of commissions, of \$299.9 million and \$200.0 million, respectively.

The timing and the amount of future repurchases will depend on market conditions, the Company's financial condition, results of operations and liquidity and other factors.

20. Stock Based Compensation

In accordance with the guidance on share-based compensation, the Company recognized stock-based compensation costs based on the grant date fair value. For the years ended December 31, 2025, 2024 and 2023, the Company recognized compensation costs net of a 5% per year estimated forfeiture rate on a pro-rated basis over the remaining vesting period.

Long-Term Equity Incentive Plan

Under the Assurant, Inc. 2017 Long Term Equity Incentive Plan (the "ALTEIP"), as amended and restated, the Company is authorized to issue up to 1,840,112 new shares of the Company's common stock to employees, officers, consultants and non-employee directors. Under the ALTEIP, the Company may grant awards based on shares of its common stock, including stock options, stock appreciation rights, restricted stock (including performance shares), unrestricted stock, restricted stock units ("RSUs"), performance units (also known as performance share units or "PSUs") and dividend equivalents. All share-based grants are awarded under the ALTEIP.

The Compensation and Talent Committee of the Board (the "Compensation Committee") awards RSUs and PSUs annually. RSUs and PSUs are promises to issue actual shares of common stock at the end of a vesting period or performance period. Under the ALTEIP and the related equity grant policy, the Company's CEO is authorized by the Board to grant common stock, restricted stock and RSUs to employees other than the Company's Section 16 officers as CEO Equity Awards and On Cycle ALTEIP Awards. For the CEO Equity Awards, the Compensation Committee recommends total annual funding and the awards are expressed as a dollar amount converted into shares as of each grant date. Restricted stock and RSUs granted under the CEO Equity Awards program may have different vesting periods.

Restricted Stock Units

The fair value of RSUs is estimated using the fair market value of a share of the Company's common stock at the date of grant. The RSUs granted to employees under the ALTEIP are based on salary grade and performance and generally vest one-third each year over a three-year period. RSUs receive dividend equivalents in cash during the restricted period and do not have voting rights during the restricted period. RSUs granted to non-employee directors also vest one-third each year over a three-year period; however, issuance of vested shares and payment of dividend equivalents is deferred until separation from Board service.

A summary of the Company's outstanding RSUs is presented below:

	Restricted Stock Units	Weighted- Average Grant- Date Fair Value
Restricted stock units outstanding at December 31, 2024	502,954	\$ 146.56
Grants (1)	174,637	210.46
Vests (2)	(233,832)	147.88
Forfeitures and adjustments	(20,059)	185.40
Restricted stock units outstanding at December 31, 2025	423,700	\$ 170.36
Restricted stock units vested, but deferred at December 31, 2025	60,646	\$ 111.86

- (1) The weighted average grant date fair value for RSUs granted in 2024 and 2023 was \$181.54 and \$116.76, respectively.
- (2) The total fair value of RSUs vested was \$48.8 million, \$45.5 million and \$29.9 million for the years ended December 31, 2025, 2024 and 2023, respectively.

The following table shows a summary of RSU compensation expense during the years ended December 31, 2025, 2024 and 2023:

	Years Ended December 31,		
	2025	2024	2023
RSU compensation expense	\$ 33.9	\$ 33.0	\$ 31.7
Income tax benefit	(6.2)	(6.1)	(6.0)
RSU compensation expense, net of tax	<u>\$ 27.7</u>	<u>\$ 26.9</u>	<u>\$ 25.7</u>

As of December 31, 2025, there was \$18.2 million of unrecognized compensation cost related to outstanding RSUs. That cost is expected to be recognized over a weighted-average period of 0.88 years.

Performance Share Units

The number of shares of common stock a participant will receive upon vesting of a PSU award is contingent upon the Company's performance with respect to selected metrics, as identified below. The payout levels can vary between 0% and 200% (maximum) of the target (100%) ALTEIP award amount, based on the Company's level of performance against the selected metrics. PSUs accrue dividend equivalents during the performance period based on a target payout and will be paid in cash at the end of the performance period based on the actual number of shares issued.

The Compensation Committee has established two equally weighted performance measures for PSU awards:

- Total shareholder return relative to the S&P 500 Index ("market condition"), defined as appreciation in the Company's common stock plus dividend yield to stockholders and will be measured by the performance of the Company relative to the S&P 500 Index over the three-year performance period.
- Adjusted earnings per diluted common share, excluding reportable catastrophes ("performance condition") is a Company-specific profitability metric and is defined as the Company's adjusted earnings, excluding reportable catastrophes, divided by the fully diluted weighted average common shares outstanding. This metric is an absolute metric that is measured against a three-year cumulative target established by the Compensation Committee at the award date and is not tied to the performance of peer companies. Prior to 2023, net operating income per diluted common share, excluding reportable catastrophes, was used as the company specific profitability metric.

A summary of the Company's outstanding PSUs is presented below:

	Performance Share Units	Weighted- Average Grant- Date Fair Value
Performance share units outstanding at December 31, 2024	585,506	\$ 170.44
Grants (1)	174,473	237.14
Vests (2)	(205,515)	223.65
Performance adjustment (3)	55,695	240.65
Forfeitures and adjustments	<u>(27,739)</u>	209.49
Performance share units outstanding at December 31, 2025	<u>582,420</u>	\$ 176.53

- (1) The weighted average grant date fair value for PSUs granted in 2024 and 2023 was \$207.00 and \$114.91, respectively.
- (2) The total fair value of PSUs vested was \$43.3 million, \$39.8 million and \$25.8 million for the years ended December 31, 2025, 2024 and 2023, respectively.
- (3) Represents the change in PSUs issued based upon the attainment of performance goals established by the Company.

PSU grants above represent initial target awards and do not reflect potential increases or decreases resulting from the Company's level of performance against the selected metrics to be determined at the end of the prospective performance period.

The fair value of the performance condition was estimated using the fair market value of a share of the Company's common stock at the date of grant. The fair value of the market condition was estimated on the date of grant using a Monte Carlo simulation model, which utilizes multiple variables that determine the probability of satisfying the market condition stipulated in the award. Expected volatilities were based on the historical prices of the Company's common stock and peer group, the expected term was assumed to equal the average of the vesting period of the PSUs and the risk-free rate was based on the U.S. Treasury yield curve in effect at the time of grant.

	For awards granted during the years ended December 31,		
	2025	2024	2023
Expected volatility	25.86 %	25.76 %	26.84 %
Expected term (years)	2.79	2.79	2.80
Risk free interest rate	3.92 %	4.44 %	3.93 %

The following table shows a summary of PSU compensation expense during the years ended December 31, 2025, 2024 and 2023:

	Years Ended December 31,		
	2025	2024	2023
PSU compensation expense	\$ 48.7	\$ 45.4	\$ 40.3
Income tax benefit	(6.1)	(6.0)	(5.8)
PSU compensation expense, net of tax	<u>\$ 42.6</u>	<u>\$ 39.4</u>	<u>\$ 34.5</u>

As of December 31, 2025, there was \$36.4 million of unrecognized compensation cost related to outstanding PSUs. That cost is expected to be recognized over a weighted-average period of 0.64 years.

Employee Stock Purchase Plan

Under the Employee Stock Purchase Plan (the “ESPP”), the Company is authorized to issue up to 5,000,000 new shares of common stock to employees who are participants in the ESPP. The ESPP allows eligible employees to contribute, through payroll deductions, portions of their after-tax compensation in each offering period toward the purchase of shares of the Company’s common stock. There are two offering periods during the year (January 1 through June 30 and July 1 through December 31) and shares of common stock are purchased at the end of each offering period at 90% of the lower of the closing price of the common stock on the first or last day of the offering period. Participants must be employed on the last trading day of the offering period in order to purchase shares of common stock under the ESPP. The maximum number of shares of common stock that can be purchased is 5,000 per employee. Participants’ contributions are limited to a maximum contribution of \$7.5 thousand per offering period, or \$15.0 thousand per year.

The ESPP is offered to individuals who are scheduled to work a certain number of hours per week, have been continuously employed for at least six months by the start of the offering period, are not temporary employees (classified as temporary and employed less than 12 months) and have not been on a leave of absence for more than 90 days immediately preceding the offering period.

In January 2026, the Company issued 47,628 shares of common stock at a discounted price of \$177.89 for the offering period of July 1, 2025 through December 31, 2025. In January 2025, the Company issued 50,763 shares of common stock at a discounted price of \$150.20 for the offering period of July 1, 2024 through December 31, 2024.

In July 2025, the Company issued 46,365 shares of common stock to employees at a discounted price of \$177.74 for the offering period of January 1, 2025 through June 30, 2025. In July 2024, the Company issued 49,969 shares of common stock to employees at a discounted price of \$149.63 for the offering period of January 1, 2024 through June 30, 2024.

The compensation expense recorded related to the ESPP was \$3.1 million, \$2.8 million and \$3.1 million for the years ended December 31, 2025, 2024 and 2023, respectively. The related income tax benefit for disqualified disposition was \$0.2 million for the years ended December 31, 2025 and December 31, 2024, and 0.1 million for the year ended December 31, 2023.

The fair value of each award under the ESPP was estimated at the beginning of each offering period using the Black-Scholes option-pricing model and assumptions in the table below. Expected volatilities are based on implied volatilities from traded options on the Company’s common stock and the historical volatility of the Company’s common stock. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. The dividend yield is based on the current annualized dividend and common stock price as of the grant date.

	For awards issued during the years ended December 31,		
	2025	2024	2023
Expected volatility	23.10 - 25.92%	19.60 - 23.95%	28.57 - 31.63%
Risk free interest rates	4.25 - 4.29%	5.24 - 5.37%	4.77 - 5.53%
Dividend yield	1.50 - 1.61%	1.68 - 1.71%	2.18 - 2.20%
Expected term (years)	0.5	0.5	0.5

Non-Stock Based Incentive Plans

Deferred Compensation

The Company's deferred compensation programs consist of the AIP, the ASIC and the ADC. The AIP and the ASIC provided key employees the ability to exchange a portion of their compensation for options to purchase certain third-party mutual funds. The AIP and the ASIC were frozen in December 2004 and no additional contributions can be made to either the AIP or the ASIC. Effective March 1, 2005 and amended and restated on January 1, 2025, the ADC Plan was established in order to comply with the American Jobs Creation Act of 2004 (the "Jobs Act") and Section 409A of the Internal Revenue Code of 1986, as amended (the "IRC"). The ADC provides key employees the ability to defer a portion of their eligible compensation to be notionally invested in a variety of mutual funds. Deferrals and withdrawals under the ADC are intended to be fully compliant with the Jobs Act definition of eligible compensation and distribution requirements.

21. Accumulated Other Comprehensive Income

Certain amounts included in the consolidated statements of comprehensive income are net of reclassification adjustments. The following tables summarize those reclassification adjustments (net of taxes) for the periods indicated:

	Year Ended December 31, 2025				
	Foreign currency translation adjustment	Net unrealized losses on investments	Net unrealized gains on derivative transactions	Unamortized net losses on Pension Plans	Accumulated other comprehensive loss
Balance at December 31, 2024	\$ (415.2)	\$ (291.9)	\$ 2.2	\$ (131.2)	\$ (836.1)
Change in accumulated other comprehensive income (loss) before reclassifications	63.7	171.5	1.2	(3.2)	233.2
Amounts reclassified from accumulated other comprehensive income (loss)	—	57.4	(1.6)	2.9	58.7
Net current-period other comprehensive income (loss)	63.7	228.9	(0.4)	(0.3)	291.9
Balance at December 31, 2025	<u>\$ (351.5)</u>	<u>\$ (63.0)</u>	<u>\$ 1.8</u>	<u>\$ (131.5)</u>	<u>\$ (544.2)</u>
	Year Ended December 31, 2024				
	Foreign currency translation adjustment	Net unrealized losses on investments	Net unrealized gains on derivative transactions	Unamortized net losses on Pension Plans	Accumulated other comprehensive loss
Balance at December 31, 2023	\$ (351.9)	\$ (305.5)	\$ 8.5	\$ (116.1)	\$ (765.0)
Change in accumulated other comprehensive income (loss) before reclassifications	(63.3)	(43.0)	—	(13.4)	(119.7)
Amounts reclassified from accumulated other comprehensive income (loss)	—	56.6	(6.3)	(1.7)	48.6
Net current-period other comprehensive income (loss)	(63.3)	13.6	(6.3)	(15.1)	(71.1)
Balance at December 31, 2024	<u>\$ (415.2)</u>	<u>\$ (291.9)</u>	<u>\$ 2.2</u>	<u>\$ (131.2)</u>	<u>\$ (836.1)</u>

Year Ended December 31, 2023

	Foreign currency translation adjustment	Net unrealized losses on investments	Net unrealized gains on derivative transactions	Unamortized net losses on Pension Plans	Accumulated other comprehensive loss
Balance at December 31, 2022	\$ (394.0)	\$ (513.2)	\$ 9.8	\$ (88.8)	\$ (986.2)
Change in accumulated other comprehensive income (loss) before reclassifications	42.1	171.9	(0.6)	(17.6)	195.8
Amounts reclassified from accumulated other comprehensive income (loss)	—	35.8	(0.7)	(9.7)	25.4
Net current-period other comprehensive income (loss)	42.1	207.7	(1.3)	(27.3)	221.2
Balance at December 31, 2023	<u>\$ (351.9)</u>	<u>\$ (305.5)</u>	<u>\$ 8.5</u>	<u>\$ (116.1)</u>	<u>\$ (765.0)</u>

The following tables summarize the reclassifications out of AOCI for the periods indicated.

Details about AOCI components	Amount reclassified from AOCI			Affected line item in the statement where net income is presented
	Years Ended December 31,			
	2025	2024	2023	
Net unrealized losses on investments	\$ 72.7	\$ 71.6	\$ 45.3	Net realized losses on investments and fair value changes to equity securities
	(15.3)	(15.0)	(9.5)	Income tax expense
	<u>\$ 57.4</u>	<u>\$ 56.6</u>	<u>\$ 35.8</u>	Net of tax
Net unrealized (gains) losses on derivative transactions related to:				
Interest rate derivatives	\$ (2.6)	\$ (2.8)	\$ (3.4)	Interest expense
Interest rate derivatives	(0.3)	—	—	Loss (gain) on extinguishment of debt
Foreign exchange derivatives	0.9	(5.2)	2.5	Underwriting, selling, general and administrative expenses
	(2.0)	(8.0)	(0.9)	
	0.4	1.7	0.2	Income tax expense
	<u>\$ (1.6)</u>	<u>\$ (6.3)</u>	<u>\$ (0.7)</u>	Net of tax
Amortization of pension and postretirement unrecognized net periodic benefit cost:				
Amortization of net loss	\$ 1.2	\$ 1.2	\$ 1.0	(1)
Amortization of prior service credit	—	(13.5)	(13.5)	(1)
Settlement loss	2.5	10.2	0.2	(1)
	3.7	(2.1)	(12.3)	
	(0.8)	0.4	2.6	Income tax expense
	<u>\$ 2.9</u>	<u>\$ (1.7)</u>	<u>\$ (9.7)</u>	Net of tax
Total reclassifications for the period	<u>\$ 58.7</u>	<u>\$ 48.6</u>	<u>\$ 25.4</u>	Net of tax

(1) These AOCI components are included in the computation of net periodic pension cost. See Note 23 for additional information.

22. Statutory Information

The Company's insurance subsidiaries prepare financial statements in accordance with Statutory Accounting Principles ("SAP") prescribed or permitted by the insurance departments of their states of domicile. Prescribed SAP includes the Accounting Practices and Procedures Manual of the National Association of Insurance Commissioners ("NAIC") as well as state laws, regulations and administrative rules.

The principal differences between SAP and GAAP are: (1) policy acquisition costs are expensed as incurred under SAP, but are deferred and amortized under GAAP; (2) VOBA is not capitalized under SAP but is under GAAP; (3) the classification and carrying amounts of investments in certain securities are different under SAP than under GAAP; (4) the criteria for providing asset valuation allowances, and the methodologies used to determine the amounts thereof, are different under SAP than under GAAP; (5) the timing of establishing certain reserves, and the methodologies used to determine the amounts thereof, are different under SAP than under GAAP; (6) certain assets are not admitted for purposes of determining surplus under SAP; (7) methodologies used to determine the amounts of deferred taxes, intangible assets and goodwill are different under SAP than under GAAP; and (8) the criteria for obtaining reinsurance accounting treatment is different under SAP than under GAAP, and SAP allows net presentation of insurance reserves and reinsurance recoverables.

The combined statutory net income, excluding intercompany dividends and surplus note interest, and capital and surplus of the Company's U.S. domiciled statutory insurance subsidiaries is as follows:

	Years Ended December 31,		
	2025	2024	2023
Property and casualty companies	\$ 740.9	\$ 546.0	\$ 529.4
Life and health companies	14.9	22.2	13.7
Total statutory net income	<u>\$ 755.8</u>	<u>\$ 568.2</u>	<u>\$ 543.1</u>

	December 31,	
	2025	2024
Property and casualty companies	\$ 1,636.9	\$ 1,642.8
Life and health companies (1)	89.0	85.5
Total statutory capital and surplus	<u>\$ 1,725.9</u>	<u>\$ 1,728.3</u>

(1) Includes \$10.9 million for a subsidiary that is held for sale as of December 31, 2025. See Note 3 for more information.

The Company also has non-insurance subsidiaries and foreign insurance subsidiaries that are not subject to SAP. The statutory net income and statutory capital and surplus amounts presented above do not include non-insurance subsidiaries and foreign insurance subsidiaries in accordance with SAP.

Insurance enterprises are required by state insurance departments to adhere to minimum risk-based capital ("RBC") requirements developed by the NAIC. The Company's insurance subsidiaries expect to exceed minimum RBC requirements as of December 31, 2025. In addition, all of our rated insurance subsidiaries currently maintain an A.M. Best financial strength rating of A.

The payment of dividends to the Company by any of the Company's regulated U.S. domiciled insurance subsidiaries in excess of a certain amount (i.e., extraordinary dividends) must be approved by the subsidiary's domiciliary jurisdiction department of insurance. Ordinary dividends, for which no regulatory approval is generally required, are limited to amounts determined by a formula, which varies by jurisdiction. The formula for the majority of the jurisdictions in which the Company's subsidiaries are domiciled is based on the prior year's statutory net income or 10% of the statutory surplus as of the end of the prior year. Some jurisdictions limit ordinary dividends to the greater of these two amounts, others limit them to the lesser of these two amounts and some jurisdictions exclude prior year realized capital gains from prior year net income in determining ordinary dividend capacity. Some jurisdictions have an additional stipulation that dividends may only be paid out of earned surplus. If insurance regulators determine that payment of an ordinary dividend or any other payments by the Company's insurance subsidiaries to the Company (such as payments under a tax sharing agreement or payments for employee or other services) would be adverse to policyholders or creditors, the regulators may block such payments that would otherwise be permitted without prior approval. Based on the dividend restrictions under applicable laws and regulations, the maximum amount of dividends that the Company's U.S. domiciled insurance subsidiaries could pay to the Company in 2026 without regulatory approval is approximately \$791.9 million. No assurance can be given that there will not be further regulatory actions restricting the ability of the Company's insurance subsidiaries to pay dividends.

23. Retirement and Other Employee Benefits

Defined Benefit Plans

The Company and its subsidiaries participate in a non-contributory, qualified defined benefit pension plan (“Assurant Pension Plan”) covering substantially all employees. The Assurant Pension Plan is considered “qualified” because it meets the requirements of IRC Section 401(a) (“IRC 401(a)”) and the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Assurant Pension Plan is a pension equity plan with a grandfathered final average earnings plan for a certain group of employees. Benefits are based on certain years of service and the employee’s compensation during certain such years of service. The Company’s funding policy is to contribute amounts to the Assurant Pension Plan sufficient to meet the minimum funding requirements in ERISA, plus such additional amounts as the Company may determine to be appropriate from time to time up to the maximum permitted. During the year ended December 31, 2025, there were no contributions to the Assurant Pension Plan and, due to the Assurant Pension Plan’s current funding status, no contributions are expected during the year ending December 31, 2026. Assurant Pension Plan assets are maintained in a separate trust. Assurant Pension Plan assets and benefit obligations are measured as of December 31, 2025.

The Company also has various non-contributory, non-qualified supplemental plans covering certain employees including the Assurant Executive Pension Plan and the Assurant Supplemental Executive Retirement Plan (the “SERP”). Since these plans are “non-qualified” they are not subject to the requirements of IRC 401(a) and ERISA. As such, the Company is not required, and does not, fund these plans. The qualified and non-qualified plans are referred to as “Pension Benefits” unless otherwise noted. The Company has the right to modify or terminate these benefits; however, the Company will not be relieved of its obligation to plan participants for their vested benefits.

Effective January 1, 2014, the Pension Benefits plans were closed to new hires. Effective March 1, 2016, the Pension Benefits, Retirement Health Benefits (defined below) and life benefits (together, the “Plans”) were amended such that no additional benefits will be earned after February 29, 2016.

In addition, until terminated effective December 31, 2024 (the “Termination Date”), the Company provided certain health care benefits for retired employees and their dependents (“Retirement Health Benefits”). Retirement Health Benefits were paid through the Termination Date. The Company will continue to provide certain life benefits for retired employees following termination of the Retirement Health Benefits (together, “Plan Benefits”).

The following table presents information on the Plans for the periods indicated:

	Pension Benefits		Plan Benefits	
	2025	2024	2025	2024
Change in projected benefit obligation				
Projected benefit obligation at beginning of year	\$ (544.1)	\$ (599.8)	\$ (0.9)	\$ (4.9)
Interest cost	(27.1)	(28.9)	—	(0.2)
Actuarial gain	(11.4)	49.5	—	(0.5)
Benefits paid	42.2	35.1	—	4.7
Projected benefit obligation at end of year	<u>\$ (540.4)</u>	<u>\$ (544.1)</u>	<u>\$ (0.9)</u>	<u>\$ (0.9)</u>
Change in plan assets				
Fair value of plan assets at beginning of year	\$ 581.3	\$ 636.7	\$ —	\$ 26.0
Actual return on plan assets	47.4	11.2	—	0.3
Employer contributions	4.7	4.7	—	0.2
Settlements	—	(34.3)	—	—
Benefits paid (including administrative expenses)	(43.5)	(37.0)	—	(4.7)
Net transfer in/(out) (including effect of any business combinations/divestitures)	—	—	—	(21.8)
Fair value of plan assets at end of year	<u>\$ 589.9</u>	<u>\$ 581.3</u>	<u>\$ —</u>	<u>\$ —</u>
Funded status at end of year	<u>\$ 49.5</u>	<u>\$ 37.2</u>	<u>\$ (0.9)</u>	<u>\$ (0.9)</u>

In accordance with the guidance on retirement benefits, the Company aggregates the results of the qualified and non-qualified plans as “Pension Benefits” and is required to disclose the aggregate projected benefit obligation, accumulated benefit obligation and fair value of plan assets, if the obligations within those plans exceed plan assets.

As of December 31, 2025 and 2024, the fair value of plan assets, projected benefit obligation, funded status at end of year and the accumulated benefit obligation of Pension Benefits were as follows:

	Qualified Pension Benefits		Unfunded Nonqualified Pension Benefits		Total Pension Benefits	
	2025	2024	2025	2024	2025	2024
Fair value of plan assets	\$ 589.9	\$ 581.3	\$ —	\$ —	\$ 589.9	\$ 581.3
Projected benefit obligation	(493.8)	(497.2)	(46.6)	(46.9)	(540.4)	(544.1)
Funded status at end of year	\$ 96.1	\$ 84.1	\$ (46.6)	\$ (46.9)	\$ 49.5	\$ 37.2
Accumulated benefit obligation	\$ 493.8	\$ 497.2	\$ 46.6	\$ 46.9	\$ 540.4	\$ 544.1

Amounts recognized in the consolidated balance sheets consist of:

	Pension Benefits		Plan Benefits	
	2025	2024	2025	2024
Assets	\$ 96.1	\$ 84.1	\$ —	\$ —
Liabilities	\$ (46.6)	\$ (46.9)	\$ (0.9)	\$ (0.9)

Amounts recognized in AOCI consist of:

	Pension Benefits			Plan Benefits		
	2025	2024	2023	2025	2024	2023
Net (loss) gain	\$ (165.3)	\$ (162.7)	\$ (158.5)	\$ (0.8)	\$ (3.3)	\$ (1.8)
Prior service (cost) credit	(0.3)	(0.3)	(0.3)	—	—	13.4
	\$ (165.6)	\$ (163.0)	\$ (158.8)	\$ (0.8)	\$ (3.3)	\$ 11.6

Components of net periodic benefit cost, recorded in underwriting, selling, general and administrative expenses in the consolidated statements of operations, and other amounts recognized in AOCI for the years ended December 31, 2025, 2024, and 2023 were as follows:

	Pension Benefits			Plan Benefits		
	2025	2024	2023	2025	2024	2023
Net periodic benefit cost						
Interest cost	\$ 27.1	\$ 28.9	\$ 30.5	\$ —	\$ 0.2	\$ 0.4
Expected return on plan assets	(38.4)	(40.1)	(40.9)	—	(1.3)	(1.5)
Amortization of prior service credit (cost)	—	—	—	—	(13.6)	(13.6)
Amortization of net loss (gain)	1.2	1.2	1.0	—	—	—
Curtailement/settlement loss	—	10.2	0.2	2.5	—	—
Net periodic benefit cost	\$ (10.1)	\$ 0.2	\$ (9.2)	\$ 2.5	\$ (14.7)	\$ (14.7)
Other changes in plan assets and benefit obligations recognized in accumulated other comprehensive income						
Net (gain) loss	3.7	15.5	22.2	—	1.5	(0.2)
Amortization of prior service (cost) credit	—	—	—	—	13.6	13.6
Amortization of net (loss) gain	(1.2)	(11.3)	(1.2)	(2.5)	—	—
Total recognized in accumulated other comprehensive (loss) income	\$ 2.5	\$ 4.2	\$ 21.0	\$ (2.5)	\$ 15.1	\$ 13.4
Total recognized in net periodic benefit cost and other comprehensive (loss) income	\$ (7.6)	\$ 4.4	\$ 11.8	\$ —	\$ 0.4	\$ (1.3)

The Company uses a five-year averaging method to determine the market-related value of Pension Benefits plan assets, which is used to calculate the expected return of plan assets component of the Plans' expense. Under this methodology, asset gains/losses that result from actual returns which differ from the Company's expected long-term rate of return on assets

assumption are recognized in the market-related value of assets on a level basis over a five-year period. The difference between actual as compared to expected asset returns for the Plans will be fully reflected in the market-related value of plan assets over the next five years using the methodology described above. Other post-employment benefit assets under the Plan Benefits were valued at fair value.

Determination of the projected benefit obligation was based on the following weighted-average assumptions for the years ended December 31, 2025, 2024 and 2023:

	Qualified Pension Benefits			Unfunded Nonqualified Pension Benefits			Plan Benefits		
	2025	2024	2023	2025	2024	2023	2025	2024	2023
Discount rate	5.32 %	5.60 %	5.14 %	5.11 %	5.51 %	5.11 %	5.54 %	5.69 %	5.63 %

Determination of the net periodic benefit cost was based on the following weighted-average assumptions for the years ended December 31, 2025, 2024 and 2023:

	Qualified Pension Benefits			Unfunded Nonqualified Pension Benefits			Plan Benefits		
	2025	2024	2023	2025	2024	2023	2025	2024	2023
Discount rates:									
Effective discount rate for benefit obligations	5.60 %	5.14 %	5.42 %	5.51 %	5.11 %	5.42 %	5.69 %	5.24 %	5.36 %
Effective rate for interest on benefit obligations	5.29 %	5.07 %	5.34 %	5.22 %	5.04 %	5.33 %	5.40 %	5.86 %	5.37 %
Expected long-term return on plan assets	5.95 %	5.70 %	5.70 %	— %	— %	— %	— %	5.70 %	5.70 %

The selection of the Company's discount rate assumption reflects the rate at which the Plans' obligations could be effectively settled at December 31, 2025, 2024 and 2023. The methodology for selecting the discount rate was to match each Plan's cash flows to that of a yield curve that provides the equivalent yields on zero-coupon corporate bonds for each maturity. The yield curve utilized in the cash flow analysis was comprised of 383 bonds rated AA by either Moody's or S&P's with maturities between zero and 30 years. The discount rate for each Plan is the single rate that produces the same present value of cash flows. The Company utilizes a split rate approach for purposes of determining the benefit obligations and service cost as well as a spot rate approach for the calculation of interest on these items in the determination of the net periodic benefit cost.

To develop the expected long-term rate of return on assets assumption, the Company considered the current level of expected returns on risk free investments (primarily government bonds), the historical level of the risk premium associated with the other asset classes in which the portfolio is invested and the expectations for future returns of each asset class. The expected long-term rate of return on Plan assets reflects the average rate of earnings expected on the funds invested or to be invested. The expected return for each asset class was then weighted based on the targeted asset allocation to develop the expected long-term rate of return on asset assumptions for the portfolio. The Company believes the current assumption reflects the projected return on the invested assets, given the current market conditions and the modified portfolio structure. Actual return (loss) on Plan assets was 8.1%, 1.7% and 5.6% for the years ended December 31, 2025, 2024 and 2023 respectively.

The assumed health care cost trend rates used in measuring the accumulated postretirement benefit obligation and net periodic benefit cost were as follows:

	Retirement Health Benefits		
	2025	2024	2023
Health care cost trend rate assumed for next year (1):			
Pre-65 Non-reimbursement Plan	N/A	N/A	5.6%
Post-65 Non-reimbursement Plan (Medical)	N/A	N/A	4.0%
Post-65 Non-reimbursement Plan (Rx)	N/A	N/A	7.0%
Pre-65 Reimbursement Plan	N/A	N/A	5.5%
Post-65 Reimbursement Plan	N/A	N/A	5.5%
Rate to which the cost trend rate is assumed to decline (the ultimate trend rate) (1)	N/A	N/A	4.0%
Year that the rate reaches the ultimate trend rate (1)			
Pre-65 Non-reimbursement Plan	N/A	N/A	2045
Post-65 Non-reimbursement Plan (Medical & Rx)	N/A	N/A	2045
Pre-65 Reimbursement Plan	N/A	N/A	2045
Post-65 Reimbursement Plan	N/A	N/A	2045

- (1) The Retirement Health Benefits Plan terminated effective December 31, 2024. Since the plan has terminated, there are no costs to bring forward to the following year so none of the trend rates are applicable for 2025 and 2024.

The assets of the Plans are managed to maximize their long-term pre-tax investment return, subject to the following dual constraints: minimization of required contributions and maintenance of solvency requirements. It is anticipated that periodic contributions to the Plans will, for the foreseeable future, be sufficient to meet benefit payments thus allowing the balance to be managed according to a long-term approach. The Benefit Plans Investment Committee (“BPIC”) for the Plans meets on a quarterly basis and reviews the re-balancing of existing fund assets and the asset allocation of new fund contributions.

The goal of the Company’s asset strategy is to ensure that the growth in the value of the Plans’ assets over the long-term, both in real and nominal terms, manages (controls) risk exposure. Risk is managed by investing in a broad range of asset classes, and within those asset classes, a broad range of individual securities. Diversification by asset classes stabilizes total results over short-term time periods. Each asset class is externally managed by outside investment managers appointed by the BPIC. Derivatives may be used consistent with the Plans’ investment objectives established by the BPIC. All securities must be U.S. Dollar denominated.

The BPIC oversees the investment of the Plans’ assets and periodically reviews the investment strategies, strategic asset allocation, liabilities and portfolio structure of the assets. After a 2017 review and considering the funded status of the Assurant Pension Plan, the BPIC transitioned plan assets to a new target asset allocation consisting of 80% fixed income, 10% real estate, 5% hedge funds and 5% equities.

The assets of the Plans are primarily invested in fixed maturity securities. Interest rate risk is hedged by aligning the duration of the fixed maturity securities with the duration of the liabilities. Specifically, interest rate swaps can be used if needed to synthetically extend the duration of fixed maturity securities to match the duration of the liabilities, as measured on a projected benefit obligation basis. In addition, the Plans’ fixed income securities have exposure to credit risk. In order to adequately diversify and limit exposure to credit risk, the BPIC established parameters which include a limit on the asset types that managers are permitted to purchase, maximum exposure limits by sector and by individual issuer (based on asset quality) and minimum required ratings on individual securities. As of December 31, 2025, 85% of plan assets were invested in fixed maturity securities and 19%, 17% and 10% of those securities were concentrated in the energy and power, finance and real estate, and communication industries, respectively, with no exposure to any single creditor in excess of 4%, 5% and 12% of those industries, respectively. As of December 31, 2025, 5% of plan assets were invested in equity securities and 100% of the Plans’ equity securities were invested in a mutual fund that attempts to replicate the return of the S&P 500 Index by investing its assets in large capitalization stocks that are included in the S&P 500 Index using a weighting similar to the S&P 500 Index. The remainder of the assets are invested in real estate and other alternative assets.

The fair value hierarchy for the Company's qualified pension plan assets at December 31, 2025 by asset category is as follows:

Qualified Pension Benefits Financial Assets	December 31, 2025		
	Total	Level 1	Level 2
Cash equivalents:			
Short-term investment funds	\$ 7.6	\$ —	\$ 7.6
Equity securities:			
Mutual funds - U.S. listed large cap	29.6	29.6	—
Fixed maturity securities:			
U.S. & foreign government and government agencies and authorities	138.2	—	138.2
Corporate - U.S. & foreign investment grade	329.2	—	329.2
Corporate - U.S. & foreign high yield	6.9	—	6.9
Mutual funds - U.S. investment grade	29.9	29.9	—
Other investments measured at net asset value (1)	90.9	—	—
Total financial assets (2)	\$ 632.3	\$ 59.5	\$ 481.9

- (1) In accordance with fair value measurements and disclosures guidance, certain investments that are measured at fair value using the net asset value practical expedient have not been classified in the fair value hierarchy. The net asset values of \$36.0 million, \$4.6 million and \$50.3 million as of December 31, 2025 are used as a practical expedient to fair value of the multi-strategy hedge fund, private equity fund and real estate fund, respectively.
- (2) The difference between the fair value of Plan assets above and the amount used in determining the funded status is due to interest receivable and net receivable/payable for unsettled trades, which is not required to be included in the fair value hierarchy.

The fair value hierarchy for the Company's qualified pension plan assets at December 31, 2024 by asset category is as follows:

Qualified Pension Benefits Financial Assets	December 31, 2024		
	Total	Level 1	Level 2
Cash and cash equivalents:			
Short-term investment funds	\$ 7.8	\$ —	\$ 7.8
Equity securities:			
Mutual funds - U.S. listed large cap	29.2	29.2	—
Fixed maturity securities:			
U.S. & foreign government and government agencies and authorities	144.0	—	144.0
Corporate - U.S. & foreign investment grade	334.7	—	334.7
Corporate - U.S. & foreign high yield	10.9	—	10.9
Mutual funds - U.S. investment grade	14.4	14.4	—
Other investments measured at net asset value (1)	106.6	—	—
Total financial assets (2)	\$ 647.6	\$ 43.6	\$ 497.4

- (1) In accordance with fair value measurements and disclosures guidance, certain investments that are measured at fair value using the net asset value practical expedient have not been classified in the fair value hierarchy. The net asset values of \$46.9 million, \$4.7 million and \$55.0 million as of December 31, 2024 are used as a practical expedient to fair value of the multi-strategy hedge fund, private equity fund and real estate fund, respectively.
- (2) The difference between the fair value of Plan assets above and the amount used in determining the funded status is due to interest receivable and net receivable/payable for unsettled trades, which is not required to be included in the fair value hierarchy.

Level 1 and Level 2 securities are valued using various observable market inputs obtained from a pricing service. The pricing service prepares estimates of fair value measurements for the Company's Level 2 securities using proprietary valuation models based on techniques such as matrix pricing which include observable market inputs. Observable market inputs for Level 1 and Level 2 securities are consistent with the observable market inputs described in Note 9.

The Company obtains one price for each investment. A quarterly analysis is performed to assess if the evaluated prices represent a reasonable estimate of their fair value. This process involves quantitative and qualitative analysis and is overseen by benefits, investment and accounting professionals. Examples of procedures performed include initial and on-going review of pricing service methodologies, review of pricing statistics and trends, and comparison of prices for certain securities with two different appropriate price sources for reasonableness. Following this analysis, the Company uses the best estimate of fair value

based upon all available inputs. The pricing service provides information regarding their pricing procedures so that the Company can properly categorize the Plans' financial assets in the fair value hierarchy.

The following pension benefits are expected to be paid over the next ten-year period:

	Pension Benefits	Plan Benefits
2026	\$ 50.6	\$ 0.1
2027	48.7	0.1
2028	48.7	0.1
2029	48.5	—
2030	48.2	—
2031 - 2035	210.0	0.3
Total	<u>\$ 454.7</u>	<u>\$ 0.6</u>

Defined Contribution Plan

The Company and its subsidiaries participate in a defined contribution plan covering substantially all employees. The defined contribution plan provides benefits payable to participants at retirement or upon disability and to beneficiaries of participants in the event of the participant's death. The amounts expensed by the Company related to this plan were \$45.4 million, \$43.5 million and \$44.1 million for the years ended December 31, 2025, 2024 and 2023, respectively.

24. Earnings Per Common Share

The following table presents net income, the weighted average common shares used in calculating basic EPS and those used in calculating diluted EPS for each period presented below. Diluted EPS reflects the incremental common shares from common shares issuable upon vesting of PSUs and ESPP using the treasury stock method. Refer to Notes 19 and 20 for further information regarding potential common stock issuances. The outstanding RSUs have non-forfeitable rights to dividend equivalents and are therefore included in calculating basic and diluted EPS under the two-class method.

	Years Ended December 31,		
	2025	2024	2023
Numerator			
Net income	\$ 872.7	\$ 760.2	\$ 642.5
Less: Earnings allocated to participating securities	(7.7)	(7.7)	(7.0)
Net income used in basic and diluted per common share calculations	<u>\$ 865.0</u>	<u>\$ 752.5</u>	<u>\$ 635.5</u>
Denominator			
Weighted average common shares outstanding used in basic per common share calculations	50,469,633	51,703,588	52,870,380
Incremental common shares from:			
PSUs	593,853	324,484	294,808
ESPP	23,163	24,889	33,122
Weighted average common shares outstanding used in diluted per common share calculations	<u>51,086,649</u>	<u>52,052,961</u>	<u>53,198,310</u>
Earnings per common share – Basic	\$ 17.14	\$ 14.55	\$ 12.02
Earnings per common share – Diluted	\$ 16.93	\$ 14.46	\$ 11.95

There were no anti-dilutive PSUs for the year ended December 31, 2025. Average PSUs totaling 48,859 and 56,456 for the years ended 2024 and 2023, respectively, were outstanding but were anti-dilutive and thus not included in the computation of diluted EPS under the treasury stock method.

25. Restructuring and Related Impairment Charges

In December 2025, the Company finalized a new restructuring plan (the “2025 Plan”) to optimize operational efficiencies and reduce its global footprint. Total costs of \$28.7 million were incurred for the year ended December 31, 2025 related to the 2025 Plan, and no additional costs are expected to be incurred for this plan.

In December 2022, the Company finalized a restructuring plan (the “2022 Plan”) to realize greater efficiencies by continuing to simplify its business portfolio and leverage its global footprint to reduce costs. In September 2023, the Company amended and extended the 2022 Plan to include additional actions within the initiatives described above, including further consolidation of its real estate portfolio and additional changes to its organizational structure. These actions were completed in 2025, with some remaining payments scheduled into 2027.

The following table summarizes the costs by major type for both the 2025 Plan and 2022 Plan that are recorded in underwriting, selling, general and administrative expenses in the consolidated statement of operations for the years ended December 31, 2025, 2024 and 2023. Substantially all of the charges are expected to be cash. Restructuring costs related to strategic exit activities (outside of normal periodic restructuring and cost management activities) are not allocated to a reportable segment.

	Costs incurred for the year ended December 31,		
	2025	2024	2023
Severance and other employee benefits	\$ 23.5	\$ 4.5	\$ 21.0
Contract exit costs	2.3	0.9	6.5
Fixed asset impairment	0.1	—	1.2
Right-of-use asset impairment	1.4	—	5.6
Total restructuring and impairment charges	<u>\$ 27.3</u>	<u>\$ 5.4</u>	<u>\$ 34.3</u>

The following table shows the rollforward of the accrued liability by major type.

	Severance and Other Employee Benefits		Contract Exit Costs	
Balance at December 31, 2023	\$	27.8	\$	17.1
Charges incurred		5.5		1.1
Cash payments		(18.9)		(6.8)
Non-cash adjustment (1)		(1.0)		(0.2)
Balance at December 31, 2024		<u>13.4</u>		<u>11.2</u>
Charges incurred		29.3		5.9
Cash payments		(4.9)		(6.3)
Non-cash adjustment (1)		(5.8)		(3.6)
Balance at December 31, 2025	<u>\$</u>	<u>32.0</u>	<u>\$</u>	<u>7.2</u>

(1) Represents changes to previously estimated charges.

26. Commitments and Contingencies

Leases

The Company and its subsidiaries lease office space and equipment under operating lease arrangements. Certain facility leases contain escalation clauses based on increases in the lessors’ operating expenses.

As of December 31, 2025 and 2024, the lease liability was \$73.9 million and \$62.4 million, respectively, included in accounts payable and other liabilities in the consolidated balance sheets. As of December 31, 2025 and 2024, the right-of-use asset was \$59.2 million and \$54.1 million, respectively, included in other assets in the consolidated balance sheets. For the years ended December 31, 2025, 2024 and 2023 the operating lease cost recognized for leases with terms in excess of 12 months was \$19.0 million, \$23.2 million and \$19.0 million respectively, and related cash outflows reducing the lease liability were \$20.3 million, \$23.4 million and \$19.4 million, respectively. As of December 31, 2025, the weighted average remaining lease term and discount rate was 5.7 years and 5.5%, respectively. As of December 31, 2024, the weighted average remaining lease term and discount rate was 5.2 years and 5.6%, respectively. For the years ended December 31, 2025, 2024 and 2023 the short-term lease cost recognized for leases with terms of 12 months or less was \$3.3 million, \$1.1 million and \$1.1 million, respectively.

At December 31, 2025, the lease liability by maturity is as follows:

2026	\$	20.3
2027		16.7
2028		13.3
2029		11.7
2030		8.8
Thereafter		16.3
Total future lease payments		<u>87.1</u>
Less: Imputed interest		(13.2)
Total lease liability	\$	<u><u>73.9</u></u>

Letters of Credit

In the normal course of business, letters of credit are issued for various purposes. These letters of credit are supported by commitments under which the Company is required to indemnify the financial institution issuing the letter of credit if the letter of credit is drawn. The Company had \$1.7 million and \$1.8 million of letters of credit outstanding as of December 31, 2025 and 2024, respectively.

Legal and Regulatory Matters

The Company is involved in a variety of litigation and legal and regulatory proceedings relating to its current and past business operations and, from time to time, it may become involved in other such actions. The Company continues to defend itself vigorously in these proceedings. The Company has participated and may participate in settlements on terms that the Company considers reasonable.

The Company has established an accrued liability for certain legal and regulatory proceedings. The possible loss or range of loss resulting from such litigation and regulatory proceedings, if any, in excess of the amounts accrued is inherently unpredictable and uncertain. Consequently, no reasonable estimate can be made of any possible loss or range of loss in excess of the accrual. Although the Company cannot predict the outcome of any pending legal or regulatory proceeding, or the potential losses, fines, penalties or equitable relief, if any, that may result, it is possible that such outcome could have a material adverse effect on the Company's consolidated results of operations or cash flows for an individual reporting period. However, on the basis of currently available information, management does not believe that the pending matters are likely to have a material adverse effect, individually or in the aggregate, on the Company's financial condition.
