

Q2 2026 EARNINGS RESULTS

31 JULY 2026

MINING TO EMPOWER PEOPLE AND ADVANCE SOCIETIES

Certain statements contained in this document, other than statements of historical fact, including, without limitation, those concerning the economic outlook for the gold mining industry, expectations regarding gold prices, production, mine life, total cash costs, all-in sustaining costs, cost savings and other operating results, return on equity, productivity improvements, growth prospects, preliminary financial and production metrics for in-process projects, the ability to convert Mineral Resource into Mineral Reserve and replace Mineral Reserve net of depletion from production and outlook of AngloGold Ashanti plc's (the "Company", "AngloGold Ashanti" or "AGA") operations, individually or in the aggregate, including the achievement of project milestones, commencement and completion of commercial operations of certain of AngloGold Ashanti's exploration and production projects, the completion of acquisitions, dispositions or joint venture transactions, AngloGold Ashanti's liquidity and capital resources and capital expenditures and the outcome and consequences of any potential or pending litigation or regulatory proceedings or environmental, health and safety issues, are forward-looking statements regarding AngloGold Ashanti's financial reports, operations, economic performance and financial condition.

These forward-looking statements or forecasts are not based on historical facts, but rather reflect our current beliefs and expectations concerning future events and generally may be identified by the use of forward-looking words, phrases and expressions such as "believe", "expect", "aim", "anticipate", "intend", "foresee", "forecast", "predict", "project", "estimate", "likely", "may", "might", "could", "should", "would", "seek", "plan", "scheduled", "possible", "continue", "potential", "outlook", "target" or other similar words, phrases, and expressions; provided that the absence thereof does not mean that a statement is not forward-looking. Similarly, statements that describe our objectives, plans or goals are or may be forward-looking statements. These forward-looking statements or forecasts involve known and unknown risks, uncertainties and other factors that may cause AngloGold Ashanti's actual results, performance, actions or achievements to differ materially from the anticipated results, performance, actions or achievements expressed or implied in these forward-looking statements. Although AngloGold Ashanti believes that the expectations reflected in such forward-looking statements and forecasts are reasonable, no assurance can be given that such expectations will prove to have been correct. Accordingly, results, performance, actions or achievements could differ materially from those set out in the forward-looking statements as a result of, among other factors, changes in economic, social, political and market conditions, including related to inflation or international conflicts, the success of business and operating initiatives, changes in the regulatory environment and other government actions, including environmental approvals, fluctuations in gold prices and exchange rates, the outcome of pending or future litigation proceedings, any supply chain disruptions, any public health crises, pandemics or epidemics, the failure to maintain effective internal control over financial reporting or effective disclosure controls and procedures, the inability to remediate one or more material weaknesses, or the discovery of additional material weaknesses, in the Company's internal control over financial reporting, and other business and operational risks and challenges and other factors, including mining accidents. For a discussion of such risk factors, refer to AngloGold Ashanti's annual report on Form 20-F for the financial year ended 31 December 2025 filed with the United States Securities and Exchange Commission ("SEC"). These factors are not necessarily all of the important factors that could cause AngloGold Ashanti's actual results, performance, actions or achievements to differ materially from those expressed in any forward-looking statements. Other unknown or unpredictable factors could also have material adverse effects on AngloGold Ashanti's future results, performance, actions or achievements. Consequently, readers are cautioned not to place undue reliance on forward-looking statements. AngloGold Ashanti undertakes no obligation to update publicly or release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events, except to the extent required by applicable law. All subsequent written or oral forward-looking statements attributable to AngloGold Ashanti or any person acting on its behalf are qualified by the cautionary statements herein.

The information included in this presentation has not been reviewed or reported on by AngloGold Ashanti's external auditors.

Non-GAAP financial measures

This communication may contain certain "Non-GAAP" financial measures, including, for example, "total cash costs", "total cash costs per ounce", "all-in sustaining costs", "all-in sustaining costs per ounce", "average gold price received per ounce", "total cash cost margin", "sustaining capital expenditure", "non-sustaining capital expenditure", "EBITDA", "Net debt (cash)" and "free cash flow". AngloGold Ashanti utilises certain Non-GAAP performance measures and ratios in managing its business. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, the reported operating results or cash flow from operations or any other measures of performance prepared in accordance with IFRS. In addition, the presentation of these measures may not be comparable to similarly titled measures other companies may use. Reconciliations from IFRS to Non-GAAP financial measures can be found in the appendices to this presentation or in AngloGold Ashanti's Earnings Release for Q2 2026, which is available on its website.

STRATEGIC CATALYSTS | DE-RISKING HIGH-MARGIN GROWTH

MULTI-STAGE OPTIONS IN EXECUTION AND STUDIES UNDERWAY ON CAPITAL EFFICIENT GROWTH PROJECTS

BROWNFIELD GROWTH

Obuasi

- Growing production by an additional ~130koz to achieve targeted 400koz/pa by 2028
- Advancing additional surface source opportunities

Geita

- Advancing plant expansion evaluation with processing trade-offs nearing completion.
- Ongoing exploration to unlock potential underground and open pit upside

Cuiabá

- Extend life through Mineral Reserve growth, infrastructure upgrades
- Increase plant throughput via Line 2 refurbishment
- Higher ore feed from satellite operations being implemented

Sukari

- Mining expansion: new portal, fleet upgrade, accelerated stripping
- Processing: new adsorption tank, gravity circuit to improve recovery

Siguiri

- Progressing the development of additional satellite pit
- Progressing the study work to establish full plant treatment capacity of fresh rock (12mtpa)
- Extend life through Mineral Reserve growth, infrastructure upgrades

GREENFIELD GROWTH

c.500koz/pa

Nevada

- Arthur Gold Project (Merlin): Advancing to full Feasibility Study in H2 2026
- Ongoing Mineral Resource conversion drilling targeting the upgrade of 1.4 Moz from Inferred to Indicated categories

⁽¹⁾ The Company is not providing quantitative reconciliations to the most directly comparable IFRS measures for its Non-GAAP financial guidance shown above in reliance on the exception provided by Rule 100(a)(2) of Regulation G because the reconciliations cannot be performed without unreasonable efforts as such IFRS measures cannot be reliably estimated due to their dependence on future uncertainties and adjusting items, including, among other factors, changes in economic, social, political and market conditions, including related to inflation or international conflicts, the success of business and operating initiatives, changes in the regulatory environment and other government actions, including environmental approvals, fluctuations in gold prices and exchange rates, the outcome of pending or future litigation proceedings, any supply chain disruptions, any public health crises, pandemics or epidemics, and other business and operational risks and challenges and other factors, including mining accidents, that the Company cannot reasonably predict at this time but which may be material. Outlook economic assumptions for 2026 guidance are as follows: \$0.68/A\$, BRL5.47/\$, AP1,606/\$, ZAR16.90/\$, Brent \$61/bbl and gold price of approximately \$4,250/oz.

Cost and capital forecast ranges for 2026 are expressed in "nominal" terms. "Nominal" cash flows are current price term cash flows that have been inflated into future value, using an appropriate "inflation" rate. Cost and capital forecast ranges for 2027 are expressed in "real" terms. "Real" cash flows are adjusted for "inflation" in order to reflect the change in value of money over time. Estimates assume neither operational or labour interruptions or power disruptions, nor further changes to asset portfolio and/or operating mines and have not been reviewed by AngloGold Ashanti's external auditors. Other unknown or unpredictable factors, or factors outside the Company's control, including inflationary pressures on its cost base, could also have material adverse effects on AngloGold Ashanti's future results and no assurance can be given that any expectations expressed by AngloGold Ashanti will prove to have been correct. Measures taken at AngloGold Ashanti's operations together with AngloGold Ashanti's business continuity plans aim to enable its operations to deliver in line with its production targets. Actual results could differ from guidance, and any deviations may be significant. Please refer to the Risk Factors section in AngloGold Ashanti's annual report on Form 20-F for the financial year ended 31 December 2025 filed with the SEC.

⁽¹⁾ In addition to the operational performances of the mines, "all-in sustaining costs per ounce" and "total cash costs per ounce" are affected by fluctuations in the foreign currency exchange rate. AngloGold Ashanti reports "all-in sustaining costs per ounce" calculated to the nearest US dollar amount and gold sold in ounces. AngloGold Ashanti reports "total cash costs per ounce" calculated to the nearest US dollar amount and gold produced in ounces. Costs per ounce may not be calculated based on amounts presented in this table due to rounding.

⁽²⁾ Corporate and other includes non-gold producing managed operations and comprises Corporate, Africa other, Australia other and Americas other.

⁽³⁾ Total including equity-accounted non-managed joint ventures.

⁽⁴⁾ "Total cash costs per ounce" and "all-in sustaining costs per ounce" may not be calculated based on amounts presented in this table due to rounding. Rounding of figures may result in computational discrepancies.

Free cash flow* ⁽¹⁾	206

⁽¹⁾ Adjusted to exclude corporate restructuring costs.

During H1 2024, free cash flow was calculated and reported by AngloGold Ashanti to include cash inflow from operating activities, less cash outflow from investing activities and after finance costs, adjusted to exclude once-off acquisitions, disposals and corporate restructuring costs, and movements in restricted cash. To enhance comparability with industry peers, AngloGold Ashanti revised its definition of free cash flow in 2025 and it has since been calculated as operating cash flow less capital expenditure.
